Introduction

This publication contains the new income tax withholding percentage and wage bracket method tables. It also includes the revised advance earned income credit (EIC) payment percentage and wage bracket method tables. The revised formula percentage method, wage bracket percentage method, and combined withholding tables are also found in this publication.

Publication 15-T should be used by employers in conjunction with the information in Publication 15 (Circular E), Employer's Tax Guide. Agricultural employers who use Publication 51 (Circular A), Agricultural Employer's Tax Guide, should also use these tables in lieu of the corresponding tables in Publication 51, and use Publication 15-T in conjunction with the information in Publication 51. Likewise, updated tables are included for Publication 15-A, Employer's Supplemental Tax Guide.

For the calculation of income tax withholding on pensions, the new withholding tables also apply.

These new tables have been developed due to changes to the tax law made in the American Recovery and Reinvestment Act of 2009. The IRS asks that employers begin using these tables in lieu of the applicable previously published tables as soon as possible, but no later than April 1, 2009.

Because this publication combines withholding tables from both the Publication 15 (Circular E), Publication 51 (Circular A), and Publication 15-A, your applicable table may be on a different page from that shown in those publications.

Notice to Employers

Make the notice on page 73 available to employees so that they will be aware of how the new law affects their withholding. A copy of Form W-4, Employee's Withholding Allowance Certificate, is included on pages 71 and 72. Employees do not need to fill out a new Form W-4. These new tables have been developed to apply for withholding for all employees and to take into account all current tax provisions. Employees may submit a new Form W-4 to ensure that the correct amount of tax is being withheld from their pay.

Note: The 2009 Form W-4 and the *Tables for Withholding on Distributions of Indian Gaming Profits to Tribal Members* found on page 58 of Publication 15-A are not being revised.

Withholding Income Taxes on the Wages of Nonresident Alien Employees

In general, you must withhold federal income taxes on the wages of nonresident alien employees. However, see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, for exceptions to this general rule. You must add an amount as set forth in the chart below to the nonresident alien's wages solely for calculating the income tax withholding for each payroll period. You determine the amount to be withheld by applying the income tax withholding tables to the amount of wages paid plus the additional chart amount. For more information, see Notice 2005-76, 2005-46 I.R.B. 947, available at www.irs.gov/irb/2005-46_IRB/ar10.html.

As the new withholding tables were developed due to changes to the tax law made by the American Recovery and Reinvestment Act of 2009, the amount to add to a nonresident alien employee's wages for calculating income tax withholding only has been increased. See the chart below for these increased amounts.

Nonresident alien students from India and business apprentices from India are not subject to this procedure.

The amount to be added to the nonresident alien's wages to calculate income tax withholding is set forth in the following chart.

Amount to Add to Nonresident Alien Employee's Wages for Calculating Income Tax Withholding Only

Payroll Period	Add Additional
Weekly	\$ 138.00
Biweekly	276.00

Semiannually	3,590.00

Payroll Period

Annually

Add Additional

7,180.00

Daily or Miscellaneous

The amounts added under this chart are added to wages solely for calculating income tax withholding on the wages of the nonresident alien employee. These chart amounts should not be included in any box on the employee's Form W-2, Wage and Tax Statement, and do not increase the income tax liability of the employee. Also, these chart amounts do not increase the social security, Medicare, or Federal Unemployment Tax Act (FUTA) tax liability of the employer or the employee.

This procedure only applies to nonresident alien employees who have wages subject to income tax withholding.

Note. The following example will deal with the new withholding tables only. For withholding on wages to nonresident alien employees before the new withholding tables were implemented (after February 17, 2009, but not later than April 1, 2009), see *Withholding income taxes on wages of nonresident alien employees* in section 9 of Publication 15 (Circular E).

Example. An employer using the percentage method of withholding pays wages of \$500 for a biweekly payroll period to a married nonresident alien employee. The nonresident alien has properly completed Form W-4, entering marital status as "single" with one withholding allowance and indicating status as a nonresident alien on line 6 of Form W-4 (see page 71). The employer determines the wages to be used in the withholding tables by adding to the \$500 amount of wages paid the amount of \$276 from the chart above (\$776 total). The employer then applies the applicable table (Table 2(a), the table for biweekly payroll period, single persons) by subtracting the applicable percentage method amount for one withholding allowance for a biweekly payroll period from \$776 and making the calculations according to the table.

