3.12.15.1.1
(01-01-2019)
Background

- (1) The purpose of Error Resolution is to resolve validity errors, field errors, consistency errors, and math errors in returns and other documents for posting to the Master File. Records fall out in Error Resolution System (ERS) due to the Generalized Mainline Framework (GMF). The entries from transcription are transferred to ERS fields. The GMF programming causes a record to fall out to ERS if it fails to meet certain criteria, including:
 - Invalid characters in a field (e.g., numeric instead of alpha).
 - Invalid length of field (e.g., EIN with 8 digits instead of 9).
 - Invalid codes in field (valid Action Codes, Audit Codes, etc. are programmed in GMF).
 - Consistency errors - Any valid field used in any computation where the result is inconsistent with (or contradictory to) any other valid field.
 - Math errors - computer does math computation and it differs from the taxpayer's amount.
 - Invalid Tax Periods and eligibility for certain credits.
- (2) Employees use ERS to correct these conditions and when necessary, use Integrated Data Retrieval System (IDRS) to research.

3.12.15.1.2

◆ Taxpayer Advocate
Service (TAS) ◆

- (1) The Taxpayer Advocate Service is an independent organization within the Internal Revenue Service (IRS), led by the National Taxpayer Advocate, that helps taxpayers and protects taxpayer rights. TAS offers free help to taxpayers when a tax problem is causing a financial difficulty, when they've tried and been unable to resolve their issue with the IRS, or when they believe an IRS system, process, or procedure just isn't working as it should. TAS strives to ensure that every taxpayer is treated fairly and knows and understands their rights under the Taxpayer Bill of Rights. TAS has at least one taxpayer advocate office located in every state, the District of Columbia, and Puerto Rico.
- (2) TAS uses Form 12412, Operations Assistance Request (OAR), to start the OAR process of referring a case to the Taxpayer Services (TS) Division, to affect the resolution of the taxpayer's problem. For more information, refer to IRM 13.1.19, Taxpayer Advocate Service, Taxpayer Advocate Case Procedures, Advocating With Operations Assistance Requests (OARs).

- (3) Refer taxpayers to TAS when the contact meets TAS criteria or when Form 911, Request for Taxpayer Advocate Service Assistance (and Application for Taxpayer Assistance Order), is attached and steps cannot be taken to resolve the taxpayer's issue the same day.
- (4) The definition of "Same day resolution" is within 24 hours. The following two situations meet the definition of "same day resolution":
 - The issue can be resolved within 24 hours.
 - The IRS takes steps within 24 hours to resolve the taxpayer's issue.
- (5) When making a TAS referral, use Form 911, and forward to TAS following your local procedures.
- (6) See IRM 13.1.7, Taxpayer Advocate Service (TAS) Case Criteria, for more information.

3.12.15.2.4.1 (01-01-2022)

◆TAS Service Level Agreements (SLAs)◆

- (1) The National Taxpayer Advocate reached agreements with the Commissioners of the Taxpayer Services (TS) Division, Small Business and Self-Employed (SBSE) Division, Tax Exempt Government Entities (TEGE), Criminal Investigation (CI), Appeals and Large Business & International (LB&I), that outline the procedures and responsibilities for processing Taxpayer Advocate Service (TAS) casework when either the statutory or delegated authority to complete case transactions rests outside of TAS. These agreements are known as Service Level Agreements (SLAs).
- (2) The SLAs are found at <https://irs.gov.sharepoint.com/sites/TAS/SitePages/SLA.aspx>.

