 - Income received by the estate or trust.
 - Income that is either accumulated, held for future distribution, or is distributed currently to the beneficiaries.
 - Any applicable tax liability of the fiduciary.
- (8) Form 1041-QFT was added to the Internal Revenue Code by the Taxpayer Relief Act of 1997 to permit certain trusts which previously filed Form 1041 as Grantor Trusts to elect Qualified Funeral Trust status.
 - All **domestic** Form 1041-QFT are processed at the Kansas City Submission Processing Center (KCSPC) **only**.
 - All **foreign** Form 1041 returns (including 1041-QFT) are processed at the Ogden Submission Processing Campus (OSPC) **only**.

If...	Then...
Unnumbered Form 1041-QFT	Detach and forward to: <ul style="list-style-type: none"> • Non-Foreign: Department of Treasury Internal Revenue Service Kansas City, MO 64999 • If foreign Department of Treasury Internal Revenue Service Ogden, UT 84201

- (10) The Return Due Date for Forms 1041, 1041-QFT, and 1041-N is the fifteenth day of the fourth month after the Tax Period Ending (April 15 for calendar year returns).
- (11) This IRM cannot address every possibility that may arise while correcting Forms 1041. Taxpayer intent must be taken into consideration. In some cases,

it may be necessary to refer the issue to your Subject Matter Expert (SME), lead and/or manager to determine the proper corrective action.

- (12) Employees must be able to use sound judgement in some instances (i.e., when determining which Taxpayer Notice Code (TPNC) is the most appropriate to send, or determining when to correspond for clarification). If the judgement is made in the taxpayer's best interests and the reasoning is sound, no error should be charged.

3.12.14.1.1 (04-23-2024) Background

- (1) The purpose of Error Resolution is to resolve validity errors, field errors, consistency errors, and math errors in returns and other documents for posting to the Master File. Records fall out in ERS due to the Generalized Mainline Framework (GMF). The entries from transcription are transferred to ERS fields.
- (2) The GMF programming causes record to fall out to the Error Resolution System (ERS) if they fail to meet certain criteria, including:
- Invalid characters in a field (i.e., numeric instead of alpha).
 - Invalid length of field (i.e., EIN with 8 digits instead of 9).
 - Invalid codes in field (Valid Action Codes, Audit Codes, etc., are programmed in GMF.)
 - Consistency errors - Any valid field used in any computation where the result is inconsistent with (or contradictory to) any other valid field.
 - Math errors - computer does math computation and it differs from the taxpayer's amount.
 - Invalid tax periods and eligibility for certain credits.
- (3) Employees use the ERS system and the return to correct these conditions and use IDRS (when necessary) to research.
- (4) While working assigned cases, SP employees may come across some that are blocked on IDRS and can be identified by an IDRS security violation message, "Unauthorized Access to This Account". Forward the return to your manager. Managers will notify the local Planning & Analysis Staff who will scan the case

#

requesting access to the account. Managers will retain the original case in a file awaiting access (can take up to 5 business days). Once notified access has been granted, the case can be worked following applicable procedures.

3.12.14.1.2 (01-01-2020) Authority

- (1) The Internal Revenue Code of 1986 or more commonly known as the Internal Revenue Code (IRC) is the authority for these procedures. Treasury/IRS rules and regulations interpret the law. The IRC has been amended by acts and public laws such as the following:

 - Health Care and Education Reconciliation Act
 - Patient Protection and Affordable Care Act (ACA)
 - Foreign Account Tax Compliance Act (FATCA)
 - Internal Revenue Service Restructuring and Reform Act of 1998 (RRA 98)

- Section 2006(a) of the Surface Transportation and Veterans Health Care Choice Improvement Act of 2015, Public Law (PL) 114-41, changed the return due dates for returns of partnerships, and C corporations.

Note: The above list may not be all inclusive of the various updates to the IRC.

◆**Taxpayer Advocate Service (TAS)**◆

- (1) The Taxpayer Advocate Service is an independent organization within the Internal Revenue Service (IRS), led by the National Taxpayer Advocate, that helps taxpayers and protects taxpayer rights. TAS offers free help to taxpayers when a tax problem is causing a financial difficulty, when they've tried and been unable to resolve their issue with the IRS, or when they believe an IRS system, process, or procedure just isn't working as it should. TAS strives to ensure that every taxpayer is treated fairly and knows and understands their rights under the Taxpayer Bill of Rights. TAS has at least one taxpayer advocate office located in every state, the District of Columbia, and Puerto Rico.
- (2) TAS uses Form 12412, Operations Assistance Request (OAR), to start the OAR process of referring a case to the Taxpayer Services (TS) Division, to affect the resolution of the taxpayer's problem. For more information, refer to IRM 13.1.19, Taxpayer Advocate Service, Taxpayer Advocate Case Procedures, Advocating with Operations Assistance Requests (OARs).
- (3) Refer taxpayers to TAS when the contact meets TAS criteria or when Form 911, Request for Taxpayer Advocate Service Assistance (and Application for Taxpayer Assistance Order), is attached and steps cannot be taken to resolve the taxpayer's issue the same day. See IRM 21.1.3.18 , Taxpayer Advocate Services (TAS) Guidelines.
- (4) The definition of “same day resolution” is within 24 hours. The following two situations meet the definition of “same day resolution”:
 - The issue can be resolved within 24 hours.
 - The IRS takes steps within 24 hours to resolve the taxpayer's issue.See IRM 13.1.7.6, Same Day Resolution by Operations.
- (5) When making a TAS referral, use Form 911, and forward to TAS following your local procedures.
- (6) For more information, see IRM 13.1.7, Taxpayer Advocate Service (TAS) Case Criteria, and IRM 13.1.7.4 , Exceptions to Taxpayer Advocate Service Criteria. for more information.

 2. Attach Form 4227 (or other appropriate routing slip) with the notation "ID THEFT".
 3. Provide the entire case to your senior/lead.

Your senior/lead will expedite the case to the P&A staff for referral to one of the SP BMF ID Theft liaisons. The taxpayer must indicate that they are a victim of "ID Theft"; do **not** send cases that are subject to "Criminal Investigation (CI)", "Examination (Exam)" or "Fraud" review.

◆IRS Employee
Contacts◆

- (1) The Internal Revenue Service Restructuring and Reform Act of 1998 (RRA98), 3705(a), provides identification requirements for all IRS employees working tax-related matters. IRS employees are required to give their name and unique identification number during taxpayer telephone, face to face, and written contact. In addition, a telephone number is required on all taxpayer correspondence. This will provide taxpayers with enough information to identify an IRS employee who has previously assisted with tax related matters.
- (2) All IRS employees who communicate by telephone, correspondence or face to face, with taxpayers or their personal representative, on tax-related matters are required to provide (at a minimum) the following information:
 - a. Telephone Contact - Their title (e.g., Mr., Mrs., Ms., Miss), last name and badge identification (ID Card) number.
 - b. Face to Face Contact - Their title (e.g., Mr., Mrs., Ms., Miss), provided as appropriate during the conversation, their last name and badge identification (ID Card) number.
 - c. Correspondence - All correspondence must include a telephone number where the taxpayer's question can be answered. In addition, manually generated and handwritten correspondence must have their title (e.g., Mr., Mrs., Ms., Miss), last name, and IDRS (Integrated Data Retrieval System) number, letter system number or their badge identification (ID Card) number.
 - d. The IDRS number and numbers for some other letter systems are automatically generated. If it is not generated or a handwritten note is prepared, the badge identification (ID Card) number must be used. Toll-free employees may also provide their location for identification purposes. Faxes to taxpayers on tax-related matters are considered manually generated correspondence and must include the required information.
 - e. Correspondence, whether sent directly to the taxpayer or to the taxpayer's personal representative, must contain the required information.
 - f. When a taxpayer requests to speak with a specific employee who previously handled their inquiry or request, or complains about the level of service previously provided, every attempt should be made to resolve the taxpayer's inquiry. If the issue cannot be resolved, the employee should refer the inquiry using established procedures to their manager.
 - g. Correspondence letters will require a specific employee name and telephone number only if the employee initiating the correspondence is in the best position to respond to any questions that the taxpayer may have about the correspondence, or the employee is asking the taxpayer to provide additional case-related information.
 - h. Otherwise, if the taxpayer does not need to contact a specific employee, the correspondence needs only an IRS telephone number and standard signature.
 - i. Secretaries, receptionists, or other people who answer the telephone in functional offices need to identify themselves and should provide their badge identification (ID Card) number only if they are answering telephones which are routinely used to provide tax or account information.
 - j. It is not necessary to repeat the badge identification (ID Card) number on a subsequent contact, when the nature of an employee's work involves multiple contacts with the same taxpayer, and the employee has given the taxpayer (either telephone or in-person) their badge identification (ID Card) number on the first contact.

Note: The Taxpayer Bill of Rights adopted by the IRS in June 2014 provides that taxpayers have the right to receive prompt, courteous and professional assistance in their dealings with the IRS. They are to be spoken to in a way that is easily understood and any correspondence from the IRS must be clear and understandable. They have the right to speak to a supervisor whenever quality service is not received.

Note: Quality Review reports many errors charged to ERS Tax Examiners are due to uncorrected transcription errors. Always verify transcription and editing for errors unless the error code specifically tells you to drop and transmit.

Exception: Electronically submitted returns can't have transcription errors

3.12.14.6.1.1 (01-18-2023) Perfecting Form 1041 and Error Screen Displays

- (1) Form 1041 Error Screen Displays shows the following data as part of the standard display heading:

- Document Locator Number (DLN)
- Employer Identification Number (EIN)
- Check Digits/Name Control (NC)
- Current processing date
- ERS Status Code

Note: Previously assigned Taxpayer Notice Codes are displayed in the upper right corner (beneath the header information).

- (2) Before making corrections to the Error Screen Displays, **ensure** that the DLN of the screen display matches the DLN of the document. If one field in the display heading is incorrect, correct as follows:

If...	Then...
DLN is incorrect	<ol style="list-style-type: none"> 1. Stop processing. 2. Give the block to your manager.
EIN is incorrect	<ol style="list-style-type: none"> 1. GTSEC 01. 2. Enter the correct data to Section 01. <p>Note: The original error condition should be displayed.</p>
Name Control is incorrect	<ol style="list-style-type: none"> 1. GTSEC 01. 2. Enter the correct data to Section 01. <p>Note: The original error condition should be displayed.</p>
Current Processing Date is incorrect	<ol style="list-style-type: none"> 1. Stop processing. 2. Give the block to your manager.

