Caution: DRAFT—NOT FOR FILING

This is an early release draft of an IRS tax form, instructions, or publication, which the IRS is providing for your information. **Do not file draft forms** and do **not** rely on draft forms, instructions, and publications for filing. We do **not** release draft forms until we believe we have incorporated all changes (except when explicitly stated on this coversheet). However, unexpected issues occasionally arise, or legislation is passed—in this case, we will post a new draft of the form to alert users that changes were made to the previously posted draft. Thus, there are never any changes to the last posted draft of a form and the final revision of the form. Forms and instructions generally are subject to OMB approval before they can be officially released, so we post only drafts of them until they are approved. Drafts of instructions and publications usually have some changes before their final release.

Early release drafts are at [IRS.gov/DraftForms](https://www.irs.gov/DraftForms) and remain there after the final release is posted at [IRS.gov/LatestForms](https://www.irs.gov/LatestForms). All information about all forms, instructions, and pubs is at [IRS.gov/Forms](https://www.irs.gov/Forms).

Almost every form and publication has a page on IRS.gov with a friendly shortcut. For example, the Form 1040 page is at [IRS.gov/Form1040](https://www.irs.gov/Form1040); the Pub. 501 page is at [IRS.gov/Pub501](https://www.irs.gov/Pub501); the Form W-4 page is at [IRS.gov/W4](https://www.irs.gov/W4); and the Schedule A (Form 1040/SR) page is at [IRS.gov/ScheduleA](https://www.irs.gov/ScheduleA). If typing in a link above instead of clicking on it, be sure to type the link into the address bar of your browser, not a Search box.

If you wish, you can submit comments to the IRS about draft or final forms, instructions, or publications at [IRS.gov/FormsComments](https://www.irs.gov/FormsComments). We cannot respond to all comments due to the high volume we receive and may not be able to consider many suggestions until the subsequent revision of the product.

If you have comments on reducing paperwork and respondent (filer) burden, with respect to draft or final forms, please respond to the relevant information collection through the Federal Register process; for more info, click [here](#).

Part I Complete this part to see if you can use Form 4972

	Yes	No
1 Was this a distribution of a plan participant's entire balance (excluding deductible voluntary employee contributions and certain forfeited amounts) from all of an employer's qualified plans of one kind (for example, pension, profit-sharing, or stock bonus)? If "No," don't use this form	1	
2 Did you roll over any part of the distribution? If "Yes," don't use this form	2	
3 Was this distribution paid to you as a beneficiary of a plan participant who was born before January 2, 1936?	3	
4 Were you (a) a plan participant who received this distribution, (b) born before January 2, 1936, and (c) a participant in the plan for at least 5 years before the year of the distribution? If you answered "No" to both questions 3 and 4, don't use this form.	4	
5a Did you use Form 4972 after 1986 for a previous distribution from your own plan? If "Yes," don't use this form for a 2021 distribution from your own plan	5a	
b If you are receiving this distribution as a beneficiary of a plan participant who died, did you use Form 4972 for a previous distribution received as a beneficiary of that participant after 1986? If "Yes," don't use this form for this distribution	5b	

Part II Complete this part to choose the 20% capital gain elections (see instructions)

General Instructions

Purpose of Form

Use Form 4972 to figure the tax on a qualified lump-sum distribution (defined below) you received in 2021 using the 20% capital gain election, the 10-year tax option, or both. These are special formulas used to figure a separate tax on the distribution that may result in a smaller tax than if you reported the taxable amount of the distribution as ordinary income.

You pay the tax only once, for the year you receive the distribution, not over the next 10 years. The separate tax is added to the regular tax figured on your other income.

What Is a Qualified Lump-Sum Distribution?

It is the distribution or payment in 1 tax year of a plan participant's entire balance from all of an employer's qualified plans of one kind (for example, pension, profit-sharing, or stock bonus plans) in which the participant had funds. The participant's entire balance doesn't include deductible voluntary employee contributions or certain forfeited amounts. The participant must have been born before January 2, 1936.

Distributions upon death of the plan participant.

