C&E does not mathematically verify or check the validity of returns and documents being processed unless otherwise specified.
- (2) Error Resolution (ERS) resolves validity, field and consistency errors on returns and documents using computer printed paper Error Registers. ERS uses the paper Error Registers and the return to correct error conditions and uses Integrated Data Retrieval System (IDRS) to research.

3.11.180.1.2  
(01-01-2022)  
**Authority**

- (1) Authority for these procedures is found in IRC 6721, Failure to file correct information returns, as required by IRC 6053 and corresponding Treasury regulations.

3.11.180.2  
(01-01-2025)

**General Information**

- (1) An employer who operates a large food or beverage establishment is required to file Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, to report information concerning receipts from food, beverages and tips reported by employees. See Exhibit 3.11.180-1, Form 8027, Transcription Lines, for an example of Form 8027. This is an annual return.

**Exception:** Employers participating in a Gaming Industry Tip Compliance Agreement (GITCA) and who follow the terms of that Agreement may submit the Form 8027 information in an alternate form deemed accept-

able by the Service. The GITCA program is administered under Rev. Proc. 2007-32, published in Internal Revenue Bulletin (IRB) 2007-22 and Rev. Proc. 2020-47, published in IRB 2020-48.

- (2) Paper Form 8027 returns must be filed by the last day of February of the year following the calendar year for which the return is filed. If the due date of the return falls on a Saturday, Sunday or legal holiday, the return is considered timely if filed by the next business day.
- (3) Electronically filed Form 8027 is due by March 31 of the year following the calendar year for which the return is filed. If the due date of the return falls on a Saturday, Sunday or legal holiday, the return is considered timely if filed by the next business day.
- (4) Employers must file Form 8027 for each of their large food or beverage establishments. A large food or beverage establishment is a food or beverage operation:
  - That is found in the 50 states or the District of Columbia,
  - Where tipping of food or beverage employees by customers is customary and,
  - Whose employer normally employed more than 10 employees on a typical business day during the preceding calendar year.
- (5) An employer should complete and file paper Form 8027-T, Transmittal of Employer's Annual Information Return of Tip Income and Allocated Tips, if it is required to file a Form 8027 for more than one establishment when filing paper Form 8027. See Exhibit 3.11.180-2 for an example of Form 8027-T.
- (6) If an employer is required to file 10 or more information returns, then they must file Forms 8027 electronically. The 10-or-more requirement applies in the aggregate to certain information returns. Accordingly, a filer may be required to file fewer than 10 Forms 8027, but still have an electronic filing obligation based on other kinds of information returns filed. The electronic filing requirement does not apply if the taxpayer received a hardship waiver. See Pub 1239 , Specifications for Electronic Filing of Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips.

**Note:** For tax year 2022 and prior, if employers were required to file 250 or more information returns, then Form 8027 must be filed electronically.

**IRM Deviation  
Procedures**

3.11.180.2.2  
(01-01-2025)  
**Taxpayer Advocate  
Service (TAS)**

- (1) The Taxpayer Advocate Service is an **Independent** organization within the Internal Revenue Service (IRS), led by the National Taxpayer Advocate, that helps taxpayers and protects taxpayer rights. TAS offers free help to taxpayers when a tax problem is causing a financial difficulty, when they've tried and been unable to resolve their issue with the IRS, or when they believe an IRS system, process, or procedure just isn't working as it should. TAS strives to ensure that every taxpayer is treated fairly and knows and understands their rights under the Taxpayer Bill of Rights. TAS has at least one taxpayer advocate office located in every state, the District of Columbia, and Puerto Rico.
- (2) TAS uses Form 12412, Operations Assistance Request (OAR), to start the OAR process of referring a case to the Taxpayer Services (TS) Division, to affect the resolution of the taxpayer's problem. For more information, refer to IRM 13.1.19, Taxpayer Advocate Service, Taxpayer Advocate Case Procedures, Advocating With Operations Assistance Requests (OARs).
- (3) Refer taxpayers to TAS when the contact meets TAS criteria (see IRM 13.1.7, Taxpayer Advocate Service (TAS) Case Criteria), or when Form 911, Request for Taxpayer Advocate Service Assistance (and Application for Taxpayer Assistance Order), is attached and steps can't be taken to resolve the taxpayer's issue the same day. See IRM 21.1.3.18, Taxpayer Advocate Service (TAS) Guidelines.
- (4) The definition of "same day resolution" is within 24 hours. The following two situations meet the definition of "same day resolution":
  - The issue can be resolved within 24 hours.
  - The IRS takes steps within 24 hours to resolve the taxpayer's issue.
- (5) When making a TAS referral, use Form 911, and route to TAS following your local procedures.
- (6) For more information, see IRM 13.1.7, Taxpayer Advocate Service (TAS) Case Criteria, and IRM 13.1.7.4 , Exceptions to Taxpayer Advocate Service Criteria, for information on cases that TAS will no longer accept.

3.11.180.2.2.1  
(01-01-2025)  
**Taxpayer Advocate  
Service (TAS) - Service  
Level Agreements  
(SLAs)**

- (1) The National Taxpayer Advocate reached agreements with the Commissioners or Chiefs of the Taxpayer Services (TS) Division, Small Business/Self Employed (SB/SE), Tax Exempt Government Entities (TEGE) Division, Criminal Investigation (CI), Independent Office of Appeals, and Large Business and International (LB&I) that outline the procedures and responsibilities for processing Taxpayer Advocate Service (TAS) casework when either the statutory or delegated authority to complete case transactions rests outside of TAS. These agreements are known as Service Level Agreements (SLAs).
- (2) The SLAs are found at <https://irs.gov.sharepoint.com/sites/TAS/SitePages/SLA.aspx>.

3.11.180.2.3  
(01-01-2024)

**Business Master File  
(BMF) Identity (ID) Theft**

- (1) BMF Identity (ID) Theft is increasing. If a case is found with attachments or correspondence showing the taxpayer is a victim of "ID Theft", give the entire case to the manager/lead.
- (2) The manager/lead will expedite the case to the Planning and Analysis (P&A) staff for referral to one of the Submission Processing (SP) BMF ID Theft liaisons. The taxpayer must show that they are a victim of "ID Theft"; do **not** send cases that are subject to Criminal Investigation (CI), Examination (Exam), or Fraud review.

3.11.180.2.4  
(01-01-2024)

**IRS Employee Contacts**

- (1) The Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 (RRA98), Section 3705(a), provides identification requirements for all IRS employees working tax-related matters.
- (2) All IRS employees who communicate by telephone, face-to-face, or any other method of correspondence with taxpayers or their personal representatives, on tax-related matters must provide (at minimum) the following information:
  - a. Telephone Contact - Their title (e.g., Mr., Mrs., Ms., Miss), last name, and badge identification (ID Card) number. Toll-free employees may also provide their location for identification purposes. Treat faxes to taxpayers on tax-related matters as correspondence and include the required information.
  - b. Face-to-Face Contact - Their title (e.g., Mr., Mrs., Ms., Miss), provided as appropriate during the conversation, their last name and badge identification (ID Card) number.
  - c. Correspondence (sent to the taxpayer and authorized representatives) - All correspondence must include a telephone number that taxpayers can call for answers to questions. In addition, manually generated correspondence must have the employee's title (e.g., Mr., Mrs., Ms., Miss), last name, Integrated Data Retrieval System (IDRS) number, and letter system number, which are systemically generated by IDRS. Treat faxes to taxpayers on tax-related matters as correspondence and include the required information.
  - d. Correspondence letters - Specific employee name and telephone number if the employee initiating the correspondence is in the best position to respond to any questions the taxpayer may have or if the taxpayer is being asked to provide more case-related information. If the taxpayer does not need to contact a specific employee, the correspondence needs only an IRS telephone number and standard signature.
- (3) When a taxpayer requests to speak with a specific employee who previously worked their inquiry or request, or complains about the level of service previously provided, make every attempt to resolve the taxpayer's inquiry. If unable to resolve the issue, refer the inquiry using established procedures to the manager.
- (4) Secretaries, receptionists, or other people who answer the telephone in functional offices need to identify themselves. They should provide their badge identification (ID Card) number only if they are answering telephones which are routinely used to give tax or account information.
- (5) It is not necessary to repeat the badge identification (ID Card) number on a subsequent contact, when the nature of an employee's work involves multiple

contacts with the same taxpayer and the employee has provided the taxpayer (either by telephone or in-person) their badge identification (ID Card) number on the first contact.

