**Program Controls**

- (1) Federal Government Accounting Requirements, 31 USC 3512, places the responsibility for establishing and maintaining adequate systems of accounting and internal control upon the head of each executive agency and states that the head of each executive agency shall establish and maintain systems of accounting and internal control that provides:
  - a. Full disclosure of the financial results of the agency's activities.
  - b. Adequate financial information needed for the agency's management purposes.
  - c. Effective control over and accountability for all funds, properties and other assets for which the agency is responsible, including appropriate internal audits.
  - d. Reliable accounting results serving as the basis for preparation and support of budget requests, controlling the execution of its budget and providing financial information as required by the President or other designated authorities.
  - e. Suitable integration of agency's accounting with Treasury's accounting in connection with the central accounting and reporting responsibilities imposed by the Secretary of the Treasury.
- (2) These systems must conform to the accounting principles, standards and related requirements, as prescribed by the Comptroller General of the United States. Historically, these have been reflected in the GAO Policy and Procedures Manual of Guidance of Federal Agencies.
- (3) The accounting system of an executive agency or any of its component parts is subject to review and approval by the Comptroller General. The continuing efforts to improve, modernize and simplify accounting systems in the federal government are exercised under a joint program sponsored by the Comptroller General, the Secretary of the Treasury and the director of Office of Management and Budget (OMB). This program encourages the development of sound accounting practices within each executive agency in terms of financial information and control. This joint program sponsored by the Comptroller General,

Secretary of the Treasury, and the Director of the OMB provides guidance to execute an integrated pattern of accounting and financial reporting for the government that is responsive to executive and legislative needs.

- (4) The established accounting and reporting principles, standards and basic procedures considers various areas of responsibility involved, the elimination of overlapping operations and paperwork and the broader application of efficient methods and techniques in accounting operations throughout the government. Integration of revenue accounting data with central accounts maintained by Fiscal Service is accomplished primarily by the submission of monthly reports of deposit and classified collections and of disbursements from refund appropriations.

## 3.17.15.2.1.1

(09-09-2025)

**Daily Posting Summary  
(RRACS Report 001)**

- (1) The daily posting summary summarizes the accounting transactions that successfully posted to and updated the database. This listing is the transaction journal for accounting purposes and is the permanent record for research, audit trails, etc.
- (2) A journal number is assigned to each action taken in RRACS. This includes each window entry, generation of a summary record of assessment, abatement report or automated batch journal, etc.
- (3) The following is included for each transaction:
  - a. Window number
  - b. Journal number
  - c. Accounting date
  - d. Operator code
  - e. Debit account and amount
  - f. Credit account and amount
  - g. Doc ID
  - h. Item count (for assessments and net tax refund purposes only)
  - i. Total journal count
  - j. Audit trail message
- (4) To ensure an adequate audit trail, the daily posting summary includes pen and ink reversal and correction journal numbers next to the original journal number.
- (5) This report is produced during EOD processing.

## 3.17.15.2.1.2

(09-09-2025)

**Daily General Ledger  
Trial Balance (RRACS  
DTrial Report 003)**

- (1) The daily general ledger trial balance shows the daily balances in each general ledger account. The report includes each account number and name. Each general ledger account also reflects the sum of all debit and credit transaction amounts posted during the current month and the net difference.
- (2) The 003 report is used for EOD processing. Daily, the database administrator (DBA) or designee:
  1. Thoroughly reviews the daily general ledger trial balance (003) report for accuracy
  2. Signs and dates the RRACS 003 report
- (3) The report may also be produced online or in hard copy separately from the EOD procedures, if necessary. To generate the report online, follow these steps:
  1. Select trial balance menu
  2. List
  3. List option from the sub-menu, display trial balance window
- (4) After the report is generated, review the totals. If an amount appears in the net amount column, the general ledger is out of balance. Notify the DBA so corrective action can be initiated.
- (5) An asterisk next to the account number indicates the account is in reverse status. A reverse status could result from:
  - a. An incorrect journal entry to RRACS
  - b. A systemic issue

**Monthly General Ledger  
Trial Balance (RRACS  
MTrial Report 004)**

- (1) The monthly general ledger trial balance shows the fiscal year-to-date cumulative balance through the end of that month in each general ledger account and the general ledger classification totals.
- (2) This report is produced during month end processing but may also be generated at any time during the month. To generate the report select:
  1. Reports main menu
  2. Monthly trial balance (MTrial) report from the month-end sub-menu
- (3) After the report is generated, review the totals. If an amount appears in the general ledger totals, net amount column, the general ledger is out of balance. Contact the DBA to correct the database.
- (4) An asterisk next to the account number indicates the account is in reverse status. An account in reverse status must be resolved expeditiously.
- (5) A reverse status report explaining the reverse status condition must be reviewed by the reports analyst before being emailed to CFO HQ Accounting, &CFO:FM:CFM CA Custodial Systems and Analysis and CFO HQ RACS, *cfo.rfm.iracs@irs.gov* no later than the fourth workday of the new month. The reverse status report should indicate in the header attachment for MTrial, the month it is for, the campus name and the SPC reports analyst signature, title, and date.
- (6) This report should include:
  - a. Every account that is in reverse status
  - b. A clear and detailed explanation
  - c. Dollar amount(s)
  - d. Other information that helps identify the item(s) such as Doc ID, cycle, etc.

**Note:** If the reverse status was caused by many items, list the total amount with the explanation.

  - e. When there is more than one explanation for one account, list them separately with the appropriate dollar amount for each.
  - f. How long this item(s) has caused this reverse status and what action has been taken to fix the problem.
- (7) The monthly general ledger trial balance must be certified as correct and the certified copy kept in the campus' GAO file. The authority for certification of this report can be designated by the campus director, but not below the operation manager.

**Revenue Receipt  
Classification Summary  
(RRACS Report 014)**

- (1) This report summarizes the classification of revenue receipts using entries from general ledger receipt account series 2100 and 2200. The report provides a breakdown of revenue receipts by tax class for the current month and cumulative to date.
- (2) The information included in this report is: Tax Classification Regular Deposits:
  - a. Withholding tax current month and cumulative (cum) to date
  - b. Individual income tax current month and cum to date
  - c. Corporation income tax current month and cum to date
  - d. Excise tax current month and cum to date

- e. Estate and gift tax current month and cum to date
- f. Carriers tax, CTA, current month and cum to date
- g. Unemployment tax, FUTA, current month and cum to date
- h. Total regular deposits current month and cum to date

- (3) Total to RRACS 020 current month and cum to date.
- (4) Total difference between RRACS 020 and revenue receipt report, current month and cum to date.
- (5) This report is produced during month end processing but may be generated separately for research purposes. To generate the report, select the RRACS report main menu and the revenue receipt summary report from the month end sub menu.