If you received a qualified distribution as a beneficiary after the participant's death, the participant must have been born before January 2, 1936, for you to use this form for that distribution.

Distributions to alternate payees. If you are the spouse or former spouse of a plan participant who was born before January 2, 1936, and you received a qualified lump-sum distribution as an alternate payee under a qualified domestic relations order, you can use Form 4972 to figure the tax on the distribution using the 20% capital gain election, the 10-year tax option, or both. For details, see Pub. 575.

Distributions That Don't Qualify for the 20% Capital Gain Election or the 10-Year Tax Option

The following distributions aren't qualified lump-sum distributions and don't qualify for the 20% capital gain election or the 10-year tax option.

- The part of a distribution not rolled over if the distribution is partially rolled over to another qualified plan or an IRA.
- Any distribution if an earlier election to use either the 5- or 10-year tax option had been made after 1986 for the same plan participant.

- U.S. Retirement Plan Bonds distributed with the lump sum.
- A distribution made during the first 5 tax years that the participant was in the plan, unless it was made because the participant died.
- The current actuarial value of any annuity contract included in the lump sum (Form 1099-R, box 8, should show this amount, which you use only to figure tax on the ordinary income part of the distribution).
- A distribution to a 5% owner that is subject to penalties under section 72(m)(5)(A).
- A distribution from an IRA.
- A distribution from a tax-sheltered annuity (section 403(b) plan).
- A distribution of the redemption proceeds of bonds rolled over tax free to a qualified pension plan, etc., from a qualified bond purchase plan.
- A distribution from a qualified plan if the participant or his or her surviving spouse previously received an eligible rollover distribution from the same plan (or another plan of the employer that must be combined with that plan for the lump-sum distribution rules) and the previous distribution was rolled over tax free to another qualified plan or an IRA.
- A distribution from a qualified plan that received a rollover after 2001 from an IRA (other than a conduit IRA), a governmental section 457(b) plan, or a section 403(b) tax-sheltered annuity on behalf of the plan participant.
- A distribution from a qualified plan that received a rollover after 2001 from another qualified plan on behalf of that plan participant's surviving spouse.
- A corrective distribution of excess deferrals, excess contributions, excess aggregate contributions, or excess annual additions.
- A lump-sum credit or payment under the alternative annuity option from the Federal Civil Service Retirement System (or the Federal Employees' Retirement System).

How To Report the Distribution

If you can use Form 4972, attach it to Form 1040 or 1040-SR (individuals), Form 1040-NR (nonresident aliens), or Form 1041 (estates or trusts). The payer should have given you a Form 1099-R or other statement that shows the amounts needed to complete Form 4972. The following choices are available.

20% capital gain election. If there is an amount in Form 1099-R, box 3, you can use Form 4972, Part II, to apply a 20% tax rate to the capital gain portion. See *Capital Gain Election*, later.

10-year tax option. You can use Part III to figure your tax on the lump-sum distribution using the 10-year tax option whether or not you make the 20% capital gain election.

Taxable amount. If Form 1099-R, box 2a, is blank, you must figure the taxable amount to complete Form 4972. For details, see Pub. 575.

Where to report. Report amounts from your Form 1099-R either directly on your tax return (Form 1040, 1040-SR, 1040-NR, or 1041) or on Form 4972.

1. If you don't use Form 4972, and you file:
 - a. **Form 1040, 1040-SR, or 1040-NR.** Report the entire amount from box 1 (Gross distribution) of Form 1099-R on line 5a, and the taxable amount on line 5b. If your pension or annuity is fully taxable, enter the amount from box 2a (Taxable amount) of Form 1099-R on line 5b; don't make an entry on line 5a.
 - b. **Form 1041.** Report the amount on line 8.
2. If you don't use Part III of Form 4972, but use Part II, report only the ordinary income portion of the distribution on Form 1040, 1040-SR, or 1040-NR, lines 5a and 5b; or on Form 1041, line 8. The ordinary income portion is the amount from box 2a of Form 1099-R, minus the amount from box 3 of that form.
3. If you use Part III of Form 4972, don't include any part of the distribution on Form 1040, 1040-SR, or 1040-NR, lines 5a and 5b; or on Form 1041, line 8.

