INCOME TAX

Federal rates; adjusted federal rates; adjusted federal long-term rate and the long-term exempt rate. For purposes of sections 382, 642, 1274, 1288, and other sections of the Code, tables set forth the rates for June 2007.

REG–123365–03, page 1357.
Proposed regulations under section 355 of the Code provide rules for implementing the separate affiliated group (SAG) rules of section 202 of the Tax Increase Prevention and Reconciliation Act of 2005, which permit all SAG members to be treated as one corporation for purposes of satisfying the active trade or business (ATB) requirement. In addition, the regulations provide guidance explaining (1) when a corporation is attributed trade or business assets and activities of a partnership, (2) when a corporation may use activities of an affiliate or a shareholder to meet the ATB requirement, (3) whether the corporation’s business was acquired in violation of section 355(b) “in a transaction in which gain or loss was recognized in whole or in part,” and (4) other miscellaneous rules.

This notice provides procedures for a vehicle manufacturer to certify that a heavy-duty hybrid vehicle meets certain requirements for the new qualified hybrid motor vehicle credit, and to certify the amount of the credit available with respect to the vehicle. This notice also provides guidance to taxpayers who purchase a heavy-duty hybrid vehicle regarding the conditions under which they may rely on the vehicle manufacturer’s certification.

Qualified production activities income (QPAI) and W–2 wages. This procedure specifies the conditions under which certain partnerships and S corporations may choose to calculate QPAI and W–2 wages as defined in regulations section 1.199–2T(e)(2) at the entity level, as well as the manner for allocating and reporting QPAI and W–2 wages to partners and shareholders for purposes of determining the deduction under section 199.

Income attributable to domestic production activities; statistical sampling. This procedure provides guidance for determining when statistical sampling may be used for purposes of section 199 of the Code and establishes acceptable statistical sampling methodologies.

EMPLOYEE PLANS

Roth IRA; rollover; prototype. This announcement provides that sponsors of prototype Roth IRAs must amend their prototype Roth IRA documents in order to permit the rollover of amounts from designated Roth accounts described in section 402A of the Code.

(Continued on the next page)
EXEMPT ORGANIZATIONS

The IRS has revoked its determination that Freedom Financial Consultants, Inc., of Lakeland, FL; Vista Vision 2000, Inc., of Norfolk, VA; Safeguarding America for Everyone (SAFE) Foundation, Inc., of Upper Marlboro, MD; and Homeownership Foundation of America, Inc., of Baltimore, MD, qualify as organizations described in sections 501(c)(3) and 170(c)(2) of the Code.

ADMINISTRATIVE

This document contains a correction to proposed regulations (REG–156779–06, 2007–17 I.R.B. 1015) relating to the determination of the amount of taxes paid for purposes of section 901.

The IRS Mission

Provide America's taxpayers top quality service by helping them understand and meet their tax responsibilities and by applying the tax law with integrity and fairness to all.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents are compiled semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1986.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions and Other Related Items, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts. Also included in this part are Bank Secrecy Act Administrative Rulings. Bank Secrecy Act Administrative Rulings are issued by the Department of the Treasury’s Office of the Assistant Secretary (Enforcement).

Part IV.—Items of General Interest.
This part includes notices of proposed rulemakings, disbarment and suspension lists, and announcements.

The last Bulletin for each month includes a cumulative index for the matters published during the preceding months. These monthly indexes are cumulated on a semiannual basis, and are published in the last Bulletin of each semiannual period.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1986

Section 42.—Low-Income Housing Credit

Section 199.—Income Attributable to Domestic Production Activities

26 CFR 1.199–ST. Application of section 199 to pass-thru entities.

A revenue procedure specifies the conditions under which certain eligible partnerships and S corporations may calculate qualified production activities income (QPAI) and W–2 wages at the entity level, as well as the manner for allocating and reporting these amounts to partners and shareholders for purposes of determining each partner’s or shareholder’s § 199 deduction for the taxable year. See Rev. Proc. 2007-34, page 1345.

Section 280G.—Golden Parachute Payments

Section 382.—Limitation on Net Operating Loss Carryforwards and Certain Built-In Losses Following Ownership Change

Section 412.—Minimum Funding Standards

Section 467.—Certain Payments for the Use of Property or Services

Section 468.—Special Rules for Mining and Solid Waste Reclamation and Closing Costs

Section 482.—Allocation of Income and Deductions Among Taxpayers

Section 483.—Interest on Certain Deferred Payments

Section 486.—Special Rules for Mining and Solid Waste Reclamation and Closing Costs

Section 642.—Special Rules for Credits and Deductions

Section 807.—Special Rules for Credits and Deductions

Section 846.—Discounted Unpaid Losses Defined

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property (Also Sections 42, 280G, 382, 412, 467, 468, 482, 483, 642, 807, 846, 1288, 7520, 7872.)

Federal rates; adjusted federal rates; adjusted federal long-term rate and the long-term exempt rate. For purposes of sections 382, 642, 1274, 1288, and other sections of the Code, tables set forth the rates for June 2007.

Rev. Rul. 2007–36

This revenue ruling provides various prescribed rates for federal income tax purposes for June 2007 (the current month). Table 1 contains the short-term, mid-term, and long-term applicable federal rates (AFR) for the current month for purposes of section 1274(d) of the Internal Revenue Code. Table 2 contains the short-term, mid-term, and long-term adjusted applicable federal rates (adjusted AFR) for the current month for purposes of section 1288(b). Table 3 sets forth the adjusted federal long-term rate and the long-term tax-exempt rate described in section 382(f). Table 4 contains the appropriate percentages for determining the low-income housing credit described in section 42(b)(2) for buildings placed in service during the current month. Finally, Table 5 contains the federal rate for determining the present value of an annuity, an interest for life or for a term of years, or a remainder or a reversionary interest for purposes of section 7520.

Section 7520.—Valuation Tables

Section 7872.—Treatment of Loans With Below-Market Interest Rates

Part III. Administrative, Procedural, and Miscellaneous

Credit for New Qualified Heavy-Duty Hybrid Motor Vehicles

Notice 2007–46

SECTION 1. PURPOSE.

This notice sets forth interim guidance, pending the issuance of regulations, relating to the new qualified hybrid motor vehicle credit under § 30B(a)(3) and (d) of the Internal Revenue Code. Specifically, this notice provides procedures for a vehicle manufacturer (or, in the case of a foreign vehicle manufacturer, its domestic distributor) to certify to the Internal Revenue Service (Service) both:

(1) that a heavy-duty vehicle of a particular make, model, and model year meets certain requirements that must be satisfied to claim the new qualified hybrid motor vehicle credit under § 30B(a)(3) and (d); and

(2) the amount of the credit allowable with respect to that vehicle. This notice also provides guidance to taxpayers who purchase qualified vehicles regarding the conditions under which they may rely on the vehicle manufacturer’s (or, in the case of a foreign vehicle manufacturer, its domestic distributor’s) certification in determining whether a credit is allowable with respect to the vehicle and the amount of the credit. The Service and the Treasury Department expect that the regulations will incorporate the rules set forth in this notice.

SECTION 2. BACKGROUND.

Section 30B(a)(3) provides for a credit determined under § 30B(d) for certain new qualified hybrid motor vehicles. The new qualified hybrid motor vehicle credit for a heavy-duty hybrid motor vehicle is determined under § 30B(d)(2)(B) and is an amount equal to the applicable percentage of the qualified incremental hybrid cost of the vehicle. The qualified incremental hybrid cost is the excess of the manufacturer’s suggested retail price for the qualified vehicle over the manufacturer’s suggested retail price for a comparable vehicle. However, the qualified incremental hybrid cost of a vehicle is limited depending upon the gross vehicle weight rating of the vehicle. The applicable percentage varies depending upon the increase in the city fuel economy of the qualified vehicle relative to a comparable vehicle.

SECTION 3. SCOPE OF NOTICE.

.01 Vehicles Covered. This notice applies only to heavy-duty hybrid motor vehicles. Guidance concerning the new qualified hybrid motor vehicle credit for passenger automobiles and light trucks is provided in Notice 2006–9, 2006–6 I.R.B. 413.

.02 Rules Common to All Qualifying Vehicles. This notice does not address a number of rules that are common to all motor vehicles that qualify for credits under § 30B, including (1) rules under which lessors may claim the credits allowable under § 30B, (2) the rule preventing the credits from being used to reduce alternative minimum tax liability, and (3) rules relating to recapture of the credit. Certain rules applicable to all motor vehicles that qualify for credits under § 30B are described in Fact Sheet 2007–9 (http://www.irs.ustreas.gov/newsroom/article/0,,id=165649,00.html).

SECTION 4. MEANING OF TERMS.

The following definitions apply for purposes of this notice:

(1) In General. Terms used in this notice and not defined in this section have the same meaning as when used in § 30B.

(2) Heavy-Duty Hybrid Motor Vehicle. The term “heavy-duty hybrid motor vehicle” means any hybrid motor vehicle that is not a passenger automobile or light truck within the meaning of section 4(2) of Notice 2006–9. Thus, a hybrid motor vehicle (including a hybrid motor vehicle that is a medium-duty passenger vehicle, as defined in 40 C.F.R. § 600.002–08) that has a gross vehicle weight rating of more than 8,500 pounds will be treated as a heavy-duty hybrid motor vehicle for purposes of this notice.

(3) Manufacturer. (a) In general. The “vehicle manufacturer” or “manufacturer” of a heavy-duty hybrid motor vehicle is—

(i) the person engaged in the manufacturing or assembling of the completed heavy-duty hybrid motor vehicle for introduction into commerce; and

(ii) if applicable, any person (other than the person described in section 4(3)(a)(i)) that installs the systems that convert a vehicle powered solely by an internal combustion or heat engine using consumable fuel into the completed heavy-duty hybrid motor vehicle.

(b) For purposes of this section 4(3)—

(i) a “completed heavy-duty hybrid motor vehicle” is a new heavy-duty hybrid motor vehicle that is ready for use and requires no further manufacturing or assembly operations; and

(ii) “introduction into commerce” occurs when a vehicle manufacturer ships a completed motor vehicle from a facility of the manufacturer to a distributor, retailer, or consumer.

(4) City Fuel Economy. (a) In general. The term “city fuel economy” means the fuel economy measured in a manner that is substantially similar to the manner in which city fuel economy is measured in accordance with procedures under 40 C.F.R. Part 600, as in effect on August 8, 2005. A manufacturer may develop and use for this purpose any procedures that the manufacturer reasonably determines to be substantially similar to the procedures under 40 C.F.R. Part 600, as in effect on August 8, 2005. In addition, the Service will not challenge a manufacturer’s determination of city fuel economy using any safe harbor measurement method listed in section 4(4)(c) of this notice if that method is consistently used to determine city fuel economy for both the qualified heavy-duty hybrid motor vehicle and the comparable vehicle to which the qualified vehicle’s fuel economy is compared in providing the certification under this notice.

(b) Carry-over models. The city fuel economy determined under section 4(4)(a) of this notice for a vehicle of a particular make, model, and model year may be used as the city fuel economy for any carry-over model of that vehicle. For this purpose, a vehicle is a carry-over model with respect to a vehicle produced in an earlier model year if the vehicles are of the same make...
and model and the design of the model has not changed since such earlier model year.

(c) Safe harbor measurement methods. The safe harbor measurement methods listed in this section 4(4)(c) are any of the following:

(i) In the case of heavy-duty hybrid motor vehicles that are medium-duty passenger vehicles, as defined in 40 C.F.R. 600.002–08, measurement in accordance with procedures under 40 C.F.R. Part 600, as in effect on the date the manufacturer’s certification is provided.

(ii) In the case of heavy-duty hybrid motor vehicles that are not medium-duty passenger vehicles, as defined in 40 C.F.R. 600.002–08, measurement using the carbon balance method applied to emissions measured using either the procedures in 40 C.F.R. Part 86, Subpart B and 40 C.F.R. § 86.1863–07 or the procedures in the California Interim Certification Procedures for 2004 and Subsequent Model Hybrid-Electric Vehicles in the Urban Bus and Heavy-Duty Vehicle Classes.

(5) Comparable Vehicle. (a) In general. The term “comparable vehicle” means, for purposes of determining the qualified incremental hybrid cost and the increase in city fuel economy of a qualified heavy-duty hybrid motor vehicle, any vehicle that is powered solely by a gasoline or diesel internal combustion engine and is comparable in weight, size, and use to the qualified vehicle. For this purpose—

(i) a vehicle produced by the same manufacturer as the qualified vehicle is comparable in use only if it is manufactured in the same model year as the qualified vehicle; and

(ii) a vehicle produced by a person other than the manufacturer of the qualified vehicle is comparable in use only if it is manufactured in the same 12-month period as the qualified vehicle.