**Use of Fax for Taxpayer Submissions**

- (1) Taxpayers may send tax return information via fax as part of return perfection even when submitting a signature. In circumstances where contact with the taxpayer was made and documented, **faxed signatures are acceptable**.

**Caution:** If the employee does not have the delegated authority to accept a tax return, the employee cannot accept a return by fax.

- (2) Contact the taxpayer by telephone or correspondence. Follow local procedures to determine which method of contact to use.
- (3) Indicate the fax paragraph on the approved Correspondence Action Sheet to inform the taxpayer of the fax options.
- (4) Use the following resources to make sure you are speaking with the taxpayer or authorized representative before disclosing any tax information:
  - IRM 21.1.3.2.3, Required Taxpayer Authentication
  - IRM 21.1.3.2.4, Additional Taxpayer Authentication
- (5) Before leaving any messages on a taxpayer's answering machine, review:
  - IRM 10.5.1.6.7.2, Answering Machine or Voicemail
  - IRM 10.8.1, Information Technology (IT) Security, Policy and Guidance

3.11.180.2.6  
(01-01-2025)  
**Integrated Automation Technologies (IAT)**

- (1) Integrated Automation Technologies (IAT) provides tools to the IRS employees that simplify research, reduce keystrokes and increase the accuracy of regular work processes. When used with the IRS systems, it eliminates repetitive typing and assists in making precise decisions. IAT tools improve efficiency, productivity and quality by performing some functions automatically. Through more complex programming, they are designed to reduce fallout to other areas.
- (2) Managers will instruct employees that using IAT is **mandatory**. They will make sure all employees receive IAT training.

**Note:** Input penalties manually using Integrated Data Retrieval System (IDRS) when IAT is unavailable.

- (3) See the IAT website at *IAT Job Aids (sharepoint.com)* for a complete list of available tools and User Guides. Refer to the REQ54 tool, which is used to input the REQ54 adjustment, when assessing penalties on Form 8027.

3.11.180.2.7  
(01-01-2025)  
**Start-Up and End-of-Year Processing Information**

- (1) Start-Up Processing (for both paper and electronically filed returns) begins the last week of January, unless there are unforeseen issues (e.g., programming changes). If you experience a problem, please report the problem to the correct personnel (e.g., IRM Analyst, programmer, Help Desk, Planning and Analysis (P&A) Analyst).

- (2) End-of-Year Processing begins in December. Ogden Submission Processing Campus (OSPC) will implement End-of-Year procedures and prepare for the upcoming filing season.
- a. If you receive a Form 8027 (tax year 2024 and prior) after November 1st of the year Form 8027 is due, route the return (and attachments) to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information.

**Note:** Ensure NTRCP receives all Form 8027 returns filed in the current processing year.

- b. Information Technology (IT) will input a ticket to request start-up year processing and end-of-year processing to cancel Employee Master File (EMF) runs: EMF01W, EMF03, and EMF02W. See table below for more information on EMF runs.

**Employee Master File (EMF) Runs**

Employee Master File (EMF)	Description
EMF01	Runs weekly and validates paper and electronic Allocated Tips MagTape (ATM) data.
EMF02	Runs weekly and stores valid data on the database.
EMF03	Runs weekly and sends invalid data to error resolutions where it is fed back into the system after correction.
EMF82	Runs once a year and generates the penalty report used by the mini system.
EMF91	Runs once a year and is the purge program that converts the current year to the prior year.
EMF02A	Runs once a year immediately after EMF91.
EMF02S	Runs once a year before EMF82.

- c. If you receive an early filed (future tax year) Form 8027, hold the return until the next processing year.

**Note:** See IRM 3.11.180.3.1.2, Tax Year, for more information on tax year.

- d. All penalty cases should be input by November 27, 2025.

**Reminder:** After all penalty cases have been input, Planning & Analysis (P&A) should send the number of penalty cases to Headquarters Analyst (IRM 3.11.180 author).

3.11.180.2.8  
(01-05-2022)  
**Definitions**

- (1) **Allocated Tips** - Amounts employers that operate large food or beverage establishments must assign to employees who customarily receive tip income if the employees at the establishment do not report a minimum amount of tips. The minimum amount is 8 percent (or the lower rate granted by the IRS) of the establishment's gross receipts. The amount allocated to an individual employee generally depends on the amount of tips reported to the employer.
- (2) **Determination Letter** - A letter from the IRS granting a request for an allocation rate of less than 8 percent but not lower than 2 percent. A copy of this letter must be attached to the paper Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, if the allocation rate is less than 8 percent. If Form 8027 is filed electronically, a copy of the determination letter must be sent separately. See Publication 1239, Specifications for Electronic Filing Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips.
  - a. National Tip Reporting Compliance Program (NTRCP) is requesting a copy of any Determination Letter (DL) received in Submission Processing. Make a copy of the DL, notate the EIN (if not already shown) and route to:  
**Internal Revenue Service**  
**Attn. NTRCP**  
**110 City Parkway**  
**Las Vegas, NV 89106**
  - b. As of January 1996, on tip rate reduction requests where the IRS has approved a lower rate, Letter 8027B, Approving Specified Lower Rate Determination, is used. This letter provides the taxpayer the lower rate to enter on Line 6 of Form 8027. After December 1995, the IRS changed procedures as allowed under IRC Regulations 31.6053-3(h)(3), to determine the term for which the reduced percentage is to be effective.

**Note:** All determination letters are for a specific time period not to exceed three years. All open-ended determination letters have been rescinded (the taxpayer was mailed Letter 5575 through certified mail) and, if applicable, a new determination letter was issued.
- (3) **Employer** - The name and EIN of the employer listed on Form 8027 must be the same as those listed on Form W-2 (Wage and Tax Statement) and Form 941 (Employer's Quarterly Federal Tax Return) reporting wages and taxes for employees. Each employer should have a unique Employer Identification Number (EIN) as assigned by the IRS and set up on the Business Master File (BMF). If the employer uses a Certified Professional Employer Organization (CPEO), the name and EIN of the employer on the Form 8027 will not match the name and EIN on the Form 941. The CPEO name and EIN will be listed on the Form 941. The food and beverage employer should be listed on the Schedule R, Allocation Schedule for Aggregate Form 941 Filers, that is filed with the Form 941.
- (4) **Large Food or Beverage Establishment** - A food or beverage operation that provides food or beverage for consumption on the premises; where tipping is a customary practice; and where there are normally more than ten employees on a typical business day during the preceding calendar year.
- (5) **Establishment Number (EN)** - A unique five-digit number used to identify individual establishments that are being reported under the same Employer EIN.

Each establishment should have a separate number and complete a separate Form 8027. For example, each establishment could be numbered consecutively, starting with "00001". Once a number is assigned to an establishment, that same number should not be assigned to another establishment.

