Provide America's taxpayers top quality service by helping them understand and meet their tax responsibilities and by

applying the tax law with integrity and fairness to all.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered,

and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1986 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1986.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions and Other Related Items, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts. Also included in this part are Bank Secrecy Act Administrative Rulings. Bank Secrecy Act Administrative Rulings are issued by the Department of the Treasury's Office of the Assistant Secretary (Enforcement).

Part IV.—Items of General Interest.

This part includes notices of proposed rulemakings, disbarment and suspension lists, and announcements.

The first Bulletin for each month includes a cumulative index for the matters published during the preceding months. These monthly indexes are cumulated on a semiannual basis, and are published in the first Bulletin of the succeeding semiannual period, respectively.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1986

Section 6621.—Determination of Interest Rate

26 CFR 301.6621-1: Interest rate.

Interest rates; underpayments and overpayments. The rate of interest determined under section 6621 of the Code for the calendar quarter beginning July 1, 2002, will be 6 percent for overpayments (5 percent in the case of a corporation), 6 percent for underpayments, and 8 percent for large corporate underpayments. The rate of interest paid on the portion of a corporate overpayment exceeding \$10,000 will be 3.5 percent.

Rev. Rul. 2002-33

Section 6621 of the Internal Revenue Code establishes the rates for interest on tax overpayments and tax underpayments. Under § 6621(a)(1), the overpayment rate beginning July 1, 2002, is the sum of the federal short-term rate plus 3 percentage points (2 percentage points in the case of a corporation), except the rate for the portion of a corporate overpayment of tax exceeding \$10,000 for a taxable period is the sum of the federal short-term rate plus 0.5 of a percentage point for interest computations made after December 31, 1994. Under § 6621(a)(2), the underpayment rate is the sum of the federal short-term rate plus 3 percentage points.

Section 6621(c) provides that for purposes of interest payable under § 6601 on any large corporate underpayment, the

underpayment rate under § 6621(a)(2) is determined by substituting “5 percentage points” for “3 percentage points.” See § 6621(c) and § 301.6621-3 of the Regulations on Procedure and Administration for the definition of a large corporate underpayment and for the rules for determining the applicable date. Section 6621(c) and § 301.6621-3 are generally effective for periods after December 31, 1990.

Section 6621(b)(1) provides that the Secretary will determine the federal short-term rate for the first month in each calendar quarter.

Section 6621(b)(2)(A) provides that the federal short-term rate determined under § 6621(b)(1) for any month applies during the first calendar quarter beginning after such month.

Section 6621(b)(3) provides that the federal short-term rate for any month is the federal short-term rate determined during such month by the Secretary in accordance with § 1274(d), rounded to the nearest full percent (or, if a multiple of 1/2 of 1 percent, the rate is increased to the next highest full percent).

Notice 88-59, 1988-1 C.B. 546, announced that, in determining the quarterly interest rates to be used for overpayments and underpayments of tax under § 6621, the Internal Revenue Service will use the federal short-term rate based on daily compounding because that rate is most consistent with § 6621 which, pursuant to § 6622, is subject to daily compounding.

Rounded to the nearest full percent, the federal short-term rate based on daily compounding determined during the month of April 2002 is 3 percent. Accordingly, an overpayment rate of 6 percent (5 percent in the case of a corporation) and an underpayment rate of 6 percent are established for the calendar quarter beginning July 1, 2002. The overpayment rate for the portion of a corporate overpayment exceeding \$10,000 for the calendar quarter beginning July 1, 2002, is 3.5 percent. The underpayment rate for large corporate underpayments for the calendar quarter beginning July 1, 2002, is 8 percent. These rates apply to amounts bearing interest during that calendar quarter.

Interest factors for daily compound interest for annual rates of 3.5 percent, 5 percent, 6 percent, and 8 percent are published in Tables 12, 15, 17, and 21 of Rev. Proc. 95-17, 1995-1 C.B. 556, 566, 569, 571, and 575.

Annual interest rates to be compounded daily pursuant to § 6622 that apply for prior periods are set forth in the tables accompanying this revenue ruling.

Part III. Administrative, Procedural, and Miscellaneous

Weighted Average Interest Rate Update

Notice 2002-38

Sections 412(b)(5)(B) and 412(l)(7)(C)(i) of the Internal Revenue Code provide that the interest rates used to calculate current liability for purposes of determining the full funding limitation under § 412(c)(7) and the required contribution under § 412(l) must be within a permissible range around the weighted average of the rates of interest on 30-year Treasury securities during the four-year period ending on the last day before the beginning of the plan year.

Notice 88-73, 1988-2 C.B. 383, provides guidelines for determining the

weighted average interest rate and the resulting permissible range of interest rates used to calculate current liability for the purpose of the full funding limitation of § 412(c)(7) of the Code.

Section 417(e)(3)(A)(ii)(II) of the Code defines the applicable interest rate, which must be used for purposes of determining the minimum present value of a participant's benefit under § 417(e)(1) and (2), as the annual rate of interest on 30-year Treasury securities for the month before the date of distribution or such other time as the Secretary may by regulations prescribe. Section 1.417(e)-1(d)(3) of the Income Tax Regulations provides that the applicable interest rate for a month is the annual interest rate on 30-year Treasury securities as specified by the Commissioner for that month in

revenue rulings, notices or other guidance published in the Internal Revenue Bulletin.

The rate of interest on 30-year Treasury Securities for May 2002 is 5.65 percent. Pursuant to Notice 2002-26, 2002-15 I.R.B. 743, the Service has determined this rate as the monthly average of the daily determination of yield on the 30-year Treasury bond maturing in February 2031.

Section 405 of the Job Creation and Worker Assistance Act of 2002 amended § 412(l)(7)(C) of the Code to provide that for plan years beginning in 2002 and 2003 the permissible range is extended to 120 percent.

The following rates were determined for the plan years beginning in the month shown below.

Month	Year	Weighted Average	90% to 110% Permissible Range	90% to 120% Permissible Range
June	2002	5.68	5.11 to 6.24	5.11 to 6.81

Renewable Electricity Production Credit, Publication of Inflation Adjustment Factor and Reference Prices for Calendar Year 2002

Notice 2002-39

This notice publishes the inflation adjustment factor and reference prices for calendar year 2002 for the renewable electricity production credit under § 45(a) of the Internal Revenue Code. The 2002 inflation adjustment factor and reference prices are used in determining the availability of the credit. The 2002 inflation adjustment factor and reference prices apply to calendar year 2002 sales of kilowatt-hours of electricity produced in the United States or a possession thereof from qualified energy resources.

BACKGROUND

Section 45(a) provides that the renewable electricity production credit for any tax year is an amount equal to the product of 1.5 cents multiplied by the kilowatt-hours of specified electricity produced by the taxpayer and sold to an

unrelated person during the tax year. This electricity must be produced from qualified energy resources and at a qualified facility during the 10-year period beginning on the date the facility was originally placed in service.

Section 45(b)(1) provides that the amount of the credit determined under § 45(a) is reduced by an amount that bears the same ratio to the amount of the credit as (A) the amount by which the reference price for the calendar year in which the sale occurs exceeds 8 cents bears to (B) 3 cents. Under § 45(b)(2), the 1.5 cents in § 45(a) and the 8 cents in § 45(b)(1) are each adjusted by multiplying the amount by the inflation adjustment factor for the calendar year in which the sale occurs.

Section 45(c)(1) defines qualified energy resources as wind, closed-loop biomass, and poultry waste. Section 45(c)(3) defines a qualified facility as any

facility owned by the taxpayer that originally is placed in service after December 31, 1993 (in the case of a facility using wind to produce electricity), December 31, 1992 (in the case of a facility using closed-loop biomass to produce electricity), or December 31, 1999 (in the case of a facility using poultry waste to produce electricity), and before January 1, 2004. See § 45(d)(7) for rules relating to the inapplicability of the credit to electricity sold to utilities under certain contracts.

Section 45(d)(2)(A) requires the Secretary to determine and publish in the Federal Register each calendar year the inflation adjustment factor and the reference prices for the calendar year. The inflation adjustment factor and the reference prices for the 2001 calendar year were published in the Federal Register on May 29, 2002, (67 Fed. Reg. 37471).

Section 45(d)(2)(B) defines the inflation adjustment factor for a calendar year as the fraction the numerator of which is the GDP implicit price deflator for the preceding calendar year and the denominator of which is the GDP implicit price deflator for the calendar year 1992. The term "GDP implicit price deflator" means the most recent revision of the implicit price deflator for the gross domestic product as computed and published by the Department of Commerce before March 15 of the calendar year.

Section 45(d)(2)(C) provides that the reference price is the Secretary's determination of the annual average contract price per kilowatt hour of electricity generated from the same qualified energy resource and sold in the previous year in the United States. Only contracts entered into after December 31, 1989, are taken into account.

INFLATION ADJUSTMENT FACTOR AND REFERENCE PRICES

The inflation adjustment factor for calendar year 2002 is 1.1908. The reference prices for calendar year 2002 are 5.54 cents per kilowatt-hour for facilities producing electricity from wind energy resources and 0 cents per kilowatt-hour for facilities producing electricity from closed-loop biomass and poultry waste energy resources.

PHASE-OUT CALCULATION

Because the 2002 reference prices for electricity produced from wind, closed-loop biomass, and poultry waste energy resources do not exceed 8 cents per kilowatt hour multiplied by the inflation adjustment factor, the phaseout of the credit provided in § 45(b)(1) does not apply to electricity produced from wind, closed-loop biomass, or poultry waste energy resources sold during calendar year 2002.

CREDIT AMOUNT

As required by § 45(b)(2), the 1.5¢ amount in § 45(a)(1) is adjusted by multiplying such amount by the inflation adjustment factor for the calendar year in which the sale occurs. If any amount as increased under the preceding sentence is not a multiple of 0.1¢, such amount is rounded to the nearest multiple of 0.1¢. Under the calculation required by § 45(b)(2), the renewable electricity production credit for calendar year 2002 is 1.8¢ per kilowatt hour on the sale of electricity produced from wind energy, closed-loop biomass, and poultry waste resources.

Note: Because the IRS processes paper forms by machine (optical character recognition equipment), you cannot file the IRS Form 1096 or Copy A of Forms 1098, 1099, 5498 or W-2G printed from the IRS Web Site.

.04 The 2002 *General Instructions for Forms 1098, 1099, 5498, and W-2G* and the individual forms instructions have been included in the Publication 1220 for your convenience. The Form 1096 is used only to transmit Copy A of **paper** Forms 1099, 1098, 5498, and W-2G. If filing paper returns, follow the mailing instructions on Form 1096 and submit the paper returns to the appropriate IRS Service Center.

.05 Make requests for paper Forms 1096, 1098, 1099, 5498, and W-2G, and publications related to electronic/magnetic filing by calling the IRS toll-free number **1-800-TAX-FORM (1-800-829-3676)** or on the IRS Web Site at **www.irs.gov**.

.06 Questions pertaining to magnetic media filing of Forms W-2 **must** be directed to the Social Security Administration (SSA). Filers can call 1-800-SSA-6270 to obtain the phone number of the SSA Employer Service Liaison Officer for their area.

.07 Payers **should not** contact IRS/MCC if they have received a penalty notice and need additional information or are requesting an abatement of the penalty. A penalty notice contains an IRS representative's name and/or phone number for contact purposes; or the payer may be instructed to respond in writing to the address provided. IRS/MCC does **not** issue penalty notices and does **not** have the authority to abate penalties. For penalty information, refer to the Penalty section of the 2002 *General Instructions for Forms 1099, 1098, 5498, and W-2G*.

.08 A taxpayer or authorized representative may request a copy of a tax return, including Form W-2 filed with a return, by submitting Form 4506, Request for Copy or Transcript of Tax Form, to IRS. This form may be obtained by calling **1-800-TAX-FORM (1-800-829-3676)**. For any questions regarding this form, call 1-800-829-1040.

.09 The Information Returns Program Customer Service Section (IRP/CSS), located at IRS/MCC, answers electronic/magnetic media, paper filing, and tax law questions from the payer community relating to the filing of business information returns (Forms 1096, 1098, 1099, 5498, 8027, W-2G, and W-4). IRP/CSS also answers questions relating to the electronic/magnetic media filing of Forms 1042-S and to the tax law criteria and paper filing instructions for Forms W-2 and W-3. Inquiries dealing with backup withholding and reasonable cause requirements due to missing and incorrect taxpayer identification numbers are also addressed by IRP/CSS. Assistance is available year-round to payers, transmitters, and employers nationwide, Monday through Friday, 8:30 a.m. to 4:30 p.m. Eastern time, by calling toll-free **1-866-455-7438** or via email at mccirp@irs.gov. The Telecommunications Device for the Deaf (TDD) toll number is **304-267-3367**. Call as soon as questions arise to avoid the busy filing seasons at the end of January and February. Recipients of information returns (payees) should continue to contact 1-800-829-1040 with any questions on how to report the information returns data on their tax returns.