(b) Manufacturer to choose among multiple comparable vehicles. If more than one model of vehicle is comparable in weight, size, and use to the qualified vehicle, the manufacturer of the qualified vehicle may choose a vehicle of any model that is comparable in weight, size, or use and treat that vehicle as the comparable vehicle for purposes of providing a certification under this notice.

(6) Model Year. The term “model year” means—

(a) the vehicle manufacturer’s annual production period (determined under regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.)); or

(b) the calendar year in which the vehicle is manufactured, if the vehicle manufacturer has no annual production period for that make and model of vehicle.

(7) Total Traction Power. The term “total traction power” means the sum of the peak power from the rechargeable energy storage system and the heat engine peak power of the vehicle, except that if the storage system is the sole means by which the vehicle can be driven, the total traction power is the peak power of the storage system.

SECTION 5. MANUFACTURER’S CERTIFICATION.

.01 When Certification Permitted. A vehicle manufacturer (or, in the case of a foreign vehicle manufacturer, its domestic distributor) may certify to purchasers that a heavy-duty hybrid motor vehicle of a particular make, model, and model year meets all requirements (other than those listed in section 5.02 of this notice) that must be satisfied to claim the new qualified hybrid motor vehicle credit, and the amount of the credit allowable under § 30B(a)(3) and (d) with respect to the vehicle, if the following requirements are met:

(1) The manufacturer (or, in the case of a foreign vehicle manufacturer, its domestic distributor) has submitted to the Service, in accordance with section 6 of this notice, a certification with respect to the vehicle and the certification satisfies the requirements of section 5.03 of this notice; and

(2) The manufacturer (or, in the case of a foreign vehicle manufacturer, its domestic distributor) has received an acknowledgment of the certification from the Service.

.02 Purchaser’s Reliance. Except as provided in section 5.06 of this notice, a purchaser of a heavy-duty hybrid motor vehicle may rely on the manufacturer’s (or, in the case of a foreign vehicle manufacturer, its domestic distributor’s) certification concerning the vehicle and the amount of the credit allowable with respect to the vehicle (including in cases in which the certification is received after the purchase of the vehicle). The purchaser may claim a credit in the certified amount with respect to the vehicle if the following requirements are satisfied:

(1) The vehicle is placed in service by the taxpayer after December 31, 2005, and is purchased on or before December 31, 2009.

(2) The original use of the vehicle commences with the taxpayer.

(3) The vehicle is acquired for use or lease by the taxpayer, and not for resale.

(4) The vehicle is used predominantly in the United States.

.03 Content of Certification. The certification must contain the following information:

(1) The name, address, and taxpayer identification number of the certifying entity;

(2) The make, model, model year, and any other appropriate identifiers of the motor vehicle;

(3) A statement that the vehicle is made by a manufacturer;

(4) The amount of the credit for the vehicle (showing computations);

(5) The manufacturer’s suggested retail price for the vehicle;

(6) The manufacturer’s suggested retail price for a comparable vehicle;

(7) The make, model, and model year of a comparable vehicle;

(8) The gross vehicle weight rating of the vehicle;

(9) The city fuel economy of the vehicle and evidence that—

(a) the city fuel economy was measured in a manner that is substantially similar to the manner in which city fuel economy is measured in accordance with procedures under 40 C.F.R § 600, as in effect on August 5, 2005 (including a description of the procedures used to measure city fuel economy and a description of the manufacturer’s basis for reasonably determining that those procedures are substantially similar to the procedures under 40 C.F.R. § 600, as in effect on August 5, 2005); or

(b) a safe harbor measurement method listed in section 4(4)(c) of this notice was consistently used to determine city fuel economy for both the qualified heavy-duty hybrid motor vehicle and the comparable vehicle to which the qualified vehicle’s
fuel economy is compared in providing the certification:

(10) A statement that the motor vehicle draws propulsion energy from onboard sources of stored energy that are both an internal combustion or heat engine using consumable fuel, and a rechargeable energy storage system;

(11) Evidence that the maximum power available from the rechargeable energy storage system during a standard 10 second pulse power or equivalent test is—
(a) at least 10 percent of the vehicle’s total traction power, in the case of a vehicle that has a gross vehicle weight rating of more than 8,500 pounds and not more than 14,000 pounds, and
(b) at least 15 percent of the vehicle’s total traction power, in the case of a vehicle that has a gross vehicle weight rating of more than 14,000 pounds;

(12) The total traction power of the vehicle;

(13) A statement that the vehicle complies with the applicable provisions of the Clean Air Act;

(14) A statement that the vehicle complies with the applicable air quality provisions of state law of each state that has adopted the provisions under a waiver under § 209(b) of the Clean Air Act or a list identifying each state that has adopted applicable air quality provisions with which the vehicle does not comply;

(15) A statement that the vehicle complies with the motor vehicle safety provisions of 49 U.S.C. §§ 30101 through 30169;

(16) A copy of the certificate of conformity under the Clean Air Act certifying the vehicle’s internal combustion or heat engine as meeting the emission standards set in the regulations prescribed by the Administrator of the Environmental Protection Agency for 2004 through 2007 model year diesel heavy-duty engines or otto cycle heavy-duty engines, as applicable; and

(17) A declaration, applicable to the certification and any accompanying documents, signed by a person currently authorized to bind the manufacturer (or, in the case of a foreign vehicle manufacturer, its domestic distributor) in these matters, in the following form:

“Under penalties of perjury, I declare that I have examined this certification, including accompanying documents, and to the best of my knowledge and belief, the facts presented in support of this certification are true, correct, and complete.”

.04 Multiple manufacturers. If more than one person is treated as the manufacturer of a vehicle under section 4(3) of this notice, the requirements of section 5.03 of this notice are treated as satisfied if each item of information described in section 5.03(2) through 5.03(16) is provided by one of the manufacturers and each manufacturer providing such information also provides the identifying information described in section 5.03(1) and the declaration described in section 5.03(17).

.05 Acknowledgment of Certification. The Service will review the original signed certification and issue an acknowledgment letter to the vehicle manufacturer (or, in the case of a foreign vehicle manufacturer, its domestic distributor) within 30 days of receipt of the request for certification. This acknowledgment letter will state whether purchasers may rely on the certification.

.06 Effect of Erroneous Certification. (1) Erroneous Certification. The acknowledgment that the Service provides for a certification is not a determination that a vehicle qualifies for the credit, or that the amount of the credit is correct. The Service may, upon examination (and after any appropriate consultation with the Department of Transportation or the Environmental Protection Agency), determine that the vehicle is not a new qualified heavy-duty hybrid motor vehicle or that the amount of the credit determined by the manufacturer (or, in the case of a foreign vehicle manufacturer, its domestic distributor) to be allowable with respect to the vehicle is incorrect. In either event, the manufacturer’s (or, in the case of a foreign vehicle manufacturer, its domestic distributor’s) right to provide a certification to future purchasers of the heavy-duty hybrid motor vehicles will be withdrawn, and purchasers who acquire a vehicle after the date on which the Service publishes an announcement of the withdrawal may not rely on the certification. Purchasers may continue to rely on the certification for vehicles they acquired on or before the date on which the announcement of the withdrawal is published (including in cases in which the vehicle is not placed in service and the credit is not claimed until after that date), and the Service will not attempt to collect any understatement of tax liability attributable to such reliance.

Manufacturers (or, in the case of foreign vehicle manufacturers, their domestic distributors) are reminded that an erroneous certification may result in the imposition of penalties:
(a) under § 7206 for fraud and making false statements; and
(b) under § 6701 for aiding and abetting an understatement of tax liability in the amount of $1,000 ($10,000 in the case of understatements by corporations) per return on which a credit is claimed in reliance on the certification.

SECTION 6. TIME AND ADDRESS FOR FILING CERTIFICATION.

.01 Time for Filing Certification. In order for a certification under section 5 of this notice to be effective for new qualified heavy-duty hybrid motor vehicles placed in service during a calendar year beginning after December 31, 2006, the certification must be received by the Service not later than December 31st of that calendar year. For new qualified heavy-duty hybrid motor vehicles placed in service during 2006, the certification must be received by the Service not later than December 31, 2007.

.02 Address for Filing. Certifications under section 5 of this notice must be sent to:

Internal Revenue Service, Industry Director, Large and Mid-Size Business, Heavy Manufacturing and Transportation, Metro Park Office Complex — LMSB, 111 Wood Avenue, South, Iselin, New Jersey 08830.

SECTION 7. PAPERWORK REDUCTION ACT.

The collection of information contained in this notice has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act (44 U.S.C. 3507) under control number 1545–2060.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number.

The collections of information in this notice are in section 5. This information is required to be collected and retained in
order to ensure that vehicles meet the requirements for the new qualified hybrid motor vehicle credit under § 30B(a)(3) and (d). This information will be used to determine whether the vehicle for which the credit is claimed by a taxpayer is property that qualifies for the credit. The collection of information is required to obtain a benefit. The likely respondents are corporations and partnerships.

The estimated total annual reporting burden is 240 hours.

The estimated annual burden per respondent varies from 35 hours to 45 hours, depending on individual circumstances, with an estimated average burden of 40 hours to complete the certification required under this notice. The estimated number of respondents is 6.

The estimated annual frequency of responses is on occasion.

Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

SECTION 8. DRAFTING INFORMATION.

The principal author of this notice is Nicole R. Cimino of the Office of Associate Chief Counsel (Passthroughs and Special Industries). For further information regarding this notice, contact Ms. Cimino at (202) 622–3120 (not a toll-free call).

26 CFR 601.105: Examination of returns and claims for refund, credit or abatement; determination of correct tax liability.
(Also Part I, §§ 199; 1.199–1 through 1.199–9, 1.199–3T, 1.199–5T, 1.199–7T, 1.199–8T.)

Rev. Proc. 2007–34

SECTION 1. PURPOSE

Section 199 of the Internal Revenue Code provides a deduction for income attributable to domestic production activities. This revenue procedure specifies the conditions under which certain partnerships and S corporations may choose to calculate qualified production activities income (QPAI) and W–2 wages as defined by § 1.199–2T(e)(2) of the temporary Income Tax Regulations (W–2 wages) at the entity level, as well as the manner for allocating and reporting QPAI and W–2 wages to partners or shareholders.

SECTION 2. BACKGROUND

Section 199(a)(1) allows a deduction equal to 9 percent (3 percent for taxable years beginning in 2005 or 2006, and 6 percent for taxable years beginning in 2007, 2008, or 2009) of the lesser of (A) the QPAI of the taxpayer for the taxable year, or (B) taxable income (determined without regard to § 199) for the taxable year (or, for an individual, adjusted gross income).

Section 199(b)(1) limits the deduction for a taxable year to 50 percent of the W–2 wages paid by the taxpayer for the taxable year. For this purpose, § 199(b)(2)(A) defines the term W–2 wages to mean, with respect to any person for any taxable year of such person, the sum of the amounts described in § 6051(a)(3) and (8) paid by such person with respect to employment of employees by such person during the calendar year ending during such taxable year.

Section 199(b)(1) allows a deduction for any taxable year as an amount equal to the excess, if any, of the taxpayer’s domestic production gross receipts (DPGR) over the sum of the cost of goods sold (CGS) allocable to DPGR and other expenses, losses, or deductions (other than the deduction allowed by § 199) (deductions) that are properly allocable to such receipts. Section 1.199–4(b) of the Income Tax Regulations provides rules for determining CGS allocable to DPGR. Section 1.199–4(c) provides rules for determining the deductions that are properly allocable to DPGR or to gross income attributable to DPGR. Section 1.199–4(a) and (d) provides that a taxpayer generally must allocate and apportion its deductions using the § 861 method, as determined under the rules of §§ 1.861–8 through 1.861–17 and §§ 1.861–8T through 1.861–14T, subject to the rules in § 1.199–4(d). Section 1.199–4(e) provides that an eligible taxpayer may use the simplified deduction method to apportion deductions between DPGR and non-DPGR. Section 1.199–4(f) provides that a qualifying small taxpayer may use the small business simplified overall method to apportion CGS and deductions between DPGR and non-DPGR.

Section 199(d)(1) provides special rules for applying § 199 to pass-thru entities. Section 199(d)(1)(A) provides that (i) § 199 shall be applied at the partner or shareholder level, (ii) each partner or shareholder shall take into account such person’s allocable share of each item described in § 199(c)(1)(A) or (B) (determined without regard to whether the items described in § 199(c)(1)(A) exceed the items described in § 199(c)(1)(B)), and (iii) each partner or shareholder shall be treated for purposes of § 199(b) as having W–2 wages for the taxable year in an amount equal to such person’s allocable share of the W–2 wages of the partnership or S corporation for the taxable year (as determined under regulations prescribed by the Secretary).

