U.S. Estimated Tax for Nonresident Alien Individuals

Future developments. For the latest information about developments related to Form 1040-ES (NR) and its instructions, such as legislation enacted after they were published, go to [IRS.gov/Form1040ESNR](https://www.irs.gov/Form1040ESNR).

Purpose of This Package

If you are a nonresident alien, use this package to figure and pay your estimated tax for 2018. See *Who Must Make Estimated Tax Payments* to determine if you are required to use this package.

Estimated tax is the method used to pay tax on income that isn't subject to withholding. See the 2017 Instructions for Form 1040NR, U.S. Nonresident Alien Income Tax Return, or Form 1040NR-EZ, U.S. Income Tax Return for Certain Nonresident Aliens With No Dependents, for details on income that is taxable.

Estimated tax for an estate or trust. If you are using this package to figure and pay estimated tax for a nonresident alien estate or trust, use the 2017 Form 1040NR as a guide in figuring the estate's or trust's 2018 estimated tax. You also may find it helpful to refer to the 2018 Form 1041-ES.

Change of address. If your address has changed, file Form 8822, Change of Address, to update your record.

Who Must Make Estimated Tax Payments

General Rule

In most cases, you must pay estimated tax for 2018 if both of the following apply.

1. You expect to owe at least \$1,000 in tax for 2018, after subtracting your withholding and refundable credits.
2. You expect your withholding and refundable credits to be less than the smaller of:
 - a. 90% of the tax to be shown on your 2018 tax return, or
 - b. 100% of the tax shown on your 2017 tax return. Your 2017 tax return must cover all 12 months.

Note. These percentages may be different if you are a farmer, fisherman, or higher income taxpayer. See *Special Rules*, later.

Special Rules

There are special rules for farmers, fishermen, certain household employers, and certain higher income taxpayers.

Farmers and fishermen. If at least two-thirds of your gross income for 2017 or 2018 is from farming or fishing, substitute 66% for 90% in (2a) under *General Rule*, earlier.

Household employers. When estimating the tax on your 2018 tax return, include your household employment taxes if either of the following applies.

- You will have federal income tax withheld from wages, pensions, annuities, or other income effectively connected with a U.S. trade or business.
- You would be required to make estimated tax payments to avoid a penalty even if you didn't include household employment taxes when figuring your estimated tax.

Higher income taxpayers. If your adjusted gross income (AGI) for 2017 was more than \$150,000 (\$75,000 if your filing status for 2018 is married filing separately), substitute 110% for 100% in (2b) under *General Rule*, earlier. This rule doesn't apply to farmers or fishermen.

Married filing separately. Your filing status is married filing separately if you will check filing status box 3, 4, or 5 on your 2018 Form 1040NR or filing status box 2 on your 2018 Form 1040NR-EZ.

Increase Your Withholding

If you also receive salaries and wages, you may be able to avoid having to make estimated tax payments on your other income by asking your employer to take more tax out of your earnings. To do this, file a new Form W-4, Employee's Withholding Allowance Certificate, with your employer.

TIP You can use the *IRS Withholding Calculator at [IRS.gov/W4App](https://www.irs.gov/W4App) to determine whether you need to have your withholding increased or decreased.*

What's New

In figuring your 2018 estimated tax, be sure to consider the following.

Change in tax rates. For 2018, most tax rates have been reduced. The 2018 tax rates are 10%, 12%, 22%, 24%, 32%, 35%, and 37%.

Deduction for personal exemptions suspended. For 2018, you can't claim a personal exemption deduction for yourself, your spouse, or your dependents.

Child tax credit and additional child tax credit. For 2018, the credit amount for the child tax credit is increased to up to \$2,000 per qualifying child. The amount of the credit that is refundable as the additional child tax credit is increased to up to \$1,400. In addition, the maximum income threshold at which the credit begins to phase out is increased to \$200,000 (\$400,000 if married filing jointly).

Credit for other dependents. A new credit of up to \$500 is available for each of your dependents that is not a qualifying child. In addition, the maximum income threshold at which the credit begins to phase out is increased to \$200,000 (\$400,000 if married filing jointly).

Social security number (SSN) required for child tax credit. Your child must have an SSN issued before the due date of your 2018 return (including extensions) to be claimed as a qualifying child for the child tax credit or additional child tax credit. If your dependent child has an ITIN, but not an SSN, issued before the due date of your 2018 return (including extensions), you may be able to claim the

new credit for other dependents for that child.

Unearned income of children. For 2018, the tax rates and brackets for the unearned income of children have changed. The new tax rates applicable to unearned income in excess of \$2,550 are 24%, 35%, and 37%.

Changes to itemized deductions. For 2018, the following changes have been made to itemized deductions that can be claimed on Schedule A.