**Deposit Tickets and  
Debit Vouchers (RRACS  
Report 017)**

- (1) This report lists DT/DVs used in support of the monthly RRACS 020 report and in support of the balancing of the statement of difference summary report and the deposit/disbursement reconciliation report. The listing provides a tool for matching DT/DVs against the Treasury collection voucher support listing and for isolating any discrepancies. All DT/DVs entered during the current accounting period that have not been previously reported are included on this listing based on preparation date. For each DT/DV provide:
  - a. ALC
  - b. Preparation date
  - c. Treasury number
  - d. Doc ID
  - e. DT or DV amount
- (2) Each debit voucher amount posts as a credit figure. In addition, the records sort by preparation month and after each month, a net total (DTs minus the DVs) generates:
  - a. The total number of DTs
  - b. The total amount of DTs
  - c. The total number of DVs
  - d. The total amount of DVs
  - e. The net total of DT/DVs

In addition, these journals are modified so they can be identified easily.

- (3) This report is produced during month end, but can be reviewed anytime throughout the month by selecting:
  - a. RRACS Reports main menu
  - b. Month End and DT/DV support listing menu option

(09-09-2025)

**Standard Form 224,  
Statement of  
Transactions (RRACS  
Report 020)**

- (1) The statement of transactions gives a detailed account classification of collections, refund disbursements, refund check cancellations and transactions processed for various field offices and reflected in Treasury accounts. RRACS 020 (Statement of Transactions) serves as the basis for control accounting and for audit by GAO.

The Classification Transaction and Accountability (CTA) adjustment only requires the reclassification reporting that was formally Section I of the SF 224 process. All

reclassifications on the CTA adjustment must balance to zero between the Treasury account symbols. Sections II and III are replaced by the financial institution directly reporting the information to Treasury.

- (2) This report is automatically generated in EOM processing. It may also be generated separately by selecting:

1. Reports main menu
2. RRACS 020 on the Month End menu

(09-09-2025)

**Central Accounting  
Reporting System  
(CARS) Automated Bulk  
Upload Program**

- (1) As of October 2014, all IRS ALCs became CARS direct reporters. As a result, all disbursement, collection and IPAC transactions are reported directly to CARS from the financial institutions. Reports RRACS 020 (Statement of Transactions) and 020A (Direct Report Transactions) are used to ensure the RRACS system is in balance. The RRACS 020 and 020A reports list all CARS transactions and all direct-reported transactions to CARS, respectively. IRS only has the capability to send reclassifications to CARS using the Classification Transaction and Accountability (CTA) adjustments by the following methods:
- a. CARS bulk upload - CFO HQ Accounting uploads the RRACS 0118 report to CARS on the second workday to report all reclassifications for all the service centers. The RRACS 0118 upload mirrors the transactions reported on the RRACS 020B (Reclassifications) report.
  - b. Manual reclassifications and any other further reclassifications needed following the bulk upload. These reclassifications are entered online through Treasury by the service center after the bulk upload is complete. The website is: <https://cars.for.fiscal.treasury.gov/gwa/Home>.
- (2) To obtain access to CARS, a user ID and password must be obtained from Fiscal Service. To create an identity (Single Sign On user ID and password):
- a. Access the self-enrollment page at: <https://isim.fiscal.treasury.gov/selfenroll/register>
  - b. For additional help with CARS enrollment go to the "Getting Started with CARS" help website at: <https://www.fiscal.treasury.gov/cars/getting-started.html>.
  - c. The help desk is available Monday through Friday from 7:00 a.m. to 5:30 p.m. EST at: <https://www.fiscal.treasury.gov/cars/contact.html>.
- (3) The end of month balancing email from the service centers must be received in the CFO HQ Accounting mailbox on or before the 11:00 a.m. local time zone on the second workday of the new month.
- (4) After CFO HQ Accounting submits the original CARS submission according to procedures, agencies can submit a supplemental CTA reclassification, if needed, by the third workday. The supplemental CARS CTA reclassification does not replace the original CARS reclassification but is used to adjust it.
- (5) Changes must be manually input online in CARS through a CARS CTA supplemental reclassification after CFO HQ Accounting transmits the original. Supplementals will not be available after the third workday, unless requested by the Fiscal Service. If a supplemental is requested beyond the third workday it will cause a Treasury yellow or red scorecard and must be approved by CFO HQ Accounting before submitted to CARS.

- (6) The final RRACS 020 and 020B Statement of Transactions report and the transmitted CARS Statement of Transactions must be signed and dated by the fifth working day of the month by the campus director or his/her designee, as it reflects the campus director's accountability. A signed copy of the final RRACS 020, 020B report and the signed posted CARS statement of transactions copy is retained at the campus for use by GAO during its site audit.
- (7) All supplemental changes following the original CTA upload must have back up documentation to support these changes and be kept behind the signed RRACS 020 and 020B report and the posted CARS Statement of Transactions copies. This should be retained at the campus for use by GAO during its site audit.

**Anti-Drug Special Fund  
Liability Report (RRACS  
Report 022)**

- (1) The anti-drug special fund liability report lists the adjustments used to transfer monies to and from the anti-drug special fund account. This report also shows the refund amounts to state and local law enforcement agencies for reimbursement claims.
- (2) At the end of each month's accounting period, verify:
  - a. Amounts transferred to and from the anti-drug special fund account.
  - b. Disbursements made to law enforcement agencies for the current month.
  - c. Cumulative to date balance.

3.17.15.2.1.8

**Net Tax Refund Report  
(RRACS Report 023)**

- (1) The Net Tax Refund Report (NTRR) provides the net total of confirmed refunds issued by line number, tax class and type of refund for each ALC serviced by the campus. Refunds initially confirmed but not classified are reported under ALC 9999, line 2. NTRR information is captured through window entry or electronic data transmission. The window series that captures data for the NTRR under ALC 9999 are the 2XX, 4XX and 5XX to journalize the following data:
  - a. Miscellaneous receipts refund repayments for principal and interest post to line 2
  - b. Refunds principal (20X0903) and interest (20X0904) post to line 2
  - c. Refund reversals post to line 2, principal and interest
  - d. Refund confirmations principal (20X0903) and/or interest (20X0904) post to line 2 under principal from the confirmation copies of SF 1166 (Voucher and Schedule of Payments)
  - e. Unidentified remittance miscellaneous fund applications for refund repayments of principal and/or interest post to line 2 under principal
  - f. Fund reclassification between refund principal and/or interest or another symbol to line 2
  - g. SF 1081 (Voucher and Schedule of Withdrawals & Credits) and journal vouchers that have appropriation symbols 20X0903 and/or 20X0904 post to line 2
- (2) After classification of a refund via window or refund match, the amount is transferred from ALC 9999, line 2, to the appropriate ALC and tax classification. The files load, but don't update the database until the confirmation journal posts and releases it. The report shows data by current month and cumulative to date. Separate reports are generated.
- (3) For each ALC, the appropriate types of refunds are listed by tax class. Each line entry on the report includes:

