### Paying your taxes has never been this easy

IRS offers several payment options for you to consider as the April tax deadline approaches. You can pay online, by phone or from your mobile device. Paying online is easy and secure. Here are a few of the options available to you:

When you're e-filing your taxes, you can use the [electronic funds withdrawal](#) method. EFW allows you to e-file and pay from your bank account when you are using tax preparation software or a tax professional. You can schedule your payment any time before your taxes are due.

You can use [IRS Direct Pay](#) anytime to pay your taxes directly from your checking or savings accounts at no cost to you. You receive instant confirmation that your payment was submitted, and you can schedule your payment up to 30 days in advance.

Another option is paying your taxes by phone or online through any of the secure [debit and credit](#) card processors. Though the IRS does not charge a fee for this service, the card processors do.

There's also the [Electronic Federal Tax Payment System](#). It's free, and it takes five to seven business days to enroll before you can make a payment.

If you can't pay in full, you may want to consider requesting a payment agreement. If you owe \$50,000 or less in individual income taxes and can pay the full amount within 72 months or less, you can use the [online payment agreement](#) tool. There's no need to call or write the IRS because you make the request directly from your computer. It's easy, and your personal information is safe and secure.

If you prefer to pay with your mobile device, use [IRS2Go](#), the official mobile app of the IRS. IRS2Go provides easy access to the mobile-friendly payment options Direct Pay for free, and debit or credit card payments through an approved payment processor for a fee. You can download IRS2Go from Google Play, the Apple App Store or Amazon and make your payments when it's convenient for you.