3.12.15.2.5 (01-01-2024)

◆IRS Employee Contacts◆

- (1) The Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 (RRA 98), Section 3705(a), gives identification requirements for all IRS employees working tax related matters.
- (2) All IRS employees who communicate by telephone, face-to-face, or any other method of correspondence with taxpayers or their personal representatives on tax-related matters must give (at a minimum) the following information:
 - a. Telephone Contact - Their title (e.g., Mr., Mrs., Ms., Miss), last name and badge identification (ID Card) number. Toll-free employees may also give their location for identification purposes. Treat faxes to taxpayers on tax-related matters as correspondence and include the required information.
 - b. Face-to-Face Contact - Their title (e.g., Mr., Mrs., Ms., Miss), give as appropriate during the conversation, their last name and badge identification (ID Card) number.
 - c. Correspondence (sent to the taxpayer and authorized representatives) - A telephone number that taxpayers can call for answers to questions. In addition, manually generated correspondence must have the employee's title (e.g., Mr., Mrs., Ms., Miss), last name, Integrated Data Retrieval System (IDRS) number, and letter system number, which are systemically generated by IDRS. Treat faxes to taxpayers on tax-related matters as correspondence and include the required information.
 - d. Correspondence letters - Specific employee name and telephone number if the employee initiating the correspondence is in the best position to respond to any questions the taxpayer may have or if the taxpayer is being asked to give more case-related information. If the taxpayer does

not need to contact a specific employee, the correspondence needs only an IRS telephone number and standard signature.

- (3) When a taxpayer requests to speak with a specific employee who previously worked their inquiry or request, or complains about the level of service previously given, make every attempt to resolve the taxpayer's inquiry. If unable to resolve the issue, refer the inquiry using established procedures to the manager.
- (4) Secretaries, receptionists, or other people who answer the telephone in functional offices need to identify themselves. They will provide their badge identification (ID Card) number only if they are answering telephones which are routinely used to give tax or account information.
- (5) It is not necessary to repeat the badge identification (ID Card) number on a subsequent contact, when the nature of an employee's work involves multiple contacts with the same taxpayer and the employee has given the taxpayer (either by telephone or in-person) their badge identification (ID Card) number on the first contact.

Inventory Report**

- (1) Each day the Workable Suspense Inventory Report will be furnished showing the records by Program in DLN order for various status situations. Separate pages for each program, with totals, will be given.
- (2) The first line of the report will show the number of working days that the records have been in the Workable Suspense Inventory. This will allow priority to be given to the older work.

3.12.15.2.10
(01-01-2023)
**Error Displays and
Corrections**

- (1) All Form 1065 Error Screen Displays will display as follows:
 - Each field is identified by an Alpha/Numeric field Designator (AFD) displayed before the field.
 - Fields are displayed with no breaker.
 - Negative values are shown by a minus ("-") sign following the amount.
 - Decimal points are displayed beginning in the left position.
 - Leading zeroes in amount fields are suppressed and the significant digits are displayed beginning in the left position.
 - If more than one amount field of a record is to be shown, the unit positions are aligned beneath one another.
 - Sufficient leading blanks are displayed preceding the shorter amounts so the unit position of these amounts is directly in line with the unit position of the longest amount.
 - The cents digits are not displayed for "Dollars Only" fields. So that the unit position will remain in line with the other fields of the section, two asterisks ("**") are displayed in the cents position of the dollars only field.
- (2) Corrections are entered starting with the left-most position of the field. Blank-out unused positions.
 - If fewer than the maximum number of positions is required, the program will automatically move to the right of the digits.
 - It is not necessary to enter the decimal point. If the decimal point is entered, it will be ignored.
 - A minus sign ("-") **must** be entered as the last numeric if the amount is negative.
- (3) Be careful not to enter more than the number of positions allowed for a particular field. If more data is entered, the overflow characters will display on the screen but are dropped when the field is added to the record. **This is especially important for the Taxpayer Identification Number (TIN), name and address.**
- (4) Corrections can be made to a displayed field by overlaying only the digits in error and not re-entering the entire field. It is not necessary to eliminate the decimal point when correcting in this manner.
- (5) If it is necessary to add a missing section:
 - a. Transmit with Command Code (CC) GTSEC, followed by the desired section Number.
 - b. When the empty section format is displayed, enter the missing data in the proper fields and transmit with CC CRECT.
- (6) If it is necessary to see a field or section of the record other than that shown in the display:
 - a. Enter CC GTSEC, followed by the desired section Number.
 - b. If a correction is **not** made to the section, drop to the bottom of the screen, and transmit.
 - c. Any error display **not** showing all fields necessary for resolution must be reported to Headquarters.