For taxable years beginning after May 17, 2006, § 1.199–2T(e)(2) provides that the term W–2 wages includes amounts described in § 1.199–2T(e)(1) (paragraph (e)(1) wages) that are properly allocable to DPGR for purposes of § 199(c)(1). Under § 1.199–2T(e)(1), paragraph (e)(1) wages with respect to any person for any taxable year of such person, means the sum of the amounts described in § 6051(a)(3) and (8) paid by such person with respect to employment of employees by such person during the calendar year ending during such taxable year.

Section 1.199–5T(b)(1)(ii) and (c)(1)(ii) provides that the Secretary may, by publication in the Internal Revenue Bulletin, permit a partnership or S corporation to calculate a partner’s or shareholder’s share of QPAI and W–2 wages at the entity level, instead of allocating to that partner or shareholder its share of the entity’s items and paragraph (e)(1) wages for determining the § 199 deduction at the partner or shareholder level. If a partnership or S corporation does calculate QPAI and W–2 wages at the entity level, such an entity then allocates to each partner or shareholder its share of QPAI (subject to the limitations of § 1.199–5T(b)(2) and (c)(2)) (which may be less than zero) and
W–2 wages from the entity, which then are to be combined with the partner’s or shareholder’s QPAI and W–2 wages from other sources, if any.

Whether a partnership or S corporation is an eligible entity (as defined in section 3.01 of this revenue procedure), and thus able to calculate QPAI and W–2 wages on behalf of some or all of its partners or shareholders, is determined at the entity level. Similarly, the determination as to what cost allocation method an eligible entity may use (specifically, the § 861 method, the simplified deduction method, or the small business simplified overall method) is determined and applied at the entity level (subject to any additional conditions, rules, and procedures as may be provided by publication in the Internal Revenue Bulletin).

SECTION 3. CALCULATION AND ALLOCATION OF QPAI AND W–2 WAGES AT THE ENTITY LEVEL

.01 Entities eligible to calculate QPAI and W–2 wages at the entity level. Pursuant to § 1.199–5T(b)(1)(ii) and (c)(1)(ii), each of the following entities (eligible entity) may calculate QPAI and W–2 wages on behalf of its partners or shareholders:

(a) an eligible § 861 partnership (as defined in section 5.01 of this revenue procedure), but only on behalf of qualifying partners;

(b) an eligible widely-held pass-thru entity (as defined in section 5.02 of this revenue procedure); and

(c) an eligible small pass-thru entity (as defined in section 5.03 of this revenue procedure).

.02 Ineligible entities. Qualifying in-kind partnerships (under § 1.199–3T(i)(7)) and EAG partnerships (as described in § 1.199–3T(i)(8)) may not compute a partner’s share of QPAI and W–2 wages at the entity level.

.03 Cost allocation methods for calculating QPAI and W–2 wages at the entity level. An eligible entity may choose to calculate QPAI and W–2 wages at the entity level (subject to the limitations and requirements set forth in this revenue procedure) for any taxable year in which it qualifies as an eligible entity. The cost allocation methods available to an eligible entity choosing to report under this revenue procedure are as follows.

(a) Section 861 method. An eligible § 861 partnership (as defined in section 5.01 of this revenue procedure) choosing to calculate QPAI and W–2 wages at the entity level must use the § 861 method of § 1.199–4(d), subject to section 3.03(d) of this revenue procedure. A partnership using this method may use the wage expense safe harbor under § 1.199–2T(e)(2)(ii), or another reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, to calculate W–2 wages at the entity level.

(b) Simplified deduction method. An eligible widely-held pass-thru entity (as defined in section 5.02 of this revenue procedure) choosing to calculate QPAI and W–2 wages at the entity level must use the simplified deduction method of § 1.199–4(e), subject to section 3.03(d) of this revenue procedure. A partnership or S corporation using this method may use the wage expense safe harbor under § 1.199–2T(e)(2)(ii), or another reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, to calculate W–2 wages at the entity level.

(c) Small business simplified overall method. An eligible small pass-thru entity (as defined in section 5.03 of this revenue procedure) choosing to calculate QPAI and W–2 wages at the entity level must use the small business simplified overall method of § 1.199–4(f), subject to section 3.03(d) of this revenue procedure. A partnership or S corporation using this method also may use the small business simplified overall method safe harbor under § 1.199–2T(e)(2)(ii), or another reasonable method that is satisfactory to the Secretary based on all of the facts and circumstances, to calculate W–2 wages at the entity level.

Changes in method

.04 Changes in method. For purposes of § 199, the following changes will not constitute changes in method of accounting to which the statutory and regulatory provisions of §§ 446 and 481 apply:

(a) A change in an eligible entity’s method for calculating QPAI at the entity level among those methods described in section 3.03 of this revenue procedure; and

(b) A change from calculating QPAI and W–2 wages at the entity level to calculating such amounts at the partner or shareholder level, or vice versa.

.05 Rules for calculating QPAI at the entity level. Solely for calculating QPAI and W–2 wages at the entity level in accordance with its applicable cost allocation method for the taxable year, an eligible entity as described in section 3.01 of this revenue procedure must apply the following rules:

(a) A partnership must take into account any separately stated items described in § 702(a)(1) through (7) and any nonseparately stated items described in § 702(a)(8);

(b) An S corporation must take into account any separately stated items described in § 1366(a)(1)(A) and any nonseparately stated items described in § 1366(a)(1)(B);

(c) Income items, the inclusion of which ordinarily is determined at the partner or shareholder level, must be included by the partnership or S corporation;

(d) Expense items, the deduction or capitalization of which is determined at the partner or shareholder level, must be subtracted by the partnership or S corporation;

(e) Any limitation on the deduction of expense items that is ordinarily applied at
the partner or shareholder level must be disregarded by the partnership or S corporation:

(f) Any expenditure described in § 59(e)(2), regarding the optional writeoff provided for certain tax preferences, must be taken into account by the partnership or S corporation without regard to any election by the partner or shareholder;

(g) Any expenditure which, at the election of the partner or shareholder, may be taken into account as a deduction or as a credit, must be disregarded by the partnership or S corporation;

(h) Any depletion deduction described in § 613A must be computed and taken into account by the partnership or S corporation without regard to any limitations at the partner or shareholder level;

(i) Any increase or decrease in the bases of partnership assets pursuant to § 743 must be taken into account by the partnership;

(j) Any partnership items allocated by an eligible § 861 partnership to a partner that is not a qualifying partner (including items allocated to such a partner pursuant to § 704(c)) must be excluded by the partnership for purposes of calculating the QPAI and W–2 wages to be allocated to its qualifying partners (see section 4.03 of this revenue procedure); and

(k) The QPAI computed at the entity level (and thus the QPAI allocated to each partner or shareholder) will be less than zero if the entity’s DPGR does not exceed the partner’s or shareholder’s level (and thus the QPAI allocated to each partner for purposes of calculating the QPAI and W–2 wages to be allocated to its partners or shareholders for that taxable year).

SECTION 4. REPORTING AND EFFECT ON PARTNERS AND SHAREHOLDERS

.01 In general. If an eligible entity calculates QPAI and W–2 wages at the entity level, then each partner (except for a partner that is not a qualifying partner with respect to an eligible § 861 partnership) or shareholder is allocated (in accordance with section 3.06 of this revenue procedure) its share of QPAI (which may be less than zero) and W–2 wages from the eligible entity, and the partner or shareholder then must combine those amounts with the partner’s or shareholder’s QPAI and W–2 wages from other sources, if any. See § 1.199–5T(b)(1)(ii) and (c)(1)(ii). If an eligible entity computes QPAI and W–2 wages at the entity level, no partner or shareholder receiving an allocation of the entity’s QPAI and W–2 wages may recalculate its share of QPAI or W–2 wages from the entity using another cost allocation method (although the partner or shareholder must adjust its share of QPAI from the entity to account for certain disallowed losses or deductions, and for the allowance of suspended losses or deductions). In addition, no partner or shareholder of such an eligible entity that receives an allocation of the entity’s QPAI and W–2 wages may take into account any of the items from that entity that go into the computation of the partner’s or shareholder’s share of QPAI and W–2 wages from that entity in calculating its QPAI and W–2 wages from any other source (for example, in allocating and apportioning deductions from another source or in determining whether a threshold or de minimis rule applies). If a partnership or S corporation, whether by ineligibility or choice, does not compute QPAI and W–2 wages at the entity level, then each partner or shareholder is allocated (in accordance with §§ 702 and 704, or § 1366, respectively) its share of the entity’s items (including items of income, gain, loss, and deduction, CGS allocated to such items of income, gross receipts included in such items of income, and paragraph (e)(1) wages, for purposes of calculating the $199 deduction at the partner or shareholder level. See § 1.199–5T(b) and (c).

.02 Reporting exception. Section 199(d)(5) provides that § 199 is applied by only taking into account items that are attributable to the actual conduct of a trade or business. For example, a securities partnership (as defined in § 1.704–3(e)(3)(iii)) not engaged in a trade or business need not include on its Schedule K–1 (or other relevant form) any items required solely for § 199, unless a partner requests this information.

.03 Partners in eligible § 861 partnerships. Pursuant to § 6031(b), an eligible § 861 partnership that chooses to calculate QPAI and W–2 wages at the entity level reports allocable shares of QPAI and W–2 wages directly to those partners that were qualifying partners (as defined in section 5.04 of this revenue procedure) at all times during the partnership’s taxable year (or, if such partners were partners for less than the entire taxable year, for the portion of the partnership’s taxable year during which they were partners). A qualifying partner must use its share of QPAI and W–2 wages as reported by the partnership in calculating its § 199 deduction. If an eligible § 861 partnership has partners that are not qualifying partners (as defined in section 5.04 of this revenue procedure), it must allocate (in accordance with §§ 702 and 704) and report to each such partner that partner’s allocable share of the partnership’s items of income, gain, loss, and deduction, CGS allocated to such items of income, gross receipts included in such items of income, and paragraph (e)(1) wages, so that the partner is able to calculate its § 199 deduction. To the extent that any partner that is not a qualifying partner is allocated its share of the partnership’s items (rather than a share of the partnership’s QPAI and W–2 wages), such items shall not be taken into account for purposes of calculating the QPAI and W–2 wages to be allocated to the qualifying partners.

.04 Partners or shareholders in eligible widely-held pass-thru entities or eligible small pass-thru entities. Pursuant to § 6031(b) or § 6037(b), an eligible widely-held pass-thru entity or an eligible small pass-thru entity that chooses to calculate QPAI and W–2 wages at the entity level
that, for the current taxable year—

that later taxable year, whether or not those

ber 31, 2004, are not taken into account in a

tributable to the entity’s qualified produc-

section 5.06 of this revenue procedure)

total profits or capital interests of the

partnership, or

interests of any related persons as defined

partnership or S corporation were the taxpayer,

(c) has DPGR,

d) for every day of the current taxable

is—

(i) a partnership in which no partner has

interests of any related persons as defined in

section 5.06 of this revenue procedure) of

the total profits or capital interests of the

or

(ii) an S corporation with a shareholder

described in § 1361(c)(6) in which no

shareholder owns shares exceeding 10

percent (determined after aggregating the

interests of any related persons as defined in

section 5.06 of this revenue procedure)

of the total shares of the S corporation.

An eligible widely-held pass-thru entity is a partner-

ship or S corporation that, for the current taxable year—

(a) satisfies the requirements of

§ 1.199–4(e)(2) (definition of eligible
taxpayer), determined as though the part-

nership or S corporation were the taxpayer,

(b) has total CGS and deductions, the

sum of which is $100 million or less,

(c) has DPGR,

(e) for every day of the taxable year, is—

(i) a partnership in which no partner has

a profits or capital interest exceeding 10

percent (determined after aggregating the

interests of any related persons as defined in

section 5.06 of this revenue procedure)

(b) has total costs (as defined in

§ 1.469–5(f)(2) (definition of qualify-

itary participation) is determined un-

(b) does not materially participate in the

activities of the partnership as determined

in section 5.05 of this revenue procedure,

(c) does not hold a profits or capital

interest in the partnership of 5 percent or

greater (determined after aggregating the

partner’s interests with those of any related

persons as defined in section 5.06 of this

revenue procedure), or

(d) is not an ineligible entity under sec-

tion 3.02 of this revenue procedure.

.05 Material participation. (a) Indi-

vidual partners. For purposes of section

5.04(b) of this revenue procedure, whether

an individual partner materially partici-

pates in the activities of the partnership

(treating all the partnership’s activities

as a single activity) is determined un-

der § 1.469–5(f)(1); § 1.469–5T(a)(1)

through (3) and (7), (b)(2)(ii) and (iii),

(f)(2) through (4), and (k) Examples 1

through 3, 7 and 8; and section 5.05(b) of

this revenue procedure.

