Program Scope and Objectives

- (1) **Overview:** Payer Master File (PMF) research is accomplished by use of the Command Code (CC) PMFOL (Payer Master File Online), which provides information from the PMF at the Enterprise Computing Center Martinsburg (ECC-MTB) to all other IDRS Users.
- (2) **Purpose:** Provide general information on PMFOL command, and instructions to IDRS users on how to request the different type of available PMF data.
- (3) **Audience:** LB&I, SB/SE, TE/GE, W&I.
- (4) **Policy Owner:** Chief Information Officer.
- (5) **Program Owner:** SB/SE Exam, Field & Campus Policy, BMF Document Matching.
- (6) **Primary Stakeholders:** Office of Servicewide Penalties and Examination Operations, Headquarters Examination, Field & Campus Policy, BMF Matching.
- (7) **Program Goals:** This IRM provides the fundamental information, knowledge, and instructions for IDRS users. By following these processes provided by this IRM, the users will be able to utilize PMFOL as a method for researching various PMF information.

2.3.53.1.1
(05-03-2023)
Background

- (1) The display of PMF information will depend on the PMFOL Request. There are three basic request types: Summary, Detail, and Backup Withholding. Civil penalty information is included in the Summary request.
- (2) Payer Master File (PMF) Accounts for TY2022 will not be available until May 2023.

2.3.53.2.6
(05-03-2023)
Valid Page Number

- (1) PAGE NUMBER (PN): Valid value is "01", "02", or "03" for Summary Screen request; "00" through "99" for Detail Page(s) Screen request.
- (2) PAGE NUMBER (PN) is optional when entering a request. It is applicable to Summary Screen request and Detail Page(s) Screen request only.
- (3) For Summary Screen request, PAGE NUMBER is entered (and displayed) after the TAX YEAR parameter. For Detail Page(s) Screen request, it is entered (and displayed) after the TRANSMITTAL CODE parameter.
- (4) Upon successful execution of a Summary Screen request, the page number in PMFOL command line will show the next available page number.
- (5) If multiple pages of Detail Page(s) Screen is available, the page number in PMFOL command line will show the next available page number.
- (6) User can over-type the displayed page number on command line to navigate to the desired page, or press the enter key for the next available page of screen data.

2.3.53.3
(05-03-2023)
Terminal Messages

- (1) When a PMFOL request is entered with improper format or invalid value, the PMFOL Help screen will be displayed as shown in Exhibit 2.3.53-1.
- (2) Sometimes a request for an account will result in the display of data for a different account because of TIN changes on BMF. For this type of response, the TIN Literal and formatted TIN in line 2 of Summary Screen and Backup Withholding Screen, as well as line 4 (and line 15, if applicable) of Detail Page(s) screen will appear in reverse video to call attention to the change.
 - a. PMF files are created with valid SSN's and valid BMF EIN's.
Note: Several years ago, valid EPMF accounts were also created. EPMF validated accounts are no longer established on PMF.
 - b. When BMF consolidates two EIN's with PMF linkage, a record will be sent to PMF to change the EIN to agree with the BMF EIN. If a request is made using the original EIN, the response screen will show the TIN

Literal and formatted BMF EIN in reverse video. The original EIN in line 1 of the command line will remain the same as entered.

- c. SSN accounts on PMF are validated with the DM-1; invalid accounts are not established on PMF.

- (3) When there is issue with PMF files or data, a PMFOL request will result in an Error Message being displayed. Error messages and their causes are shown in IRM 2.3.53.4.