Reminder: When transmitting corrections to a screen display, move the cursor below the last field that has data before transmitting.

- (7) If it is necessary to delete a section of the record, enter CC DLSEC, followed by the desired section Number.
- (8) If it is determined during the course of correcting a Priority II, III or IV Error, that more information or research is necessary to resolve the error (or if the error is rejected), enter the appropriate Action Code with either CC SSPND or RJECT.

Action Codes

- (1) Action Codes (AC) are input when information is missing, or the return must be suspended from processing.
- (2) For a listing of valid ERS Action Codes, See IRM 3.12.15.2.12.1, Action Code Chart, below.
- (3) Document Perfection Tax Examiners will assign a three digit code to a numbered return when they determine that the document is unprocessable in its present form either because more information is necessary or some manual intervention is required. This code will be entered in the bottom left margin of the return.

- (4) A Correspondence Action Sheet is used for initiating correspondence. This form is attached by Document Perfection. When routing within the campus (in-house research), an explanation concerning the missing information will need to be attached to the return.
- (5) The Action Code assigned by Document Perfection will be transcribed into the record of the Form 1065.
- (6) The presence of a valid Action Code other than 001 will place the record in the Suspense Inventory, either Workable or Unworkable.
- (7) If the Action Code assigned by Document Perfection is invalid or incomplete, the record will be assigned to the Error Inventory for correction or deletion of the code.
- (8) Only one Action Code may be assigned at one time to a record. The priority of the Action Codes will be 320, 4XX, 6XX, 3XX, 2XX.
- (9) An ERS Tax Examiner may:
 - a. Enter an Action Code on a record.
 - b. Delete or correct an invalid code.
 - c. Overlay the present Action Code with another to either resuspend or reject from ERS. This is done by entering a valid Action Code with CC SSPND, RJECT or NWDLN. See IRM 3.12.38, Error Resolution, BMF General Instructions, for more information.
 - d. Enter a valid Action Code with CC SSPND to clear the record from the screen and place the record in either Workable Suspense or Unworkable Suspense.
 - e. Enter a valid Action Code with CC RJECT to reject the record from ERS. Generally, the Service Center Control File (SCCF), will be automatically updated for the rejected records.

3.12.15.2.13
(01-06-2023)

Correspondence

- (1) DO NOT correspond with the partnership when there is an indication on the return that no transactions transpired during the tax year.

Reminder: A partnership is not considered to engage in a trade or business and is therefore not required to file for any tax year in which it neither receives income nor incurs any expenditures treated as deductions or credits for federal income tax purposes.

- (2) Correspondence records with Action Code 21X will be automatically suspended for a predetermined number of days or until the taxpayer replies, whichever is earlier.

Note: Do not correspond for information on any return “SECURED BY EXAMINATION OR COLLECTIONS” or reprocessable/reinput returns identified as “CII” returns.

See IRM 3.12.15.2.13.1, Correspondence Imaging Inventory (CII) Returns for correction procedures for “CII” returns.