- a. Line name
  - b. Current principal items and amount
  - c. Current interest items and amount
  - d. Current total of principal and interest amounts
- (4) Within each tax class, the total items, principal, and interest amounts are computed for each type of return:
  - a. Form 941 - lines 11 through 15
  - b. Form 942 - lines 16 through 20
  - c. Form 943 - lines 21 through 25
  - d. Form 1042 - lines 26 through 30
  - e. Total withholding - lines 11 through 30
  - f. Individual income - lines 1 through 7
  - g. Form 1041 - lines 31 through 35
  - h. Form 1065 - lines 36 through 40
  - i. Total individual income - lines 1 through 7 and 31 through 40
  - j. Corporation income - lines 61 through 68
  - k. Excise - lines 71 through 85
  - l. Estate tax - lines 41 through 45
  - m. Gift tax - lines 46 through 50
  - n. Railroad retirement tax - lines 51 through 55
  - o. Federal unemployment tax - lines 56 through 60
  - p. Grand total all regular refund - lines 1 through 7, 11 through 68 and 71 through 99. Line 9 is used as a memo entry for individual journaling for super EFT refunds and is captured and reported in line 2
- (5) The NTRR program can be run at any time during the month. To generate the NTRR, select:
  1. Reports main menu
  2. NTRR on the Month End sub menu
- (6) When the report is produced, review the consolidated current month report to ensure the grand total all refunds matches the net total of account symbols 20X0903 and 20X0904 reported on RRACS 020 Statement of Transaction report. The NTRR agrees with the balances in general ledger accounts 2410 (Refund Repay Principal), 2420 (Refund Repay Interest), 5100 (Disbursements, Principal) and 5200 (Disbursements, Interest). The NTRR trial balance program generates computations at the end of each day.
- (7) The report must be signed by the operation manager.
- (8) This report is maintained in the campus as a permanent record of the net tax refunds.
- (9) The Line-No-Class and Line-Name-Class are as follows:

**Form 2162 Summary of  
Assessment Certificates  
Issued (RRACS 025)**

- (1) This report represents a consolidation of all assessment certificates prepared each month. It provides a breakdown by tax classes for current and deficiency assessments. It also provides an audit trail of assessment certificates and principal taxpayers included in the report. All assessment certificates that were posted for the month will be listed.
- (2) The report will be produced during End of Month (EOM) processing but may be generated separately for research or statistical purposes. To generate the report, select the RRACS Report main menu and Form 2162 from the Month End sub-menu.

**Note:** The print name line, signature and date must be filled out.

- 3.17.15.2.1.10  
(09-09-2025)  
**Future General Ledger Trial Balance (RRACS Report 043)**
- (1) The future general ledger trial balance shows the future balances in each general ledger account and includes each account number and name for the next account period. Each general ledger account reflects the sum of all debit and credit transactions posted during the current month and the net difference.
  - (2) This report is produced during the end of day (EOD) processing. The user may produce the report online or in hard copy separately from the EOD procedures, if necessary. To generate the report online, follow these steps:
    1. Select trial balance menu option
    2. List
    3. List option from the sub-menu (display trial balance window)
  - (3) After the report is generated, review the totals. If an amount appears in the net amount column at the bottom of the report, the general ledger is out of balance. Notify the DBA so corrective action can be initiated.
  - (4) An asterisk next to the account number indicates the account is in reverse status.

**Federal Government  
Accounting  
Requirements**

- (1) The Budget and Accounting Procedures Act of 1950, as amended, places the responsibility for establishing and maintaining adequate systems of accounting and internal control upon the head of each executive agency.
- (2) These systems must conform to the accounting principles, standards and related requirements, as prescribed by the Comptroller General of the U.S. Historically, these have been reflected in the "Government Accountability Office Policy and Procedures Manual for Guidance of Federal Agencies." Section 113 of Act 31 USCG. 3512 states that the head of each executive agency shall establish and maintain systems of accounting and internal control to provide: Full disclosure of the financial results of the agency's activities. Adequate financial information needed for the agency's management purposes. Effective control over and accountability for, all funds, property and other assets for which the agency is responsible, including appropriate internal audit. Reliable accounting results to serve as the basis for preparation and support of budget requests, controlling the execution of its budget and providing financial information required by the President or other designated authority. Suitable integration of the agency's accounting with the accounting of Treasury in connection with the central accounting and reporting responsibilities imposed by the Secretary of the Treasury.
- (3) The accounting system of an executive agency or any of its component parts is subject to review and approval by the Comptroller General. The continuing efforts to improve, modernize and simplify accounting systems in the federal government are exercised under a Joint Program sponsored by the Comptroller General, the Secretary of the Treasury and the Director of OMB. This program considers the full development of seamless accounting within each executive agency as a working arm of management in terms of financial infor-

mation and control. It works towards an integrated pattern of accounting and financial reporting for the government that will be inclusively and responsive to executive and legislative needs.

- (4) The established accounting and reporting principles, standards and procedures will consider various areas of responsibility involved, the elimination of overlapping operations and paperwork and the broader application of efficient methods and techniques in accounting operations throughout the government. Integration of revenue accounting data with central accounts maintained by BFS is accomplished primarily by the submission of monthly reports of deposit and classified collections and of disbursements from the refund appropriations.

3.17.15.3.1  
(09-09-2025)  
**On-Site Audit by  
Government  
Accountability Office  
(GAO)**

- (1) The audit by GAO of the tax refund transactions of the Service will be made at the location where the operations are conducted and the accounting records are maintained.
- (2) Copies of the SF 224/CARS (RRACS Reports 20A/20B), related original refund and check cancellation voucher schedules with any required supporting documents, plus other documents, such as the Regional Finance Center (RFC) confirmation listing, are to be retained in the supporting files in accordance with 44 USC 3309.
- (3) In accounting period order, separate files will be maintained of the refund disbursement and check cancellation schedules and other documents relating to the monthly SF 224 as follows:
  - a. Original SF 1166 OCR
  - b. Original SF 1098 (or the Control-D file, RPA 4140, if originals are not provided), SF 1184, SF 1081, or Form 3813 and
  - c. Adjustment documents or explanatory memoranda relating to the correction of errors in a previously prepared SF 224 (RRACS Reports 20A/20B).
- (4) The following additional records will be made available:
  - a. Business Master File, Individual Master File and CADE Recaps of Assessments, Abatements and Other Post-Journalized Transactions
- (5) On request by the GAO auditors, specific transcripts will be produced for individual cases selected for verification of refund interest computation. Taxpayer names must be obliterated or removed from transcripts prior to delivery to GAO.
- (6) All unaudited records of refund transactions will be retained either in the campus files or the Federal Records Center (FRC) for audit by GAO. Records of refund transactions which have been audited by GAO may be transmitted to the FRC or otherwise retired, or given another disposition authorized by their applicable record control schedule.
- (7) Fax copies used in lieu of originals must be photocopied for the GAO file.

