

2006 Estimated Data Line Counts Individual Income Tax Returns

(Rev. 8-2008)

Douglas H. Shulman
Commissioner

This 2006 Statistics of Income (SOI) estimated data line counts indicates the **estimates** of frequencies of the entries on the lines of the forms and schedules filed with individual tax returns as shown on the 2006 Individual SOI Complete Report weighted file. It is based on returns filed in Processing Year 2007 that were sampled statistically and then weighted to estimate the entire 2006 Tax Year.

Changes for the Tax Year 2006 edition include: the addition of form 5695: Residential Energy Credits.

Variations of the three basic forms: 1040, 1040A, and 1040EZ, include electronically filed returns. The form variations were categorized into the basic forms according to the data reported on the return. For example, if a return was filed electronically and its characteristics indicate that it would otherwise have been filed on paper as a 1040 or 1040A, and then it would be classified as such statistically.

Limitations and Guidelines for The 2006 Data Line Counts

Since the line counts used in this package are obtained from the Tax Year 2006 Individual SOI Complete Report File, they are subject to the same limitations as the data that are included in the Complete Report File. These limitations are derived from the fact that these data are statistically sampled, meaning that the line counts included in this package are **estimates** based on samples, and should not be mistaken for actual counts of the entire population. While most forms and items are present often enough to provide accurate estimates, some less popular items **should be used with a high degree of caution**.

The sample used in this study is one of a large number of samples that could have been selected using the same sample design. The estimates calculated from these different samples would vary. The sample estimate and an estimate of its standard error permit the construction of interval estimates with prescribed confidence that the interval includes the population value. Shown below are 95 percent confidence intervals for selected Form 1040 items: (For example, the population value of number of returns for salaries and wages, with 95 percent confidence, is between 116,151,272 and 116,607,480.) These confidence intervals correspond to the estimates for all Individual Income Tax Returns filed for Tax Year 2006.

Forms whose line entries have weak estimates (implying a returns sampled count less than 50) are listed below. When there is a line entry reporting less than 10 in the sample, the frequency is removed and the line is identified with a single asterisk (*).

Description of the Sample For the Estimated Data Line Counts

This section describes the sample design and selection, the method of estimation, the sampling variability of the estimates, and the methodology of computing confidence intervals.

Domain of Study

The statistics in this report are estimates from a probability sample of unaudited Individual Income Tax Returns, Forms 1040, 1040A, and 1040EZ (including electronic returns) filed by U.S. citizens and residents during Calendar Year 2007.

All returns processed during 2007 were subjected to sampling except tentative and amended returns. Tentative returns were not subjected to sampling because the revised returns may have been sampled later, while amended returns were excluded because the original returns had already been subjected to sampling. A small percentage of returns were not identified as tentative or amended until after sampling. These returns, along with those that contained no income information, were excluded in calculating estimates.

The estimates in this report are intended to represent all returns filed for Tax Year 2006. While most of the returns processed during Calendar Year 2007 were for Tax Year 2006, the remaining returns were mostly for prior years, and a few for non-calendar years ending during 2007 and 2008. Returns for prior years were used in place of 2006

returns received and processed after December 31, 2007. This was done based on the assumption that the characteristics of returns due, but not yet processed, can best be represented by the returns for previous income years that were processed in 2007.

Sample Design and Selection

The sample design is a stratified probability sample, in which the population of tax returns is classified into subpopulations, called strata, and a sample is randomly selected independently from each stratum. Strata are defined by:

1. Nontaxable (including no alternative minimum tax) with adjusted gross income or expanded income of \$200,000 or more.
2. High business receipts of \$50,000,000 or more.
3. Presence or absence of special Forms or Schedules (Form 2555, Form 1116, Form 1040 Schedule C, and Form 1040 Schedule F).
4. Indexed positive or negative income. Sixty variables are used to derive positive and negative incomes. These positive and negative income classes are deflated using the Chain-Type

Description of the Sample

Price Index for the Gross Domestic Product to represent a base year of 1991.