.10 Form 4419, Application for Filing Information Returns Electronically/Magnetically, Form 8809, Request for Extension of Time to File Information Returns, and Form 8508, Request for Waiver From Filing Information Returns on Magnetic Media may be faxed to IRS/MCC at the number shown above in .03. Form 4804, Transmittal of Information Returns Filed Magnetically must always be included with media shipments.

Sec. 4. Filing Requirements

.01 The regulations under section 6011(e)(2)(A) of the Internal Revenue Code provide that any person, including a corporation, partnership, individual, estate, and trust, who is required to file 250 or more information returns must file such returns electronically/magnetically. **The 250* or more requirement applies separately for each type of return and separately to each type of corrected return.**

***Even though filers may submit up to 249 information returns on paper, IRS encourages filers to transmit those information returns electronically or magnetically.**

.02 All filing requirements that follow apply individually to each reporting entity as defined by its separate taxpayer identification number (TIN), social security number (SSN), employer identification number (EIN), individual taxpayer identification number (ITIN) or adoption taxpayer identification number (ATIN). For example, if a corporation with several branches or locations uses the same EIN, the corporation must aggregate the total volume of returns to be filed for that EIN and apply the filing requirements to each type of return accordingly.

.03 Payers who are required to submit their information returns on magnetic media may choose to submit their documents by electronic filing. Payers who submit their information returns electronically by March 31, 2003, are considered to have satisfied the magnetic media filing requirements.

.04 IRS/MCC has one method for filing information returns electronically; see Part B.

.05 The following requirements apply separately to both originals and corrections filed electronically/magnetically:

1098	250 or more of any of these forms require magnetic media filing with IRS. Filing electronically will also
1098-E*	meet this requirement. These are stand alone documents and are not to be aggregated for purposes of deter-
1098-T*	mining the 250 threshold. For example, if you must file 100 Forms 1099-B and 300 Forms 1099-INT,
1099-A	Forms 1099-B need not to be filed electronically or magnetically since they do not meet the threshold of
1099-B	250. However, Forms 1099-INT must be filed electronically or magnetically since they meet the threshold
1099-C	of 250.
1099-DIV	
1099-G	
1099-INT	
1099-LTC	
1099-MISC	
1099-MSA	
1099-OID	
1099-PATR	
1099-Q	
1099-R	
1099-S	
5498	
5498-MSA	
W-2G	

*For Tax Year 2002, Forms 1098-E and 1098-T may be reported on paper regardless of the 250 threshold.

.06 The above requirements do not apply if the payer establishes hardship (see Part E, Sec. 5).

Sec. 5. Vendor List

.01 IRS/MCC prepares a list of vendors who support electronic or magnetic media filing. The Vendor List (Pub. 1582) contains the names of service bureaus that will produce files via electronic filing or on the prescribed types of magnetic media. It also contains the names of vendors who provide software packages for payers who wish to produce electronic files or magnetic media on their own computer systems. This list is compiled as a courtesy and in no way implies IRS/MCC approval or endorsement.

.02 If filers meeting the filing requirements engage a service bureau to prepare media on their behalf, the filers should be careful not to report duplicate data, which may cause penalty notices to be generated.

.03 The Vendor List, Publication 1582, may be updated in print every other year. The most recently printed copy will be available by contacting IRS/MCC at our **toll-free number 1-866-455-7438** or by letter (see Part A, Sec. 3). The Vendor List is also available on the IRS Web Site at www.irs.gov.

.04 A vendor, who offers a software package, or has the capability to electronically file information returns, or has the ability to produce magnetic media for customers, and who would like to be included on the list must submit a letter or email to IRS/MCC. The request should include:

- (a) Company name
- (b) Address (include city, state, and ZIP code)
- (c) Telephone number (include area code)
- (d) Contact person
- (e) Type(s) of service provided (e.g., service bureau and/or software)
- (f) Type(s) of media offered (e.g., tape cartridge, 3 1/2-inch diskette, or electronic filing)
- (g) Type(s) of return(s)

Sec. 6. Form 4419, Application for Filing Information Returns Electronically/Magnetically

.01 Transmitters are required to submit Form 4419, Application for Filing Information Returns Electronically/Magnetically, to request authorization to file information returns with IRS/MCC. A single Form 4419 should be filed no matter how many types of returns the transmitter will be submitting electronically/magnetically. For example, if a transmitter plans to file Forms 1099-INT, one Form 4419 should be submitted. If, at a later date, another type of form (Forms 1098, 1099, 5498 and W-2G) is to be filed, the transmitter does not need to submit a new Form 4419.

☛ **Note: EXCEPTIONS** — *An additional Form 4419 is required for filing each of the following types of returns: Form 1042-S, Foreign Person's U.S. Source Income Subject to Withholding, Form 8027, Employer's Annual Information Return of Tip Income and Allocated Tips, and Form W-4, Employee's Withholding Allowance Certificate. See back of Form 4419 for detailed instructions.*

.02 Tape cartridge, diskette, and electronically filed returns may not be submitted to IRS/MCC until the application has been approved. Please read the instructions on the back of Form 4419 carefully. A Form 4419 is included in the Publication 1220 for the filer's use. This form may be photocopied. Additional forms may be obtained by calling **1-800-TAX-FORM (1-800-829-3676)**. The form is also available on the IRS Web Site at **www.irs.gov**.

.03 Upon approval, a five-character alpha/numeric Transmitter Control Code (TCC) will be assigned and included in an approval letter. The TCC **must** be coded in the Transmitter "T" Record. IRS/MCC uses the TCC to identify payer/transmitters and to track their files through the processing system. The same TCC can be used regardless of the method of filing. For example, a payer may send their production data on a tape cartridge and then later file a correction file electronically. The same TCC can be used for each filing.

.04 IRS/MCC encourages transmitters who file for multiple payers to submit one application and to use the assigned TCC for all payers. While not encouraged, multiple TCCs can be issued to payers with multiple TINs. If a transmitter uses more than one TCC to file, each TCC must be reported in separate transmissions if filing electronically or on separate media if filing magnetically.

.05 If a payer's files are prepared by a service bureau, the payer may not need to submit an application to obtain a TCC. Some service bureaus will produce files, code their own TCC in the file, and send it to IRS/MCC for the payer. Other service bureaus will prepare the file and return the file to the payer for submission to IRS/MCC. These service bureaus may require the payer to obtain a TCC, which is coded in the Transmitter "T" Record. Payers should contact their service bureaus for further information.

.06 Form 4419 may be submitted anytime during the year; however, it **must** be submitted to IRS/MCC at least 30 days before the due date of the return(s) for current year processing. This will allow IRS/MCC the minimum amount of time necessary to process and respond to applications. In the event that computer equipment or software is not compatible with IRS/MCC, a waiver may be requested to file returns on paper documents.

.07 Once a transmitter is approved to file electronically/magnetically, it is not necessary to reapply **unless**:

- (a) The payer has discontinued filing electronically or magnetically for two consecutive years; the payer's TCC may have been reassigned by IRS/MCC. Payers who are aware the TCC assigned will no longer be used are requested to notify IRS/MCC so these numbers may be reassigned; **or**
- (b) The payer's files were transmitted in the past by a service bureau using the service bureau's TCC, but now the payer has computer equipment compatible with that of IRS/MCC and wishes to prepare his or her own files. The payer must request a TCC by filing Form 4419.

.08 In accordance with Regulations section 1.6041-7(b), payments by separate departments of a health care carrier to providers of medical and health care services may be reported on separate returns filed electronically or magnetically. In this case, the headquarters will be considered the transmitter, and the individual departments of the company filing reports will be considered payers. A single Form 4419 covering all departments filing electronically/magnetically should be submitted. One TCC may be used for all departments.

.09 Annually, a Publication 1220 containing the current Revenue Procedure, forms, and instructions will be sent to the attention of the contact person indicated on Form 4419. Additional copies can be obtained by downloading from the IRS Web Site at **www.irs.gov** or by calling 1-800-829-3676.

.10 If **any** of the information (name, TIN or address) on the Form 4419 changes, please notify IRS/MCC in writing so the IRS/MCC database can be updated. You may use our email address (See Sec. 3,.03) for basic name and address changes. IRS/MCC does not recommend sending TIN information via email. A change in the method by which information returns are submitted is not information which needs to be updated (e.g., diskette to electronic). The transmitter should include the TCC in all correspondence.

.11 Approval to file does not imply endorsement by IRS/MCC of any computer software or of the quality of tax preparation services provided by a service bureau or software vendor.

Sec. 7. Test Files

.01 IRS/MCC encourages first time electronic or magnetic media filers to submit a test, however, test files are **required** for filers wishing to participate in the Combined Federal/State Filing Program. See Part A, Sec. 13, for further information on the Combined Federal/State Filing Program.

.02 The test file **must** consist of a sample of each type of record:

- (a) Transmitter "T" Record (all fields marked required must include transmitter information)
- (b) Payer "A" Record (must not be fictitious data)
- (c) Multiple Payee "B" Records (**at least 11 "B" Records per each "A" Record**)
- (d) End of Payer "C" Record
- (e) State Totals "K" Record, if participating in the Combined Federal/State Filing Program
- (f) End of Transmission "F" Record

(See Part D for record formats.)

.03 Use the Test Indicator "T" in Field Position 28 of the "T" Record to show this is a test file.

.04 IRS/MCC will check the file to ensure it meets the specifications of this Revenue Procedure. For current filers, sending a test file will provide the opportunity to ensure their software reflects any programming changes.

.05 Electronic tests may be submitted *November 1, 2002, through February 15, 2003*. See Part B, Sec. 4.03, for information on electronic test results.

.06 Tests submitted on magnetic media should be sent to IRS/MCC between *November 1, 2002 and December 16, 2002*. Tests must be received at MCC by December 16 in order to be processed. Magnetic media filers may begin submitting test cartridges and diskettes after October 1; however, the data will not be processed until on or after November 1. For tests filed on tape cartridge, 8mm, 4mm, quarter-inch cartridge, and 3½-inch diskette, the transmitter must include the signed Form 4804 in the same package with the corresponding magnetic media. Mark the "TEST" box in Block 1 on the form. Also, mark "TEST" on the external media label.

.07 IRS/MCC will send a letter of acknowledgment to indicate the magnetic media test results. Unacceptable magnetic media test files will receive a letter and/or documentation identifying the errors. Resubmission of magnetic media test files must be received by IRS/MCC no later than *December 16, 2002*.

Sec. 8. Filing of Information Returns Magnetically and Retention Requirements

.01 Form 4804, Transmittal of Information Returns Reported Magnetically, or a computer-generated substitute, must accompany **all** magnetic media shipments except for replacements when a 4804 is not always necessary (See Part A, Sec. 10).

.02 IRS/MCC allows for the use of computer-generated substitutes for Form 4804. The substitutes must contain all information requested on the original forms including the affidavit and signature line. Photocopies are acceptable but an original signature is required. When using computer-generated forms, be sure to mark very clearly, which tax year is being reported. This will eliminate a telephone communication from IRS/MCC to question the tax year.

.03 Form 4804 may be signed by the payer or the transmitter, service bureau, paying agent, or disbursing agent (all hereafter referred to as agent) on behalf of the payer. Failure to sign the affidavit on Form 4804 may delay processing or could result in the files being unprocessed. An agent may sign the Form 4804 if the agent has the authority to sign the affidavit under an agency agreement (either oral, written, or implied) that is valid under state law and adds the caption "FOR: (name of payer)."

.04 Although an authorized agent may sign the affidavit, the payer is responsible for the accuracy of the Form 4804 and the returns filed. The payer will be liable for penalties for failure to comply with filing requirements.

.05 Multiple types of media may be submitted in a shipment. However, submit a separate Form 4804 for each type of media.

.06 Current and prior year data may be submitted in the same shipment; however, each tax year must be on separate media, and a separate Form 4804 must be prepared to clearly indicate each tax year.

.07 Filers who have prepared their information returns in advance of the due date are encouraged to submit this information to IRS/MCC no earlier than January 1 of the year the return is due.

.08 Do not report duplicate information. If a filer submits returns electronically/magnetically, identical paper documents must not be filed. This may result in erroneous penalty notices.

.09 A self-adhesive external media label, created by the filer, must be affixed to each piece of magnetic media. For instructions on how to prepare an external media label, refer to Notice 210 in the forms section of this publication. If diskettes are used, be certain that only MS-DOS compatible operating systems were used to prepare the diskettes. **Non MS-DOS diskettes are no longer acceptable at IRS/MCC.**

.10 When submitting files include the following:

- (a) A **signed** Form 4804
- (b) External media label (created by filer) affixed to magnetic media
- (c) IRB Box _____ of _____ labeled on outside of each package

.11 IRS/MCC will not return media after successful processing. Therefore, if the transmitter wants proof that IRS/MCC received a shipment, the transmitter should select a service with tracking capabilities or one that will provide proof of delivery. Do not use special shipping containers for mailing media to IRS/MCC. Shipping containers will not be returned.