(b) Partners that are not individuals.

For purposes of section 5.04(b) of this rev-

enue procedure, a partner that is not an

individual is treated as materially participat-

ing in the activities of the partnership if

the partner’s owners, directors, officers, em-

ployees, or fiduciaries are treated collect-

ively as materially participating in the ac-

tivities of the partnership under the rules

described in section 5.05(a) of this rev-

enue procedure. The activities of the part-

ner’s owners, directors, officers, employ-

ees, and fiduciaries must be combined and

treated as the activities of the partner

for this purpose. For example, assume that

X, a corporation, is a limited partner in a

partnership. A, an employee of X, and B,

an officer of X, participate in the activi-

ties of the partnership for 300 hours and

201 hours, respectively, during the part-

nership’s taxable year. Under these facts, X

is treated as materially participating in

the partnership for the taxable year.

.06 Related persons. For purposes of

this revenue procedure, persons are related

if they bear a relationship to each other

that is described in § 267(b) or § 707(b),

disregarding § 267(e)(1) and (f)(1)(A).

SECTION 6. EXAMPLE

The following example illustrates an

application of the rules in this revenue pro-

procedure. Assume that each partner has suf-

cient adjusted gross income or taxable in-
SECTION 1. PURPOSE

This revenue procedure provides guidance for determining when statistical sampling may be used for purposes of § 199 of the Internal Revenue Code and establishes acceptable statistical sampling methodologies.

SECTION 8. REQUEST FOR COMMENTS

Comments on all aspects of this revenue procedure are welcome. The IRS specifically requests comments on the clarity of these rules and how they can be made easier to understand and to implement. All comments will be available for public inspection and copying. Send comments to: CC:PA:LPD:PR (Rev. Proc. 2007–34), room 5203, Internal Revenue Service, PO Box 7604, Ben Franklin Station, Washington, DC 20044. Submissions may be hand-delivered Monday through Friday between the hours of 8 a.m. and 4 p.m. to CC:PA:LPD:PR (Rev. Proc. 2007–34), Courier’s Desk, Internal Revenue Service, 1111 Constitution Avenue, NW, Washington, DC. Submissions may also be sent electronically via the Internet to the following e-mail address: Notice.comments@irs.counsel.treas.gov include the revenue procedure number (Rev. Proc. 2007–34) in the subject line. Comments must be received on or before August 9, 2007.

DRAFTING INFORMATION

The principal author of this revenue procedure is Martin Schäffer, formerly of the Office of Associate Chief Counsel (Passthroughs and Special Industries). For further information regarding this revenue procedure, contact William Kostak at (202) 622–3060 (not a toll-free call).

SECTION 2. BACKGROUND

.01 Section 199(a)(1) allows a deduction equal to 9 percent (3 percent in the case of taxable years beginning in 2005 or 2006, and 6 percent in the case of taxable years beginning in 2007, 2008, or 2009) of the lesser of (A) the qualified production activities income (QPAI) of the taxpayer for the taxable year, or (B) taxable income (determined without regard to § 199) for the taxable year (or, in the case of an individual, adjusted gross income (AGI)). Section 199(b)(1) limits the deduction for a taxable year to 50 percent of the W–2 wages paid by the taxpayer during the calendar year that ends in such taxable year.

.02 Section 199(c)(1) defines QPAI for any taxable year as an amount equal to the excess (if any) of (A) the taxpayer’s domestic production gross receipts (DPGR) for such taxable year, over (B) the sum of (i) the cost of goods sold (CGS) that are allocable to such receipts; and (ii) other expenses, losses, or deductions (other than the deduction under § 199) that are properly allocable to such receipts.

.03 Section 199(c)(2) provides that the Secretary shall prescribe rules for the proper allocation of items described in § 199(c)(1) for purposes of determining QPAI. Such rules shall provide for the proper allocation of items whether or not such items are directly allocable to DPGR.

.04 Section 199(c)(4)(A) defines DPGR to mean the taxpayer’s gross receipts that are derived from: (i) any lease, rental, license, sale, exchange, or other disposition of (I) qualifying production property (QPP) that was manufactured, produced, grown, or extracted (MPGE) by the taxpayer in whole or in significant part within the United States; (II) any qualified film property produced by the taxpayer or (III) electricity, natural gas, or potable water (collectively, utilities) produced by the taxpayer in the United States; (ii) in the case of a taxpayer engaged in the active conduct of a construction trade or business, construction of real property performed in the United States; (iii) in the case of a taxpayer engaged in the active conduct of an engineering or architectural services trade or business, engineering or architectural services performed in the United States by the taxpayer in the ordinary course of such trade or busi-
SECTION 3. SCOPE

This revenue procedure applies to a taxpayer filing an original return, under examination, in litigation, or making a refund claim with respect to § 199.

SECTION 4. APPLICATION

.01 In general. For purposes of § 199, the use of statistical sampling will be considered a reasonable method that is satisfactory to the Secretary to the extent the sampling methodology used meets the requirements of section 4.02 of this revenue procedure and follows the procedures provided in Appendix A (Sampling Plan Standards), Appendix B (Sampling Documentation Standards), and Appendix C (Technical Formulas). For example, pursuant to this revenue procedure, statistical sampling may be used to:

(1) allocate gross receipts between DPGR and non-DPGR under § 1.199–1(d)(1) of the Income Tax Regulations;

(2) determine whether gross receipts qualify as DPGR on an item-by-item basis under § 1.199–3(d)(1);

(3) allocate CQS between DPGR and non-DPGR under § 1.199–4(b)(2)(i); and

(4) allocate deductions that are properly allocable to DPGR or gross income attributable to DPGR under § 1.199–4(c)(1).

.02 When statistical sampling is appropriate. The appropriateness of using a statistical sample for purposes of § 199 is a facts and circumstances determination. Factors used in determining whether a statistical sample is appropriate include, but are not limited to, the time required to analyze large volumes of data, the cost of analyzing data, the existence of verifiable information relevant to the taxpayer’s § 199 calculation, and the availability of more accurate information. For purposes of § 199, statistical sampling will generally be considered appropriate if the taxpayer can demonstrate a compelling reason for its use.

.03 Examples.

Example 1. X manufactures domestically and sells a variety of mechanical fasteners, including bolts, nuts, and screws. Some of these products are not manufactured by X but instead are purchased from non-related entities. In many cases, products that are purchased by X are the same type of products manufactured by X. In addition, X manufactures the same products in Mexico. Because these products come in many different sizes, compounds, and packages, X sells over five thousand products, each of which may constitute an item within the meaning of § 1.199–3(d)(1).

X has a separate stock keeping unit (SKU) for each of its products. X’s computerized sales journal does not identify whether a product sold was manufactured by X in the United States, manufactured by X in Mexico, or manufactured by a non-related entity. However, X’s sales journal does maintain the SKU number for each product and is capable of determining the gross receipts derived from the sale of each product. X has devised a methodology to determine what portion, if any, of the gross receipts derived from the sale of each SKU qualifies as DPGR. X estimates it needs one staff-day to make this determination for each SKU. Therefore, X would have to spend over five thousand staff-days to make a determination regarding DPGR with respect to all of its sales.

In this case, it would be appropriate for X to use statistical sampling to determine DPGR derived from the sale of each product.

Example 2. Y domestically manufactures fertilizer. When Y sells its fertilizer to a customer, it does so by entering into a contract wherein Y agrees to apply its fertilizer to the customer’s lawn. The application services provided by Y are not an MPGE activity. Each contract contains variables such as the amount of fertilizer to apply, the frequency of the service, the size of lawn, and specific customer discounts. Each of these variables affects the total contract price.

Y’s computerized accounting system does not track what portion of its gross receipts is derived from the sale of fertilizer and what portion is derived from services. In 2005, Y had 20,000 separate contracts. Y has determined that there is sufficient information in each contract to separate the fertilizer application services from the sale of fertilizer. However, the time and expense involved in the manual review of 20,000 contracts make this determination impractical. In this case, it would be reasonable for Y to use statistical sampling to determine the DPGR derived from the sale of fertilizer.

Example 3. PRS provides a broad range of consulting services for dental practices. In addition to its consulting services, PRS develops and licenses specialized software for managing dental records. PRS’s consulting services are not an MPGE activity, while its development and licensing of software is. In 2005 PRS had 50 customers. PRS can determine the amount of DPGR generated in a particular tax year through a simple review of its contracts. Given the limited number of contracts to be reviewed, pursuant to section 4.02 of this section, there is no compelling reason for PRS’s use of statistical sampling to determine its DPGR.

Example 4. Z produces, distributes, and licenses motion pictures and has been doing so since 1930. Z has a collection of over 5,000 films some of which Z produced within the United States and some of which it produced abroad. Z believes that historical records exist with respect to each film in its collection and that by reviewing these records it is possible to determine whether a particular film represents a “qualified film” produced by Z within the meaning of § 199(c)(4)(A)(i)(II) and (c)(6). However, the time and costs involved in obtaining and reviewing such records on an individual film basis are significant. In this case, Z could use statistical sampling to
An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number.

The collection of information in this revenue procedure is in Appendix B. This information is required to ensure compliance with the statistical sampling methodology contained in this revenue procedure. The information will be used to evaluate compliance with the procedures described in this revenue procedure. The collection of information is mandatory. The likely recordkeepers are businesses or other for-profit institutions.

The estimated total annual recordkeeping burden is 2,400 hours. The estimated annual burden per recordkeeper varies from 6 to 10 hours, depending on individual circumstances, with an estimated average of 8 hours. The estimated number of recordkeepers is 300.

Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

DRAFTING INFORMATION

The authors of this revenue procedure are David McDonnell and Lauren Ross Taylor of the Office of Associate Chief Counsel (Passthroughs and Special Industries). For further information regarding this revenue procedure, contact Mr. McDonnell or Ms. Taylor at (202) 622–3040 (not a toll-free call). For further information regarding Appendices A, B, and C, contact Michael Curley of the Large and Mid-Size Business Division at (630) 699–6020 (not a toll-free call).

APPENDIX A

SAMPLING PLAN STANDARDS

The statistical sampling must be conducted in accordance with the following methodology.

1. The statistical sample must be conducted in an unbiased scientific manner with the goal of achieving the correct answer. Any attempt to manipulate the process to achieve a desired result will invalidate the sample. However, steps designed to improve the precision of the estimate, such as stratification techniques, are acceptable and often preferred.

2. Statistical sampling methodology may not include the use of judgment sampling.

3. Taxpayers may apply the results of a statistical sample only to transactions that both (a) occurred in the taxable year in which the § 199 deduction is recognized and (b) involve items included in the population from which the statistical sample was taken.

4. Any estimated amount must be based on a statistical sample, in which each sampling unit has a known (non-zero) chance of selection, using either a simple random sampling method or stratified random sampling method.

5. A conclusion must be reached as to the treatment of each selected sampling unit. It is never valid to replace a sampling unit that was selected in the random selection process with another sampling unit, merely because documentation is unavailable or difficult to obtain. In evaluating a sampling unit, the decision reached as to the treatment of the sampling unit must be the same as the conclusion which would be reached if that sampling unit was encountered in a 100% analysis. Therefore, a sampling unit with documentation that is unavailable or difficult to obtain must be treated as failing the § 199 requirement(s) being tested.

6. In general, the computation of any estimated amount must be at the least advantageous 95% one-sided confidence limit. The “least advantageous” confidence limit is either the upper or lower limit that results in the least benefit to the taxpayer. However, if the precision of estimated difference divided by the estimated difference does not exceed 10%, the point estimate may be used in place of the least advantageous confidence limit. All strata for which “substantially all” of the population sampling units are sampled will be treated as 100% strata. That is, the overall point estimate and its precision will be estimated by treating all 100% strata appropriately for the sample design used. Also, the calculation of the denominator for the relative precision will exclude all 100% strata. For this revenue procedure, “substantially all” is defined as 80% or more.
7. Recognizing that many methods exist to estimate population values from the sample data, only the following estimators will be considered acceptable by the Service. Variable estimators permitted include the mean (also known as the direct projection method), difference (using “paired variables”), (combined) ratio (using a variable of interest and a “correlated” variable), and (combined) regression (using a variable of interest and a “correlated” variable). The first variable used for the difference, ratio and regression estimators must be the variable used in the mean estimator. The second variable used for the difference, ratio and regression estimators must be a variable that can be paired with the first variable and should be related to the first variable. For example, in a typical audit-sampling situation, the first variable would be the audited value of a transaction and the second variable would be the originally reported value of the same transaction. Because the latter two variable methods are statistically biased, there must be a demonstration that the bias is negligible before the Service will accept the method.