The \$276 added to wages for purposes of calculating income tax withholding is not reported on Form W-2, and does not increase the income tax liability of the employee. The \$276 added amount also does not affect the social security tax, Medicare tax, or FUTA tax liability of the employer or the employee.

Increased Exclusion Amount for Combined Commuter Highway Vehicle Transportation and Transit Passes

Effective March 2009, the monthly exclusion for combined commuter highway vehicle transportation and transit passes increases to \$230 through December 2009. This increase is based on a change in the tax law made in the American Recovery and Reinvestment Act of 2009.

How To Use the Income Tax Withholding and Advance Earned Income Credit (EIC) Payment Tables

Income Tax Withholding

There are several ways to figure income tax withholding. The following methods of withholding are based on the information that you get from your employees on Form W-4, Employee's Withholding Allowance Certificate. See section 9 of Publication 15 (Circular E) for more information on Form W-4.

Adjustments are not required when there will be more than the usual number of pay periods, for example, 27 biweekly pay dates instead of 26.

Wage Bracket Method

Under the wage bracket method, find the proper table (on pages 7-26) for your payroll period and the employee's marital status as shown on his or her Form W-4. Then, based on the number of withholding allowances claimed on the Form W-4 and the amount of wages, find the amount of federal tax to withhold. If your employee is claiming more than 10 withholding allowances, see below.

If you cannot use the wage bracket tables because wages exceed the amount shown in the last bracket of the table, use the percentage method of withholding described below. Be sure to reduce wages by the amount of total withholding allowances in Table 1 on this page before using the percentage method tables (pages 5-6).

Adjusting wage bracket withholding for employees claiming more than 10 withholding allowances. The wage bracket tables can be used if an employee claims up to 10 allowances. More than 10 allowances may be claimed because of the special withholding allowance, additional allowances for deductions and credits, and the system itself.

Adapt the tables to more than 10 allowances as follows:

1. Multiply the number of withholding allowances over 10 by the allowance value for the payroll period. The allowance values are in *Table 1, Percentage Method—2009 Amount for One Withholding Allowance*, later.
2. Subtract the result from the employee's wages.
3. On this amount, find and withhold the tax in the column for 10 allowances.

This is a voluntary method. If you use the wage bracket tables, you may continue to withhold the amount in the "10" column when your employee has more than 10 allowances, using the method above. You can also use any other method described below.

Percentage Method

If you do not want to use the wage bracket tables on pages 7-26 to figure how much income tax to withhold, you can use a percentage computation based on Table 1 below and the appropriate rate table. This method works for any number of withholding allowances the employee claims and any amount of wages.

Use these steps to figure the income tax to withhold under the percentage method.

1. Multiply one withholding allowance for your payroll period (see Table 1 below) by the number of allowances that the employee claims.
2. Subtract that amount from the employee's wages.
3. Determine the amount to withhold from the appropriate table on page 5 or 6.

Table 1. Percentage Method—2009 Amount for One Withholding Allowance

Payroll Period	One Withholding Allowance
Weekly	\$ 70.19
Biweekly	140.38
Semimonthly	152.08
Monthly	304.17
Quarterly	912.50
Semiannually	1,825.00
Annually	3,650.00
Daily or miscellaneous (each day of the payroll period)	14.04

Example. An unmarried employee is paid \$600 weekly. This employee has in effect a Form W-4 claiming two withholding allowances. Using the percentage method, figure the income tax to withhold as follows:

1. Total wage payment	\$600.00
2. One allowance	\$70.19
3. Allowances claimed on Form W-4	<u>2</u>
4. Multiply line 2 by line 3	<u>\$140.38</u>
5. Amount subject to withholding (subtract line 4 from line 1)	\$459.62
6. Tax to be withheld on \$459.62 from Table 1(a)—single person, page 5	\$ 45.14

To figure the income tax to withhold, you may reduce the last digit of the wages to zero, or figure the wages to the nearest dollar.

Annual income tax withholding. Figure the income tax to withhold on annual wages under the *Percentage Method* for an annual payroll period. Then prorate the tax back to the payroll period.

