Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1986 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1986.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions and Other Related Items, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts. Also included in this part are Bank Secrecy Act Administrative Rulings. Bank Secrecy Act Administrative Rulings are issued by the Department of the Treasury's Office of the Assistant Secretary (Enforcement).

Part IV.—Items of General Interest.

This part includes notices of proposed rulemakings, disbarment and suspension lists, and announcements.

The last Bulletin for each month includes a cumulative index for the matters published during the preceding months. These monthly indexes are cumulated on a semiannual basis, and are published in the last Bulletin of each semiannual period.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

SUMMARY: This document amends final regulations (TD 9664) that were published in the **Federal Register** on May 9, 2014. The final regulations provide guidance on which costs incurred by estates or trusts other than grantor trusts (non-grantor trusts) are subject to the 2-percent floor for miscellaneous itemized deductions under section 67(a) of the Internal Revenue Code.

DATES: *Effective date*: This amendment to the final regulations published on May 9, 2014 (79 FR 90), is effective on July 17, 2014.

Applicability Date: For date of applicability, see § 1.67–4(d).

SUPPLEMENTARY INFORMATION:

Background

The final regulations that are the subject of these amendments are under sec-

tion 67 of the Internal Revenue Code. The final regulations (TD 9664) were published in the Federal Register on Friday, May 9, 2014 (79 FR 90). The final regulations applied to taxable years beginning on or after May 9, 2014.

Need for Amendment

The Treasury Department and the IRS received a comment raising concerns about the effective/applicability date of the regulations. As issued, the final regulations apply to taxable years beginning on or after May 9, 2014. Therefore, fiduciaries of existing trusts and calendar-year estates would implement the rules beginning January 1, 2015. However, the rules would apply immediately to any nongrantor trust created after May 8, 2014, the estate of any decedent who dies after May 8, 2014, and any existing fiscal-year estate with a taxable year beginning after May 8, 2014. The commentator stated that the effective/applicability date in the regulations does not give fiduciaries of these trusts and estates sufficient time to implement the changes that are necessary to comply with the regulations. Specifically, the commentator is concerned about allowing fiduciaries sufficient time to design and implement the necessary program changes to determine the portion of a bundled fee that is attributable to costs that are subject to the 2-percent floor versus costs that are not subject to the 2-percent floor. In response to these comments, this document amends § 1.67-4(d)of the Final Regulations so that the regulations apply to taxable years beginning on or after January 1, 2015. * * * * *

(d) *Effective/applicability date*. This section applies to taxable years beginning after December 31, 2014.

SUPPLEMENTARY INFORMATION:

Summary of Proposed Regulations

On September 6, 2013, a notice of proposed rulemaking (REG–124148–05) and a notice of public hearing were published in the **Federal Register** (78 FR 547896). The IRS and the Treasury Department proposed the following revisions to the current regulations:

First, to counter an interpretation that section 174 eligibility can be reversed by a subsequent event, the proposed regulations provided that the ultimate success, failure, sale, or other use of the research or property resulting from research or experimentation is not relevant to a determination of eligibility under section 174.

Second, the proposed regulations amended § 1.174-2(b)(4) to provide that the Depreciable Property Rule (the rules in § 1.174-2(b)(1) and § 1.174-2(b)(4)) is an application of the general definition of research or experimental expenditures provided for in § 1.174-2(a)(1) and should not be applied to exclude otherwise eligible expenditures.

Third, the proposed regulations defined the term "pilot model" as any representation or model of a product that is produced to evaluate and resolve uncertainty concerning the product during the development or improvement of the product. The term included a fully-functional representation or model of the product or a component of a product (to the extent the shrinking-back rule applies).

Fourth, the proposed regulations clarified the general rule that the costs of producing a product after uncertainty concerning the development or improvement of a product is eliminated are not eligible under section 174 because these costs are not for research or experimentation.

Finally, the proposed regulations provided a shrinking-back rule, similar to the rule provided in § 1.41-4(b)(2), to address situations in which the requirements of § 1.174-2(a)(1) are met with respect to

only a component part of a larger product and are not met with respect to the overall product itself.

The proposed regulations also provided new examples applying the foregoing provisions.

Summary of Comments and Explanation of Provisions

Several comments were received in response to the proposed regulations. Following is a discussion of significant comments. Certain other comments presented issues unrelated to the proposed regulations, and they are not adopted or discussed herein.

Uncertainty

Some commentators requested a definition of "uncertainty" because the examples rely on "elimination of uncertainty" as the point when research activities have concluded. Section 1.174-2(a)(1) provides that "[u]ncertainty exists if the information available to the taxpayer does not establish the capability or method for developing or improving the product or the appropriate design of the product." Because the current regulations already provide a sufficient definition of "uncertainty," and the point at which uncertainty is eliminated (that is, information available to the taxpayer establishes the capability or method for developing or improving the product or the appropriate design of the product) is based on the taxpayer's facts and circumstances, the final regulations do not provide additional guidance with respect to the definition of "uncertainty."

Some commentators requested а bright-line standard, such as the commencement of commercial production as in section 41(d)(4)(A), to determine when uncertainty is eliminated. Section 1.174-2(a)(1) of the proposed regulations provided that costs may be eligible under section 174 if paid or incurred after production begins but before uncertainty concerning the development or improvement of the product is eliminated. The point at which uncertainty is resolved is based on the taxpayer's facts and circumstances, and therefore a bright-line standard is not appropriate under section 174.

Some commentators requested that the regulations explicitly incorporate the rule of application regarding the discovering information requirement found in section 41(d)(1)(B) and § 1.41-4(a)(3)(ii) (that is, there is no requirement that the taxpayer be seeking to obtain information that exceeds, expands, or refines the common knowledge of skilled professionals in the particular field, and there is no requirement that the taxpayer succeed in developing a new or improved business component). The IRS and the Treasury Department note that section 174 does not contain any provision defining research or experimentation. In contrast, section 41 provides a statutory definition for "qualified research," which includes a requirement that the research be undertaken for the purpose of discovering information. In addition, neither the section 174 statute nor its legislative history suggest that a taxpayer must seek information that exceeds, expands, or refines the common knowledge of skilled professionals in the particular field in which the taxpayer is performing research. Section 1.174-2(a)(1) of the current regulations simply provides that "[e]xpenditures represent research and development costs in the experimental or laboratory sense if they are for activities intended to discover information that would eliminate uncertainty concerning the development or improvement of a product." Consequently, this comment is not adopted.

Some commentators questioned how the substantially all requirement in section 41(d)(1)(C) and § 1.41-4(a)(6) (that is, 80 percent or more of a taxpayer's research activities, measured on a cost or other consistently applied reasonable basis, constitute elements of a process of experimentation) applies to section 174. Section 174 does not contain a similar "substantially all" requirement. Accordingly, the requirement in section 41(d)(1)(C) and § 1.41-4(a)(6) does not apply to section 174.

Supplies

Some commentators requested clarification that indirect or ancillary supplies used in research are eligible under section 174 although ineligible under section 41. Section 1.174-2(a)(1) of the current regulations provides that the term "research or experimental expenditures" "generally includes all such costs incident to the development or improvement of a product." This statement is sufficiently broad to include indirect or ancillary supplies used in research that otherwise satisfies the requirements of section 174. Therefore, revisions to the proposed regulations are not needed to respond to the commentators' concern.

Pilot Model

One commentator expressed concern regarding a proposed example demonstrating the application of the rules in the case of multiple pilot models. The commentator suggested that, under Example 5 of § 1.174-2(a)(11) of the proposed regulations, the deductibility of section 174 expenses for multiple pilot models is permitted only if each pilot model is tested for a purpose that is different from any other pilot model. The definition of pilot model contained in § 1.174-2(a)(4) of the proposed regulations does not contain a requirement that the pilot model be used to test for a discrete purpose. A pilot model within the definition of § 1.174-2(a)(4) of the proposed regulations (including a component to the extent paragraph (a)(5) applies) is eligible for section 174, subject to satisfaction of the other requirements of section 174 and the regulations. The final regulations modify Example 5 to clarify that it is not necessary for each pilot model to be tested for a discrete purpose for the costs of multiple pilot models to qualify as research and experimental expenditures under section 174.

One commentator requested clarification regarding the distinction between a section 174 eligible "pilot model" and a section 174 ineligible "test bed." Furthermore, the commentator construed *Example 2* and *Example 3* of proposed regulation § 1.174-2(b)(5) to state that test beds are depreciable property excluded from section 174. As provided in proposed regulation § 1.174-2(a)(4), a pilot model means any representation or model of a product that is produced to evaluate and resolve uncertainty concerning the product during the development or improvement of the product. The proposed examples demonstrate the application of § 1.174–2(b)(1), (b)(2), and (b)(4) (that is, when expenditures for property may be research and experimental expenditures). The facts of the proposed examples do not demonstrate the existence of a pilot model nor do they foreclose the possibility that a test bed may be a pilot model if it meets the definition of a pilot model under proposed regulation § 1.174-2(a)(4). For example, if the taxpayer constructed a new test bed as a model test bed and the new test bed was produced to evaluate and resolve uncertainty concerning the test bed during its development or improvement, it could be a pilot model. Because these examples were not intended to illustrate pilot models, the final regulations do not adopt this comment.

Shrinking-Back Rule

Some commentators expressed concern that the shrinking-back rule in § 1.174-2(a)(5) of the proposed regulations may exclude from section 174 the cost of testing to eliminate uncertainty regarding the integration of an experimental component with a nonexperimental product. Section 1.174-2(a)(1) of the current regulations provides that the term "research or experimental expenditures" "generally includes all such costs incident to the development or improvement of a product." This statement is sufficiently broad to encompass the cost of testing (other than testing specifically excluded under current § 1.174-1(a)(3) (quality control testing)) performed to eliminate uncertainty with respect to an experimental component and costs to resolve uncertainty regarding integration of an experimental component with a nonexperimental product when the requirements of § 1.174-2(a)(1) are not met for the product as a whole. Therefore, revisions to the proposed regulations are not needed to respond to the commentators' concern.

Some commentators requested that the shrinking-back rule in § 1.174-2(a)(5) of the proposed regulations be eliminated. The commentators stated that the shrinking-back rule in § 1.41-4(b)(2) is peculiar to section 41 and serves no purpose in section 174. As with business components under section 41, research or experimental expenditures may relate

only to one or more components of a larger product. The shrinking-back rule in the proposed regulations was intended to ensure that section 174 eligibility is preserved in instances in which a basic design specification of the product may be established, but there is uncertainty with respect to certain components of the product, even if uncertainty arises after production of the product has begun. Therefore, the substance of the shrinking-back rule is retained in the final regulations. However, in response to commentator concerns, and to avoid any unintended confusion with the shrinking-back rule of § 1.41-4(b)(2), the rule in § 1.174-2(a)(5) of the proposed regulations has been renamed. Furthermore, the last sentence of § 1.174-2(a)(5) of the proposed regulations has been eliminated in response to commentator concerns that references to section 41 may imply that other requirements under section 41, such as the process of elimination requirement, apply to expenditures under section 174.

The final regulations also modify *Example 8* of the proposed regulations and include one additional example, *Example 9*, to demonstrate the application of section 174 to components of a product.

Examples

One commentator expressed concern about Example 7 of § 1.174-2(a)(11) of the proposed regulations, which described the development of "a new, experimental aircraft." The commentator believes that the use of the words "new" and "experimental" in proposed Example 7 could be interpreted to establish a new, heightened standard for eligibility for section 174. Section 1.174-2(a)(1) of the current regulations provides the only qualitative criteria for eligibility for section 174 and provides that whether expenditures qualify as research or experimental expenditures depends on the nature of the activity to which they relate, not the nature of the product or improvement being developed or the level of technological advancement the product or improvement represents. Terms used in examples do not have substantive meaning that expand or reduce the meaning or application of terms used in the regulations; they are simply describing the facts of the example. Accordingly, the final regulations do not revise *Example 7* to remove the descriptive terms "new" or "experimental."

One commentator requested guidance revising § 1.174-2(c), regarding exploration expenditures for oil, gas, or minerals. This comment is outside the scope of the proposed regulations which did not propose changes to § 1.174-2(c). Therefore, the requested guidance is not adopted in the final regulations.

Effective/Applicability Date

These regulations apply to taxable years ending on or after the date of their publication as final regulations in the **Federal Register**. Taxpayers may apply the final regulations to taxable years for which the limitations for assessment of tax has not expired.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866, as supplemented by Executive Order 13563. Therefore, a regulatory assessment is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because the regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f) of the Code, the notice of proposed rulemaking that preceded these final regulations was submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business and no comments were received.

Drafting Information

The principal author of these regulations is David McDonnell of the Office of Associate Chief Counsel (Passthroughs and Special Industries). However, other personnel from the Treasury Department and the IRS participated in their development.

16. By adding paragraph (d).

The revisions and additions read as follows:

§ 1.174–2 Definition of research and experimental expenditures.

(a) In general. (1) Research or experimental expenditures defined. * * * The ultimate success, failure, sale, or use of the product is not relevant to a determination of eligibility under section 174. Costs may be eligible under section 174 if paid or incurred after production begins but before uncertainty concerning the development or improvement of the product is eliminated.

(2) *Production costs.* Except as provided in paragraph (a)(5) of this section (the rule concerning the application of section 174 to components of a product), costs paid or incurred in the production of a product after the elimination of uncertainty concerning the development or improvement of the product are not eligible under section 174.

(3) Product defined. * * *

(4) Pilot model defined. For purposes of this section, the term *pilot model* means any representation or model of a product that is produced to evaluate and resolve uncertainty concerning the product during the development or improvement of the product. The term includes a fully-functional representation or model of the product or, to the extent paragraph (a)(5) of this section applies, a component of the product.

(5) Application of section 174 to components of a product. If the requirements of paragraph (a)(1) of this section are not met at the level of a product (as defined in paragraph (a)(3) of this section), then whether expenditures represent research and development costs is determined at the level of the component or subcomponent of the product. The presence of uncertainty concerning the development or improvement of certain components of a product does not necessarily indicate the presence of uncertainty concerning the development or improvement of other components of the product or the product as a whole. The rule in this paragraph (a)(5) is not itself applied as a reason to exclude research or experimental expenditures from section 174 eligibility.

(6) Research or experimental expenditures—exclusions. * * *

(7) Quality control testing. * * *

(8) Expenditures for literary, historical, or similar research—cross reference. * * *

(9) Research or experimental expenditures limited to reasonable amounts. * * *

(10) Amounts paid to others for research or experimentation. * * *

(11) *Examples*. The following examples illustrate the application of this paragraph (a).