(6) **Type of Establishment** - Establishments are categorized as:

- An establishment that serves evening meals only (with or without alcoholic beverages).
- An establishment that serves evening meals and other meals (with or without alcoholic beverages).
- An establishment that serves only meals other than evening meals (with or without alcoholic beverages).
- An establishment that serves food, if at all, only as an incidental part of the business of serving alcoholic beverages.

(7) **Good-Faith Agreement (GFA)** - A written agreement between the employer and at least two-thirds of the tipped employees of each occupational category of employees who receive tips (e.g., servers, bussers, maitre d's) working in the establishment. The agreement must:

- a. Provide an allocation of the difference between total tips reported and 8 percent (or the lower rate) of gross receipts among tipped employees that approximates the actual distribution of tip income among the employees.
- b. Be effective the first day of a payroll period that begins after the date the agreement is adopted, but no later than January 1 of the next year.
- c. Be adopted when there are tipped employees in each occupational category who would be affected by the agreement.
- d. Allow for revocation by a written agreement adopted by at least two-thirds of the tipped employees in occupational categories affected by the agreement when it is revoked. The revocation is effective only at the beginning of a payroll period.

When the agreement is adopted providing a tip allocation among tipped employees, combined with the tips reported by such employees, it will reflect a good faith approximation of the actual distribution of tip income. A copy of the Good-Faith Agreement (GFA) is no longer required to be attached to the Form 8027 but a copy should be retained in the employer's records.

(8) **Employee Master File (EMF) Runs** - Information Technology (IT) programming runs that impact the processing of the Form 8027.

(9) **Number/Numeric** - When the line or field should be numeric and the entry is written out in alpha characters (e.g., thirty-one), edit/enter the numeric equivalent (e.g., 31), as needed.

3.11.180.2.9  
(01-01-2025)  
**Document Review**

- (1) Form 8027 may be received as a single submission for an establishment, or an employer may use Form 8027-T, Transmittal of Employer's Annual Information Return of Tip Income and Allocated Tips, to send multiple Form 8027 (when filing paper Form 8027).
- (2) Keep multiple Form 8027 submissions in Establishment Number order (if present). Arrange from the lowest to highest number. Breaks in the sequence numbers are allowed. Attach the Form 8027-T to the first Form 8027 in the set of multiples.

- (3) If a multiple Form 8027 submission must be split during batching, photocopy the Form 8027-T and attachments that are used for more than one establishment. Attach the copies to the next Form 8027 for that employer.

**Note:** After photocopying and attaching the Form 8027-T to Form 8027, never detach.

- (4) If two or more Form 8027 show the same employer, and no Form 8027-T is present, treat these as single submissions. Do not correspond.
- (5) Returns secured by Stakeholder Liaison may include an explanation for late filing. See IRM 3.11.180.3.1.3(13)(c), Penalty Assessment Consideration - Failure to File, for instructions on determining reasonable cause.
- (6) Verify the count shown in the Form 8027-T "Number of accompanying Forms 8027" box.
- a. If there are fewer Form 8027 than the number shown on Form 8027-T, correspond with the employer using Letter 1858C, Information Return of Tip Income (Form 8027) Incomplete for Processing. Include the paragraph that mentions the "Number of accompanying Forms 8027". See IRM 3.11.180.3.3, Correspondence Preparation, for more instructions.
  - b. Make sure there are no duplicate Forms 8027. Duplicates (exact copies) should be destroyed using the guidelines for classified waste.
  - c. Correct the count based on the number of original Form 8027 received and continue processing.
- (7) Original and amended returns may be in the same batch.
- (8) See Exhibit 3.11.180-7, Routing Guide for Attachments, for guidelines on attachments.
- (9) If a Form 8027 has a list of establishments attached, or if more than one establishment's data is present on one Form 8027, correspond with the employer to request a proper submission.
- a. Correspond using Letter 1858C, Information Return of Tip Income (Form 8027) Incomplete for Processing, and include the paragraph requesting a separate Form 8027 for each establishment. Without a separate form, the submission is considered unfiled and a Failure to File (FTF) penalty may apply. See IRM 3.11.180.3.3, Correspondence Preparation, for more instructions.
  - b. Place the Form 8027 in a suspense file and allow 45 days for a response.
  - c. If undeliverable or no response is received **after 45 days**, write "No Response - Separate Form 8027 Needed" in the upper left margin/side of the return. **Penalty Assessment** consideration - Incomplete Filing. The penalty for Failure to File must be assessed. See IRM 3.11.180.3.4, Background of Penalty Assessments. Continue processing.
- (10) If a Form 8027 has a foreign address for the **establishment** address, route to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information. Reporting is required only for establishments found in the 50 states and the District of Columbia.

**Caution:** If a foreign address is shown **only for the employer address**, the Form 8027 is processable.

- (11) Petitions to Reduce the Tip Rate and User Fee. If a petition to lower the tip rate is received:

- a. Immediately hand carry any remittance to your manager.
- b. Route the petition package and copies of Form 8027 (if included) to:  
**Internal Revenue Service**  
**National Tip Reporting Compliance**  
**3251 North Evergreen Drive NE**  
**Grand Rapids, MI 49525**

**Note:** Include a statement that shows the payment amount, method of payment (check or money order), and the date sent to your manager.

3.11.180.3  
(01-01-2016)  
**Code and Edit  
Instructions**

- (1) Complete Code and Edit procedures on the entire return to identify all items needing correspondence. The exception is "Not Liable" returns. See IRM 3.11.180.3.1.1, Special Return Code.
- a. A Form 8027 that is annotated as being not liable to file will be processed in abbreviated format. Line 1 through Line 7 (money fields) and Line 8 (number of directly tipped employees) will not be edited. Correspondence will not be initiated, and penalties will not apply.
  - b. A Form 8027 that appears to be both "Final" and "Not Liable", should be treated as "Not Liable". See IRM 3.11.180.3.1.1, Special Return Code.

3.11.180.3.1  
(01-01-2016)  
**Coding and Editing -  
Specific Field Action**

- (1) The required coding and editing actions for each field and line item are described in the following sections.

3.11.180.3.1.1  
(01-01-2023)  
**Special Return Code**

- (1) Edit an alpha "F" or "N" to the immediate left of the "Final Return" check box (as close to that area as possible), per the following:
- a. "F" - Final return (e.g., "Final Return" check box checked) **with** entries present on Line 1 through Line 8.
  - b. "N" - Final return **without** entries on Line 1 through Line 8 or "Not Liable" return **without** entries on Line 1 through Line 8.

**Caution:** "Not Liable" returns will be processed in an abbreviated format. Line 1 through Line 8 will not be edited. Correspondence will not be initiated, and penalties will not apply.

**Note:** A Form 8027 that appears to be both "Final" and "Not Liable", should be treated as "Not Liable".

- (2) Leave blank, if none of the above applies.

3.11.180.3.1.2  
(01-01-2025)  
**Tax Year**

- (1) For **processing year 2025**, only tax year **2024** Form 8027 and tax year **2023** Form 8027 will be processed.
- (2) Route **2022 and prior** Form 8027 to the following address; unless the form meets the criteria in IRM 3.11.180.2(14), General Information.  
**Internal Revenue Service**  
**Attn. NTRCP**  
**110 City Parkway**  
**Las Vegas, NV 89106**
- (3) Form 8027 is filed for a calendar year. If quarterly returns are received do not combine and create one calendar year return. Route quarterly returns to National Tip Reporting Compliance Program (NTRCP) for special handling.

**Note:** If there is indication that the establishment operated for less than a month in a calendar year, Route the return to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information.

- (4) **There is no need to edit the current tax year, since it is computer-generated.**
- (5) If Form 8027 is filed with an indication that the information is not for the year printed on the form, determine the tax year. If the information is for tax year 2023, circle the printed year and edit the two-digit year (23).