8. Variable sampling plans must use the qualifying final estimate with the smallest overall standard error as an absolute value (for example, the size of the estimate is irrelevant in the determination of the reported value).

9. Variable sampling plans must calculate confidence limits by addition and subtraction of the precision of the estimate from the point estimate in which the determination of precision proceeds by multiplication of the standard error by (i) the 95% one-sided confidence coefficient based on the Student’s t-distribution with the appropriate degrees of freedom, or (ii) 1.645 (the normal distribution), assuming the sample size is at least 100 in each non-100% stratum.

10. To demonstrate that little statistical bias exists for either the (combined) ratio or regression method, the following applies after excluding all strata tested on 100% basis (the entire population of a stratum is selected for evaluation).

a. The total sample size of all strata must be at least 100 units.

b. Each stratum for a population estimate should contain at least 30 sample units.

c. The coefficient of variation of the paired variable must be 15% or less. The coefficient of variation of the paired variable (y) is defined as the standard error of the total “y” variables divided by point estimate of the total “y” variables when the “y” variables are commonly the reported values in accounting situations.

d. The coefficient of variation for the corrected value (x) is defined as the standard error of the total “x” variables divided by point estimate of the total “x” variables when the “x” variables are commonly the corrected values in accounting situations. The coefficient of variation for the difference (d) between the reported and corrected values in common accounting situations, must be 15% or less. The coefficient of variation for the corrected value (x) is defined as the standard error of the total “x” variables divided by point estimate of the total “x” variables when the “x” variables are commonly the corrected values in accounting situations.

e. For only the (combined) ratio method, the reported values of units must be of the same sign.

11. A written sampling plan is required prior to the execution of a sample. A plan must include the following:

a. The objective of the plan including a description of the value for estimation and the applicable taxable year;

b. Population definition and reconciliation of the population to the tax return;

c. Definition of the sampling frame;

d. Definition of the sampling unit;

e. Source of the random numbers, the starting point or seed, and the method of selection;

f. Sample size, along with supporting factors in the determination;

g. Method to associate random numbers to the frame;

h. Steps to ensure that the serialization of the frame is independent of the drawing of random numbers;

i. Steps for evaluating the sampling unit; and

j. The estimator that was used for appraising the sample.

APPENDIX B
SAMPLING DOCUMENTATION STANDARDS

The taxpayer must retain adequate documentation to support the statistical application, sample unit findings, and all aspects of the sample plan and execution. The execution of the sample must include information for each of the following items:

1. The seed or starting point of the random numbers;

2. The pairing of random numbers to the frame along with supporting information to retrace the process;

3. List of sampling units selected and the results of the evaluation of each unit;

4. Supporting documentation such as notes, invoices, purchase orders, and project descriptions that support the conclusion reached about each sample item;

5. The calculation of the projected estimate(s) to the population, including computation of the standard error of the estimate(s);

6. A statement describing any slips or blemishes in the execution of the sampling procedure and any pertinent decision rules; and

7. Computation of all associated adjustments.

APPENDIX C
TECHNICAL FORMULAS

The formulas below are included to clarify the statistical sampling terms used and to ensure consistent application of the procedures described in the revenue procedure.
Sample Mean of Audited Amounts

\[ \bar{x} = \frac{\sum x_i}{n} \]

Estimate of Total Audited Amount

\[ \hat{X}_M = N \bar{x} \quad \hat{X}_{Ms} = \Sigma (N; \bar{x}_i) \]

Estimated Standard Deviation of the Audited Amount

\[ S_x = \sqrt{\frac{\sum (x_i^2) - n (\bar{x}^2)}{n - 1}} \]

Estimated Standard Error of the Total Audited Amount

\[ \hat{o} \left( \hat{X}_M \right) = \frac{NS_x \sqrt{1 - n/N}}{\sqrt{n}} \quad \hat{o} \left( \hat{X}_{Ms} \right) = \sqrt{\Sigma \left[ N_i (N_i - n_i) \frac{S_x^2}{n_i} \right]} \]

Achieved Precision of the Total Audited Amount

\[ A'_M = \frac{NU \cdot S_x \sqrt{1 - n/N}}{\sqrt{n}} \quad A'_{Ms} = \hat{U} \sqrt{\Sigma \left[ N_i (N_i - n_i) \frac{S_x^2}{n_i} \right]} \]

Estimate of Total Difference

\[ \hat{D} = N \bar{a} \quad \hat{D}_S = \Sigma (N; \bar{a}_i) \]

Estimate of Total Audited Amount

\[ \hat{X}_{D} = Y + \hat{D} \quad \hat{X}_{Ds} = Y + \hat{D}_s \]

Estimated Standard Deviation of the Difference Amount

\[ S_D = \sqrt{\frac{\sum (a_i^2) - n (\bar{a}^2)}{n - 1}} \]
**UNSTRATIFIED (SIMPLE RANDOM SAMPLE)**

**DIFFERENCE ESTIMATOR**

Estimated Standard Error of the Difference Amount

\[ \hat{\sigma} \left( \hat{D} \right) = \frac{NS_D \sqrt{1 - n/N}}{\sqrt{n}} \]

Achieved Precision of the Difference Amount

\[ A_D' = \frac{NU_R S_D \sqrt{1 - n/N}}{\sqrt{n}} \]

**STRATIFIED DIFFERENCE ESTIMATOR**

Estimated Standard Error of the Difference Amount

\[ \hat{\sigma} \left( \hat{D}_s \right) = \sqrt{\sum \left[ \frac{N_i (N_i - n_i) S_{D_i}^2}{n_i} \right]} \]

Achieved Precision of the Difference Amount

\[ A_{D_s}' = U_R \sqrt{\sum \left[ \frac{N_i (N_i - n_i) S_{D_i}^2}{n_i} \right]} \]

**UNSTRATIFIED (SIMPLE RANDOM SAMPLE)**

**RATIO ESTIMATOR**

Estimated Ratio of Audited Amount to Recorded Amount

\[ R = \frac{\sum x_j}{\sum y_j} - 1 + \frac{\sum d_j}{\sum y_j} \]

\[ \hat{R}_C = \frac{\sum (N_i \hat{R}_i)}{\sum (N_i \hat{y}_i)} - 1 + \frac{\sum (N_i \hat{d}_i)}{\sum (N_i \hat{y}_i)} \]

Estimate of Total Audited Amount

\[ \hat{X}_R = Y \hat{R} \]

\[ \hat{X}_{Rc} = Y \hat{R}_C \]

Estimated Standard Deviation of the Ratio

\[ S_R = \sqrt{\frac{\sum (x_j^2) + \hat{R}^2 \sum (y_j^2) - 2 \hat{R} \sum (x_j y_j)}{n - 1}} \]

Estimated Standard Deviation of the Ratio in \( i \)th Stratum

\[ S_{Rc_i} = \sqrt{\frac{\left( \sum x_{ij}^2 - \left( \sum x_{ij} \right)^2 / n_i \right) + \hat{R}_C^2 \left( \sum y_{ij}^2 - \left( \sum y_{ij} \right)^2 / n_i \right)}{n_i - 1}} \]

Estimated Standard Error of the Ratio Amounts

\[ \hat{\sigma} \left( \hat{X}_R \right) = \frac{NS_R \sqrt{1 - n/N}}{\sqrt{n}} \]

\[ \hat{\sigma} \left( \hat{X}_{Rc} \right) = \sqrt{\sum \left[ \frac{N_i (N_i - n_i) S_{Rc_i}^2}{n_i} \right]} \]

Achieved Precision of the Ratio Amounts

\[ A'_R = \frac{NU_R S_R \sqrt{1 - n/N}}{\sqrt{n}} \]

\[ A'_{Rc} = U_R \sqrt{\sum \left[ \frac{N_i (N_i - n_i) S_{Rc_i}^2}{n_i} \right]} \]
UNSTRATIFIED (SIMPLE RANDOM SAMPLE) REGRESSION ESTIMATOR

\[
b = \frac{\sum (x_i y_i) - n \bar{x} \bar{y}}{\sum (y_i^2) - n \bar{y}^2} = 1 + \frac{\sum (x_i y_i) - n \bar{x} \bar{y}}{\sum (y_i^2) - n \bar{y}^2}
\]

\[
b_e = \frac{\sum N_i (N_i - n_i) S_{XYi} / n_i}{\sum N_i (N_i - n_i) S_{Yi}^2 / n_i} = 1 + \frac{\sum N_i (N_i - n_i) S_{XYi} / n_i}{\sum N_i (N_i - n_i) S_{Yi}^2 / n_i}
\]

Estimated Regression Coefficient

\[
\hat{X}_G = N \bar{x} + \hat{b} (Y - N \bar{y})
\]

\[
\hat{X}_{Ge} = \sum (N_i \bar{x}_i) + b_e [Y - \sum (N_i \bar{y}_i)]
\]

Estimate of Total Audited Amount

Estimated Standard Deviation of the Regression Amounts

\[
S_G = \sqrt{\frac{1}{n - 2} \left[ \frac{\sum (x_i^2) - n \bar{x}^2}{\sum (y_i^2) - n \bar{y}^2} \right]}
\]

Estimated Covariance between the Audited and Recorded Amounts in \(i\)th Stratum

\[
S_{XYi} = \frac{\sum (x_i \bar{y}_i) - n_i \bar{x} \bar{y}_i}{n_i - 1}
\]

Estimated Standard Deviation between the Audited and Recorded Amounts in \(i\)th Stratum

\[
S_{G_{ei}} = \sqrt{S_{X_i}^2 - 2b_{Ce}S_{XYi} + b_{Ce}^2S_{Yi}^2}
\]

Estimated Standard Error of the Audited and Recorded Amounts

\[
\hat{\sigma} \left( \hat{X}_G \right) = \frac{NS_G \sqrt{1 - n/N}}{\sqrt{n}}
\]

\[
\hat{\sigma} \left( \hat{X}_{Ge} \right) = \sqrt{\sum \left[ N_i (N_i - n_i) \frac{S_{G_{ei}}^2}{n_i} \right]}
\]

Achieved Precision of the Audited and Recorded Amounts

\[
A_G = \frac{NU_R S_G \sqrt{1 - n/N}}{\sqrt{n}}
\]

\[
A_{Ge} = U_R \sqrt{\sum \left[ N_i (N_i - n_i) \frac{S_{G_{ei}}^2}{n_i} \right]}
\]

### Definition of Symbols

Notice of Proposed Rulemaking

Guidance Regarding the Active Trade or Business Requirement Under Section 355(b)

REG–123365–03

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations that provide guidance regarding the active trade or business requirement under section 355(b) of the Internal Revenue Code. These proposed regulations provide guidance on issues involving the active trade or business requirement under section 355(b), including guidance resulting from the enactment of section 355(b)(3). These proposed regulations will affect corporations and their shareholders.

DATES: Written or electronic comments and requests for a public hearing must be received by August 6, 2007.

ADDRESSES: Send submissions to: CC:PA:LPD:PR (REG–123365–03), room 5203, Internal Revenue Service, PO Box 7604, Ben Franklin Station, Washington, DC 20044. Submissions may be hand-delivered Monday through Friday between the hours of 8 a.m. and 4 p.m. to CC:PA:LPD:PR (REG–123365–03), Courier’s Desk, Internal Revenue Service, 1111 Constitution Avenue, NW, Washington, DC, or sent electronically via the Federal eRulemaking Portal at www.regulations.gov (IRS REG–123365–03).

FOR FURTHER INFORMATION CONTACT: Concerning the proposed regulations, Russell P. Subin, (202) 622–7790; concerning submissions and the hearing, Kelly Banks, (202) 622–7180 (not toll-free numbers).

SUPPLEMENTARY INFORMATION: Background and Explanation of Provisions

A. Background and Overview of the Key Aspects of the Proposed Regulations

1. Background

Section 355(a) of the Internal Revenue Code (Code) provides that, under certain circumstances, a corporation may distribute stock and securities of a corporation it controls to its shareholders and security holders without causing either the corporation or its shareholders and security holders to recognize income, gain or loss. Sections 355(a)(1)(C) and 355(b)(1) generally require that the distributing corporation (distributing) and controlled corporation (controlled) each be engaged, immediately after the distribution, in the active conduct of a trade or business. Section 355(b)(2)(A) provides that a corporation shall be treated as engaged in the active conduct of a trade or business if and only if it is engaged in the active conduct of a trade or business solely as a result of substantially all of its assets consisting of stock, or stock and securities, of one or more corporations that are merely controlled by it (immediately after the distribution) which is so engaged. For this purpose, control is defined under section 368(c). All references to control in this preamble are references to control as defined in section 368(c).