The entries in other boxes on Form 1099-R may also apply in completing Form 4972.

- Box 6 (Net unrealized appreciation in employer's securities). See *Net unrealized appreciation (NUA)*, later.
- Box 8 (Other). Current actuarial value of an annuity.

How Often You Can Use Form 4972

After 1986, you can use Form 4972 only once for each plan participant. If you receive more than one lump-sum distribution for the same participant in 1 tax year, you must treat all those distributions the same way. Combine them on a single Form 4972.

If you make an election as a beneficiary of a deceased participant, it doesn't affect any election you can make for qualified lump-sum distributions from your own plan. You can also make an election as the beneficiary of more than one qualifying person.

Example. Your mother and father died and each was born before January 2, 1936. Each had a qualified plan of which you are the beneficiary. You also received a qualified lump-sum distribution from your own plan and you were born before January 2, 1936. You can make an election for each of the distributions: one for yourself, one as your mother's beneficiary, and one as your father's beneficiary. It doesn't matter if the distributions all occur in the same year or in different years. File a separate Form 4972 for each participant's distribution.

TIP An earlier election on Form 4972 or Form 5544 for a distribution before 1987 doesn't prevent you from making an election for a distribution after 1986 for the same participant, provided the participant was under age 59½ at the time of the pre-1987 distribution.

When To File Form 4972

You can file Form 4972 with either an original or amended return. For an amended return, you must generally file within 3 years after the date the original return was filed or within 2 years after the date the tax was paid, whichever is later, to use any part of Form 4972.

Capital Gain Election

If the distribution includes a capital gain amount, you can (a) make the 20% capital gain election in Part II of Form 4972, or (b) treat the capital gain as ordinary income.

Only the taxable amount of distributions resulting from pre-1974 participation qualifies for capital gain treatment. The capital gain amount should be shown in Form 1099-R, box 3. If there is a net unrealized appreciation (NUA) amount in Form 1099-R, box 6, part of it will also qualify for capital gain treatment. Use the NUA Worksheet on this page to figure the capital gain part of NUA if you make the election to include NUA in your taxable income.

You can report the ordinary income portion of the distribution on Form 1040, 1040-SR, or 1040-NR, line 5b; or Form 1041, line 8; or you can figure the tax using the 10-year tax option. The ordinary income portion is generally the amount from Form 1099-R, box 2a, minus the amount from box 3 of that form.

Net unrealized appreciation (NUA).

Normally, NUA in employer securities received as part of a lump-sum distribution isn't taxable until the securities are sold. However, you can elect to include NUA in taxable income in the year received.

The total amount to report as NUA should be shown in Form 1099-R, box 6. Part of the amount in box 6 will qualify for capital gain treatment if there is an amount in Form 1099-R, box 3. To figure the total amount subject to capital gain treatment including the NUA, complete the NUA Worksheet on this page.

Specific Instructions

Name of recipient of distribution and identifying number. At the top of Form 4972, fill in the name and identifying number of the recipient of the distribution.

If you received more than one qualified distribution in 2021 for the same plan participant, add them and figure the tax on the total amount. If you received qualified distributions in 2021 for more than one participant, file a separate Form 4972 for the distributions of each participant.

If you and your spouse are filing a joint return and each has received a lump-sum distribution, complete and file a separate Form 4972 for each spouse, combine the tax, and include the combined tax in the total on Form 1040 or 1040-SR, line 16. Be sure to check box 2 on Form 1040 or 1040-SR, line 16.

Multiple recipients of a lump-sum distribution. If you are filing for a trust that shared the distribution only with other trusts, figure the tax on the total lump sum first. The trusts then share the tax in the same proportion that they shared the distribution.

If you shared in a lump-sum distribution from a qualified retirement plan when not all recipients were trusts (a percentage will be shown in Form 1099-R, boxes 8 and/or 9a), figure your tax on Form 4972 as follows.