5. Potential usefulness of the return for tax policy modeling. Thirty-two variables are used to determine how useful the return is for tax modeling purposes.

Tax data processed to the IRS Individual Master File at the Enterprise Computing Center at Martinsburg during Calendar Year 2007 were used to assign each taxpayer's record to the appropriate stratum and to determine whether or not the record should be included in the sample. Records are selected for the sample either if they possess certain combinations of the four ending digits of the social security number, or if their ending five digits of an eleven-digit number generated by a mathematical transformation of the SSN is less than or equal to the stratum sampling rate times 100,000.

Data Capture and Cleaning

Data capture for the SOI sample begins with the designation of a sample of administrative records. While the sample was being selected, the process was continually monitored for sample selection and data collection errors. In addition, a small subsample of returns was selected and independently reviewed, analyzed, and processed for a quality evaluation.

The administrative data and controlling information for each record designated for this sample was loaded onto an online database at the Cincinnati Submission Processing Center. Computer data for the selected administrative records were then used to identify inconsistencies, questionable values, and missing values as well as any additional variables that an editor needed to extract for each record. The editors use a hardcopy of the taxpayer's return to enter the required information onto the online system.

After the completion of service center review, data were further validated, tested, and balanced. Adjustments and imputations for selected fields based on prior year data and other available information were used to make each record inter-

nally consistent. Finally, prior to publication, all statistics and tables were reviewed for accuracy and reasonableness in light of provisions of the tax law, taxpayer reporting variations and limitations, economic conditions, and comparability with other statistical series.

Some returns designated for the sample were not available for SOI processing because other areas of IRS needed the return at the same time. For Tax Year 2006, 0.17 percent of the sample returns were unavailable.

Method of Estimation

Weights were obtained by dividing the population count of returns in a stratum by the number of sample returns for that stratum. The weights were adjusted to correct for misclassified returns. These weights were applied to the sample data to produce all of the estimates in this report.

General Instructions

What's New

For 2006, the standard mileage rate for using your vehicle to move to a new home is 18 cents a mile.

Purpose of Form

Use Form 3903 to figure your moving expense deduction for a move related to the start of work at a new principal place of work (workplace). If the new workplace is outside the United States or its possessions, you must be a U.S. citizen or resident alien to deduct your expenses.

If you qualify to deduct expenses for more than one move, use a separate Form 3903 for each move.

For more details, see Pub. 521, Moving Expenses.

Moving Expenses You Can Deduct

You can deduct the reasonable expenses of moving your household goods and personal effects and of traveling from your old home to your new home. Reasonable expenses can include the cost of lodging (but not meals) while traveling to your new home. You cannot deduct the cost of sightseeing trips.

Who Can Deduct Moving Expenses

If you move to a new home because of a new principal workplace, you may be able to deduct your moving expenses whether you are self-employed or an employee. But you must meet both the distance test and time test that follow.

Members of the Armed Forces may not have to meet the distance test and time test. See instructions on the back.

Distance Test

Your new principal workplace must be at least 50 miles farther from your old home than your old workplace was. For example, if your old workplace was 3 miles from your old home, your new workplace must be at least 53 miles from that home. If you did not have an old workplace, your new workplace must be at least 50 miles from your old home. The distance between the two points is the shortest of the more commonly traveled routes between them.

To see if you meet the distance test, you can use the worksheet below.

Distance Test Worksheet

Keep a Copy for Your Records

1.	Number of miles from your old home to your new workplace	1.	_____ miles
2.	Number of miles from your old home to your old workplace	2.	_____ miles
3.	Subtract line 2 from line 1. If zero or less, enter -0-	3.	_____ miles
Is line 3 at least 50 miles?			
<input type="checkbox"/> Yes. You meet this test.			
<input type="checkbox"/> No. You do not meet this test. You cannot deduct your moving expenses. Do not complete Form 3903.