- (3) Returns may be in error due to a “mixed data situation”. This occurs when information from two taxpayers’ returns appears on the error record under one DLN or the DLN does **not** match the return on the screen display. If this occurs:

1. Stop processing.
2. Give the block to your manager to determine if the mixed data can be corrected via the terminal screen displays or will take action to have the blocks deleted and reinput.

- (4) Determine if taxpayer entries are on the appropriate lines of Form 1041.

- Correct all misplaced entries, coding errors and transcription errors in each section and field of the screen display.
- Follow specific instructions for each section and field.
- Make certain all sections and fields were transcribed.
- Check all fields leading to the field you’re working. Also, check Form 1041 for any schedules or attachments that the taxpayer may have used in arriving at the amount in the field before assigning a TPNC.

- (5) When making corrections to the Error Screen Display:

Note: Be sure money amounts within a section have been transcribed in dollars-only or in dollars and cents according to the requirements shown in the instructions for each section.

- (6) **Missing Signature** - A signature is required on most returns. If no signature is present:

- If a signature is **not** present in the Signature Section of Form 1041 (below Line 30), SSPND 225 and correspond. (If multiple issues SSPND 211).
- If no reply, follow “No Reply” procedures. See Exhibit 3.12.14-38, No Reply Procedures.
- For additional instructions for processing missing signatures, see IRM 3.11.14.27, Returns and Documents Analysis, Income Tax Returns for Estates and Trusts (Forms 1041, 1041-QFT, and 1041-N).

Exception: Do not correspond for a signature on “CII” returns with Form 13596 attached. Route reinput/reprocessable “CII” returns missing a signature to Accounts Management. IRM 3.12.14.6.2.1, Correspondence Imaging Inventory (CII) Returns.

- (7) **Error Inventory Listing** -This report is printed daily and lists each Block DLN in the Error Inventory. It is used to assign work to tax examiners, to associate documents with the error records and to release documents from previous days’ workload. Unworked records will remain on the list.
- (8) **Change of Address** -Tax Examiners may input Entity changes whenever clear and concise written notification is received from a taxpayer (i.e., a statement signed by the taxpayer informing the Service that the taxpayer wishes their address of record to be changed to a new address).
- If correspondence (including notices) sent by the Service is returned by the taxpayer with corrections marked on the taxpayer’s address information, the correspondence will constitute written notification of a change of address. The taxpayer’s signature on the correspondence is **not** required.
 - A return (including an amended return) filed by a taxpayer with new address information is written notification of a change of address. The proper processing of the return will update the taxpayer’s address of record.
 - Form 8822 (Change of Address) and Form 8822-B (Change of Address or Responsible Party) are also available for taxpayers to furnish a change of address to the Service.
- (9) **Cellulosic Biofuel Credit refund or CBR** - May be notated on the top of some 2009 tax year returns as an indicator of the Qualified Cellulosic Biofuel Credit refund. If Form 6478, Biofuel Producer Credit, has an amount on Line 5 and/or Line 7 (2010 version - Line 5 and/or Line 8, 2008 version - Line 5 and/or Line 9), the credit will roll up to Form 3800, General Business Credits, Line 29c. These returns should be coded in C&E with an Action Code 343, which will cause the returns to fall out in ERS/Rejects for a special review.

Caution: These instructions apply to **2009 tax year only**, including fiscal year filers (200901 through 201011)

 - Fields are displayed with no breaker. Negative values are indicated by a minus (-) sign following the amount.
 - Decimal points are displayed for dollars and cents.

Exception: The cents digits are **not** displayed for “dollars-only” fields. Two asterisks (**) are displayed in the cents position of the dollars-only field.

 - Leading zeroes in amount fields are suppressed and the significant digits are displayed beginning in the left position.
 - If more than one amount field of a record is to be shown, the fields are aligned beneath one another.
- (2) Corrections are entered starting with the left-most position of the field. Blank-out unused positions.
 - If fewer than the maximum number of positions is required, the program will automatically move to the right of the digits.
 - It is not necessary to enter the decimal point.
 - A minus sign **must** be entered last if the amount is negative.
- (3) Be careful not to enter more than the number of positions allowed for a particular field. If more data is entered, the overflow characters will display on the screen **but** are dropped when the field is added to the record. **This is especially important for the EIN, name, and address.**
- (4) Corrections can be made to a displayed field by overlaying only the digits in error and not reentering the entire field. It is not necessary to eliminate the decimal point when correcting in this manner.
- (5) If it is necessary to add a missing section:
 1. Transmit with Command Code GTSEC, followed by the desired Section Number.
 2. When the empty section format is displayed, enter the missing data in the proper fields and transmit with Command Code CRECT.
- (6) If it is necessary to see a field or section of the record other than that shown in the display:
 1. Enter Command Code GTSEC, followed by the desired Section Number.
 2. If a correction is **not** made to the section, drop to the bottom of the screen and transmit.
 3. Any error display **not** showing all fields necessary for resolution should be reported to the National Office.

Reminder: When correcting a screen display, move the cursor below the last field containing data before transmitting.
- (7) If it is necessary to delete a section of the record, enter Command Code DLSEC, followed by the desired Section Number.

- (8) If determined that additional information or research is necessary to resolve a Priority II, III, or IV Error (or if the error is rejected), enter the appropriate Action Code with either Command Code SSPND or RJECT.

Note: For additional information on Priority Errors, IRM 3.12.14.7, Types of Errors.

(01-18-2023)
Correspondence

- (1) Correspondence records with Action Code 21X will be automatically suspended for a predetermined number of days or until the taxpayer replies, whichever is earlier.

Note: Do **not** correspond for information on any return "SECURED BY EXAMINATION." If unprocessable, follow "**No Reply**" procedures.

- (2) ERS tax examiners issuing correspondence may perform **either** of the following:
- Command Code LETER.
 - Initiate correspondence by using the Form 3696, Correspondence Action Sheet, Form 3696-A, IDRS Correspondence Action Sheet or other locally approved Correspondence Action Sheet (CAS).

- (3) Most correspondence is either a computer-generated notice, a computer-generated letter or a pre-printed letter.

Note: All correspondence now reflects a response period within 30 days and the consequences for **no reply**.

- (4) If special notes or letters are developed, ensure that the following guidelines are used:
- All correspondence to taxpayers requesting information should indicate that a response is required.
 - Specify the length of time the taxpayer has to respond.
 - Include a statement about the action the IRS will take if the response is not received timely.
 - Be sure to include the following statement:
"When you reply, please send us your telephone number and the most convenient time for us to call so we may contact you if we need additional information".
 - Provide for a purge date at least 10 days after the date provided in the letter to the taxpayer.
 - Whenever possible, form letters should be used to correspond with taxpayers. If a CNOTE or QUICKNOTE is used, be sure that it clearly communicates the message in simple language and contains the required information.
 - When taxpayers make errors that cause delays, advise the taxpayer that they made the error and explain what the error was that caused the delay.
 - Before initiating manual correspondence on an account dealing with anything other than a recently filed return, check the Centralized Authorization File (CAF) to ensure that the information will be mailed to the taxpayer's representative (if one is on record).

(5) **Missing Signature** - A signature is required on most returns. If no signature is present:

- If a signature is **not** present in the Signature Section of Form 1041 (below Line 30), SSPND 225 and correspond. (If multiple issues SSPND 211).
- If no reply, follow “No Reply” procedures. See Exhibit 3.12.14-38, No Reply Procedures.
- For additional instructions for processing missing signatures, see IRM 3.11.14.27, Returns and Documents Analysis, Income Tax Returns for Estates and Trusts (Forms 1041, 1041-QFT, and 1041-N).

Exception: Do not correspond for a signature on “CII” returns with Form 13596 attached. Route reinput/reprocessable “CII” returns missing a signature to Accounts Management. IRM 3.12.14.6.2.1, Correspondence Imaging Inventory (CII) Returns.

3.12.14.6.2.1
(01-18-2023)

◆ **Correspondence
Imaging Inventory (CII)
Returns** ◆

- (1) Correspondence Imaging Inventory (CII) is an inventory system for scanning all Accounts Management (AM) receipts into digital images and working the cases from those images.
- (2) “CII” returns are identified with “CII Image. Do not correspond for Signature” stamped below the signature line or “CII” annotated on the front of the return.
- (3) Follow the instructions below for processing “CII” returns:

If...	And...	Then...
The CII return has a Form 13596, Reprocessing Returns attached,	The return is incomplete (e.g., missing signature, schedules or forms),	<ol style="list-style-type: none"> 1. Do not correspond. 2. Remove the return from the batch and SSPND 640 to have the DLN voided. 3. Attach Form 4227, Intra SC Reject or Routing Slip, (or other appropriate routing slip) to the return and route to AM, to secure missing information. 4. If the return comes back from AM with the information still incomplete, send the return to AM again to secure all the missing information. Indicate "Additional information needed to process incomplete CII return," or similar language on Form 4227 (or other appropriate routing slip).
The CII return has a Form 13596, Reprocessing Returns, attached and the return is incomplete (e.g., missing signature, schedules, or forms),	There is an indication on the return that correspondence has been sent (e.g., CCC 3 is edited on the return),	Do not route the return to AM. Continue processing the return.

If...	And...	Then...
The CII return does not have a Form 13596 attached,	The return is incomplete (e.g., missing signature, schedules or forms),	<p>Research for prior posting (TC 150 posted),</p> <ol style="list-style-type: none"> 1. If TC 150 is present and the information is the same, cancel the DLN and treat as classified waste. Classified waste is documentation containing taxpayer entity or account information that is not part of the case and is not needed for audit trail purposes. Refer to IRM 21.5.1, General Adjustments for guidance on handling classified waste to prevent inadvertent/unlawful destruction of records. 2. If TC 150 is not present, follow normal correspondence procedures.