Section 202 of the Tax Increase Prevention and Reconciliation Act of 2005, Public Law 109–222 (120 Stat. 345, 348) (TIPRA) amended section 355(b) by adding section 355(b)(3). Section 355(b)(3)(A), as amended by Division A, Section 410 of the Tax Relief and Health Care Act of 2006, Public Law 109–432 (120 Stat. 2922, 2963), provides that in the case of any distribution made after May 17, 2006, a corporation shall be treated as meeting the requirement of section 355(b)(2)(A) if and only if such corporation is engaged in the active conduct of a trade or business. Section 355(b)(3)(B) provides that for purposes of section 355(b)(3)(A) (and, consequently, section 355(b)(2)(A)), all members of such corporation’s separate affiliated group (SAG) shall be treated as one corporation (SAG rule). For purposes of the preceding sentence, a corporation’s SAG is the affiliated group which would be determined under section 1504(a) if such corporation were the common parent and section 1504(b) did not apply.

Thus, the separate affiliated group of distributing (DSAG) is the affiliated group that consists of distributing as the common parent and all corporations affiliated with distributing through stock ownership described in section 1504(a)(1)(B) (regardless of whether the corporations are includable corporations under section 1504(b)). The separate affiliated group of controlled (CSAG) is determined in a similar manner (with controlled as the common parent). Accordingly, unlike prior law, a corporation is not treated as engaged in the active conduct of a trade or business solely as a result of substantially all of its assets consisting of stock, or stock and securities, of one or more corporations that are merely controlled by it (immediately after the distribution) each of which is engaged in the active conduct of a trade or business.

Section 355(b)(2)(B) requires that the trade or business have been actively conducted throughout the five-year period ending on the date of the distribution (pre-distribution period). Section 355(b)(2)(C) provides that the trade or business must not have been acquired in a transaction in which gain or loss was recognized, in whole or in part, within the pre-distribution period. Section 355(b)(2)(D), as amended in 1987 and 1988, provides that control of a corporation which (at the time of acquisition of control) was conducting the trade or business must not have been directly or indirectly acquired by any distributee corporation or by distributing during the pre-distribution period in a transaction in which gain or loss was recognized, in whole or in part. See Public Law 100–203 (101 Stat. 1330, 1330–411 (1987)) and Public Law 100–647 (102 Stat. 3342, 3605 (1988)). For purposes of section 355(b)(2)(D), all distributee corporations
which are members of the same affiliated group (as defined in section 1504(a) without regard to section 1504(b)) shall be treated as one distributee corporation. The requirements under section 355(b) are collectively referred to in this preamble as either the active trade or business requirement or the requirements of section 355(b).

Accordingly, the requirements of section 355(b) are generally satisfied if distributing and controlled each have engaged in the active conduct of a trade or business throughout the pre-distribution period, are so engaged immediately after the distribution, and there have been no acquisitions of control of distributing or controlled during such period.

The active trade or business requirement is one of several requirements that must be satisfied in order for a distribution to qualify under section 355. For example, section 355(a)(1)(B) states that a transaction must not be used principally as a device for distributing the earnings and profits of distributing, controlled, or both. In addition, §1.355–2(b)(1) provides that section 355 will apply to a transaction only if it is carried out for one or more corporate business purposes.

The active trade or business requirement, in tandem with the device prohibition and business purpose requirement, limits a corporation’s ability to convert dividend income into capital gain through the use of a section 355 distribution. See S. Rep. No. 83–1622, at 50–51 (1954) and Coady v. Commissioner, 33 TC 771, 777 (1960), aff’d, 1965–2 C.B. 4, aff’d, 289 F.2d 490 (6th Cir. 1961). In Coady, the Tax Court stated that one purpose of section 355(b) is “to prevent the tax-free separation of active and inactive assets into active and inactive corporate entities.” The court also stated that a tax-free separation under section 355 “will involve the separation only of those assets attributable to the carrying on of an active trade or business....” Coady, 33 TC at 777.

The IRS and Treasury Department are aware of a number of issues that have arisen regarding the active trade or business requirement, including issues arising as a result of the enactment of section 355(b)(3). The following sections describe the active trade or business requirement and the significant issues that are addressed in these proposed regulations.

No inference should be drawn from these proposed regulations regarding the definition of trade or business or active trade or business under any other provision of the Code or Treasury regulations, even if such provision specifically references section 355. Comments are requested as to whether or the extent to which these proposed regulations should apply to other provisions that specifically reference section 355.

2. Overview of the key aspects of the proposed regulations

Principally, these proposed regulations provide guidance regarding the application of section 355(b)(3), the application of the acquisition rules in section 355(b)(2)(C) and (D) and the impact thereon of section 355(b)(3), and the determination of whether a corporation is engaged in a trade or business through the attribution of trade or business assets and activities from a partnership.

As discussed in section A.1. of this preamble, section 355(b)(3) treats all SAG members as one corporation. Accordingly, as discussed in detail in section B. of this preamble, these proposed regulations provide that subsidiary SAG members (SAG members that are not the common parent of such SAG) are treated like divisions of distributing or controlled, as the case may be. These proposed regulations also clarify that controlled may be a DSAG member during the pre-distribution period. Most significantly, these provisions treat a stock acquisition that results in a corporation becoming a subsidiary SAG member as an asset acquisition. As a result, the applicability of section 355(b)(2)(D) is substantially reduced. Further, as discussed in section E. of this preamble, this treatment alters the analysis regarding whether an existing business may be expanded as a result of a stock acquisition.

Notwithstanding that these proposed regulations provide that certain stock acquisitions may be treated as asset acquisitions under section 355(b)(3), purchases of stock of controlled during the pre-distribution period may be subject to section 355(a)(3)(B). See section F. of this preamble.

As discussed in detail in section C. and section D. of this preamble, these proposed regulations interpret section 355(b)(2)(C) and (D) to mean that a corporation generally cannot use its assets to acquire a trade or business to be relied on to facilitate a distribution under section 355. Accordingly, these proposed regulations generally prohibit acquisitions made in exchange for distributing’s assets even if no gain or loss is recognized in connection with the acquisition. Further, these proposed regulations provide certain exceptions to the literal application of section 355(b)(2)(C) and (D) for acquisitions in which gain or loss is recognized where the purposes of that section are not violated. However, these proposed regulations do not disregard the recognition of gain or loss in transactions between affiliates unless the affiliates are members of the same SAG. See section G. of this preamble.

Section I. of this preamble explains how these proposed regulations clarify a corporation’s ability to be attributed the trade or business assets and activities of a partnership. Most significantly, these partnership provisions yield results similar to the rules regarding the satisfaction of the continuity of business enterprise requirement, and thus allow a partner to be attributed the partnership’s trade or business assets and activities where the partner owns a significant interest in the partnership.

B. TIPRA

Congress enacted section 355(b)(3) because it was concerned that, prior to a distribution under section 355, corporate groups conducting business in separate corporate entities often had to undergo elaborate restructurings to place active businesses in the proper entities to satisfy the active trade or business requirement. See, for example, H.R. Rep. No. 109–304, at 53, 54 (2005). By treating a SAG as one corporation, Congress believed that it would greatly reduce the need for such restructurings. However, the introduction of the affiliation-based SAG rule into the active trade or business requirement significantly impacts the application of section 355(b)(2) in certain situations.

Accordingly, consistent with congressional intent, these proposed regulations provide several rules interpreting section 355(b)(3) in a manner that diminishes the need for pre-distribution restructurings while fully integrating the various provisions in section 355(b). These rules are
intended to more closely reflect the way corporate groups structure their businesses while, at the same time, ensuring that the purposes underlying section 355(b)(2)(C) and (D) are not circumvented.

Specifically, to accomplish these objectives the IRS and Treasury Department believe that it is appropriate to apply the SAG rule by disregarding the separate existence of all subsidiary SAG members for purposes of determining whether distributing and controlled satisfy the requirements of section 355(b).

1. SAG rule applicable during the pre-distribution period

The IRS and Treasury Department believe that it is appropriate to apply the SAG rule for purposes of determining whether the trade or business was actively conducted throughout the pre-distribution period and whether the requirements of section 355(b)(2)(C) or (D) have been violated.

The SAG rule applies for purposes of determining whether distributing and controlled are engaged in the active conduct of a trade or business immediately after the distribution. Specifically, the legislative history to section 355(b)(3) describes the corporations included in the DSAG and CSAG by reference to post-distribution affiliation. See H.R. Rep. No. 109–455, at 88 (2006) (Conf. Rep.); H.R. Rep. No. 109–304, at 54 (2005). However, there is nothing in the statute or legislative history that precludes the SAG rule from applying throughout the pre-distribution period.

The IRS and Treasury Department believe that applying the SAG rule throughout the pre-distribution period is consistent with the single-entity approach. If the SAG rule is not applied during the pre-distribution period, there may be unintended consequences. For example, assume that an active trade or business is segmented among the SAG members in a manner that precludes any one member from individually being treated as engaged in an active trade or business. Under the SAG rule the segments are aggregated and may be treated as a single active trade or business immediately after the distribution. However, if the SAG rule is not applied throughout the pre-distribution period, there would be no five-year active trade or business because no one member would be engaged in that trade or business. The IRS and Treasury Department do not believe there is any policy reason to apply the SAG rule in such a disparate manner. Accordingly, these proposed regulations apply the SAG rule throughout the pre-distribution period. This approach is consistent with Congressional intent to view SAGs as an aggregate for purposes of the active trade or business requirement.

Because the SAG rule treats all SAG members as one corporation, the separate existence of subsidiary SAG members is disregarded and all assets (and activities) owned (and performed) by SAG members are treated as owned (and performed) by distributing or controlled, as the case may be, for purposes of determining whether distributing or controlled is engaged in a five-year active trade or business. Therefore, where one DSAG or CSAG member satisfies the active trade or business requirement, distributing or controlled, as the case may be, satisfies the active trade or business requirement.

Consistent with the foregoing, these proposed regulations provide that the SAG rule also applies for purposes of determining whether there has been an impermissible acquisition, as discussed in section C. of this preamble, of a trade or business during the pre-distribution period under section 355(b)(2)(C) or (D). Because the SAG rule disregards the separate existence of subsidiary SAG members, these proposed regulations generally treat stock acquisitions that result in a corporation becoming a subsidiary SAG member as a direct acquisition of any assets (or activities) owned (or performed) by the acquired corporation. Further, these proposed regulations generally disregard transfers of assets (or activities) that are owned (or performed) by the SAG immediately before and immediately after the transfer. Such transfers cannot result in an acquisition. Under the SAG rule, such transfers have the effect of a transfer between divisions of a single corporation.

2. The DSAG may include CSAG members throughout the pre-distribution period

The IRS and Treasury Department believe that it is appropriate to include the CSAG members in the DSAG during the pre-distribution period if the applicable affiliation requirements are satisfied. The IRS and Treasury Department believe this approach is consistent with the purposes of section 355(b)(3) and the SAG rule’s general single-entity approach, and provides flexibility for the division of SAG members between distributing and controlled.

For example, assume that during the pre-distribution period, segments or portions of the business to be conducted by controlled are held by distributing (or other subsidiaries that are not directly or indirectly owned by controlled) and that distributing intends to transfer those portions of the business to controlled immediately prior to the distribution. If the DSAG does not include the CSAG members throughout the pre-distribution period, it is possible that neither SAG would be engaged in the active conduct of that trade or business throughout the pre-distribution period, because neither SAG would have all the appropriate segments of that business to satisfy the active trade or business requirement. The IRS and Treasury Department believe that such a result is inconsistent with the purposes of section 355(b)(3). Accordingly, by including the CSAG members in the DSAG throughout the pre-distribution period if the ownership requirements are satisfied, these proposed regulations give appropriate credit to five-year active trades or businesses regardless of how the assets and activities may be owned (and performed) by the SAG members throughout the pre-distribution period.

3. Acquisitions of stock in subsidiary SAG members

Section 355(b)(3) treats SAG members as one corporation for purposes of satisfying the requirements of section 355(b). As a result, the SAG rule alters the application of section 355(b)(2)(C) and (D) with respect to the acquisition of stock of a corporation that is or becomes a subsidiary SAG member. Further, because section 355(b)(3) supplanted the holding company rule in section 355(b)(2)(A), section 355(b)(2)(D) is now only applicable to certain acquisitions of stock of distributing and certain acquisitions of stock of controlled.

The SAG rule alters the application of section 355(b)(2)(C) and (D) with respect to the acquisition of stock of a corporation that is or becomes a subsidiary SAG mem-
ber. Section 355(b)(3) treats SAG members as one corporation for purposes of satisfying section 355(b). Consequently, a transaction that results in a corporation—including controlled—becoming a subsidiary SAG member is treated as a direct acquisition of all the assets (and activities) owned (and performed) by the acquired corporation at the time of the acquisition. Thus, such an acquisition is tested under section 355(b)(2)(C) rather than section 355(b)(2)(D). Nevertheless, as discussed in sections B.4. and C.3.a.ii. of this preamble, section 355(b)(2)(D) has continuing limited application.

