2.3.35.1
(03-18-2024)
**Program Scope and Objectives**

(1) **Overview**: Command Code (CC) Information Returns Processing Transcript Requests (IRPTR) allows Integrated Data Retrieval System (IDRS) users to request either online or hardcopy Information Returns Processing (IRP) transcripts from the Information Returns Master File (IRMF).

(2) **Purpose**: CC IRPTR can be used to request data, either online or hardcopy transcripts, for a particular Payee (online or Hardcopy) or Payer (Hardcopy only) using Taxpayer Identification Number (TIN) along with one or more Tax Years (TY).

(3) **Audience**: These procedures apply to IRS employees who use IDRS system to research information using payee tin, payee tin type, tax year and document codes

(4) **Policy Owner**: Wage and Investment (W&I) executive of the operation.

(5) **Program Owner**: Information Returns Master File (IRMF) is a Non-major, high impact planned maintenance project that is part of the Information Returns Processing (IRP) Program. IRMF is categorized as a steady state legacy system that incorporates annual programming changes and legislative changes to maintain functionality.

(6) **Primary Stakeholders**: Stakeholders Impacted by system/application are Wage and Investment (W&I), Small Business/Self-Employed (SBSE),Tax Exempt & Government Entities (TE/GE), Large Business and International (LB&I) Division .

(7) **Program Goals**: This IRM provides the fundamental knowledge and procedural guidance for employees and users to look up various Information Returns documents by PAYEE TIN, PAYEE TIN TYPE, TAX YEAR and DOCUMENT CODES.

2.3.35.1.1
(03-18-2024)
**Background**

(1) Information Returns Processing Transcript Requests (IRPTR) allow tax examiners to research tax payers information to confirm data validity and payment information provided to the IRS.

2.3.35.1.2
(03-18-2024)
**Authority**

(1) Command CODE IRPTR was developed to allow users to do research on the IDRS (Integrated Data Retrieval System) for Entity data and certain payment information.

2.3.35.1.3
(03-18-2024)
**Responsibities**

(1) The team manager is responsible for ensuring the program developer receive requirements from stakeholders for annual changes.

(2) The programmer is responsible for all changes and updates that are made based on requirements from internal and external stakeholders.

2.3.35.1.4
(03-18-2024)
**Program Management and Review**

(1) The Program is managed utilizing IRMF Exam Transcripts processing to produce and sort transcript tapes for examination. These tapes will contain taxpayer IRP data which was extracted from IRMF. A Tickler is created for each taxpayer for whom IRP data was extracted from the IRMF. A Standard Transcript Summary report is created with the requested data.

2.3.35.1.5
(03-18-2024)
**Program Controls**

(1) IDRS user access code and permissions are required to access IRPTR information.

2.3.35.1.6
(03-18-2024)
**Terms/Acronyms/ Definition**

(1) Acronyms

| Acronym | Definition |

**Important Dates For Command Code IRPTR**

(1) The last day to request TY2013 Payee and Payer Transcripts is Wednesday, December 27, 2023 , and must be made before 12:00 p.m. (Noon) Eastern Standard Time.

(2) The last day to access TY 2013 online is Friday, December 29, 2023.

(3) TY 2024 data will be accessible online Tuesday, January 2, 2024.

(4) TY 2025 data will be accessible online Thursday, January 2, 2025.

(5) The schedule noted above is tentative and subject to change without notice. Efforts will be made to notify all users.

2.3.35.3
(10-10-2013)
**Command Code IRPTR Valid Definers**

(1) The following table lists valid definers used by CC IRPTR.

| Definer | Explanation |
|---|---|
| H | Initial Help Screen |
| E | Payee Hardcopy Transcript Request |
| R | Payer Hardcopy Transcript Request |

| Definer | Explanation |
|---|---|
| I | Payer Summary Request for Document codes (02,10,21,32,65,66,67,71,86,91,92,95,96,97, and 98) |
| L | Payee On-line Transcript Payee Summary |
| O | Payee On-line Transcript Request |
| W | Payee On-line Sanitized Transcript Request |
| J | Payee NonFiler Summary Request |
| N | Enter 'N' without changing the rest of the command line if there are more than one page of documents. The default definer is 'N' for 'Next'. |
| P | Enter 'P' without changing the rest of the command line will display the previous page. |
| C | Entering 'C' will display the Hardcopy Request screen. |

2.3.35.4
(03-18-2024)
**Command Code IRPTR Valid Tax Years**

(1) Up to ten Tax Years can be referenced in IRPTR.