3.12.14.6.3
(01-01-2024)
Action Codes

- (1) The ERS Action Codes (AC) are used to indicate whether correspondence, research or some other action is necessary. These codes reject or suspend records, placing them in Suspense Inventory (either Workable or Unworkable) and identify the specific action taken. A listing of valid ERS Action Codes is available, see Exhibit 3.12.14-36, ERS Action Code.
- (2) **Action Code 001** occurs when the Block out of Balance (BOB) Resolution Function has added a missing document by only inputting the Taxpayer Identification Number (TIN) and the Name Control for the missing document. For procedures for determining and correcting Priority I Errors, IRM 3.12.14.7.2, Priority I Errors - Action Code/Unpostable Code Errors.

Exception: **AC 001** does not place the record in the Suspense Inventory.

- (3) Code & Edit assigns Action Codes to numbered returns if the document is unprocessable. This code is edited in the lower left margin of the return and the letters "AC" **may precede the code**. "AC" may be omitted at the option of the Campus.
- (4) Correspondence Action Sheets are used for initiating correspondence and are attached by the Tax Examiner suspending the document. The Action Codes and descriptions should be sufficient for routing these returns within the Campus.
 - If Code & Edit has **not** assigned an Action Code (or if Integrated Submission and Remittance Processing [ISRP] did not transcribe the AC), enter the AC on Form 1041 and on the Screen Display.
- (5) If the AC assigned by Code & Edit is invalid, incomplete, or is "001," the record is assigned to the Error Inventory for correction or deletion of the code.
- (6) Only one AC can be assigned to a record at one time. Assign Action Codes in the following **priority order**:
 - a. AC 310
 - b. AC 320
 - c. AC 4XX
 - d. AC 6XX
 - e. AC 3XX
 - f. AC 2XX

Note: If multiple conditions are present and one of them is an entity condition, enter AC 320 (Entity) as the primary code, **except** when AC 310 (Statute Control) is also needed. Action Code 310 will **always** have first priority.
- (7) If more than one Action Code of the same priority is required (i.e., 342 and 355), use the code with the shortest suspense period and attach Form 4227 to indicate the second unprocessable condition.
- (8) An ERS Tax Examiner may enter an Action Code on a record, correct or delete an invalid code or overlay the present AC with another to re-suspend or reject from ERS.
 - Enter a valid Action Code with a Command Code (CC) SSPND, RJECT, or NWDLN.
- (9) CC **SSPND** -When entered by an ERS Tax Examiner, SSPND clears the record from the screen and places it in either Workable or Unworkable Suspense.
- (10) CC **RJECT** -When entered by a Rejects Tax Examiner, RJECT rejects the record from ERS. Generally, Service Center Control File (SCCF) is automatically updated for the rejected record.
- (11) CC **NWDLN** -When entered by a Rejects Tax Examiner, NWDLN rejects the record from ERS and establish the new DLN under which the record is to be input.

(12) **Management Suspense** - Management may direct that certain documents be held for further processing instructions. Some reasons for such a suspension are:

- A computer program bug exists for a particular type of record.
- Master File programs are not yet available or are incorrect for a specific type of document.
- These documents will remain in the Unworkable Suspense Inventory until requested to be placed in the Workable Suspense Inventory (via the ERS Control File or until the Workable Suspense period expires, whichever comes first).

3.12.14.6.4
(01-01-2016)
Command Codes

- (1) The Command Codes needed for correcting the Error Inventory and the Workable Suspense Inventory are briefly described below. They are also explained in IRM 3.12.38, ERS, General Instructions. Any Command Code permitted by the Employees Security File is available.
- (2) Command Codes are used to tell the system which function to perform.
- (3) Command Codes **must** be entered in a valid format. Otherwise, a field error displays.
 - Correct the data entered using the applicable Command Code (CC).
- (4) **The valid Command Codes are:**

Command Code	Description
ACTON	To establish control bases, to update or close control bases that are open, to correct name controls on dummy accounts, to append history items to modules on IDRS, and to generate TC 902 to secure tax modules and their related entity data from the Master File.
BMFOL	To research entity and/or tax data which may or may not be available on IDRS. This command code allows several screen displays based on the definer code input. It should be used in lieu of the Command Code MFTRA.
BRTVU	To access data that was transcribed from line items and/or computer-generated transactions from BMF returns and their schedules. It can be used in re-searching original returns.
CRECT	Displayed with all error displays.
DLSEC	To delete a section of a record.
ENMOD	To research for name control and transaction code information.
ENREQ	Entered (with a blank definer) after a response to ENMOD indicates that the entry is on the file.
ERINV	To research a DLN or TIN on ERS.
ERVOL	Used with a Status Code to display the number of records in the current Workable Inventory.
GTREC	To access the first error in a block in the Error Inventory or a specific record in the Workable Suspense Inventory.
GTRECW	To retrieve and correct an error record that has been previously worked. Can be used only on the day that the record block was worked.
GTSEC	To obtain the display of any section of an error record in process.
INOLE	To research the entity module. This information includes name lines, name control, address, employment codes, filing requirements, etc.
MFREQ	To request an entity module or a tax module and its related entity data from Individual Master File (IMF), BMF, Individual Retirement Account (IRA), or Employee Plan Master File (EPMF) when case control is not required.

Command Code	Description
NAMEB/ NAMEE	To research for a missing TIN. A name is required to be input to research the Names Search Facility (NSF).
NWDLN	To change (renumber) the DLN and MFT of the record and reject the record.
RJECT	To reject a record from ERS.
SSPND	To assign an Action Code when placing a record in suspense.
TERUP	To allow an employee to delete their erroneous entry on the day of input. An employee can only delete their own entries.
TRDBV	Tax Return Data Base—To access 100% of return data as well as all subsequent corrections entered via ERS and Generalized Unpostable Framework (GUF). This command code can be used to verify specific line items (including any correction activity), resolve taxpayer inquiries, identify refund issues, and verify filing and return status. Also, available is Command Code TRERS, which will link the DLN entered with Command Code GTREC to Command Code TRDBV.
TRERS	Is an extension of CC TRDBV developed for ERS processing and acts like TRDBV. It allows the TE to select a return based on the DLN of the latest GTREC command executed.

3.12.14.6.5 (01-01-2016)

Taxpayer Notice Codes (TPNC) - 6 Positions

- (1) This code is used when a math error is present involving Tax liability or Tax Due/Overpayment. Each math error display requires a correction to a field or the assignment of a TPNC.
 - TPNCs are entered on the terminal screen following the literal “NC” and in the upper left corner of Form 1041.

Reminder: The transmission of a TPNC **cannot** be accompanied by any other correction.
- (2) A TPNC is entered **only** after determining that no other corrections to the record can be made. Before assignment of a TPNC:
 - All corrections **must** be entered and transmitted for each error condition.
 - A working trail showing the changes made **must** be edited on the return at the point of error.
 - The Total Tax (Line 23) **must** be present.

Caution: If a math error ripples to another error code, verify the tax, using the spreadsheets on SERP, before rippling the TPNC.

- (3) Each math error has certain TPNCs that are valid to clear that error. If an invalid code is assigned, the error will re-display.
- (4) Each Form 1041 can have a **maximum** of three TPNCs.
 - If more than three TPNCs are needed, assign TPNC 90 as the third notice code and list the errors for Notice Review to type and send to the taxpayer.
- (5) **TPNC 90** is a “fill-in” and should be used when no other TPNC fully explains the correction(s) made or when more than three or more notice codes are necessary. In January 2014, The Taxpayer Notice Code (TPNC) 90 Math Error (ME) Code literals were programmed into the Online Notice Review (OLNR) Retype Application for Notice Review (NR). This addition will eliminate the need for the NR tax examiner to manually type the notice literal and reduce potential copying/typing incorrect paragraphs/messages in the notices. For a full listing of the programmed TPNC 90 Math Error Codes, see TPNC 90 Math Error Code Job Aid, <http://serp.enterprise.irs.gov/databases/portals/sp/bmf/ers/job-aids.html>.
- (6) When the ERS tax examiner sends a TPNC 90, they will do the following:
 - Write on the returns “TPNC 90 - ##” (where ## represents the programmed TPNC 90 Math Error Code number).
 - Notate TPNC 90 (or similar language) and the date of Form 1332, Block and Selection Record or Form 813, Document Register.
 - Place the return in the TPNC 90 designated area (basket/tub).
- (7) If there is not an applicable TPNC 90 Math Error Code, then the ERS tax examiner will do the following:
 - Attach the applicable TPNC 90 slip of paper to the front of the return, after completing applicable fields.
 - Notate TPNC 90 (or similar language) and the date of Form 1332, Block and Selection Record or Form 813, Document Register
 - Place the return in the TPNC 90 designated area (basket/tub).
- (8) Make sure that the return needing a TPNC 90 leaves Error Resolution System (ERS) with the correct TPNC 90 language for the applicable form. For questions, please contact your Lead and/or Manager.
- (9) Once a TPNC is transmitted to the record, it may be changed or removed in the following manner:
 - **For records which have not cleared the terminal** (errors remain after transmitting the TPNC), create an error with a higher priority.

Note: This causes all clear codes and any TPNCs previously assigned to a lower priority error, to be deleted from the record. TPNCs are deleted from the header display. Beginning with the higher Priority IV error created, all subsequent error codes are displayed for resolution, even though they may have been displayed previously.
 - **For records which have cleared the terminal**, the “C” or TPNC on this error and all subsequent error codes are displayed for resolution

whether they were displayed previously, or not. TPNCs previously assigned for this error and subsequent error codes will be deleted from the screen.

- Records which have been worked may be reworked using Command Code GTRECW. See IRM 3.12.38, BMF General Instructions, for further details.

- (10) All TPNCs are erased when a record is suspended with Command Code SSPND.
- (11) Unfinished records from the previous day will contain none of the TPNCs that were assigned to the records that were not completely worked.
- (12) For a listing of valid TPNCs and the information communicated to the taxpayer, see Exhibit 3.12.14-35, Taxpayer Notice Codes for Form 1041.

Note: A TPNC assigned to a math error is displayed on subsequent displays for the record. The field is used for display purposes **only** and is not correctable.

3.12.14.6.6 (01-01-2020) Clear Codes

- (1) Certain error codes will display with a clear code. A clear code is used, when appropriate, to clear the error code.