.12 IRS/MCC will not pay for or accept “Cash-on-Delivery” or “Charge to IRS” shipments of tax information that an individual or organization is legally required to submit.

.13 Payers should retain a copy of the information returns filed with IRS or have the ability to reconstruct the data for at least 3 years from the reporting due date, with the exception of Form 1099-C. A financial entity must retain a copy of Form 1099-C, Cancellation of Debt, or have the ability to reconstruct the data required to be included on the return, for at least 4 years from the date such return is required to be filed. Whenever backup withholding is imposed, a 4-year retention is required.

Sec. 9. Due Dates

.01 The due dates for filing paper returns with IRS also apply to magnetic media. Filing of information returns is on a calendar year basis, except for Forms 5498 and 5498-MSA, which are used to report amounts contributed during or after the calendar year (but not later than April 15). The following due dates will apply to Tax Year 2002:

Due Dates

Electronic Filing	Magnetic Filing (See Note)
Forms 1098, 1099, and W-2G	Forms 1098, 1099, and W-2G
Recipient Copy — January 31, 2003	Recipient Copy — January 31, 2003
IRS Copy --- March 31, 2003	IRS Copy --- February 28, 2003

Electronic/Magnetic Filing
Forms 5498 and 5498-MSA
Participant Copy — June 2, 2003*
IRS Copy --- June 2, 2003
* Participants' copy of Form 5498 for Coverdell ESA and all other Forms 5498 to furnish fair market value information — January 31, 2003

.02 If any due date falls on a Saturday, Sunday or legal holiday, the return or statement is considered timely if filed or furnished on the next day that is not a Saturday, Sunday or legal holiday.

.03 Magnetic media returns postmarked by the United States Postal Service (USPS) on or before February 28, 2003, and delivered by United States mail to the IRS/MCC after the due date, are treated as timely under the “timely mailing as timely filing” rule. Refer to the 2002 General Instructions for Forms 1099, 1098, 5498, and W-2G, When to File, located in the back of this publication for more detailed information. Notice 97-26 1997-1 C.B. 413, provides rules for determining the date that is treated as the postmark date. For items delivered by a non-designated PDS, the actual date of receipt by IRS/MCC will be used as the filing date. For items delivered by a designated PDS, but through a type of service not designated in Notice 99-41, the actual date of receipt by IRS/MCC will be used as the filing date. The timely mailing rule also applies to furnishing statements to recipients and participants.

☛ **Note: Due to security regulations at MCC, the Internal Revenue police officers will only accept media from PDSs or couriers from 7:00 a.m. to 5:00 p.m., Monday through Friday.**

.04 Use this Revenue Procedure to prepare information returns filed electronically or magnetically beginning *January 1, 2003*, and received by IRS/MCC no later than *December 10, 2003*.

Sec. 10. Replacement Media

.01 A replacement is an information return file sent by the filer at the request of IRS/MCC because of errors encountered while processing the filer's original file or correction file. After the necessary changes have been made, the entire file must be returned for processing along with the Media Tracking Slip (Form 9267) which was included in the correspondence from IRS/MCC. (See Note.)

Note: Filers should never send anything to IRS/MCC marked "Replacement" unless IRS/MCC has requested a replacement file in writing or via the FIRE System.

.02 Magnetic Media filers will receive a Media Tracking Slip (Form 9267), listing, and letter detailing the reason(s) their media could not be processed. It is imperative that filers maintain backup copies and/or recreate capabilities for their information return files. Open all correspondence from IRS/MCC immediately.

.03 When possible, sample records identifying errors encountered will be provided with the returned information. It is the responsibility of the transmitter to check the entire file for similar errors.

.04 Before sending replacement media make certain the following items are in place:

(a) Make the required changes noted in the enclosed correspondence and check entire file for other errors.

(b) Code Transmitter "T" record, in positions 21–22 for replacement. See Part D, Sec. 3.

(c) Code Payer "A" record in position 49 with "1" for replacement file. See Part D, Sec. 4.

(d) Enclose the Form 9267, Media Tracking Slip, with your replacement media.

(e) Label your Media "Replacement Data" and indicate the appropriate Tax Year.

(f) Complete a new Form 4804 if any of your information has changed.

.05 Replacement files must be corrected and returned to IRS/MCC within 45 days from the date of the letter. Refer to Part B, Sec. 5 .05, for procedures for files submitted electronically. A penalty for failure to return a replacement file by the due date will be assessed if the files are not corrected and returned within the 45 days or if filers are notified by IRS/MCC of the need for a replacement file more than two times. A penalty for intentional disregard of filing requirements will be assessed if a replacement file is not received. (For penalty information, refer to the Penalty section of the 2002 General Instructions for Forms 1099, 1098, 5498, and W-2G.)

Sec. 11. Corrected Returns

- A **correction** is an information return submitted by the transmitter to correct an information return that was previously submitted to and processed by IRS/MCC, but contained erroneous information.
- While we encourage you to file your corrections electronically/magnetically, you may file up to 249 paper corrections even though your originals were filed electronically or magnetically.
- **DO NOT SEND YOUR ENTIRE FILE AGAIN.** Only send the information returns in need of correction.
- Information returns omitted from the original file **must not** be coded as corrections. Submit them under a separate Payer "A" Record as original returns.
- Before creating your correction file, review the following guidelines chart carefully.

.01 The magnetic media filing requirement of information returns of 250 or more applies separately to both original and corrected returns.

E	If a payer has 100 Forms 1099–A to be corrected, they can be filed on paper
X	because they fall under the 250 threshold. However, if the payer has 300 Forms
A	1099–B to be corrected, they must be filed electronically or magnetically because
M	they meet the 250 threshold. If for some reason a payer cannot file the 300 correc-
P	tions electronically or magnetically, to avoid penalties, a request for a waiver must
L	be submitted before filing on paper. If a waiver is approved for original documents,
E	any corrections for the same type of return will be covered under this waiver.

.02 Corrections should be filed as soon as possible. Corrections filed after August 1 may be subject to the maximum penalty of \$50 per return. Corrections filed by August 1 may be subject to a lesser penalty. (For information on penalties, refer to the Penalty Section of the 2002 General Instructions for Forms 1099, 1098, 5498, and W-2G.) However, if payers discover errors after August 1, they should file corrections, as prompt correction is a factor considered in determining whether the intentional disregard penalty should be assessed or whether a waiver of the penalty for reasonable cause may be granted. All fields must be completed with the correct information, not just the data fields needing correction. Submit corrections only for the returns filed in error, not the entire file. Furnish corrected statements to recipients as soon as possible.

Note: Do NOT resubmit your entire file as corrections. This will result in duplicate filing and erroneous notices may

be sent to payees. Submit only those returns which need to be corrected.

.03 There are numerous types of errors, and in some cases, more than one transaction may be required to correct the initial error. If the original return was filed as an aggregate, the filers must consider this in filing corrected returns.

.04 Corrected returns may be included on the same media as original returns; however, separate "A" Records are required. Corrected returns must be identified on the Form 4804 and the external media label by indicating "Correction." If filers discover that certain information returns were omitted on their original file, they must not code these documents as corrections. The file must be coded and submitted as originals.

.05 If a payer discovers errors for prior years that affect a large number of payees, in addition to sending IRS the corrected returns and notifying the payees, a letter containing the following information should be sent to IRS/MCC:

- (a) Name and address of payer
- (b) Type of error (please explain clearly)
- (c) Tax year
- (d) Payer TIN
- (e) TCC
- (f) Type of Return
- (g) Number of Payees
- (h) Filing method, paper, electronic, or magnetic media

This information will be forwarded to the appropriate office in an attempt to prevent erroneous notices from being sent to the payees. The corrections must be submitted on actual information return documents or filed electronically/magnetically. Form 4804 must be submitted with corrected files submitted magnetically. If filing magnetically, provide the correct tax year in Block 2 of the Form 4804 and on the external media label. The Form 4804 is not required for electronic filing through the FIRE System.

.06 Prior year data, original and corrected, **must** be filed according to the requirements of this Revenue Procedure. If submitting prior year corrections, use the record format for the current year and submit on separate media. However, use the actual year designation of the correction in Field Positions 2–5 of the "T", "A", and "B" Records. If filing electronically, a separate transmission must be made for each tax year.

.07 In general, filers should submit corrections for returns filed within the last 3 calendar years (4 years if the payment is a reportable payment subject to backup withholding under section 3406 of the Code and also for Form 1099–C, Cancellation of Debt).

.08 All paper returns, whether original or corrected, must be filed with the appropriate service center.

.09 The "B" Record provides a 20-position field for the Payer's Account Number for the Payee. This number will help identify the appropriate incorrect return if more than one return is filed for a particular payee. **Do not enter a TIN in this field.** A payer's account number for the payee may be a checking account number, savings account number, serial number, or any other number assigned to the payee by the payer that will distinguish the specific account. This number should appear on the initial return and on the corrected return in order to identify and process the correction properly.

.10 The record sequence for filing corrections is the same as for original returns.

.11 Review the chart that follows. Errors normally fall under one of the two categories listed. Next to each type of error made is a list of instructions on how to file the corrected return.

Guidelines for Filing Corrected Returns Electronically/Magnetically

Error Made on the Original Return

How To File the Corrected Return

Note: References to Form 4804 apply to magnetically filed media only. Form 4804 is not required for files submitted electronically through the FIRE System.

Two (2) separate transactions are required to make the following corrections properly. Follow the directions for both Transactions 1 and 2. (See Note 1.)

1. Original return was filed with one or more of the following errors: **Transaction 1:** Identify incorrect returns.

- (a) No payee TIN (SSN, ITIN, ATIN or EIN)
- (b) Incorrect payee TIN
- (c) Incorrect payee name
- (d) Wrong type of indicator

- A.** Prepare a new Form 4804 that includes information related to this new file.
 - B.** Mark "Correction" in Block 1 of Form 4804.
 - C.** Prepare a new file. The first record on the file will be the Transmitter "T" Record.

Note: References to Form 4804 apply to magnetically filed media only. Form 4804 is not required for files submitted electronically through the FIRE System.

- D. Make a separate "A" Record for each type of return and each payer being reported. The information in the "A" Record will be **exactly** the same as it was in the original submission with one exception; remove the "1" from Field Position 48, and set the Correction File Indicator (Field Position 50) to "1".
- E. The Payee "B" Records must contain **exactly the same** information as submitted previously, **except**, insert a Corrected Return Indicator Code of "G" in Field Position 6 of the "B" Records, and enter "0" (zeros) in all payment amounts.
- F. Corrected returns submitted to IRS/MCC using "G" coded "B" Records may be on the same file as those returns submitted with a "C" code; **however, separate "A" Records are required.**
- G. Prepare a separate "C" Record for each type of return and each payer being reported.
- H. Continue with Transaction 2 to complete the correction.

Transaction 2: Report the correct information.

- A. Make a separate "A" Record for each type of return and each payer being reported. Remove the "1" in Field Position 48 and set the Correction File Indicator (Field Position 50), to "1" (one).
- B. The Payee "B" Records must show the correct information as well as a Corrected Return Indicator Code of "C" in Field Position 6.
- C. Corrected returns submitted to IRS/MCC using "C" coded "B" Records may be on the same file as those returns submitted with "G" codes; **however, separate "A" Records are required.**
- D. Prepare a separate "C" Record for each type of return and each payer being reported.
- E. The last record on the file will be the End of Transmission "F" Record.
- G. Indicate "Correction" on the external media label.

Note 1: See the 2002 General Instructions for Forms 1099, 1098, 5498, and W-2G for additional information on regulations affecting corrections and related penalties.

Note 2: If a filer is correcting the name and/or TIN in addition to any errors listed in item 2 of the chart, two transactions will be required. If a filer is reporting "G" coded, "C" coded, and/or "Non-coded" (original) returns on the same media, each category must be reported under separate "A" Records.

Sec. 12. Effect on Paper Returns and Statements to Recipients

.01 Electronic/Magnetic reporting of information returns eliminates the need to submit paper documents to the IRS. **CAUTION: Do not send Copy A of the paper forms to IRS/MCC for any forms filed electronically or magnetically.** This will result in duplicate filing; therefore, erroneous notices could be generated.

.02 Payers are responsible for providing statements to the payees as outlined in the *2002 General Instructions for Forms 1099, 1098, 5498, and W-2G*. Refer to those instructions for filing information returns on paper with the IRS and furnishing statements to recipients.

.03 Statements to recipients should be clear and legible. If the official IRS form is not used, the filer must adhere to the specifications and guidelines in Publication 1179, Rules and Specifications for Private Printing of Substitute Forms 1096, 1098, 1099, 5498, and W-2G.

