#GETBANKED

<https://www.fdic.gov/GetBanked/>

If you are in one of the 5.9 million U.S. households without a bank account, and you are looking to open an account, there are resources available to help you get started. Banking relationships generally begin with a checking or savings account and may lead to low-interest loans and mortgages.

FIND A BANK

The FDIC's BankFind tool can help you locate an FDIC-insured bank in your area. In addition, the following organizations have compiled lists of banks that offer accounts that can be opened online:

Bank On
American Bankers Association
Independent Community Bankers of America.

SEE THE CAMPAIGN

FDIC is collaborating with financial institutions, local government, and community organizations in select cities to raise awareness of the benefits of bank account ownership. These ads and radio spots are helping unbanked consumers take action to open accounts.

TAXES