**Note:** A tax year **may** be edited in a four-digit format (YYYY) which defines the year in which the period ends. The Integrated Submission and Remittance Processing (ISRP) input screen is programmed to establish "20" as the century in the tax period field. Therefore, only the last two digits are required in the Code and Edit function.

- (6) If Form 8027 is filed for tax year 2023 and the information is on the correct form, underline the tax year.
- (7) If Form 8027 is an early filed (future tax year) return, check the return and attachments for the correct tax period. Correct any coding or transcription errors.
  - a. For non-final returns, if the tax period is more than three months but less than one year from the current date, correspond for confirmation of the tax year.
  - b. If the reply confirms a non-final early filed return, hold the return until the next processing year.
  - c. If the return is a "Final", hold the return until the next processing year.

3.11.180.3.1.3  
(01-01-2025)  
**Received Date**

- (1) The legal due date for paper Form 8027 is the last day of February of the year following the calendar year for which the return is filed. Electronically filed Form 8027 is due the last day of March of the year following the calendar year for which the return is filed.
- (2) A return is considered timely:

Requests for an additional extension of time to file information returns are not automatically granted. Generally, requests for additional time are granted only where it is shown that extenuating circumstances prevented filing by the date granted by the first request.</p>	The return is considered timely.
The return is received with an explanation that the return is late due to a failed attempt to file electronically,	The return is considered timely if postmarked or received by the extended due date.

**Note:** See IRM 3.11.180.3.1.1(1), Special Return Code, for instruction on “Not Liable” returns.

(3) Determine timeliness as follows:

(4) The date a document is received in the Campus or the proper IRS Office is the date stamped as the “IRS Received Date”.

(5) A received date is required on **all** Form 8027 returns.

(6) Returns that do not meet the requirements for timely filing, as shown in (2) above, are considered delinquent. Edit the received date to agree with the

#

legal or extended due date and the postmark date or shipment date is on or before the legal or extended due date.

(7) The IRS received date may or may not be stamped on the face of the return.

(8) A valid IRS Received Date Stamp may consist of the following:

- The word “Received”
- Month (alpha or numeric)
- Day (e.g., “1” or “01”)
- Year (four digits)
- “Area Office”, Campus, “Field Office”, “Taxpayer Assistance Center (TAC)” plus the city, location, or functional area within one of these sites (e.g., Compliance Services Collection Operations (CSCO), Examination (Exam), Image Control Team (ICT), Correspondence Imaging Inventory (CII), Accounts Management (AM)).

**Exception:** Not all IRS offices are designated places for filing, and not all IRS employees are authorized to accept a tax return for processing. If a return has a received date stamp from other than a Taxpayer Assistance Center (TAC), Lockbox, or the IRS campus (Compliance, Accounts Management, or Submission Processing (SP)), circle out the invalid received date and edit the correct received date according to instructions below. For example, returns received by the Taxpayer Advocate Service (TAS) or the IRS Office of Chief Counsel are not properly filed and a received date by that office is not the “IRS Received Date”.

(9) If the date stamp is not present or the date is illegible or invalid, edit the received date in MMDDYY format in the middle of the return.

**Note:** Integrated Submission and Remittance Processing (ISRP) transcribers enter six (6) numeric (MMDDYY) at initial input. When the ISRP transcriber hits the field release, it displays as eight (8) numeric (MMDDYYYY). ERS tax examiners must enter eight numerics.

(10) Edit the received date in MMDDYY format according to the following priority:

- a. The earliest legible postmark date (U.S. Postal Service (USPS) or Private Delivery Service) on the envelope. Rules for using the USPS postmark date or Private Delivery Service date are as follows:

**Received Date Criteria**

If	Then
An envelope is not attached,	Use the postmark date stamped on the face of the return. <b>Note:</b> When there are multiple returns in one envelope, the envelope is attached to one return and the postmark date is stamped on the other returns.
A document was returned for insufficient postage,	Use the postmark date that corresponds with the correct delivery of the return.
An envelope has both a USPS and private metered postmark,	Use the USPS postmark.

If	Then
An envelope has two private metered postmarks,	Use the latest private postmark.
An envelope has only one private metered postmark,	Use the private metered postmark.

- b. Service Center Automated Mail Processing System (SCAMPS) Digital Date.
- c. Revenue officer's signature date.
- d. Signature date, if within current year (unless other information shows signature date is invalid).
- e. Julian Control Date minus 10 days.
- f. Current date minus 10 days.

(11) Edit the received date as follows:

***Received Date Criteria***

If	And	Then
A timely received date is the only received date stamped on the return,		Take no action.
Two or more dates stamped on the return,		<ol style="list-style-type: none"> <li>1. Use the earliest IRS stamped received date.</li> <li>2. Circle out all other dates.</li> </ol>
A federal return is addressed to the IRS,	Delivered to a State agency,	Use the postmark date as the received date.
Federal return is addressed to a State agency,		Use the IRS date stamp as the received date.
The only received date on the return is a Taxpayer Advocate Service (TAS) or Chief Counsel received date,		Circle out the TAS or Chief Counsel received date and edit the received date according to instructions.

**Reminder:** If an envelope is attached to the return, check envelope for remittance. If remittance is found, hand carry to the manager.

- (12) If a return was faxed to another area of the Service and then sent to Submission for processing, do not enter the Enterprise Electronic Fax (EEFax) Date as the IRS Received Date. Enter a Received Date according to normal procedures.

**Caution:** The EEFax Date **cannot** legally be used as an IRS Received Date.

- (13) **Penalty Assessment Consideration - Failure to File.** before assessing the penalty for Failure to File:

- a. Check for an approved extension of time to file. See IRM 3.11.180.3.1.3.1, Form 8809, Application for Extension of Time to File Information Returns. If applicable, write "Filing Extension Granted" in the

upper left margin/side of the return (if not already present). Continue processing the return and **do not make a copy** of the return.

**Note:** By September 2025, Technical Services Operation (TSO) personnel will send OSPC an approved Extension Listing for paper filers and electronic filers. Check the listing for an approved extension before assessing a penalty for Failure to File (FTF).

- b. Check for a statement that explains the delinquent filing.
- c. If the taxpayer provides reasonable cause, write "Reasonable Cause Accepted" in the upper left margin/side of the return and continue processing. Do not make a copy of the return.

**Note:** See IRM 20.1.7, Penalty Handbook - Information Return Penalties, for information regarding penalties and reasonable cause.

- d. If a return is delinquent and (a) or (c) above does not apply, assess the penalty for Failure to File. See IRM 3.11.180.3.4, Background of Penalty Assessments.
- e. Write "**Late**" in the upper left margin/side of the return when assessing the penalty for Failure to File. Make a copy of the return (and the envelope, if attached) and place the copy in the proper area for penalty assessment. Continue processing the original return.

  - All "select" paragraphs that pertain to the missing information or the information in question
  - Period of time the taxpayer must respond (for example (e.g.), 30 days from the date of the letter), when applicable

**Faxing Information**

- (1) Filing of original returns via fax is permissible when contact with the employer was made and documented by the IRS. In these circumstances, fax signatures are acceptable for the original returns.
- (2) Contact with the employer may be by telephone or correspondence. Follow local procedures to determine which method of contact will be used.
- (3) Tax examiners will indicate the fax paragraph on the Letter 1858C Correspondence Action Sheet, to advise employers/establishments of the option to fax their response. See IRM 3.11.180.2.5, Use of Fax for Taxpayer Submissions, for more information.