(2) Available Tax Years and the input digits used to reference them on various screens are shown below.

| Tax Year | Reference Digit |
|---|---|
| **2023** | **3** |
| **2022** | **2** |
| **2021** | **1** |
| **2020** | **0** |
| **2019** | **9** |
| **2018** | **8** |
| **2017** | **7** |
| **2016** | **6** |
| **2015** | **5** |
| 2014 | 4 |

2.3.35.5
(08-01-2003)
**Initial Help Screen and More Help Screen (Definer 'H')**

(1) The Initial Help screen is displayed as a result of entering Command Code IRPTR without a definer or with a definer that is not equal to 'E', 'R', 'L', 'O', 'J', 'W', or 'I'.

(2) Initial Help screen contains instructions for the use of Command Code IRPTR. Additional instructions can be viewed by transmitting this screen with a Definer of 'H'. This brings up the More Help screen. To see the screen layout of the Initial Help Screen, Exhibit 2.3.35-1. To see the screen layout of the More Help

Screen, Exhibit 2.3.35-2.

(3) Entering Definer 'H' again toggles back to the Initial Help Screen.

2.3.35.6
(05-03-2011)
**Payee Hardcopy Transcript Request (Definer 'E')**

(1) The user can request an IRP Payee hardcopy transcript using the Payee Request screen.

(2) The Payee Request Screen is displayed by transmitting an 'E' in the Definer field, or in the Definer field on an initial Help screen, or on a Payer Request screen, or on a IRPTRO/W Help Screen.

(3) The user can request up to ten Tax Years of the IRP Payee hardcopy transcript. IRM 2.3.35.4 for a list of Tax Years.

(4) To see the screen layout, Exhibit 2.3.35-3.

(5) Upon completing a successful Transcript Request, a message "REQUEST COMPLETED XXX" is displayed to the user. XXX is a number representing the incremental count of requests that the user has completed as long as the definer is not changed.

2.3.35.6.1
(05-01-2009)
**Validated Fields of Payee Request Screen**

(1) The Table below shows the validated fields for Payee Request Screen:

| | |
|---|---|
| **REQUESTED TIN** | Entry must be 9 numeric digits but not all zeros ('000000000') or nines ('999999999'). This entry is expected to be either a Social Security Number (SSN) or an Employer Identification Number (EIN). |
| **REQUESTED TIN TYPE and VALIDITY** | Entry must be one of:<br>0 - Valid SSN<br>1 - Invalid SSN<br>2 - All SSNs<br>3 - EIN<br>4 - All TINs<br>for extraction of Information Returns documents for the specified TIN. |
| **YEAR DIGITS** | Enter one to ten numeric digits for Tax Year(s) desired. Each digit entered corresponds to the last digit of a Tax Year listed, IRM 2.3.35.4 Digits in the first and subsequent positions of this field must be valid. They cannot be separated by blanks or other characters. Trailing blanks are permitted. |
| **DOC CODE** | Entry must be within the range specified by this list, Exhibit 2.3.35-4. Some document codes are not present for all Tax Years. This field is checked for consistency against the YEAR DIGITS field and if the desired document code is not available for at least one of the specified Tax Years, both the DOC CODE and the YEAR DIGITS fields are flagged as errors. |
| **RECEIVING OFFICE** | City and State of the office that receives your inter-office mail. |
| **UNIT OFFICE** | Office name (if any) City, State. |
| **MAIL STOP** | Unit's Mail Stop. Please include building extensions if necessary. |
| **TELEPHONE NUMBER** | Enter telephone number so distribution centers can contact your for assistance in routing. This field is required to be filled out. |

2.3.35.7
(05-03-2011)
**Payer Hardcopy Transcript Request (Definer 'R')**

(1) The user can request an IRP Payer hardcopy transcript using Payer Request screen.