Step 1. Complete Form 4972, Parts I and II. If you make the 20% capital gain election in Part II and also elect to include NUA in taxable income, complete the NUA Worksheet below to determine the amount of NUA that qualifies for capital gain treatment. Then, skip Step 2 and go to Step 3.

Step 2. Use this step only if you don't elect to include NUA in your taxable income or if you don't have NUA.

- If you aren't making the capital gain election, divide the amount from Form 1099-R, box 2a, by your percentage of distribution in box 9a. Enter this amount on Form 4972, line 8.
- If you are making the capital gain election, subtract the amount from Form 1099-R, box 3, from the amount in box 2a. Divide the result by your percentage of distribution from Form 1099-R, box 9a. Enter the result on Form 4972, line 8.
- Complete Form 4972, lines 9 and 10. Divide the amount from Form 1099-R, box 8, by the percentage in box 8. Enter the result on Form 4972, line 11. Then, skip Step 3 and go to Step 4.

Step 3. Use this step only if you elect to include NUA in your taxable income.

- If you aren't making the capital gain election, add the amount from Form 1099-R, box 2a, to the amount in box 6. Divide the result by your percentage of distribution from Form 1099-R, box 9a. Enter the result on Form 4972, line 8. On the dotted line next to line 8, write "NUA" and the amount of NUA included (Form 1099-R, box 6, divided by your percentage of distribution in box 9a).
- If you are making the capital gain election, subtract the amount from Form 1099-R, box 3, from the amount in box 2a. Add to the result the amount from line F of your NUA Worksheet. Then, divide the total by your percentage of distribution from Form 1099-R, box 9a. Enter the result on Form 4972, line 8. On the dotted line next to line 8, write "NUA" and the amount of NUA included (line F of your NUA Worksheet divided by your percentage of distribution from Form 1099-R, box 9a).
- Complete Form 4972, lines 9 and 10. Divide the amount from Form 1099-R, box 8, by the percentage in box 8. Enter the result on Form 4972, line 11.

Step 4. Complete Form 4972 through line 28.

Step 5. Complete the following worksheet to figure the entry for Form 4972, line 29.

- A. Subtract line 28 from line 25 _____
- B. Enter your percentage of the distribution from box 9a _____
- C. Multiply line A by line B. Enter here and on Form 4972, line 29. Also, write "MRD" on the dotted line next to line 29 _____

NUA Worksheet (keep for your records)

- A. Enter the amount from Form 1099-R, box 3 A. _____
- B. Enter the amount from Form 1099-R, box 2a B. _____
- C. Divide line A by line B and enter the result as a decimal (rounded to at least three places) C. _____
- D. Enter the amount from Form 1099-R, box 6 D. _____
- E. Capital gain portion of NUA. Multiply line C by line D E. _____
- F. Ordinary income portion of NUA. Subtract line E from line D F. _____
- G. Total capital gain portion of distribution. Add lines A and E. Enter here and on Form 4972, line 6. On the dotted line next to line 6, write "NUA" and the amount from line E above G. _____

Death Benefit Worksheet (keep for your records)

- A. Enter the amount from Form 1099-R, box 3, or, if you are including NUA in taxable income, the amount from line G of the NUA Worksheet A. _____
- B. Enter the amount from Form 1099-R, box 2a, plus, if you are including NUA in taxable income, the amount from Form 1099-R, box 6 B. _____
- C. Divide line A by line B and enter the result as a decimal (rounded to at least three places) C. _____
- D. Enter your share of the death benefit exclusion* D. _____
- E. Death benefit exclusion allocated to capital gain. Multiply line D by line C E. _____
- F. Subtract line E from line A. Enter here and on Form 4972, line 6 F. _____

*Applies only for participants who died before August 21, 1996. If there are multiple recipients of the distribution, the allowable death benefit exclusion must be allocated among the recipients in the same proportion that they share the distribution.

Part II

See *Capital Gain Election*, earlier, before completing Part II.

Line 6. Leave this line blank if your distribution doesn't include a capital gain amount or you aren't making the 20% capital gain election, and go to Part III.