Example 1. Amounts paid to others for research or experimentation allowed as a deduction. * * *

Example 2. Amounts paid to others not allowable as a deduction. * * *

Example 3. Pilot model. U is engaged in the manufacture and sale of custom machines. U contracts to design and produce a machine to meet a customer's specifications. Because U has never designed a machine with these specifications, U is uncertain regarding the appropriate design of the machine, and particularly whether features desired by the customer can be designed and integrated into a functional machine. U incurs a total of \$31,000 on the project. Of the \$31,000, U incurs \$10,000 of costs on materials and labor to produce a model that is used to evaluate and resolve the uncertainty concerning the appropriate design. U also incurs \$1,000 of costs using the model to test whether certain features can be integrated into the design of the machine. This \$11,000 of costs represents research and development costs in the experimental or laboratory sense. After uncertainty is eliminated, U incurs \$20,000 to produce the machine for sale to the customer based on the appropriate design. The model produced and used to evaluate and resolve uncertainty is a pilot model within the meaning of paragraph (a)(4) of this section. Therefore, the \$10,000 incurred to produce the model and the \$1,000 incurred on design testing activities qualifies as research or experimental expenditures under section 174. However, section 174 does not apply to the \$20,000 that U incurred to produce the machine for sale to the customer based on the appropriate design. See paragraph (a)(2) of this section (relating to production costs).

Example 4. Product component redesign. Assume the same facts as Example 3, except that during a quality control test of the machine, a component of the machine fails to function due to the component's inappropriate design. U incurs an additional \$8,000 (including design retesting) to reconfigure the component's design. The \$8,000 of costs represents research and development costs in the experimental or laboratory sense. After the elimination of uncertainty regarding the appropriate design of the component, U incurs an additional \$2,000 on its production. The reconfigured component produced and used to evaluate and resolve uncertainty with respect to the component is a pilot model within the meaning of paragraph (a)(4) of this section. Therefore, in addition to the \$11,000 of research and experimental expenditures previously incurred, the \$8,000 incurred on design activities to establish the appropriate design of the component qualifies as research or experimental expenditures under section 174. However, section 174 does not apply to the additional \$2,000 that U

incurred for the production after the elimination of uncertainty of the re-designed component based on the appropriate design or to the \$20,000 previously incurred to produce the machine. See paragraph (a)(2) of this section (relating to production costs).

Example 5. Multiple pilot models. V is a manufacturer that designs a new product. V incurs \$5,000 to produce a number of models of the product that are to be used in testing the appropriate design before the product is mass-produced for sale. The \$5,000 of costs represents research and development costs in the experimental or laboratory sense. Multiple models are necessary to test the design in a variety of different environments (exposure to extreme heat, exposure to extreme cold, submersion, and vibration). In some cases, V uses more than one model to test in a particular environment. Upon completion of several years of testing, V enters into a contract to sell one of the models to a customer and uses another model in its trade or business. The remaining models were rendered inoperable as a result of the testing process. Because V produced the models to resolve uncertainty regarding the appropriate design of the product, the models are pilot models under paragraph (a)(4) of this section. Therefore, the \$5,000 that V incurred in producing the models qualifies as research or experimental expenditures under section 174. See also paragraph (a)(1) of this section (ultimate use is not relevant).

Example 6. Development of a new component; pilot model. W wants to improve a machine for use in its trade or business and incurs \$20,000 to develop a new component for the machine. The \$20,000 is incurred for engineering labor and materials to produce a model of the new component that is used to eliminate uncertainty regarding the development of the new component for the machine. The \$20,000 of costs represents research and experimental costs in the experimental or laboratory sense. After W completes its research and experimentation on the new component, W incurs \$10,000 for materials and labor to produce the component and incorporate it into the machine. The model produced and used to evaluate and resolve uncertainty with respect to the new component is a pilot model within the meaning of paragraph (a)(4) of this section. Therefore, the \$20,000 incurred to produce the model and eliminate uncertainty regarding the development of the new component qualifies as research or experimental expenditures under section 174. However, section 174 does not apply to the \$10,000 of production costs of the component because those costs were not incurred for research or experimentation. See paragraph (a)(2)of this section (relating to production costs).

Example 7. Disposition of a pilot model. X is a manufacturer of aircraft. X is researching and developing a new, experimental aircraft that can take off and land vertically. To evaluate and resolve uncertainty during the development or improvement of the product and test the appropriate design of the experimental aircraft, X produces a working aircraft at a cost of \$5,000,000. The \$5,000,000 of costs represents research and development costs in the experimental or laboratory sense. In a later year, X sells the aircraft. Because X produced the aircraft to resolve uncertainty regarding the appropriate design of the product during the development of the experimental aircraft, the aircraft is a pilot model under paragraph

(a)(4) of this section. Therefore, the \$5,000,000 of costs that X incurred in producing the aircraft qualifies as research or experimental expenditures under section 174. Further, it would not matter if X sold the pilot model or incorporated it in its own business as a demonstration model. See paragraph (a)(1) of this section (ultimate use is not relevant).

Example 8. Development of new component; pilot model. Y is a manufacturer of aircraft engines. Y is researching and developing a new type of compressor blade, a component of an aircraft engine, to improve the performance of an existing aircraft engine design that Y already manufactures and sells. To test the appropriate design of the new compressor blade and evaluate the impact of fatigue on the compressor blade design, Y produces and installs the compressor blade on an aircraft engine held by Y in its inventory. The costs of producing and installing the compressor blade component that Y incurred represent research and development costs in the experimental or laboratory sense. Because Y produced the compressor blade component to resolve uncertainty regarding the appropriate design of the component, the component is a pilot model under paragraph (a)(4) of this section. Therefore, the costs that Y incurred to produce and install the component qualify as research or experimental expenditures under section 174. See paragraph (a)(5) of this section (regarding the application of section 174 to components of a product). However, section 174 does not apply to Y's costs of producing the aircraft engine on which the component was installed. See paragraph (a)(2) of this section (relating to production costs).

Example 9. Variant product. T is a fuselage manufacturer for commercial and military aircraft. T is modifying one of its existing fuselage products, Class 20XX-1, to enable it to carry a larger passenger and cargo load. T modifies the Class 20XX-1 design by extending its length by 40 feet. T incurs \$1,000,000 to develop and evaluate different designs to resolve uncertainty with respect to the appropriate design of the new fuselage class, Class 20XX-2. The \$1,000,000 of costs represents research and development costs in the experimental or laboratory sense. Although Class 20XX-2, is a variant of Class 20XX-1, Class 20XX-2 is a new product because the information available to T as a result of T's development of Class 20XX-1 does not resolve uncertainty with respect to T's development of Class 20XX-2. Therefore, the \$1,000,000 of costs that T incurred to develop and evaluate the Class 20XX-2 qualifies as research or experimental expenditures under section 174. Paragraph (a)(5) of this section does not apply, as the requirements of paragraph (a)(1) of this section are met with respect to the entire product.

Example 10. New process development. Z is a wine producer. Z is researching and developing a new wine production process that involves the use of a different method of crushing the wine grapes. In order to test the effectiveness of the new method of crushing wine grapes, Z incurs \$2,000 in labor and materials to conduct the test on this part of the new manufacturing process. The \$2,000 of costs represents research and development costs in the experimental or laboratory sense. Therefore, the \$2,000 incurred qualifies as research or experimental expenditures under section 174 because it is a cost incident

to the development or improvement of a component of a process.

(b) * * *

(1) Land and other property. * * *

(2) Expenditure resulting in depreciable property. * * *

(3) Amounts paid to others for research or experimentation resulting in depreciable property. * * *

(4) Deductions limited to amounts expended for research or experimentation. The deductions referred to in paragraphs (b)(2) and (3) of this section for expenditures in connection with the acquisition or production of depreciable property to be used in the taxpayer's trade or business are limited to amounts expended for research or experimentation within the meaning of section 174 and paragraph (a) of this section.

(5) *Examples*. The following examples illustrate the application of paragraph (b) of this section.

Example 1. Amounts paid to others for research or experimentation resulting in depreciable property. X is a tool manufacturer. X has developed a new tool design, and orders a specially-built machine from Y to produce X's new tool. The machine is built upon X's order and at X's risk, and Y does not provide a guarantee of economic utility. There is uncertainty regarding the appropriate design of the machine. Under X's contract with Y, X pays \$15,000 for Y's engineering and design labor, \$5,000 for materials and supplies used to develop the appropriate design of the machine, and \$10,000 for Y's machine production materials and labor. The \$15,000 of engineering and design labor costs and the \$5,000 of materials and supplies costs represent research and development costs in the experimental or laboratory sense. Therefore, the \$15,000 X pays Y for Y's engineering and design labor and the \$5,000 for materials and supplies used to develop the appropriate design of the machine are for research or experimentation under section 174. However, section 174 does not apply to the \$10,000 of production costs of the machine because those costs were not incurred for research or experimentation. See paragraph (a)(2) of this section (relating to production costs) and paragraph (b)(4) of this section (limiting deduction to amounts expended for research or experimentation).

Example 2. Expenditures with respect to other property. Z is an aircraft manufacturer. Z incurs \$5,000,000 to construct a new test bed that will be used in the development and improvement of Z's aircraft. No portion of Z's \$5,000,000 of costs to construct the new test bed represent research and development costs in the experimental or laboratory sense to develop or improve the test bed. Because no portion of the costs to construct the new test bed were incurred for research or experimentation, the \$5,000,000 will be considered an amount paid or incurred in the production of depreciable property to be used in the taxpayer's trade or business that are not allowable under section 174. However, the allowances for depreciation of the test bed are considered research and experimental expenditures of other products, for purposes of section 174, to the extent the test bed is used in connection with research or experimentation of other products. See paragraph (b)(1) of this section (depreciation allowances may be considered research or experimental expenditures).

Example 3. Expenditure resulting in depreciable property. Assume the same facts as Example 2, except that \$50,000 of the costs of the test bed relates to costs to resolve uncertainties regarding the new test bed design. The \$50,000 of costs represents research and development costs in the experimental or laboratory sense. Because \$50,000 of Z's costs to construct the new test bed was incurred for research and experimentation, the costs qualify as research or experimental expenditures under section 174. Paragraph (b)(2) of this section applies to \$50,000 of Z's costs for the test bed because they are expenditures for research or experimentation that result in depreciable property to be used in the taxpayer's trade or business. Z's remaining \$4,950,000 of costs is not allowable under section 174 because these costs were not incurred for research or experimentation. * * * * *

(d) *Effective/applicability date*. The eighth and ninth sentences of § 1.174-2(a)(1); § 1.174-2(a)(2); § 1.174-2(a)(4); § 1.174-2(a)(5); § 1.174-2(a)(11) *Example 3* through *Example 10*; § 1.174-2(b)(4); and § 1.174-2(b)(5) apply to taxable years ending on or after July 21, 2014. Taxpayers may apply the provisions enumerated in the preceding sentence to taxable years for which the limitations for assessment of tax has not expired.

John Dalrymple Deputy Commissioner for Services and Enforcement.

Allocation and Apportionment of Interest Expense

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Final regulations and removal of temporary regulations.

SUMMARY: This document contains final regulations that provide guidance concerning the allocation and apportionment of interest expense by corporations owning a 10 percent or greater interest in a partnership, as well as the allocation and apportionment of interest expense using the fair market value method. These regulations also update the interest allocation regulations to conform to the statutory changes made by section 216 of the legislation commonly referred to as the Education Jobs and Medicaid Assistance Act (EJMAA), enacted on August 10, 2010, affecting the affiliation of certain foreign corporations for purposes of section 864(e). These regulations affect taxpayers that allocate and apportion interest expense.

DATES: *Effective Date*: These regulations are effective on July 15, 2014.

Applicability Dates: For dates of applicability, see §§ 1.861–9(k) and 1.861–11(d)(6)(ii).

SUPPLEMENTARY INFORMATION:

Background and Explanation of Provisions

On September 14, 1988, a notice of proposed rulemaking by cross-reference to temporary regulations and temporary regulations (TD 8228) under section 861 of the Internal Revenue Code (Code) (the 1988 temporary regulations) were published in the Federal Register at [53 FR 35525] and [53 FR 35467], respectively. On January 17, 2012, a notice of proposed rulemaking by cross-reference to temporary regulations (REG-113903-10) and temporary regulations (the 2012 temporary regulations) (TD 9571) which revised, in part, the 1988 temporary regulations, were published in the Federal Register at [77 FR 2240] and [77 FR 2225], respectively. Corrections to the 2012 temporary regulations were published on February 21, 2012, in the Federal Register at [77 FR 9844]. No written comments were received on the 2012 temporary regulations or on the portion of the 1988 temporary regulations included in this regulation. A public hearing was not requested and none was held. This Treasury decision adopts the proposed regulations published in connection with the 2012 temporary regulations, as well as the portions of § 1.861-9T(e)(2) and (3) of the 1988 temporary regulations that were not amended by the 2012 temporary regulations, with no substantive change.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866, as supplemented by Executive Order 13653. Therefore, a regulatory assessment is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because the regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f), the notice of proposed rulemaking preceding this regulation was submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Drafting Information

The principal author of these regulations is Jeffrey L. Parry of the Office of Chief Counsel (International). However, other personnel from the IRS and the Treasury Department participated in their development.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR part 1 is amended as follows:

PART 1—INCOME TAXES

Paragraph 1. The authority citation for part 1 continues to read in part as follows:

Authority: 26 U.S.C. 7805 * * * Par. 2. Section 1.861–9 is amended by

1. Revising paragraphs (a), (b), (c), (d), (e), (f)(1), (f)(2), (f)(3)(i), (f)(5), (g),

(h)(1), (h)(2), (h)(3), and (h)(4); and

2. Adding five new sentences to the end of paragraph (k).

The revisions and addition read as follows:

§ 1.861–9 Allocation and apportionment of interest expense

(a) through (e)(1) [Reserved]. For further guidance, see § 1.861-9T(a) through (e)(1).

(2) Corporate partners whose interest in the partnership is 10 percent or more. A corporate partner shall apportion its interest expense, including the partner's distributive share of partnership interest expense, by reference to the partner's assets, including the partner's pro rata share of partnership assets, under the rules of paragraph (f) of this section if the corporate partner's direct and indirect interest in the partnership (as determined under the attribution rules of section 318) is 10 percent or more. A corporation using the tax book value method or alternative tax book value method of apportionment shall use the partnership's inside basis in its assets, including adjustments under sections 734(b) and 743(b), if any, and adjusted to the extent required under § 1.861-10T(d)(2). A corporation using the fair market value method of apportionment shall use the fair market value of the partnership's assets, adjusted to the extent required under § 1.861–10T(d)(2).

(3) Individual partners who are general partners or who are limited partners with an interest in the partnership of 10 percent or more. An individual partner is subject to the rules of this paragraph (e)(3)if either the individual is a general partner or the individual's direct and indirect interest (as determined under the attribution rules of section 318) in the partnership is 10 percent or more. The individual shall first classify his or her distributive share of partnership interest expense as interest incurred in the active conduct of a trade or business, as passive activity interest, or as investment interest under regulations issued under sections 163 and 469. The individual must then apportion his or her interest expense, including the partner's distributive share of partnership interest expense, under the rules of paragraph (d) of this section. Each such individual partner shall take into account his or her distributive share of the partnership gross income or pro rata share of the partnership assets in applying such rules. An individual using the tax book value or alternative tax book value method of apportionment shall use the partnership's inside basis in its assets, including adjustments under sections 734(b) and 743(b), if any, and adjusted to the extent required under § 1.861–10T(d)(2). An individual using the fair market value method of apportionment shall use the fair market value of the partnership's assets, adjusted to the extent required under 1.861–10(d)(2).