2.3.53.4
(05-03-2023)
Error Messages

- (1) When PMF is not available at ECC-MTB for some reason, or the TIN entered is incorrect, an error message will be displayed on the PMFOL Access Response Screen, Exhibit 2.3.53-2. The following error messages may occur:
 - a. THE PAYER MASTER FILE IS NOT AVAILABLE NOW TRY LATER. When this message is received, notify your manager or support unit. When notified that PMF is available try again.
 - b. THERE IS NO ACCOUNT ON THE PAYER MASTER FILE FOR nn-nnnnnnn. This message indicates that a TIN Type of "2" for BMF was requested, but PMF does not have an account for the TIN input as BMF. The request could be made again with a TIN Type of "1" for IMF or check the TIN for a transcription error.
 - c. THERE IS NO ACCOUNT ON THE PAYER MASTER FILE FOR nnn-nnnnn. This message indicates that a TIN Type of "1" for IMF was requested, but PMF does not have an account for the TIN input as an SSN. The request could be made again with a TIN Type of "2" for BMF or check the TIN for a transcription error.
 - d. INCONSISTENT DATA ON THE PAYER MASTER FILE FOR nn-nnnnnnn. This message indicates that a TIN Type of "2" for BMF is on the PMF, but there is inconsistent data on PMF and the proper screen display can not be created. Inconsistent data could mean the PMF Entity has an indicator that the requested Tax Year data is available, but there are no Tax Year modules available. Prepare Form 5715, Systems Production Evaluation Report, and attach a print of the screen for the account with the above message. Route the Form 5715 through your manager to the National Office PMF developer.
 - e. INCONSISTENT DATA ON THE PAYER MASTER FILE FOR nnn-nnnnn. The message indicates that a TIN Type of "1" for IMF is on the PMF, but there is inconsistent data on the PMF and the proper screen display can not be created. Inconsistent data could mean the PMF Entity has an indicator that the requested Tax Year data is available, but there are no Tax Year modules available. Prepare Form 5715, Systems Production Evaluation Report, and attach a print of the screen for the account with the above message. Route the Form 5715 through your manager to the National Office PMF developer.

Note: If the "INCONSISTENT DATA ON THE PAYER MASTER FILE FOR..." response occurs for a number of PMFOL Requests, the manager should notify the National Office PMF developer immediately with TIN Type and TIN via a KISAM ticket. This response suggests that data on the Payer Master File has been corrupted.

- (2) When there are data issues with Payer Document for a request, an error message will be displayed on either Line 6 or 9 of the PMFOL Error Response Screen, Exhibit 2.3.53-3. The following error messages may occur:

- a. THERE ARE NO PAYER DOCUMENTS POSTED TO THE PMF FOR TYnnnn. The Tax Year requested is not present on PMF. The screen display will show the tax years that are available. Determine the Tax Year needed, enter the correct Tax Year, and re-input the request. PMF does not remove Entities from the file; therefore, the Tax Years available may be blank. This happens when the account has not filed a Form 1096 since 1996, or the Entity was established on PMF even though a Form 1096 was never filed.
 - b. THE DOCUMENT FILE FOR TYnnnn IS NOT AVAILABLE AT THIS TIME - TRY LATER. This message is similar to the error listed above.
 - c. THERE WERE NO BACKUP WITHHOLDING DOCUMENTS FOR THIS TIN. No Backup Withholding information is available in PMF for the requested TIN within current five tax years.
- (3) When there are data issues with Detail Page(s) Screen request, an error screen will be displayed on the Detail Page Error Response Screen, Exhibit 2.3.53-8. Correct the error and resubmit the request.

2.3.53.5
(05-03-2023)

Entity Data Displayed on Screen

- (1) Entity Data of PMF is copied from BMF or IMF at the beginning of each year when PMF is linked to BMF and IMF. The PMF Entity will also be updated weekly when the Entity on BMF or IMF is changed. If the PMF Entity data is not linked to BMF or IMF, it is the information from Form 1096 or other PMF transactions.
 - (2) Screen display of Entity Data is for **Summary Response Screen** and **Backup Withholding Response Screen** only, and it is the same for all tax years.
 - (3) If there are no tax modules available for the tax year requested, Entity Data will be displayed with appropriate message as shown in Exhibit 2.3.53-3 PMFOL Error Response Screen.
- Note:** Unavailable TAX MODULES for a request of Detail Page(s) Screen will result in the display of Entity Data with error message too.
- (4) Entity data fields are displayed across the line from Line 2 through Line 5. Some displayed fields do not have a literal preceding the information being displayed. The following subsections provide description of the displayed fields.

2.3.53.5.1
(05-03-2023)
Primary Name

- (1) This is the primary name of the taxpayer on the PMF Entity record.

2.3.53.5.2
(05-03-2023)
Taxpayer Identification Number (TIN)

- (1) This is the formatted TIN of the taxpayer filing Form 1096s; it can be an EIN or a SSN.
 - a. The formatted TIN will display in reverse video if BMF has made an EIN change due to merge or consolidation. In these cases, the formatted TIN on the display will be different from the requested TIN.
 - b. If the TIN Linked Tag (see IRM 2.3.53.5.3) is also displayed in reverse video, then the TIN that was validated as EPMF has now been validated as BMF. In these cases, the PMF data is now maintained under the BMF validated TIN. The TIN requested and the TIN on the BMF can be the same.

