2. Preparation of Form 4340 is limited to a few authorized campus employees only. At present, these employees are generally in the Compliance and Accounting Branch functions.

3. The following information is required on Form 4338 to initiate a request for Form 4340:
 - a. Complete TIN information including a validity indicator or NMF indicator (if applicable).
 - b. Complete name and address information (if applicable).
 - c. If Form 4340 is needed for a court case, mark the "Under Seal" box. Form 2866, *Certificate of Official Record*, will be included only when the "Under Seal" box is checked. If Form 4340 is needed for other legal purposes, mark the "Certified" box.
 - d. The date the Form 4340 is needed (date should encompass two weeks preparation time). A request marked "ASAP" will be available in 30 days or less.
 - e. The reason for the request.
 - f. The type of transcript needed (usually "Specific"). If "Complete" is marked, specify the earliest tax period needed.
 - g. The MFT.
 - h. The period ending. Multiple periods can be on the same form. Add additional periods in the area above the **Requester** at the bottom of the page on Form 4338.
 - i. Any additional information that may assist in locating the account if the taxpayer's EIN, SSN, or complete name are not known.
 - j. The complete name and address of the requestor. If this is an expedite request, include a street address.
 - k. The title of the requestor.
 - l. The current date.
 - m. The complete telephone number of the requestor, including area code. If the telephone number is omitted or incomplete, Form 4338 may be returned to the requestor.
4. If an incomplete Form 4338 is received, contact the requestor for the missing information. If unable to contact the requestor, return Form 4338 to the requestor with instructions to resubmit Form 4338, including the missing information.
5. Processing instructions for Form 4338 follows:
 - a. If the taxpayer's account and tax period are located on Master File, input command code MFTRA with Request Type "J", EIN/SSN, MFT, and tax period. The terminal response with this definer should be the same as the other MFTRA command code definers. See IRM 2.3, *IDRS Terminal Responses*.
 - b. The day following the input request (if the input is before the campus cutoff time), Master File will generate a routing page for sorting and routing the transcript, cover sheet to be associated with MFTRA-J Transcript, a report identifying all transaction codes that were on the Master File, but were not included on the MFTRA-J Transcript, and hard copy literal transcript entitled Form 4340, *Certificate of Assessments, Payments, Other Specified Matters*. This transcript will contain entity and tax module data from the Master File associated with the input SSN/EIN. If the Literal "MUST USE NSA" appears in the transaction explanation column for any transaction appearing on the Form 4340, follow the instructions in the CERTS User's Guide, *Form*

4340- Certificate of Assessments, Payment, and Other Specified Matters (CERTS) User's Guide, to complete Form 4340.

NOTE: If review of the report identifies a transaction that was not included on the MFTRA-J Transcript, and Form 4338 indicated transactions must be included on the transcript, use the NSA to produce Form 4340.

6. If review of the information provided on Form 4338 indicated an automated Form 4340 could not be produced, e.g., Non-Master File Account, account on retention, follow the instructions in the CERTS User's Guide to complete Form 4340.

NOTE: The NSA is the only acceptable application for producing a Form 4340 when an automated Form 4340 cannot be produced.

7. When transcripts are received, verify the information on Form 4338 and compare to the transcript received. If discrepancies are identified which cannot be resolved through research or contact with the requestor, return Form 4338 to the originator with a brief explanation of the problem.
8. The following Command Codes can be used to verify the transcript information:
 - INOLES—Verify name and TIN as shown on Form 4338
 - ENMOD—Verify name and TIN as shown on Form 4338
 - IMFOL/BMFOL—Display summary of tax periods on Master File
 - SUMRY—Display summary of all available tax periods on active IDRS
 - TXMOD—Display summary of specific tax periods on active IDRS
 - IMFOLV/BMFOLV—Display tax periods on Retention File
9. If the response to an IMF transcript request indicates the module was retired in cycle 199501 or later, and the request is not an expedite request, input command code IMFOLB to activate the register. After seven days, MFTRA-J or MFTRA Specific can be requested. If the request is an expedite request or the register was retired in cycle 199501 or earlier, follow instructions in the CERTS User's Guide.
10. If the response to a BMF transcript request indicates the module was retired in cycle 199501 or later, and the request is not an expedite request, input command code BMFOLB to activate the register.