(e)(4) through (f)(3)(i) [Reserved]. For further guidance, see § 1.861–9T(e)(4) through (f)(3)(i). * * * * *

(f)(5) through (h)(3) [Reserved]. For further guidance, see § 1.861-9T(f)(5) through (h)(3).

(h)(4) Valuing related party debt and stock in related persons – (i) Related party debt. For purposes of this section, the value of a debt obligation of a related person held by the taxpayer or another person related to the taxpayer equals the amount of the liability of the obligor related person.

(ii) *Stock in related persons*. The value of stock in a related person held by the taxpayer or by another person related to the taxpayer equals the sum of the following amounts reduced by the taxpayer's pro rata share of liabilities of such related person:

(A) The portion of the value of intangible assets of the taxpayer and related persons that is apportioned to such related person under 1.861–9T(h)(2);

(B) The taxpayer's pro rata share of tangible assets held by the related person (as determined under § 1.861–9T(h)(1)(ii));

(C) The taxpayer's pro rata share of debt obligations of any related person held by the related person (as valued under paragraph (h)(4)(i) of this section); and

(D) The total value of stock in all related persons held by the related person as determined under this paragraph (h)(4).

(iii) Example. (A) Facts. USP, a domestic corporation, wholly owns CFC1 and owns 80% of CFC2, both foreign corporations. The aggregate trading value of USP's stock traded on established securities markets at the end of Year 1 is \$700 and the amount of USP's liabilities to unrelated persons at the end of Year 1 is \$400. Neither CFC1 nor CFC2 has liabilities to unrelated persons at the end of Year 1. USP owns plant and equipment valued at \$500, CFC1 owns plant and equipment valued at \$400, and CFC2 owns plant and equipment valued at \$250. The value of these assets has been determined using generally accepted valuation techniques, as required by § 1.861–9(h)(1)(ii). There is an outstanding loan from CFC2 to CFC1 in an amount of \$100. There is also an outstanding loan from USP to CFC1 in an amount of \$200.

(B) Valuation of group assets. Pursuant to § 1.861–9T(h)(1)(i), the aggregate value of USP's assets is \$1100 (the \$700 trading value of USP's stock increased by \$400 of USP's liabilities to unrelated persons).

(C) Valuation of tangible assets. Pursuant to § 1.861–9T(h)(1)(ii), the value of USP's tangible assets and pro rata share of assets held by CFC1 and CFC2 is \$1100 (the plant and equipment held directly by USP, valued at \$500, plus USP's 100% pro rata share of the plant and equipment held by CFC1 valued at \$400 and USP's 80% pro rata share of the plant and equipment held by CFC 2 valued at \$200 (80% of \$250)).

(D) Computation of intangible asset value. Pursuant to § 1.861–9T(h)(1)(iii), the value of the intangible assets of USP, CFC1, and CFC2 is \$0 (total aggregate group asset value (\$1100) determined in paragraph (B) less total tangible asset value (\$1100) determined in paragraph (C)). Because the intangible asset value is zero, the provisions of § 1.861– 9T(h)(2) and (3) relating to the apportionment and characterization of intangible assets do not apply.

(E) Valuing related party debt obligations. Pursuant to § 1.861–9(h)(4)(i), the value of the debt obligation of CFC1 held by CFC2 is equal to the amount of the liability, \$100. The value of the debt obligation of CFC1 held by USP is equal to the amount of the liability, \$200.

(F) Valuing the stock of CFC1 and CFC2. Pursuant to § 1.861–9(h)(4)(ii), the value of the stock of CFC2 held by USP is \$280 (USP's 80% pro rata share of tangible assets of CFC2 included in paragraph (C) (\$200) plus USP's 80% pro rata share of the debt obligation of CFC1 held by CFC2 valued in paragraph (E) (\$80). The value of the stock of CFC1 held by USP is \$100 (USP's 100% pro rata share of tangible assets of CFC1 included in paragraph (C) (\$400) less USP's 100% pro rata share of the liabilities of CFC1 to USP and CFC2 (\$300)).

(k) * * * Paragraphs (e)(2), (e)(3) and (h)(4) apply to taxable years beginning on or after July 15, 2014. See 26 CFR 1.861-9T(e)(2) and (3) (revised as of April 1, 2014) for rules applicable to taxable years beginning after January 17, 2012, and before July 15, 2014. See 26 CFR 1.861-9T(e)(2) and (3) (revised as of April 1, 2011) for rules applicable to taxable years beginning on or before January 17, 2012. See 26 CFR 1.861-9T(h)(4) (revised as of April 1, 2014) for rules applicable to taxable years ending on or after January 17, 2012, and beginning before July 15, 2014. See 26 CFR 1.861–9T(h)(4) (revised as of April 1, 2011) for rules applicable to taxable years ending before January 17, 2012.

(d)(3) through (6)(i) [Reserved]. For further guidance see § 1.861-11T(d)(3) through (6)(i).

This paragraph (d)(6)(ii) applies to taxable years beginning on or after July 15, 2014. See 26 CFR 1.861-11T(d)(6)(ii) (revised as of April 1, 2014) for rules applicable to taxable years beginning after August 10, 2010, and before July 15, 2014. DEPARTMENT OF THE TREASURY Internal Revenue Service 26 CFR Part 1

Mixed Straddles; Straddleby-Straddle Identification Under Section 1092

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Final regulations and removal of temporary regulations.

SUMMARY: This document contains final regulations relating to section 1092 identified mixed straddles established after August 18, 2014. The final regulations explain how to account for unrealized gain or loss on a position held by a taxpayer prior to the time the taxpayer establishes a mixed straddle using straddle-bystraddle identification. DATES: *Effective Date*: These regulations are effective on July 18, 2014.

Applicability Date: For the date of applicability, see 1.1092(b)-6(e).

SUPPLEMENTARY INFORMATION:

Background

The Deficit Reduction Act of 1984, Public Law 98–369, amended section 1092 of the Internal Revenue Code (Code) relating to straddles. As amended, section 1092(b) instructed the Treasury Department and the IRS to write regulations governing mixed straddles. Regulations governing mixed straddles. Regulations governing mixed straddles were issued in 1985, including § 1.1092(b)–2T (relating to holding periods and losses with respect to straddle positions) and § 1.1092(b)–3T (relating to mixed straddles) (collectively, the 1985 temporary regulations).

This document contains amendments to the Income Tax Regulations (26 CFR part 1) relating to mixed straddles subject to straddle-by-straddle identification under section 1092(b)(2)(A)(i)(I) (identified mixed straddles). On August 2, 2013, the Treasury Department and the IRS published in the Federal Register temporary regulations relating to identified mixed straddles (TD 9627 at 78 FR 46807) and a notice of proposed rulemaking crossreferencing the temporary regulations (REG-112815-12 at 78 FR 46854). The temporary regulations added § 1.1092(b)-6T, which provides that unrealized gain or loss on a position held prior to the establishment of an identified mixed straddle is taken into account at the time and has the character provided by provisions of the Code that would apply if the identified mixed straddle had not been established. The temporary regulations changed the timing of the recognition of the unrealized gain or loss as compared to § 1.1092(b)-3T(b)(6) of the 1985 temporary regulations, which provides that unrealized gain or loss on a position that becomes a position in an identified mixed straddle is recognized on the day prior to establishing the identified mixed straddle.

Section 1.1092(b)–6T applied to identified mixed straddles established after August 1, 2013, the date of filing of TD 9627 in the **Federal Register**. However, in response to comments raising concerns about the immediate applicability date of the temporary regulations, the regulations were corrected on October 29, 2013, to revise the applicability date (TD 9627 at 78 FR 64396 and REG–112815–12 at 78 FR 64430). As corrected, § 1.1092(b)–6T would apply to identified mixed straddles established after the date of publication of the final regulations in the **Federal Register**.

Written comments were received on the notice of proposed rulemaking and a public hearing was held on December 4, 2013. All comments were considered and the written comments are available for public inspection at *http://www.regulations. gov* or upon request.

After consideration of all comments, these final regulations adopt the provisions of the proposed regulations with certain clarifications, and the corresponding temporary regulations are removed. The comments and clarifications are discussed in this preamble.

Summary of Comments and Explanation of Revisions

In response to the request for comments in the notice of proposed rulemaking, several comments were received. The comments address three general categories of issues: (1) the immediate applicability date of § 1.1092(b)–6T; (2) the character mismatch and timing of gain or loss recognition for assets held by insurance companies; and (3) certain technical rules in the 1985 temporary regulations and the temporary regulations relating to identified mixed straddles.

1. Applicability date

As previously noted, in response to comments raising concerns about the immediate applicability date of the temporary regulations, the regulations were corrected on October 29, 2013, to revise the applicability date. As corrected, § 1.1092(b)–6T would apply to identified mixed straddles established after the date of publication of final regulations in the **Federal Register**. The correction notices informed taxpayers that the Treasury Department and the IRS anticipated finalizing the regulations no later than June 30, 2014. One commenter asked that the applicability date be delayed for at least six months after the publication date of the final regulations in the **Federal Register**.

Because the Treasury Department and the IRS believe that the additional time provided by the correction notices has provided taxpayers with ample notice, these final regulations apply to identified mixed straddles established after August 18, 2014.

2. Character mismatch and timing of gain or loss recognition for assets held by insurance companies

Commenters noted that insurance companies generally are buy-and-hold investors that hold portfolio bonds to maturity absent other events compelling disposition. Bonds held by an insurance company are capital assets and the interest income generated by those assets is ordinary in nature. Consequently, when an insurance company sells a bond (sometimes pursuant to instructions from a regulator in the case of a bond that has deteriorated in credit quality), the sale may result in a capital loss that does not offset for tax purposes the ordinary income generated by the bond and other portfolio assets. The capital loss may expire unused unless the insurance company recognizes an offsetting capital gain. According to the commenters, the use of the existing regulations to generate capital gains allows an insurance company to avoid the transaction costs, risks of being unable to acquire suitable replacement property, and unfavorable accounting treatment associated with a sale and repurchase of appreciated bonds. The commenters requested that no new regulations on identified mixed straddles be issued because insurance companies rely on the existing regulations to control the timing of capital gain recognition on bonds in their portfolio.

The fact that bonds generate ordinary income on periodic payments but capital gain or loss on disposition (when held as a capital asset) is not unique to insurance companies, and is a fundamental aspect of debt (as well as stock) investments. Section 1092 was not intended to alleviate character mismatches on debt portfolios. The Treasury Department and the IRS believe that using the section 1092(b)(2) identified mixed straddle rules as an alternative to selling or otherwise disposing of a position undermines the realization requirements that generally govern gain and loss recognition. These regulations are therefore being adopted to prevent selective recognition of gains and losses through the mechanism of an identified mixed straddle even though no disposition has occurred.

3. Technical rules relating to identified mixed straddles

One commenter stated that the 1985 temporary regulations do not define what it means for gain or loss to be "attributable to" a section 1092(b)(2) identified mixed straddle period and asked the Treasury Department and the IRS to modify § 1.1092(b)–3T to address this issue. The commenter also requested an amendment to the 1985 temporary regulations to clarify the treatment of a net loss on the disposition of a section 1256 contract when there is an unrecognized gain in the retained non-section 1256 position.

Because these comments pertain to the operation of the 1985 temporary regulations, they are outside the scope of the proposed regulations, and the Treasury Department and the IRS do not believe that it is appropriate to address these comments in these final regulations. These final regulations are intended to address only the time for recognizing gain or loss that has accrued up to the date a taxpayer enters into an identified mixed straddle. All other rules that apply to an identified mixed straddle under the 1985 temporary regulations continue to apply.

The commenter also requested an amendment to the 1985 temporary regulations to clarify whether the rule in 1.1092(b) - 2T(c)(2) that resets the holding period on positions in an identified mixed straddle (holding period reset rule) continues to apply under these regulations, even to a position that had been held for the long-term holding period prior to the time the identified mixed straddle was established. Under the holding period reset rule, when an identified mixed straddle is established, the holding periods of all positions in that identified mixed straddle are reset to zero, and a position does not begin to accrue holding period until it is no longer part of a straddle.

This comment, requesting guidance on the holding period reset rule, is directly relevant to the computations required with respect to accrued gain or loss on a position when a taxpayer enters into an identified mixed straddle. Both the time period before a position becomes part of an identified mixed straddle and the time period after the identified mixed straddle is created are implicated by this comment. To address gain or loss that has accrued up to the day before a taxpayer enters into an identified mixed straddle, the text of § 1.1092(b)-6(a) has been revised and a new Example 3 in § 1.1092(b)-6(d) has been added to clarify that any gain or loss that would have been a long-term gain or loss under the 1985 temporary regulations will, when recognized, be a long-term gain or loss under these final regulations. To address gain or loss that accrues on or after the day a taxpayer enters into an identified mixed straddle, § 1.1092(b)-6(b) expressly provides that § 1.1092(b)-2T(a)(1) applies to positions in an identified mixed straddle. Consequently, the holding period reset rule in § 1.1092(b)-2T(a)(1) remains applicable to gain and loss that accrues on or after a position becomes part of an identified mixed straddle. As previously noted, the holding period reset rule resets the holding period on positions in an identified mixed straddle to zero and provides that a position does not begin to accrue holding period until it is no longer part of a straddle.

Finally, one commenter requested clarification as to whether unrecognized gain that accrued prior to a position becoming part of an identified mixed straddle is taken into account in determining whether a realized loss is deferred under section 1092(a). Section 1092(a) provides that any loss with respect to one or more positions shall be taken into account for any taxable year only to the extent that the amount of such loss exceeds the unrecognized gain (if any) with respect to one or more offsetting positions. In response to this comment, § 1.1092(b)-6(c) and a new *Example 4* in § 1.1092(b)-6(d) have been added to clarify that the rules of section 1092(a)(3)(A), which include realized gain in unrecognized gain, apply to an identified mixed straddle. Section 1092(a)(3)(B), which applies to identified straddles that are subject to section 1092(a)(2) and includes only gain accrued after the establishment of the identified straddle, does not apply to the section 1092(b)(2) identified mixed straddles that are the subject of these final regulations.

Applicability Date

The final regulations apply to an identified mixed straddle established after August 18, 2014.

Special Analyses

It has been determined that this Treasury decision is not a significant regulatory action as defined in Executive Order 12866, as supplemented by Executive Order 13563. Therefore, a regulatory assessment is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because the regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f) of the Code, the proposed regulations preceding these final regulations were submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small businesses. No comments were received.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR part 1 is amended as follows:

PART 1—INCOME TAXES

Paragraph 1. The authority citation for part 1 is amended by removing the entries for § 1.1092(b)–6T and by adding entries in numerical order to read as follows:

Authority: 26 U.S.C. 7805 * * *

Section 1.1092(b)–6 also issued under 26 U.S.C. 1092(b)(1).

Section 1.1092(b)-6 also issued under 26 U.S.C. 1092(b)(2). * * *

Par. 2. Section 1.1092(b)–3T is amended by revising the paragraph heading and the first sentence of paragraph (b)(6) to read as follows:

§ 1.1092(b)–3T Mixed straddles; straddle-by-straddle identification under section 1092(b)(2)(A)(i)(I) (Temporary).