General Instructions

Purpose of Form

Use Form 4952 to figure the amount of investment interest expense you can deduct for 2006 and the amount you can carry forward to future years. Your investment interest expense deduction is limited to your net investment income.

For more information, see Pub. 550, Investment Income and Expenses.

Who Must File

If you are an individual, estate, or a trust, you must file Form 4952 to claim a deduction for your investment interest expense.

Exception. You do not have to file Form 4952 if all of the following apply.

- Your investment income from interest and ordinary dividends minus any qualified dividends is more than your investment interest expense.
- You do not have any other deductible investment expenses.
- You do not have any carryover of disallowed investment interest expense from 2005.

Allocation of Interest Expense

If you paid or accrued interest on a loan and used the loan proceeds for more than one purpose, you may have to allocate the interest. This is necessary because different

rules apply to investment interest, personal interest, trade or business interest, home mortgage interest, and passive activity interest. See Pub. 535, Business Expenses.

Specific Instructions

Part I—Total Investment Interest Expense

Line 1

Enter the investment interest expense paid or accrued during the tax year, regardless of when you incurred the indebtedness. Investment interest expense is interest paid or accrued on a loan or part of a loan that is allocable to property held for investment (as defined on this page).

Include investment interest expense reported to you on Schedule K-1 from a partnership or an S corporation. Include amortization of bond premium on taxable bonds purchased after October 22, 1986, but before January 1, 1988, unless you elected to offset amortizable bond premium against the interest payments on the bond. A taxable bond is a bond on which the interest is includible in gross income.

Investment interest expense does not include any of the following:

- Home mortgage interest.
- Interest expense that is properly allocable to a passive activity. Generally, a passive activity is any trade or business activity in which you do not materially participate and any rental activity. See the Instructions for Form 8582, Passive Activity Loss Limitations, for details.

- Any interest expense that is capitalized, such as construction interest subject to section 263A.

- Interest expense related to tax-exempt interest income under section 265.

- Interest expense, disallowed under section 264, on indebtedness with respect to life insurance, endowment, or annuity contracts issued after June 8, 1997, even if the proceeds were used to purchase any property held for investment.

Property held for investment. Property held for investment includes property that produces income, not derived in the ordinary course of a trade or business, from interest, dividends, annuities, or royalties. It also includes property that produces gain or loss, not derived in the ordinary course of a trade or business, from the disposition of property that produces these types of income or is held for investment. However, it does not include an interest in a passive activity.

Exception. A working interest in an oil or gas property that you held directly or through an entity that did not limit your liability is property held for investment, but only if you did not materially participate in the activity.

Part II—Net Investment Income

Line 4a

Gross income from property held for investment includes income, unless derived in the ordinary course of a trade or business, from interest, ordinary dividends (except Alaska Permanent Fund dividends), annuities, and royalties. Include investment income

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

What's New

The Tax Relief and Health Care Act of 2006 extended the work opportunity credit to cover employees who begin work for the employer before January 1, 2008.

For employees who begin work for the employer after December 31, 2006, the act also expanded the definition of a targeted group employee, and increased the timeframe for submitting Form 8850. For more information on these changes, see Publication 553, Highlights of 2006 Tax Changes.

The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.

Taxpayers that are not partnerships, S corporations, cooperatives, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1b of Form 3800.

The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

Purpose of Form

Use Form 5884 to claim the work opportunity credit for qualified first-year wages you paid to or incurred for targeted group employees during the tax year. Your business does not have to be located in an empowerment zone, enterprise community, or renewal community to qualify for this credit.

You can claim or elect not to claim the work opportunity credit any time within 3 years from the due date of your return on either your original return or an amended return.

How To Claim the Credit

Generally, you must request and be issued a certification for each employee from the state employment security agency (SESA). The certification proves that the employee is a member of a targeted group. You must receive the certification by the day the individual begins work or complete Form 8850, Pre-Screening Notice and Certification Request for the Work Opportunity Credit, on or before the day you offer the individual a job.