**Note: Quarterly, the reports analyst must perform a review to ensure all files referenced above are maintained. Documentation of the review should be maintained for a period of 90 days and include any deficiencies identified and corrective actions taken, as applicable.**

- 3.17.15.4  
(09-20-2019)  
**Transfer of Accountability of Submission Processing Campus Directors**
- (1) In accordance with the GAO standards, HQ requires accountable officers to render complete accounting documentation, covering the full extent of their financial accountability, as of the close of business of the last day as the accountable officer for their jurisdiction.
  - (2) When a change of directors occurs, ensure an action plan has been prepared as described in *IRM 3.0.167.13*, Transfer of Submission Processing Field Director's Accountability, coordinate with the P&A staff to complete the transfer of accountability.

(09-09-2025)  
**Form 3997**  
**Reconciliation of**  
**General Ledger**  
**Accounts**

- (1) This manual report will be prepared by the campus monthly on letter size paper to report the balancing of the subsidiary accounts to the general ledger accounts. This report must not be altered. All accounts must remain on this form and filled in even if there are zero balances. This report will be used to alert the campus and HQ of any imbalances between the accounts and any processing problems within the campus.
- (2) Balance sheets must include the following:
- A document identifier or report name with a date for each itemized money amount
  - Journal numbers can be used for future journals or as secondary detail information for a document identifier or report name
  - Item count and expired statute count (if applicable)
  - Reconciled total clearly identified
  - Aged total clearly identified

- Unreconciled total clearly identified
  - Total balance for each subsidiary account sheet must equal general ledger
- (3) A comprehensive status report is required for any account reported as either aged reconciled, unreconciled or both. It must contain the following information, as appropriate:
- Account number at the top of the report along with total money amount.
  - Item count and money amounts making up the total amount, with a clear and detailed explanation for the imbalance.
  - Attempts made and methods used to correct imbalances must be noted for each item. Follow-up attempts for correction should be made and documented monthly.
  - Last accounting period through which the account is completely reconciled on a current basis (for example, had none of the present aged items in it).
  - Estimated date the account will be reconciled.
  - Any existing problems that may prevent reconciliation.
  - Identifying information that is pertinent for the items that make up the imbalance, such as: Doc ID, cycle, tape journal, etc.
- Note:** If there is more than one item for the same account and the explanation is the same, one explanation is sufficient, but list the money amounts for each item.
- Note:** If there is more than one item and the explanations are different, list the amount and explanation separately.
- Note:** If the problem is systemic (a file or tape run) and there are numerous items, put the total amount with the explanation.
- **Important note:** Use information that identifies the items, such as, IPAC ID, Doc ID, cycle, tape journal, etc.
- (4) All credit amounts on Form 3997 and the comprehensive reports, must be bracketed.
- (5) Ensure Form 3997 reflects the correct accounting period and money amounts.
- (6) Definition of Terms on Form 3997:
- **Reconciled-** When a variance exists between RRACS and the subsidiary accounts and the corrective action is a journal action to RRACS or a correction to the subsidiary ledger that was identified after the month has ended. If the report is a July 31 month-end and the item is journalized in August to get the account reconciled, it would show in the reconciled column.
  - **Aged Reconciled-** (Example: Form 3997 for the month of July 31, 2009) - If the transaction for this same item listed previously is still not completed by August's EOM processing, then it becomes an aged reconciled item.
  - **Unreconciled Item-** If there is an out-of-balance condition and the way to correct it is not clear (an adjustment to RRACS/subsidiary), then it will be reported as an unreconciled item. If this item is reconciled by the following month end, but actions required were not completed by EOM, then it must be reported under aged reconciled.

- (7) Form 3997 must be digitally signed by the field director, the Accounting Operation manager, the team manager and the reports analyst.
- (8) Form 3997 will be supported by **balancing sheets maintained in the campuses**. The following documentation must be attached to Form 3997 when uploaded to the Sharepoint:
  - RRACS report 004 Monthly General Leger Trail Balance
  - Copies of the BMF, IMF/CADE Form 6168
  - Form 5199A
  - Comprehensive status reports as described above
  - Summary page from the spreadsheet used to balance the sub-accounts which includes the monthly totals and volume
  - Task List
  - After final submission, an uploaded copy of the email showing that the Form 3997 package has been uploaded to the Sharepoint on or before the 25th of the following month
- (9) Original of Form 3997, with all the back-up, will be maintained in the GAO file by the campus.
- (10) No later than the 25th of the following month, a copy of the signed Form 3997, Form 6168, General Ledger Reconciliation with ECC RACR - Reciprocal Accounting Control Record and the comprehensive reports, should be uploaded to the *SP SharePoint*. An upload confirmation must be emailed to the CFO HQ RACS analyst at *&CFO:FM:RFA:RAO RACS Analysts* . The uploaded documents must reflect the same figures and account information as the signed copy maintained in the GAO file. If problems occur and it is felt this time requirement cannot be met, contact CFO HQ RACS analyst for further instructions. **It should be noted that an out-of-balance condition is not justification for this report to be submitted late. The Form 3997 is reported on the SP/CFO and Treasury Score Card.**
- (11) Additional reminders for Form 3997:
  - a. The Quarterly Form 3997 is to be completed and signed for the months of March, June, September and December and emailed along with Form 3997 to CFO HQ.
  - b. Keep a copy of your email showing that the Form 3997, Form 6168 and comprehensive reports were uploaded to the SharePoint on or before the 25th of the following month behind your original documents that are kept in your GAO file.
  - c. The monthly Form 5199A (maintained by ECC and available on Control-D) must be included as supporting documentation in front or behind the Form 6168 maintained in the GAO file by the campus.
- (12) Employees who balance accounts and prepare the monthly Form 3996, Tax Revenue Receipts Recap or Form 3997, Reconciliation of General Ledger Accounts should be rotated periodically to mitigate the risk of fraud that could occur to the financial records.

