

Partners On-Line

NORTHEAST AREA:

"Small Business is **BIG** Business"

July 2008

Welcome to the Northeast Area Partners On-Line (Partners), an on-line source of small business concerns located in New York, Connecticut, Rhode Island, Michigan, New Jersey, Maine, Massachusetts, New Hampshire, Vermont, Ohio, and Pennsylvania that accept the Citibank MasterCard. We've broken the Partners On-Line listing into four areas of the United States: Northeast, Southeast, Midstates, and Western as we've found that most cardholders want to buy from local firms. The list has also grown substantially with now over 500 small business sources nationwide that can meet your micro purchase needs (less than \$3,000). This source also spotlights both Information Technology (IT) and Non-IT small businesses offering their products and services to the IRS via the purchase card.

The newly added small business sources are highlighted in red text. Each company's socioeconomic status is also identified, i.e., small business (Small), HUBZone small (HUB), small disadvantaged business (SDB) or 8(a) business enterprise (8-a), woman-owned small business (WOSB), veteran-owned small business (VOSB), and/or service disabled veteran-owned small business (SDVOSB). Even though the companies in each listing are segregated according to geographical regions, most of these companies provide products/services on a nationwide scope. Thank you for considering small businesses.

42 Mohawk Road
Canton, MA 02021-1236
Tel: 617-818-5307
POC: Kevin Pang, Ph.D, MBA

KYOS Systems Inc. has a new and powerful award winning product and service called KYOS TransFORM™ that performs automated paper and pdf form and field identification and extraction, allowing you to effectively mine your data from paper and PDF forms. Our automated and easy to use software recognizes form changes and versions, giving you the capability to perform archival and form based data mining. Forms can be scanned or processed and automatically recognized and all field data extracted, giving you data that can now be aggregated and analyzed in new and much more powerful ways including context-specific searching and visual display. Our use of open source and XML technology means that your extracted data can now be securely shared between users and applications. In addition, business rules can now be applied to each field, allowing both automated and manual data redaction for ultra-secure rights-based form sharing. Make your data even more valuable to you by using KYOS TransFORM™ today.

POC: James Hackley, Gov't Sector Sales Manager

Product Spotlight: Pearl Software's Echo*Suite™ Monitoring & Control Solution.

Echo*Suite™ is an innovative e-communications monitoring, filtering and control solution, used by Government agencies to manage Internet activity and also as an investigative tool to uncover abuse or misuse of Government computing resources, unmask internally assisted fraud and support employee conduct investigations. Echo*Suite actively captures targeted e-communications including: Internet activity, file transfers, news, chat, IM, and e-mail and webmail, including all encoded attachments. The strength of this solution is its ability to operate in any network environment (mobile/teleworker, desktop, laptop and server-centric environment such as Citrix Metaframe and Terminal Services). It has been successfully used by Government managers to control bandwidth usage, prevent careless or negligent employee conduct and uncover unlawful activities. Unlike many other technologies, Echo*Suite™ does not have any recurring annual subscription fees and can be easily purchased using a Government charge card. To protect your e-communications or for additional information about emerging monitoring technologies, please contact Pearl Software.

PICS TELECOM (WOSB/HUB/SDVOSB)

1920 Lyell Ave.

Rochester, NY 14606

Tel: 800-521-7427 or 585-295-2000

Fax: 585-295-2020

POC: Tania Celso - 800-521-7427 X300

As an ISO 9001:2000 certified small business, we offer a warranty on all equipment, with a 24 hr Advanced Replacement Program . We test all equipment shipped out to customers, and all our equipment is in stock! We can sell as low as 70-80% off list price and some of the manufacturers that we carry include: Nortel, Lucent, Cisco, IBM, Sun, Fujitsu, Alcatel, Adtran, Juniper, Marconi, 3Com, and more. All our equipment comes from our Investment Recovery Partners, most of which is NEW-in-the-box, and that which is used, our own PICS Engineers have personally reinstalled it. Some of our customers include: United States Air Force, United States Army, National Institute of Health, SAIC, Booz Allen Hamilton, Lockheed Martin, AT&T, Qwest, MCI, and thousands of other companies worldwide.

STOP Security Tracking of Office Property (SB)

(American Connection Information Systems, Inc.)

17 High Street

Norwalk, CT 06851

Tel: 800-488-7867

Fax: 203-945-2027

POC: Doug Belfiore

Email: doug@stoptheft.com

STOP's patented anti-theft marking and registry system uses a permanently affixed aluminum plate to identify computers and other office equipment. A toll-free hotline number and barcode are printed on the face of the plate to facilitate recovery and asset management. If the plate is removed, a patented tattoo that reads "Stolen Property," along with the toll-free hotline number, remains chemically etched in the surface of the equipment. The plate and patented tattoo effectively deter theft by eliminating the resale value of the equipment. The STOP system is available with a customized asset tracking software program for efficient inventory management. STOP's "Stolen Property" Tattoo is patented. No other company can provide this or similar marking system.