If you complete Form 8850, it must be signed by you and the individual and submitted to the SESA by the 21st calendar day after the individual begins work (the 28th day if the employee begins work after December 31, 2006). If the SESA denies the request, it will provide a written explanation of the reason for denial. If a certification is revoked because it was based on false information provided by the worker, wages paid after the date you receive the notice of revocation do not qualify for the credit.

Hurricane Katrina employee. A Hurricane Katrina employee is an employee who had a main home in the core disaster area on August 28, 2005, and, within a two-year period beginning on that date, was hired for a job whose principal place of employment is in the core disaster area. The certification requirements described above do not apply to Hurricane Katrina employees. Instead, the worker must show the employer reasonable evidence that the worker is a Hurricane Katrina employee. An employer may use Form 8850 to accept reasonable evidence that the worker is a Hurricane Katrina employee. If the employer discovers that the worker is not a Hurricane Katrina employee, wages paid after the date of discovery will not qualify for the credit.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

What's New

- The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.
- Taxpayers that are not partnerships, S corporations, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1e of Form 3800.
- The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

Purpose of Form

Use Form 8586 to claim the low-income housing credit. This general business credit is allowed for each new qualified low-income building placed in service after 1986. Generally, it is taken over a 10-year credit period.

Qualified Low-Income Housing Project

The credit cannot exceed the amount allocated to the building. See section 42(h)(1) for details.

The low-income housing credit can only be claimed for residential rental buildings in low-income housing projects that meet one of the minimum set-aside tests. For details, see the instructions for Form 8609, Part II, line 10c.

Except for buildings financed with certain tax-exempt bonds, you may not take a low-income housing credit on a building if it has not received an allocation from the housing credit agency. No allocation is needed when 50% or more of the aggregate basis of the building and the land on which the building is located is financed with certain tax-exempt bonds issued after 1989 for buildings placed in service after 1989. The owner still must get a Form 8609 from the appropriate housing credit agency (with the applicable items completed, including an assigned BIN). "Land on which the building is located" includes only land that is functionally related and subordinate to the qualified low-income building (see Regulations sections 1.103-8(a)(3) and 1.103-8(b)(4)(iii)).

Recapture of Credit

There is a 15-year compliance period during which the residential rental building must continue to meet certain requirements. If, as of the close of any tax year in this period, there is a reduction in the qualified basis of the building from the previous year, you may have to recapture a part of the credit you have taken. Similarly, you may have to recapture part of the credits taken in previous years upon certain dispositions of the building or interests therein. If you must recapture credits, use Form 8611, Recapture of Low-Income Housing Credit. See section 42(j) for details.

Recordkeeping

Keep a copy of this Form 8586 together with all Forms 8609, Schedules A (Form 8609) (and successor Forms 8609-A), and Forms 8611 for 3 years after the 15-year compliance period ends.

General Instructions

What's New

For 2006, the standard mileage rate for using your vehicle to move to a new home is 18 cents a mile.

Purpose of Form

Use Form 3903 to figure your moving expense deduction for a move related to the start of work at a new principal place of work (workplace). If the new workplace is outside the United States or its possessions, you must be a U.S. citizen or resident alien to deduct your expenses.

If you qualify to deduct expenses for more than one move, use a separate Form 3903 for each move.

For more details, see Pub. 521, Moving Expenses.

Moving Expenses You Can Deduct

You can deduct the reasonable expenses of moving your household goods and personal effects and of traveling from your old home to your new home. Reasonable expenses can include the cost of lodging (but not meals) while traveling to your new home. You cannot deduct the cost of sightseeing trips.

Who Can Deduct Moving Expenses

If you move to a new home because of a new principal workplace, you may be able to deduct your moving expenses whether you are self-employed or an employee. But you must meet both the distance test and time test that follow.