**Form 3997,  
Reconciliation of  
General Ledger  
Accounts, Review  
Procedures**

- (1) This report requires the reports analyst signature.
- (2) Review to ensure accuracy:
  - Compare figures with the General Ledger, reconciled and unreconciled items
  - Ensure supporting documentation is attached with aged items
  - Check item counts
  - Statute expiration counts
  - Signatures and date
  - Timeliness - This report is due by the 25th of each month
- (3) Review suspense accounts for timely problem resolution, proper use of accounts and procedural adequacy.

**Note:** Suspense accounts are reported on the Form 3997. Review to ensure reconciled items are resolved before next month's report is due. If not resolved, ensure they are reported as "Aged Reconciled," follow-up weekly until reconciled.

- (4) Forward report (Form 3997) to Accounting Operations manager prior to forwarding to the campus director for signature approval, ensure the report has been reviewed by the appropriate offices, as required by your operation.

**CARS Direct Reporting  
and Reclassification  
Submission (Formerly  
Standard Form 224),  
Statement of  
Transactions (RRACS  
Report 020, 20A and  
20B)**

- (1) The SF 224, Statement of Transactions, is generated at the EOM processing and is used to report account classification of collections, refund disbursements, refund check cancellations and transactions processed. It is broken down into three RRACS reports:
  - RRACS Report 0020 SF 224 Statement of Transaction Section I - (requires signature)
  - RRACS Report 020A SF 224 Direct Report Transaction Section I
  - RRACS Report 020B SF 224 Reclassifications Section I - (requires signature)
- (2) SF 224, Statement of Transactions and Reclassification must be signed by the CFO RACS department manager. A signed copy of the SF 224 reports will be retained at the campus for use by GAO in its site audit.

- (3) The SF 224 reports is reviewed by the reports analyst before forwarding to the CFO RACS department manager for signature.
- (4) The RACS DBA emails on or before 1:00 PM **Local Time Zone** on the 2nd workday of the new month to CFO HQ Accounting. The CFO RACS department managers' copy is ready for review by the 3rd workday after any supplemental are completed as needed.
- (5) If a supplemental is needed, the RACS DBA will input the data to CARS, an automated Fiscal Service system for transmission to Treasury.
- (6) The CFO RACS department manager's folder should contain RRACS Reports 020, 020A, 020B, Transmittal worksheet and SF 224 Adjustments (if any).

**CARS Direct Reporting  
and Reclassification  
Submission (Formerly  
Standard Form 224),  
Statement of  
Transactions Review  
Procedures**

- (1) Balancing of the SF 224 reports is always due on the second (2nd) workday of every month by 11:00 am Local Campus Time.
- (2) An email is sent to CFO HQ Accounting indicating month-end balancing is complete. CFO HQ Accounting will then transmit the SF 224 thru CARS. The EOM checklist must be completed and signed by the RACS manager prior to the email notification.
- (3) The RACS DBA will include the reports analyst on the email to CFO HQ Accounting confirming month-end balancing is complete for the campus. This email shows the date, time and contacts to update the score card.
- (4) CFO HQ Accounting will notify the campus when the transmission of their SF 224 is complete. The DBA will login to CARS and print the Statement of Transactions report to forward for CFO RACS department manager signature.
- (5) Reports/Documents needed for review:
  - RRACS Report 003 - Daily General Ledger Trial Balance
  - RRACS Report 0020 - SF 224, Statement of Transactions
  - RRACS Report 020A - SF 224, Direct Report Transactions
  - RRACS Report 020B - SF 224, Reclassifications
  - Transmittal Worksheet
- (6) RRACS Report 003
  - Combine totals from accounts assigned to a specific TAS.
  - Compare totals to the TAS symbols on the SF 224.
- (7) RRACS Report 020B:
  - Compare figures on the RRACS report 020B section I to the Transmittal Worksheet section I, per *IRM 3.17.63.15.9*, Standard Form 224, Statement of Transactions (RRACS Report 020).
  - The final RRACS 020 and 20B and the transmitted CARS Statement of Transactions, posted copy, must be signed and dated by the 5th working day of the month by the CFO RACS department manager, or his/her designee. A signed copy of the final RRACS 020, 020B report and the signed posted CARS Statement of Transactions copy will be retained at the campus for use by GAO in its site audit.

**Note:** Email to:CA Custodial Systems and Analyst,\*CFO RFM IRACS, and  
&CFO:FM:RFA:RAO RACS Analysts by the deadline listed above.

**Monthly General Ledger Trial Balance (M Trial)**
- (1) This report will show the fiscal year-to-date cumulative balance in each general ledger account and the general ledger classification totals.
  - (2) The reports analyst should request a copy of the M Trial from the RACS DBA monthly.
- Note: The RACS DBA should forward a copy of the Reversed Status report to the reports analyst prior to submission to CFO HQ Accounting and the HQ RACS analyst.**
- (3) An asterisk will appear next to an account in reverse balance status. An account in reverse status must be expeditiously resolved.
  - (4) The reports analyst will review and sign the **Reverse Status Report** prior to submission to CFO HQ Accounting and CFO HQ RACS analyst. A Reverse Status Report explains the reverse status condition and must be sent by email or faxed to CFO HQ Accounting and the CFO HQ RACS analyst no later than the fourth workday of the new month.
  - (5) The Reverse Status Report should indicate in the header "Attachment for M Trial", the month it is for and the name of the campus.
  - (6) This report should include:
    - Every account that is in reverse status
    - A clear and detailed explanation
    - Money amount(s)
    - Other information that will help identify the item(s) such as, Doc IDs, cycle, etc.
- Note: If the reverse status was caused by many items, then list the total amount with the explanation.**

- If there is more than one explanation for one account, list them separately with the appropriate money amount for each.
- How long this particular item(s) has caused this reverse status and what action has been taken to fix the problem.

(7) The monthly General Ledger Trial Balance must be certified as to its correctness and the certified copy should be kept in the campus' GAO file. The authority for certification of this report can be designated by the CFO Department Manager.

3.17.15.6  
(06-19-2020)  
**Subsidiary Accounts  
and Procedures**

(1) Subsidiary accounts that afford necessary details in support of certain general ledger accounts will be maintained as prescribed. Posting to subsidiary accounts will be made directly from documents or forms showing the transaction. This practice avoids possible inaccuracies that may arise if information is transcribed or summarized separately and such summaries are then used for entries to the subsidiary accounts.

(2) The reports analyst should:

- Analyze and review the Subsidiary Accounts; ensure all supporting documentation is attached, history sheets are updated and case files are set up according to IRM 3.0.167, Losses and Shortages, for completeness.
- Ensure the RRACS generated reports balance.
- Ensure reports cross balance and all general ledger and subsidiary files agree with reported information.

(3) Quarterly, prepare written documentation, recommendations and/or oral presentations for management, identifying possible error trends and all out of balance conditions.