3.12.14.6.6.1 (01-01-2016) Clear Code "C"

- (1) A "C" is used as a Clear Code for the Error Codes (consistency errors) where the error condition is such that the resolution **does not require a change** or correction to the record as displayed.
 - The Screen Display includes a clear field, labeled "CL" to indicate the possible use of a Clear Code.
 - The Clear Field is always located to the right of CRECT on the screen display.
- (2) Error Codes indicating the possible use of a Clear Code are cleared by either correcting the condition or entering a "C" to indicate no correction is needed. If corrections are required:
 1. Enter and transmit before entry of the Clear Code "C".
 2. Assure that all corrective procedures have been input as shown under each individual Error Code before entering a "C" in the Clear Code Field.
- (3) Clear Code "C" is also used for clearing the action code from the screen after corrections for the action code have been completed or, as with Action Codes 410 and 700, the action code **must** be cleared initially so other errors in the record can be resolved.
 - The presence of the "C" with a Priority I Error indicates that you have made the corrections to the action code and now wish to have any other errors on the record displayed.
- (4) Command Code SSPND causes all "C" Clear Codes for Error Codes to be erased.
- (5) The program erases all "C" Clear Codes for Error Codes and action codes for the new day's Error Inventory and Workable Suspense Inventory. Unfinished

records from the previous day will contain none of the “C” Clear Codes assigned to a record that was not completely worked.

- (6) The “C” Clear Code **cannot** accompany any corrections to the record. If a correction **must** be entered and the record has already been transmitted:
 - Enter Command Code GTRECW to retrieve the record and make all corrections.

3.12.14.6.6.2 (01-01-2016) Error Codes

- (1) Error Codes (including those which may require a “C” Clear Code) are numbered consecutively for correction.
- (2) There may be instances when an ERS Tax Examiner creates an Error Code with a higher priority than the Error Code that has already cleared with a TPNC or “C” Clear Code.
 - If this occurs, the program deletes all “C” Clear Codes and TPNCs for Error Codes with a lower priority than the one created.
 - Beginning with the higher priority Error Code created, the program continues to display Error Codes for the record. Displays using the corrected data are apt to be different from those previously displayed.
- (3) There may be instances when an ERS tax examiner makes a correction that erases an Error Code which was previously cleared with a “C” and now the error condition no longer exists.
 - If this occurs, the program deletes the “C” Clear Codes and TPNCs for all subsequent errors in the record.
 - If there are errors remaining on the record after deleting the “C” and TPNCs, the program continues to display Error Codes for the record whether or not they were previously displayed.

3.12.14.6.6.3 (01-01-2016) Clear Code 000

- (1) Clear Code 000 is used when deleting an action code.
 - **Only** use Clear Code 000 for invalid or erroneous Action Codes when you have determined that there is no reason to suspend the record.

Note: The “000” **cannot** be used in suspense correction.

3.12.14.6.7 (01-01-2016) Transshipment of Returns to OSPC (Form 4720, Form 5227, and Form 99X)

- (1) If Form 1041 with Form 4720, Form 5227, and/or any Form 990 Series return attached is received at any Submission Processing Campus **other than OSPC**, process as follows:
 1. Detach Form 1041 from Form 4720, Form 5227, and/or Form 99X.
 2. Copy the Received Date from Form 1041.
 3. If not already present, copy the EIN from Form 1041 to each detached document.
 4. Prepare Form 4227 and notate “Form 1041 - Exempt Organization - Transfer To OSPC”.
 5. Transfer all credits to the correct Tax Period and MFT **before** forwarding to OSPC.
 6. Route Form 4720, Form 5227, and/or Form 99X to OSPC.
 7. Continue normal processing of Form 1041.

- (2) If Form 1041 with Form 4720, Form 5227, and/or any Form 990 Series return attached is received at the Ogden Submission Processing Campus (OSPC), process as follows:
 1. Detach Form 1041 from Form 4720, Form 5227, and/or Form 99X.
 2. Copy the Received Date from Form 1041 to each detached document.
 3. If not already present, copy the EIN from Form 1041 to each detached document.
 4. If Reasonable Cause For Failure To Pay Taxes Timely has been granted for Form 1041, notate "Reasonable Cause Granted" on each detached document. For instructions for determining Reasonable Cause, see IRM 3.11.14.20.1 and 3.11.14.20.6.
 5. Route Form 4720, Form 5227, and/or Form 99X to the function responsible for processing.
 6. Continue normal processing of Form 1041.
- (3) For additional procedures for processing Split-Interest Trusts, see IRM 3.12.14.26.11.2, Correction Procedures - Error Code 026.

3.12.14.6.8
(01-01-2024)

◆ **Working Trail** ◆

- (1) It is important to leave a legible **Working Trail** (or **Action Trail**) using blue ink for those who may work with the return later.
- (2) Write all Taxpayer Notice Codes (TPNCs) 90 on the front of the return in the upper left corner (or use Form 12648 , **Error Correction 90 TPNC**). See **form specific IRM reference and title** and **Taxpayer Notice Codes**, for additional information.
- (3) If corresponding with a non-suspense letter, "X" and write the corrected money amounts to the left of each original point(s) of error. Money amounts are to be written in dollars only or dollars and cents, as applicable. Arrowing is allowed for money amounts when there are **no intervening entries** between the arrow and the line to which the money is to be entered.
- (4) Leave a working trail on the return when changes are made to the following items:
 - Tax Period (Field 01TXP).
 - Name Control (Field 01NC).
 - Employer Identification Number (Field 01EIN).
 - Computer Condition Code (CCC)
 - Received Date
 - Correspondence Received Date (Field 01CRD).

Reminder: Circle out incorrect Tax Periods, Received Dates, Employer Identification Numbers (EINs), and Social Security Numbers (SSNs).

- (5) When working Reject re-inputs, circle out any previous Action Codes shown on the front of the return, if no longer applicable.
- (6) When working Rejects, edit "640" at the bottom of the page to indicate the DLN has been voided.

3.12.14.6.9
(01-01-2016)
IRC 6020(b) Returns

- (1) If the return has a statement that it was “Secured Under the Authority Of Section 6020(B)”:
 1. GTSEC 01.
 2. Enter “4” in Field 01CCC.
 3. If the return is stamped “Do Not Assess Failure to Pay”, GTSEC 01 and enter “D” and “4” in Field 01CCC.
- (2) If any unprocessable conditions exist, contact the Revenue Officer (RO) that prepared and signed the return. Use Discovery Directory to email the RO and SSPND AC 360. Do not contact the taxpayer on any secured return.

3.12.14.6.10
(01-18-2023)
Streamlined Filing Compliance Process (Ogden Only)

- (1) Only **decedent estate** 1041 returns, both original and amended can participate in this program.
- (2) Returns are identified by the taxpayer writing “Streamline” on the top of the return. There will also be an audit trail notated that the package was complete.
- (3) Streamline original 1041 returns will have the following CCCs:
 - D,
 - P,
 - R, and
 - 8
- (4) **Streamline amended 1041 returns will not be processed by SP** if found in the pipeline SSPND 640, so ERS/Rejects can void the DLN and route to ICT for scanning with a special cover sheet. They will be scanned into CII and worked by specific people in AM.

3.12.14.6.11
(01-01-2017)
Refund Returns 45 Day Jeopardy and \$100 Million or more Refunds

- (1) Document Perfection and ERS are responsible for identifying refunds and for initiating requests for manual refunds.

Note: Expeditious processing of refund returns is critical if the 45-day period is about to expire.
- (2) Action Code 341 should be input by Code & Edit to show that a manual refund is needed. If these conditions are **not** identified in Code & Edit, ERS must follow the following criteria:

If...	Then...
<p>The processing date is more than 20 days after the Received Date or the Return Due Date (whichever is later) and the 45-day interest free period is in jeopardy and the refund amount is \$25,000 or more,</p> <p>Note: Refund in this instruction means only the amount requested to be refunded to the taxpayer, not overpayments transferred to other periods</p>	<p>Enter Action Code 341 and route to ERS/Rejects for manual refund.</p>
<p>The refund is \$100,000,000 or more,</p>	<p>Enter Action Code 341 and route to ERS/Rejects for manual refund.</p>

3.12.14.6.12

Elective or Deemed Payment Election (DPE) and Credit Transfers

- (1) Under the Inflation Reduction Act (IRA) of 2022 and CHIPS and Science Act of 2022, the taxpayer can elect to:
 - Take certain credits as an “Elective or Deemed Payment”.
 - Transfer certain credits to another taxpayer.
 - Claim the credit as a General Business Credit.
- (2) For tax periods 202201 through 202212 only, identify an “Elective or Deemed Payment Election” when the taxpayer writes “IRA22DPE” on Form 3800, an attachment, or on any of the following lines:

Form	Lines	Field
Form 1041	Schedule G, Line 16a	Field 0516A
Form 1041-N	Line 20	Field 0526
Form 1041-QFT	Line 17	Field 0526

 1. Enter RPC “J.”
 2. Place a flag at the top of the return and attach the “IRA22 DPE/TRE Reminder” sheet under the Entity portion of the return.

1. Enter RPC “K.”
 2. Place a flag at the top of the return and attach the “IRA22 DPE/TRE Reminder” sheet under the Entity portion of the return.

- (5) Treat taxpayers who claim the credit on Form 3800 with no other indication of claiming the “Elective or Deemed Payment Election” or “Credit Transfer” as normal. See IRM 3.12.14.26.45 , Error Code 866 - General Business Credits.

3.12.14.7
(01-01-2016)
Types of Errors

- (1) IRM 3.12.14.8 provides a description of the types of errors generated during Form 1041 processing.

3.12.14.7.1
(01-01-2016)
General

- (1) The Error Resolution System identifies errors according to type and priority. The record heading shows the type of error:
- Action Code Error (Priority I).
 - Section Error (Priority II) - Includes Terminus and ISRP errors.
 - Validity Error (Priority III).
 - Math/Consistency Error (Error Codes) (Priority IV).
- (2) There may be records where the tax examiner finds that programming has not furnished a section that is needed to solve an error. If this occurs:
1. Enter Command Code GTSEC.
 2. Report to the National Office for correction of the display.