- (3) As an ERS tax examiner issuing correspondence you may **either**:
- a. Use the IDRS Correspondence feature CC LETER, or
 - b. Initiate correspondence by using a Correspondence Action Sheet. An IDRS operator or typist will use the form in issuing the actual correspondence.
- (4) **No reply** to correspondence requires a Computer Condition Code (CCC) “3” in Field 01CCC. See specific IRM procedures and No Reply Procedures in Exhibit 3.12.15-25.
- (5) Most correspondence is either computer generated notice, computer generated letter or preprinted letter. All correspondence now reflects a response period within 30 days and the consequence for not replying.
- (6) If special notes or letters are developed, conform to the language and response periods that are used in (4) above. Use the following guidelines:
- a. All correspondence to the partnership requesting information must show that a response is required. Specify the length of time the partnership has to respond (generally 30 days) and include a statement on the action IRS will take if the response is not received timely. Be sure to include the following statement:
“WHEN YOU REPLY, PLEASE INCLUDE YOUR TELEPHONE NUMBER AND THE MOST CONVENIENT TIME FOR US TO CALL SO WE MAY CONTACT YOU IF WE NEED MORE INFORMATION”.
 - b. Provide for a purge date at least 10 days after the date given in the letter.
 - c. Whenever possible, form letter must be used to correspond with the partnership. If a C-NOTE or QUICKNOTE is used, be sure that it clearly communicates the message in simple language and has the required information.
 - d. When partnerships make errors that cause delays, advise the partnership that they made the error and explain what the error was that caused the delay.
 - e. Specific turnaround times for working correspondence as outlined in IRM 3.30.123.5, Taxpayer Correspondence, Central Authorization File (CAF), Statutes, Taxpayer Advocate, RAIVS Photocopies, and Files, must be followed and monitoring reports must be instituted to ensure that these guidelines are met.

Elective Payment Election (EPE) and Credit Transfers

◆ **Criminal Investigation**
(CI) Referral ◆

(1) Criminal Investigation (CI) investigates potential criminal violations of the Internal Revenue Code (IRC) and related financial crimes. Criminal violations of the IRC include willful attempts to evade or defeat the income tax. Criminal tax violations also include the willful failure to collect or pay over tax and false claims for refunds based on bogus return information.

(2) If CI has stamped the return, do not send for further CI action.

#

Caution: If there is no sign Code and Edit (C&E) made a copy and sent to CI Referral, then see below.

Refund Claim	Ogden and Kansas City
	<ol style="list-style-type: none"> 1. Make a copy of the first two pages of the tax return along with any page of the return that appears suspicious. 2. Attach Form 4227, Intra-SC Reject or Routing Slip, to the copy. 3. Route the copy to Ogden, Mail Stop 9001, Criminal Investigation (CI). 4. Edit an action trail "Copy to CI", or "CI Referral", or similar language in the lower left corner going vertically up the side of the return. 5. Continue processing the return.

#

- (4) Because of the repetitive nature of the ERS/Rejects function, ERS/Rejects Tax Examining Technicians often recognize income tax return data which is outside of the norm for data found on similar returns for each income tax return type. If ERS finds return characteristics not meeting Audit Code or Exam referral criteria it deems suspicious, CI is available to review the referral.
- (5) If a suspicious return is found, and there is no sign Code and Edit (C&E) made a copy and sent to CI Referral, then, do the following:
1. Make a copy of the first two pages of the tax return along with any page of the return that appears suspicious.
 2. Attach Form 4227, Intra-SC Reject or Routing Slip, to the copy.
 3. Route the copy as shown in the table below.

4. Edit an action trail "Copy to CI", or "CI Referral", or similar language in the lower left corner going vertically up the side of the return.
 5. Continue processing the return.
- (6) If the return fits other criteria (e.g., Frivolous Argument), take proper action.

3.12.15.2.18
(01-01-2022)
♦ **Examination (Exam)**
"Funny Box" Criteria ♦

- (1) The primary goal in identifying tax returns for examination is to promote the highest degree of voluntary compliance. Examination gives support and helps Submission Processing (SP) with any questionable return found during processing. Exam has a vast multitude of programs and tolerance criteria already found in several IRM sections. SP can refer any questionable return to Exam, unless prohibited by instructions currently found in several IRMs.

3.12.15.2.19
(01-01-2022)
♦ **Business Master File (BMF) Identification (ID) Theft** ♦

- (1) BMF Identification (ID) Theft is increasing. If a case is found with attachments or correspondence showing the taxpayer is a victim of "ID Theft":
1. SSPND with Action Code 360 to route the return to Planning & Analysis (P&A).
 2. Attach Form 4227, Intra-SC Reject or Routing Slip (or other proper routing slip) with the notation "ID THEFT".