Members of the Armed Forces may not have to meet the distance test and time test. See instructions on the back.

Distance Test

Your new principal workplace must be at least 50 miles farther from your old home than your old workplace was. For example, if your old workplace was 3 miles from your old home, your new workplace must be at least 53 miles from that home. If you did not have an old workplace, your new workplace must be at least 50 miles from your old home. The distance between the two points is the shortest of the more commonly traveled routes between them.

To see if you meet the distance test, you can use the worksheet below.

Distance Test Worksheet

Keep a Copy for Your Records

1.	Number of miles from your old home to your new workplace	1.	_____ miles
2.	Number of miles from your old home to your old workplace	2.	_____ miles
3.	Subtract line 2 from line 1. If zero or less, enter -0-	3.	_____ miles

Is line 3 at least 50 miles?
 Yes. You meet this test.
 No. You do not meet this test. You **cannot** deduct your moving expenses. **Do not** complete Form 3903.

General Instructions

Purpose of Form

Use Form 4952 to figure the amount of investment interest expense you can deduct for 2006 and the amount you can carry forward to future years. Your investment interest expense deduction is limited to your net investment income.

For more information, see Pub. 550, Investment Income and Expenses.

Who Must File

If you are an individual, estate, or a trust, you must file Form 4952 to claim a deduction for your investment interest expense.

Exception. You do not have to file Form 4952 if all of the following apply.

- Your investment income from interest and ordinary dividends minus any qualified dividends is more than your investment interest expense.
- You do not have any other deductible investment expenses.
- You do not have any carryover of disallowed investment interest expense from 2005.

Allocation of Interest Expense

If you paid or accrued interest on a loan and used the loan proceeds for more than one purpose, you may have to allocate the interest. This is necessary because different

rules apply to investment interest, personal interest, trade or business interest, home mortgage interest, and passive activity interest. See Pub. 535, Business Expenses.

Specific Instructions

Part I—Total Investment Interest Expense

Line 1

Enter the investment interest expense paid or accrued during the tax year, regardless of when you incurred the indebtedness. Investment interest expense is interest paid or accrued on a loan or part of a loan that is allocable to property held for investment (as defined on this page).

Include investment interest expense reported to you on Schedule K-1 from a partnership or an S corporation. Include amortization of bond premium on taxable bonds purchased after October 22, 1986, but before January 1, 1988, unless you elected to offset amortizable bond premium against the interest payments on the bond. A taxable bond is a bond on which the interest is includible in gross income.

Investment interest expense does not include any of the following:

- Home mortgage interest.
- Interest expense that is properly allocable to a passive activity. Generally, a passive activity is any trade or business activity in which you do not materially participate and any rental activity. See the Instructions for Form 8582, Passive Activity Loss Limitations, for details.

- Any interest expense that is capitalized, such as construction interest subject to section 263A.

- Interest expense related to tax-exempt interest income under section 265.

- Interest expense, disallowed under section 264, on indebtedness with respect to life insurance, endowment, or annuity contracts issued after June 8, 1997, even if the proceeds were used to purchase any property held for investment.

Property held for investment. Property held for investment includes property that produces income, not derived in the ordinary course of a trade or business, from interest, dividends, annuities, or royalties. It also includes property that produces gain or loss, not derived in the ordinary course of a trade or business, from the disposition of property that produces these types of income or is held for investment. However, it does not include an interest in a passive activity.

Exception. A working interest in an oil or gas property that you held directly or through an entity that did not limit your liability is property held for investment, but only if you did not materially participate in the activity.

Part II—Net Investment Income

Line 4a

Gross income from property held for investment includes income, unless derived in the ordinary course of a trade or business, from interest, ordinary dividends (except Alaska Permanent Fund dividends), annuities, and royalties. Include investment income

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

What's New

The Tax Relief and Health Care Act of 2006 extended the work opportunity credit to cover employees who begin work for the employer before January 1, 2008.