In addition, an acquisition that results in a corporation becoming a subsidiary SAG member in a transaction in which gain or loss is recognized might satisfy the requirements of section 355(b)(2)(C) as an expansion of one of the acquiring SAG’s existing businesses, as discussed in section E. of this preamble. Finally, because the SAG rule treats subsidiary SAG members like divisions, the acquisition of additional stock of a current subsidiary SAG member has no effect for purposes of applying section 355(b)(2)(C).

4. Acquisitions of control of controlled where it is not a DSAG member

While section 355(b)(2)(D) is not applicable to acquisitions of stock of subsidiary SAG members, the requirements of section 355(b)(2)(D) must be satisfied where the DSAG acquires control of controlled where controlled is not and does not become a DSAG member prior to the distribution. This rule applies where distributing acquires stock constituting control of controlled but not stock meeting the requirements of section 1504(a)(2).

C. Acquisitions of a Trade or Business

Section 355(b)(2)(C) and (D) generally provides that a trade or business acquired, directly or indirectly, during the pre-distribution period will not satisfy the active trade or business requirement unless it was acquired in a transaction in which no gain or loss was recognized. The IRS and Treasury Department believe that these provisions have been and should continue to be interpreted and applied in a manner consistent with the overall purposes of section 355. For example, in certain situations, transactions in which gain or loss is recognized have been found not to violate the purposes of section 355(b)(2)(C) and (D). See, for example, C.I.R. v. Gordon, 382 F.2d 499 (2d Cir.1967), rev’d on other grounds, 391 US 83 (1968) (discussed in section C.2. of this preamble). Additionally, while the enactment of section 355(b)(3) substantially revised how distributing and controlled may satisfy the active trade or business requirement, TIPRA did not contain conforming amendments to section 355(b)(2)(C) and (D). As such, the IRS and Treasury Department also believe that a purpose-based interpretation of section 355(b)(2) is essential to harmonize these provisions. Accordingly, these proposed regulations interpret and apply section 355(b)(2)(C) and (D), and section 355(b)(3), in a manner consistent with their purpose, even if not always consistent with the literal language of the statute.

1. Purpose of section 355(b)(2)(C) and (D)

Section 355 “contemplates that a tax-free separation shall involve only the separation of assets attributable to the carrying on of an active business.” S. Rep. No. 83–1622, at 50 (1954). The active trade or business requirement is intended to ensure that only these types of separations qualify under section 355. Further, it operates as an additional safeguard to the device prohibition (a prohibition against disguised dividends) in section 355(a)(1)(B).

As discussed in section A. of this preamble, the active trade or business requirement is designed to limit the potential for the conversion of dividend income into capital gain through a section 355 distribution. Specifically, section 355(b)(2)(C) and (D) is intended to prevent dividend avoidance otherwise available through the purchase of a new business in order to facilitate a tax-free distribution under section 355. See Gordon, 382 F.2d at 506–507 (stating that “[t]o safeguard against this possibility, subsections (b)(2)(C) and (D) prohibit acquisition of a trade or business, or of a corporation, in a transaction in which gain or loss was recognized.”). Thus, the statute prohibits acquisitions of a trade or business in which gain or loss is recognized. Nevertheless, the recognition of gain or loss, in and of itself, does not violate the purposes of section 355. Rather, recognition of gain or loss is generally indicative of the type of consideration used in the transaction. Typically, a transaction in which gain or loss is recognized consists of an acquisition in exchange for assets. On the other hand, a transaction in which no gain or loss is recognized typically consists of an acquisition in exchange for the corporation’s equity.

Accordingly, the IRS and Treasury Department believe that the common purpose of section 355(b)(2)(C) and (D) is to prevent distributing from using assets—instead of its stock or stock of a corporation in control of distributing—to acquire a new trade or business in anticipation of distributing that trade or business (or facilitating the distribution of another trade or business) to its shareholders in a tax-free distribution. A distribution of a corporation holding assets that would have been used to effect a purchase generally would be treated as a dividend and section 355 was not intended to allow a tax-free separation of such assets. Acquiring a new trade or business using these assets and distributing it (or an existing trade or business) would effectively accomplish such a separation, and should not qualify under section 355.

Complementing the principle that the common purpose of section 355(b)(2)(C) and (D) is to prevent distributing from using its assets—instead of its stock, or stock of a corporation in control of distributing—to acquire a new trade or business is the notion that section 355 is intended to apply to separations of active trades or businesses with which the participants have a historic relationship. Section 355, like the reorganization provisions, involves the maintenance by the shareholders of a continuing interest in their business or businesses in modified corporate forms. For section 355 to apply to a divisive transaction, it is essential that distributing and its shareholders have a historic relationship with the active trades or businesses in the two resulting corporations. See, for example, §1.355–1(b) (“[section 355] applies only to the separation of existing businesses that have been in active operation for at least five years ... and which, in general, have been owned, directly or indirectly, for at least five years by the distributing corporation”). These requirements ensure that the historic owners of the acquired trade or business are participants in the divisive transaction and
minimize the potential for transactions that violate the common purpose of section 355(b)(2)(C) and (D).

Where distributing issues its own equity (or uses the equity of a corporation in control of distributing) to acquire an active trade or business in a transaction in which no gain or loss is recognized, distributing is not acquiring the trade or business in exchange for its assets and the historic owners of the trade or business will be participants in the divisive transaction. In such cases, the common purpose of section 355(b)(2)(C) and (D) is carried out.

Finally, an additional purpose of section 355(b)(2)(D) is to prevent a distributee corporation from acquiring control of distributing in anticipation of a distribution to which section 355 would otherwise apply, enabling the disposition of controlled without the proper recognition of corporate level gain. See H.R. Rep. No. 100–391, at 1080, 1082–1083 (1987).

2. Current law and the §1.355–3(b)(4) regulations

Under current law, several authorities depart from the literal language of section 355(b)(2)(C) and (D) in order to carry out the common purpose underlying section 355(b)(2)(C) and (D). For example, in Gordon, gain was recognized when distributing transferred a trade or business to controlled. The Second Circuit concluded that, even though gain was recognized, section 355(b)(2)(C) was not violated because new assets were not brought within the combined corporate shells of distributing and controlled. Therefore, the common purpose of section 355(b)(2)(C) and (D) was not violated. Furthermore, Rev. Rul. 69–461, 1969–2 C.B. 52, held that a first-tier subsidiary’s taxable distribution of stock of a second-tier subsidiary to its parent did not violate section 355(b)(2)(D). The ruling stated that section 355(b)(2)(D) is intended to prevent the acquisition of control of a corporation from a party not within the direct or indirect control of distributing. In addition, Rev. Rul. 78–442, 1978–2 C.B. 143, held that gain under section 357(c) on the transfer from distributing to controlled does not violate section 355(b)(2)(C). Rev. Rul. 78–442 stated that section 355(b)(2)(C) is intended to prevent the acquisition of a trade or business by distributing or controlled from an outside party in a taxable transaction within five years of a distribution.

Similarly, §1.355–3(b)(4) generally applicable to distributions on or before December 15, 1987, but applied in various situations by the IRS administratively to distributions occurring after that date) provides an exception from the literal language of section 355(b)(2)(C) and (D) for the direct or indirect acquisition of a trade or business by one member of an affiliated group from another member of the group, stating that an acquisition from another member of the affiliated group “is not the type of transaction to which section 355(b)(2)(C) and (D) is intended to apply.” See §1.355–3(b)(4)(ii).

Section 1.355–3(b)(4) also departs from the literal language of section 355(b) in providing that a trade or business acquired, directly or indirectly, within the pre-distribution period in a transaction in which the basis of the assets acquired was not determined in whole or in part by reference to the transferor’s basis does not qualify under section 355(b)(2), even though no gain or loss was recognized by the transferor. See §1.355–3(b)(4)(i). The reason for this departure is that in some circumstances a transaction in which no gain or loss is recognized may nevertheless constitute a prohibited acquisition of a trade or business in exchange for assets.

3. The proposed regulations

Consistent with current law (and §1.355–3(b)(4)), these proposed regulations generally prohibit acquisitions in which gain or loss was recognized but apply section 355(b)(2)(C) and (D) in a manner consistent with their purposes. Accordingly, these proposed regulations provide for certain exceptions for acquisitions in which gain or loss is recognized, and prohibit certain transactions in which no gain or loss is recognized.

a. Certain Transactions in Which Recognized Gain or Loss Is Disregarded

Under these proposed regulations, certain acquisitions are excepted from the general rule under section 355(b)(2)(C) and (D) that a trade or business, or control of a corporation engaged in a trade or business, cannot satisfy the active trade or business requirement if it was acquired during the pre-distribution period in a transaction in which gain or loss was recognized. These transactions are so excepted because they do not violate the purposes of section 355(b)(2)(C) and (D).

i. Certain Acquisitions by the DSAG or CSAG

These proposed regulations provide a number of exceptions to the application of section 355(b)(2)(C) and (D) not contained in the current regulations (or §1.355–3(b)(4)). One of these exceptions disregards any gain or loss recognized in connection with an acquisition by the CSAG from the DSAG of a trade or business, an interest in a partnership engaged in a trade or business, or stock of a corporation engaged in a trade or business. This exception is appropriate because it is not a use of distributing’s assets to acquire the trade or business.

Another exception disregards gain or loss recognized in an acquisition solely as a result of the payment of cash to shareholders for fractional shares where the cash paid represents a mere rounding off of the fractional shares in the exchange and is not separately bargained for consideration. The IRS and Treasury Department believe that this is not the type of transaction to which section 355(b)(2)(C) or (D) is intended to apply. Although such a transaction involves a small use of assets, these proposed regulations except such acquisitions because the small amount of assets are not separately bargained for and are used merely to simplify the exchange. Other authorities reach similar conclusions in the context of reorganizations. See Rev. Rul. 66–365, 1966–2 C.B. 116, amplified by Rev. Rul. 81–81, 1981–1 C.B. 122, (concluding that cash in lieu of fractional shares does not violate the solely for voting stock requirement of section 368(a)(1)(B) and (C) because it was merely a mathematical rounding off for simplicity, and the transaction “was for all practical purposes solely in exchange for voting stock”).

In addition, as discussed in section G. of this preamble, these proposed regulations provide a limited exception for taxable acquisitions from affiliates that are members of the same SAG. Specifically, acquisitions between SAG members (where the
assets (or activities) are owned (or performed) by the SAG immediately before and immediately after the transfer) are disregarded whether they are taxable or not.

Like the current regulations, these proposed regulations provide that acquisitions that expand a pre-existing business are generally exempted from the nonrecognition requirement. See §1.355–3(b)(3)(ii). While these transactions may involve the use of the DSAG’s or CSAG’s assets, they are not acquisitions of a new or different trade or business. Because the DSAG or CSAG, as the case may be, is already in the business, such transactions are not considered acquisitions of a trade or business under section 355(b)(2)(C) and (D).

ii. Certain Acquisitions by a Distributee Corporation

Consistent with the principles of Rev. Rul. 74–5, 1974–1 C.B. 82, obsoleted by Rev. Rul. 89–37, 1989–1 C.B. 107, these proposed regulations disregard the recognition of gain or loss in applying section 355(b)(2)(D) to certain acquisitions of the stock of distributing by a distributee corporation. Prior to the 1987 and 1988 amendments noted in section A.1. of this preamble, section 355(b)(2)(D) was not violated in a case where distributing distributed the stock of controlled even though a purchaser acquired distributing’s stock during the pre-distribution period in a transaction in which gain or loss was recognized. See Rev. Rul. 74–5 (reasoning that the purpose of section 355(b)(2)(D) was to prevent distributing, rather than the shareholder of distributing, from accumulating excess funds to purchase the stock of a corporation engaged in an active trade or business). However, Rev. Rul. 74–5 held that the purchaser could not then further distribute the stock of controlled until five years after such purchase, reasoning that the purchaser, the distributing corporation in the second distribution, indirectly acquired the stock of controlled through another corporation, the distributing corporation in the first distribution.

The 1987 and 1988 amendments to section 355(b)(2)(D) prohibited such transactions because of a concern that such acquisitions were similar to transactions that permitted a corporation to dispose of an appreciated subsidiary without the proper recognition of gain contrary to the repeal of the General Utilities doctrine. For example, assume P, a corporation, acquired the stock of D in a transaction in which gain or loss was recognized and D immediately distributed the stock of C to P in a section 355 transaction. P would allocate its basis in the newly acquired D stock between the D stock and the C stock received in the distribution. P could then potentially sell the C stock without the appropriate recognition of gain. See H.R. Rep. No. 100–391, at 1080, 1082–1083 (1987).