(2) Payer Request Screen is displayed by transmitting an 'R' in the Definer field initially or in the Definer field of an Initial Help Screen, a Payee Request Screen, or an IRPTRO/W Help Screen.

(3) The user can request up to 10 Tax Years of IRP Payer hardcopy transcript. IRM 2.3.35.4 for a list of Tax Years.

(4) The entry field, “Destination Code” on the IRPTR“R” screen, is intended for TE/GE and LB&I users to route the requested data to Returns Inventory Classification System (RICS). If paper transcript is needed, the field should be left blank.

(5) To see the screen layout, Exhibit 2.3.35-5.

(6) Upon a successful request, a message “REQUEST COMPLETED XXX” is displayed to the user. XXX is a number representing the incremental count of requests that the user has completed as long as the definer is not changed.

2.3.35.7.1
(05-03-2011)
**Validated Fields of Payer Request screen**

(1) The Table below shows the validated fields for Payer Request Screen:

| | |
|---|---|
| **REQUESTED TIN** | Entry must be 9 numeric digits but not all zeros ('000000000') or nines ('999999999'). This entry is expected to be either a Social Security Number (SSN) or an Employer Identification Number (EIN). |
| **REQUESTED TIN TYPE** | Requested TIN Type is an unreliable field. This field is forced to be a 4 (SSN and EIN) for all Payer requests. |
| **PAYEE TIN TYPE** | Entry must be one of:<br>0 - Valid SSN<br>1 - Invalid SSN<br>2 - All SSNs<br>3 - EIN<br>4 - All TINs<br>***Note:*** Payee TIN Type of "4" is **strongly recommended** in order to get a hit on all documents from the Payer. |
| **YEAR DIGITS** | Enter one to ten numeric digits for Tax Year(s) desired. Each digit entered corresponds to the last digit of a Tax Year listed, IRM 2.3.35.4 Digits in the first and subsequent positions of this field must be valid. They cannot be separated by blanks or other characters. Trailing blanks are permitted. |
| **DOC CODE** | Entry must be within the range specified by this list, Exhibit 2.3.35-4. Some document codes are not present for all Tax Years. This field is checked for consistency against the YEAR DIGITS field and if the desired document code is not available for at least one of the specified Tax Years, both the DOC CODE and the YEAR DIGITS fields are flagged as errors. |
| **COUNT LIMIT** | Entry must be either all blanks or contain a one to five digit number positioned anywhere in the field as long as the digits are adjacent. This field limits the number of IRP Documents in a Transcript and must be left blank if '00', '99', or 'WW' is specified for DOC CODE . Inconsistencies will error flag both the COUNT LIMIT and DOC CODE fields. |
| **DESTINATION CODE** | Leave blank to request paper transcripts, otherwise enter a code to route the data to another destination. Contact your user support representative for more information on this code. |

| | |
|---|---|
| **RECEIVING OFFICE** | City and State of the office that receives your inter-office mail. |
| **UNIT OFFICE** | Office name (if any), City, State. |
| **MAIL STOP** | Unit's Mail Stop. Please include building extensions if necessary. |
| **TELEPHONE NUMBER** | Enter telephone number so distribution centers can contact your for assistance in routing. This field is required to be filled out. |

2.3.35.8
(05-01-2005)
**Payee and Payer Hardcopy Request Error Message**

(1) If an error condition is detected, an error message will appear online 24 of Payee or Payer Request screens.

(2) The entry field mentioned in the message will be flagged with an asterisk and the cursor will be set on that entry field for corrective action to be taken. Type in the correction, place your cursor in the cursor placement field and hit the enter key again.

(3) The error message may apply to a pair of fields that are inconsistent. Both fields will be asterisk-ed and the cursor set on the first field of the pair. One or both fields may need to be corrected.