- * * * * *
- (b) * * *

(6) Accrued gain and loss with respect to positions of a section 1092(b)(2) identified mixed straddle established on or before August 18, 2014. The rules of this paragraph (b)(6) apply to all section 1092(b)(2) identified mixed straddles established on or before August 18, 2014; see § 1.1092(b)-6 for section 1092(b)(2)identified mixed straddles established after August 18, 2014. * * *

* * * * *

Par. 3. Section 1.1092(b)–6 is added to read as follows:

§ 1.1092(b)–6 Mixed straddles; accrued gain and loss associated with a position that becomes part of a section 1092(b)(2) identified mixed straddle that is established after August 18, 2014.

(a) Treatment of unrealized gain or loss that arose before a position becomes part of an identified mixed straddle. Except as otherwise provided, if one or more positions of a straddle that is an identified mixed straddle described in section 1092(b)(2)(A)(i)(I) (identified mixed straddle) were held by the taxpayer on the day prior to the day the identified mixed straddle is established, any unrealized gain or loss on the day prior to the day the identified mixed straddle is established with respect to such position or positions is taken into account at the time, and has the character, provided by the provisions of the Internal Revenue Code that would apply to the gain or loss if the identified mixed straddle were not established. Thus, if a non-section 1256 capital asset was held for the long-term capital gain holding period before the identified mixed straddle was established, any unrealized gain or loss on that asset on the day prior to the day the identified mixed straddle was established will be long-term capital gain or loss when that asset is sold or otherwise disposed of in a taxable transaction. Unrealized gain or loss on a section 1256 contract that accrued prior to the day the contract became part of an identified mixed straddle will be recognized no later than the last business day of the taxpayer's taxable year. For each position, unrealized gain or loss is the difference between the fair market value of the position at the close of the day before the day the identified mixed straddle is established and the taxpayer's basis in that position. See § 1.1092(b)–2T and paragraph (b) of this section for the treatment of holding periods with respect to such positions. Changes in value of the position or positions that occur on or after the identified mixed straddle is established are accounted for under the provisions of § 1.1092(b)-3T (other than § 1.1092(b)-3T(b)(6)). The definitions in § 1.1092(b)-5T apply for purposes of this section.

(b) Holding period after a position becomes part of an identified mixed straddle. Section 1.1092(b)–2T(a)(1) applies to any position that becomes part of an identified mixed straddle, and the long-term or short-term character of any gain or loss on that position that arises on or after the day the position has become a position in an identified mixed straddle will be determined by beginning the taxpayer's holding period on the day after the identified mixed straddle ceases to exist.

(c) Application of the loss deferral rules of section 1092(a). When applying section 1092(a) and § 1.1092(b)–3T(b) (other than § 1.1092(b)–3T(b)(6)) to any loss that arises while a position is part of an identified mixed straddle, the amount of unrecognized gain includes both unrecognized gains described in paragraph (a) of this section that accrued prior to the day the identified mixed straddle is established and unrecognized gains that arise on or after the day the identified mixed straddle identification was made for the position.

(d) *Examples*. The rules of this section may be illustrated by the following examples. It is assumed in each example that the positions described are the only positions held directly or indirectly (through a related person or flowthrough entity) by an individual calendar year taxpayer during the taxable year, and no successor positions are acquired or entered into. It is also assumed that gain or loss recognized on any position in the straddle would be capital gain or loss. The following examples assume that the identified mixed straddle is established after the applicability date of this section.

Example 1. (i) *Facts.* On January 13, Year 1, A enters into a section 1256 contract. As of the close of the day on January 15, Year 1, there is \$500 of unrealized loss on the section 1256 contract. On January 16, Year 1, A enters into an offsetting non-section 1256 position and makes a valid election to treat the straddle as an identified mixed straddle. A continues to hold both positions of the identified mixed straddle on January 1, Year 2, and there are no further changes to the value of either position in Year 1.

(ii) *Analysis*. On the last business day of Year 1, A recognizes the \$500 loss on the section 1256 contract that accrued prior to establishing the identified mixed straddle because the section 1256 contract is treated as sold on December 31, Year 1 (the last business day of the taxable year) under section 1256(a). The loss recognized in Year 1 will be treated as 60% long-term capital loss and 40% short-term capital loss. All gains and losses that arise on or after the identified mixed straddle is established are accounted for under the rules of §§ 1.1092(b)–2T (and paragraph (b) of this section), 1.1092(b)–3T(b) (other than § 1.1092(b)–3T(b)(6)), and paragraph (c) of this section.

Example 2. (i) *Facts.* On December 3, Year 1, A purchases a non-section 1256 position for \$100. As of the close of the day on January 22, Year 2, the non-section 1256 position has a fair market value of \$500. On January 23, Year 2, A enters into an offsetting section 1256 contract and makes a valid election to treat the straddle as an identified mixed straddle. On February 10, Year 2, A closes out the section 1256 contract at a \$500 loss and disposes of the non-section 1256 position for \$975.

(ii) Analysis of pre-straddle gain. A has \$400 of unrealized short-term capital gain attributable to the non-section 1256 position prior to the day the identified mixed straddle was established. This \$400 gain is recognized on February 10, Year 2, when the non-section 1256 position is disposed of. Under paragraph (a) of this section, the gain is short-term capital gain because that would have been the character of the gain if the non-section 1256 position had been disposed of on the day prior to establishing the identified mixed straddle.

(iii) Analysis of straddle gain and loss. On February 10, Year 2, the gain of \$475 (\$975 proceeds minus \$500 fair market value on the day prior to entering into the identified mixed straddle) on the non-section 1256 position attributable to the identified mixed straddle period is offset by the \$500 loss on the section 1256 contract. The net loss of \$25 from the identified mixed straddle is recognized and treated as 60% long-term capital loss and 40% shortterm capital loss because it is attributable to the section 1256 contract. See § 1.1092(b)–3T(b)(4).

Example 3. (i) *Facts.* On January 3, Year 1, A purchases 100 shares of Index Fund for \$1,000 (\$10 per share). The Index Fund shares are actively traded personal property and are not section 1256 contracts. As of the close of the day on June 24, Year 2, the fair market value of 100 shares of Index Fund is \$1,200. On June 25, Year 2, A enters into a short regulated futures contract (Futures Contract) referenced to the same index referenced by Index Fund. Futures Contract is a section 1256 contract and A makes a valid election to

treat the shares of Index Fund and Futures Contract as an identified mixed straddle. On December 31, Year 2, the fair market value of A's shares of Index Fund is \$1,520 and Futures Contract has lost \$300. On January 10, Year 3, A closes out Futures Contract at a loss of \$400 when the fair market value of 100 shares of Index Fund is \$1,590. On November 20, Year 3, A disposes of all 100 shares of Index Fund for \$1,600.

(ii) Year 2 analysis. On June 24, Year 2, A has held the Index Fund shares for longer than the longterm holding period, and the \$200 of unrecognized gain on the Index Fund shares as of June 24, Year 2, will be characterized as long-term gain under paragraph (a) of this section when the gain is recognized. On December 31, Year 2, Futures Contract is marked to market under section 1256(a)(1). Under paragraph (a) of this section and § 1.1092(b)-3T(b)(4), the loss on Futures Contract of \$300 is netted with the \$320 unrecognized gain on the Index Fund shares that arose while the identified mixed straddle was in place. Because this unrecognized gain is greater than the deemed realized section 1256 loss, the loss on Futures Contract is treated as a short-term capital loss. The loss, however, will be disallowed in Year 2 under paragraph (c) of this section and the loss deferral rules of section 1092(a) because the unrecognized gain in the Index Fund shares that arose while the identified mixed straddle was in place exceeds the deemed realized loss. Even if this gain were only \$250 on December 31, Year 2, the deemed realized loss on Futures Contract would be disallowed because there is \$200 of unrecognized gain in the Index Fund shares from the time A held the shares prior to establishing the identified mixed straddle.

(iii) Year 3 analysis. When A closes out the Futures Contract on January 10, Year 3, the entire amount of the section 1256 \$300 loss that was disallowed on December 31, Year 2, continues to be deferred under paragraph (c) of this section. On November 20, Year 3, A recognizes \$200 long-term capital gain from the pre-identified mixed straddle period, and \$400 short-term capital gain, \$390 of which arose during the identified mixed straddle period and \$10 of which arose after the identified mixed straddle was closed. See § 1.1092(b)-2T(a)(1) and paragraph (b) of this section. In Year 3, A recognizes the \$300 short-term capital loss from Futures Contract disallowed in Year 2 and the \$100 loss accrued on Futures Contract in Year 3 because A no longer holds any positions that were part of an identified mixed straddle.

Example 4. (i) *Facts.* On March 1, Year 1, A purchases a 10-year U.S. Treasury Note (Note) at original issue for \$100, which is the stated redemption price at maturity of Note. As of the close of the day on March 1, Year 3, Note has a fair market value of \$105. On March 2, Year 3, A enters into a regulated futures contract (Futures Contract) that provides A with a short position in U.S. Treasury Notes and A makes a valid election to treat Note and Futures Contract as an identified mixed straddle. A closes her position in Futures Contract on April 15, Year 3, at a \$2 loss. On April 15, Year 3, Note has a fair market value of \$108. On December 31, Year 3, Note has a fair market value of \$106. A holds Note until it matures on February 28, Year 10.

(ii) *Year 3 analysis.* A has \$5 of unrealized gain attributable to Note prior to the day the identified mixed

straddle was established. Because A acquired a longterm holding period in Note by March 1, Year 3, the \$5 of gain will be characterized as long-term capital gain under paragraph (a) of this section when it is recognized. Under § 1.1092(b)-3T(b)(4), when A closes out Futures Contract on April 15, Year 3, the loss of \$2 on Futures Contract is netted with the gain of \$3 on Note that arose while the identified mixed straddle was in place. Because this gain on Note exceeds the realized loss on Futures Contract, the loss on Futures Contract is disallowed in Year 3 under paragraph (c) of this section. Further, under paragraph (c) of this section and section 1092(a)(1), on December 31, Year 3, the disallowed loss of \$2 on Futures Contract cannot be recognized because it is less than the total unrecognized gain of \$6 on Note on December 31, Year 3.

(iii) Year 10 analysis. When Note matures in Year 10, the \$5 of unrecognized long-term capital gain that arose prior to the identified mixed straddle is recognized. Because A receives \$100 upon the maturity of Note, A also recognizes a \$5 long-term capital loss on Note, for a net gain of \$0 (zero). In addition, the termination of all positions in the identified mixed straddle releases the \$2 loss disallowed in Year 3 on Futures Contract. The loss on Futures Contract is treated as short-term capital loss in Year 10 under \$ 1.1092(b)–3T(b)(4).

(e) *Effective/applicability date*. The rules of this section apply to all section 1092(b)(2) identified mixed straddles established after August 18, 2014.

ACTION: Final regulations.

SUMMARY: This document contains final regulations that provide information reporting rules for certain passport applicants. These final regulations apply to certain individuals applying for passports (including renewals) and provide guidance to such individuals about the information that must be included with their passport applications.

DATES: *Effective Date*: These regulations are effective on July 18, 2014.

Applicability Date: For dates of applicability, see § 301.6039E–1(d).

SUPPLEMENTARY INFORMATION:

Background

On January 26, 2012, the Internal Revenue Service (IRS) and the Department of Treasury (Treasury Department) published in the **Federal Register** (77 FR 3964) a notice of proposed rulemaking (REG-208274-86) (the proposed regulations) that proposed amendments to 26 CFR part 301 under section 6039E of the Internal Revenue Code (Code). Section 6039E provides rules concerning information reporting by U.S. passport and permanent resident applicants, and requires specified federal agencies to provide certain information to the IRS.

The proposed regulations set forth the information a U.S. citizen applying for a U.S. passport (passport applicant), other than a citizen who applies for an official passport, diplomatic passport, or passport for use on other official U.S. government business, must provide pursuant to section 6039E. They do not address information reporting by permanent resident applicants. The proposed regulations also withdrew a prior notice of proposed rulemaking (REG-208274-86, 1993-1 CB 822) published in the Federal Register (57 FR 61373) on December 24, 1992. The proposed regulations are proposed to be effective for applications submitted after the date final regulations are published in the Federal Register.

Comments were received on the proposed regulations. No public hearing was requested or held. After consideration of the comments, this Treasury decision adopts the proposed regulations with minor revisions as described in this preamble.

Explanation and Summary of Comments

Scope of information reporting by passport applicants

The proposed regulations require a passport applicant, other than an individual who applies for an official passport, diplomatic passport, or passport for use on other official U.S. government business, to provide certain information with his or her passport application pursuant to section 6039E. Specifically, the applicant must provide his or her full name and, if applicable, previous name; permanent address and, if different, the applicant's mailing address; taxpayer identifying number (TIN); and date of birth. A commentator requested that the scope of information be limited to the passport applicant's name, TIN, if any, and foreign country of residence, if any. The final regulations do not adopt this comment.

Section 6039E(b)(4) grants the Secretary the authority to require any additional information as he may prescribe. The Department of State (State Department) requires the items of information required by these final regulations as part of its application process. Accordingly, the IRS and the Treasury Department believe that requiring this information is not unduly burdensome to the applicant.

Penalty for failure to provide information

The proposed regulations provide guidance on the circumstances under which the IRS may impose a \$500 penalty on a passport applicant who fails to provide the required information. Under the proposed regulations, before assessing the penalty, the IRS will provide to the passport applicant written notice of the potential assessment of the penalty, and the applicant has 60 days (90 days if the notice is addressed to an applicant outside of the United States) to respond to the notice. If the passport applicant demonstrates to the satisfaction of the Commissioner or the Commissioner's delegate that the failure to provide the required information is due to reasonable cause and not due to willful neglect, after considering all the surrounding circumstances, then the IRS will not assess the penalty.

A commentator requested clarification with respect to when the period for responding begins to run. In response to the comment, the final regulations provide that a passport applicant has 60 days from the date of the notice of potential assessment of the penalty, or 90 days from such date if the notice is addressed to an applicant outside the United States, to respond to the notice.

A commentator requested that additional guidance be provided with respect to the factors that will be considered in determining whether a passport applicant has established reasonable cause for the failure to provide the required information. The comment was not adopted because this factual determination by the IRS is made on a case-by-case basis and involves consideration of all the surrounding circumstances.

Other Comments Received

Commentators requested that the proposed regulations be withdrawn because they may unduly affect the right of U.S. citizens to travel and apply for a U.S. passport. The IRS and the Treasury Department coordinated with the State Department in promulgating the proposed and final regulations. These regulations do not affect the manner in which the State Department processes passport applications, and Code section 6039E requires information reporting by passport applicants for tax administration purposes. Accordingly, the comments were not adopted.

The proposed regulations provide that the rules would apply to passport applications submitted after the date of publication of the Treasury decision adopting these rules as final regulations. A commentator requested that the regulations be effective for applications submitted after January 1st of the year following the date the regulations are published, rather than for applications submitted after the date the final regulations are published, on grounds that section 7805(b) of the Code requires such a delay of the effective date. This comment was not adopted. Section 7805(b), as amended in 1996 by the Taxpayer Bill of Rights 2, only applies with respect to regulations which relate to statutory provisions enacted on or after July 30, 1996. Because section 6039E was enacted in 1986, section 7805(b) does not apply to these final regulations. Furthermore, even if the version of section 7805(b) cited by the commentator were to apply, section 7805(b) does not require the requested delay of the effective date. This is so because the final regulations apply to passport applications submitted after July 18, 2014, which is not before January 26, 2012, the date of the proposed regulations. See section 7805(b)(1)(B). Accordingly, these final regulations adopt the effective/applicability date included in the proposed regulations.