3.12.14.7.2
(01-01-2016)
Priority I Errors - Action Code/Unpostable Code Errors

- (1) **Description:**
- All records with an **invalid** Action Code assigned by Document Perfection, are placed in the Error Inventory and displayed as a Priority I Error.
 - All records with a **valid** Action Code, are assigned to a Suspense Inventory and displayed as a Priority I Error.
- (2) **Display** - The Action Code for the record with the literal description of the action or unpostable condition will be shown.
- (3) **Error Correction** - Process Priority I errors as follows:

If...	Then...
Suspense action is required	Enter CC "SSPND" with the correct Action Code.
Suspense action is not required	Enter "000" in the Clear Code (CL) field.

Note: Except for priority statute and manual refund cases, do **not** remove the document from the block.

- (4) **Action Code 001** is a Priority I error. This condition occurs whenever the BOB Resolution function has added a document to a block by entering only the Name Control and TIN. The remainder of the record **must** be added by ERS.
 - Enter Command Code GTSEC for each record section that should contain data.
 - Add the required data.
 - When all the sections have been entered, enter "C" in the Clear Field.
- (5) See IRM 3.12.38, BMF General Instructions, for procedures for correcting Priority I Action Code errors in Suspense and Unpostable Code Correction.

3.12.14.7.3 (01-07-2022) Priority II Errors - Section Errors

- (1) Most edit, missing section, and terminus errors should be eliminated by Integrated Submission and Remittance Processing (ISRP). **However**, edit errors and/or terminus errors may be present if normal ISRP validity checks have been bypassed.
- (2) **Edit Error** - A section with an error detected by ISRP. Edit errors are coded as follows:
 - **Code 1** - Split-screen transmission. Occurs when the Key Verifier attempted to change the Check Digit or changed four or more digits of the Primary TIN. Also, occurs when the Original Entry Operator indicates that a required section was missing.
 - **Code 3** - Invalid section ending point.
 - **Code 4** - Invalid field length.
 - **Code 5** - Questionable section. Occurs when a section is entered twice or is entered out of sequence by ISRP.
- (3) **Terminus Error** - A section with variable length fields containing an erroneous size field or otherwise being of erroneous size.
- (4) **Display** - All fields except the ERS Action Code and the Remittance (Payment Received) fields are displayed in columnar format with or without data. The error type is indicated for ISRP Problem Code errors. Only one section (error) is displayed at a time.
- (5) **Content** - Any individual section excluding computer-generated fields and the Action Code. The Action Code is an uncorrectable field, except as defined for SSPND and RJECT.
- (6) **Correction Procedures:**

- **ISRP Errors** - All fields in the section **must** be examined when a ISRP error is present. If Section 01 of a return is coded, examine the section for an error to ensure that the return is for the taxpayer whose name is in Section 01. Correct the section and transmit.
- **Questionable Section** - Verify and enter all the data for the displayed section. Transmit when all the data is correct.
- **Terminus Errors** - All fields of the section **must** be examined when a terminus error is present. Correct the section and transmit.

(7) For any returns suspended prior to the beginning of a new processing year, that are reactivated in the next year to be worked via the Error Resolution System (ERS), the following action will need to be taken to revalidate the return through the updated ERS systemic processes...

1. Access the return record using IDRS Command Code GTREC.
2. Drop the cursor to bottom of the screen and transmit.

After the action in step 2 above is taken, the return can be worked using regular IRM procedures.

3.12.14.7.4
(01-01-2016)
Priority III Errors - Field Errors

(1) **Definition** - Any field failing to meet the requirements for that field (and that field only) is shown as a Priority III error. Consistency and/or relationships with other fields are not a factor. Individual field validity errors to be bypassed after initial consideration, are shown as Priority IV Errors.

(2) Some reasons for field errors include the following:

- Non-numeric character in a numeric field.
- Non-alphabetic character in an alpha field.
- Blank space in a number field.
- Blank in the first position of an alpha field.

(3) **Display** - Every field displayed is in error.

- All fields with a Priority III error are displayed in columnar format in the order encountered in the record.
- An overflow field is identified by all question marks for a money field or a single pound sign in the last position of a Name Line.

Note: The Action Code and Taxpayer Notice Codes are **never** displayed as a Priority III Error.

(4) **Correction Procedures:**

1. Correct **every** error field displayed using the specific instructions within each section for the field in error.
2. Check the information on the source document to determine if each displayed field has been correctly coded and transcribed.
3. Enter the correct data for each field displayed.
4. If no data is to be in a displayed field, blank the field.

3.12.14.7.5
(01-26-2023)
Part IV Errors - Consistency/Math Errors

(1) **Definition** - Any valid field used in any computation where the result is inconsistent with (or contradictory to) any other valid field, will have Error Code 001-999 assigned and be shown as a Priority IV Error.

- If the result of the computer computation of an amount differs from the record, the computation fields are shown as a Priority IV Error.
- (2) **Display** - Priority IV errors are displayed with the Error Code for the specific error. The screen display shows the Error Code assigned and the fields needed to make the necessary correction.
1. Compare the displayed fields with the return. If the field was coded or transcribed incorrectly, overlay the screen display with the correct data.
 2. For those amounts entered from **ERS Input Only Fields** (e.g., Field 05GVT), the first corrections will be entered to the taxpayer's amount.
 3. For all math Error Codes, a field labeled "NC" followed by "XX" will generate. The "NC" field is located on Line 4 of the screen display (to the right of CRECT). Multiple TPNCs may be entered when multiple XXs are shown.
 4. Previously assigned TPNCs are displayed on Line 3 preceded by the literal "NC".
 5. If determined that the generated Math Error Code was the direct result of a previous error, any previously assigned TPNC may be entered.
 6. A field labeled "CL" is displayed for the entry of a Clear Code on records where the possibility exists that a change or correction may not be needed. The "CL" field is located on Line 4 of the screen display (to the right of CRECT). All coding and transcription errors displayed **must** be corrected and IRM procedures for each field shown on the screen display **must** be applied before entering a "C" in the Clear Field.
 7. All errors **must** be resolved by eliminating (or suspending) the error, entering the Clear Code, or entering a Taxpayer Notice Code.
- (3) **Correction Procedures:**

If...	Then...
Clearable consistency errors	<ol style="list-style-type: none"> 1. Correct all misplaced entries, coding errors, and transcription errors. 2. If the data in the field is correct, enter a "C" in the Clear Code field.
Non-clearable consistency errors	Correct all misplaced entries, coding errors, and transcription errors.
Math errors	<ol style="list-style-type: none"> 1. Correct all misplaced entries, coding errors, and transcription errors. 2. If no editing or transcription error is present or the error is the fault of the taxpayer, issue the appropriate Taxpayer Notice Code (TPNC). Note: Once a TPNC is assigned to the record, it will be displayed in all subsequent displays for the record unless a higher Priority IV Error is created.
A correction causes a clear Error Code to no longer be in the error	<ul style="list-style-type: none"> • The TPNC or Clear Code for that Error Code is deleted. • All TPNCs and Clear Codes assigned to all lower priority (higher numeric) Error Codes are deleted also. • Any remaining Error Codes previously cleared are re-displayed.

- (4) For specific correction instructions for each Error Code, see IRM 3.12.14.24 Priority IV Errors - Error Codes 001 Through 999.

The Received Date cannot be determined	Determine the entry to Field 01RCD using the following priority order: <ol style="list-style-type: none"> The earliest legible Postmark Date (U.S. Postal Service or Private Delivery Service) on the envelope. Note: If an envelope is not attached, use the postmark date stamped on the face of the return. Service Center Automated Mail Processing System (SCAMPS) digital date. (4) **Determining Postmark Dates:**

- **Only** legible official postmark date and/or label dates (Killer Bar Strips or Postage Validation Imprinted Labels) are accepted as proof of filing timely.
- Metered Postmarks are easily identified by the official marking of arrows. These types of markings are not found on a privately metered postmark.

- Valid official Killer Bar Strips are identified by a series of solid or broken lines containing a date, city, and state that is used to cancel postage stamps. Accept the postmark date as the Received Date.
- For further information and procedures on Postmarks, see IRM 3.10.72, Receiving, Extracting, and Sorting.

(5) **Private Delivery Services** - A private delivery service (PDS) is a business, designated by the IRS (rather than by the U.S. Postal Service), to send returns to the IRS. Private delivery services do **not** deliver to P.O. Boxes. Taxpayers must use the U.S. Postal Service to mail items to an IRS P.O. Box address. The postmark date is the date the private delivery service records in its database or marks on the mailing label.

1. Accept all designated PDS marks. Do **not** use marks from a non-designated PDS to determine the IRS Received Date. See www.irs.gov/pds for a list of currently designated Private Delivery Services.
2. The "Timely Mailing as Timely Filing" rule applies **only** to the U.S. Postal Service and to a designated PDS. When the rule applies to a PDS, it is referred to as a "Designated" PDS.
3. Currently, only FedEx marks air bills with the mailing date. Do **not** use FedEx "Power ship 3" air bills for determining the mail date. Accept all other FedEx air bills.
4. Use the instructions in IRM 3.10.72 for determining the Received Date when the mail marks are **not** from a designated PDS.

If the return is a Grantor Trusts (Partially Taxable) (2/3) or Generation Skipping Trusts (3/1) and Field 0421 equals \$300, the computer-generated Exemption amount will be \$300.00. **However**, if the filer-provided Exemption amount is **other than \$300 or \$100**, the computer-generated Exemption amount will be \$100.

3.12.14.26.37.2
(01-01-2025)

**Correction Procedures -
Error Code 848**

- (1) Correct all misplaced entries, coding errors, and transcription errors.
- (2) Ensure that the type of entity box checked agrees with what the name line and exemption amount indicate. If not, treat as a misplaced entry.

Example: If the type of entity is checked for a decedent's estate but the name line says a trust and the exemption is for \$300, then the taxpayer has checked the wrong box. The simple trust box needs to be checked and "2" entered into Field 01FID.