3. Give the entire case to the manager/lead.

- (2) The manager/lead will expedite the case to the P&A staff for referral to one of the SP BMF ID Theft liaisons. The taxpayer must show that they are a victim of "ID Theft"; do **not** send cases that are subject to Criminal Investigation (CI), Examination (Exam) or Fraud review.

3.12.15.2.20
(01-01-2024)

◆Working Trail◆

- (1) It is important to leave a legible "Working Trail", (or "Action Trail") using blue ink for those who may work the return later.
- (2) Write all Taxpayer Notice Codes (TPNCs) 90 on the front of the return in the upper left corner, (or use Form 12648, Error Correction 90 TPNC).
- (3) If corresponding with a non-suspense letter, "X" and write the corrected money amounts to the left of each original point(s) of error. Write money amounts in dollars only or dollars and cents, as applicable. Arrowing is allowed for money amounts when there are **no intervening entries** between the arrow and the line to which the money is to be entered.
- (4) Leave a working trail on the return when changes are made to the following items:
- Employer Identification Number (EIN)
 - Tax Period
 - Computer Condition Code (CCC)
 - Received Date
 - Correspondence Received Date (CRD)

Reminder: Circle out incorrect Tax Periods, Received Dates, and Employer Identification Numbers (EINs).

- (5) When working Reject re-inputs, circle out any previous Action Codes shown on the front of the return, if no longer applicable.
- (6) When working Rejects, write "Voided" with the date above the DLN in red, when voiding a return.

3.12.15.3
(01-01-2023)

Types of Errors

- (1) This subsection gives a description of the types of errors generated during Form 1065 processing.
- (2) The Error Resolution System (ERS) will identify errors according to type and priority. This will show in the record heading:
- Action Code Error (Priority I)
 - Section Error (Priority II) - Includes terminus error and ISRP (Integrated Submission and Remittance Processing) problem code.
 - Validity Error (Priority III)
 - Math/Consistency Error (Error Codes) (Priority IV)
- (3) There may be records where the tax examiner finds that programming has not supplied a section or a field that is needed to solve an error. In this event, the tax examiner can use Command Code (CC) GTSEC. See IRM 3.12.15.2.11. This must be reported to Headquarters for correction of the display.

3.12.15.3.1
(01-01-2016)

Priority I Errors - Action Code/Unpostable Code Errors

- (1) **Description:**
 - All records with an invalid Action Code assigned by Document Perfection will be placed in the Error Inventory and will be displayed as a Priority I Error.
 - All records with a valid Action Code will be assigned to a Suspense Inventory and will be displayed as a Priority I Error.
- (2) **Display** - The Action Code for the record with the literal description of the action or unpostable condition will be shown.
- (3) **Correction Procedures** - Process Priority I errors as follows:

If	Then
Suspense action is required,	Enter CC SSPND with the correct Action Code.
Suspense action is not required,	Enter "000" in the Clear Field (CL) Field.

Note: Except for priority statute and manual refund cases, **do not** remove the document from the block.

- (4) See IRM 3.12.38, BMF General Instructions, procedures for correcting Priority I Action Code errors in Suspense and Unpostable Code Correction.

3.12.15.3.2
(01-06-2023)

Priority II Errors - Section Errors

- (1) Most edit, missing section, and terminus errors must be eliminated by the ISRP system. However, edit errors and/or terminus errors may be present if normal ISRP validity checks have been bypassed.
- (2) **Edit Error** - A section with an error detected by ISRP. Edit errors will be coded as follows:
 - **Code 1** - Split screen transmission, key verifier attempted to change Check Digit, key verifier changed 4 or more digits of TIN, or the original entry operator shows that a required section is missing.
 - **Code 2 - CATCH-ALL ISRP ERROR:** Any error attributed to ISRP that is not described below, such as invalid characters in a field, or a combination of errors listed below.
 - **Code 3** - Invalid section ending point.
 - **Code 4** - Invalid field length.
 - **Code 5** - Questionable section - the ISRP operator input the same section more than once. The computer program will drop all duplicate sections and display on the error screen the first one encountered.