Special Analyses

It has been determined that this Treasury decision is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because the regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f), this regulation has been submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Adoption of Amendments to the Regulations

Accordingly, 26 CFR part 301 is amended as follows:

PART 301– PROCEDURE AND ADMINISTRATION

Paragraph 1. The authority citation for part 301 is amended by adding an entry in numerical order to read in part as follows: Authority: 26 U.S.C. 7805 * * *

Section 301.6039E–1 also issued under 26 U.S.C. 6039E.

Par. 2. Section 301.6039E–1 is added to read as follows:

§ 301.6039E–1 Information reporting by passport applicants.

(a) *In general*. Every individual who applies for a U.S. passport or the renewal of a passport (passport applicant), other than a passport for use in diplomatic, military, or other official U.S. government business, shall include with his or her passport application the information described in paragraph (b)(1) of this section

in the time and manner described in paragraph (b)(2) of this section.

(b) *Required information*—(1) *In general*. The information required under paragraph (a) of this section shall include the following information:

(i) The passport applicant's full name and, if applicable, previous name;

(ii) The passport applicant's permanent address and, if different, mailing address;

(iii) The passport applicant's taxpayer identifying number (TIN), if such a number has been issued to the passport applicant. A TIN means the individual's social security number (SSN) issued by the Social Security Administration. A passport applicant who does not have an SSN must enter zeros in the appropriate space on the passport application; and

(iv) The passport applicant's date of birth.

(2) *Time and manner for furnishing information*. A passport applicant must provide the information required by this section with his or her passport application, whether by personal appearance or mail, to the Department of State (including United States Embassies and Consular posts abroad).

(c) Penalties—(1) In general. If the information required by paragraph (b)(1) of this section is incomplete or incorrect, or the information is not filed in the time and manner described in paragraph (b)(2)of this section, then the passport applicant may be subject to a penalty equal to \$500 per application. Before assessing a penalty under this section, the IRS will provide to the passport applicant written notice of the potential assessment of the \$500 penalty, requesting the information being sought, and offering the applicant an opportunity to explain why the information was not provided with the passport application. A passport applicant has 60 days from the date of the notice of the potential assessment of the penalty (90 days from such date if the notice is addressed to an applicant outside the United States) to respond to the notice. If the passport applicant demonstrates to the satisfaction of the

Commissioner (or the Commissioner's delegate) that the failure is due to reasonable cause and not due to willful neglect, after considering all the surrounding circumstances, then the IRS will not assess the penalty.

(2) *Example*. The following example illustrates the provisions of paragraph (c) of this section.

Example. C, a citizen of the United States, makes an error in supplying information on his passport application. Based on the nature of the error and C's timely response to correct the error after being contacted by the IRS, the Commissioner concludes that the mistake is due to reasonable cause and not due to willful neglect. Accordingly, no penalty is assessed.

(d) *Effective/applicability date*. This section applies to passport applications submitted after July 18, 2014.

John Dalrymple Deputy Commissioner for Services and Enforcement.

Approved June 26, 2014.

Mark J. Mazur Assistant Secretary of the Treasury (Tax Policy).

Part III. Administrative, Procedural, and Miscellaneous

Notice 2014-44

Foreign tax credit guidance under section 901(m)

SECTION 1. OVERVIEW

This notice announces that the Internal Revenue Service (IRS) and the Department of the Treasury (Treasury Department) will issue regulations addressing the application of section 901(m) of the Internal Revenue Code (Code) to dispositions of assets following covered asset acquisitions (CAAs) and to CAAs described in section 901(m)(2)(C) (regarding section 754 elections).

SECTION 2. BACKGROUND

Section 901(m)(1) provides that, in the case of a CAA, the disqualified portion of any foreign income tax determined with respect to the income or gain attributable to relevant foreign assets (RFAs) will not be taken into account in determining the foreign tax credit allowed under section 901(a), and in the case of foreign income tax paid by a section 902 corporation (as defined in section 909(d)(5)) will not be taken into account for purposes of section 902 or 960. Instead, the disqualified portion of any foreign income tax is allowed as a deduction.

Section 901(m)(2) provides that a CAA is: (1) a qualified stock purchase (as defined in section 338(d)(3)) to which section 338(a) applies (Section 338 CAA); (2) any transaction that is treated as an acquisition of assets for U.S. income tax purposes and as the acquisition of stock of a corporation (or is disregarded) for purposes of a foreign income tax; (3) any acquisition of an interest in a partnership that has an election in effect under section 754 (Section 743(b) CAA); and (4) to the extent provided by the Secretary, any other similar transaction.

Section 901(m)(4) provides that the term RFA means, with respect to a CAA, any asset (including goodwill, going concern value, or other intangible) with respect to such acquisition if income, deduction, gain, or loss attributable to such asset is taken into account in determining the

foreign income tax referenced in section 901(m)(1).

Section 901(m)(3)(A) provides that the term "disqualified portion" means, with respect to any CAA, for any taxable year, the ratio (expressed as a percentage) of: (1) the aggregate basis differences (but not below zero) allocable to such taxable year with respect to all RFAs; divided by (2) the income on which the foreign income tax referenced in section 901(m)(1)is determined. If the taxpayer fails to substantiate the income on which the foreign income tax is determined to the satisfaction of the Secretary, such income will be determined by dividing the amount of such foreign income tax by the highest marginal tax rate applicable to the taxpayer's income in the relevant jurisdiction.

Section 901(m)(3)(C)(i) provides that basis difference means, with respect to any RFA, the excess of (1) the adjusted basis of such asset immediately after the CAA, over (2) the adjusted basis of such asset immediately before the CAA. The basis difference can be either a positive or a negative number.

Section 901(m)(3)(B)(i) provides the general rule that the basis difference with respect to any RFA will be allocated to taxable years using the applicable cost recovery method for U.S. income tax purposes.

Section 901(m)(3)(B)(ii) provides that, except as otherwise provided by the Secretary, if there is a disposition of any RFA, the basis difference allocated to the taxable year of the disposition will be the excess of the basis difference of such asset over the aggregate basis difference of such asset that has been allocated to all prior taxable years (Unallocated Basis Difference). No basis difference with respect to such asset will be allocated to any taxable year thereafter.

Regarding the treatment of dispositions of RFAs, the Staff of the Joint Committee on Taxation's technical explanation of section 901(m) provides:

If there is a disposition of any relevant foreign asset before its cost has been entirely recovered or of any relevant foreign asset that is not eligible for cost recovery (e.g., land), the basis difference allocated to the

taxable year of the disposition is the excess of the basis difference with respect to such asset over the aggregate basis difference with respect to such asset that has been allocated under this provision to all prior taxable years. Thus, any remaining basis difference is captured in the year of the sale, and there is no remaining basis difference to be allocated to any subsequent tax years. However, it is intended that this provision generally apply in circumstances in which there is a disposition of a relevant foreign asset and the associated income or gain is taken into account for purposes of determining foreign income tax in the relevant jurisdiction.

Staff of the Joint Committee on Taxation, Technical Explanation of the Revenue Provisions of the Senate Amendment to the House Amendment to the Senate Amendment to H.R. 1586, Scheduled for Consideration by the House of Representatives on August 10, 2010, at 15 (August 10, 2010) (emphasis added).

Section 901(m)(7) provides that the Secretary may issue regulations or other guidance as is necessary or appropriate to carry out the purposes of section 901(m), including to exempt from its application certain CAAs and RFAs with respect to which the basis difference is de minimis.

SECTION 3. CONCERNS WITH STATUTORY DISPOSITION RULE

Applying the statutory disposition rule under section 901(m)(3)(B)(ii) to the disposition of an RFA is appropriate in fact patterns in which the gain or loss from the disposition is fully recognized for purposes of both U.S. income tax and a foreign income tax. However, in certain cases, including cases in which the gain or loss from the disposition is recognized for purposes of U.S. income tax but not for purposes of a foreign income tax, or, as described in the next paragraph, cases in which no gain or loss is recognized for purposes of U.S. income tax or the foreign income tax, it may not be the appropriate time for all, or any, of the Unallocated Basis Difference to be taken into account. Furthermore, section 901(m) should continue to apply to the remaining Unallocated Basis Difference.

In this regard, the IRS and the Treasury Department are aware that certain taxpayers are engaging in transactions shortly after a CAA occurs that are intended to invoke application of the statutory disposition rule under section 901(m)(3)(B)(ii) to avoid the purpose of section 901(m). For example, assume USP, a domestic corporation, wholly owns FSub, a foreign corporation, and FSub acquires 100 percent of the stock of FT, a foreign corporation, in a qualified stock purchase (as defined in section 338(d)(3)) for which an election under section 338(g) is made. The acquisition of the stock of FT is a Section 338 CAA, and the assets of FT are RFAs with respect to that Section 338 CAA. Shortly after the acquisition of FT in the Section 338 CAA, FT becomes disregarded as an entity separate from its owner pursuant to an entity classification election under § 301.7701-3. As a result of the entity classification election. FT is deemed, solely for U.S. tax purposes, to distribute all of its assets and liabilities to FSub in liquidation (deemed liquidation) immediately before the closing of the day before the election is effective. See 1.338-3(c)(1) and § 301.7701-§ 3(g)(1)(iii) and (g)(3)(ii). On these facts, no gain or loss is recognized on the deemed liquidation by either FT or FSub pursuant to sections 332 and 337.

The taxpayers take the position that the deemed liquidation constitutes a disposition of the RFAs for purposes of section 901(m)(3)(B)(ii). As a result, taxpayers claim that all of the basis difference with respect to the RFAs is allocated to the final taxable year of FT that occurs by reason of the deemed liquidation, and that no basis difference with respect to the RFAs is allocated to any later taxable year. This claim is made notwithstanding that (i) the disparity in the basis in the assets of FT for purposes of U.S. income tax and the foreign income tax that arose as a result of the Section 338 CAA continues to exist after the deemed liquidation, and (ii) because no gain is recognized for foreign income tax purposes as a result of the deemed liquidation, there is also no foreign income tax that is subject to disqualification under section 901(m) as a result of the liquidation. Although the deemed liquidation of FT is also a CAA, the basis difference that arises with respect to this subsequent CAA generally would be minimal. Taxpayers have engaged in other variations of this transaction, each of which raises significant policy concerns.

Accordingly, under the specific authority granted to the Secretary under sections 901(m)(3)(B)(ii) and 901(m)(7), the IRS and the Treasury Department will issue the regulations described in section 4 of this notice.

SECTION 4. REGULATIONS TO BE ISSUED

.01 Application of Section 901(m) to a Disposition of an RFA

For purposes of section 901(m), a disposition means an event (for example, a sale, abandonment, or mark-to-market event) that results in gain or loss being recognized with respect to an RFA for purposes of U.S. income tax or a foreign income tax, or both. For example, in transactions such as those described in section 3 of this notice, the tax-free deemed liquidation arising upon FT's entity classification election does not result in a disposition of an asset for purposes of section 901(m). See section 4.04, Example 1.

The portion of a basis difference with respect to an RFA that is taken into account for a taxable year as a result of a disposition (Disposition Amount) will be determined pursuant to either of two rules. First, if a disposition is fully taxable (that is, results in all gain or loss, if any, being recognized with respect to the RFA) for purposes of both U.S. income tax and a foreign income tax, the Disposition Amount is equal to the Unallocated Basis Difference. This is because there generally will no longer be a disparity in the basis of the RFA for purposes of U.S. income tax and the foreign income tax (U.S. Basis and Foreign Basis, respectively).

Second, if a disposition is not fully taxable for purposes of both U.S. income tax and a foreign income tax, generally there will continue to be a disparity in the U.S. Basis and the Foreign Basis following the disposition, and it is appropriate for the RFA to continue to be subject to section 901(m). To the extent that the disparity in the U.S. Basis and the Foreign Basis is reduced as a result of the disposition, however, a portion of the Unallocated Basis Difference (or in certain cases, all of the Unallocated Basis Difference) should be taken into account. Whether the disposition reduces the basis disparity will depend on whether the basis difference is positive or negative and the jurisdiction in which gain or loss is recognized.

In the case of a positive basis difference, a reduction in basis disparity generally will occur upon a disposition of an RFA if (i) gain is recognized for purposes of a foreign income tax (Foreign Disposition Gain), which generally results in an increase in the Foreign Basis of the RFA, or (ii) loss is recognized for U.S. income tax purposes (U.S. Disposition Loss), which generally results in a decrease in the U.S. Basis of the RFA. Accordingly, if the RFA has a positive basis difference, the Disposition Amount equals the lesser of:

(i) any Foreign Disposition Gain plus any U.S. Disposition Loss (solely for this purpose, expressed as a positive amount), or

(ii) the Unallocated Basis Difference.

In the case of a negative basis difference, a reduction in basis disparity generally will occur upon a disposition of an RFA if (i) loss is recognized for purposes of a foreign income tax (Foreign Disposition Loss), which generally results in a decrease in the Foreign Basis of the RFA, or (ii) gain is recognized for U.S. income tax purposes (U.S. Disposition Gain), which generally results in an increase in the U.S. Basis of the RFA. Accordingly, if the RFA has a negative basis difference, the Disposition Amount equals the greater of the following amounts:

(i) any Foreign Disposition Loss plus any U.S. Disposition Gain (solely for this purpose, expressed as a negative amount), or

(ii) the Unallocated Basis Difference.

To the extent the entire Unallocated Basis Difference is not taken into account as a Disposition Amount, section 901(m) continues to apply to the remaining Unallocated Basis Difference. See section 4.03 of this notice.

.02 Special Rules for a Section 743(b) CAA

If an RFA is subject to a Section 743(b) CAA, the basis difference generally is the resulting basis adjustment under section 743(b) that is allocated to the RFA under the rules of section 755.

If an RFA was subject to a Section 743(b) CAA and subsequently there is a disposition of the RFA, consistent with the computation of basis difference in a Section 743(b) CAA, the computation of the Disposition Amount only takes into account the amount of gains and losses that are attributable to the partnership interest that was transferred in the Section 743(b) CAA. Accordingly, for purposes of determining the Disposition Amount, Foreign Disposition Gain or Foreign Disposition Loss means the amount of gain or loss recognized for purposes of a foreign income tax on the disposition of the RFA that is allocable to the partnership interest that was transferred in the Section 743(b) CAA. In addition, U.S. Disposition Gain or U.S. Disposition Loss means the amount of gain or loss recognized for U.S. income tax purposes on the disposition of the RFA that is allocable to the partnership interest that was transferred in the Section 743(b) CAA, taking into account the basis adjustment under section 743(b) that was allocated to the RFA under section 755.