- (3) If there are no entries below Line 23 or Schedule G, see IRM 3.12.14.8.7, Field 01TRC - Trust Code.
- (4) Exemption Amounts are determined based on whether the fiduciary is filing for a decedent's estate or trust.
 - Determine the correct Fiduciary Code and Exemption amount as follows:

Type of Return	Fiduciary Code	Trust Code	Exemption Amount
Decedent's Estate	1	-	\$600
Simple Trust	2	-	\$300
Grantor Trust (Partially Taxable)	2	3	\$100 or \$300
Complex Trust	3	-	\$100 or \$300
Generation Skipping Trust	3	1	\$100 or \$300
Grantor Trust (Non-Taxable)	4	3	\$0
Bankruptcy Estate - Ch. 7	5	-	\$0
Bankruptcy Estate - Ch. 11	6	-	\$0.00
Qualified Disability Trust- IRC 642(b)(2)(C)	8	-	(\$5,000 for tax year 2024) (\$4,700 for tax year 2023) (\$4,400 for tax year 2022) (\$4,300 for tax years 2020 through 2021)
Non-Exempt Charitable or Split Interest Trust Described in IRC 4947(a)(2)	9	-	\$100 or \$300

- If the return is a Grantor Trust (Partially Taxable) (2/3), Complex Trust (3/-), Generation Skipping Trust (3/1), or IRC 4947(a)(2) Trust (9/-) **and** Field 0421 equals \$300, the computer-generated Exemption amount will be \$300. **However**, if the filer-provided Exemption amount is **other than \$300**, the computer-generated Exemption amount will be \$100.
- Qualified Disability Trusts (QDT) may claim an Exemption amount up to \$4,300 on Line 21 of Form 1041. **However**, the "QDT" box was not added to Section "A" of Form 1041 until TY 2002. For Tax Year 2001, the taxpayer was required to notate "SECTION 642(b)(2)(C)" in the dotted portion of Line 21. If a TY 2001 return is received and "Section 642(b)(2)(C)" is notated on Line 20, enter "8" in Field 01FID. Returns

claiming up to \$3,000 that do **not** reference "Section 642(b)(2)(C)" should be processed like all other returns that fall out to EC 848.

- (5) A short period return, caused by a change of accounting period, may contain prorated amounts (i.e., a "Y" is present in Field 01CCC).
 - If this occurs, verify the taxpayer's entry and enter amount via Field 05GVT. See IRM 3.12.14.26.40.2, Correction Procedures - Error Code 857.
- (6) Form 1040, Form 1040-A and Form 1040-EZ **cannot** be filed for a deceased taxpayer (or two deceased taxpayers on a joint return) if the return covers a Tax Period **after** the one in which the taxpayer(s) died.
- (7) C&E corresponded for Form 1041 after making the determination that a Form 1040 needed to be converted.

Note: If this correspondence has not been sent, SSPND 211 to correspond for Form 1041 if income is over \$600.

- (8) If Line 18 is blank and income distribution is present on Schedule B, Line 15, then GTSEC 04 and enter the amount in Field 0418. If Line 15 is blank or illegible use the lesser amount of Schedule B, Line 13 or 14.

Note: This step will help eliminate rippling to other error codes.

- (9) If the return is for a Decedent's Estate or a Simple, Complex, or Taxable Grantor Trust and **Line 21 is blank**, the computer is programmed to generate the following **Exemption Amounts**:

Type of Return	Exemption Amount	Fiduciary Code	Trust Code
Decedent's Estate	\$600	1	-
Simple Trust	\$300	2	-
Grantor Trust (Partially Taxable)	\$300	2	3
Complex Trust	\$100	3	-
Qualified Disability Trust—IRC 642(b)(2)(C)	(\$5,000 for tax year 2024) (\$4,700 for tax year 2023) (\$4,400 for tax year 2022) (\$4,300 for tax years 2020 through 2021)	8	-
Non-Exempt Charitable or Split Interest Trust	\$100	9	-

Note: For additional instructions for determining Fiduciary and Trust Codes, see IRM 3.12.14.26.27.2, Correction Procedures - Error Code 830.

- a. Determine the Exemption amount as follows:

If...	Then...
Field 0421 is blank, but Field 0422 contains an entry of \$100, \$300, \$600, or \$4,700 (QDT),	Enter the amount from Field 0422 to Field 0421. Caution: Taxpayers sometimes mistakenly enter the Exemption amount on Line 22 instead of Line 21 as required. If this occurs, enter the Exemption amount provided on Line 22 to Field 0421.
If Form 1041 has been converted from Form 1040 and taxpayer did not respond to correspondence,	Issue TPNC 46.
Form 1041 is for a Decedent's Estate and the taxpayer has used an amount other than \$600 on Line 21 or if Line 21 is zero	Assign TPNC 20. Exception: If the return is for a Change in Accounting Period, use the prorated amount. For additional instruction, see IRM 3.12.14.27, Manual Computation Instructions.
If the exemption amount on Line 21, agrees with the entity information,	Enter the correct codes in Fields 01FID and/or 01TRC (do not change the Exemption amount).
The taxpayer has notated "Section 642(b)(2)(C)" on the dotted portion of Line 21	1. Enter 8 in Field 01FID. 2. Continue processing. 3. Do not change the entry in Field 0421.
The taxpayer has indicated that Form 1041 is for a "Settlement Fund"	1. SSPND 320. 2. Prepare Form 4227 and notate: "Filing requirement change needed new form possible discrepancy"
The taxpayer claims an incorrect Exemption amount	Assign TPNC 20.
There is no exemption amount on Line 21 and no type of entity box is checked,	Determine the correct code by using the name line or research INOLE. Enter the correct codes in Fields 01FID and/or 01TRC

If...	Then...
Line 21 of Form 1041 is zero, the return has Taxable Income, and it cannot be determined whether the return is for a Simple, Complex, or Grantor Trust (Partially Taxable)	Assign Fiduciary Code "3" in Field 01FID.

Note: Qualified Disability Trusts (QDT) may claim an Exemption amount up to \$4,700 on Line 21 of Form 1041. However, the "QDT" box was not added to Section A of Form 1041 until TY 2002. For Tax Year 2001, the taxpayer was required to notate "Section 642(b)(2)(C)" in the dotted portion of Line 20. If "Section 642(b)(2)(C)" is notated on Line 20, enter "8" in Field 01FID.

Field 05TRS> (Tax per Tax Rate Schedule)

- (1) Field 05TRS> is the computer-generated tax computation, determined by the Form 1041, Tax Rate Schedule.
 - Field 05TRS> is a non-correctable field.

- (2) The amount reported in Field 05TRS> should be the same as the taxpayer's entry on Schedule G, Line 1a, **unless** the tax was determined using Schedule D. Then Field 1043 should equal Line 1a.
- An entry on Line 2(b)2 will trigger the computation of Capital Gains and Losses, whether a Schedule D was filed or not. It is transcribed, but not used in the calculation of Total Income (Line 9). If the taxpayer fails to use the lower Capital Gains tax rate, assign a TPNC 24.
- (3) The computer will compute tax for a 12 month period.

#

- On short period returns, the computer calculation may be inaccurate and manual computation will be required. See IRM 3.12.14.27, Manual Computation Instructions.
- (4) **The formula for computing Annualized Gross Tax using the Tax Rate Schedule:**

Step	Computation
1	(Months in Short Period ÷ 12) × Exemption Allowed = Prorated Exemption (Line 20)
2	Line 9 – (Line 16 + Line 18 + Line 19 + Line 20) = Taxable Income (Line 22)
3	Taxable Income × (12 ÷ Months in Short Period) = Annualized Income
4	Annualized Income × Applicable Tax Rate = Annualized Tax
5	Annualized Tax × (Months in Short Period ÷ 12) = Annualized Gross Tax

Note: If the taxpayer has used days to compute tax, verify the computations using days instead of months.

Field 1043 (Schedule D - Line 43)

- (1) Field 1043 should be the same as the entry on Schedule G, Line 1a, if the tax was determined using Schedule D (Field 1043).
- If Line 43 is blank and there is an entry on Line 45, enter that amount into Field 1043.
- (2) The underprint for Field 1043 (>>>>) is the tax per computer and is based on the lines transcribed from Form 1041 (Field 042B2), Schedule D, Part III (Fields 1017, 1018A, and 1019,) and Form 4952 (Fields 06D4E and 06D4G).

Note: Data will only transcribe amounts in Column 2. These amounts, on Lines 15, 18a, and 19 of Schedule D, represent the capital gains that are taxable income to the Estate or Trust.

Correction Procedures - Error Code 860

- (1) Correct all misplaced entries, coding errors, and transcription errors.
- (2) Research for the following signs that **Schedule I should not have been transcribed**:
- Schedule I is for a different tax period.
 - Line 1, Schedule I does not match Line 17, Form 1041.
 - Schedule G, Line 1c, has no entry.
 - Form 8801 is attached.
 - "Alt Min Tax" is notated on Schedule I.
 - "Electing Small Business" is notated on Schedule I or the ESBT (S portion only) check box is checked in box A, page 1, Form 1041.
 - "Small Business" or "S-Corporation Portion" is notated on Schedule I.

If...	Then...
None of the above indicators are present,	GTSEC 06 and 10 and ensure all fields are transcribed correct.
Any of the above indicators are present,	DLSEC 06.

- (3) Field 05G1C is transcribed from Line 1c of Schedule G (Form 1041) and is supported by Schedule I (Form 1041).
- a. For Tax Periods **198912 and later**, if Field 05G1C has an underprint, determine if an entry is present on Line 1c of Schedule G (Form 1041):

(4) Determine if Field 06I24 equals Line 42 of Schedule I.

If...	And...	Then...
Line 24 is blank,	Line 42 has an amount,	Enter Line 42 amount in Field 06I24.
Taxpayer has used a negative amount on Sch I, Line 24 (Field 06I24),	the tax computation is greater than the underprint,	Accept the taxpayer's amount on Line 1c, Schedule G and enter in Field 06IAV.

(5) Determine if Field 06I52> equals Line 52 of Schedule I.

Caution: Ensure that the Schedule I goes with the return by seeing if Schedule I, Line 54 is the same as Form 1041, Schedule G, Line 1c. If the amounts are different, the Schedule I is for a prior year return. Correspond with taxpayer for the correct Schedule I.

If...	Then...
Field 06I52> equals Line 52 of Schedule I,	Assign TPNC 23. Note: EC 863 should then display.
Field 06I52> does not equal Line 52 of Schedule I,	1. Determine if manual computation is necessary. 2. See Items (7) and (8), below.