3.11.180.3.4  
(01-01-2024)  
**Background of Penalty Assessments**

- (1) The Revenue Reconciliation Act of 1989 changed the penalty provisions (Internal Revenue Code (IRC) 6721-6724) for any documents, including corrections, which are filed after the original filing date for the return. The penalty for failure to file correct information returns is "time sensitive", in that prompt correction of failures to file, or furnish, or prompt correction of errors on returns that were filed, can lead to reduced penalties.
- (2) Treasury Regulations affecting all persons who may be subject to penalties for failure to follow the information reporting requirements under the Internal Revenue Code (IRC) are:
  - 301.6721-1, Failure to file correct information returns (IRC 6721 penalty)
  - 301.6722-1, Failure to furnish correct payee statement (IRC 6722 penalty)
  - 301.6723-1, Failure to follow other information reporting requirements (IRC 6723 penalty)
  - 301.6724-1, Reasonable Cause (applies to IRC 6721 and 6723 penalties)
- (3) The Trade Preferences Extension Act (TPEA) of 2015, Section 806, increased the tiered penalty amounts for IRC 6721. See Exhibit 3.11.180-10, Penalty Tables, for penalty rates and maximum amounts with inflationary adjustments.

- (4) Penalties can be waived if failures were due to reasonable cause and not to willful neglect. The abatement criteria for all information returns is reasonable cause (IRC 6724(a)).
- (5) Refer to IRM 20.1.7, Penalty Handbook - Information Return Penalties, for information regarding penalties and reasonable cause criteria.
- (6) See Publication 1239, Specifications for Electronic Filing of Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, for more information on penalties and electronic filing.
- (7) See Publication 1586, Reasonable Cause Regulations & Requirements for Missing and Incorrect Name/TINs on Information Returns (Including instructions for reading CD/DVDs).

3.11.180.3.4.1  
(01-01-2025)

#### Applicable Penalties

- (1) IRC 6721 provides for a penalty when an information return is not timely or correctly filed by the due date of the return. The penalty is assessed based on a time sensitive three-tiered rate structure and applies to:
  - a. Delinquent Returns,
  - b. Unprocessable returns,
  - c. Returns filed without all required or correct information (including missing, incorrect, and not currently issued taxpayer identification numbers (TINs)),
  - d. Paper filed returns when electronic media is required.
- (2) IRC 6723 provides for a penalty when a person fails to follow certain specified information reporting requirements, including the requirement to furnish a taxpayer TIN. The penalty may apply where the employer does not respond to correspondence requesting the necessary information.
- (3) **Intentional Disregard of Filing Requirements:**
  - a. Intentional disregard occurs when a filer who knows, or should know of a rule or regulation, chooses to ignore its requirements.
  - b. If any failure to file a correct information return is due to intentional disregard of the filing and correct information reporting requirements, the penalty is at least \$660, (not including inflationary adjustments) for returns due January 1, 2025 and after (\$630 for returns due between 01-01-2024 through 12-31-2024; \$580 for returns due between 01-01-2023 through 12-31-2023; \$570 for returns due between 01-01-2022 through 12-31-2022; \$560 for returns due between 01-01-2021 through 12-31-2021; \$550 for returns due between 01-01-2020 through 2020; \$540 for returns due between 01-01-2019 through 12-31-2019; \$530 for returns due between 01-01-2017 through 12-31-2018; \$520 for returns due between 01-01-2016 through 12-31-2016; \$250 for returns due between 01-01-2011 through 12-31-2015).
  - c. See Exhibit 3.11.180-10, Penalty Tables, for penalty rates and maximum amounts with inflationary adjustments.

**Note:** See IRM 20.1.7, Penalty Handbook - Information Return Penalties, for more information on Intentional Disregard criteria.

- (4) If an employer is required to file electronically but fails to do so and **does not** have an approved waiver (Form 8508, Application for a Waiver from Electronic Filing of Information Returns) on record, the employer may be subject to a

penalty. See IRM 3.11.180.3.4.2, Penalty Information - Form 8508, Application for a Waiver from Electronic Filing of Information Returns, for more information.

- (5) **No more than one penalty per return** (under the same penalty code section) can be imposed even if there is more than one failure on the same information return. However, where a return is filed with multiple failures and the penalty amounts differ, the higher penalty should be imposed.

- a. For example, only one penalty under IRC 6721 may be imposed on a return which is filed both late and incomplete.

#  
#

- (6) If an employer files multiple Form 8027 for different establishments and penalties are applicable, then assess the employer one penalty for the entire amount. Multiply the number of violations by the dollar amount associated with the penalty. See IRM 3.11.180.3.4.3, Assessing the Penalty,(10) "Caution" for more information.

**Example:** If the employer filed 3 Form 8027s and each one was subject to the same penalty, then multiply the penalty amount by 3.

- (7) If an electronic file was filed timely and is bad, the filer will have up to 60 days from the date the file was sent to transmit an acceptable file. If an acceptable file is not received within 60 days, then the taxpayer could be subject to late filing penalties. See the information below about electronic correction files and replacement files.
- a. A correction is an information return filed by the taxpayer to correct an information return that was previously filed and successfully processed by the IRS, but had erroneous information.
- Note:** Corrections should only be made to forms that have been filed incorrectly, not the entire file.
- b. A replacement is an information return file sent by the filer because the "CHECK FILE STATUS" option on the Filing Information Returns Electronically (FIRE) System shows the original/correction file had a bad status. After the necessary changes have been made, the file must be transmitted through the FIRE System.

**Note:** Filers cannot transmit a replacement file to the FIRE System unless the "CHECK FILE STATUS" option on the FIRE Production System shows that one or more files have a BAD status.

(01-01-2025)

**Penalty Information -  
Form 8508, Application  
for a Waiver from  
Electronic Filing of  
Information Returns**

- (1) Form 8508 is a Application for a Waiver from Electronic Filing of Information Returns.
- (2) If an employer is required to file 10 or more information returns, then they must file Forms 8027 electronically. The 10-or-more requirement applies in the aggregate to certain information returns. Accordingly, a filer may be required to file fewer than 10 Forms 8027, but still have an electronic filing obligation based on other kinds of information returns filed. The electronic filing requirement does not apply if the taxpayer received a hardship waiver. See Pub 1239 , Specifications for Electronic Filing of Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips.

- (3) If an employer is required to file electronically but fails to do so and does not have an approved waiver on record, the employer may be subject to a penalty.
- (4) If an employer is required to file original or corrected returns electronically, but the requirement creates an undue hardship, a waiver may be requested by filing Form 8508, Application for a Waiver from Electronic Filing of Information Returns, to the IRS.
- (5) Taxpayers should file Form 8508 with the IRS at least 45 days before the due date of the returns, but no later than the due date of the returns for which the waiver is being requested. The IRS does not process waiver requests until January 1st of the calendar year the returns are due.
- (6) Waivers are evaluated on a case-by-case basis and are approved or denied based on criteria set forth in Treasury Regulation Section 301.6011-2(c)(2). The taxpayer must allow a minimum of 30 days for the IRS to respond to a waiver request.
- (7) An approved waiver will provide exemption from electronic filing for the current tax year only and employers may not apply for a waiver for more than one tax year. A waiver does not provide exemption from filing. If a waiver is approved, the taxpayer must **timely file** Form 8027 on acceptable paper forms with the Ogden Submission Processing Campus (OSPC).
- (8) Route waiver requests to:
  - **Internal Revenue Service  
Attn. Extension of Time Coordinator  
240 Murall Drive, Mail Stop 4360  
Kearneysville, WV 25430.**
  - or Fax to **877-477-0572; 304-579-4105 (International)**
- (9) For more information on filing Form 8027 electronically, see Publication 1239, Specifications for Electronic Filing Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips.