.03 Continuing Application of Section 901(m) to Remaining Basis Difference

Section 901(m) continues to apply to an RFA until the entire basis difference in the RFA has been taken into account under section 901(m)(3)(B)(i) using the applicable cost recovery method for U.S. income tax purposes or as a Disposition Amount (or both). Thus, even if there is a change in the ownership of an RFA, for example, by reason of a transaction that is a disposition only for U.S. income tax purposes, section 901(m) continues to apply to the RFA until any remaining Unallocated Basis Difference in the RFA has been taken into account. The IRS and the Treasury Department are continuing to consider whether and to what extent section 901(m) should apply to an asset received in exchange for an RFA in a transaction in which the basis of the asset is

determined by reference to the basis of the RFA transferred.

If an RFA is subject to multiple Section 743(b) CAAs (Prior Section 743(b) CAA and Subsequent Section 743(b) CAA) and the same partnership interest is acquired in both the Prior Section 743(b) CAA and the Subsequent Section 743(b) CAA, the RFA will be treated as having no Unallocated Basis Difference with respect to the Prior Section 743(b) CAA for purposes of applying section 901(m) to the Subsequent Section 743(b) CAA if the basis difference for the Subsequent Section 743(b) CAA is determined independently from the Prior Section 743(b) CAA. In this regard, see generally § 1.743–1(f) and proposed § 1.743– 1(f)(2). If the Subsequent Section 743(b) CAA results from the acquisition of only a portion of the partnership interest acquired in the Prior Section 743(b) CAA, then the transferor will be required to equitably apportion the Unallocated Basis Difference attributable to the Prior Section 743(b) CAA with respect to the RFA between the portion retained by the transferor and the portion transferred. With respect to the portion transferred, the RFA will be treated as having no Unallocated Basis Difference with respect to the Prior Section 743(b) CAA for purposes of applying section 901(m) to the Subsequent Section 743(b) CAA if the basis difference for the Subsequent Section 743(b) CAA is determined independently from the Prior Section 743(b) CAA.

.04 Examples

Example 1. (i) Facts. USP, a domestic corporation, wholly owns CFC, a foreign corporation organized under the laws of Country A. FT is an unrelated foreign corporation organized under the laws of Country A and subject to Country A income tax. FT owns one asset (Asset), a parcel of land. On January 1, Year 1, CFC acquires all the stock of FT in exchange for 300u (Acquisition) in a qualified stock purchase for which an election under section 338(g) is made. The Acquisition is treated as an asset acquisition for U.S. income tax purposes and as a stock acquisition for Country A income tax purposes. Immediately before the Acquisition, Asset had a U.S. Basis and Foreign Basis of 100u. Effective on February 1, Year 1, FT elects to be disregarded as an entity separate from its owner pursuant to § 301.7701-3. As a result of the election, FT is deemed, solely for U.S. tax purposes, to distribute Asset to CFC in liquidation (Deemed Liquidation) immediately before the closing of the day before the election is effective pursuant to § 301.7701-3(g)(1)(iii) and -3(g)(3)(ii). No gain or loss is recognized on the Deemed Liquidation for purposes of either U.S. income tax or Country A income tax.

(ii) Analysis. The Acquisition is a Section 338 CAA because section 338(a) applies to the qualified stock purchase of FT stock with respect to which the section 338(g) election is made. Immediately after the Acquisition, Asset is an RFA owned by CFC with a basis difference of 200u (300u - 100u). Because the Deemed Liquidation does not result in gain or loss being recognized with respect to Asset for purposes of U.S. income tax or Country A income tax, there is no disposition of Asset for purposes of section 901(m). Accordingly no basis difference with respect to Asset is taken into account by FT as a result of the Deemed Liquidation. Furthermore, section 901(m) will continue to apply to the basis difference with respect to Asset, as held by CFC for U.S. income tax purposes, until the entire 200u basis difference has been taken into account under section 901(m)(3)(B).

Example 2. (i) *Facts.* The facts are the same as *Example 1*, except that FT does not elect to be disregarded as an entity separate from its owner. Instead, on March 1, Year 1, FT transfers Asset (worth 300u and U.S. Basis of 300u) to FC (Transfer), an unrelated controlled foreign corporation organized under the laws of Country A, in exchange for stock of FC worth 250u and 50u of cash. The Transfer results in gain of 50u recognized for Country A income tax purposes. Although the Transfer is a taxable transaction for U.S. income tax purposes, no gain or loss is recognized for U.S. income tax purposes because the amount realized and the U.S. Basis are the same amount.

(ii) Analysis. Because the Transfer results in gain being recognized by FT with respect to Asset for Country A income tax purposes, there is a disposition of Asset for purposes of section 901(m). Accordingly, FT takes into account the portion of the basis difference with respect to Asset equal to the Disposition Amount of 50u (the lesser of the Foreign Disposition Gain of 50u or the Unallocated Basis Difference of 200u). Section 901(m) will continue to apply to Asset, as held by FC, until the remaining 150u basis difference (200u – 50u) has been taken into account under section 901(m)(3)(B).

SECTION 5. EFFECTIVE DATE

Except as provided in this section 5, the regulations described in this notice will apply to dispositions occurring on or after July 21, 2014. The regulations described in the first paragraph of section 4.02 and second paragraph of section 4.03 of this notice will apply to Section 743(b) CAAs occurring on or after July 21, 2014, but taxpayers may consistently apply the guidance in those paragraphs to all Section 743(b) CAAs occurring on or after January 1, 2011. The regulations described in the first two sentences of the first paragraph of section 4.03 of this notice will apply to any Unallocated Basis Difference with respect to an RFA as of July 21, 2014 and any basis difference with respect to an RFA that arises in a CAA occurring on or after July 21, 2014. No inference is intended as to the treatment of transactions such as those described in section 3 of this notice under current law, and the IRS may challenge such transactions under applicable Code provisions or judicial doctrines.

26 CFR 31.3406(d)–5: Backup withholding when the Service or a broker notifies the payor to withhold because the payee's taxpayer identification number is incorrect.

Rev. Proc. 2014-43

SECTION 1. PURPOSE

This revenue procedure provides revised procedures for individual payees who are required under Treas. Reg. § 31.3406(d)-5(g)(5) to obtain validation of social security numbers (SSNs) from the Social Security Administration (SSA) to prevent or stop backup withholding under section 3406 of the Internal Revenue Code following receipt of a second backup withholding notice from a payor within a three-year period.

SECTION 2. BACKGROUND

Section 3406(a) of the Internal Revenue Code prescribes circumstances in which a payor must backup withhold on reportable payments it makes to a payee, including when the IRS notifies a payor that the taxpayer identification number (TIN) furnished by the payee to the payor is incorrect. In the case of an individual, a TIN is generally an SSN. *See* section 6109(d). Pursuant to section 3406(a)(1)(B) and (h)(8) and section 31.3406(d)–5, a payor (such as a bank) must send a notice to a payee after being notified by the IRS or a broker that the payee provided an incorrect name and TIN combination with respect to an account (the B notice). The B notice informs the payee that the name/ TIN combination furnished to the payor does not match IRS or SSA records and describes the steps the payee must take to stop or prevent backup withholding from payments made after receipt of the B notice.

Pursuant to section 31.3406(d)-5(d) and (f), a payor that receives a notification from the IRS or a broker of a name/TIN mismatch for an account must send the payee a B notice. If this is the only notification of a name/TIN mismatch received by the payor with respect to the account during the past three years, the B notice, referred to as a "first B notice," must instruct the payee to provide a signed Form W-9, "Request for Taxpayer Identification Number and Certification," to the payor to stop or prevent backup withholding. If the payor receives a second notification from the IRS or a broker of a name/ TIN mismatch with respect to an account, and this notification is received within three years from the date of a previous notification of a name/TIN mismatch with respect to that account, section 31.3406(d)-5(g) requires the payor to send the payee another B notice, referred to as a "second B notice." Under section 31.3406(d)-5(g)(1)(i), a TIN certified on a Form W-9 is not sufficient to stop or prevent backup withholding after a second B notice is sent. Instead, after a second B notice, the payor must receive validation of the payee's name and TIN combination from the SSA or the IRS to stop or prevent backup withholding.

Section 31.3406(d)–5(d)(2)(i) and (g)(2) provides that the procedural requirements for B notices, such as the form of the notice and the manner of delivery, will be set forth in the Internal Revenue Bulletin. These rules are described in Rev. Proc. 93–37, 1993–2 C.B. 477, and Publication 1281, "Backup Withholding for Missing and Incorrect Name/TIN(s)." That revenue procedure and publication provide specific instructions regarding TIN validation, which must be included in the second B notice sent to payees.

Under section 6 of Rev. Proc. 93–37, in the case of a second B notice, an individual payee obtains validation of the payee's

name and SSN by requesting and authorizing SSA to send Form SSA-7028, "Notice to Third Party of Social Security Number Assignment," to the payor. Effective January 1, 2010, SSA discontinued Form SSA-7028 for verifying SSNs to prevent or stop backup withholding. Because payees could no longer comply with section 6 of Rev. Proc. 93-37 after SSA discontinued the Form SSA-7028, the IRS issued Announcement 2010-41, 2010-25 I.R.B. 767, to provide interim procedures for name and SSN validation by SSA. Under these interim procedures, an individual payee obtains validation of the payee's name and SSN from the SSA by contacting the local SSA office and requesting a social security number printout (SSN printout). Once the payor receives a copy of the SSN printout from the payee, backup withholding is prevented or terminated. Effective August 1, 2014, SSA will discontinue providing SSN printouts.

SECTION 3. CHANGES

This revenue procedure sets forth revised procedures for an individual payee to obtain validation of the payee's name and SSN from SSA on or after August 1, 2014. Under these revised procedures, following receipt of a second B notice, a copy of a social security card, as described in section 4, is validation from the SSA of a name and SSN combination. This revenue procedure instructs payors and individual payees regarding these revised procedures.

SECTION 4. REVISED PROCEDURES

In response to a second B notice, the requirements of section 31.3406(d)–5(g) will be satisfied if an individual payee provides the payor with a copy of a social security card with his or her correct name and SSN. Payors may rely upon a social security card as being correct only if the name and SSN combination appearing on the card differ from the name and SSN combination appearing on the second B notice, or if there is a date appearing on the social security card that is no earlier than six months prior to the date of the second B notice. If a payee does not have

a social security card, the payee must obtain a new or replacement social security card from the SSA. If the payee's name and SSN combination listed on the second B notice is not current or correct, the payee should update his or her records with the SSA and provide a copy of the updated social security card to the payor. A payee may obtain a social security card for free by filing Form SS-5, "Application for a Social Security Card," with the SSA. The application form and information regarding required supporting documentation are available at www.socialsecurity-.gov. Under section 31.3406(d)-5(g)(3), a payor who receives a copy of a payee's social security card meeting the requirements specified in this revenue procedure will not be required to commence backup withholding and may stop backup withholding on reportable payments made to that payee. Pursuant to section 3406(h)(9) and section 31.3406(d)-5(h), the payor must use the name and SSN combination provided pursuant to this revenue procedure on future information returns and statements if the payor is subject to future information reporting with respect to the account.

Publication 1281 will be revised consistent with this revenue procedure and is available on irs.gov. Payors should use the language provided in Publication 1281 to instruct payees regarding the revised procedures described in this revenue procedure for validating a payee's name and SSN after a second B notice.

SECTION 5. EFFECT ON OTHER DOCUMENTS

Announcement 2010-41 is obsoleted. Sections 5.02(1), (2), (3)(c)(i), and (3)(e)(i)–(iii) of Rev. Proc. 93–37 are modified and superseded with respect to the form and content of the second B notice. Section 6.02(1) of Rev. Proc. 93–37 is modified and superseded with respect to the form and content of the validation in the case of a second B notice for a name/TIN mismatch.

SECTION 6. EFFECTIVE DATE

This revenue procedure is effective for name and SSN validation under section 31.3406(d)-5(g) provided to payors on or after August 1, 2014. Before that date, payors may accept copies of social security cards that provide name and SSN validation under the revised procedures described in this revenue procedure, or an SSN printout.

1.1.3 Scope

For purposes of this revenue procedure, a substitute form or statement is one that is not published by the IRS. For a substitute form or statement to be acceptable to the IRS, it must conform to the official form or the specifications outlined in this revenue procedure. Do not submit any substitute forms or statements listed above to the IRS for approval. Privately published forms may not state, "This is an IRS approved form."

Filers making payments to certain recipients during a calendar year are required by the Internal Revenue Code (the Code) to file information returns with the IRS for these payments. These filers must also provide this information to their recipients. In some cases, this also applies to payments received. See *Part 4* for specifications that apply to recipient statements (generally Copy B).

In general, section 6011 of the Code contains requirements for filers of information returns. A filer must file information returns electronically or on paper. A filer who is required to file 250 or more information returns of any one type during a calendar year must file those returns electronically.

Note. If you file electronically, do not file the same returns on paper.

Although not required, small volume filers (fewer than 250 returns during a calendar year) may file the forms electronically. See the requirements for filing information returns (and providing a copy to a payee) in the 2014. General Instructions for Certain Information Returns and the 2014 Instructions for Form 1042–S. In addition, see the current revision of Publication 1220, Specifications for Electronic Filing of Forms 1097, 1098, 1099, 3921, 3922, 5498, and W–2G, for electronic filing through the IRS FIRE system.

1.1.4The IRS prints and provides the forms on which various payments must be reported. See sectionFor More Information5.3.1., later, for ordering forms and instructions. Alternatively, filers may prepare substitute
copies of these IRS forms and use such forms to report payments to the IRS.

Chemical Transfer

All print on Copy A of Forms 1097–BTC, 1098, 1099, 3921, 3922, 5498, and the print on Form 1096 above the statements, "Return this entire page to the Internal Revenue Service. Photocopies are not acceptable." must be in Flint J–6983 red OCR dropout ink or an exact match. However, the four-digit form identifying number must be in nonreflective carbon-based black ink in OCR A font.

The shaded areas of any substitute form should generally correspond to the format of the official form.

The printing for the Form 1096 statement and the following text may be in any shade or tone of black ink. Black ink should only appear on the lower part of the reverse side of Form 1096, where it will not bleed through and interfere with scanning.

Other printing requirements are discussed below.

2.1.5 OCR Specifications

You must initiate or have a quality control program to assure OCR ink density. Readings will be made when printed on approved 20 lb. white OCR bond with a reflectance of not less than 80%. Black ink must not have a reflectance greater than 15%. These readings are based on requirements of the "Scan-Optics Series 9000" Optical Scanner using Flint J–6983 red OCR dropout ink or an exact match.

The following testers and ranges are acceptable:

Important information: The forms produced under these specifications must be guaranteed to function properly when processed through High Speed Scan-Optics 9000 mm scanners. Forms require precision spacing, printing, and trimming.

Density readings on the solid J-6983 (red) must be between the ranges of 0.95 to 0.90. The optimal scanning range is 0.93. Density readings on the solid black must be between the ranges of 112 to 108. The optimal scanning range is 110.

Note. The readings are taken using an Ex-Rite 500 series densitometer, in Status T with Obsolute or – paper setting under an Illuminate 5000 Kelvin Watt Light. You must maintain print contrast specification of ink and densitometer reflectivity reading throughout entire production run.

