介绍

This glossary has been developed by the Tax Forms and Publications Division of the Internal Revenue Service (IRS). Its purpose is to establish high standards for the quality of language usage, to promote uniformity in language usage, and to minimize the risk of misinterpretation of Chinese-language materials issued by the Internal Revenue Service (IRS).

Any issuance containing language consistent with this glossary should be reasonably satisfactory for purposes of general guidance regarding the rights and obligations of taxpayers.

This glossary is not a legal document and none of the terms found in it should be understood to change the meaning of any provisions of law, regulations, or any other authoritative precedent. Although a reader may understand terms as translated to have

particular meanings, the legal meanings of the terms are controlled by the law, regulations, and administrative and judicial decisions. A periodic review is made to determine whether any additions, deletions, or revisions are needed.