Example. A married person claims four withholding allowances. She is paid \$1,000 a week. Multiply the weekly wages by 52 weeks to figure the annual wage of \$52,000. Subtract \$14,600 (the value of four withholding allowances for 2009) for a balance of \$37,400. Using the table for the annual payroll period (Table 7(b)) on page 6, \$2,812.50 is withheld. Divide the annual tax by 52. The weekly income tax to withhold is \$54.09.

Alternative Methods of Income Tax Withholding

Rather than the *Wage Bracket Method* or *Percentage Method* described above, you can use an alternative method to withhold income tax. *Alternative Methods for Figuring Withholding* on page 36 describes some of these alternative methods and contains:

- Formula tables for percentage method withholding (for automated payroll systems),
- Wage bracket percentage method tables (for automated payroll systems), and
- Combined income, social security, and Medicare tax withholding tables.

Additional alternative methods explained on page 36 are annualized wages, average estimated wages, cumulative wages, and part-year employment.

Advance Payment Methods for the Earned Income Credit (EIC)

To figure the advance EIC payment, you may use either the *Wage Bracket Method* or the *Percentage Method* as explained below. You may use other methods for figuring advance EIC payments if the amount of the payment is about the same as it would be using tables in this booklet. See the tolerances allowed in the chart in *Other methods* on page 36. See also section 10 in Publication 15 (Circular E) for an explanation of the advance payment of the EIC.

The number of withholding allowances that an employee claims on Form W-4 is not used in figuring the advance EIC payment. Nor does it matter that the employee has claimed exemption from income tax withholding on Form W-4.

Wage Bracket Method

If you use the wage bracket tables on pages 29-35, figure the advance EIC payment as follows.

Find the employee's gross wages before any deductions using the appropriate table. There are different tables for (a) single or head of household, (b) married without spouse filing certificate, and (c) married with both spouses filing certificates. Determine the amount of the advance EIC payment shown in the appropriate table for the amount of wages paid.

Percentage Method

If you do not want to use the wage bracket tables to figure how much to include in an employee's wages for the advance EIC payment, you can use the percentage method based on the appropriate rate table on pages 27 and 28.

Find the employee's gross wages before any deductions in the appropriate table on pages 27 and 28. There are different tables for (a) single or head of household, (b) married without spouse filing certificate, and (c) married with both spouses filing certificates. Find the advance EIC payment shown in the appropriate table for the amount of wages paid.

Whole-Dollar Withholding and Paying Advance EIC (Rounding)

The income tax withholding amounts in the wage bracket tables (pages 7-26) have been rounded to whole-dollar amounts.

When employers use the percentage method tables (pages 5-6) or an alternative method of income tax withholding table, the tax for the pay period may be rounded to the nearest dollar.

The wage bracket tables for advance EIC payments (pages 29-35) have also been rounded to whole-dollar amounts. If you use the tables for percentage method of advance EIC payments (pages 27-28), the payments may be rounded to the nearest dollar.

Alternative Methods for Figuring Withholding

You may use various methods of figuring federal income tax withholding. The methods described below may be used instead of the common payroll methods provided earlier. Use the method that best suits your payroll system and employees.

 *Employers must use a modified procedure to figure the amount of federal income tax withholding on the wages of nonresident alien employees. This procedure is discussed in [Withholding Income Taxes on the Wages of Nonresident Alien Employees](#) on page 2. Before you use any of the alternative methods to figure the federal income tax withholding on the wages of nonresident alien employees, see Publication 15 (Circular E). Do not use the Combined Income Tax, Employee Social Security Tax, and Employee Medicare Tax Withholding Tables on pages 50-69 for figuring withholding on nonresident alien employees.*

Annualized wages. Using your employee's annual wages, figure the withholding using the Percentage Method, Table 7—Annual Payroll Period, on page 6. Divide the amount from the table by the number of payroll periods, and the result will be the amount of withholding for each payroll period.

Average estimated wages. You may withhold the tax for a payroll period based on estimated average wages, with necessary adjustments, for any quarter. For details, see Regulations section 31.3402(h)(1)-1.

Cumulative wages. An employee may ask you, in writing, to withhold tax on cumulative wages. If you agree to do so, and you have paid the employee for the same kind of payroll period (weekly, biweekly, etc.) since the beginning of the year, you may figure the tax as follows.