- Your itemized deductions are no longer limited if your AGI is over a certain amount.
- You can deduct the part of your medical and dental expenses that is more than 7.5% of your AGI.
- Your deduction of state and local income, sales, and property taxes is limited to a combined, total deduction of \$10,000 (\$5,000 if married filing separately).
- You can no longer deduct job related expenses or other miscellaneous itemized deductions that were subject to the 2% of AGI floor. You may still deduct certain other items on Schedule A, such as gambling losses.
- For indebtedness incurred after December 15, 2017, the deduction for home mortgage interest is limited to interest on up to \$750,000 of home acquisition indebtedness. This new limit doesn't apply if you had a binding contract to close on a home after December 15, 2017 and closed on or before April 1, 2018 and the prior limit would apply.
- You can no longer deduct interest on home equity indebtedness, which means indebtedness not incurred for the purpose of buying, building, or substantially improving the qualified residence secured by the indebtedness.
- The limit on charitable contributions of cash has increased to 60% of your AGI.

For more information, see the Instructions for Form 1040NR, Schedule A.

Code section 199A. For taxable years beginning after December 31, 2017, taxpayers other than corporations are entitled to a deduction of up to 20% of their qualified business income from a qualified trade or business. The deduction is subject to multiple limitations based on the type of trade or business, the taxpayer's taxable income, the amount of W-2 wages paid with respect to the qualified trade or business, and the unadjusted basis of qualified property held by the trade or business. The deduction can be taken in addition to the standard or itemized deductions. For more information, see code section 199A.

Alternative minimum tax (AMT) exemption amount increased. The AMT

exemption amount is increased to \$70,300 (\$109,400 if married filing jointly or qualifying widow(er); \$54,700 if married filing separately).

Moving expenses no longer deductible. For 2018, you can no longer deduct your moving expenses unless you are a member of the Armed Forces on active duty.

Access your online account. You must authenticate your identity. To securely log in to your federal tax account, go to [IRS.gov/Account](https://www.irs.gov/Account). View the amounts you owe, review 18 months of payment history, access online payment options, and create or modify an online payment agreement. You can also access your tax records online.

Standard mileage rate. For 2018, the rate for business use of your vehicle increased to 54.5 cents a mile. The rate for use of your vehicle to move has increased to 18 cents a mile. The rate of 14 cents a mile for charitable use is unchanged.

Social security tax. For 2018, the maximum amount of earned income (wages and net earnings from self-employment) subject to the social security tax is \$128,400.

Adoption credit or exclusion. For 2018, the maximum adoption credit or exclusion for employer-provided adoption benefits has increased to \$13,810. In order to claim either the credit or exclusion, your modified adjusted gross income must be less than \$247,140.

Reminders

Individual taxpayer identification number (ITIN) renewal. If you were assigned an ITIN before January 1, 2013, or if you have an ITIN that you haven't included on a tax return in the last three consecutive years, you may need to renew it. For more information, see the instructions for Form W-7.

Advance payments of the premium tax credit. If you buy health care insurance through the Health Insurance Marketplace, you may be eligible for advance payments of the premium tax credit to help pay for your insurance coverage. Receiving too little or too much in advance will affect your refund or balance due. Promptly report changes in your income or family size to your Marketplace. See Form 8962 and its instructions for more information.

How To Figure Your Estimated Tax

You will need:

- The 2018 Estimated Tax Worksheet.

- The *Instructions for the 2018 Estimated Tax Worksheet*.
- The 2018 Tax Rate Schedules for your filing status.*
- Your 2017 tax return and instructions to use as a guide to figuring your income, deductions, and credits (but be sure to consider the items listed under *What's New*, earlier).

* If you are married, you generally must use Tax Rate Schedule Y. For exceptions, see chapter 5 of Pub. 519.

Matching estimated tax payments to income. If you receive your income unevenly throughout the year (for example, because you operate your business on a seasonal basis or you have a large capital gain late in the year), you may be able to lower or eliminate the amount of your required estimated tax payment for one or more periods by using the annualized income installment method. See chapter 2 of Pub. 505 for details.

Changing your estimated tax. To amend or correct your estimated tax, see *How To Amend Estimated Tax Payments*, later.

 **You can't make joint estimated tax payments if you or your spouse is a nonresident alien, you are separated under a decree of divorce or separate maintenance, or you and your spouse have different tax years.**

Payment Due Dates

If you have wages subject to U.S. income tax withholding, you can pay all of your estimated tax by April 17, 2018, or in four equal amounts by the dates shown below.

1st payment	Apr. 17, 2018
2nd payment	Jun. 15, 2018
3rd payment	Sep. 17, 2018
4th payment	Jan. 15, 2019*

* You don't have to make the payment due January 15, 2019, if you file your 2018 Form 1040NR or 1040NR-EZ by January 31, 2019, and pay the entire balance due with your return.