Sec. 13. Combined Federal/State Filing Program

- Through the Combined Federal/State Filing (CF/SF) Program, IRS/MCC will forward certain original and corrected information returns filed electronically or magnetically to participating states for approved filers.
- For approval, the filer must submit a test file coded for this program. See Part A, Sec. 7, Test Files.
- For magnetic media test files, attach a letter to the Form 4804 requesting to participate in the CF/SF Program. The Form 4804 or letter is not required for tests sent electronically.
- Approved filers are sent a Form 6847, Consent for Internal Revenue Service to Release Tax Information, which must be completed and returned to IRS/MCC. A separate form is required for each payer.

.01 The Combined Federal/State Filing (CF/SF) Program was established to simplify information returns filing for the taxpayer. IRS/MCC will forward this information to participating states free of charge for approved filers. Separate reporting to those states is not necessary. The following information returns may be filed under the Combined Federal/State Filing Program:

Form 1099-DIV- - -	Dividends and Distributions
Form 1099-G- - - -	Certain Government Payments
Form 1099-INT- - - -	Interest Income
Form 1099-MISC- - -	Miscellaneous Income
Form 1099-OID- - -	Original Issue Discount
Form 1099-PATR- - -	Taxable Distributions Received From Cooperatives
Form 1099-R- - - -	Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc.
Form 5498- - - - -	IRA and Coverdell ESA Contribution Information

.02 To request approval to participate, a magnetic media test file coded for this program **must** be submitted to IRS/MCC between *November 1, 2002, and December 16, 2002*. Electronic test files coded for this program must be submitted between *November 1, 2002, and February 15, 2003*.

.03 Attach a letter to the Form 4804 submitted with the test file to indicate a desire to participate in the Combined Federal/State Filing Program. Test files sent electronically do not require the Form 4804 or letter. If the test file is coded for the Combined Federal/State Filing Program and is acceptable, an approval letter and Form 6847 will be sent to the filer.

.04 A test file is only required for the first year. Each record, both in the test and the actual data file, must conform to this Revenue Procedure.

.05 If the test file is acceptable, IRS/MCC will send the filer an approval letter, and a Form 6847, Consent for Internal Revenue Service to Release Tax Information, which the payer **must** complete, sign, and return to IRS/MCC before any tax information can be released to the state. Filers must write their TCC on Form 6847.

.06 If the test file is not acceptable, IRS/MCC will send magnetic media filers a letter indicating the problems. Electronic filers must dial back within two days to the FIRE System to check the acceptability of their test file. The new test file must be received by IRS/MCC no later than December 16, 2002 for magnetic media, or February 15, 2003 for an electronically filed test.

.07 A separate Form 6847 is **required** for each payer. A transmitter may not combine payers on one Form 6847 even if acting as Attorney-in-Fact for several payers. Form 6847 may be computer-generated as long as it includes all information that is on the

original form or it may be photocopied. If the Form 6847 is signed by an Attorney-in-Fact, the written consent from the payer must clearly indicate that the Attorney-in-Fact is empowered to authorize release of the information.

.08 Only code the records for participating states and for those payers who have submitted Form 6847.

.09 Some participating states require separate notification that the payer is filing in this manner. Since IRS/MCC acts as a forwarding agent only, it is the payer's responsibility to contact the appropriate states for further information.

.10 All corrections properly coded for the Combined Federal/State Filing Program will be forwarded to the participating states.

.11 Participating states and corresponding valid state codes are listed in **Table 1** of this section. The appropriate state code **must** be entered for those documents that meet the state filing requirements; **do not use state abbreviations**.

.12 Each state's filing requirements are subject to change by the state. It is the payer's responsibility to contact the participating states to verify their criteria.

.13 Upon submission of the actual files, the transmitter must be sure of the following:

- (a) All records must be coded exactly as required by this Revenue Procedure.
- (b) A State Totals "K" Record(s) for each state being reported **must** follow the "C" Record.
- (c) Payment amount totals and the valid participating state code must be included in the State Totals "K" Record(s).
- (d) The last "K" Record **must be** followed by an "A" Record or an End of Transmission "F" Record (if this is the last record of the entire file).

Sec. 14. Penalties Associated With Information Returns

.01 The following penalties generally apply to the person required to file information returns. The penalties apply to electronic/magnetic media filers as well as to paper filers.

.02 Failure To File Correct Information Returns by the Due Date (Section 6721). If you fail to file a correct information return by the due date and you cannot show reasonable cause, you may be subject to a penalty. The penalty applies if you fail to file timely, you fail to include all information required to be shown on a return, or you include incorrect information on a return. The penalty also applies if you file on paper when you were required to file on magnetic media, you report an incorrect TIN or fail to report a TIN, or you fail to file paper forms that are machine readable.

The amount of the penalty is based on when you file the correct information return. The penalty is:

- **\$15** per information return if you correctly file within 30 days of the due date of the return (See Part A, Sec. 9.01); maximum penalty \$75,000 per year (\$25,000 for small businesses).

- **\$30** per information return if you correctly file more than 30 days after the due date but by August 1; maximum penalty \$150,000 per year (\$50,000 for small businesses).
- **\$50** per information return if you file after August 1 or you do not file required information returns; maximum penalty \$250,000 per year (\$100,000 for small businesses).

.03 A late filing penalty may be assessed for a replacement file which is not returned by the required date. Files which require replacement more than two times will also be subject to penalty. See Part A, Sec. 10, for more information on replacement files.

.04 Intentional disregard of filing requirements. If any failure to file a correct information return is due to intentional disregard of the filing or correct information requirements, the penalty is at least \$100 per information return with no maximum penalty.

.05 Failure To Furnish Correct Payee Statements (Section 6722). For information regarding penalties which may apply to failure to furnish correct payee statements, see General Instructions for Forms 1099, 1098, 5498, and W-2G.

Sec. 15. State Abbreviations

.01 The following state and U.S. territory abbreviations are to be used when developing the state code portion of address fields. This table provides state and territory abbreviations only, and does not represent those states participating in the Combined Federal/State Filing Program.

State	Code	State	Code	State	Code
Alabama	AL	Kentucky	KY	Northern Mariana Islands	MP
Alaska	AK	Louisiana	LA	Ohio	OH
American Samoa	AS	Maine	ME	Oklahoma	OK
Arizona	AZ	Marshall Islands	MH	Oregon	OR
Arkansas	AR	Maryland	MD	Pennsylvania	PA
California	CA	Massachusetts	MA	Puerto Rico	PR
Colorado	CO	Michigan	MI	Rhode Island	RI
Connecticut	CT	Minnesota	MN	South Carolina	SC
Delaware	DE	Mississippi	MS	South Dakota	SD
District of Columbia	DC	Missouri	MO	Tennessee	TN
Federated States of Micronesia	FM	Montana	MT	Texas	TX
Florida	FL	Nebraska	NE	Utah	UT
Georgia	GA	Nevada	NV	Vermont	VT
Guam	GU	New Hampshire	NH	Virginia	VA
Hawaii	HI	New Jersey	NJ	(U.S.) Virgin Islands	VI
Idaho	ID	New Mexico	NM	Washington	WA
Illinois	IL	New York	NY	West Virginia	WV
Indiana	IN	North Carolina	NC	Wisconsin	WI
Iowa	IA	North Dakota	ND	Wyoming	WY
Kansas	KS				

.02 Filers must adhere to the city, state, and ZIP Code format for U.S. addresses in the “B” Record. This also includes American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.

.03 For foreign country addresses, filers may use a 51 position free format which should include city, province or state, postal code, and name of country in this order. This is allowable only if a “1” (one) appears in the Foreign Country Indicator, Field Position 247, of the “B” Record.

.04 When reporting APO/FPO addresses use the following format:

EXAMPLE:

Payee Name PVT Willard J. Doe
Mailing Address Company F, PSC Box 100
167 Infantry REGT
Payee City APO (or FPO)
Payee State AE, AA, or AP*
Payee ZIP Code 098010100

*AE is the designation for ZIPs beginning with 090–098, AA for ZIP 340, and AP for ZIPs 962–966.

Sec. 16. Major Problems Encountered

IRS/MCC encourages filers to verify the format and content of each type of record to ensure the accuracy of the data. This may eliminate the need for IRS/MCC to request replacement files. This may be important for those payers who have either had their files prepared by a service bureau or who have purchased preprogrammed software packages.

Filers who engage a service bureau to prepare media on their behalf should be careful not to report duplicate data which may generate penalty notices.

The Major Problems Encountered lists some of the most frequently encountered problems with electronic/magnetic files submitted to IRS/MCC. These problems may result in IRS/MCC requesting replacement files. Some of the problems resulted from not referring to this publication for instructions.

1. Incorrect Format

- Multiple Files on diskettes — Each diskette must contain only **ONE** file, named **IRSTAX**. A file consists of one Transmitter “T” Record followed by a Payer “A” Record, Payee “B” Records, End of Payer “C” Record, State Totals “K” Record (if applicable for CF/SF Program), and the End of Transmission “F” Record. A file can contain multiple Payer “A” Records, but, **only one** Transmitter “T” Record. See Part D, Sec. 10, for file layout diagram.
- Invalid record length — **ALL** Records must be 750 Positions in length.
- Prior tax year data **must** be formatted in the **current** tax year format. Be sure to use the **current Revenue Procedure (Publication 1220)** for formatting prior tax year data.

2. Unable to read tape cartridge.

Please review all tape cartridge specifications carefully (See Part C, Sections 1 and 2.)

3. No Form 4804, Transmittal of Information Returns Reported Magnetically

Each shipment of media sent to IRS/MCC must include a signed Form 4804. More than one type of media may be sent in the same shipment, (*i.e.*, diskette, and tape cartridge) but must have a separate Form 4804 to accompany **each type of media**.

4. Discrepancy Between IRS/MCC Totals and Totals in Payer “C” Records

The “C” Record is a summary record for a type of return for a given payer. IRS compares the total number of payees and payment amounts in the “B” records with totals in the “C” Records. The two totals **must** agree. Do **NOT** enter negative amounts except when reporting Forms 1099–B. Money amounts must be all numeric, right-justified and zero (0) filled. **Do Not Use Blanks**.

5. The Payment Amount Fields in the “B” Record Do Not Correspond to the Amount Codes in the “A” Record

The Amount Codes used in the “A” record **MUST** correspond with the payment amount fields used in the “B” records. The amount codes must be left-justified, in ascending order with the unused positions blank. For Example: If the “B” records show payment amounts in payment amount fields 2, 4, and 7, then the “A” record must correspond with 2, 4, and 7 in the amount codes field.

6. Incorrect TIN in Payer “A” Record

The Payer’s TIN reported in positions 12–20 of the “A” record must be nine numeric characters only. (**Do Not Enter Hyphen.**) The TIN and the First Payer Name Line provided in the “A” record must correspond.

7. Incorrect Tax Year in the Transmitter “T” Record, Payer “A” Record and the Payee “B” Records

The tax year in the transmitter, payer and payee records should reflect the tax year of the information return being reported. For prior tax year data, there must be a “P” in position 6 of the Transmitter “T” record. This position must be blank for current tax year data.

8. Incorrect Reporting of Form W-2 Information to IRS

Form W-2 information is submitted to SSA and **not** to IRS/MCC. **Any media received at IRS/MCC that contains W-2 information will be forwarded to SSA. The filer will be notified of this action by letter.** To inquire about filing Form W-2 information magnetically/electronically, call 1-800-SSA-6270.

9. Incorrect use of Test Indicator

When sending a test file, position 28 of the Transmitter "T" record must contain a "T", otherwise blank fill.

10. Incorrect Format for TINs in the Payee "B" Record

TINs entered in position 12-20 of the Payee "B" record must consist of nine numerics only. **(Do Not Enter Hyphens.)** Incorrect formatting of TINs may result in a penalty.

Payers/Transmitters who submit data with missing TINs, and have taken the required steps to obtain this information are encouraged to attach a letter of explanation to the required Form 4804. This letter, however, will not prevent backup withholding notices (CP2100 and CP2100A Notices) or proposed penalties (Notice 972CG) for missing or incorrect TINs. For penalty information, refer to the Penalty section of the *2002 General Instructions* for Forms 1099, 1098, 5498, and W-2G.

11. Distribution Codes for Form 1099-R Reported Incorrectly

For Forms 1099-R, there must be valid Distribution Code(s) in position 545-546 of the Payee "B" record. For valid codes (and combinations), see Form 1099-R Distribution Code Chart 2002 in Part D. If only one distribution code is required, it must be entered in position 545 and position 546 must be blank. A blank in position 545 is not acceptable.

12. Incorrect Record Totals Listed on Form 4804

The Combined Total Payee Records listed on the Form 4804 (Block 6) are used in the verification process of information returns. The figure in this block **must** be the total number of payee "B" records contained on individual piece of media submitted. A separate Form 4804 should be sent for each piece of media that contains a file.

