NOTES

* Estimate should be used with caution because of the small number of sample returns on which it is based.

** In order to avoid disclosure of information for specific corporations, these data have been combined with data in a lower asset size class.

*** In order to avoid disclosure of information for specific corporations, these data have been deleted. Data are included in appropriate totals.

✓ This asset size class includes data from one or more higher size classes.

(-0) Less than $500 per return.

NOTE: The statistics at the major group level were derived by adding the appropriate minor industries after combinations of asset size classes or deletions had been made in order to avoid showing estimates based on too few sample returns. The statistics of industrial divisions were similarly derived by adding the appropriate major groups. For this reason, detail may not add to totals, and totals by asset size classes may differ from those published in the complete report, Statistics of Income—1976, Corporation Income Tax Returns.

1. Income year 1977 covers corporation accounting periods ended July 1977 through June 1978.

2. Constructive taxable income from related foreign corporations includes "Includable income of Controlled Foreign Corporations" and "Foreign dividend income resulting from foreign taxes deemed paid" (i.e., foreign taxes deemed paid by related foreign corporations in developed countries on the profits from which dividends were distributed).

3. Net income (less deficit) equals "Total receipts less total deductions" less "Interest on State and local Government obligations" plus "Constructive taxable income from related foreign corporations."

4. Income subject to tax

   For most corporations, income subject to tax consisted of "Net income" less "Statutory special deductions." However, certain of these deductions (a) could exceed net income resulting in no income subject to tax and (b) could occur on returns without net income and, therefore, without income subject to tax. Other exceptions applied to life insurance companies, regulated investment companies, real estate investment trusts, and to Small Business Corporations electing to be taxed through stockholders. See "Income Subject to Tax" in Explanation of Terms, STATISTICS OF INCOME—1977 CORPORATION INCOME TAX RETURNS.

5. See the report STATISTICS OF INCOME—1977, CORPORATION INCOME TAX RETURNS, for a discussion of these statistics including:

   Changes in law
   Description of the sample and limitations of the data
   Explanation of terms
   Comparision of Standard Industrial Classifications with groupings used for Statistics of Income
   Facsimilies of corporation income tax return forms, 1977