Add the wages you have paid the employee for the current calendar year to the current payroll period amount. Divide this amount by the number of payroll periods so far this year including the current period. Figure the withholding on this amount, and multiply the withholding by the number of payroll periods used above. Use the [Percentage Method](#) shown on page 3. Subtract the total tax already deducted and withheld during the calendar year from the total amount of tax calculated. The excess is the amount to withhold for the current payroll period. See Revenue Procedure 78-8, 1978-1 C.B. 562, for an example of the cumulative method.

Part-year employment. A part-year employee who figures income tax on a calendar-year basis may ask you to withhold tax by the part-year employment method. The request must be in writing and must contain the following information:

- The last day of any employment during the calendar year with any prior employer.
- A statement that the employee uses the calendar year accounting period.

- A statement that the employee reasonably anticipates that he or she will be employed by all employers for a total of no more than 245 days in all terms of continuous employment (defined below) during the current calendar year.

Complete the following steps to figure withholding tax by the part-year method.

1. Add the wages to be paid to the employee for the current payroll period to any wages that you have already paid to the employee in the current term of continuous employment.
2. Add the number of payroll periods used in step 1 to the number of payroll periods between the employee's last employment and current employment. To find the number of periods between the last employment and current employment, divide the number of calendar days between the employee's last day of earlier employment (or the previous December 31, if later) and the first day of current employment by the number of calendar days in the current payroll period.
3. Divide the step 1 amount by the total number of payroll periods from step 2.
4. Find the tax in the withholding tax tables on the step 3 amount. Be sure to use the correct payroll period table and to take into account the employee's withholding allowances.
5. Multiply the total number of payroll periods from step 2 by the step 4 amount.
6. Subtract from the step 5 amount the total tax already withheld during the current term of continuous employment. Any excess is the amount to withhold for the current payroll period.

See Regulations section 31.3402(h)(4)-1 for more information about the part-year method.

Term of continuous employment. A term of continuous employment may be a single term or two or more following terms of employment with the same employer. A continuous term includes holidays, regular days off, and days off for illness or vacation. A continuous term begins on the first day that an employee works for you and earns pay. It ends on the earlier of the employee's last day of work for you or, if the employee performs no services for you for more than 30 calendar days, the last workday before the 30-day period. If an employment relationship is ended, the term of continuous employment is ended even if a new employment relationship is established with the same employer within 30 days.

Other methods. You may use other methods and tables for withholding taxes, as long as the amount of tax withheld is consistently about the same as it would be under the [Percentage Method](#) on page 3. If you develop an alternative method or table, you should test the full range of wage and allowance situations to be sure that they meet the tolerances contained in Regulations section 31.3402(h)(4)-1 as shown in the chart below.

If the tax required to be withheld under the annual percentage is—	The annual tax withheld under your method may not differ by more than—
Less than \$10.00	\$9.99
\$10 or more but under \$100	\$10 plus 10% of the excess over \$10
\$100 or more but under \$1,000	\$19 plus 3% of the excess over \$100
\$1,000 or more	\$46 plus 1% of the excess over \$1,000

Formula Tables for Percentage Method Withholding (for Automated Payroll Systems)

Two formula tables for percentage method withholding are on pages 38 and 39. The differences in the Alternative Percentage Method formulas and the steps for figuring withheld tax for different payroll systems are shown in this example.

MARRIED PERSON (Weekly Payroll Period)

If wages exceeding the allowance amount are over \$303 but not over \$470:

Method:	Income Tax Withheld:
Percentage (page 4) . . .	10% of excess over \$303
Alternative 1 (page 38) . .	10% of such wages minus \$30.30
Alternative 2 (page 39) . .	Such wages minus \$303, times 10% of remainder

Nonresident alien employees. Employers must use a modified procedure to figure the amount of federal income tax withholding on the wages of nonresident alien employees. Before you use these tables to figure the federal income tax withholding on wages of nonresident alien employees, review the procedures discussed in [Withholding Income Taxes on the Wages of Nonresident Alien Employees](#) on page 2. See Section 9 of Publication 15 (Circular E) for additional information.

