# SMALL BUSINESS SHOWCASE

## Other Significant Recent Accomplishments:

### ✧ HUD EA

- Developed target IT architecture – streamlined 39 segments to 21
- Architectural alignment: segments to investments to IT projects

### ✧ HUD RAMPS

- Rapid application prototyping and development for reporting HUD ARRA data to OMB – highly visible, urgent compliance requirement
- System & security engineering, geospatial data visualization, integration with HUD CFO database, CMMI ML3 adherence

### ✧ GSA CRM

- Cloud-based (Salesforce.com) application development using Agile methodologies and CMMI ML3 best practices
- Initial development complete, now focusing on nationwide rollout and integration with other business segments