Note: When displayed, this type of error will display all input fields, except for the Remittance in Section 01 of the section in error. Transcribed data will be present. Computer generated data will not be present.

- (3) **Correction Procedures:**
 - Check all fields of the section when this condition exists verifying that fields are entered as coded.

Note: Ensure the return is for the taxpayer whose name is in Section 01.

- If no correction is needed, or once the section is correct, transmit from the bottom of the screen.
- If the section needs to be deleted, enter CC DLSEC with the section number.

- (4) **Terminus Error** - This error is caused by a section with variable length input fields that have an erroneous size field.
- a. Examine all fields of the section.
 - b. Make the necessary corrections to the record.
 - c. Once the section is correct, or if no corrections are necessary, transmit from the bottom of the screen.
 - d. If the return was suspended prior to the beginning of a new year and the return has been reactivated, access the record using Command Code GTREC, check all fields for necessary correction, then drop the cursor to the bottom of the screen and transmit.

(5) **Correction Procedures:**

- CC CRECT will be displayed. If the section needs to be deleted, use CC DLSEC to delete the section.
- If no corrections are needed, transmit from the bottom of the screen.

3.12.15.3.3
(01-01-2016)

Priority III - Field Errors

- (1) **Definition** - Any field that does not meet the requirement(s) for that field will be shown as a Priority III error. Consistency and or relationships with other fields will not be a factor.

 - Non-alphabetical character in an alpha field.
 - Blank space in a numeric field.
 - Blank in the first position of an alpha field if followed by significant data.
- (3) **Display** - Every field displayed is in error.
- All fields with a Priority III error will be displayed in columnar format in the order encountered in the record.
 - An overflow field is identified by all question marks for a money field or a single pound sign in the last position of a Name Line.
- (4) **Correction Procedures:**
- a. Correct every error field displayed using the specific instructions within each section for the field in error.
 - b. Check the information on the source document to determine if each displayed field has been correctly coded and transcribed.
 - c. Enter the correct data for each field displayed.
 - d. If no data is to be in a displayed field, blank the field.
 - e. Transmit.

3.12.15.3.4
(01-01-2016)
**Priority IV Errors -
Consistency/Math Errors**

- (1) **Definition** - Any valid field used in any computation in which the result is inconsistent with (or contrary to) any other valid field will have Error Code 001-999 assigned and will be shown as a Priority IV Error.
- (2) **Display** - These errors will be displayed with the Error Code assigned to them for the specific error in ascending numerical order. The screen display will show the Error Code assigned and the fields needed to make the necessary correction.
 - a. The blank field "CL" will be displayed for the entry of a Clear Code on records where the possibility exists that a change or correction may **not** be needed.
 - b. All errors must be resolved by either eliminating the error or entering a Clear Code.
- (3) **Correction Procedures:**
 - Correct all coding and transcription errors.
 - If the data in the field is correct, enter a "C" in the Clear Code field.

What's New

Small business taxpayers. For tax years beginning after December 31, 2023, if filing Form 1125-A for a small business taxpayer (defined later) that uses an alternative method of accounting for inventories, check the applicable box on line 9a(iv) through 9a(vi). See the instruction for line 9.

General Instructions

Purpose of Form

Use Form 1125-A to calculate and deduct cost of goods sold for certain entities.

Who Must File

Filers of Form 1120, 1120-C, 1120-F, 1120S, or 1065 must complete and attach Form 1125-A if the applicable entity reports a deduction for cost of goods sold.

Inventories

Generally, inventories are required at the beginning and end of each tax year if the production, purchase, or sale of merchandise is an income-producing factor. See Regulations section 1.471-1. If

inventories are required, you generally must use an accrual method of accounting for sales and purchases of inventory items.