- (6) If Error Code 860 is present, the return is for **Tax Year 2001 or prior, and** entries are present in **any** of Fields 06I02 through 06i51, delete the entries in Fields 06I02 through 06i51 and process as follows:
1. Enter the amount from Line 7 of Schedule I in Field 06I22.

Invalid Condition - Error Code 866

To arrive at Line 37, Part II, it will use the lesser of Line 36, Part II, or Line 29, Part II. It then uses 23028 + Line 37 Part II (as computed above) to compute Line 38, Part II (General Business Credit Computer).

**Correction Procedures -
Error Code 866**

- (2) For tax years 2022 and prior, there may be multiple Form 3800, page 3(s) attached to the return. C&E will place the consolidated Part III (page 3) that has Box "I" checked after page 2, and that will be transcribed.

- (1) Correct all misplaced and omitted entries, coding errors and transcription errors.

Note: Look for write-in taxes on Schedule G, if there is a write-in tax, add that to any other tax and enter the total amount into 05GVT.

- (2) If EC 866 was generated because of the action taken when EC 840 was resolved, send TPNC 31 or 40 as appropriate. Before sending the TPNC, ensure no other error conditions (as listed below) exist.
- (3) If EC 866 "rippled" from EC 864 (and there is no other error), send TPNC 74.
- (4) GTSEC 23, 24, and 25 and verify that all lines are transferred to appropriate fields as follows:

- Often taxpayers have difficulties when it comes to transferring Form 3800 entries onto the correct lines.

Example: An amount entered in column (g) of Part IV, line 7 should also be entered on Part II, line 34.

Box	Part III, Line 2	Part III, Lines 3 and 5
A	23001	23030
B	23003	23033
C	23004	23034
D	23005	23035

- Verify that line 14, Part II of Form 3800, matches Field 06I52>. If there is a difference, GTSEC 06 and verify transcription for Schedule I.
- (5) Field 05G2B is transcribed from Line 2b of Schedule G (Form 1041). Field 05G2B is the total of credits allowed from Form 3800.
- (6) If the computer cannot calculate the correct amount of General Business Credit, use Field 052BV to enter the correct amount. Usually, if EC 840 and/or EC 868 determine that the Form 8941 credit is not allowed, the amount should be zero. Enter \$1 in the field.
- (7) The underprint (>>>>>) is the Computer-Generated General Business Credit that is calculated from the transcribed lines on the Form 3800, Parts I and II only. Part III transcription is not part of this calculation.
- (8) A complete Form 3800 must be attached to Form 1041 if any of the General Business Credits are claimed.

Form 3800 is not attached, correspond.

#

- (9) In general, the supporting credit source form **must** be attached when a credit is claimed on any of lines 1a through 4k, Form 3800, Part III, unless there is an EIN of that same line indicating the credit is from a pass-through entity or unless there is a registration number on that same line and an indication of the purchase of a credit under IRC 6418:

Field 06I52> matches Line 52 on Schedule I and the Tentative Minimum Tax claimed on the General Business Credit form,	Assign TPNC 31.

- (12) Passive Activity entries on Lines 3, 5, 6 and/or 7 of the 2010 and prior versions of Form 3800 may cause Error Code 866.

If...	Then...
If none of the previous conditions apply and there are entries on Form 3800, Lines 3, 5, 6 and/or 7,	Verify the tax taking into consideration any previous errors and enter amount in Field 05GVT.

- (13) If none of the above conditions apply and one or more of these credits are **not** claimed **and** Form 3800, Line 38, does not match Field 05G2B, then send TPNC 31.

- (3) If EC 887 appears because a TPNC was sent at EC 857, check fields for transcription. (This could be a ripple error.)
- (4) If EC 866 "rippled" from EC 864 (and there is no other error), send TPNC 74.

TPNC	Literal
10	We found an error in the computation of the tax due or overpayment amount.
40	We adjusted your tax return as shown because we did not receive a reply to our request for additional information.
44	We eliminated the estimated tax penalty for the above tax period. If you prepaid the penalty, we will refund it to you.
46	According to our records, you should file as an Estate using Form 1041 instead of filing Form 1040. We transferred the information submitted on your Form 1040 to Form 1041 and processed it using the applicable exemption amount and tax rates for an estate return.
71	We changed the deferred payment of refundable credit for qualified sick and family leave wages. The change was due to transferring the amount from Schedule H, Household Employment Taxes.
72	We changed the deferred payment of employer's share of Social Security tax. The change was due to claiming more than the statutory limit allows or the amounts used to determine your deferred payment on Schedule H, Household Employment Taxes were in error.
73	We changed the amount for the Elective Payment Election (EPE) because the Form 3800, General Business Credit, Part III, was computed incorrectly.

TPNC	Literal
74	We didn't allow all or part of the credit claimed as clean vehicle credit on your return because one or more of the Vehicle Identification Numbers (VIN) reported on Schedule A (Form 8936), Clean Vehicle Credit Amount, didn't match our records.

Manual Computation Instructions

- (1) The computer will accurately compute the Tax on most returns if they have been properly filled out, edited, and transcribed. **However**, manual computation of Tax is occasionally needed to provide accurate settlement of tax returns.

- Enter the manually computed Gross Tax in Field 05GVT.

- (2) Some of the reasons manual computation may be required are:

- Short Period Returns (Initial or Final)
- Short Period Returns (Change of Accounting Period)
- 52-53 Week Tax Period Filers
- Rate Reduction Credit
- Tax Periods Ending 197105 and prior
- Form 4726 for Tax Periods 198212 and prior
- Settlement Fund Returns

- (3) To determine the Tax Rates for Short Period Returns that straddle two separate years, see Exhibit 3.12.14-30, Tax Rates (Form 1041).

Note: In the case of a taxpayer error on a manual computation return, if the tax examiner's computation disagrees with **both** the computer-generated amount **and** the taxpayer's amount, the "Rule of Two" is not satisfied until a second examiner's computation arrives at the same results as the first examiner's computation.

3.12.14.27.1
(01-01-2022)

Short Period Returns (Initial or Final)

- (1) If an "Initial" or "Final" return appears on the screen because a taxpayer used a different Tax Rate, verify the Tax computation.

1. Determine the Tax Rate based on the year in which the short period begins.

If...	Then...
The short period begins and ends in the same calendar year	Manually compute Tax (including Schedule D Tax). Example: If the period covered by the return is February 2023 through June 2023, the tax will have to be manually verified using the Tax Rate Schedule for Tax Periods 202312 through 202411. In this case, the computer-generated Tax will be correct .
The short period begins and ends in a different calendar year ,	Tax will be computed using the year in which the Short Period begins. Example: A return which covers the period September 1, 2022 through June 30, 2023 should use the Tax Rate Schedules for Tax Periods 202212 through 202311 and 202312 through 202411. In this case, the computer-generated Tax will be incorrect .

- (2) **The formula for computing Annualized Gross Tax using the Tax Rate Schedule:**

Step	Computation
1	$(\text{Months in Short Period} \div 12) \times \text{Exemption Allowed} = \text{Prorated Exemption (Line 21)}$
2	$\text{Line 9} - (\text{Line 16} + \text{Line 21}) = \text{Taxable Income (Line 22)}$
3	$\text{Taxable Income} \times (12 \div \text{Months in Short Period}) = \text{Annualized Income}$
4	$\text{Annualized Income} \times \text{Applicable Tax Rate} = \text{Annualized Tax}$
5	$\text{Annualized Tax} \times (\text{Months in Short Period} \div 12) = \text{Annualized Gross Tax}$

Note: If the taxpayer has used days to compute tax, verify the computations using days instead of months.

- (3) See Exhibit 3.12.14-30, Tax Rates (Form 1041), to determine the Tax Rates for Short Period Returns that straddle two separate years.

Reminder: The Rule of Two applies.

3.12.14.27.2
(01-01-2022)

Short Period Returns (Change of Accounting Period)

- (1) All Form 1041 **must** be filed on a calendar year basis unless they met certain qualifications.

Note: To change the accounting period, the taxpayer **must** file obtain the permission. To obtain the necessary permission, the taxpayer must either attach a completed Form 1128 to the tax return (if qualifying for an automatic grant of the permission) or receive a ruling from the National Office (if not qualifying for an automatic grant of the permission).

- (2) A "Y" will be present in Field 01CCC (entered by Code & Edit) if a Change In Accounting Period has been approved.
- (3) See IRM 3.12.14.27.1, Short Period Returns (Initial or Final), to determine the annualization formula.
- (4) If the determined Tax is **different** from the taxpayer's amount, assign a TPNC or prepare Letter 3833C to explain the adjustment.

Reminder: The Rule of Two applies.

3.12.14.27.3
(01-01-2022)

52-53 Week Tax Period Filers

- (1) All 52-53 week filers who straddle two Tax Periods require manual verification.

Note: The Tax Period may **not** end more than 6 days before or 3 days after the end of the month.