2.3.35.8.1
(08-01-2003)
**Payee Hardcopy Request Error Message List**

(1) Here is a list of possible error messages. These error messages are self-explanatory.

2.3.35.8.3
(07-01-1999)
**Payee and Payer Hardcopy Request Special Messages**

(1) The message "***** DATA BASE NOT AVAILABLE @ MCC—TRY LATER—ERROR#XX.*****" can appear online 24 of either a PAYEE or PAYER screen. The cursor will be set on the first line so that you can conveniently switch to a different Command Code. If this message persists after a lapse of more than one hour, please contact your User Support representative. (The "XX" of "ERROR#XX" should be reported as this may help ECC-MTB to diagnose the problem.)

2.3.35.9
(08-01-2003)
**Paper Transcript Schedule**

(1) All Payee/Payer transcript requests should be input before Wednesday, 12:00 p.m. (Noon) Eastern Standard Time to receive the transcripts as soon as possible. All requests that are input after 12:00 p.m. (Noon) Eastern Standard Time on Wednesday will have to wait until the following Wednesday after 12:00 p.m. (Noon) Eastern Standard Time to be processed.

(2) The paper transcripts processing normally takes 2 to 4 days to extract the requested documents from IRMF System.

(3) Please allow at least 1 week following Wednesday deadline for transcripts to be shipped. If the requested transcript do not arrive within seven days, please contact your campus distribution center or user support representative.

**Payee and Payer online Transcript (Definer 'L', 'O', and 'W')**

(1) There are three definers that can be used to view Payee Transcripts online. The definers are 'L', 'O' and 'W'.

(2) Requests are made using command string fields in this order: Payee TIN, Validity Indicator, Tax Year and Document Code.

(3) Definer 'L' is used to bring up Payee summary screen. This definer is used to view money summaries, the two best payee addresses, date of birth, date of death and filing status.

(4) Definer 'O' is used to bring up online Payee transcripts screen. This definer is used to view all the documents based on the Payee TIN.

(5) Definer 'W' is used to bring up Sanitized online Payee transcripts screen. This definer is used to print sanitized screens for taxpayer.

(6) Ten Tax Years are available online, IRM 2.3.35.4

**Payee online Transcript No Hit**

(1) If there are no documents using the Payee TIN on the IRPTR online database, a No Hit screen will be shown.

(2) If a document for a particular taxpayer is not found on the current Tax Year Payee online Transcripts database, you may need to try again about one week later. The database is being updated every week; it is possible that the document is still in the pipeline processing.

(3) The message "TRY AGAIN LATER" can appear online 24 of No Hit screen due to a problem with the portion of the database covering the requested TIN.

a. If the message persists after a lapse of more than one hour, please contact your User Support representative.
b. The "XXV" of "ERROR CODE XXV" in the upper right hand corner should be reported. This may help ECC-MTB to diagnose the problem. The "V" in the Error code will show "C" (CREF file) or "D" (Documents file).

**Payee online Transcript Help (Definer 'L', 'O', or 'W')**

(1) The screen is displayed as the result of transmitting an 'L', 'O', or 'W' (immediately followed by the enter key) in the definer field of an INITIAL HELP, PAYEE, or PAYER screen.

(2) It also can be displayed as the result of invalid TIN type and validity, document code or tax year. The error message will appear online 24.

(3) Instead of requesting an online Transcript, the user can change the 'L', 'O', or 'W' in the DEFINER field of this screen to switch to an Initial Help, Payee or Payer screen.

(4) IRPTRL/O/W Help screen gives further information about working with definers 'L', 'O', or 'W'.

**Payee On-line Transcript Payee Summary (Definer 'L')**

(1) The purpose of Payee Summary screen is to show money summaries, the two best payee addresses, date of birth, date of death and filing status.

(2) To see the layout of the screen, Exhibit 2.3.35-8.

(3) The following codes from IRP (Information Returns Processing) Data Assimilation are used to determine whether the IRP documents are to be suppressed or not.

a. Error Reason Code is not blank or "OV", suppress the document.
b. Correlation Option Code is a "2" or "3", suppress the document.