For employees who begin work for the employer after December 31, 2006, the act also expanded the definition of a targeted group employee, and increased the timeframe for submitting Form 8850. For more information on these changes, see Publication 553, Highlights of 2006 Tax Changes.

The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.

Taxpayers that are not partnerships, S corporations, cooperatives, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1b of Form 3800.

The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

Purpose of Form

Use Form 5884 to claim the work opportunity credit for qualified first-year wages you paid to or incurred for targeted group employees during the tax year. Your business does not have to be located in an empowerment zone, enterprise community, or renewal community to qualify for this credit.

You can claim or elect not to claim the work opportunity credit any time within 3 years from the due date of your return on either your original return or an amended return.

How To Claim the Credit

Generally, you must request and be issued a certification for each employee from the state employment security agency (SESA). The certification proves that the employee is a member of a targeted group. You must receive the certification by the day the individual begins work or complete Form 8850, Pre-Screening Notice and Certification Request for the Work Opportunity Credit, on or before the day you offer the individual a job.

If you complete Form 8850, it must be signed by you and the individual and submitted to the SESA by the 21st calendar day after the individual begins work (the 28th day if the employee begins work after December 31, 2006). If the SESA denies the request, it will provide a written explanation of the reason for denial. If a certification is revoked because it was based on false information provided by the worker, wages paid after the date you receive the notice of revocation do not qualify for the credit.

Hurricane Katrina employee. A Hurricane Katrina employee is an employee who had a main home in the core disaster area on August 28, 2005, and, within a two-year period beginning on that date, was hired for a job whose principal place of employment is in the core disaster area. The certification requirements described above do not apply to Hurricane Katrina employees. Instead, the worker must show the employer reasonable evidence that the worker is a Hurricane Katrina employee. An employer may use Form 8850 to accept reasonable evidence that the worker is a Hurricane Katrina employee. If the employer discovers that the worker is not a Hurricane Katrina employee, wages paid after the date of discovery will not qualify for the credit.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

What's New

- The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.
- Taxpayers that are not partnerships, S corporations, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1e of Form 3800.
- The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

Purpose of Form

Use Form 8586 to claim the low-income housing credit. This general business credit is allowed for each new qualified low-income building placed in service after 1986. Generally, it is taken over a 10-year credit period.

Qualified Low-Income Housing Project

The credit cannot exceed the amount allocated to the building. See section 42(h)(1) for details.

The low-income housing credit can only be claimed for residential rental buildings in low-income housing projects that meet one of the minimum set-aside tests. For details, see the instructions for Form 8609, Part II, line 10c.

Except for buildings financed with certain tax-exempt bonds, you may not take a low-income housing credit on a building if it has not received an allocation from the housing credit agency. No allocation is needed when 50% or more of the aggregate basis of the building and the land on which the building is located is financed with certain tax-exempt bonds issued after 1989 for buildings placed in service after 1989. The owner still must get a Form 8609 from the appropriate housing credit agency (with the applicable items completed, including an assigned BIN). "Land on which the building is located" includes only land that is functionally related and subordinate to the qualified low-income building (see Regulations sections 1.103-8(a)(3) and 1.103-8(b)(4)(iii)).

Recapture of Credit

There is a 15-year compliance period during which the residential rental building must continue to meet certain requirements. If, as of the close of any tax year in this period, there is a reduction in the qualified basis of the building from the previous year, you may have to recapture a part of the credit you have taken. Similarly, you may have to recapture part of the credits taken in previous years upon certain dispositions of the building or interests therein. If you must recapture credits, use Form 8611, Recapture of Low-Income Housing Credit. See section 42(j) for details.

Recordkeeping

Keep a copy of this Form 8586 together with all Forms 8609, Schedules A (Form 8609) (and successor Forms 8609-A), and Forms 8611 for 3 years after the 15-year compliance period ends.