(4) Document and support findings:

- To improve the reporting systems
- To change processing procedures
- To present data for tracking purposes
- To identify staffing and/or training needs

3.17.15.6.1  
(09-09-2025)  
**External Subsidiary  
Balancing Operations  
(for information only)**

(1) The total of the individual account balances comprising each subsidiary record must equal the balance in the RRACS subsidiary control. This relationship will be verified by monthly balancing operations. Any difference must be researched, resolved or shown and explained as a reconciling figure on Form 3997, Reconciliation of General Ledger Accounts.

(2) Although monthly and quarterly balancing is prescribed in these instructions, it need not be performed at the end of each month. However, month-end balancing dates provide a recognizable date wherein balances composed of the same transactions can be computed for both the RRACS and external subsidiary records resulting in fewer "float" items when balancing. Month-end balancing dates are therefore recommended for all subsidiary records except those with a large number of individual accounts.

(3) When it is necessary to prepare adding machine accumulations of the individual subsidiary accounts the tabulation will be made on proof sheets rather than on machine tapes. Any closed account record will be withdrawn from the

open files and held for proper disposition after the balancing has been completed. Each adding machine proof sheet will be labeled to indicate the subsidiary record involved, the date of the last posting and the name of the adding machine operator. After balancing the proof sheets containing the adding machine tabulations will be filed or maintained in books until they can be retired or given other disposition authorized by their applicable record control schedule.

- (4) Computer Listing Option - The requirement to balance source documents to computer listings relates only to those subsidiary accounts that are maintained on a separate computer program. The computer program files are intended to facilitate research and balancing operations, not to replace the source documents that are still considered the subsidiary file supporting the general ledger account. Due to the volume of supporting documents, it became increasingly difficult to tabulate and balance these documents monthly. The listing totals are accepted on an interim (monthly) basis until the actual source documents can be tabulated quarterly. (for example, XSF, DCF, URF)
- (5) Any subsidiary account residing on IDRS, GMF pipeline processing, or GUF does not require the original documents to be tabulated. The computer-generated control listings from these four above mentioned systems are sufficient for Accounts 1710, 4120, 4130, 4220, 4230, 4252, 4253, 4300, 4420, 4620 and 6800.
- (6) Real Accounts - Accumulate all "open" items. File items which have closed during the report month in "closed" file after the account is balanced.
- (7) Nominal Accounts - Accumulate all open items that are new for the current fiscal year (CFY), sort and file closed items which are prior fiscal year (PFY) items that were still open at the beginning of the current fiscal year. After the account is balanced, file any new CFY items which closed during the report month in the "closed" file. File any PFY items that have been closed during the report month in a special folder. At the end of the fiscal year, purge the file by filing all items in the "closed" file.
- (8) The balancing group will balance all subsidiary records. Generally accepted accounting principles and standards requires separation of duties. External subsidiary balancing operations **must** be performed by an individual who does not maintain or post to the account. The locating and resolving of differences must be a joint effort between the balancing group, the employee maintaining the subsidiary record and the control group. If errors are not located after a verification of adding machine runs, an examination of all monthly transactions affecting the account will be necessary. This will require a review and comparison of the General Ledger Detail Record and subsidiary record postings.
- (9) Non-Master File accounts may be individually listed on proof sheets immediately prior to establishment in a NMF status control in RRACS. Each listing will be labeled to indicate the NMF status control involved were balanced in accordance with procedures in *IRM 3.17.46.11.5*, Matching Non-Master File Subsidiary to Revenue Accounting Control System (RRACS) General Ledger. The totals for any documents remaining in the Manual Assessments transit account will be listed on a separate proof sheet. The combined total of the two proof sheets should be balanced to Account 1600 in the RRACS system.

- (10) Balancing of the external subsidiaries will not delay the month-end closing runs for RRACS. Any necessary corrections due to external subsidiary balancing will be made in the following month.

3.17.15.6.2  
(10-18-2024)  
**Account 1400 Tax  
Accounts Transferred  
Out**

- (1) This receivable account is used to record and control amounts belonging to NMF accounts that are in the process of manual transfer to other campuses. NMF account balances will be opened to this account when the Form 514-B representing this amount is prepared. Amounts will be closed from the account upon receipt of the receiving campus' acknowledgement of account transfer on Form 514-B, part 2.
- (2) Although Form 514-B is primarily used for overflows, it may also be used for situations that meet criteria as described in IRM 3.17.21.5, Requests for Transfers to Other Campuses.
- (3) External subsidiary record is the Form 514-B as it is pending campus acknowledgement of account transfer from the receiving campus.

3.17.15.6.2.1  
(10-18-2024)  
**Account 1400 Review  
Procedures**

- (1) For all open balances shown on the balance sheet, verify that a copy of Form 514-B is filed and the amount matches the document with a stamped journal number.
- (2) For open balances for account transfer-out using a debit amount, the 458 window should be used. For confirmation journals that close these open balances, the 465 window should be used.
- (3) For open balances for account transfer-out using a credit amount, the 459 window should be used. For confirmation journals that close these open balances, the 466 window should be used.
- (4) Per IRM 3.30.123.11, Processing Timeliness Criteria for Non-Master File, Form 514-B has a maximum processing cycle of 6 workdays from the date of receipt. Any open balances in this account should be labeled reconciled in the same accounting period and any open balances carried into the next accounting period should be labeled aged reconciled.
- (5) Transferring campus should contact the receiving campus if no confirmation is received within 30 days, per IRM 3.17.21.5.1(8), Preparation of Form 514-B.

3.17.15.6.3  
(10-18-2024)  
**Account 1510 Other  
Receivables**

- (1) This receivable account will be used to record amounts of receivables other than taxes collectible. This account represents receivables which have not been collected, assessed or written-off as uncollectible. Account 1510 will be supported by copies of bills, debit voucher or other documents showing the name of each debtor, amount receivable and details of the transaction creating the indebtedness.
- (2) This account will also be used to clear unresolved debit items from the Service Center Control file (SCCF) and unprocessable debits from the DCF. This account will be supported by case history files recording approval of the SPC director to remove them from the SCCF. These items will be supported by Form 3809 for non-revenue receipt items and Form 2424 for revenue receipt items.

- (3) Items referenced in (1) and (2) remaining in this account after the statutory period for assessment has expired will be transferred to Account 1840. The statutory period for assessment on unresolved debits from the SCCF will be considered to have expired when the general assessment statute period has expired.

**Note:** When supporting tax documents show the taxable period, then the general statute ruling applies. The general assessment statute period has expired three years from the due date of the return or three years from the time the return was filed, whichever is later. When supporting tax documents cannot be located, after exhausting every means possible to retrieve them, use the Julian date of the DLN, apply the general assessment statute period, (3 years) and add one year, for a total of four years, to determine the presumptive statute expiration.