(4) The following criteria are used to select the two best Payee addresses from documents:

a. Passport documents are not selected.
b. The following documents are considered high priority in selecting best or next best addresses: W-2, 1099-DIV, 1099-OID, 1099-MISC, 1099-B, 8596, SSA-1099, RRB-1099 and 1099-G.
c. The rest of the documents are considered low priority while 1042-S (Document Code 02) is considered the lowest priority of all document.
d. Payment amounts are used to determine whether the document has a higher or lower value against other documents.
e. In order for the documents to be qualified for best or next best addresses: first Payee Name Line must not be blanks, first character in the address line must be numeric, State Code must be either alphabetic or has "." (means foreign) and ZIP Code must be either (numeric and does not have all zeroes) or (all zeroes and State Code is equal to ".").

f. If none of the documents other than 1042-S qualified, then select 1042-S as the best or next best addresses.

(5) Here is a table of fixed Money Amount Description that are shown on the screen:

***Note:*** The following documents with their money amounts are not included in the money summaries: State Individual Information Return (Doc Code 30), State Corporate Information Return (Doc Code 33), State Withholding Information Return (Doc Code 34) and State Sales, Service, or Transaction Information Return.

(4) Second kind of screen is **Key Words** screen, which means that all the documents have key words indicating nominee income and/or system is unable to accurately determine ownership of requested documents. To see the layout of the screen with message, Exhibit 2.3.35-10

(5) Last screen is **Amended/Corrected Documents**, which means that there are amended and corrected documents present. To see the layout of the screen with message, Exhibit 2.3.35-11.

(6) Entering the enter key without modifying the command line will display the individual document screen(s) of the request.

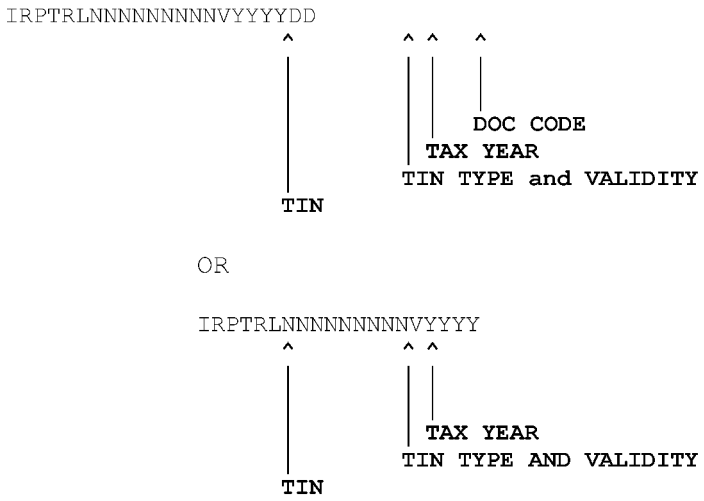

**Figure 2.3.35-1**

| | |
|---|---|
| **TIN** | Entry must be 9 numeric and unedited (no hyphens) for either an SSN or an EIN. TIN cannot be 000000000 or 999999999. |
| **TIN TYPE and VALIDITY** | Entry must be 0, 1, 2 or 3 to respectively specify Valid SSN, Invalid SSN, all SSN, or EIN extraction of Information Returns Documents for the TIN. |
| **TAX YEAR** | Entry must be a valid Tax Year that is available on the Information Returns On-line Master File. IRM 2.3.35.4 for valid Tax Years. |
| **DOC CODE** | Entry must be within the range specified by Exhibit 2.3.35-4. Since all specific DOC CODE's are not present for all years, this field is also checked for consistency against the YEAR DIGITS field and if the DOC CODE is not available for the specified Tax Year both the DOC CODE and the TAX YEAR fields are flagged. |

**Payee online Transcript Overview**

(1) Depending on the request, an Overview screen could be displayed. The command string must have DOC CODE equal to 00 (all types) along with other valid fields and when there are 5 or more documents available based on the Payee TIN.