13. Missing Correction Indicator in Payee "B" Record

When a file is submitted as a correction file, there must be a correction indicator, "G" or "C" in position 6 of the Payee "B" record. See Part A, Sec. 11.

Part B. Electronic Filing Specifications

Sec. 1. General

.01 Electronic filing of Forms 1098, 1099, 5498, and W-2G, originals, corrections, and replacements of information returns is offered as an alternative to magnetic media (tape cartridge or diskette) or paper filing, but is not a requirement. Transmitters filing electronically will fulfill the magnetic media requirements for those payers who are required to file magnetically. Payers who are under the filing threshold requirement may also file electronically. If the original file was sent magnetically, but IRS/MCC has requested a replacement file, the replacement may be transmitted electronically. Also, if the original file was submitted via magnetic media, any corrections may be transmitted electronically.

.02 All electronic filing of information returns are received at IRS/MCC via the FIRE (Filing Information Returns Electronically) System. The FIRE System can be accessed via analog and ISDN BRI connections. The system is designed to support the electronic filing of information returns only. The telephone number for electronic filing is **(304-262-2400)**.

.03 The electronic filing of information returns is not affiliated with the Form 1040 electronic filing program. These two programs are totally independent, and filers must obtain separate approval to participate in each of them. All inquiries concerning the electronic filing of information returns should be directed to IRS/MCC. IRS/MCC personnel cannot answer questions or assist taxpayers in the filing of Form 1040 and will direct taxpayers, to the Customer Service toll-free number (1-800-829-1040).

.04 Files submitted to IRS/MCC electronically must be in standard ASCII code. Do not send magnetic media or paper forms with the same information as the electronically submitted files. This would create duplicate reporting resulting in penalty notices.

.05 The record formats of the "T", "A", "B", "C", "K", and "F" records are the same for both electronically and magnetically filed records. See Part D, Record Format Specifications and Record Layouts.

Sec. 2. Advantages of Filing Electronically

Some of the advantages of filing electronically are as follows:

- (1) Paperless, no Form 4804 requirements.
- (2) Results available within 1–2 workdays regarding the acceptability of the data transmitted. It is the filer's responsibility to dial back in and check results.
- (3) Later due date than magnetic media or paper for electronically filed Forms 1098, 1099, and W–2G (refer to Part A, Sec. 9.01).
- (4) Allows more attempts than magnetic media filing to correct bad files within a specific time frame before imposing penalties (refer to Part B, Sec. 5.05).
- (5) Better customer service due to on-line availability of transmitter's files for research purposes.
- (6) Extended period to test electronic files: November 1, 2002 to February 15, 2003.

Sec. 3. Electronic Filing Approval Procedure

.01 Filers must obtain, or already have, a Transmitter Control Code (TCC) assigned prior to submitting files electronically. (Filers who currently have a TCC for magnetic media filing will not be assigned a second TCC for electronic filing.) Refer to Part A, Sec. 6, for information on how to obtain a TCC.

.02 Once a TCC is obtained, electronic filers assign their own logon name, password and PIN (Personal Identification Number) and do not need prior or special approval. See Part B, Sec. 6, for more information on the PIN.

.03 If a filer is submitting files for more than one TCC, it is not necessary to create a separate logon and password for each TCC.

.04 For all passwords, it is the user's responsibility to remember the password and not allow the password to be compromised. Passwords are user assigned at first logon and must be 8 alpha/numerics containing at least 1 uppercase, 1 lowercase, and 1 numeric. However, if filers forget their password or PIN, call *toll-free 1-866-455-7438* for assistance. The FIRE System will require users to change their passwords on a yearly basis.

Sec. 4. Test Files

.01 Filers are not required to submit a test file; however, the submission of a test file is encouraged for all new electronic filers to test hardware and software. If filers wish to submit an electronic test file for Tax Year 2002 (returns to be filed in 2003), it **must** be submitted to IRS/MCC **no earlier than** November 1, 2002, and **no later than** February 15, 2003.

.02 If a filer encounters problems while transmitting the electronic test file, contact IRS/MCC *toll-free at 1-866-455-7438* for assistance.

.03 Filers can verify the status of the transmitted test data by connecting to the FIRE System at **304-262-2400**. This information will be available within 1–2 workdays after the transmission is received by IRS/MCC.

.04 Form 4804 is not required for test files submitted electronically. See Part B, Sec. 6.

.05 A test file is required from filers who want approval for the Combined Federal/State Filing Program. See Part A, Sec. 13, for further details.

Sec. 5. Electronic Submissions

.01 Electronically filed information may be submitted to IRS/MCC 24 hours a day, 7 days a week. Technical assistance will be available Monday through Friday between 8:30 a.m. and 4:30 p.m. Eastern time by calling *toll-free at 1-866-455-7438*.

.02 The FIRE System will be down from December 27, 2002, through January 7, 2003. This allows IRS/MCC to update its system to reflect current year changes.

.03 Data compression is encouraged when submitting information returns electronically. WinZip and PKZip are acceptable compression packages. UNIX COMPRESS may be acceptable; however, a test file is recommended to verify compatibility. IRS/MCC cannot accept self-extracting zip files or compressed files containing multiple files.

The time required to transmit information returns electronically will vary depending on the modem speed and the type of data compression used, if any. **The time required to transmit a file can be reduced by as much as 95 percent by using compression.**

The following are transmission rates achieved in test uploads at MCC using compressed files. The transmission rates will vary depending on the modem speeds.

Transmission Speed in bps	1000 Records	10,000 Records	100,000 Records
19.2K	34 Sec.	6 Min.	60 Min.
56K	20 Sec.	3½ Min.	33 Min.
128K (ISDN)	8 Sec.	1 Min.	10 Min.

.04 Files submitted electronically will be assigned a unique filename by the FIRE System (the users may name files anything they choose from their end). The filename assigned by the FIRE System will consist of submission type (TEST, ORIG [original], CORR [correction], and REPL [replacement]), the filer's TCC and a four digit number sequence. The sequence number will be incremented for every file sent. For example, if it is your first original file for the calendar year and your TCC is 44444, the IRS assigned filename would be ORIG.44444.0001. **Record the filename.** This information will be needed by MCC to identify the file, if assistance is required.

.05 If a file was submitted timely and is bad, the filer will have up to 60 days from the day the file was transmitted or 4 replacement attempts within that 60 day period, whichever comes first, to transmit an acceptable file. If an acceptable file is not received within 60 days or within 4 replacement attempts, then the payer could be subject to late filing penalties. This only applies to files originally sent electronically.

.06 The following definitions have been provided to help distinguish between a correction and a replacement:

- A **correction** is an information return submitted by the transmitter to correct an information return that was previously submitted to and processed by IRS/MCC, but contained erroneous information. (See Note.)

☛ **Note: Corrections should only be made to records that have been submitted incorrectly, not the entire file.**

- A **replacement** is an information return file sent by the filer because FILE STATUS on the FIRE System indicated the original file was bad. After the necessary changes have been made, the file must be transmitted through the FIRE System. (See Note.)

☛ **Note: Filers should never transmit anything to IRS/MCC as a "Replacement" file unless FILE STATUS on the FIRE System indicates the file is bad.**

.07 The TCC in the Transmitter "T" Record must be the TCC used to transmit the file; otherwise, the file will be considered an error.

Sec. 6. PIN Requirements

.01 The Form 4804 is not required for electronic files. The user will be prompted to create a PIN consisting of 10 numerics when establishing their initial logon name and password.

.02 Filers must provide some on-line information, such as, company name, contact person and telephone number, before establishing their PIN number.

.03 The PIN is required each time a file is sent electronically and is permission to release the file. An authorized agent may enter their PIN, however, the payer is responsible for the accuracy of the returns. The payer will be liable for penalties for failure to comply with filing requirements. If you forget your PIN, please call *toll-free 1-866-455-7438* for assistance.

.04 If the file is good, it is released for mainline processing 10 calendar days from receipt. Contact us *toll-free 1-866-455-7438* within this 10-day period if there is a reason the file should not be released for further processing. If the file is bad, normal replacement procedures are followed.

Sec. 7. Electronic Filing Specifications

.01 The FIRE System is designed exclusively for the filing of Forms 1042-S, 1098, 1099, 5498, 8027, W-2G and W-4.

.02 A transmitter must have a TCC before a file can be transmitted. A TCC assigned for magnetic media filing, should also be used for electronic filing.

.03 The results of the electronic transmission will be available in the File Status area of the FIRE System within 1-2 business days. It is the filer's responsibility to dial back to verify the acceptability of files submitted by checking the File Status area of the system. Forms 1042-S, 8027 and W-4 require a longer processing time.

.04 Connect to the FIRE System by dialing **304-262-2400**. This number supports analog connections from 1200bps to 56Kbps or ISDN BRI 128Kbps. The system can be accessed via Dial-up network/web browser (see Part B, Sec. 8) or communications software such as Hyperterminal, Procomm, PCAnywhere or other VT100 emulation products (see Part B, Sec.9). The Dial-up network/web browser (point-to-point) will provide an Internet-like look, however, it is not the Internet.

Sec. 8. Dial-up Network/Browser Specifications (Web Interface)

.01 The following are some general instructions (many of these may already be set by default in your software):

Dial-up network settings:

- (a) Set dial-up server type to PPP
- (b) Set network protocol to TCP/IP
- (c) Disable software compression
- (d) Windows NT — Disable PPP-LCP extensions by clicking the 'More' option on the 'Dial' screen, then click on 'Edit entry and modem properties' and the Server folder.
- (e) Windows 2000 and XP — Disable the LCP extension by going to your Dial-up Networking Properties, Networking and Settings.

Browser settings:

- (a) Browser must be capable of file uploads (*i.e.*, Internet Explorer 4.0, Netscape 2.0 or higher)
 - (b) Enter the URL address of *http://10.225.224.2* after you have connected via dial-up. (Remember, this is a point-to-point connection, not the Internet.)
- .02 Before dialing have your TCC and EIN available.
- .03 Due to the large number of communication products available, it is impossible to provide specific information on all software/hardware configurations. Sec. 11. Common Problems and Questions Associated with Electronic Filing

.01 Refer to Part A, Sec. 16, for common format errors associated with electronic/magnetic files.

.02 The following are the major non-format errors associated with electronic filing:

1. Transmitter does not dial back to the electronic system to determine file acceptability.

The results of your file transfer are posted to the FIRE System within two business days. It is your responsibility to verify file acceptability and, if the file contains errors, you can get an online listing of the errors. Date received and number of payee records are also displayed. If the file is good, but you do not want the file processed, you must contact IRS/MCC within 10 days from the transmission of your file.

2. Incorrect file is not replaced timely.

If your file is bad, correct the file and timely resubmit as a replacement.

3. Transmitter compresses several files into one.

Only compress one file at a time. For example, if you have 10 uncompressed files to send, compress each file separately and send 10 separate compressed files.

4. Transmitter sends a file and File Status indicates that the file is good, but the transmitter wants to send a replacement or correction file to replace the original/correction/replacement file.

Once a file has been transmitted, you cannot send a replacement file unless File Status indicates the file is bad (1-2 business days after file was transmitted). If you do not want us to process the file, you must first contact us **toll-free at 1-866-455-7438** to see if this is a possibility.

5. Transmitter sends an original file that is good, then sends a correction file for the entire file even though there are only a few changes.

The correction file, containing the proper coding, should only contain the records requiring correction, not the entire file.

6. File is formatted as EBCDIC.

All files submitted electronically must be in standard ASCII code.

7. Transmitter has one TCC number, but is filing for multiple companies, which EIN should be used when logging into the system to send the file?

When sending the file electronically, you will need to enter the EIN of the company assigned to the TCC. When you upload the file, it will contain the EIN's for the companies, for whom you are filing. This information will be passed forward.

8. Transmitter sent the wrong file, what should be done?

Call us as soon as possible *toll-free at 1-866-455-7438, ext. 3*. We may be able to stop the file before it has been processed. **Please do not send a replacement for a file that is marked as a good file.**

.03 The following are the most common problems encountered when connecting with dial-up networking/web browser:

1. Transmitter is unable to connect to the FIRE System using dial-up networking.

- The user name and password should be blank when trying to connect unless it is needed by your system.
- Windows 95/98: Disable **“enable software compression”**
- Windows NT/2000: Disable both **“enable software compression”** and **“enable PPP/LCP extensions”**
- TCP/IP should be the only network protocol that is enabled.

(Make sure you are using analog lines rather than digital.)

2. Transmitter is connecting using dial-up networking, but is unable to bring up the URL address using the web browser.

- Proxy server should be disabled for a dial-up connection.
 - **“Using a modem”** option should be selected.
 - The home page should either display **http://10.225.224.2** or be set to **“about:blank”**.
 - The security level should be set at medium.
 - The option **“enable software compression”** should be disabled under Dial-Up Networking.
-

3. Transmitter clicks on “start the fire application”, but the logon screen is displayed again.

Your browser must be set to receive **“cookies”**.