- *MacBeth PCM-II*. The tested Print Contrast Signal (PCS) values when using the MacBeth PCM-II tester on the "C" scale must range from .01 minimum to .06 maximum.
- *Kidder 082A*. The tested PCS values when using the Kidder 082A tester on the Infra Red (IR) scale must range from .12 minimum to .21 maximum. White calibration disc must be 100%. Sensitivity must be set at one (1).
- Alternative testers must be approved by the IRS to establish tested PCS values. You may obtain approval by writing to the following address:

2.1.6 Typography	Type must be substantially identical in size and shape to the official form. All rules are either ¹ / ₂ -point or ³ / ₄ -point. Rules must be identical to those on the official IRS form.
	Note. The form identifying number must be nonreflective carbon-based black ink in OCR A font.
2.1.7 Dimensions	Generally, three copies A of Forms 1098, 1099, 3921, and 3922 are contained on a single page, 8 inches wide (without any snap-stubs and/or pinfeed holes) by 11 inches deep.
	Exceptions. Forms 1097–BTC, 1099–B, 1099–DIV, 1099–INT, 1099–K, 1099–MISC, 1099–OID, 1099–R, 5498, and 1042–S contain two documents per page. Form 1098–C is a single page document.
	There is a .33 inch top margin from the top of the corrected box, and a .2 to .25 inch right margin, with a $+/-1/20$ (0.05) inch tolerance for the right margin. If the right and top margins are properly aligned, the left margin for all forms will be correct. All margins must be free of print.

See Exhibits A through FF in this revenue procedure for correct form measurements.

These measurements are constant for certain Forms 1098, 1099, and 5498. These measurements are shown only once in this publication, on Form 1098 (*Exhibit C*). Exceptions to these measurements and form-specific measurements are shown on the rest of the exhibits.

The depth of the individual trim size of each form on a page must be $3^{2/3}$ inches, the same depth as the official form, or otherwise indicated.

Exceptions. The depth of Forms 1097–BTC, 1099–B, 1099–DIV, 1099–INT, 1099–K, 1099–MISC, 1099–OID, 1099–R, 5498, and 1042–S is 5-½ inches.

2.1.8 Co Perforation be

Copy A (three per page and two per page) of privately printed continuous substitute forms must be perforated at each 11" page depth. No perforations are allowed between forms on the Copy A page.

Exception: Copy A of Form W–2G may be perforated.

The words "Do Not Cut or Separate Forms on This Page" must be printed in red dropout ink (as required by form specifications) between the three or two forms per page. This statement should not be included after the last form on the page.

Perforations or other means of separation are required between all the other individual copies (Copies B and C, and Copies 1 and 2 of Forms 1099–B, 1099–DIV, 1099–G, 1099–INT, 1099–K, 1099–MISC, 1099–OID, 1099–R, and copy D for Forms 1099–LTC, 1099–R, and 1042–S) in the set. Any recipient copies printed on a single sheet of paper must be easily separated. Each copy should be easily distinguished whatever method of separation is used.

Note. Perforation does not apply to printouts of copies that are furnished electronically to recipients (as described in Regulations section 31.6051-1(k)). However, these recipients should be cautioned to carefully separate any copies. See *Section 4.6.1*, later, for information on electronically furnishing statements to recipients.

You must include the OMB Number on Copies A and Form 1096 in the same location as on the official form.

The following Privacy Act and Paperwork Reduction Act Notice phrases must be printed on Copy A of the forms as follows. It also must be printed on the copy of the form (C, D, or E) retained by the filer.

- "For Privacy Act and Paperwork Reduction Act Notice, see the current version of the General Instructions for Certain Information Returns" on Forms 3921 and 3922;"
- "For more information and the Privacy Act and Paperwork Reduction Act Notice, see the 2014 General Instructions for Certain Information Returns" on Form 1096;
- "For Privacy Act and Paperwork Reduction Act Notice, see instructions" on Form 1042-S; and
- "For Privacy Act and Paperwork Reduction Act Notice, see the 2014 General Instructions for Certain Information Returns" must be printed on all other forms listed in *Section 1.1.2*.

A postal indicia may be used if it meets the following criteria:

- It is printed in the OCR ink color prescribed for the form, and
- No part of the indicia is within one print position of the scannable area.

The printer's symbol (GPO) must not be printed on substitute Copy A. Instead, the employer identification number (EIN) of the form's printer must be entered in the bottom margin on the face of each individual form of Copy A, or on the bottom margin on the back of each Form 1096.

2.1.9

Required

Inclusions / Exclusions

The Catalog Number (Cat. No.) shown on the forms is used for IRS distribution purposes and should not be printed on any substitute forms.

The form must not contain the statement "IRS approved" or any similar statement.

Section 2.2 – Instructions for Preparing Paper Forms That Will Be Filed With the IRS

2.2.1 Recipient Information	The form recipient's name, street address, city, state, ZIP code, and telephone number (if required) should be typed or machine printed in black ink in the same format as shown on the official IRS form. The city, state, and ZIP code must be on the same line.
	The following rules apply to the form recipient's name(s):
	• The name of the appropriate form recipient must be shown on the first or second name line in the area provided for the form recipient's name.
	 No descriptive information or other name may precede the form recipient's name. Only one form recipient's name may appear on the first name line of the form. If multiple recipients' names are required on the form, enter on the first name line the recipient name that corresponds to the recipient taxpayer identification number (TIN) shown on the form. Place the other form recipients' names on the second name line (only 2 name lines are allowable).
	Because certain states require that trust accounts be provided in a different format, filers generally should provide information returns reflecting payments to trust accounts with the:
	 Trust's employer identification number (EIN) in the recipient's TIN area, Trust's name on the recipient's first name line, and Name of the trustee on the recipient's second name line.
	Although handwritten forms will be accepted, the IRS prefers that filers type or machine print data entries. Also, filers should insert data as directed by shading, or in the middle of blocks, well separated from other printing and guidelines, and take measures to guarantee clear, dark black, sharp images. Photocopies are not acceptable.
	NOTE: Recipient TINs must not be truncated on Copy A filed with the IRS.
2.2.2 Account Number Box	Use the account number box on all Forms 1098, 1099, 3921, 3922, 5498, and W–2G for an account number designation when required by the official IRS form. The account number is required if you have multiple accounts for a recipient for whom you are filing more than one information return of the same type. Additionally, the IRS encourages you to include the recipients' account numbers on paper forms if your system of records uses the account number rather than the name or TIN for identification purposes. Also, the IRS will include the account number in future notices to you about backup withholding. If you are using window envelopes to mail statements to recipients and using reduced rate mail, be sure the account number does not appear in the window. The Postal Service may not accept these for reduced rate mail.
	Exception. Form 1098-T can have third-party provider information.
2.2.3 Specifications and Restrictions	Machine-printed forms should be printed using a 6 lines/inch option, and should be printed in 10 pitch pica (10 print positions per inch) or 12 pitch elite (12 print positions per inch). Proportional spaced fonts are unacceptable.
	Substitute forms prepared in continuous or strip form must be burst and stripped to conform to the size specified for a single sheet before they are filed with the IRS. The size specified does not include pin feed holes. Pin feed holes must not be present on forms filed with the IRS.

Paper Color and Quality	Paper for Copy A must be white chemical wood bond, or equivalent, 20 pound (basis 17 x 22–500), plus or minus 5 percent. The paper must consist substantially of bleached chemical wood pulp. It must be free from unbleached or ground wood pulp or post-consumer recycled paper. It also must be suitably sized to accept ink without feathering.

All rules on the document are either $\frac{1}{2}$ point (.007 inch), 1 point (0.015 inch), or 3 point (0.045). Vertical rules must be parallel to the left edge of the docu- ment, horizontal rules to the top edge.
Dimensions	The official form is 8 inches wide x 5 ¹ / ₂ inches deep, exclusive of a snap stub. Any substitute Copy A can be between 8 inches and 8 ¹ / ₂ inches wide by 5 ¹ / ₂ inches deep. The snap feature is not required on substitutes. All margins must be free of print. There is a .33 inch top margin from the top of the corrected box, and a ¹ / ₂ inch left margin. If the top and left margins are properly aligned, the right margin for all forms will be correct. If the substitute forms are in continuous or strip form, they must be burst and stripped to conform to the size specified for a single form.
Hot Wax and Cold Carbon Spots	Hot wax and cold carbon spots are not permitted on any of the internal form plies. These spots are permitted on the back of a mailer top envelope ply.
Printer's Symbol	The Government Printing Office (GPO) symbol must not be printed on substitute Forms W–2G. Instead, the em- ployer identification number (EIN) of the forms printer must be printed in the bottom margin on the face of each individual Copy A on a sheet. The form must not contain the statement "IRS approved" or any similar statement.
Catalog Number	The Catalog Number (Cat. No.) shown on Form W–2G is used for IRS distribution purposes and should not be printed on any substitute forms.

Part 4 Substitute Statements to Form Recipients and Form Recipient Copies

If you do not use the official IRS form to furnish statements to recipients, you must furnish an acceptable substitute statement. Information presented in substitute statements should be in a point size large enough to be easily read by recipients. To be acceptable, your substitute statement must comply with the rules in this Part. If you are furnishing a substitute form, see Regulations sections 1.6042–4, 1.6044–5, 1.6049–6, and 1.6050N–1 to determine how the following statements must be provided to recipients for most Forms 1099–DIV and 1099–INT, all Forms 1099–OID and 1099–PATR, and Form 1099–MISC or 1099–S for royalties. Generally, information returns may be furnished electronically with the consent of the recipient. See *Section 4.6.1*.

Note. A trustee of a grantor-type trust may choose to file Forms 1099 and furnish a statement to the grantor under Regulations sections 1.671-4(b)(2)(iii) and (b)(3)(ii). The statement required by those regulations is not subject to the requirements outlined in this section.

The rules in this section apply to Form 1099–B, 1099–DIV (except for section 404(k) dividends), 1099–INT (except for interest reportable under section 6041), 1099–OID, and 1099–PATR only. You may furnish form recipients with Copy B of the official Form 1099 or a substitute Form 1099 (form recipient statement) if it contains the same information as the official IRS form (such as aggregate amounts paid to the form recipient, any backup withholding, the name, address, and TIN of the person making the return, and any other information required by the official form). Information not required by the official form should not be included on the substitute form except for state income tax withholding information.

Section 4.1 – Specifications

4.1.1 Introduction

4.1.2

Substitute Statements to Recipients for Certain Forms 1099–B, 1099–DIV, 1099–INT, 1099–OID and 1099–PATR **Note.** Many of the information returns now include boxes for providing state withholding information as part of the official form, with additional copies for convenience. Payers may, however, provide the state withholding information separately (such as on a separate page or section) in order to assist the payee with completing a state income tax return that requires the attachment of any information return that includes state withholding amounts and payer numbers.

Exception for supplementary information. The substitute form may include supplementary information that will assist the payee with completing his or her tax return. Such information could include expense and cost basis factors related to the reporting for widely held fixed investment trusts (WHFITs), as required under Regulation section 1.671–5. The substitute statement should disclose to the payee that such supplementary information is not furnished to the IRS. See *Section 4.3* for additional requirements when providing supplemental information with the Form 1099–B that is not furnished to the IRS.

Form 1099–B. Brokers that use substitute statements should segregate dispositions of noncovered securities from covered securities, and further segregate long-term and short-term dispositions of covered securities. They may also segregate long-term from short-term dispositions of noncovered securities, to the extent that date acquired is known. For 2014 dispositions, the substitute Forms 1099–B may have up to five separate sections, each with a heading identifying which securities are included in the list, and each separately totaled. Each section, after totaling or within the heading for the section, should indicate how to report the transactions on Form 8949, as indicated.

- 1. Short-term transactions for which basis is reported to the IRS–Report on Form 8949, Part I, with Box A checked.
- 2. Short-term transactions for which basis **is not** reported to the IRS–Report on Form 8949, **Part I**, with **Box B** checked.
- 3. Long-term transactions for which basis is reported to the IRS–Report on Form 8949, **Part II**, with **Box D** checked.
- 4. Long-term transactions for which basis **is not** reported to the IRS–Report on Form 8949, **Part II**, with **Box E** checked.
- 5. Transactions for which basis is not reported to the IRS and for which short-term or long-term determination is unknown (to Broker) You must determine short-term or long-term based on your records and report on Form 8949, Part I, with Box B checked, or on Form 8949, Part II, with Box E checked, as appropriate.

For each section, each transaction may include information not reported to the IRS, such as basis, date acquired, and gain or loss. Therefore, for short-term dispositions where basis was not reported to the IRS, basis and date acquired may be shown just as it would be shown for short-term dispositions where basis was reported to the IRS.

For 2014 dispositions, each of the applicable sections must have Sales Price and Cost or Other Basis (if known) separately totaled. Net gain or loss, if included for any of the sections, may also be totaled.

The substitute form requirements in the following paragraphs also apply to Form 1099-B.

Form 1099–INT, DIV, OID, and PATR. A substitute form recipient statement for Forms 1099–INT, 1099–DIV, 1099–OID, or 1099–PATR must comply with the following requirements:

- 1. Box captions and numbers that are applicable must be clearly identified, using the same wording and numbering as on the official form.
- 2. The form recipient statement (Copy B) must contain all applicable form recipient instructions provided on the front and back of the official IRS form. You may provide those instructions on a separate sheet of paper.
- 3. The form recipient statement must contain the following in bold and conspicuous type: This is important tax information and is being furnished to the Internal Revenue Service (except as indicated). If you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported.
- 4. The box caption **"Federal income tax withheld"** must be in boldface type or otherwise highlighted on the form recipient statement.

- 5. The form recipient statement must contain the Office of Management and Budget (OMB) number as shown on the official IRS form. See *Part 5*.
- 6. The form recipient statement must contain the tax year (for example, 2014), form number (for example, Form 1099–INT), and form name (for example, Interest Income) of the official IRS Form 1099. This information must be displayed prominently together in one area of the statement. For example, the tax year, form number, and form name could be shown in the upper right part of the statement. Each copy must be appropriately labeled (such as Copy B, For Recipient). See *Section* 4.5 for applicable labels and arrangement of assembly of forms. **Note.** Do not include the words "Substitute for" or "In lieu of" on the form recipient statement.
- 7. Layout and format of the form is at the discretion of the filer. However, the IRS encourages the use of boxes so that the statement has the appearance of a form and can be easily distinguished from other non-tax statements.
- 8. Each recipient statement of Forms 1099–B, 1099–DIV, 1099–INT, 1099–OID, and 1099–PATR must include the direct access telephone number of an individual who can answer questions about the statement. Include that telephone number conspicuously anywhere on the recipient statement.
- 9. A mutual fund family may state separately on one document (for example, one piece of paper) the dividend income earned by a recipient from each fund within the family of funds as required by Form 1099–DIV. However, each fund and its earnings must be stated separately. The form must contain an instruction to the recipient that each fund's dividends and name, not the name of the mutual fund family, must be reported on the recipients tax return. The form cannot contain an aggregate total of all funds. In addition, a mutual fund family may furnish a single statement (as a single filer) for Forms 1099–INT, 1099–DIV, and 1099–OID information. Each fund and its earnings must be stated separately. The form must contain an instruction to the recipient that each fund's earnings and name, not the name of the mutual fund family, must be reported on the recipient and its earnings and name, not the name of the mutual fund family. The form must contain an instruction to the recipient that each fund's earnings and name, not the name of the mutual fund family, must be reported on the recipients tax return. The form cannot contain an aggregate total of all funds.