#### Assessing the Penalty

- (1) Photocopy current processing year **2024** Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, Form 8027-T, Transmittal of Employer's Annual Information Return of Tip Income and Allocated Tips, (if the employer files for more than one establishment), and any other pertinent supporting documentation (e.g., copy of Form 8809 Application for Extension of Time to File Information Returns, envelope) if a penalty is being assessed. Use the photocopy for penalty processing. Continue normal processing of the original.

**Note:** If you are processing a delinquent prior year **2023** return, it is unnecessary to make a photocopy. The Failure to File penalty (when applicable) can be assessed as soon as the failure is found. Refer to the instructions below before assessing the penalty.

- (2) Photocopy the envelope if the Form 8027 is delinquent. Attach envelope to the photocopy of the return.

- (3) File photocopies of delinquent returns in EIN order. Determine if an approved extension was received by researching extension listings.
  - a. If EIN **is** present on extension lists, destroy photocopy.
  - b. If EIN **is not** present on extension lists, then impose Failure to File penalty.

**Note:** Refer to instructions below before assessing penalty.

- (4) Impose **no more than one penalty per return** even if there is more than one failure on the same information return. However, where a return is filed with multiple failures and the penalty amounts differ, impose the higher penalty.
  - a. For example, only one penalty may be imposed on a return which is filed both late and incomplete.

#  
#

- (5) **Before assessing the penalty:**
  - a. Check for Employment Code “F” (Federal) using Integrated Data Retrieval System (IDRS) Command Code (CC) ENMOD, BMFOLE or INOLES. If Employment Code “F” is present, **do not** assess the penalty. Continue processing the return.
  - b. Check the Civil Penalty Module (MFT 13). Using the Employer’s EIN, research IDRS CC TXMOD for previous assessments on the tax period you are processing. If a previous assessment was entered, a Transaction Code 240 and Penalty Reference Number (PRN) 537 or 638 will be present on the module.

**Note:** Impose no more than one penalty per return.

- (6) If assessing only the Failure to File penalty, then it cannot exceed the maximum annual amount, depending on when the return was received. Assess the penalty or the amount necessary to reach the annual limit, whichever is less. See Exhibit 3.11.180-10, Penalty Tables, for penalty rates and maximum amounts with inflationary adjustments.

**Note:** See IRM 3.11.180.3.4, Background of Penalty Assessments, for more information.

- (7) If a Form 8027-T accompanies a paper Form 8027, use the Employer’s EIN and data (if present on Form 8027-T) to assess the penalty for Failure to File. Compute the penalty for delinquent Forms 8027 by using the applicable penalty amount multiplied by the number entered in the Form 8027-T box labeled “Number of accompanying Forms 8027” (or per Form 8027) for that Employer’s EIN. See Exhibit 3.11.180-10, Penalty Tables, for penalty rates and maximum amounts with inflationary adjustments.
- (8) Use IAT to assess the Civil Penalty. See IRM 3.11.180.2.6, Integrated Automation Technologies (IAT), for more information.
- (9) If IAT is unavailable, use IDRS to assess the penalty manually on the Civil Penalty Module (MFT 13). Using the Employer’s EIN enter CC REQ54 to display the ADJ54 screen. See Figure 3.11.180-1, ADJ54 Screen Display for Penalty Example 1. On the ADJ54 screen, input the following fields:

1. Sequence Number (SEQ-NUM)
2. Blocking Series (BLK) 53
3. The IRS Received Date (IRS-RCVD-DT): Enter the Received Date from the Form 8027 in MMDDYYYY format

**Note:** Enter Override Code (OVERRIDE-CD) R when the IRS Received Date is more than one year old.

4. Case Control Category Code (CTRL-CAT) IRRQ
5. Transaction Code: TC 290, with a zero (.00) amount (AMT)
6. Hold Code (HOLD-CD) zero (0)
7. Penalty Reference Number (CD): Enter 537 for Intentional Disregard or 638 for Failure to File.

**Note:** The Penalty Reference Number (PRN) will generate a Transaction Code (TC) 240 along with the penalty amount that was assessed.

8. Amount (AMT): Enter the amount of the penalty (e.g., 1,650.00)

**Note:** Enter money amount in dollars and cents and decimal (.) between the dollars and cents. Enter the comma (when needed, as shown in 1,650.00). Do not enter a dollar sign. See Figure 3.11.180-2, ADJ54 Screen Display for Penalty Example 2.

9. SOURCE-DOC-ATTACHED: Enter "Y" (Y = Yes)
10. REMARKS: Enter 8027
11. REMARKS: Also enter "6721a - FTF" (if Failure to File) or "6721e - ID" (if Intentional Disregard), e.g., REMARKS: 8027 - 6721a - FTF

- (10) Refer to Exhibit 3.11.180-10, Penalty Tables, for penalty amounts.
- (11) Complete Form 9860, Adjustment Input Document/Case History Sheet, or print the IDRS ADJ54 "Request Completed" screen to create an IDRS source document.

If	Then
Using Form 9860, Adjustment Input Document/Case History Sheet,	<ol style="list-style-type: none"> <li>1. Attach Form 9860 to the photocopy Form 8027 (below the entity area).</li> <li>2. Complete the applicable fields on the Form 9860: <ul style="list-style-type: none"> <li>• Tax Examiner Number</li> <li>• Function: "210" if Code and Edit or "350" if Rejects</li> <li>• Program: 80310</li> <li>• The IRS Received Date (MMDDYYYY format)</li> <li>• MFT/Form Number: 13</li> <li>• Tax Period (TX/PRD)</li> <li>• Sequence Number (SEQ-NUM)</li> <li>• Blocking Series (BLK): 53</li> <li>• Transaction Code (T/C): 290</li> <li>• Amount (AMT) .00 (.zero zero)</li> <li>• Hold Code (HOLD-CD): 0</li> <li>• Credit Reference (Cr/ref no.): "537" if Intentional Disregard or "638" if Failure to File</li> <li>• Amount: Amount of the penalty  <b>Note:</b> Enter money amount in dollars and cents and decimal/period (.) between the dollars and cents. For example, REMARKS: SD: 8027 - 6721a - FTF.</li> </ul> </li> <li>3. Management approval is needed below the Remarks area or somewhere in white space</li> </ol>

- (12) Create an IDRS source document consisting of the photocopy of Form 8027-T or Form 8027, if no transmittal was filed.

**Caution:** If assessing penalties on multiple Form 8027 for the same EIN (same employer, different establishments), you **MUST** attach the Form 8027 together and use one Form 9860 for the penalty assessment.

- (13) If using the ADJ54 screen as the source document, staple the adjustment screen and the photocopy together. Keep batch in sequential order from **01-25**.
- (14) Forward the IDRS source document to Files.

**Note:** Refer to IRM 20.1.7, Penalty Handbook - Information Return Penalties, for specific procedures in regard to assessing penalties on Information Returns. Always use Penalty Reference Number (PRN) "537" if Intentional Disregard or PRN "638" if Failure to File, instead of numbers assigned to Information Return Processing (IRP).

(15) All penalty cases should be input by November 28, 2025.

**Note:** The number of penalties input needs to be tracked in order to assist with the requirement to forward penalty cases, IRM 3.11.180.2.7(2)d, Start-Up and End-of-Year Processing Information.

3.11.180.3.4.4  
(01-01-2024)

**Replies to Penalty  
Assessment Notices**

- (1) An employer may respond to a Computer Paragraph (CP) 215, Civil Penalty Notice, or request that a penalty assessment be forgiven (i.e., penalty abatement request). A valid taxpayer identification number (TIN) may be furnished or an explanation for filing late may be provided.
- (2) If the penalty was charged because the employer did not respond to a request for necessary information and the employer resubmits the returns, check to see if the returns are processable.
  - a. If the returns are processable, follow processing procedures.
  - b. Route CP 215, Civil Penalty Notice, response, correspondence related to a penalty assessment, or a penalty abatement request to Campus Compliance Collection Operation (CCCO). Indicate whether the return is "processable" or "not processable" based on the information received.