- (4) External subsidiary is the file of paper documents used as described below:
- Memo signed by Site Director
  - Form 2424 for revenue receipts and Form 3809 for non-revenue receipts
  - Case history sheet

3.17.15.6.3.1  
(10-18-2024)  
**Account 1510 Review  
Procedures**

- Monitor and review for timeliness and accuracy.
- For all items shown on the balance sheet, verify that there's a copy of the signed Director's memo approving transfer to the 1510 account, a Form 2424 or Form 3809 for each item and a case history sheet briefly describing all actions taken to process the item.
2. To add receivables from SCCF or DCF that cannot be processed, a 400 window must be used to post the debit amount along with a unique document identifier number.
3. To remove receivables from this account, a 400 window must be used to post the credit amount along with the original document identifier number.
- Ensure case files are journaled from 1510 to 1840 timely per the statute expiration dates.

3.17.15.6.4  
(10-18-2024)  
**Account 1530 Court  
Case Erroneous  
Refunds**

- This receivable account is used to record erroneous refund receivables that result in a court case.
- Account 1530 will be supported by:
  - Copies of bills
  - IDRS Letter 510C
  - Court documents
  - TIGTA and/or Criminal Investigation reports
  - Debit vouchers or other documents showing the name of each debtor, amount receivable and details of the transaction creating the indebtedness
- Employee fraud cases are controlled in Account 1530. Access should be limited to personnel working cases. All write-offs from this account must follow procedures established in IRM 3.0.167.8.4.2, Relief - Erroneous Refund Procedures Employee Fraud Only. .

- (4) Transfer case to Account 4910, Disbursement Loss, when the case is determined uncollectible. Documentation will explain why the case is uncollectible.
- (5) The external subsidiary for this account is the file of paper documents described in (2) above.

3.17.15.6.4.1  
(10-18-2024)  
**Account 1530 Review  
Procedures**

- (1) For each case file, verify all activity represented in the case balance sheet along with any comments concerning case actions have been completed as shown.
- (2) Within each case file, verify sufficient backup documentation is available to justify posting an opening case journal creating a balance in the 1530 account.
- (3) For all opening case journals, verify the associated Form 3809 has successfully posted a TC 700 false credit to the account. RRACS journaling should utilize a 480 window and accurately represent processing documents.
- (4) Case files should be maintained by ERRF as follows:
  - Ensure cases are in Doc ID, Taxpayer Identification Number (TIN) or Alpha order.
  - Ensure the completed case balance sheet is on the left side of the folder.
  - All original Forms 3809 should be maintained in the case folder with the most current journal at the top.
  - Original case on the bottom of the right-hand side of the case file.
  - The balance sheet should show the original "repayment" amount and the remaining balance. This should be updated with each new transaction or repayment. The ending amount should always match the balance on the 1530 Account portion of the RRACS 0131 report.
  - Review the IDRS control base to verify that it is being updated with the appropriate activity and the examiners control number is listed.
  - Pull case every 3 months (if the balance is \$600.00 or over) or six months (if the balance is under \$600.00) for review, apply appropriate actions taken until the statute date expires. See *IRM 3.17.80.1.26*, Maintaining Case Files.
  - The right side of the folder should contain the original TXMOD print, a current TXMOD print (These prints should be updated every three months or when action is taken. If no activity, notate the History Sheet with "No Action on TXMOD", do not print TXMOD) and any back-up letters or correspondence, etc.
  - Maintain the most current documents on the top following the TXMOD prints.
  - All actions should be dated and recorded in detail on the balance sheet.

3.17.15.6.5  
(06-19-2020)  
**Account 1535 CI Court  
Ordered Restitution  
Erroneous Refunds  
(Kansas City Only)**

- (1) This receivable account is used to record erroneous refund receivables that result in a court case.
- (2) Account 1535 will be supported by:
  - Form 3809 Documents
  - Backup Documentation such as IDRS Print reflecting Erroneous Refund or a copy of a payment voucher received from CI in Ogden. CI will maintain the original case file.

3.17.15.6.5.1  
(06-18-2013)  
**Account 1535 Review  
Procedures**

- (1) Ensure Form 3809 documents balance to the 1535 Account portion of the RRACS 0131 Report.
- (2) Ensure all back-up documentation is present.

3.17.15.6.6  
(10-01-2018)  
**Account 1540 Non-Court  
Case Erroneous Refund**

- (1) This receivable account is used to record erroneous refund receivables that are **not** court cases. This account represents erroneous refund receivables that have **not** been collected, resulted in a court case, assessed or determined uncollectible. Account 1540 will be supported by:
  - Copies of bills
  - IDRS Letter 510C or Letter 4728C
  - Debit vouchers
  - Other documents showing the name of each debtor, amount receivable and details of the transaction creating the indebtedness
- (2) Cases are transferred to Account 1530 when it is determined that the case is going to court.
- (3) Cases are transferred to Account 4910, Disbursement Loss when the statute expires.
- (4) A case determined to be uncollectible before the statute expiration will be transferred to Account 4910, Disbursement Loss. Documentation will explain why the account is uncollectible.

**Note:** The reports analyst must review Account 1540 monthly to ensure that cases are timely transferred to Account 4910.

- (5) The external subsidiary for this account is the file of paper documentation described in (1) above.

3.17.15.6.6.1  
(09-20-2019)  
**Account 1540 Review  
Procedures**

- (1) Within the first 10 days of receipt the tax examiner should have the following:
  - Completed history sheet.
  - Verification of 1st Letter 510C issued by area identifying the erroneous refund. If no Letter 510C had been sent, then the examiner receiving the case should have sent it.
  - Verification that a TC 844 is on the IDRS account with a demand date, if the IRS is in error, or no demand date if the taxpayer is in error. If the case is routed from one campus to another, the TC 844 should have been re-input at the campus where the case is being worked.
  - Verify the TC 470, Closing Code 93 has been input.
  - Verify the TC 971, Action Code 663 has been input.
- (2) Case files should be maintained as follows:
  - Cases should be in Doc ID, TIN or alpha order
  - The right side of the folder should contain:
    1. Completed case history sheet
    2. The original TXMOD print
    3. A current TXMOD print

**Note:** TXMOD prints should be updated at least every three months or when action is taken.

4. Back-up, letters, correspondence, etc.

**Note:** Keep the most current action at the top after the TXMOD prints. All actions should be dated and recorded in detail on the history sheet.