(2) To see the layout of the Document Overview screen, Exhibit 2.3.35-12

(3) The screen provides a preview the number of pages (document screens) are available for the requested Payee TIN (TOTAL PAGES), the number of pages available by DOC CODE, and provides an indication of the size of the dollar amount involved.

(4) Please note that the dollar figures supplied with each doc type are accumulated from various money types present within the individual documents of that type according to largest absolute (unsigned) value. This is in an attempt to display where most of the money is and is not meant to give accurate roll-up figures for any particular money type.

(5) With this overview screen, it will be possible for the user to make an informed choice on whether to continue with the request as it stands. The user also can restrict it to a single DOC CODE (changing '00' to specific document code), jump ahead to the SUMMARY SCREEN (using definer 'S'), bail out with or without the hardcopy option (using definer 'C'), or input a new request.

(2) If there are more than one page of documents, hitting 'enter' will display the next page (the default definer is 'N' for 'Next'). If it is a one page document, then hitting 'enter' will go to the summary screen.

(3) Changing the definer from 'N' to 'P' for 'Previous' without changing the rest of the command line will display the previous page. If the previous page is the first page of the command line request, the definer will default to 'N'. It is also possible to display a specific page by entering the desired page number in the page area of the command line and hitting 'enter'.

(4) To go directly to the summary screen, changing the definer to 'S' without changing the rest of the command line will display the screen.

(5) To request a hardcopy of the requested payee TIN, entering 'C' will display the Hardcopy Request screen and allow further input to request a copy of the page that had just been displayed

| **TIN** | Entry must be 9 numeric and unedited (no hyphens) for either an SSN or an EIN. TIN cannot be 000000000 or 999999999. |
| **TIN TYPE and VALIDITY** | Entry must be 0, 1, 2 or 3 to respectively specify Valid SSN, Invalid SSN, all SSN, or EIN extraction of Information Returns Documents for the TIN. |
| **TAX YEAR** | Entry must be a valid Tax Year that is available on the Information Returns online Master File. IRM 2.3.35.4 for valid Tax Years. |
| **DOC CODE** | Entry must be within the range specified by Exhibit 2.3.35-4. All specific DOC CODE's are not present for all years, this field is also checked for consistency against the YEAR DIGITS field and if the DOC CODE is not available for at least one of the specified Tax Year both the DOC CODE and the TAX YEAR fields are flagged. |
| **GO TO PAGE NUMBER** | Entry must be numeric field containing 4 bytes. Valid page numbers are 0000 to 9999. Entering 0000 means next page or previous page depending on the definer. Entering other number will cause the command code to jump to the specific page if it is within range. |

**Selected Documents Payer Summary (Definer 'I')**

(1) Command Code IRPTR definer 'I' is used to access Payee data using Payer TIN.

(2) This Command Code will return a summary of documents filed for paper and electronically by Payer and followed by specific fields selected from the Payee document. Only document codes 02(1042-S), 10(1099-K), 21(W-2), 32(W-2G), 65(1065 K-1), 66(1041 K-1), 67(1120s K-1), 71(1099-NEC), 86(1099-G), 91(1099-DIV), 92(1099-INT), 95(1099-MISC), 96(1099-OID), 97(1099-PATR) and 98(1099-R) are available from this system.

(3) Each IRPTR'I' Request will be validated per criteria outlined below, if a request is not valid, the Help Screen will be returned.

(4) IRPTR'I' returns a summary screen with the total number of documents (requested document code) filed via paper and/or electronic and a list of up to 36 DLNs.
Note 1: The DLN can be used in the search. Use **IRPTRI** on the command line to see Help Screen for more information.
Note 2: If fraudulent data is detected, the following message will be displayed on the bottom of the screen:
"=>CONSIDER SUBMISSION FALSIFIED AND DON'T USE TO VERIFY WAGES OR WITHHOLDING<="

**Payee online Hardcopy Transcript (Definer 'C')**

(1) After the user makes an online transcript request, the user can make a hardcopy request by changing the definer ( 'O', 'N', 'P' or 'S') to a 'C'.