3.11.180.3.5  
(01-01-2022)

**Late Replies**

- (1) Late replies may be received in response to Letter 1858C, Information Return of Tip Income (Form 8027) Incomplete for Processing, **after** the 45-day suspense period has expired. Therefore, the late reply must be worked without the original document.
- (2) After the 45-day suspense period, the original return is pulled from the suspense file and, if processable, it is processed without complete information. See IRM 3.11.180.3.3(12), Correspondence Preparation.
- (3) Check the late reply for a completed Form 8027.
  - a. If a complete Form 8027 is attached, follow processing procedures.
  - b. If the original Form 8027 had sufficient information and was processed when purged from the suspense file, mark the "Amended Return" check box on the corrected Form 8027.
  - c. If no Form 8027 is attached but the letter has the requested information, recreate a Form 8027 and process.
  - d. If there is **insufficient** information to recreate a Form 8027, route to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information.
- (4) See IRM 3.11.180.3.4, Background of Penalty Assessments, for penalty information.

3.11.180.3.6  
(01-05-2022)  
**Unprocessable  
Documents**

- (1) Form 8027 is considered unprocessable when no further corrective course of action can take place in Submission Processing (SP) Code and Edit (C & E) or Error Resolution System (ERS).

**Caution:** Make sure all IRM procedures have been followed before identifying the document as unprocessable.

- (2) Perfect all documents, if possible. Examine attachments and Form 8027-T, if present, for the information necessary to make a return processable.
- (3) Initiate correspondence action when the document cannot be perfected from attachments or Form 8027-T.

**Exception:** Employer **and** establishment name **and** address are missing or are illegible that correspondence is impossible, or correspondence was sent on the same issue, but the document is still unprocessable.

- (4) If correspondence is impossible, follow guidelines for undeliverable or no response **after 45 days**. See IRM 3.11.180.3.3(12), Correspondence Preparation.
- (5) Route unprocessable documents to National Tip Reporting Compliance Program (NTRCP) for special handling to:  
**Internal Revenue Service**  
**Attn. NTRCP**  
**110 City Parkway**  
**Las Vegas, NV 89106**

3.11.180.4  
(01-01-2025)  
**Error Resolution**

- (1) The Service Center Replacement System (SCRS) is a term used to refer to the processing of paper register documents. While Error Resolution System (ERS) is worked on the computer with Integrated Data Retrieval System (IDRS), SCRS documents are corrected on a paper print, by hand, with a pen. The errors display on computer printed paper Error Registers. SCRS programs are few in number as programs continue to be moved to ERS each year; the few that remain are generally received in such small numbers that it is considered too expensive to move them to ERS. Despite the low amounts of receipts, these forms are just as important to process correctly as those on ERS.
- (2) See IRM 3.11.180.2, General Information, and IRM 3.11.180.3, Code and Edit Instructions, to become familiar with the Form 8027 and the procedures required to make sure the form is processable.
- (3) You are not expected to review or redo the work of a Code and Edit (C&E) tax examiner, **except in the resolution of an error of omission or commission which forced the return to the Error Register**.
- (4) If working a return that is not processable, and current date is **after October 31, 2025**:
  - a. Do **not** correspond. Since the information is purged from the database in January, any correspondence sent after October 31 would not provide time for the return to post before the purge.

- b. Route the return to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information.

3.11.180.4.1  
(01-01-2022)  
**Error Register**

- (1) Error reports for Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, are downloaded to Control D weekly. Error Resolution (ERS) uses the Control D reports listed below to print Error Register, resolve errors on Error Register and to identify output inventory.
  - **EMF 01-40** - Report Name "8027 ERROR LISTING" is the Error Register. It is printed from Control D and used by the ERS tax examiner to resolve errors on **paper and electronic** documents. See Exhibit 3.11.180-3, Form 8027 Error Register for an example of Error Register.
  - **EMF 01-41** - Report Name "FORM 8027 TAPE ERROR" is a transcript of the employers return of Tip Income. This report is used to assist ERS tax examiners in resolving errors on **electronic** source documents.
  - **EMF 01-43** - Report Name "EMF01T RUN CONTROLS" is used by ERS to identify the volume of Form 8027 that was output (see column (E)).
- (2) The paper register EMF 01-40 will only list errors. More than one field will print when one field of data is inconsistent with another field.
- (3) Use either Action Code 2, 6 or 7 for each correction. Corrections are subject to validity checks. If a correction does not pass these checks, the record will reappear on the Error Register Loop. See IRM 3.11.180.4.1.1, Action Codes.
- (4) Electronic source documents are found by the presence of a Transmitter Control Code (TCC) literal and a five-digit printed number. The source document for electronic returns is a computer-generated transcript EMF 01-41, which generates with the Error Register EMF 01-40. Use the EMF 01-41 to resolve errors on electronic source documents and make corrections to the EMF 01-40 Error Register.

**Note:** The computer generated transcript may not help resolve errors that are present. Correspondence may be needed. See IRM 3.11.180.4.3, Reject Register.

- (5) Identify paper source documents by the presence of a Document Locator Number (DLN) literal and the 14-digit number. The source document is the actual Form 8027.

3.11.180.4.1.1  
(01-01-2022)  
**Action Codes**

- (1) The following action codes are valid:

**Action Codes**

Action Code	Description
2	Delete the record from the Error Register and send the record to the Reject Register.

Action Code	Description
6	<p>Programming allows up to three corrections on the register. Change one or more data fields. It is not necessary to change every field on the register when one or more fields are inconsistent, (e.g., an error in gross receipts may cause several other items to be inconsistent). A correction to gross receipts will cause the other inconsistencies to be dropped. An error in the state/ZIP code fields may cause both fields to be inconsistent. A change to the incorrect field will cause the inconsistency check to be corrected.</p> <p><b>Note:</b> You can make up to three corrections on the register, so do not make just one correction and wait for it to loop to make the more corrections.</p>
7	<p>Indicate the data on the Error Register is to be accepted as is. Action Code 7 cannot be used to force an invalid character within a specific field (e.g., you cannot force bad data).</p> <p><b>Note:</b> You can force a "0" for Line 5 with Action Code 7 if the form shows "0".</p>

- (2) Only one Action Code must be entered on the Error Register to the left of the error sequence number to correct an error record.
- (3) The above applies to both paper and electronic documents.

3.11.180.4.1.2  
(01-01-2016)  
**Condition Codes**

- (1) There are two codes that may be used:
  - a. Condition Code "4" is entered when Lines 7a through 7c are blank and Line 7 is greater than zero. See IRM 3.11.180.3.1.19, Method of Allocation Boxes Lines 7a through 7c.
  - b. Condition Code "U" is entered when Line 8 is blank or zero. See IRM 3.11.180.3.1.20, Number of Directly Tipped Employees Line 8.
- (2) The above applies to both paper and electronic documents.

3.11.180.4.1.3  
(01-01-2022)  
**Error Reason Codes (ERCs)**

- (1) An Error Reason Code (ERC) will display to the left of an element number on the Error Register when a *consistency* error exists.
- (2) If no Error Reason Code is present, the element found on the Error Register is invalid (e.g., alpha in a money field). **Error Reason Codes:**

  - b. The return envelope, if attached to the submission.
  - c. If not found, use the EIN and perform IDRS **research** to perfect Employer City.