Generally, enter on line 6 the amount from Form 1099-R, box 3. However, if you elect to include NUA in your taxable income, use the NUA Worksheet, earlier, to figure the amount to enter on line 6. If you are taking a death benefit exclusion (see *Line 9* below for the definition), use the Death Benefit Worksheet, earlier, to figure the amount to enter on line 6. The remaining allowable death benefit exclusion should be entered on line 9 if you choose the 10-year tax option.

If any federal estate tax was paid on the lump-sum distribution, you must decrease the capital gain amount by the amount of estate tax applicable to it. To figure this amount, you must complete the Death Benefit Worksheet, earlier, through line C, even if you don't take the death benefit exclusion. Multiply the total federal estate tax paid on the lump-sum distribution (get this amount from the administrator of the deceased's estate) by the decimal on line C of the Death Benefit Worksheet. The result is the portion of the federal estate tax applicable to the capital gain amount. Then, use that result to reduce the amount in Form 1099-R, box 3, if you don't take the death benefit exclusion, or reduce line F of the Death Benefit Worksheet if you do. Enter the remaining capital gain on line 6. If you elected to include NUA in taxable income and you didn't take the death benefit exclusion, subtract the portion of federal estate tax applicable to the capital gain amount from the amount on line G of the NUA Worksheet. Enter the result on line 6. Enter the remainder of the federal estate tax on line 18.

CAUTION If you take the death benefit exclusion and federal estate tax was paid on the capital gain amount, the capital gain amount must be reduced by both the procedures discussed above to figure the correct entry for line 6.

Part III

Multiple recipients, see *Multiple recipients of a lump-sum distribution*, earlier.

Line 8. If Form 1099-R, box 2a, is blank, you must first figure the taxable amount. For details on how to do this, see Pub. 575.

If you made the 20% capital gain election, enter only the ordinary income portion of the distribution on this line. The ordinary income portion is the amount from Form 1099-R, box 2a, minus the amount from box 3 of that form. Add the amount from line F of the NUA Worksheet if you included NUA capital gain in the 20% capital gain election. On the dotted line next to line 8, write "NUA" and the amount from line F of the NUA Worksheet.

If you didn't make the 20% capital gain election and didn't elect to include NUA in taxable income, enter the amount from Form 1099-R, box 2a. If you didn't make the 20% capital gain election but did elect to include NUA in your taxable income, add the amount from Form 1099-R, box 2a, to the amount from Form 1099-R, box 6. Enter the total on line 8. On the dotted line next to line 8, write "NUA" and the amount from Form 1099-R, box 6.

CAUTION Community property laws don't apply in figuring tax on the amount you report on line 8.

Line 9. If you received the distribution because of the plan participant's death and the participant died before August 21, 1996, you may be able to exclude up to \$5,000 of the lump sum from your gross income. This exclusion applies to the beneficiaries or estates of common-law employees, self-employed individuals, and shareholder-employees who owned more than 2% of the stock of an S corporation.

Enter the allowable death benefit exclusion on line 9. If you made the 20% capital gain election, enter the amount from line D of the Death Benefit Worksheet minus the amount from line E of that worksheet.

Multiple recipients. If there are multiple recipients of the distribution not all of whom are trusts, and you didn't complete Part II, enter the full allowable death benefit exclusion on line 9. Don't allocate the exclusion among the recipients; the computation under *Multiple recipients of a lump-sum distribution*, earlier, effectively allocates the exclusion.

If you completed Part II, multiply the full allowable death benefit exclusion (don't allocate among the recipients) by the percentage on line C of the Death Benefit Worksheet. Subtract the result from the full allowable death benefit exclusion. Enter the result on line 9.

Line 18. A beneficiary who receives a lump-sum distribution because of a plan participant's death must reduce the taxable part of the distribution by any federal estate tax paid on the lump-sum distribution (get this amount from the administrator of the deceased's estate). Do this by entering on line 18 the federal estate tax attributable to the lump-sum distribution. Also, see *Line 6* above if you made a capital gain election.

Lines 24 and 27. Use the following Tax Rate Schedule to complete lines 24 and 27.

Line 29. Multiple recipients, see *Multiple recipients of a lump-sum distribution*, earlier.