(2) A hardcopy screen will appear and will ask for receiving office, unit office, mail stop and phone number. Please be accurate to ensure that the transcripts are routed timely.

(3) Do not change the command string or your request may not be processed.

(4) Upon successful request, a message "REQUEST COMPLETED" is displayed to the user.

(5) Please note that the hardcopy system does not provide sanitized transcripts.

(6) To see the layout of the screen, Exhibit 2.3.35-69

2.3.35.10.8
(05-03-2011)
**Payee online Sanitized Transcript (Definer 'W')**

(1) After the user makes an online transcript request, the user can make a sanitized document screen by changing the definer ('N' or 'P') to a 'W'.

(2) Sanitized document screens from the local printer are specially designed to be given to taxpayers.

(3) Users can use definer 'W' to get all documents in the sanitized mode.

(4) Due to disclosure rules, three documents (FinCEN CTR 112: Casino) — Document Code 61, (FinCEN 105 or 4790 also known as CMIR CTR) — Document Code 63 and (FinCEN 112 or 4789 also known as CTR) — Document Code 89 are not to be given to the taxpayers and will be suppressed.

(5) A message "Taxpayer's Copy" will be display online 24 to show that it is a sanitized screen and can be printed for the taxpayer via local printer.

2.3.35.10.9

**Nonfiler Summary (Definer 'J')**

(1) Command Code IRPTR Definer 'J' will present a Nonfiler(NF) summary screen for a given TIN, that displays both IMF and IRP case information by tax year. The fields that are available come directly from the Nonfiler inventory that is housed on the IBM mainframe at ECC-MTB . The information is passed to the IRPTR system and is updated periodically to capture any inventory updates that occur during the processing year.

(2) IRPTR'J' replaced the SUPOL Command Code.

(3) The benefits of IRPTR'J' over SUPOL are many - the most significant being that NF information will be available for all cases residing in the inventory, not just those selected for notices; and unlike SUPOL, IRPTR'J' will display any information updates that occur during the time the inventory is active.

(4) The number of fields displayed through the command code will be held at a minimum but the information presented will be enough to profile the nonfiler type and also determine any tax liabilities.

(5) Once the IRPTR'J' screen is reviewed, hitting enter will take the user to the first screen of the individual documents. NOTE: There will be no sole proprietorship documents among the individual documents that are displayed. In order to view the sole proprietorship documents, you will need to copy the TIN within IRPTR'J' screen and do a command code IRPTRO on the selected TIN.

(6) An error screen will be returned if there is no matching TIN in the nonfiler database.

**Payee online UNIQUE FORM IDENTIFIER (Definer 'U')**

(1) IRPTRU was created to search 1042-S documents of the IRMF using the UNIQUE FORM IDENTIFIER (UFI) field.

(2) The parameters for IRPTRU are TIN, document code, tax year, validation code of 4, and optional UFI values.

(3) The graphic and table below shows the validated fields UNIQUE FORM IDENTIFIER:

| For a 1042–S these are elements 21.1, 21.2, 22.1, 22.2, 23.1 and 23.2 | |
|---|---|
| General: | These items consist of a 10 position literal beginning position 2 or 29 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26 or 53. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (Meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1187.

Possible literal for a 1042–S are:

|---|---|
| For 1099-LS this is the element 17.2 | |
| General: | This item consist of a 10 position literal beginning in position 15 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (Meaning that some or all items may not be present in a given instance) |
| ***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1220.<br>Possible literal for 1099-LS : | |

|---|---|
| General: | These items consist of a 10 position literal beginning position 2, 29 or 56 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26, 53 or 80. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (Meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in SSA's publication MMREF-1.

**MONEY SECTION**

| For a 5498–SA or 5498–MSA these are elements 17.1, 18.1, 19.1, 20.1 and 21.1 | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (Meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1220.