Exception for small business taxpayers. A small business taxpayer can account for inventories in the same manner as material and supplies that are non-incidental, or conform to its treatment of inventories in an applicable financial statement (as defined in section 451(b)(3)). If it does not have an applicable financial statement, it can use the method of accounting used in its books and records prepared in accordance with its accounting procedures. See section 471(c)(3).

A small business taxpayer is a taxpayer that (a) has average annual gross receipts of \$30 million or less (indexed for inflation) for the 3 prior tax years, and (b) is not a tax shelter (as defined in section 448(d)(3)). See Rev. Proc. 2023-34, 2023-48 I.R.B. 1287, or any successor.

For additional guidance on methods of accounting, see Pub. 538, Accounting Periods and Methods. For guidance on changing methods of accounting, see Form 3115, Application for Change in Accounting Method, and the instructions for Form 3115.

Uniform capitalization rules. The uniform capitalization rules of section 263A generally require you to capitalize, or include in inventory, certain costs incurred in connection with the following.

- The production of real property and tangible personal property held in inventory or held for sale in the ordinary course of business.
- Real property or personal property (tangible and intangible) acquired for resale.
- The production of real property and tangible personal property for use in its trade or business or in an activity engaged in for profit.

A small business taxpayer (defined above) is not required to capitalize costs under section 263A. See section 263A(i).

See the discussion on section 263A uniform capitalization rules in the instructions for your tax return before completing Form 1125-A. Also see Regulations sections 1.263A-1 through 1.263A-3. See Regulations section 1.263A-4 for rules for property produced in a farming business and Pub. 225, Farmer's Tax Guide.

◆ Potential Frivolous Arguments for Examination Review ◆

Potential Frivolous Argument	Description
Alleged Churches/First Amendment	Income from non-religious sources and may claim a vow of poverty.
Altered Form	Altering any or all line items with the intent of facilitating non-compliance with the tax laws.
Altered Jurat/Uniform Commercial Code (UCC) 1-207 or UCC 1-308	Return has income and deductions but the jurat has been altered or stricken. May include reference to UCC 1-207/ UCC 1-308 or a statement that the return was not signed under penalties of perjury.
Amended Returns/Form 843 Claim	Amended return or a Form 843, Claim for Refund and Request for Abatement , filed to obtain a total refund of all taxes paid in prior years, based on a tax avoidance argument.
C-Filings	<p>This frivolous position includes the following four categories:</p> <ol style="list-style-type: none"> Files a return claiming several types of deductions, credits, or overpayments/refunds that have no relation to reality and because of their outrageous character, qualify as frivolous returns. Files a return containing the filers identifying information but does not request a refund, often lacking sufficient information to determine a tax liability. Files a return with several types of rambling dialogue or confusing arguments that no one could reasonably view as a good faith attempt to comply with the law. Files a return that attempts to send some type of message or protest to the IRS, but fails to include sufficient identifying information for the IRS to either determine the identity of the taxpayer or correspondent or return address.
Challenges to Authority/Due Process	Questions several administrative authorities such as delegation orders, summons authority, Privacy Act, etc. Argues that they must be afforded a hearing or a trial before taxes can be assessed or before property can be seized.
Challenges to Authority/Title 26 or "law" in Other Documents	Argues that Title 26 of the United States Code is not law because it was never enacted as named.

Exhibit 3.12.15-24 (Cont. 1) (01-01-2022)**◆ Potential Frivolous Arguments for Examination Review ◆**