2.3.53.5.3
(05-03-2023)
TIN Linked Tag

- (1) All accounts are validated on BMF and established if the account matches a BMF EIN.
- (2) If the requested TIN on PMF matches a TIN on BMF or IMF, **"LINKED"** is displayed after the formatted TIN. If the Entity data on PMF is from Form 1096 or other PMF transactions, **"NOT LINKED"** is displayed after the formatted TIN.

2.3.53.5.4
(05-03-2023)
Second Name

- (1) This is the second name of the taxpayer on the PMF Entity record. The second name is created as follows:
 - a. For IMF accounts, the display is the second name of the IMF account.
 - b. For BMF accounts, the display is selected in the following priority:

Foreign Address, if present, or
Sort Name, if present, or
Continuation Primary Name, if present, or
In-Care-Of-Name, if present.

2.3.53.5.5
(05-03-2023)
Name Control

- (1) This is the name control on the PMF Entity record. In general, it is the first 4 characters of the Primary Name (see IRM 2.3.53.5.1).

2.3.53.5.6
(04-01-2004)
Years Filed

- (1) This identifies the Tax Years on PMF for which the taxpayer filed a Form 1096. The Tax Years are displayed in fixed positions in ascending order. If PMF does not have a Payer Document for any of the five valid tax years, it will be blank on the screen display.

2.3.53.5.7
(05-03-2023)
Street Address

- (1) This is the Street Address of the taxpayer on the PMF Entity record.

2.3.53.5.8
(05-03-2023)
Years Warned

- (1) When the taxpaying entity has been warned that it is filing Form 1096 late, an indicator is placed on PMF for the offending year and a notice is sent. The Tax Year displayed indicates the tax year for which the taxpayer was warned of the violation.
- (2) The Tax Years are displayed in fixed positions in ascending order.
- (3) If PMF does not have a Payer Document or has a Payer Document without warning indicator for any of the five valid tax years, the corresponding display on the screen will be blank.
- (4) For Backup Withholding request, the literal displayed on screen is changed from **"WARN"** to **"BK-W"**.

2.3.53.5.9
(05-03-2023)
City/State/ZIP Code

- (1) This is the City/State/Zip Code of the taxpayer on the PMF entity record.

2.3.53.5.10
(05-03-2023)
BOD

- (1) This is a two character field for Business Operating Division.

2.3.53.5.11
(05-03-2023)
Years Penalized

- (1) When the taxpaying entity has a proposed penalty, an indicator is placed on the PMF corresponding to the Tax Year for which a penalty was proposed.
- (2) The Tax Years are displayed in fixed positions in ascending order.
- (3) If PMF does not have a Payer Document or has a Payer Document without proposed penalty indicator for any of the five valid tax years, the corresponding display on the screen will be blank.

2.3.53.6
(05-03-2023)
Screen Display of Payer Document Data

- (1) This section is for Form 1096 data that is displayed in the Summary Screens for all Payer Documents. Displayed items in this section represent filing activities for the requested tax year. Information on the screen display includes Transmittals (Doc Code), number of payee documents, payee payment amounts, withholding amount, wavier indicator, Return Due Date as Extended (RDD as EXTND) and Civil Penalty data.

Note: See IRM 2.3.53.7 for Civil Penalty data information.

- (2) There are three pages of Summary Screen to display all available payer documents. See Exhibit 2.3.53-4, Exhibit 2.3.53-5, and Exhibit 2.3.53-6 for screen layouts.
- (3) The following Payer Document will be displayed in the Summary Screens in the order listed:
 - 1099-DIV - Form(s) 1096 filed to report and transmit Forms 1099-DIV, Dividends and Distributions.
 - 1099-INT - Form(s) 1096 filed to report and transmit Forms 1099-INT, Interest Income.
 - 1099-OID - Form(s) 1096 filed to report and transmit Forms 1099-OID, Original Issue Discount.
 - 1099-PATR - Form(s) 1096 filed to report and transmit Forms 1099-PATR, Taxable Distributions Received from Cooperatives.
 - 1099-MISC - Form(s) 1096 filed to report and transmit Forms 1099-MISC, Miscellaneous Information.
 - 1099-H - Form(s) 1096 filed to report and transmit Forms 1099-H, Health Coverage Tax Credit (HCTC) Advance Payments.

Note: 1099-H, transmittal code (Doc Code 90) for TY2022 and beyond.

