

IRM PROCEDURAL UPDATE

DATE: 02/22/2024

NUMBER: wi-03-0224-0278

SUBJECT: Disaster Due Date and Received Dates

AFFECTED IRM(s)/SUBSECTION(s): 3.11.212

CHANGE(s):

IRM 3.11.212.7.3(1) Added new Modernization project goals in relation to Received dates.

(1) Due to the modernization effort we will be working toward having every extension, even timely ones, stamped with a received date and to have the envelope left with the returns. Every extension request form received by the IRS should be stamped by the receiving area (usually Receipt and Control) with a date indicating when it was received. This means we are working toward no longer circling out timely received dates.

Exhibit 3.11.212-5 Added Michigan FEMA 4757-DR.

If the extension request is due on or after the disaster period begin date, and by the disaster end date, consider the request timely filed if postmarked on or before the end date if the address on the extension is from the state listed, or the applicable FEMA number or disaster designation is notated on the extension or an attachment. Follow normal timely extension procedures for processing.