Rounding. When employers use the [Percentage Method](#) or the Formula Tables for Percentage Method Withholding (next page), the tax for the pay period may be rounded to the nearest dollar. If rounding is used, it must be used consistently. Withheld tax amounts should be rounded to the nearest whole dollar by (a) dropping amounts under 50 cents and (b) increasing amounts from 50 to 99 cents to the next higher dollar. This rounding will be considered to meet the tolerances under section 3402(h)(4).

The first two brackets of these tables may be combined, provided zero withholding is used to credit withholding amounts computed by the combined bracket rates, for example, \$0 to \$51 and \$51 to \$198 combined to read, "Over \$0, But not over \$198."

The employee's excess wage (gross wage less amount for allowances claimed) is used with the applicable percentage rates and subtraction factors to calculate the amount of income tax withheld.

Note. — The first two brackets of these tables may be combined, provided zero withholding is used to credit withholding amounts computed by the combined bracket rates, for example, \$0 to \$51 and \$51 to \$198 combined to read, "Over \$0, But not over \$198."

The employee's excess wage (gross wage less amount for allowances claimed) is used with the applicable percentage rates and subtraction factors to calculate the amount of income tax withheld.

Wage Bracket Percentage Method Tables (for Automated Payroll Systems)

The *Wage Bracket Percentage Method Tables* show the gross wage brackets that apply to each withholding percentage rate for employees with up to nine withholding allowances. These tables also show the computation factors for each number of withholding allowances and the applicable wage bracket. The computation factors are used to figure the amount of withholding tax by a percentage method.

Kinds of tables. Two kinds of *Wage Bracket Percentage Method Tables* are shown. Each has tables for married and single persons for weekly, biweekly, semimonthly, and monthly payroll periods.

The difference between the two kinds of tables is the reduction factor to be subtracted from wages before multiplying by the applicable percentage withholding rate. In the tables for *Computing Income Tax Withholding From Gross Wages* on pages 41-44, the reduction factor includes both the amount for withholding allowances claimed and a rate adjustment factor as shown in the *Alternative 2.—Tables for Percentage Method Withholding Computations* on page 39. In the tables for *Computing Tax Withholding*

From Wages Exceeding Allowance Amount on pages 45-48, the reduction factor does not include an amount for the number of allowances claimed.

Which table to use. Use the kind of wage bracket table that best suits your payroll system. For example, some payroll systems automatically subtract from wages the allowance amount for each employee before finding the amount of tax to withhold. The tables for *Computing Income Tax Withholding From Wages Exceeding Allowance Amount* can be used in these systems. The reduction factors in these tables do not include the allowance amount that was automatically subtracted before applying the table factors in the calculation. For other systems that do not separately subtract the allowance amount, use the tables for *Computing Income Tax Withholding From Gross Wages*.

Rounding. When employers use the *Wage Bracket Percentage Method Tables*, the tax for the period may be rounded to the nearest dollar. If rounding is used, it must be used consistently. Withheld tax amounts should be rounded to the nearest whole dollar by (a) dropping amounts under 50 cents and (b) increasing amounts from 50 to 99 cents to the next higher dollar. Such rounding will be deemed to meet the tolerances under section 3402(h)(4).

Instructions

- A. For each employee, use the appropriate payroll period table and marital status section, and select the subsection showing the number of allowances claimed.
- B. Read across the selected subsection and locate the bracket applicable to the employee's gross wages in columns A and B.
- C. Subtract the amount shown in column C from the employee's excess wages.
- D. Multiply the result by the withholding percentage rate shown in column D to obtain the amount of tax to be withheld.

¹ If the gross wages are less than the amount to be subtracted, the withholding is zero.

² You can expand these tables for additional allowances. To do this, increase the amounts in the subsection by \$70.19 for each additional allowance claimed.

Instructions

- A. For each employee, use the appropriate payroll period table and marital status section, and select the subsection showing the number of allowances claimed.
- B. Read across the selected subsection and locate the bracket applicable to the employee's gross wages in columns A and B.
- C. Subtract the amount shown in column C from the employee's excess wages.
- D. Multiply the result by the withholding percentage rate shown in column D to obtain the amount of tax to be withheld.

¹ If the gross wages are less than the amount to be subtracted, the withholding is zero.

² You can expand these tables for additional allowances. To do this, increase the amounts in the subsection by \$140.38 for each additional allowance claimed.