4. Transmitter is getting a menu when connecting with dial-up networking.

The option **“pop-up a terminal window”** should be disabled.

5. Transmitter cannot find the browse button to upload file.

If using Internet Explorer, you must have version 4.0 or higher. If using Netscape Navigator, it must be version 2.0 or higher.

6. The line is busy when dialed.

We have enough lines available that you should not get this message. Check the phone number being dialed. It should be **304-262-2400**. If you need a number such as an 8 or a 9 to access an outside line, make sure it is present. Also, some companies require an access code for long distance dialing.

7. I am receiving the error message “Remote PPP Peer Not Responding” or receiving a 718 error with Windows 2000 or XP.

Disable “**enable LCP Extensions**” in Dial-Up Networking. (This is located in Dial-up Networking Properties, Networking, and Settings.)

.04 The following are the most common problems encountered when connecting with hyperterminal.

1. Transmitter is unable to connect using hyperterminal.

- If you need a number such as an 8 or a 9 to access an outside line, make sure it is present.
- Set the terminal emulation to VT100.
- Try lowering the modem speed.
- Turn the modem off and then back on to reset it.

(Make sure you are using analog lines rather than digital.)

2. Transmitter is getting the message “annex command line interpreter”.

Disconnect and try again. You may need to lower the modem speed if this happens several times in a row.

3. When trying to logon, the cursor is not in the correct box, or the menus are distorted.

The terminal emulation must be set to VT100. Also, verify that the data bits are set at 8, the stop bit is set at 1 and parity is set at None.

4. Transmitter was able to connect and the menu is displayed, but is unable to type anything.

Scroll lock cannot be turned on.

5. When transmitter connects, the menus keep scrolling and display garbage characters.

Make sure “**Use error control**” and “**Compress data**” are enabled under the Advanced Connection Settings.

6. Transmitter receives message “bad data packet” when the file is transmitting. What does this mean?

Your modem is having problems sending the data, so it is trying to resubmit it. Normally, if the transfer does not abort, the file will be sent successfully.

Part C. Magnetic Media Specifications

.01 Transmitters should be consistent in the use of recording codes and density on files. If the media does not meet these specifications, IRS/MCC will request a replacement file. Filers are encouraged to submit a test prior to submitting the actual file. Contact IRS/MCC for further information *toll-free at 1-866-455-7438*. Transmitters should also check media for viruses before submitting it to IRS/MCC.

Sec. 1. Tape Cartridge Specifications

- .01** In most instances, IRS/MCC can process tape cartridges that meet the following specifications:
- (a) Must be IBM 3480, 3490, 3490E, 3590, 3590E or AS400 compatible.
 - (b) Must meet American National Standard Institute (ANSI) standards, and have the following characteristics:
 - (1) Tape cartridges will be ½-inch tape contained in plastic cartridges which are approximately 4-inches by 5-inches by 1-inch in dimension.
 - (2) Magnetic tape will be chromium dioxide particle based ½-inch tape.
 - (3) Cartridges must be 18-track, 36-track, 128-track or 256-track parallel (**See Note**).
 - (4) Cartridges will contain 37,871 CPI, 75,742 CPI, or 3590 CPI (characters per inch).
 - (5) Mode will be full function.
 - (6) The data may be compressed using EDRC (Memorex) or IDRC (IBM) compression.
 - (7) Either EBCDIC (Extended Binary Coded Decimal Interchange Code) or ASCII (American Standard Coded Information Interchange) may be used.
- .02** The tape cartridge records defined in this Revenue Procedure may be blocked subject to the following:
- (a) A block **must not** exceed 32,250 tape positions.
 - (b) If the use of blocked records would result in a short block, all remaining positions of the block must be filled with 9s; however, the last block of the file may be filled with 9s or truncated. **Do not pad a block with blanks.**
 - (c) All records, except the header and trailer labels, may be blocked or unblocked. A record may not contain any control fields or block descriptor fields which describe the length of the block or the logical records within the block. The number of logical records within a block (the blocking factor) must be constant in every block with the exception of the last block which may be shorter (see item (b) above). The block length must be evenly divisible by 750.
 - (d) Records may not span blocks.
- .03** Tape cartridges may be labeled or unlabeled.
- .04** For the purposes of this Revenue Procedure, the following must be used:
- Tape Mark:
- (a) Signifies the physical end of the recording on tape.
 - (b) For even parity, use BCD configuration 001111 (8421).
 - (c) May follow the header label and precede and/or follow the trailer label.

☛ **Note:** Filers should indicate on the external media label whether the cartridge is 18-track, 36-track, 128-track or 256-track.

Sec. 2. 8mm, 4mm, and Quarter-Inch Cartridge Specifications

☛ **Note:** Beginning in calendar year 2004 for Tax Year 2003, IRS/MCC will no longer accept 8mm, 4mm, and Quarter Inch Cartridges (QIC).

- .01** In most instances, IRS/MCC can process tape cartridges that meet the following specifications:
- (a) **General**
- (1) Must meet American National Standard Institute (ANSI) standards, and have the following characteristics:
 - Created from an AS400 operating system only.
 - Mode will be full function.
 - Compressed data is not acceptable.
 - Either EBCDIC (Extended Binary Coded Decimal Interchange Code) or ASCII (American Standard Coded Information Interchange) may be used. However, IRS/MCC encourages the use of EBCDIC. This information must appear on the external media label affixed to the cartridge.
 - A file may consist of more than one cartridge; however, no more than 250,000 documents may be transmitted per file or per cartridge. The filename, for example, IRSTAX, will contain a three digit extension. The extension will indicate the sequence of the cartridge within the file (e.g., 1 of 3, 2 of 3, and 3 of 3 will appear in the header label as IRSTAX.001, IRSTAX.002, and IRSTAX.003 on each cartridge of the file). The Transmitter "T" Record must only appear on the first cartridge. The End of Transmission "F" Record should be placed only on the last cartridge for files containing multiple cartridges.
 - (2) The tape cartridge records defined in this Revenue Procedure may be blocked subject to the following:
 - A block **must not** exceed 32,250 tape positions.
 - If the use of blocked records would result in a short block, the last block of the file may be filled with 9s or truncated.
 - All records, except the header and trailer labels, may be blocked or unblocked. A record may not contain any control fields or block descriptor fields which describe the length of the block or the logical records within the block. The number of logical records within a block (the blocking factor) must be constant in every block with the exception of the last block which may be shorter (see above). The block length must be evenly divisible by 750.

- Various COPY commands have been successful; however, the **SAVE OBJECT COMMAND** is not acceptable.
 - Extraneous data following the “F” Record will result in IRS/MCC requesting a replacement file. Therefore, IRS/MCC encourages transmitters to use a blank tape cartridge, rather than used cartridges, in the preparation of data when submitting information returns.
 - Records may not span blocks.
 - No more than 250,000 documents per cartridge and per file.
- (3) For faster processing, IRS/MCC encourages transmitters to use header labeled cartridges. Filers should use IRSTAX as a filename.
- (4) For the purposes of this Revenue Procedure, the following must be used:
Tape Mark:
- Signifies the physical end of the recording on tape.
 - For even parity, use BCD configuration 001111 (8421).
 - May follow the header label and precede and/or follow the trailer label.
- (5) IRS/MCC can only read one data file on a tape. A data file is a group of records which may or may not begin with a tapemark, but must end with a trailer label. Any data beyond the trailer label cannot be read by IRS programs.
- (b) 8mm cartridge specifications**
- (1) 8mm (.315-inch) tape cartridges will be 2½-inch by 3¾-inch.
- (2) These are the **only** 8mm tape cartridges IRS/MCC can accept:

Tracks	Density	Capacity
1	20 (43245 BPI)	2.3 Gb
1	21 (45434 BPI)	5 Gb

☛ **Note: Advanced Metal Evaporated (AME) cartridges are not acceptable.**

(c) 4mm cartridge specifications

- (1) 4mm (.157-inch) cartridges will be 2¼-inch by 3-inch.
- (2) These are the **only** 4mm cartridges IRS/MCC can accept:

Tracks	Density	Capacity
1	19 (61000 BPI)	1.3 Gb (60 meter) DDS
1	19 (61000 BPI)	2 Gb (90 meter) DDS
1	19 (61000 BPI)	4 Gb (120 meter) DDS-2

(d) Quarter-Inch Cartridges (QIC) (1/4-inch) specifications

- (1) QIC cartridges will be 4” by 6”.
- (2) These are the **only** QIC cartridges IRS/MCC accepts:

Size	Tracks	Density	Capacity
QIC-24	8/9	5 (8000 BPI)	45Mb or 60Mb
QIC-120	15	15 (10000 BPI)	120Mb or 200Mb
QIC-150	18	16 (10000 BPI)	150Mb or 250Mb
QIC-525	26	17 (16000 BPI)	525Mb
QIC-1000	30	21 (36000 BPI)	1Gb
QIC-2Gb	42	34 (40640 BPI)	2Gb

.02 IRS/MCC strongly recommends filers using 8mm, 4mm or Quarter-Inch cartridges send in test media.(See Part A, Sec. 7).

Sec. 3. 3½-Inch Diskette Specifications

.01 To be compatible, a diskette file must meet the following specifications:

- (a) 3½-inches in diameter.
- (b) Data **must** be recorded in standard ASCII code.
- (c) Records must be a fixed length of 750 bytes per record.
- (d) Delimiter character commas (,) must not be used.
- (e) Positions 749 and 750 of each record have been reserved for use as carriage return/line feed (cr/lf) characters, if applicable.

- (f) Filename of IRSTAX must be used. Do not enter any other data in this field. If a file will consist of more than one diskette, the filename IRSTAX will contain a three-digit extension. This extension will indicate the sequence of the diskettes within the file. For example, if the file consists of three diskettes, the first diskette will be named IRSTAX.001, the second will be IRSTAX.002, and the third will be IRSTAX.003. The first diskette, IRSTAX.001 will begin with a "T" Record and the third diskette, IRSTAX.003 will have an "F" Record at the end of the file.
- (g) A diskette cannot contain multiple files. A file can have only **ONE** Transmitter "T" Record.
- (h) Failure to comply with instructions will result in IRS/MCC requesting a replacement file.
- (i) Diskettes must meet one of the following specifications:

Capacity	Tracks	Sides/Density	Sector Size
1.44 mb	96tpi	hd	512
1.44 mb	135tpi	hd	512

.02 IRS/MCC encourages transmitters to use blank or currently formatted diskettes when preparing files. If extraneous data follows the End of Transmission "F" Record, IRS/MCC will request a replacement file.

.03 IRS/MCC will **only** accept 3½-inch diskettes created using MS-DOS.

.04 3½-inch diskettes created on a System 36 or iSeries(AS400) are **not acceptable**.

.05 *Compressed data is not acceptable.*

Part D. Record Format Specifications and Record Layouts

Sec. 1. General

.01 The specifications contained in this part of the Revenue Procedure define the required formation and contents of the records to be included in the electronic or magnetic media files.

.02 A provision is made in the "B" Records for entries which are optional. If the field is not used, enter blanks to maintain a fixed record length of 750 positions. Each field description explains the intended use of specific field positions.

Sec. 2. Transmitter "T" Record — General Field Descriptions

.01 The Transmitter "T" Record identifies the entity transmitting the electronic/magnetic media file and contains information which is critical if it is necessary for IRS/MCC to contact the filer.

.02 The Transmitter "T" Record is the first record on each file and is followed by a Payer "A" Record. A file format diagram is located at the end of Part D. A replacement file will be requested by IRS/MCC if the "T" Record is not present. For transmitters with multiple diskettes, refer to Part C, Sec. 3, 3½-Inch Diskette Specifications.

.03 For all fields marked "**Required**", the transmitter must provide the information described under Description and Remarks. For those fields not marked "**Required**", a transmitter must allow for the field, but may be instructed to enter blanks or zeros in the indicated field positions and for the indicated length.

.04 All records must be a fixed length of 750 positions.

.05 All alpha characters entered in the "T" Record must be upper-case, except email addresses which may be case sensitive. **Do not use punctuation in the name and address fields.**

Sec. 4. Payer “A” Record — General Field Descriptions

.01 The Payer “A” Record identifies the person making payments, a recipient of mortgage or student loan interest payments, an educational institution, a broker, a person reporting a real estate transaction, a barter exchange, a creditor, a trustee or issuer of any IRA or MSA plan, and a lender who acquires an interest in secured property or who has a reason to know that the property has been abandoned. The payer will be held responsible for the completeness, accuracy, and timely submission of electronic/magnetic files.