Potential Frivolous Argument	Description
Collection Issues	Files frivolous documents contending that several collections issues are invalid (e.g., Offers in Compromise, Collection Due Process Requests, Installment Agreements, Appeals Requests, etc.) because they are not filed and signed by someone with delegated authority. They may have no certificate of assessment attached, do not comply in form or content with a State or Local law, are not in a certain format or lack a valid OMB (Office of Management and Budget) number or other frivolous positions.
Disclaimer	Submits a disclaimer stating, “disclaims the liability for the tax due”, making the liability on the return zero.
Fifth Amendment	Assertion of the Fifth Amendment right against self-incrimination as a basis for not providing any financial information.
Foreign Income	Argues that United States citizens and residents are not subject to tax on their wages or other income derived from sources within the United States, as only foreign-based income or income received by nonresident aliens and foreign S Corporations from sources within the United States is taxable.
Form 1099-OID (Original Issue Discount)	An individual or business files a return reporting false amounts of income (generally “Other” or “Miscellaneous income”) and claims a false amount of income tax withholding approximately equal to the amount of falsely reported income. Although the returns report income, they do not calculate any tax due. Some of the returns have Form 1099-OID (Original Issue Discount) attached and some have Form 1096. Other false financial instruments may be filed in the place of or in addition to the Form 1099-OID such as Form 2439, promissory notes, bonds sight drafts, etc.
IRC 861 Business Employment Tax (BMF 861)	Argument targets employers and advises them that wages are exempt from withholding. These taxpayers rely on Sections 861 through 865 of the Code and the regulations (in particular, Treasury Regulation 1.861-8), promoters of this scheme advise employers to stop withholding and paying payroll taxes on their employee’s wages. In addition, some employers file amended payroll tax returns and request refunds of previously paid payroll taxes.

◆ Potential Frivolous Arguments for Examination Review ◆

Potential Frivolous Argument	Description
IRS is a Private Organization/Collects Tribute, Not Taxes	Argues that the IRS is an entity named the Internal Revenue and Tax Service, Inc., which was incorporated in Delaware in 1933, it is a collection agency for the Federal Reserve Bank, or is part of the United Nations and is clandestinely leading the tax-paying public into a “new world order.”
Not a Person	Argues that a taxpayer is not a “person” within the meaning of IRC 7701(a)(14).
Obscene, Vulgar, Harassing	Submits documents or other materials indicating that non-filing is due to dissatisfaction with tax policies or taxation in general. Often, this argument is expressed with obscene, vulgar, or crude language and characters in an extremely demeaning manner.
Protest Against Government Action/Inaction	Argues that refusal to file or pay is justified because they disagree with government policies or spending plans.
Sixteenth Amendment	Argues the Sixteenth Amendment was not properly ratified and therefore the federal government does not have the legal authority to collect an income tax without apportionment.
Straw Man	Argues the government has created an entity separate and distinct from the taxpayer - a “straw man” and any tax obligations are exclusively those of the “straw man”.
Taxes are Voluntary/Law Does Not Require	Submits a return, amended return, or correspondence that argues income taxes are voluntary.
U.S. vs. Long	Submits a return with zero money amounts. To explain the zeros inserted on the form, the individual references U.S. vs. Long .
Unsigned Returns	The individual completes a return but does not sign. A statement indicating disagreement with the tax system is attached or added to the return.
Valuation	Income is not taxable because of the declining fair market value of the dollar, because the dollar is not backed by gold/silver, because the value of services is offset by the value of the labor (barter income), etc.

Potential Frivolous Argument	Description
Zero Returns	Submits a return with zero money amounts on all or most line items on the form (e.g., IRC 861, Form 2439, OID and other BMF filings that claim no income and request refunds). See Rev. Rul. 2004-34. A statement is attached claiming there is no section of the Internal Revenue Code that established an income tax liability. The statement may also have arguments regarding the definition of income. There are several variations on this type of filing such as those bearing the words “nunc pro tunc” and “not liable”.
Other	All others including those in Notice 2010-33 or any subsequent superseding Notice. See also http://www.irs.gov/Tax-Professionals/The-Truth-About-Frivolous-Tax-Arguments-Introduction on IRS.gov. This category includes non-filer accounts resulting from initial compliance check such as cross-reference TINs. Note: Frivolous arguments citing “Collection Due Process” (CDP) must be reviewed by Collections for possible referral to Appeals. Refer to IRM 5.19.8, Collection Appeal Rights, for more information.
