3.42.20.2 (10-08-2020) e-file Hardship Waivers	<ol style="list-style-type: none">(1) IRC 6011(e)(3) states that all tax return preparers who reasonably expect to file or whose firm reasonably expects to file, in the aggregate, 11 or more individual income tax returns, must file electronically. Current tax forms covered by the e-file requirement are Form 1040, Form 1040NR, Form 1040SR and Form 1041.(2) The IRS will waive the electronic filing requirement under certain circumstances. Preparers must request a waiver using Form 8944, Preparer e-file Hardship Waiver Request. See IRM 3.42.20.4, Form 8944, Preparer e-file Hardship Waiver Request.(3) Waiver requests are approved on a case-by-case basis and are valid for a period of one calendar year.
3.42.20.3 (10-01-2016) Administrative Exemptions	<ol style="list-style-type: none">(1) If a return preparer meets one of the administrative exemptions shown below, they do not have to electronically file, nor should they submit Form 8944, Preparer e-file Hardship Waiver Request.(2) The following are administrative exemptions to the e-file mandate requirement:<ul style="list-style-type: none">• Preparer Members of Certain Religious Groups - The preparer is a member of a recognized religious group that is conscientiously opposed to filing electronically.

- Foreign Preparers without Social Security Numbers - The preparer is ineligible to file electronically because the IRS does not accept foreign preparers without social security numbers who live and work abroad.
 - Certain Preparers Ineligible for IRS *e-file* - The preparer is ineligible to participate in IRS *e-file* due to an IRS sanction. This exemption ends on the date the sanction period ends or the date the IRS accepts the return preparer into the IRS *e-file* program, whichever date occurs first.
 - Exempt Individual Income Tax Returns Due to Preparer's Technological Difficulties:
 - a. Rejected returns - return rejected for IRS *e-file* and the preparer could not resolve the reject condition.
 - b. Forms or Schedules Not Supported by Preparer's Software Package - The preparer's e-file software package does not support a form or schedule attached to the return.
 - c. Other Technological Difficulties - short-term inability to e-file due to some other verifiable and documented technological problem.
 - Exempt Individual Income Tax Returns Due to IRS *e-file* Limitations - returns not currently accepted by IRS *e-file* (e.g., Form1041-QFT) or required documentation or attachments not accepted electronically.
- (3) Although administrative exemptions are automatic, if a preparer submits Form 8944 indicating an Administrative Exemption as the hardship type, process the waiver request using the following procedures:
- a. Search the Preparer Waiver Request (PWR) Database for a prior or current year waiver.
 - If prior year waiver found, see IRM 3.42.20.4.5, Prior Year Waivers on File.
 - If current year, see IRM 3.42.20.4.4, Reconsiderations.
 - b. Input all available information from Form 8944 to the PWR Database.
 - c. Select "Administrative Exemption" as the Hardship Type.
 - d. Update the Comment Field to reflect the type of administrative exemption.
 - e. Edit the waiver sequence number on the upper-right corner of Form 8944, if applicable (e.g., prior year).
- Note:** See an explanation of sequence numbers in IRM 3.42.20.4.1, Processing Form 8944, Preparer e-file Hardship Waiver Request.
- f. The PWR Database will generate Letter 4655 with paragraph "na".

- (4) Form 8944 must be processed within 30 days of receipt. If a Form 8944 is not processed within 30 days, an interim letter must be issued by selecting the appropriate box on the PWR Database.
- (5) The retention period for Form 8944 is three years from the date the letter is issued.

3.42.20.4.1
(10-01-2016)

**Processing Form 8944,
Preparer e-file Hardship
Waiver Request**

- (1) Review Form 8944 to ensure all required fields are completed. The following must be completed or included:

- Lines 2, 3, 6, 7, 8, and 9 (if 7b, 7c or 7d is checked)

Note: When the applicant is a preparer in a firm and expects to file 11 or more returns and question 5 is answered “Yes” 6(iv) must be completed. In addition, the Preparer Tax Identification Number (PTIN) on Line 3 must be in a valid format of PXXXXXXX.

- Signature
- Required documentation (see IRM 3.42.20.4.3, Required Documentation)

If any required information is missing, see IRM 3.42.20.4.2, Incomplete Form 8944, Preparer e-file Hardship Waiver Request.

- (2) Search the PWR Database by PTIN for an existing record.
 - If a waiver is found for a prior year, see IRM 3.42.20.4.5, Prior Year Waivers on File.
 - If a duplicate request is found for the current year that has been processed, file Form 8944 with the first.
 - If a different existing request is found for the current year, follow the instructions in IRM 3.42.20.4.4, Reconsiderations.
- (3) If a year other than the current calendar year is entered on Form 8944 and the applicant gives a clear indication that the waiver is intended for the current calendar year, process the form as if it is for the current year. Otherwise, process as “Not Current Calendar Year” by selecting “Not Current Calendar Year” from the Calendar Year drop-down menu.
- (4) If no existing entries are found in the PWR Database, enter the information from Form 8944 following the instructions in IRM 3.42.20.6.1, Description and Use of Preparer Waiver Request Database.

- (5) After all information is input, select the Go/Update button to submit the entry. A dialogue box will appear with a Waiver Sequence Number. Write the Waiver Sequence Number on the upper-right corner of the Form 8944.
- (6) Each waiver is assigned a waiver sequence number containing nine digits assigned by the PWR Database. The first four digits are the waiver year (i.e., 2024 or 2025) and the last five digits are assigned in sequential order of input to the database.

Note: Sequence numbers are assigned differently for waivers received for a prior year. The first two digits are 99. The second two digits are the year of the waiver (i.e., 23 for a 2024 waiver or 24 for a 2025 waiver.)

- (7) Generate an acceptance or denial letter as described in IRM 3.42.20.7, Waiver Letters.

3.42.20.4.2
(10-16-2016)
**Incomplete Form 8944,

- (2) Highlight the lines with incomplete information on Form 8944. Return the highlighted form with the incomplete letter generated from the PWR Database.
- (3) Compare the waiver number on Form 8944 with the letter to ensure accuracy. Upon completion, document the waiver history sheet with the waiver number and the date returned to the preparer. File the Form 8944 along with a copy of the letter issued in waiver number order and attached to the waiver history sheet. For an explanation of waiver sequence numbers, see IRM 3.42.20.4.1.
- (4) The preparer must return the completed Form 8944 within 30 days from the date of the incomplete letter.
 - If no response is received from the preparer no further action will be taken by EPSS.
 - If the response is received after the allowed 30 day window, generate Letter 4654 with paragraph “d3b”.