.02 The second record on the file must be an “A” Record. A transmitter may include Payee “B” Records for more than one payer in a file. However, **each group** of “B” Records must be preceded by an “A” Record and followed by an End of Payer “C” Record. A single file may contain different types of returns but the types of returns **must not** be intermingled. A separate “A” Record is required for each payer and each type of return being reported.

.03 The number of “A” Records depends on the number of payers and the different types of returns being reported. Do not submit separate “A” Records for each payment amount being reported. For example, if a payer is filing Form 1099-DIV to report Amount Codes 1, 2 and 3, all three amount codes should be reported under one “A” Record, not three separate “A” Records.

.04 The maximum number of “A” Records allowed on a file is 90,000.

.05 All records must be a fixed length of 750 positions.

.06 All alpha characters entered in the “A” Record must be upper-case.

.07 For all fields marked “**Required**”, the transmitter must provide the information described under Description and Remarks. For those fields not marked “**Required**”, a transmitter must allow for the field, but may be instructed to enter blanks or zeros in the indicated media position(s) and for the indicated length.

Record Name: Payer “A” Record

Field Position	Field Title	Length	Description and Remarks
1	Record Type	1	Required. Enter an “A”
2–5	Payment Year	4	Required. Enter “2002” (unless reporting prior year data; report the year which applies [2000, 2001, etc.]).
6–11	Blank	6	Enter blanks.
12–20	Payer’s Taxpayer Identification Number(TIN)	9	Required. Must be the valid nine-digit Taxpayer Identification Number assigned to the payer. Do not enter blanks, hyphens, or alpha characters. All zeros, ones, twos, etc., will have the effect of an incorrect TIN.

Note: For foreign entities that are not required to have a TIN, this field must be blank. However, the Foreign Entity Indicator, position 52 of the “A” Record, must be set to “1” (one).

21–24	Payer Name Control	4	The Payer Name Control can be obtained only from the mail label on the Package 1099 that is mailed to most payers each December. Package 1099 contains Form 7018-C, Order Blank for Forms, and the mail label on the package contains a four (4) character name control. If a Package 1099 has not been received, you can determine your name control using the following simple rules or you can leave the field blank. For a business, use the first four significant characters of the business name. Disregard the word “the” when it is the first word of the name, unless there are only two words in the name. A dash (-) and an ampersand (&) are the only acceptable special characters. Names of less than four (4) characters should be left-justified, filling the unused positions with blanks.

Sec. 6. Payee "B" Record — General Field Descriptions and Record Layouts

.01 The "B" Record contains the payment information from the information returns. The record layout for field positions 1 through 543 is the same for all types of returns. Field positions 544 through 750 vary for each type of return to accommodate special fields for individual forms. In the "B" Record, the filer **must** allow for all twelve Payment Amount Fields. For those fields not used, enter "0s" (zeros).

.02 The following specifications include a field in the payee records called “Name Control” in which the first four characters of the payee’s surname are to be entered by the filer;

(a) If filers are unable to determine the first four characters of the surname, the Name Control Field may be left blank. Compliance with the following will facilitate IRS computer programs in identifying the correct name control:

- (1) The surname of the payee whose TIN is shown in the “B” Record should always appear first. If, however, the records have been developed using the first name first, the filer must leave a blank space between the first and last names.
- (2) In the case of multiple payees, only the surname of the payee whose TIN (SSN, EIN, ITIN, or ATIN) is shown in the “B” Record must be present in the First Payee Name Line. Surnames of any other payees may be entered in the Second Payee Name Line.

.03 For all fields marked “**Required**”, the transmitter must provide the information described under “Description and Remarks”. For those fields not marked “**Required**”, the transmitter must allow for the field, but may be instructed to enter blanks or zeros in the indicated field position(s) and for the indicated length.

.04 All records must be a fixed length of 750 positions.

.05 A field is also provided in these specifications for Special Data Entries. This field may be used to record information required by state or local governments, or for the personal use of the filer. IRS does not use the data provided in the Special Data Entries Field; therefore, the IRS program does not check the content or format of the data entered in this field. It is the filer’s option to use the Special Data Entry Field.

.06 Following the Special Data Entries Field in the “B” Record, payment fields have been allocated for State Income Tax Withheld and Local Income Tax Withheld. These fields are for the convenience of the filers. The information will not be used by IRS/MCC.

.07 Those payers participating in the Combined Federal/State Filing Program must adhere to all of the specifications in Part A, Sec. 13, to participate in this program.

.08 All alpha characters in the “B” Record must be uppercase.

.09 Do not use decimal points (.) to indicate dollars and cents. Payment Amount Fields must be all numerics.

Record Name: Payee “B” Record

Field Position	Field Title	Length	Description and Remarks
1	Record Type	1	Required. Enter “B”.
2–5	Payment Year	4	Required. Enter “2002” (unless reporting prior year data; report the year which applies [2000, 2001, etc.]).
6	Corrected Return Indicator (See Note.)	1	Required for corrections only. Indicates a corrected return.
			<u>Code</u> <u>Definition</u>
			G If this is a one-transaction correction or the first of a two-transaction correction.
			C If this is the second transaction of a two-transaction correction.
			Blank If this is not a return being submitted to correct information already processed by IRS.

☛ Note: C, G, and non-coded records must be reported using separate Payer “A” Records. Refer to Part A, Sec. 11, for specific instructions on how to file corrected returns.

Record Name: Payer "B" Record (Continued)

Field Position	Field Title	Length	Description and Remarks
7-10	Name Control	4	If determinable, enter the first four characters of the surname of the person whose TIN is being reported in positions 12-20 of the "B" Record; otherwise, enter blanks . This usually is the payee. If the name that corresponds to the TIN is not included in the first or second payee name line and the correct name control is not provided, a backup withholding notice may be generated for the record. Surnames of less than four characters should be left-justified, filling the unused positions with blanks. Special characters and imbedded blanks should be removed. In the case of a business, other than a sole proprietorship, use the first four significant characters of the business name. Disregard the word "the" when it is the first word of the name, unless there are only two words in the name. A dash (-) and an ampersand (&) are the only acceptable special characters. Surname prefixes are considered, e.g., for Van Elm, the name control would be VANE. For a sole proprietorship use the name of the owner to create the name control and report the owner's name in positions 248 - 287, First Payer Name Line.

Note: Imbedded blanks, extraneous words, titles, and special characters (i.e., Mr., Mrs., Dr., period [.] , apostrophe ['']) should be removed from the Payee Name Lines. This information may be dropped during subsequent processing at IRS/MCC. A dash (-) and an ampersand (&) are the only acceptable special characters.

The following examples may be helpful to filers in developing the Name Control:

11	Type of TIN	1	This field is used to identify the Taxpayer Identification Number (TIN) in positions 12–20 as either an Employer Identification Number (EIN), a Social Security Number (SSN), an Individual Taxpayer Identification Number (ITIN) or an Adoption Taxpayer Identification Number(ATIN). Enter the appropriate code from the following table:																		
			<table border="1"> <thead> <tr> <th><u>Code</u></th> <th><u>Type of TIN</u></th> <th><u>Type of Account</u></th> </tr> </thead> <tbody> <tr> <td>1</td> <td>EIN</td> <td>A business, organization, sole proprietor, or other entity</td> </tr> <tr> <td>2</td> <td>SSN</td> <td>An individual, including a sole proprietor</td> </tr> <tr> <td>2</td> <td>ITIN</td> <td>An individual required to have a taxpayer identification number, but who is not eligible to obtain an SSN</td> </tr> <tr> <td>2</td> <td>ATIN</td> <td>An adopted individual prior to the assignment of a social security number</td> </tr> <tr> <td>Blank</td> <td>N/A</td> <td>If the type of TIN is not determinable, enter a blank.</td> </tr> </tbody> </table>	<u>Code</u>	<u>Type of TIN</u>	<u>Type of Account</u>	1	EIN	A business, organization, sole proprietor, or other entity	2	SSN	An individual, including a sole proprietor	2	ITIN	An individual required to have a taxpayer identification number, but who is not eligible to obtain an SSN	2	ATIN	An adopted individual prior to the assignment of a social security number	Blank	N/A	If the type of TIN is not determinable, enter a blank.

2	ATIN	An adopted individual prior to the assignment of a social security number

Record Name: Payee "B" Record (Continued)

Field Position	Field Title	Length	Description and Remarks
12-20	Payee's Taxpayer Identification Number(TIN)	9	Required. Enter the nine-digit Taxpayer Identification Number of the payee (SSN, ITIN, ATIN, or EIN). If an identification number has been applied for but not received, enter blanks. Do not enter hyphens or alpha characters. All zeros, ones, twos, etc., will have the effect of an incorrect TIN. If the TIN is not available, enter blanks. Payers who submit data with missing TINs, and have taken the required steps to obtain this information, should submit a letter with their media.
<p>Note: If you are required to report payments made through Foreign Intermediaries and Foreign Flow-Through Entities on Form 1099, see the 2002 General Instruction for Forms 1099, 1098, 5498 and W-2G beginning on page 13 for reporting requirements.</p>			
21-40	Payer's Account Number For Payee	20	Enter any number assigned by the payer to the payee (e.g., checking or savings account number). Filers are encouraged to use this field. This number helps to distinguish individual payee records and should be unique for each document. Do not use the payee's TIN since this will not make each record unique. This information is particularly useful when corrections are filed. This number will be provided with the backup withholding notification and may be helpful in identifying the branch or subsidiary reporting the transaction. Do not define data in this field in packed decimal format. If fewer than twenty characters are used, filers may either left or right-justify, filling the remaining positions with blanks.
41-44	Payer's Office Code	4	Enter office code of payer; otherwise, enter blanks. For payers with multiple locations, this field may be used to identify the location of the office submitting the information return. This code will also appear on backup withholding notices.
45-54	Blank	10	Enter blanks
	Payment Amount Fields (Must be numeric)		Required. Filers should allow for all payment amounts. For those not used, enter zeros. Each payment field must contain 12 numeric characters. Each payment amount must contain U.S. dollars and cents. The right-most two positions represent cents in the payment amount fields. Do not enter dollar signs, commas, decimal points, or negative payments, except those items that reflect a loss on Form 1099-B. Positive and negative amounts are indicated by placing a "+" (plus) or "-" (minus) sign in the left-most position of the payment amount field. A negative over punch in the units position may be used, instead of a minus sign, to indicate a negative amount. If a plus sign, minus sign, or negative over punch is not used, the number is assumed to be positive. Negative over punch cannot be used in PC created files. Payment amounts must be right-justified and unused positions must be zero-filled.
55-66	Payment Amount 1*	12	The amount reported in this field represents payments for Amount Code 1 in the "A" Record.
67-78	Payment Amount 2*	12	The amount reported in this field represents payments for Amount Code 2 in the "A" Record.
79-90	Payment Amount 3*	12	The amount reported in this field represents payments for Amount Code 3 in the "A" Record.
91-102	Payment Amount 4*	12	The amount reported in this field represents payments for Amount Code 4 in the "A" Record.
103-114	Payment Amount 5*	12	The amount reported in this field represents payments for Amount Code 5 in the "A" Record.

187–198	Payment Amount C*	12	The amount reported in this field represents payments for Amount Code C in the "A" Record.
* If there are discrepancies between the payment amount fields and the boxes on the paper forms, the instructions in this Revenue Procedure govern.			
199–246	Reserved	48	Enter blanks.
247	Foreign Country Indicator	1	If the address of the payee is in a foreign country, enter a "1" (one) in this field; otherwise, enter blank. When filers use this indicator, they may use a free format for the payee city, state, and ZIP Code. Enter information in the following order: city, province or state, postal code, and the name of the country. Address information must not appear in the First or Second Payee Name Line.
248–287	First Payee Name Line	40	Required. Enter the name of the payee (preferably surname first) whose Taxpayer Identification Number (TIN) was provided in positions 12–20 of the "B" Record. Left-justify and fill unused positions with blanks. If more space is required for the name, use the Second Payee Name Line Field. The names of any other payees may be entered in the Second Payee Name Line Field. If reporting information for a sole proprietor, the individual's name must always be present, preferably on the First Payee Name Line. The use of the business name is optional in the Second Payee Name Line Field. End the First Payee Name Line with a full word. Use appropriate spacing. Extraneous words, titles, and special characters (i.e., Mr., Mrs., Dr., period, apostrophe) should be removed from the Payee Name Lines. This information may be dropped during subsequent processing at IRS/MCC. A dash (-) and an ampersand (&) are the only acceptable special characters.
<p>Note: If you are required to report payments made through Foreign Intermediaries and Foreign Flow-Through Entities on Form 1099, see the 2002 General Instruction for Forms 1099, 1098, 5498 and W-2G beginning on page 13 for reporting requirements.</p>			
288–327	Second Payee Name Line	40	If there are multiple payees (e.g., partners, joint owners, or spouses), use this field for those names not associated with the TIN provided in positions 12–20 of the "B" Record, or if not enough space was provided in the First Payee Name Line, continue the name in this field. Do not enter address information. It is important that filers provide as much payee information to IRS/MCC as possible to identify the payee associated with the TIN. Left-justify and fill unused positions with blanks. See Note above in First Payee Name Line.
328–367	Blank	40	Enter blanks.