- All original Forms 3809 should be maintained in case folder with the most current journal on top.
  - Erroneous refund expiration date must be marked on the outside of the case file folder.
  - Original Erroneous refund case on the bottom of the right-hand side of the case file.
  - Balance sheet showing the original Erroneous Refund amount and the remaining balance. This should be stapled to the left side of the case folder and updated with each transaction. The ending amount should always match the balance on the RRACS 0131 report.
  - Ensure the second Letter 510C was sent 45 days after the first Letter 510C or if the case was not received within 45 days from the identifying area then the second Letter 510C was sent within 10 days of receipt of the case.
- #

**Account 4970 Unapplied**  
**Refund Reversal**

- (1) This account is used to record, and control canceled refund checks prior to research for proper application. The items included in this account are only those checks generated manually or through IDRS, which cannot be input by the disbursing office directly to Master File.

- (2) This account is used to control Doc Code 45 refund items that are received due to mismatch of money amounts. Resolution of these items may require contact with the Regional Finance Center (RFC) and the Fiscal Service. Discrepancies under \$5.00 will be resolved by preparing Form 3809 and using account 6540, Small Debit and Credits Cleared, requesting a journal action..
- (3) If any items cannot be resolved through research and have been in the account for over two years, follow-up contact with RFC and BFS, administrative action may be requested. Administrative approval to charge Unapplied Refund Reversal credit amounts to Account 6800, Excess Collections and charge debit items to Account 1840, Other Receivables, may be granted. Authority for approving such action may not be delegated below ACO operations manager level. All cases should be fully documented on a case history sheet regarding research performed, destruction of records, contacts made, or any related correspondence to ascertain that resolution is no longer possible.
- (4) This account is used to control IPAC-D and IPAC-R receipts until the tapes are processed at ECC or manual documents are prepared. Individual records will be maintained for each IPAC document.
- (5) Individual records from refund cancellations that result in unpostable transactions can be resolved by researching the UPC code on IDRS. Unpostable conditions should be worked from SCCF by ACO personnel, per *IRM 3.17.30.13.3(4a)*, Resolution of Nullified Unpostable Items, and should not be held in the 4970 account.
- (6) All items placed into this account are refunds or refund cancellations that must be conducted to issue a refund to a taxpayer. Items placed in this account will be subject to expedite research to determine proper application and will be transferred to the proper taxpayer's account upon identification to prevent refund delays and paying additional interest.
- (7) Refunds and cancellations transferred from this account to a miscellaneous fund must be reclassified.
- (8) The external subsidiary file documents are Form 3809 associated with Form 1098, Form 3245 and IPAC Treasury Receivable, Accounting and Collection System (TRACS).

**Losses and Shortages**

- (1) The following are the three Losses and Shortages accounts:
  - Account 7610 - Embezzlement, Thefts and Negligence
  - Account 7620 - Unexplained Losses
  - Account 7650 - Deposit Discrepancies
- (2) These accounts are supported by individual records in the Losses and Shortage file within RRACS. Each individual record requires its own Doc ID. Unless known to be otherwise, tax class will always be 2.
- (3) Source documents related to the losses and shortages are:
  - Form 3244
  - Memorandum granting relief for losses or shortages other than by payment
  - Memorandum or letters stating losses or shortages
  - Form 2424
  - Form 813
  - Form 215
  - Form 5515
- (4) Effective July 15, 2013, a new RRACS 0576 Report titled Electronic Check Processing (ECP) Deposit Discrepancy Support List is available. This monthly report includes all open ECP (Lockbox) Deposit Discrepancies. The total money amount must equal the open case files.

3.17.15.6.37  
(07-02-2021)  
**Account 7610**  
**Embezzlement and**  
**Thefts**

- (1) This asset account is used to record cash shortages of collections, losses from robbery or theft, embezzlement of collections and counterfeit bills. The balance in this account represents the total amount of such losses or shortages for which restitution or reimbursement may be obtained, or for which relief may be granted.
- (2) This account is supported by reports and case history files covering the details of each recorded collection loss or shortage. Case history files may include, but not exclusively:
  - TIGTA memorandum
  - TIGTA report of investigation (ROI)
  - Copy of document transferring credit to the injured taxpayer's account
  - Transcript of injured taxpayer's account showing the credit from Account 7610

  - Copy of the internal controls in place at the time of the loss
  - Any internal control changes
  - Copy of court documents
  - A list of any payments made or offsets
  - History of contacts with TIGTA, Court, Department of Labor, Kansas City DOJ lockbox and any other areas/agencies

- Internal Revenue Code (IRC) Section 7804(c) assessment documents (non-court case)

(3) The reports analyst must review this account to ensure case files have required supporting document and updated history sheets.

3.17.15.6.38

(06-19-2020)

**Account 7620**

**Unexplained Losses**

(1) This asset account is used to record unexplained losses. An unexplained loss is an apparent deposit discrepancy that cannot be collected under the Federal Claims Collection Act (FCCA). When the Service cannot establish the bank's liability for a deposit discrepancy, the loss is considered unexplained. Unexplained losses of \$10,000 or more require Treasury's approval.

(2) This account is supported by case history files covering the details of each recorded collection loss or shortage. Case history files may include:

- Copies of the debit voucher
- Copy of the deposit ticket
- Copy of Form 813
- Correspondence to/from depository
- Correspondence to/from bank
- Copy of taxpayer's check (front/back)
- Transcript of the taxpayer's account
- Historical record of attempts to resolve the discrepancy

(3) This account is included as an accountability for the list of accountable officers found in *IRM 3.0.167-1*, List of Accountable Officers.

(4) The reports analyst must review this account to ensure case files are complete with required supporting documentation and updated history sheets.

3.17.15.6.39

(06-19-2020)

**Account 7650 Deposit Discrepancies**

(1) This asset account is used to record amounts of deposit discrepancies which are discovered by the depositories. This account may also be used when the Payment Tracer function has unresolved encoding errors, where extensive research has been completed and the credit cannot be located. These items are considered true deposit shortages for accountability purposes. The balance in this account represents the total amount of such losses or shortages for which restitution or reimbursement may be obtained, or for which relief may be granted.

(2) Account 7650 is supported by reports and case history files covering the details of each recorded collection loss or shortage. Case history files may include:

- Copy of the debit voucher
- Copy of the Deposit ticket
- Copy of Form 813
- Correspondence to/from depository
- Correspondence to/from bank
- Copy of taxpayer's check (front/back)
- Transcript of the taxpayer's account
- Historical record of attempts to resolve the discrepancy

(3) This account is included in the accountability of the accountable officer.

(4) Review Account 7650 monthly to make sure bank contact is timely and identify discrepancies that require relief. Unresolved cases over \$1,500 are forwarded

to Counsel for a recommendation to file suit or stop collection action against the depository. If Counsel recommends termination of collection action, administrative resolution under Delegation Order 1–25, Termination of Collection Action against Federal Depositories or the DOJ is requested.