Possible literal for a 5498–SA or 5498–MSA are:

For a SIIR these are elements 17.1, 17.2, 17.3, 18.1, 18.2, 18.3, 19.1, 19.2, 19.3, 20.1, 20.2, 20.3, 21.1, 21.2, 21.3, 22.1, 22.2, 23.1 and 23.2

| | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

Possible literal for a SIIR are:

For a SSSTIR these are elements 17.1, 18.1, 19.1, 20.1, 21.1, 22.1 and 23.1

| | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

Possible literal for a SSSTIR are:

| Literal | Meanings | Paper Form Reference |

|---|---|
| For 1099-SB this is the element 17.2 and 18.2 | |
| General: | This item consist of a 10 position literal beginning in position 15 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (Meaning that some or all items may not be present in a given instance) |

| | NOTE. The change of the money amount codes from 300-312 to 350-362 was done to avoid conflict in the meanings of codes 300-312 with Form 1099-K which uses the same codes as “payments”. On Form 1097-BTC, these meanings are “credits”, not “payments”. Form 1097-BTC documents for prior tax years that have been previously posted to the IRMF prior to cycle 06 in calendar year 2016 will continue to have 300-312. | |

**MONEY SECTION**

For a Fed Contractor this is element 17.1

| | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

Possible literal for a Fed Contractor is

**MONEY SECTION**

| For a K–1 1041 these are elements 20.1, 20.2, 21.1, 21.2, 22.1, 22.2 and 23.1 | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (Meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Line numbers, when they appear, refer to the lines on the paper forms. Equivalent magnetic media fields can be found in Publication 1438.

Possible literal for a K–1 1041 are:

**MONEY SECTION**

| For a 5498–ESA these are elements 17.1 and 18.1 | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1220.

**MONEY SECTION**

For a 1099–CAP these are elements 17.1, 18.1, 19.1 and 20.1

| | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1220.

Possible literal for a 1099–CAP are:

| Literal | Meanings | Paper Form Reference |

**MONEY SECTION**

| For a 1099–S these are elements 17.1 and 18.1 | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1220.

Possible literal for a 1099–S are:

**MONEY SECTION**

| For a SSA—1099 these are elements 17.1, 18.1, 19.1, 20.1, 21.1, 22.1, 23.1 and 17.2 | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

Possible literal for a SSA—1099 are:

**MONEY SECTION**

| For a FinCEN 112 or 4789 CTR these are elements 17.1 and 18.1 | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

Possible literal for a FinCEN 112 or 4789 CTR is:

| Literal | Meanings |
|---|---|
| CASHIN CT | Total cash in |
| CASHOUT CT | Total cash out |

For a 1099–DIV these are elements 17.1, 17.2, 18.1, 18.2, 19.1, 19.2, 20.1, 20.2, 21.1, 21.2, 22.1, 22.2 and 23.1

| | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 or 29 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26 or 53. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1220.

**MONEY SECTION**

| For a 1099–OID these are elements 17.1, 18.1, 19.1, 20.1, 21.1 and 22.1 | |
|---|---|
| General: | These items consist of a 10 position literal beginning in position 2 for each significant money type present followed by two periods and an edited leading zero suppressed up to 11 digit money amount. This amount is immediately preceded by a dollar sign and immediately followed by a plus or minus sign in position 26. Sufficient extra periods are introduced between the literal and the dollar sign to fill the available positions. These items appear one by one on successive lines as needed. (Meaning that some or all items may not be present in a given instance) |

***Note:*** In Paper Form Reference column, Box numbers, when they appear, refer to the boxes on the paper forms. Equivalent magnetic media fields can be found in Publication 1220.

In such cases the appropriate SUMMARY GROUP LITERAL will always appear just above the literal and be followed by the same accrual type taken from original documents only even if this latter accrual is 0. The intention here is to make it very clear when an accrual group is based on amended/corrected input |
| 6.3 thru 23.3<br>6.6 thru 23.6 | 30<br>70 | **CORRECTED/AMENDED LITERAL.** Appears to the right of any MONEY AMOUNT that is derived from Corrected and/or Amended Documents. |
