

Cynthia MacIntosh, A.B.A

I am currently an un-enrolled preparer. I have been preparing taxes for 20 years now. I hold the A.B.A. (Accredited Business Accountant) credential which I've had since 1991. I attend many educational classes and seminars throughout the year in order to meet the requirements to keep my ABA credential in good standing. They require those CPE's to be in accounting. However, in order to keep current with IRS requirements, I also attend many tax seminars during the year.

My practice includes 70% monthly client write-up and 30% taxes. I currently have about 45 monthly clients and prepare 250 individual returns, and 75 corporate, partnership and trust returns.