You may enter a total of the individual accounts listed on the form only if they have been paid by the same payer. For example, if you are listing interest paid on several accounts by one financial institution on Form 1099–INT, you may also enter the total interest amount. You may also enter a date next to the corrected box if that box is checked.

Statements to form recipients for Forms 1097–BTC, 1098, 1098–C, 1098–E, 1098–MA, 1098–T, 1099–A, 1099–C, 1099–CAP, 1099–G, 1099–K, 1099–LTC, 1099–MISC, 1099–Q, 1099–R, 1099–S, 1099–SA, 3921, 3922, 5498, 5498–ESA, 5498–SA, W–2G, 1099–DIV (only for section 404(k) dividends reportable under section 6047), and 1099–INT (only for interest of \$600 or more made in the course of a trade or business reportable under section 6041) can be copies of the official forms or an acceptable substitute.

Caution. The IRS does not require a donee to use Form 1098–C as the written acknowledgment for contributions of motor vehicles, boats, and airplanes. However, if you choose to use copies of Form 1098–C or an acceptable substitute as the written acknowledgment, then you must follow the requirements of this *Section 4.1.3*.

To be acceptable, a substitute form recipient statement must meet the following requirements.

- 1. The tax year, form number, and form name must be the same as the official form and must be displayed prominently together in one area on the statement. For example, they may be shown in the upper right part of the statement.
- 2. The statement must contain the same information as the official IRS form, such as aggregate amounts paid to the form recipient, any backup withholding, the name, address, and TIN of the filer and of the recipient, and any other information required by the official form.
- Each substitute recipient statement for Forms W–2G, 1097–BTC, 1098, 1098–C, 1098–E, 1098–T, 1099–A, 1099–C, 1099–CAP, 1099–DIV, 1099–G (excluding state and local income tax refunds), 1099–K, 1099–INT, 1099–LTC, 1099–MISC (excluding fishing boat proceeds), 1099–Q, 1099–S, 1099–SA, and 5498–SA must include the direct access tele-

4.1.3 Substitute Statements to Recipients for Certain Forms 1098, 1099, 5498, and W–2G phone number of an individual who can answer questions about the statement. Include the telephone number conspicuously anywhere on the recipient statement. Although not required, payers reporting on Forms 1099–R, 3921, 3922, 5498, and 5498–ESA are encouraged to furnish telephone numbers at which recipients of the forms(s) can reach a person familiar with information reported.

4. All applicable money amounts and information, including box numbers, required to be reported to the form recipient must be titled on the form recipient statement in substantially the same manner as those on the official IRS form. The box caption **"Federal income tax withheld"** must be in boldface type on the form recipient statement.

Exception. If you are reporting a payment as "Other income" in box 3 of Form 1099–MISC, you may substitute appropriate language for the box title. For example, for payments of accrued wages and leave to a beneficiary of a deceased employee, you might change the title of box 3 to "Beneficiary payments" or something similar. **Note.** You cannot make this change on Copy A.

Note. If federal income tax is withheld and shown on Form 1099–R or W–2G, Copy B and Copy C must be furnished to the recipient. If federal income tax is not withheld, only Copy C of Form 1099–R and W–2G must be furnished. However, for Form 1099–R, instructions similar to those on the back of the official Copy B and Copy C of Form 1099–R must be furnished to the recipient. For convenience, you may choose to provide both Copies B and C of Form 1099–R to the recipient.

- 5. You must provide appropriate instructions to the form recipient similar to those on the official IRS form, to aid in the proper reporting on the form recipients income tax return. For payments reported on Forms 1099–B, and 1099–CAP, the requirement to include instructions substantially similar to those on the official IRS form may be satisfied by providing form recipients with a single set of instructions for all Forms 1099–B and 1099–CAP statements required to be furnished in a calendar year.
- 6. If you use carbonless sets to produce recipient statements, the quality of each copy in the set must meet the following standards:
 - All copies must be clearly legible,
 - All copies must be able to be photocopied, and
 - Fading must not diminish legibility and the ability to photocopy.

In general, black chemical transfer inks are preferred, but other colors are permitted if the above standards are met. Hot wax and cold carbon spots are not permitted on any of the internal form plies. The back of a mailer top envelope ply may contain these spots.

- 7. You may use a Settlement Statement (under the Real Estate Settlement Procedures Act of 1974 (RESPA)) for Form 1099–S. The Settlement Statement is acceptable as the written statement to the transferor if you include the legend for Form 1099–S found in *Section 4.4.2* and indicate which information on the Settlement Statement is being reported to the IRS on Form 1099–S.
- 8. For reporting state income tax withholding and state payments, you may add an additional box(es) to recipient copies as appropriate. In addition, the state withholding information may be provided separate and apart from the other information in the event the recipient must attach a copy to the recipient's tax return. **Note.** You cannot make this change on Copy A.
- 9. On Copy C of Form 1099–LTC, you may reverse the location of the policyholder's and the insured's name, street address, city, state, and ZIP code for easier mailing.
- 10. If an institution insurer uses a third party service provider to file Form 1098–T, then in addition to the institution or insurers name, address, and telephone number, the same information may be included for the third party service provider in the space provided on the form.
- 11. Forms 1099-A and 1099-C transactions, if related, may be combined on Form 1099-C.

Section 4.2 – Composite Statements

4.2.1

Composite Substitute Statements for Certain Forms 1099–B, 1099–DIV, 1099–INT, 1099–MISC, 1099–OID, 1099–PATR and 1099–S A composite form recipient statement is permitted for reportable payments consisting of the proceeds of brokerage and barter transactions, dividends, interest, original issue discount, patronage dividends, and royalties. The following forms may be included on a composite substitute statement, when one payer is reporting more than one of these payments during a calendar year to the same form recipient.

- Form 1099–B.
- Form 1099–DIV (except for section 404(k) dividends).
- Form 1099-INT (except for interest reportable under section 6041).
- Form 1099-MISC (only for royalties or substitute payments in lieu of dividends and interest).
- Form 1099–OID.
- Form 1099-PATR.
- Form 1099–S (only for royalties).

Generally, do not include any other Form 1099 information (for example, 1098 or 1099–A) on a composite statement with the information required on the forms listed in the preceding sentence.

Although the composite form recipient statement may be on one sheet, the format of the composite form recipient statement must satisfy the following requirements in addition to the requirements listed earlier in *Section 4.1.2, 4.3 and 4.4, as applicable.*

- All information pertaining to a particular type of payment must be located and blocked together on the form and separate from any information covering other types of payments included on the form. For example, if you are reporting interest and dividends, the Form 1099–INT information must be presented separately from the Form 1099–DIV information.
- The composite form recipient statement must prominently display the form number and form name of the official IRS form together in one area at the beginning of each appropriate block of information. The tax year must only be placed on each block of information if it is not prominently displayed elsewhere on the page on which the information appears.
- Any information required by the official IRS forms that would otherwise be repeated in each information block is required to be listed only once in the first information block on the composite form. For example, there is no requirement to report the name of the filer in each information block. This rule does not apply to any money amounts (for example, federal income tax withheld) or to any other information that applies to money amounts.
- A composite statement is an acceptable substitute only if the type of payment and the recipient's tax obligation with respect to the payment are as clear as if each required statement were furnished separately on an official form.

A composite form recipient statement for the forms specified in *Section 4.1.3* is permitted when one filer is reporting more than one type of payment during a calendar year to the same form recipient. A composite statement is not allowed for a combination of forms listed in *Section 4.1.3* and forms listed in *Section 4.1.2*.

Exceptions:

- Substitute payments in lieu of dividends or interest reported in Box 8 of Form 1099–MISC may be reported on a composite substitute statement with Form 1099–DIV.
- Form 1099–B information may be reported on a composite form with the forms specified in *Section 4.1.2* as described in *Section 4.2.1*.
- Royalties reported on Form 1099–MISC or 1099–S may be reported on a composite form only with the forms specified in *Section 4.1.2*.

4.2.2 Composite Substitute Statements to Recipients for Forms Specified in Section 4.1.3 Although the composite form recipient statement may be on one sheet, the format of the composite form recipient statement must satisfy the requirements listed in *Section 4.2.1* as well as the requirements in *Section 4.1.3*. A composite statement of Forms 1098 and 1099–INT (for interest reportable under section 6049) is not allowed.

It should clearly explain how the information is presented. You may present this legend in a way that is consistent with your design as long as it clearly indicates which information is being provided to the IRS. Additionally, a reminder to taxpayers that they are ultimately responsible for the accuracy of their tax returns is also required.

Instructions for perforation of forms can be found in Section 2.1.8, earlier.

Section 4.6 – Electronic Delivery of Recipient Statements

If you are required to furnish a written statement (Copy B or an acceptable substitute) to a recipient, then you may furnish the statement electronically instead of on paper. This includes furnishing the statement to recipients of Forms 1098, 1098–E, 1098–MA, 1098–T, 1099–A, 1099–B, 1099–C, CAP, DIV, G, H, INT, K, LTC, MISC, OID, PATR, Q, R, S, SA, 3921, 3922, 5498, 5498–ESA, and 5498–SA. It also includes Form W–2G (except for horse and dog racing, jai alai, sweepstakes, wagering pools, and lotteries).

Note. Until further guidance is issued, you can not furnish Form 1098–C electronically. Perforation (see *Section 2.1.8*) does not apply to printouts of copies of forms that are furnished electronically to recipients. However, recipients should be cautioned to carefully separate the copies. If you meet the requirements listed below, you are treated as furnishing the statement timely.

4.6.2 Consent

The recipient must consent in the affirmative and not have withdrawn the consent before the statement is furnished. The consent by the recipient must be made electronically in a way that shows that he or she can access the statement in the electronic format in which it will be furnished. You must notify the recipient of any hardware or software changes prior to furnishing the statement. A new consent to receive the statement electronically is required after the new hardware or software is put into service. Prior to furnishing the statements electronically, you must provide the recipient a statement with the following statements prominently displayed:

- If the recipient does not consent to receive the statement electronically, a paper copy will be provided.
- The scope and duration of the consent. For example, whether the consent applies to every year the statement is furnished or only for the January 31 (February 15 for Forms 1099–B, 1099–S,

and 1099-MISC with payments reported in boxes 8 or 14) immediately following the date of the consent.

- How to obtain a paper copy after giving consent.
- How to withdraw the consent. The consent may be withdrawn at any time by furnishing the withdrawal in writing (electronically or on paper) to the person whose name appears on the statement. Confirmation of the withdrawal also will be in writing (electronically or on paper).
- Notice of termination. The notice must state under what conditions the statements will no longer be furnished to the recipient.
- Procedures to update the recipients information.
- A description of the hardware and software required to access, print and retain a statement, and a date the statement will no longer be available on the website.

Additionally, you must:

- Ensure the electronic format contains all the required information and complies with the guidelines in this document.
- Post, on or before the January 31 (February 15 for Forms 1099–B, 1099–S, and 1099–MISC with payments reported in boxes 8 or 14) due date, the applicable statement on a website accessible to the recipient through October 15 of that year.
- Inform the recipient, electronically or by mail, of the posting and how to access and print the statement.

For more information, see Regulations section 31.6051–1. For electronic furnishing of Forms 1098–E and 1098–T, see Regulations sections 1.6050S–2 and 1.6050S–4. For electronic furnishing of Forms 1099–R, 1099–Q, 5498, 5498–ESA, and 5498–SA, see Notice 2004–10, 2004–1 C.B. 433.

5.1.2 Time Frame For Submission of Form 1042–S	The request should be submitted by November 15 of the year prior to the year the form is to be used. 4.6.3 Format, Posting, and Notification 5.1.3 Revisions

5.1.4 Obtaining Copies

5.1.5 Instructions For Withholding Agents Form 1042–S is subject to annual review and possible change. Withholding agents and form suppliers are cautioned against overstocking supplies of the privately printed substitutes.

Copies of the official form for the reporting year may be obtained from most Service offices. The Service provides only cut sheets of these forms. Continuous fan-fold/pin-fed forms are not provided.

Instructions for withholding agents:

- Only original copies may be filed with the Service. Reproductions are not acceptable.
- The term "Recipient's U.S. TIN" for an individual means the social security number (SSN) or IRS individual taxpayer identification number (ITIN), consisting of nine digits separated by hyphens as follows: 000-00-0000. For all other recipients, the term means employer identification number (EIN) or qualified intermediary employer identification number (QI-EIN). The QI-EIN designation includes a withholding foreign partnership employer identification number (WP-EIN) and a withholding foreign trust employer identification number (WT-EIN). The EIN and QI-EIN consist of nine digits separated by a hyphen as follows: 00-0000000. The taxpayer identification number (TIN) must be in one of these formats. Note. Digits must be separated by hyphens on paper statements in the formats listed.
- Withholding agents are requested to type or machine print whenever possible, provide quality data entries on the forms (that is, use black ink and insert data in the middle of blocks well separated from other printing and guidelines), and take other measures to guarantee a clear, sharp image. Withholding agents are not required, however, to acquire special equipment solely for the purpose of preparing these forms.
- The "AMENDED" and "PRO-RATA BASIS REPORTING" boxes must be printed at the top center of the form under the title and checked, if applicable.
- Substitute forms prepared in continuous or strip form must be burst and stripped to conform to the size specified for a single form before they are filed with the Service. The dimensions are found in *Section 5.1.6*, following. Computer cards are acceptable provided they meet all requirements regarding layout, content, and size.

	Part 6 Exhibits
Section 6.1 – Exhibits of Forms	in the Revenue Procedure

6.1.1 Purpose *Exhibits A through FF* illustrate some of the specifications that were discussed earlier in this revenue procedure. The dimensions apply to the actual size forms, but the exhibits have been reduced in size.

Generally, the illustrated dimensions apply to all like forms. For example, *Exhibit C* shows 11.00'' from the top edge to the bottom edge of Form 1098 and .85'' between the bottom rule of the top form and the top rule of the second form on the page. These dimensions apply to all forms that are printed three to a page.

Exhibit B contains the general measurements for forms printed 2-to-a-page. All 2-to-1-page forms, except Form 1042–S, are 4.5'' in height within the border lines. Form 1042–S is 4.25'' in height within the border lines. *Exhibit C* contains the general measurements for forms printed 3-to-a-page. All 3-to-a-page forms are 2.83'' in height within the border lines. The printed area of all forms is 7.3'' wide.

Keep in mind the following guidelines when printing substitute forms.

- Closely follow the specifications to avoid delays in processing the forms.
- Always use the specifications as outlined in this revenue procedure and illustrated in the exhibits.
- Do not add the text line "Do Not Cut or Separate Forms on This Page" to the bottom form. This will be inconsistent with the specifications.

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with modified, below).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A

and B, the prior ruling is modified because it corrects a published position. (Compare with amplified and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in laws or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in a new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1986 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the sub-

stance of a prior ruling, a combination of terms is used. For example, modified and *superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case, the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.