 - W-2G - Form(s) 1096 filed to report and transmit Forms W-2G, Certain Gambling Winnings.
 - 1099-S - Form(s) 1096 filed to report and transmit Forms 1099-S, Proceeds from Real Estate Transactions.
 - 1099-B - Form(s) 1096 filed to report and transmit Forms 1099-B, Proceeds from Broker and Barter Exchange Transactions.
 - 1099-A - Form(s) 1096 filed to report and transmit Forms 1099-A, Acquisition or Abandonment of Secured Property.
 - 1098 - Form(s) 1096 filed to report and transmit Forms 1098, Mortgage Interest Statement.
 - 1099-G - Form(s) 1096 filed to report and transmit Forms 1099-G, Certain Government Payments.

- 5498 - Form(s) 1096 filed to report and transmit Forms 5498, IRA Contribution Information.
- W-2 - Form(s) W-3 filed to report and transmit Forms W-2, Wage and Tax Statement.

Note: The two asterisks after the W-2 Literal indicate that, unlike the 1099's, the only W-2 information posted to the Payer Master File are those accounts where the W-3 resulted in a proposed Civil Penalty being generated by PMF processing.

- 1099-C - Form(s) 1096 filed to Report and Transmit Forms 1099-C, Cancellation of Debt.
- 1099-SA - Form(s) 1096 filed to report and transmit Forms 1099-SA, Health savings account distributions.
- 5498-MSA - Form(s) 1096 filed to report and transmit Forms 5498-MSA, Archer MSA or Medicare+Choice MSA Information.
- 1099-LTC - Form(s) 1096 filed to report and transmit Forms 1099-LTC, Long-Term Care and Accelerated Death Benefits.
- 1098-T - Form(s) 1096 filed to report and transmit Forms 1098-T, Tuition Statement.
- 1098-E - Form(s) 1096 filed to report and transmit Forms 1098-E, Student Loan interest Statement.
- 1042-S - Form(s) 1042-T filed to report and transmit Forms 1042-S, Foreign Person's U.S. Source Income Subject to Withholding.

 - 1095-C - Form(s) 1094-C filed to report and transmit Forms 1095-C, Employer-Provided Health Insurance Offer and Coverage.
 - 1099-QA - Form(s) 1096 filed to report and transmit Forms 1099-QA, Distributions from ABLE Accounts.
 - 5498-QA - Form(s) 1096 filed to report and transmit Forms 5498-QA, ABLE Account Contribution Information.
 - 1099-SB - Form(s) 1096 filed to report and transmit Forms 1099-SB, Seller's Investment in Life Insurance Contract.
 - 1098-F - Form(s) 1096 filed to report and transmit Forms 1098-F, Fines, Penalties and Other Amounts.
- (4) For each Form 1096 transmittal, the following information are displayed on the summary screen:
- a. Transmittals. This is a fixed literal containing abbreviated Document Name and the Doc Code. It identifies the documents filed in a 1096 transmittal.
 - b. Documents. This is the number of 1099's that were transmitted by a 1096. Display of this count is edited with commas for thousands. If the accumulated count is larger than the display field, it will be displayed as all asterisks. If the taxpayer is not filing this form it will be displayed with two right justified zeros.
 - c. Payments. This is the total payment for all the payees that received this form. The amount is dollars only, with the cents positions dropped. The display is edited with commas for thousands. If the accumulated amount is larger than the display field, it will be displayed as all asterisks. If the taxpayer is not filing this form it will be displayed with two right justified zeros.
 - d. Withheld. This is the total withheld amount for all the payees that received this form. The amount is dollars only, with the cents positions dropped. The display is edited with commas for thousands. If the accumulated amount is larger than the display field, it will be displayed as all asterisks. If the taxpayer is not filing this form it will be displayed with two right justified zeros.
 - e. Waiver. This field is either an "Y" for "Yes" if the taxpayer has received a waiver to file paper documents instead of electronic media; or an "N" for "No" if the taxpayer has not received such waiver.
 - f. RDD (Return Due Date) as EXTND (Extended). This is the Return Due Date for filing Form 1096 or the Extended Due Date if an extension was granted. The date is displayed as MM/DD. The year would be the same as the RDD year which is the year following the tax year.
 - g. Total. The total line contains totals for each column of amounts across all three pages of the Summary Screens. The total amounts are edited with commas for thousands. If the accumulated total amount is larger than the display field, it will be displayed as all asterisks. If the total amount for a column is zero, it will be displayed with two right justified zeros.

Note: Amounts on the total line are the same on all three pages of the Summary Screen.