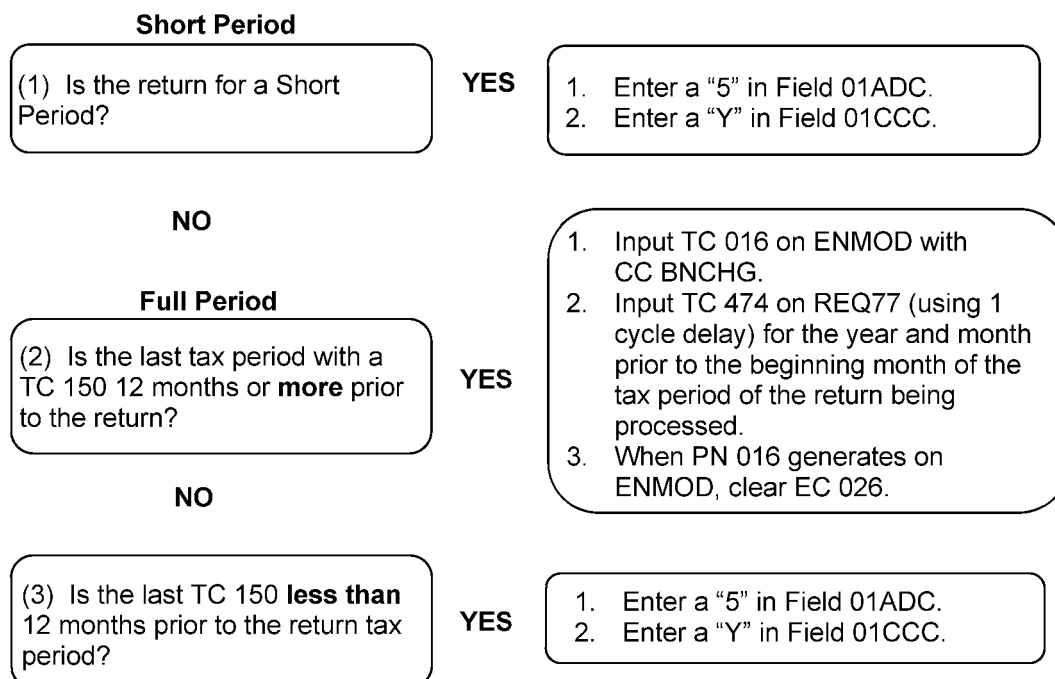

Exhibit 3.12.14-27 (03-25-2021)**Error Code 857 - Resolution Checklist**

The computer underprint for Field **05G1A** is the **lesser** of the computer's calculation for tax per tax rate schedule (**05TRS**) and the computer's calculation of the tax per Schedule D (**1043 underprint**).

The majority of EC 857 errors are caused by transcription errors, misplaced entries, and omitted entries. The following is a checklist to use before doing any correction procedure:

- Verify the tax period, if the tax year is 2003 see para (5) in IRM 3.12.14.26.40.2, Correction Procedures - Error Code 857.
- Verify transcription of all displayed fields. Don't forget Field **042B2** from Line 2b, of the 1041 and Form 4952. If the taxpayer has an amount on Line 45, Schedule D, but not on Line 43, enter the amount from Line 45 into Field **1043**.
- Check Line 18 of 1041 and if blank, enter the amount from Line 15, Schedule B into Field **0418**. If Line 15 is blank, check Lines 13 and 14, Schedule B and perfect Line 15 if possible.
- If Field **01FID** is "4" and the return is truly non-taxable, **DLSEC 04 and 06**, if present.
- If Line 2b of 1041 is blank, check Line 23, Schedule D, and enter the amount into Field **042B2**.
- If Part III, of column (2) of Schedule D is blank, enter appropriate amounts from column (3) or page 1 into Fields **1017 through 1018A** and perfect Field **1019**, if necessary.

Note: If taxpayer lists entries in column (1) and does not calculate Schedule D tax, do **not** enter amounts into fields. 1041, Schedule B, Line 3 can be used to determine taxpayer intent.

- Watch for additional tax being added into Line 1a, Schedule G, 1041 (including ESBT box checked in entity section of Form 1041).
- If the taxpayer checks the Box on Line 10 Form 1041 and there is an entry on Line 2b(1) or 2b(2),

continue processing.

Exhibit 3.12.14-28 (01-01-2016)**Error Code 857 - Correspondence/TPNC Checklist**

If the error code remains unresolved, then correspond or issue a TPNC as follows:

- If a TPNC was sent on another error code, determine whether the previous error is causing EC 857 to generate, if so, resend the previous TPNC.

#

Field **05TRS>** and Schedule D is missing, correspond for Schedule D.

#

05TRS> and Schedule D is missing, enter amount from Field **05G1A** into Field **05GVT**.

Caution: If this creates a significant difference in tax, check with your lead first.

- If Field **042B2** has no entry, there is no Schedule D attached, no entry on Line 4 of 1041, the two bullets above do not apply, and Field **05G1A> matched 05TRS>**, issue **TPNC 05** to inform the taxpayer that an error was made when Total Tax was figured.
- If Field **042B2** has an entry, the computer uses the Schedule D tax computations, issue **TPNC 24** to tell the taxpayer we figured their tax at a lower rate.
- If Schedule D is attached, Field **05G1A should be the same or greater than 05TRS>**, and there is an entry in Field **042B2**, issue **TPNC 24** to inform the taxpayer that there was an error related to the Schedule D tax.
- If the amount on Line 45 or 43 of Schedule D differs from the amount on Line 1a, Schedule G of 1041 and **Line 1a does not match Field 05TRS>**, issue **TPNC 05** to inform the taxpayer that the Schedule D tax was transferred incorrectly.
- If there is an entry on Line 22 of 1041, but Schedule G and Line 23 are blank, issue **TPNC 41** to inform the taxpayer that we have computed the tax.

Tax Year 2023

Taxable Income is Over	But Not Over	Percent of Taxable Income	Of Excess Over
\$0	\$2,900	10% of Taxable Income	\$0
\$2,900	\$10,550	\$290 + 24%	\$2,900
10,550	\$14,450	\$2,126 + 35%	\$10,550
\$14,450	and greater	\$3,491 + 37%	\$14,450

Tax year 2023 example: If taxable income equals \$12,000, subtract \$10,550, leaving \$1,450. Multiply \$1,450 by 35% (0.35) = \$507.50. \$507.50 plus \$2,126 = \$2,633.50 tax owed.

Tax Year 2022

Bankruptcy Estate Post-BAPCPA (filed on or after October 17, 2005)	A separate and distinct taxable entity from the individual debtor, created when an individual debtor files for bankruptcy under Chapter 7 or 11. Under Chapter 7, this creates a separate estate consisting of property that belongs to the debtor before the filing date. Under Chapter 11, this creates a separate estate consisting of property that belongs to the debtor after the filing date. When SECA tax is applicable to a Chapter 11 debtor, the SE tax is reported on a Form 1040, not the estate Form 1041.

Potential Frivolous Arguments	Description
Collections Issues	Files frivolous documents contending that various collections issues are invalid (e.g., Offers in Compromise, Collection Due Process Requests, Installments Agreements, Appeals Requests, etc.) because they are not filed and/or signed by someone with delegated authority. They may have no certificate of assessment attached, do not comply in form or content with a State or Local law, are not in a certain format or lack a valid OMB (Office of Management and Budget) number or other frivolous positions.
Disclaimer	Submits a disclaimer stating, “disclaims the liability for the tax due”, making the liability on the return zero.
Fifth Amendment	Assertion of the Fifth Amendment right against self-incrimination as a basis for not providing any financial information.
Foreign Income	Argues that United States citizens and residents are not subject to tax on their wages or other income derived from sources within the United States, as only foreign-based income or income received by nonresident aliens and foreign S Corporations from sources within the United States is taxable.
Form 1099-OID (Original Issue Discount)	<p>An individual or business files a return reporting false amounts of income (generally “Other” or “Miscellaneous” income) and claims a false amount of income tax withholding approximately equal to the amount of falsely reported income. Although the returns report income, they do not calculate any tax due. Some of the returns have form 1099-OID (Original Issue Discount) attached and some have Forms 1096. Other false financial instruments may be filed in the place of or in addition to the Forms 1099-OID such as 2439, promissory notes, bonds, sight drafts, etc.</p> <p>Caution: Some returns will need special care. If the with-</p> <p>Form 4227 and place in the locally designated basket for Examination, Frivolous Return Program (FRP) for review. Pay particular attention to returns with Form 1099-OID attached.</p>
IRC 861 Business Employment Tax (BMF 861)	Argument targets employers and advises them that wages are exempt from withholding. Based on 26 Code of Federal Regulations (CFR) Section 1.861, promoters of this scheme advise employers to stop withholding and paying payroll taxes on their employee’s wages. In addition, some employers file amended payroll tax returns and request refunds of previously paid payroll taxes.

◆ Potential Frivolous Arguments for Examination Review ◆

Potential Frivolous Arguments	Description
IRS is a Private Organization/Collects Tribute, Not Taxes	Argues that the IRS is an entity named the Internal Revenue and Tax Service, Inc., which was incorporated in Delaware in 1933, it is a collection agency for the Federal Reserve Bank, or is part of the United Nations and is clandestinely leading the taxpaying public into a “new world order”.
Not a Person	Argues that a taxpayer is not a “person” within the meaning of IRC 7701(a)(14).
Obscene, Vulgar, Harassing	Submits documents or other materials indicating that non-filing is due to dissatisfaction with tax policies or taxation in general. Often, this argument is expressed with obscene, vulgar, or crude language and characters in an extremely demeaning manner.
Protest Against Government Action/Inaction	Argues that refusal to file or pay is justified because they disagree with government policies or spending plans.
Sixteenth Amendment	Argues the Sixteenth Amendment was not properly ratified and therefore the federal government does not have the legal authority to collect an income tax without apportionment.
Straw Men	Argues the government has created an entity separate and distinct from the taxpayer - a “straw man” and any tax obligations are exclusively those of the “straw man”.
Taxes are Voluntary/Law Does Not Require	Submits a return, amended return or correspondence that argues income taxes are voluntary.
U.S. v. Long	Submits return with zero money amounts. To explain the zeros inserted on the form, the individual references “U.S. vs. Long.”
Unsigned Returns	The individual completes a return but fails to sign, a statement indicating disagreement with the tax system is attached or added to the return.
Valuation	Income is not taxable because of the declining fair market value of the dollar, because the dollar is not backed by gold/silver, because the value of services is offset by the value of the labor (barter income), etc.

Potential Frivolous Arguments	Description
Zero Returns	Submits a return with zero money amounts on all or most of the line items on the form (e.g., IRC 861, Forms 2439, OID and other BMF filings that claim no income and request refunds). See Rev. Rul. 3004-34. A statement is attached claiming there is no section of the Internal Revenue Code that established an income tax liability. The statement may also contain arguments regarding the definition of income. There are several variations on this type of filing such as those bearing the words “nunc pro tunc” and “not liable.”
Other	All others including those listed in Notice 2010-33 or any subsequent superseding Notice. See http://www.irs.gov/Tax-Professionals/The-Truth-About-Frivolous-Tax-Arguments-Introduction on IRS.gov. This category includes non-filer accounts resulting from initial compliance check such as cross-reference TINS. Note: Frivolous arguments citing “Collection Due Process-”(CDP) should be reviewed by Collections for possible referral to Appeals. Refer to IRM 5.19.8, Collection Appeal Rights Procedures, for additional information.