Record Name: Payee "B" Record (Continued)

Street address should include number, street, apartment or suite number (or PO Box if mail is not delivered to street address). Left-justify information and fill unused positions with blanks. This field must not contain any data other than the payee's mailing address.

448-487	Payee City	40	Required. Enter the city, town or post office. Left-justify information and fill the unused positions with blanks. Enter APO or FPO if applicable. Do not enter state and ZIP Code information in this field.
488-489	Payee State	2	Required. Enter the valid U.S. Postal Service state abbreviations for states or the appropriate postal identifier (AA, AE, or AP) described in Part A, Sec. 15.
490-498	Payee ZIP Code	9	Required. Enter the valid ZIP Code (nine or five digit) assigned by the U.S. Postal Service. If only the first five-digits are known, left-justify information and fill the unused positions with blanks. For foreign countries, alpha characters are acceptable as long as the filer has entered a "1" (one) in the Foreign Country Indicator, located in position 247 of the "B" Record.
499	Blank	1	Enter blank.
500-507	Record Sequence Number	8	Required. Enter the number of the record as it appears within your file. The record sequence number for the "T" record will always be "1" (one), since it is the first record on your file. Each record, thereafter, must be incremented by one in ascending numerical sequence, i.e. 2, 3, 4 etc. Right-justify numbers with leading zeroes in the field. For example, the "T" record sequence number would appear as "00000001" in the field.

			T Roth IRA distribution, exception applies (This code may be used with Code 5, 8, or P.)

*If reporting a traditional IRA, SEP, or SIMPLE distribution or a Roth conversion, use the IRA/SEP/SIMPLE Indicator of “1” (one) in position 548 of the Payee “B” Record.

☞ Note: The trustee of the first IRA must report the recharacterization as a distribution on Form 1099-R (and the original contribution and its character on Form 5498).

547	Taxable Amount Not Determined	1	Enter “1” (one) only if the taxable amount of the payment entered for Payment Amount Field 1 (Gross Distribution) of the “B” Record cannot be computed; otherwise, enter blank. Part E. Extensions of Time and Waivers

Sec. 1. General — Extensions

.01 An extension of time to file may be requested for Forms 1098, 1099, 5498, 5498-MSA, W-2G, W-2 series, 8027 and 1042-S.

.02 Form 8809, Request for Extension of Time To File Information Returns, should be submitted to IRS/MCC at the address listed in .08 of this section. This form may be used to request an extension of time to file information returns submitted on paper, electronically, or magnetically to the IRS. Use a separate Form 8809 for each method of filing information returns you intend to use, i.e. electronically and/or magnetically.

.03 To be considered, an extension request must be postmarked or transmitted by the due date of the returns; otherwise, the request will be denied. (See Part A, Sec. 9, for due dates.) If requesting an extension of time to file several types of forms, use one Form 8809; however, the Form 8809 or file must be postmarked no later than the earliest due date. For example, if requesting an extension of time to file both Forms 1099-INT and 5498, submit Form 8809 on or before February 28, 2003. (See Note.)

☛ **Note: For Tax Year 2002, if you will be filing Forms 1098, 1099, or W-2G electronically, the Form 8809 is not required unless an extension is needed beyond March 31, 2003.**

.04 As soon as it is apparent that a 30-day extension of time to file is needed, an extension request should be submitted. It will take a minimum of 30 days for IRS/MCC to respond to an extension request. Generally, IRS/MCC does not begin processing extension requests until January. Extension requests received prior to January are input on a first come, first serve basis.

.05 Under certain circumstances, a request for an extension of time could be denied. When a denial letter is received, any additional or necessary information may be resubmitted within 20 days.

.06 Requesting an extension of time for multiple payers (50 or less) may be done by submitting Form 8809 and attaching a list of the payer names and associated TINs (EIN or SSN). **The listing must be attached to ensure an extension is recorded for all payers.** Form 8809 may be computer-generated or photocopied. Be sure that all the pertinent information is included.

.07 Requests for an extension of time to file for more than 50 payers are **required** to be submitted electronically or magnetically. IRS encourages requests for 10 to 50 payers to be filed electronically or magnetically. (See Sec. 3, for the file format.) The request may be filed electronically, on tape cartridges, 8mm, 4mm, Quarter-Inch Cartridges (QIC), or 3½-inch diskette.

.08 All requests for an extension of time filed on Form 8809 or magnetic media should be sent using the following address:

IRS-Martinsburg Computing Center
Information Reporting Program
Attn: Extension of Time Coordinator
240 Murall Drive
Kearneysville, WV 25430

☛ **Note: Due to the large volume of mail received by IRS/MCC and the time factor involved in processing the Form 8809, it is imperative that the attention line be present on all envelopes or packages containing Extension of Time (EOT) requests.**

.09 Requests for extensions of time to file postmarked by the United States Postal Service on or before the due date of the returns, and delivered by United States mail to the IRS/MCC after the due date, are treated as timely under the “timely mailing as timely filing” rule. A similar rule applies to designated private delivery services (PDSs). See Part A, Sec. 9, for more information on PDSs. For requests delivered by a designated PDS, but through a non-designated service, the actual date of receipt by IRS/MCC will be used as the filing date.

.10 Transmitters requesting an extension of time for multiple payers will receive one approval letter, accompanied by a list of payers covered under that approval.

.11 If an additional extension of time is needed, a second Form 8809 or file must be filed by the initial extended due date. Check line 7 on the form to indicate that an additional extension is being requested. A second 30-day extension will be approved only in cases of extreme hardship or catastrophic event. **If requesting a second 30-day extension of time, submit the information return files as soon as prepared. Do not wait for MCC’s response to your second extension request.**

.12 If an extension request is approved, the approval letter should be kept on file. The approval letter or copy of the approval letter for an extension of time should **not** be sent to IRS/MCC with the magnetic media file or to the service center where the paper returns are filed.

.13 Request an extension for only one tax year.

.14 The extension request must be signed by the payer or a person who is duly authorized to sign a return, statement, or other document for the payer.

.15 Failure to properly complete and sign Form 8809 may cause delays in processing the request or result in a denial. Carefully read and follow the instructions on the back of the Form 8809.

.16 Form 8809 may be obtained by calling **1-800-TAX-FORM (1-800-829-3676)**. The form is also available on the **IRS Web Site at www.irs.gov**. A copy of Form 8809 is also provided in the back of Publication 1220.

Sec. 2. Specifications for Electronic Filing or Magnetic Media Extensions of Time

.01 The specifications in Sec. 3 include the required 200-byte record format for extensions of time to file requests submitted electronically or magnetically. Also included are the instructions for the information that is to be entered in the record. **Filers are advised to read this section in its entirety to ensure proper filing.**

.02 If a filer does not have an IRS/MCC assigned Transmitter Control Code (TCC), a Form 4419, Application for Filing Information Returns Electronically/Magnetically, **must** be submitted to obtain a TCC. This number **must** be used to submit an extension request electronically/magnetically. (See Part A, Sec. 6.)

.03 For extension requests filed on magnetic media, the transmitter must mail the completed, signed Form 8809, Request for Extension of Time To File Information Returns, in the same package as the corresponding media or fax it to 304-264-5602. For extension requests filed electronically, the transmitter must fax the Form 8809 the same day the transmission is made.

.04 **Transmitters submitting an extension of time electronically or magnetically should not submit a list of payer names and TINs with the Form 8809 since this information is included on the electronic or magnetic file. However, Line 6 of the Form 8809 must be completed with the total number of records included on the electronic file or magnetic media.**

.05 Do not submit Tax Year 2002 extensions of time to file requests on magnetic media before *January 1, 2003*, or electronically before *January 7, 2003*.

.06 Each piece of magnetic media **must** have an external media label containing the following information:

- (a) Transmitter name
- (b) Transmitter Control Code (TCC)
- (c) Tax year
- (d) The words "Extension of Time"
- (e) Record count

.07 *Electronic filing, tape cartridge, 8mm, 4mm, QIC, and 3½-inch diskette specifications for extensions are the same as the specifications for filing of information returns. (See Part B or C for specific technical information.)*

Sec. 3. Record Layout — Extension of Time

Sec. 4. Extension of Time for Recipient Copies of Information Returns

.01 Request an **extension of time to furnish the statements to recipients** of Forms 1098, 1099, 5498, W-2G, W-2 series, and 1042-S by submitting a letter to IRS/MCC at the address listed in Part E, Sec. 1.08. The letter should contain the following information:

- (a) Payer name
- (b) TIN
- (c) Address
- (d) Type of return
- (e) Specify that the extension request is to provide statements to recipients
- (f) Reason for delay
- (g) Signature of payer or duly authorized person

.02 Requests for an extension of time to furnish the statements to recipients for Forms 1098, 1099, 5498, W-2G, W-2 series, and 1042-S are not automatically approved; however, if approved, generally an extension will allow a maximum of 30 additional days from the due date to furnish the statements to the recipients. The request must be postmarked by the date on which the statements are due to the recipients.

.03 Generally, only the payer may sign the letter requesting the extension for recipient copies. A transmitter may sign if given power of attorney; however, a letter signed by the payer stating this fact must be attached to the extension request letter. A transmitter **must** submit a separate extension request letter for each payer. **Do not** submit a list of payers.

Sec. 5. Form 8508, Request for Waiver From Filing Information Returns on Magnetic Media

.01 If a payer is required to file on magnetic media but fails to do so (or fails to file electronically in lieu of magnetic media filing) and does not have an approved waiver on record, the payer will be subject to a penalty of \$50 per return in excess of 250. (For penalty information, refer to the Penalty Section of the *2002 General Instructions for Forms 1099, 1098, 5498, and W-2G*.)

.02 If payers are required to file original or corrected returns on magnetic media, but such filing would create a hardship, they may request a waiver from these filing requirements by submitting Form 8508, Request for Waiver From Filing Information Returns on Magnetic Media, to IRS/MCC. A Form 8508 can be obtained on the IRS Web Site at *www.irs.gov* or by calling toll-free 1-800-829-3676.

.03 Even though a payer may submit as many as 249 corrections on paper, IRS encourages electronic or magnetic filing of corrections. Once the 250 threshold has been met, filers are required to submit any returns of 250 or more electronically or magnetically. However, if a waiver for original documents is approved, any corrections for the same type of returns will be covered under this waiver.

.04 Generally, only the payer may sign the Form 8508. A transmitter may sign if given power of attorney; however, a letter signed by the payer stating this fact must be attached to the Form 8508.

.05 A transmitter must submit a separate Form 8508 for each payer. Do not submit a list of payers.

.06 All information requested on the Form 8508 must be provided to IRS for the request to be processed.

.07 The waiver, if approved, will provide exemption from the magnetic media filing requirement for the current tax year only. Payers may not apply for a waiver for more than one tax year at a time; application must be made each year a waiver is necessary.

.08 Form 8508 may be photocopied or computer-generated as long as it contains all the information requested on the original form.

.09 Filers are encouraged to submit Form 8508 to IRS/MCC at least 45 days before the due date of the returns. Generally, IRS/MCC does not process waiver requests until January. Waiver requests received prior to January are processed on a first come, first serve basis.

.10 All requests for a waiver should be sent using the following address:

IRS-Martinsburg Computing Center
Information Reporting Program
240 Murall Drive
Kearneysville, WV 25430

.11 File Form 8508 for the W-2 series of forms with IRS/MCC not SSA.

.12 Waivers are evaluated on a case-by-case basis and are approved or denied based on criteria set forth in the regulations under Section 6011(e) of the Internal Revenue Code. The transmitter must allow a minimum of 30 days for IRS/MCC to respond to a waiver request.

.13 If a waiver request is approved, the transmitter should keep the approval letter on file. The transmitter should not send a copy of the approved waiver to the service center where the paper returns are filed.

.14 An approved waiver from filing information returns on magnetic media does not provide exemption from all filing. The payer must timely file information returns on Copy A of acceptable paper forms with the appropriate service center.

New Revision of Publication 947, *Practice Before the IRS and Power of Attorney*

Announcement 2002-58

Publication 947, revised April 2002, is currently available from the Internal Revenue Service. It replaces the January 1999 revision.

This publication provides information on who can represent a taxpayer before the Internal Revenue Service and what forms or documents are used to authorize someone to represent a taxpayer.

You can get a copy of this publication by calling 1-800-829-3676. You can also write the IRS Forms Distribution Center nearest you. Check your income tax package for the address. The publication is also available on the IRS Internet web site at www.irs.gov.

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified*, below).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it

applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1986 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the

new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified* and *superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case, the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.