(05-03-2023)
**Screen Display of Civil
Penalty Data**

- (1) Civil Penalty Data will be displayed if applicable for the requested Tax Year.
- (2) Penalty information is displayed after the "RDD as EXTND " column on the Summary Screens.
- (3) The following gross Civil Penalty Data will be displayed for each document code:
 - a. ELF PEN (Electronic File Penalty). This penalty is for failure to file on Electronic media when the taxpayer had 250 or more paper Forms 1099. The amount displayed is not edited with commas for thousands. If PMF does not have a penalty for this form, the amount will be displayed with two right justified zeros. If the amount is larger than the display field, it will be displayed as all asterisks.
 - b. LATE PEN (Late Filing Penalty). This penalty is for failure to file Form 1096 by the Due Date or Extension date. The amount displayed is not edited with commas for thousands. If PMF does not have a penalty for this form, the amount will be displayed with two right justified zeros. If the amount is larger than the display field, it will be displayed as all asterisks.
 - c. TIN PEN (TIN Penalty). This penalty is for failure to provide valid payee TIN. The amount displayed is not edited with commas for thousands. If PMF does not have a penalty for this form, the amount will be displayed with two right justified zeros. If the amount is larger than the display field, it will be displayed as all asterisks.
 - d. TOTAL (Penalty Amount). This is the sum of each column of penalty amounts across all three pages of the Summary Screen on the total line. The total amounts are not edited with commas for thousands. If the total amount for a column is zero, it will be displayed with two right justified zeros. If the accumulated total amount is larger than the display field, it will be displayed as all asterisks.

Note: Amounts on the total line are the same on all three pages of the Summary Screen.

- e. CIV PEN PROPOSED (Civil Penalty Proposed). This amount is calculated within PMF based on all filed Form 1096s from a tax payer for a given tax year, and it is available in PMF only. This display is on the last line of pages 1 and 2 of the Summary Screen, and in line 22 of page 3 of the Summary Screen. If applicable, the displayed amount is edited with commas for thousands. If the amount is larger than the display field, it will be displayed as all asterisks. If there is no proposed penalty, the amount will be displayed with two right justified zeros.
- (4) The following civil penalty related information is displayed in page three of the Summary Screen (see Exhibit 2.3.53-6):
 - a. PENALTY REFERENCE CODE. The following table shows the displayed penalty code and its corresponding literal:

Penalty Code	Penalty Literal
500	LATE
501	ELF
502	TIN
504	ELF-LATE
505	TIN-LATE
507	TIN-ELF
510	TIN-ELF-LATE
Blanks	FED-NON-FILER
N/A	Blanks

- b. **PENALTY INFO.** This line displays up to four penalty information literals based on indicators in PMF Entity file and PMF Civil Penalties file. If applicable, these literals are displayed in priority order as follows:“- FEDERAL”, “- QUASI GOV”, “- FORCED FED”, “- INT DSRGRD”, “- COMM DRCTV”, “- CSTR SURPD”, “- FOREIGN”, “- MAILED”, “- DISASTER”, and “- NOT MAILED”.
- c. **CIVIL PENALTY GROSS.** If applicable, the displayed amount is edited with commas for thousands. If the amount is larger than the display field, it will be displayed as all asterisks. If there is no gross penalty, the amount will be displayed with two right justified zeros.
- d. **CIVIL PENALTY PROPOSED.** If applicable, the displayed amount is edited with commas for thousands. If the amount is larger than the display field, it will be displayed as all asterisks. If there is no proposed penalty, the amount will be displayed with two right justified zeros.
- e. **NAICS.** This display may be blank or contain all zeros.

Screen Display of Individual Form 1096

- (1) User can request individual Form 1096 transmittal or all Form 1096 transmittals from a taxpayer for a given tax year. Up to two Form 1096 transmittals will be displayed on one screen if the request is for all transmittals.
- (2) If multiple pages of Detail Page(s) Screen is available, total number of available pages is displayed in the last line of the screen. The PMFOL command line will show the next available page number. By pressing the enter key, the next page of screen will be displayed with page number increased by one on the command line. User has the option to change the page number on command line within range of total available pages to directly access the desired screen page.
- (3) Description of the individual display fields is detailed in the table under the Detail Page(s) Response Screen (see Exhibit 2.3.53-7).
- (4) If the Transmittal Code or Page Number is not valid in line 1 of the request, a Detail Page Error Message Response Screen will be displayed as shown in Exhibit 2.3.53-8. Follow the instruction to correct the error.
- (5) If there is an issue with PMF, or the TIN and/or Tax Year entered in command line of the request, one of the following error screens will be displayed:

- a. PMFOL Access Response Screen (Exhibit 2.3.53-2).
- b. PMFOL Error Response Screen (Exhibit 2.3.53-3).

See IRM 2.3.53.4. for details.