If you don't have wages subject to U.S. income tax withholding, you can pay all of your estimated tax by June 15, 2018, or you can pay it in three installments. If you pay the tax in three installments:

- $\frac{1}{2}$ is due by June 15, 2018;
- $\frac{1}{4}$ is due by September 17, 2018; and
- $\frac{1}{4}$ is due by January 15, 2019.

 **We don't send notices reminding you to make your estimated tax payments. You must make each payment by the due date.**

If you mail your payment in the United States and it is postmarked by the due

date, the date of the U.S. postmark is considered the date of the payment. If your payments are late or you didn't pay enough, you may be charged a penalty for underpaying your tax. See *When a Penalty Is Applied*, later.

You can make more than four estimated tax payments. To do so, make a copy of one of your unused estimated tax payment vouchers, fill it in, and mail it with your payment. If you make more than four payments, to avoid a penalty make sure the total of the amounts you pay during a payment period is at least as much as the amount required to be paid by the due date for that period. For other payment methods, see How To Pay Estimated Tax, later.

No income subject to estimated tax during first payment period. If, after March 31, 2018, you have a large change in income, deductions, additional taxes, or credits that requires you to start making estimated tax payments, you should figure the amount of your estimated tax payments by using the annualized income installment method, explained in chapter 2 of Pub. 505. If you use the annualized income installment method, file Form 2210, Underpayment of Estimated Tax by Individuals, Estates, and Trusts, including Schedule AI, with your 2018 tax return even if no penalty is owed.

Farmers and fishermen. If at least two-thirds of your gross income for 2017 or 2018 is from farming or fishing, you can do one of the following.

- Pay all of your estimated tax by January 15, 2019.
- File your 2018 Form 1040NR by March 1, 2019, and pay the total tax due. In this case, 2018 estimated tax payments aren't required to avoid a penalty.

Fiscal year taxpayers. You are on a fiscal year if your 12-month tax period ends on any day except December 31. Due dates for fiscal year taxpayers are the 15th day of the 4th (if applicable), 6th, and 9th months of your current fiscal year and the 1st month of the following fiscal year. If any payment date falls on a Saturday, Sunday, or legal holiday, use the next business day. See Pub. 509 for a list of all legal holidays.

Name Change

If you changed your name because of marriage, divorce, etc., and you made estimated tax payments using your former name, attach a statement to the front of your 2018 paper income tax return. On the statement, show all of the estimated tax payments you made for 2018 and the name and identifying number under which you made the payments.

If your identifying number is a social security number, be sure to report the

change to your local Social Security Administration office before filing your 2018 tax return. This prevents delays in processing your return and issuing refunds. It also safeguards your future social security benefits. For more details, call the Social Security Administration at 1-800-772-1213 (for TTY/TDD, call 1-800-325-0778) or go to SSA.gov.

If your identifying number is an IRS-issued individual taxpayer identification number (ITIN), you don't have to contact the Social Security Administration.

How To Amend Estimated Tax Payments

To change or amend your estimated tax payments, refigure your total estimated tax payments due (see the 2018 Estimated Tax Worksheet, later). Then, to figure the payment due for each remaining payment period, see *Amended estimated tax under Regular Installment Method* in chapter 2 of Pub. 505. If an estimated tax payment for a previous period is less than one-fourth of your amended estimated tax, you may owe a penalty when you file your return.

When a Penalty Is Applied

In some cases, you may owe a penalty when you file your return. The penalty is imposed on each underpayment for the number of days it remains unpaid. A penalty may be applied if you didn't pay enough estimated tax for the year or you didn't make the payments on time or in the required amount. A penalty may apply even if you have an overpayment on your tax return.

The penalty may be waived under certain conditions. See chapter 4 of Pub. 505 for details.

How To Pay Estimated Tax

The following are various methods by which you can pay your estimated taxes. When making payments of estimated tax, be sure to take into account any 2017 overpayment that you choose to credit against your 2018 tax. Pay by Check or Money Order Using the Estimated Tax Payment Voucher

Before submitting a payment through the mail using the estimated tax payment voucher, please consider alternative methods. One of our safe, quick and easy electronic payment options might be right for you.

If you choose to mail in your payment, there is a separate estimated tax payment voucher for each due date. The due date is shown in the upper right corner. Complete and send in the voucher only if you are making a payment by check or money order.

To complete the voucher, do the following.