Instructions

- A. For each employee, use the appropriate payroll period table and marital status section, and select the subsection showing the number of allowances claimed.
 - B. Read across the selected subsection and locate the bracket applicable to the employee's gross wages in columns A and B.
 - C. Subtract the amount shown in column C from the employee's excess wages.
 - D. Multiply the result by the withholding percentage rate shown in column D to obtain the amount of tax to be withheld.
- ¹ If the gross wages are less than the amount to be subtracted, the withholding is zero.
² You can expand these tables for additional allowances. To do this, increase the amounts in the subsection by \$304.17 for each additional allowance claimed.

Instructions

- A. For each employee, use the appropriate payroll period table and marital status section, and select the subsection showing the number of allowances claimed.
- B. Read across the selected subsection and locate the bracket applicable to the employee's gross wages in columns A and B.
- C. Subtract the amount shown in column C from the employee's excess wages (gross wages less amount for allowances claimed).
- Caution.** — The adjustment (subtraction) factors shown in this table (instruction C) do not include an amount for the number of allowances claimed by the employee on Form W-4. The amount for allowances claimed must be deducted from gross wages before withholding tax is computed.
- D. Multiply the result by the withholding percentage rate shown in column D to obtain the amount of tax to be withheld.

¹ If the excess wages are less than the amount to be subtracted, the withholding is zero.

² You can expand these tables for additional allowances. To do this, increase the wage bracket amounts in the subsection by \$70.19 for each additional allowance claimed.

Instructions

A. For each employee, use the appropriate payroll period table and marital status section, and select the subsection showing the number of allowances claimed.

B. Read across the selected subsection and locate the bracket applicable to the employee's gross wages in columns A and B.

C. Subtract the amount shown in column C from the employee's excess wages (gross wages less amount for allowances claimed).

Caution. — The adjustment (subtraction) factors shown in this table (instruction C) do not include an amount for the number of allowances claimed by the employee on Form W-4. The amount for allowances claimed must be deducted from gross wages before withholding tax is computed.

D. Multiply the result by the withholding percentage rate shown in column D to obtain the amount of tax to be withheld.

¹ If the excess wages are less than the amount to be subtracted, the withholding is zero.

² You can expand these tables for additional allowances. To do this, increase the wage bracket amounts in the subsection by \$140.38 for each additional allowance claimed.

Instructions

- A. For each employee, use the appropriate payroll period table and marital status section, and select the subsection showing the number of allowances claimed.
- B. Read across the selected subsection and locate the bracket applicable to the employee's gross wages in columns A and B.
- C. Subtract the amount shown in column C from the employee's excess wages (gross wages less amount for allowances claimed).
- Caution.** — The adjustment (subtraction) factors shown in this table (instruction C) do not include an amount for the number of allowances claimed by the employee on Form W-4. The amount for allowances claimed must be deducted from gross wages before withholding tax is computed.
- D. Multiply the result by the withholding percentage rate shown in column D to obtain the amount of tax to be withheld.

¹ If the excess wages are less than the amount to be subtracted, the withholding is zero.

² You can expand these tables for additional allowances. To do this, increase the wage bracket amounts in the subsection by \$65.38 for each additional allowance claimed.

Combined Income Tax, Employee Social Security Tax, and Employee Medicare Tax Withholding Tables

If you want to combine amounts to be withheld as income tax, employee social security tax, and employee Medicare tax, you may use the combined tables on pages 50-69.

You cannot use the tables on pages 50-69 to figure withholding on the wages of nonresident alien employees. Employers must use a modified procedure to figure the amount of federal income tax withholding on the wages of nonresident alien employees. This procedure is discussed in [Withholding Income Taxes on the Wages of Nonresident Alien Employees](#) on page 2. For more information about this procedure, see Publication 15 (Circular E).

Combined withholding tables for single and married taxpayers are shown for weekly, biweekly, semimonthly, monthly, and daily or miscellaneous payroll periods. The payroll period and marital status of the employee determine the table to be used.

If the wages are greater than the highest wage bracket in the applicable table, you will have to use one of the other methods for figuring income tax withholding described in this publication. For wages that do not exceed \$106,800

the combined social security tax rate and Medicare tax rate is 7.65% each for both the employee and the employer for wages paid in 2009. You can figure the employee social security tax by multiplying the wages by 6.2%, and you can figure the employee Medicare tax by multiplying the wages by 1.45%.