## 3.11.180.4.3

(02-18-2022)

**Reject Register**

- (1) Reject reports for Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, are downloaded to Control D weekly. Rejects uses the Control D reports listed below to print Reject Register, resolve errors on Reject Register and to identify output inventory.
  - **EMF 03-40** - Report Name "TIP INC 8027 REJ REG" is the Reject Register. It is printed from Control D and used by the Reject tax examiner to resolve errors on **paper and electronic source** documents. See Exhibit 3.11.180-4, Form 8027 Reject Register, for an example of Reject Register.
  - **EMF 03-41** - Report Name "FORM 8027 TAPE-REJ" is a transcript of the employers return of Tip Income. This report is used to assist Reject tax examiners in resolving errors on **electronic** source documents.
  - **EMF 03-42** - Report Name "EMF03 RUN CONTROLS" is used by Rejects to identify the volume of Form 8027 that was output (see column (D)).
- (2) Error Resolution will reject records from EMF 01-40 Error Register when errors cannot be resolved. This action will generate EMF 03-40 Reject Register. In some cases, you will need to correspond. In other cases, you will consider the return unprocessable.
- (3) If correspondence is needed, prepare a Correspondence Action Sheet (CAS) to issue Letter 1858C, Information Return of Tip Income (Form 8027) Incomplete for Processing.
- (4) Prepare the CAS, enter Action Code 2 on the register and route the return and the CAS to the Correspondence Team.
- (5) After the letter is issued, file the return in the Correspondence Team to await reply.
- (6) Allow 45 days for a reply.
- (7) When the Reject reply is received, the Correspondence Team will associate the reply with the return.

- (8) Follow guidance in IRM 3.11.180.3.3(9), Correspondence Preparation, to process Reject reply.
  - a. Electronic source documents are numbered with a Transmitter Control Code (TCC). Use the EMF 03-41 transcript to resolve Reject errors on electronic source documents.
  - b. If correspondence is issued on an electronic source document, use the Form 8027 transcript and taxpayer reply to prepare a “dummy” Form 8027 return. Route the **dummy** return and reply to National Tip Reporting Compliance Program (NTRCP) for special handling.  
**Internal Revenue Service**  
**Attn. NTRCP**  
**110 City Parkway**  
**Las Vegas, NV 89106**
- (9) If undeliverable or no response is received **after 45 days**, examine the return to determine if it is possible to force post the document. See IRM 3.11.180.3.3(10) and IRM 3.11.180.3.3(11) Correspondence Preparation.
- (10) If a document is unprocessable and cannot be perfected based on the information provided in the **No Reply Chart**, route it to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14), IRM 3.11.180.2(15), General Information, and IRM 3.11.180.4.5, Uncorrectable Unprocessable Documents.
- (11) Late replies may be received in response to Letter 1858C after the 45-day suspense period has expired. See IRM 3.11.180.3.5, Late Replies, for more information to process late replies.

3.11.180.4.4  
(01-01-2025)  
**Generated Unpostable  
Listing**

- (1) Unpostable reports for Form 8027, are downloaded to Control D weekly. Rejects uses the Control D reports listed below to print Unpostable Register, resolve errors on Unpostable Register and to identify the output inventory.
  - **EMF 02-40** - Report Name “EMF02 RUN CONTROLS” is used by Rejects to identify the volume of Unpostable records on Form 8027 that was output (see column (G)).
  - **EMF 02-41** - Report Name “FORM 8027 TAPE” is a transcript of the employers return of Tip Income. This report is used to assist Reject tax examiners in resolving errors on **electronic** source documents.
  - **EMF 02-42** - Report Name “TIP INCOME FORM 8027” is the Unpostable Register. It is printed from Control D and used by Reject tax examiners to resolve errors on **paper and electronic** documents. See Exhibit 3.11.180-5, Form 8027 Unpostable Register, for an example of Unpostable register.
- (2) The Unpostable listing EMF 02-42 is generated in the same format as the Reject Register EMF 03-40, except there is no error sequence number. The Unpostable Listing is titled, “Tip Income Form 8027 Unpostable Register”.
- (3) Unpostable listing EMF 02-42 will generate when a return tries to post but it matches a return on either the input file or posted file in the following fields:
  - EIN
  - Type of Establishment
  - Money amounts on Lines 4c and 5

- (4) A transcript EMF 02-41 will print for the posted record to compare data with the Unpostable return.
- If the transcript and the return have the same establishment name and tax year indicating the establishment filed twice, check the data on both returns. If the data is the same on both returns, annotate the listing as "Duplicate Processing".
  - If there are different establishment names shown on the transcript and the return, check data on both returns. If it appears that the filer simply split the money amounts between establishments, use Letter 1858C, Information Return of Tip Income (Form 8027) Incomplete for Processing, to correspond with the employer. Explain that this is not acceptable. Route the return and Unpostable reply to National Tip Reporting Compliance Program (NTRCP) for special handling.  
**Internal Revenue Service**  
**Attn. NTRCP**  
**110 City Parkway**  
**Las Vegas, NV 89106** If No Reply, or the employer does not comply, #
- Penalty Tables, for penalty rates and maximum amounts with inflationary adjustments. See IRM 3.11.180.3.4, Background of Penalty Assessments.
- If there are duplicates of Form 8027 on the Unpostable Listing and no transcript is printed, route to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information. Notate duplicate returns were filed and no transcript is available.
  - If there are multiple Unpostables for the same EIN and no EMF 02-41 transcripts are generated, check to see if the returns are being filed as "not liable" for different establishments. Since these will match on EIN, Type of Establishment, and money amounts on Line 4c and Line 5 (none), they will unpost even though they are not true duplicates. Route to National Tip Reporting Compliance Program (NTRCP) for special handling. See IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information. Notate that duplicate forms were filed with the same EIN. These documents will not post because they will be duplicates of the re-input return.
- (5) There is no difference between the paper and electronic Unpostable format. However, an electronic Unpostable will generate two EMF 02-41 transcripts - one for the previously posted record and one for the record attempting to post, in lieu of a paper Form 8027.
- (6) For electronic source documents, if an Unpostable listing EMF 02-42 is generated, it is possible that the electronic document was processed twice. Contact the Planning and Analysis (P&A) Staff to research if this situation occurs.

3.11.180.4.5  
 (01-01-2022)  
**Uncorrectable  
 Unprocessable  
 Documents**

- Examine the document to make sure there is no procedure to force processing without the required field data. See IRM 3.11.180.3.3(14), Correspondence Preparation, for guidelines on "No Replies".
- Route unprocessable document(s) to National Tip Reporting Compliance Program (NTRCP) for special handling if:

- a. The document is deemed unprocessable because the return cannot be perfected from attachments or Form 8027-T.
- b. No response was received from the employer or establishment, or corresponding is not possible due to incomplete address information.
- c. Guidelines provided in the **No Reply Chart** were followed.

**Note:** For special handling address procedures, see IRM 3.11.180.2(14) and IRM 3.11.180.2(15), General Information.

**Routing Guide for Attachments**

Review all attachments before considering the return processable.

Only detach attachments when instructed.

**Note:** Consider a return or attachment an “Original” if it has an original signature or was stamped “Process as Original”.

Edit action trail(s) (e.g., “L3267 DETACHED” or similar language) in the lower left margin going vertically up the side of the return.

**Exhibit 3.11.180-8 (01-01-2022)****State Code - ZIP Code Range - EIN Prefix**

Before 2001, the first two digits of an EIN (the EIN Prefix) show the business was found in a particular geographic area. In 2001, EIN assignment was centralized, although all campuses can assign an EIN if necessary.

As a result of the centralization effort, the EIN Prefix no longer has the same significance. The EIN Prefix now shows which campus assigned the EIN. Each campus has certain prefixes available for use, as well as prefixes that are solely for use by the online application and the Small Business Administration.