- Print or type your name, address, and social security number (SSN) in the space provided on the estimated tax payment voucher. If you don't have and aren't eligible to get an SSN, enter your ITIN wherever your SSN is requested. To apply for an ITIN, use Form W-7, Application for IRS Individual Taxpayer Identification Number. For additional information, go to IRS.gov and enter "ITIN" in the keyword search box. If you are filing the return for a trust or estate, enter the EIN of the trust or estate.
- Enter in the box provided on the estimated tax payment voucher only the amount you are sending in by check or money order. Don't include any overpayment amounts in this box. See column (e) of the Record of Estimated Tax Payments, later.
- Make your check or money order payable to "United States Treasury." Don't send cash. To help process your payment accurately, enter the amount on the right side of the check like this: \$ XXX.XX. Don't use dashes or lines (for example, don't enter "\$ XXX-" or "\$ XXX ^{xx}/₁₀₀").
- Enter "2018 Form 1040-ES (NR)" and your identifying number (SSN, ITIN, or EIN) on your check or money order.
- Enclose, but don't staple or attach, your payment with the estimated tax payment voucher.
- Mail your estimated tax payment voucher to the following address.

Internal Revenue Service
P.O. Box 1300
Charlotte, NC 28201-1300 U.S.A.

Also, note that only the U.S. Postal Service can deliver to P.O. boxes.

No checks of \$100 million or more accepted. The IRS can't accept a single check (including a cashier's check) for amounts of \$100,000,000 (\$100 million) or more. If you are sending \$100 million or more by check, you'll need to spread the payment over 2 or more checks with each check made out for an amount less than \$100 million. This limit doesn't apply to other methods of payment (such as electronic payments). Please consider a method of payment other than check if the amount of the payment is over \$100 million.

Instructions for the 2018 Estimated Tax Worksheet

Line 1. Adjusted gross income. When figuring the adjusted gross income you expect in 2018, be sure to consider the items listed under *What's New*, earlier. For more details on figuring your AGI, see *Expected AGI—Line 1* in chapter 2 of Pub. 505.

If you are self-employed, be sure to take into account the deduction for your self-employment tax. Use the 2018 Self-Employment Tax and Deduction Worksheet for Lines 1 and 9 of the Estimated Tax Worksheet to figure the amount to subtract when figuring your expected AGI. This worksheet also will give you the amount to enter on line 9 of your estimated tax worksheet.

Line 7. Credits. See the 2017 Form 1040NR, lines 46 through 51, and the related instructions for the types of credits allowed.

Line 9. Self-employment tax. Enter your self-employment tax on line 9. When estimating your 2018 net earnings from self-employment, be sure to use only 92.35% (0.9235) of your total net profit from self-employment.

Line 10. Other taxes. Use the Instructions for the 2017 Form 1040NR to determine if you expect to owe, for 2018, any of the taxes that are entered on Form 1040NR, lines 57 (additional tax on distributions only), 59a, 59b, and 60 (including, if applicable, the Additional Medicare Tax). On line 10, enter the total of those taxes, subject to the following two exceptions.

- Exception 1.** Include household employment taxes from Form 1040NR, line 59a, on this line only if:
- You will have federal income tax withheld from wages, pensions, annuities, or other income effectively connected with a U.S. trade or business; or
 - You would be required to make estimated tax payments (to avoid a

penalty) even if you didn't include household employment taxes when figuring your estimated tax.

If you meet one or both of the above, include in the amount on line 10 the total of your household employment taxes.

Exception 2. Of the amounts for other taxes that may be entered on Form 1040NR, line 60, don't include on line 10: recapture of a federal mortgage subsidy, uncollected social security and Medicare tax or RRTA tax on tips or group-term life insurance, excise tax on excess golden parachute payments, look-back interest due under section 167(g) or 460(b), excise tax on insider stock compensation from an expatriated corporation, or additional tax on advance payments of health coverage tax credit when not eligible. These taxes aren't required to be paid until the due date of your income tax return (not including extensions).

Consider the following items when determining the amount to enter on line 10.

Additional Medicare Tax. For details about the Additional Medicare Tax, see the Instructions for Form 8959.

Repayment of first-time homebuyer credit. You must repay the first-time homebuyer credit if you bought the home in 2008.

For details about repaying the first-time homebuyer credit, see the instructions for Form 5405.

Line 15b. Prior year's tax. Enter the 2017 tax you figure according to the instructions in *Figuring your 2017 tax*, later, unless you meet one of the following exceptions.

- If the AGI shown on your 2017 return is more than \$150,000 (\$75,000 if you will file as married filing separately for 2018), enter 110% of your 2017 tax as figured next.

This doesn't apply to farmers or fishermen.

- If you filed as married filing jointly for 2017, but you won't file a joint return for 2018 (for example, because you are a nonresident alien who doesn't elect to be treated as a U.S. resident (see Pub. 519)), see *General Rule* in chapter 4 of Pub. 505 to figure your share of the 2017 tax to enter on line 15b.
- If you didn't file a return for 2017 or your 2017 tax year was less than 12 full months, don't complete line 15b. Instead, enter the amount from line 15a on line 15c.

Figuring your 2017 tax. Use the following instructions to figure your 2017 tax.