The combined tables give the correct total withholding only if wages for social security and Medicare taxes and income tax withholding are the same. When you have paid more than the maximum amount of wages subject to social security tax (\$106,800 in 2009) in a calendar year, you may no longer use the combined tables.

If you use the combined withholding tables, use the following steps to find the amounts to report on your Form 941, Employer's Quarterly Federal Tax Return, or Form 944, Employer's Annual Federal Tax Return.

1. Employee social security tax withheld. Multiply the wages by 6.2%.
2. Employee Medicare tax withheld. Multiply the wages by 1.45%.
3. Income tax withheld. Subtract the amounts from steps 1 and 2 from the total tax withheld.

You can figure the amounts to be shown on Form W-2, Wage and Tax Statement, in the same way.

Note. Do **not** use the tables on pages 50-69 to withhold income tax **only**. Instead, use the tables on [pages 7-26](#).

Form W-4 (2009)

Purpose. Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. Consider completing a new Form W-4 each year and when your personal or financial situation changes.

Exemption from withholding. If you are exempt, complete **only** lines 1, 2, 3, 4, and 7 and sign the form to validate it. Your exemption for 2009 expires February 16, 2010. See Pub. 505, Tax Withholding and Estimated Tax.

Note. You cannot claim exemption from withholding if (a) your income exceeds \$950 and includes more than \$300 of unearned income (for example, interest and dividends) and (b) another person can claim you as a dependent on their tax return.

Basic instructions. If you are not exempt, complete the **Personal Allowances Worksheet** below. The worksheets on page 2 further adjust your withholding allowances based on itemized deductions, certain credits, adjustments to income, or two-earner/multiple job situations.

Complete all worksheets that apply. However, you may claim fewer (or zero) allowances. For regular wages, withholding must be based on allowances you claimed and may not be a flat amount or percentage of wages.

Head of household. Generally, you may claim head of household filing status on your tax return only if you are unmarried and pay more than 50% of the costs of keeping up a home for yourself and your dependent(s) or other qualifying individuals. See Pub. 501, Exemptions, Standard Deduction, and Filing Information, for information.

Tax credits. You can take projected tax credits into account in figuring your allowable number of withholding allowances. Credits for child or dependent care expenses and the child tax credit may be claimed using the **Personal Allowances Worksheet** below. See Pub. 919, How Do I Adjust My Tax Withholding, for information on converting your other credits into withholding allowances.

Nonwage income. If you have a large amount of nonwage income, such as interest or

dividends, consider making estimated tax payments using Form 1040-ES, Estimated Tax for Individuals. Otherwise, you may owe additional tax. If you have pension or annuity income, see Pub. 919 to find out if you should adjust your withholding on Form W-4 or W-4P.

Two earners or multiple jobs. If you have a working spouse or more than one job, figure the total number of allowances you are entitled to claim on all jobs using worksheets from only one Form W-4. Your withholding usually will be most accurate when all allowances are claimed on the Form W-4 for the highest paying job and zero allowances are claimed on the others. See Pub. 919 for details.

Nonresident alien. If you are a nonresident alien, see the Instructions for Form 8233 before completing this Form W-4.

Check your withholding. After your Form W-4 takes effect, use Pub. 919 to see how the amount you are having withheld compares to your projected total tax for 2009. See Pub. 919, especially if your earnings exceed \$130,000 (Single) or \$180,000 (Married).

Personal Allowances Worksheet (Keep for your records.)

- A Enter "1" for **yourself** if no one else can claim you as a dependent A _____
- B Enter "1" if: {
 - You are single and have only one job; or
 - You are married, have only one job, and your spouse does not work; or
 - Your wages from a second job or your spouse's wages (or the total of both) are \$1,500 or less. } B _____
- C Enter "1" for your **spouse**. But, you may choose to enter "-0-" if you are married and have either a working spouse or more than one job. (Entering "-0-" may help you avoid having too little tax withheld.) C _____
- D Enter number of **dependents** (other than your spouse or yourself) you will claim on your tax return D _____
- E Enter "1" if you will file as **head of household** on your tax return (see conditions under **Head of household** above) E _____
- F Enter "1" if you have at least \$1,800 of **child or dependent care expenses** for which you plan to claim a credit F _____
- (**Note.** Do **not** include child support payments. See Pub. 503, Child and Dependent Care Expenses, for details.)
- G **Child Tax Credit** (including additional child tax credit). See Pub. 972, Child Tax Credit, for more information.
 - If your total income will be less than \$61,000 (\$90,000 if married), enter "2" for each eligible child; then less "1" if you have three or more eligible children.
 - If your total income will be between \$61,000 and \$84,000 (\$90,000 and \$119,000 if married), enter "1" for each eligible child plus "1" **additional** if you have six or more eligible children.
G _____
- H Add lines A through G and enter total here. (**Note.** This may be different from the number of exemptions you claim on your tax return.) ► H _____
- For accuracy, complete all worksheets that apply. {
 - If you plan to **itemize or claim adjustments to income** and want to reduce your withholding, see the **Deductions and Adjustments Worksheet** on page 2.
 - If you have **more than one job** or are **married and you and your spouse both work** and the combined earnings from all jobs exceed \$40,000 (\$25,000 if married), see the **Two-Earners/Multiple Jobs Worksheet** on page 2 to avoid having too little tax withheld.
 - If **neither** of the above situations applies, **stop here** and enter the number from line H on line 5 of Form W-4 below. }

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. The Internal Revenue Code requires this information under sections 3402(f)(2)(A) and 6109 and their regulations. Failure to provide a properly completed form will result in your being treated as a single person who claims no withholding allowances; providing fraudulent information may also subject you to penalties. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation, to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their tax laws, and using it in the National Directory of New Hires. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by Code section 6103.

The average time and expenses required to complete and file this form will vary depending on individual circumstances. For estimated averages, see the instructions for your income tax return.

If you have suggestions for making this form simpler, we would be happy to hear from you. See the instructions for your income tax return.

Notice to Employees

Changes in Income Tax Withholding

New withholding tables may reduce the amount of income tax withheld from your wages.

The new tables, prescribed by the Department of the Treasury, reflect the Making Work Pay credit and other changes resulting from the American Recovery and Reinvestment Act of 2009.

You do not have to submit a **Form W-4**, Employee's Withholding Allowance Certificate, to get the automatic withholding change. If you do not want to have your withholding reduced (because, for example, you have more than one job or you are married and your combined income places you in a higher tax bracket), you may want to file a new Form W-4 with your employer. You may claim fewer withholding allowances on line 5 or request additional amounts to be withheld on line 6. For additional help, get IRS **Publication 919**, How Do I Adjust My Tax Withholding? or visit the IRS website at www.irs.gov and use the "Withholding Calculator."

Additional Withholding for Pensions for 2009

(Optional Procedure for Those Making Pension Payments To Offset Withholding Reductions for the Making Work Pay Credit)

The tables on the next page explain how to calculate additional withholding amounts for pension payments. The withholding amounts may be added to the amount of withholding determined from the percentage method, the wage bracket method, or any other allowable method. The percentage method, the wage bracket method, or other allowable method when combined with this procedure constitutes an allowable alternative withholding method for pensions and annuities.

This procedure is optional for those making pension payments subject to withholding under section 3405 of the Internal Revenue Code. The procedure is an approximate offset for the withholding reduction included in the February 2009 withholding tables found in the Publication 15-T, New Wage Withholding and Advance

Earned Income Credit Payment Tables, which reflect the Making Work Pay credit. Eligibility for the credit requires earned income, which does not include pension payments.

Pension payors are not required to use this procedure but may instead continue to use **only** the February 2009 withholding tables to determine the amount of withholding.

The procedure is shown on the next page for Monthly, Semimonthly, Biweekly, and Weekly pension payments.

If pension payors decide to use this optional procedure, they should begin using it as soon as possible.

Note. If a pension payee submitted a Form W-4P, Withholding Certificate for Pension or Annuity Payments, after issuance of the revised withholding tables contained in Publication 15-T to request additional withholding on line 3, pension payors using this optional procedure may want to contact the payee to determine if the additional withholding requested on line 3 is still desired or whether the payee wants to submit a new Form W-4P.