However, there are transactions that violate the literal requirements of section 355(b)(2)(D) but do not violate the purpose of the 1987 and 1988 amendments. For example, assume that for more than five years, T, a corporation, owned all of the stock of D, which in turn owned all the stock of C. Throughout this period, D and C have each engaged in the active conduct of a trade or business. In year 6, P acquires the stock of T in a transaction in which gain or loss is recognized, and holds the T stock with a cost basis determined under section 1012. In year 7, P liquidates T in a transaction to which section 332 applies and in which no gain or loss is recognized, thereby eliminating its cost basis in the T stock. Thereafter, P holds the D stock with a basis equal to T’s basis in the D stock. In year 8, D distributes the C stock to P. Under these facts, P cannot dispose of the D or C stock without recognizing the same amount of gain or loss that T would have recognized.

Similarly, assume the same facts as the previous example, except that in year 6 P acquires all of T’s assets, including the D stock, in exchange for P stock and cash in a reorganization described in section 368(a)(1)(A). Because all of the cash is distributed to the T shareholders, T does not recognize any gain, and P’s basis in the D stock is equal to T’s basis in the D stock. See section 362(b). In year 7, D distributes the C stock to P. Under these facts, P cannot dispose of the D or C stock without recognizing the same amount of gain or loss that T would have recognized.

The IRS and Treasury Department believe that the distributee corporation language in section 355(b)(2)(D)(i) is intended only to prevent transactions that are contrary to the repeal of the General Utilities doctrine. In both of the examples just described, neither the D stock nor C stock can be disposed of in a manner that is contrary to the repeal of the General Utilities doctrine. Accordingly, these proposed regulations provide that section 355(b)(2)(D) is not violated where there is a direct or indirect acquisition by a distributee corporation of control of distributing in one or more transactions in which gain or loss is recognized where the basis of the acquired distributing stock in the hands of the distributee corporation is determined in whole by reference to the transferor’s basis. However, consistent with the principles of Rev. Rul. 74–5, this rule is only applicable with respect to a distribution by the acquired distributing, and does not apply for purposes of any subsequent distribution by any distributee corporation.

b. Certain Nonrecognition Transactions Treated as Recognition Transactions

Because the IRS and Treasury Department believe that acquisitions made in exchange for assets violate the common purpose of section 355(b)(2)(C) and (D) even if no gain or loss is recognized, these proposed regulations provide that such transactions are treated as transactions in which gain or loss is recognized.

i. Acquisitions in Exchange for Assets

As discussed in section C.1. of this preamble, the common purpose underlying section 355(b)(2)(C) and (D) is that distributing generally should not be able to use its assets to acquire a new trade or business in anticipation of distributing that trade or business (or facilitating the distribution of another trade or business) to its shareholders in a tax-free transaction. Similarly, and also discussed in section C.1. of this preamble, section 355(b), by permitting the use of distributing stock to acquire a trade or business, ensures a historic relationship between the distributing shareholders and the trades or businesses relied upon to satisfy the active trade or business requirement.

The following examples illustrate distributing’s use of its assets to acquire a new trade or business.

First, assume that D, a corporation that does not directly conduct a five-year active trade or business, owns all of the stock of C, a corporation with a five-year active trade or business. D wishes to spin-off C to its shareholders, but to do so D must sat-
satisfy the active trade or business requirement. Accordingly, D contributes assets to an unrelated partnership that is engaged in a five-year active trade or business in a transaction to which section 721 applies in exchange for an interest in the partnership that otherwise satisfies the requirements for D to be attributed the trade or business assets and activities of the partnership, as discussed in section I. of this preamble. Two years after the transfer, when D’s only active trade or business is the business conducted by the partnership, D distributes the C stock pro rata to the D shareholders.

Alternatively, assume that D, a corporation with a five-year active trade or business, transfers assets to unrelated T, a corporation with a five-year active trade or business, in a transaction to which section 351 applies in exchange for an amount of T stock constituting control. Two years after the transfer, when T’s only active trade or business is the business conducted by the partnership, D distributes the T stock pro rata to the D shareholders.

Similarly, assume that D, a corporation with a five-year active trade or business, owns all of the stock of C, a corporation that does not have a five-year active trade or business but has other assets. To cause C to satisfy the active trade or business requirement, D arranges for C to acquire a five-year active trade or business from an unrelated corporation, in a reorganization described in section 368(a)(1)(A). In the reorganization, the shareholders of T receive solely common stock of C representing 20 percent or less of the voting power of all classes of C stock. Two years after the reorganization, D distributes the C stock pro rata to the D shareholders.

In each of these examples, D has directly or indirectly acquired a trade or business in exchange for assets. See and compare Situation 2 of Rev. Rul. 2002–49, 2002–2 C.B. 288, (corporation’s use of appreciated securities to acquire a trade or business of a partnership in a transaction to which section 721 applies is treated as an acquisition in which gain or loss was recognized); section 4.01(29) of Rev. Proc. 2007–3, 2007–1 I.R.B. 108, (the IRS will not ordinarily rule where distributing acquires control of controlled by transferring inactive assets in a transaction meeting the requirements of section 351(a) or section 368(a)(1)(D) and in which no gain or loss is recognized). While these transactions satisfy the literal requirements of section 355(b)(2)(C) or (D), the underlying common purpose of those provisions has been violated. In each case, distributing has acquired in exchange for distributing’s assets, either directly or indirectly through the issuance of controlled stock the trade or business to be relied on by distributing or controlled.

Furthermore, in each of these examples, the historic owners have supplied a trade or business for distributing or controlled, but they are not participants in the divisive transaction. Not being shareholders of D, the position of the historic owners of the acquired business is not altered by the distribution of the controlled stock. Accordingly, neither distributing nor the distributing shareholders have a historic relationship with the separated businesses, and the distribution of the controlled stock is not the type of transaction to which section 355 was intended to apply.

By contrast, had D issued its own stock in the reorganization in the last example, the substance of the transaction would be different. D would not have indirectly acquired a trade or business in exchange for assets but rather for its own equity. Because D would not be purchasing a business for its shareholders, the distribution is not a substitute for a taxable distribution of the consideration that would have been used in the purchase. Furthermore, where D stock is used as the consideration the former T shareholders would have joined D’s shareholder base, and become participants in the divisive reorganization.

These proposed regulations prohibit the acquisition of a trade or business directly or indirectly in exchange for assets in order to ensure that the common purpose of section 355(b)(2)(C) and (D) is satisfied. Such an acquisition also would include a swap of an interest in an existing five-year active trade or business for an interest in a new active trade or business. This type of an acquisition could occur through the formation of a joint venture structure.

For example, assume D and X form a partnership joint venture in which D contributes a five-year active trade or business (ATBD) and X contributes a different five-year active trade or business (ATBX). D and X each receive a 50-percent interest in the partnership. D’s interest is sufficient to satisfy the requirements for D to be attributed the partnership’s trade or business assets and activities (as discussed in section I. of this preamble). Prior to a potential section 355 distribution by D, and within five years of the contribution, the partnership sells ATBD.

D cannot rely on ATBX until five years after the acquisition of its interest in the partnership because, in effect, at the time of the contributions D exchanged a 50-percent undivided interest in ATBD for a 50-percent undivided interest in ATBX. Therefore, D acquired its interest in ATBX in exchange for its assets. While this was a transaction in which no gain or loss was recognized, the exchange of assets violates the common purpose of section 355(b)(2)(C) and (D). Further, the historic owner of ATBX would not participate in any distribution of controlled stock by D. Accordingly, such a distribution would not be the type of transaction to which section 355 was intended to apply.

Similarly, a corporation can effectively swap its assets through the issuance of stock of a subsidiary (including controlled). Accordingly, these proposed regulations provide a specific rule to address tax-free acquisitions involving the issuance of subsidiary stock. These proposed regulations provide that if a SAG directly or indirectly owns stock of a subsidiary (including a subsidiary SAG member) and the subsidiary directly or indirectly acquires a trade or business, an interest in a partnership engaged in a trade or business, or stock of a corporation engaged in a trade or business from a person other than such SAG in exchange for stock of such subsidiary in a transaction in which no gain or loss is recognized (the acquisition), solely for purposes of applying section 355(b)(2)(C) or (D) with respect to the trade or business, partnership interest, or stock acquired by the subsidiary in the acquisition, the subsidiary’s stock directly or indirectly owned by the SAG immediately after the acquisition is treated as acquired at the time of the acquisition in a transaction in which gain or loss is recognized.

This rule reflects the fact that although the acquiring subsidiary did not make the acquisition in exchange for its assets (it issued its own stock), the SAG that owns stock of the subsidiary has exchanged an indirect interest in the subsidiary’s assets for an indirect interest in the trade or business acquired by the subsidiary in the
acquisition. Thus, the SAG has indirectly acquired a portion of the subsidiary’s newly acquired trade or business (equal to the shareholder’s stock interest in the subsidiary immediately after the acquisition) in exchange for assets. Further, the IRS and Treasury Department believe that it would be inappropriate to allow such acquired trade or business to be relied on to satisfy the active trade or business requirement within five years of its acquisition because the historic owners of that trade or business would not participate in any distribution of controlled stock.

However, because such a transaction does not result in an acquisition of any pre-existing trade or business of the subsidiary, this rule merely treats the SAG’s stock in the subsidiary immediately after the acquisition as acquired in a gain or loss transaction for purposes of applying section 355(b)(2)(C) or (D) to the newly acquired trade or business. Further, the impact of such a transaction on the ability to rely on the newly acquired trade or business to satisfy the requirements of section 355(b) depends upon how much subsidiary stock the SAG owns immediately after the transaction.

For example, assume D owns all of the sole class of stock of S, a corporation that does not conduct a five-year active trade or business (ATBT), merges into S in a reorganization described in section 368(a)(1)(A) and (D) solely in exchange for 80 percent of the S stock, and no gain or loss is recognized. Immediately after the merger, D owns only 20 percent of the sole class of S stock. Solely for purposes of determining whether ATBT can be relied on to satisfy the active trade or business requirement, D is treated as having acquired its 20 percent of the S stock at the time of the merger of T into S in a transaction in which gain or loss was recognized. Accordingly, as described in section D.2.a. of this preamble regarding certain multi-step acquisitions of a subsidiary SAG member, if D subsequently acquired the 80 percent of the S stock held by the other shareholders solely in exchange for D voting stock in a reorganization described in section 368(a)(1)(B) in which no gain or loss was recognized, S would become a DSAG member and D could rely on ATBT to satisfy the active trade or business requirement.

Accordingly, in light of all of these concerns, these proposed regulations generally provide that acquisitions paid for in whole or in part, directly or indirectly, with assets of the DSAG will be treated as acquisitions in which gain or loss is recognized. However, if a DSAG member or controlled acquires the trade or business solely in exchange for distributing stock, distributing acquires control of controlled solely in exchange for distributing stock, or controlled acquires the trade or business from distributing solely in exchange for stock of controlled, in a transaction in which no gain or loss is recognized, the requirements of section 355(b)(2)(C) and (D) are satisfied. Such acquisitions are not made in exchange for assets of the DSAG.

An additional question arising under section 355(b)(2)(C) and (D) is whether the assumption of liabilities is treated as a payment of money or other property, and hence the use of assets. See United States v. Hendler, 303 US 564, reh’g denied, 304 US 588 (1938) (viewing an assumption of a liability as a transferee as in substance a payment to the transferee). Congress has indicated that the assumption of liabilities is not to be treated as the payment of money or other property in certain transactions in which no gain or loss is recognized. For example, the assumption of liabilities is not treated as the payment of money or other property in certain exchanges to which section 351 or 361 applies. See section 357(a). Further, the assumption of liabilities does not violate the solely for voting stock requirement in a reorganization described in section 368(a)(1)(C) where the acquiring corporation does not otherwise exchange money or other property, See section 368(a)(1)(C) and (a)(2)(B).

Because Congress has granted this special treatment for liability assumptions in certain nonrecognition transactions, the IRS and Treasury Department believe that similar treatment is generally appropriate for purposes of section 355(b)(2)(C) and (D). Accordingly, these proposed regulations provide that the assumption by the DSAG or SAG of liabilities of a transferor shall not, in and of itself, be treated as the payment of assets if such assumption is not treated as the payment of money or other property under any other applicable provision.

Finally, these proposed regulations clarify that an acquisition to which section 304(a)(1) applies does not satisfy the requirements of section 355(b)(2)(C) or (D). The IRS and Treasury Department believe that a stock acquisition to which section 304 applies is a transaction in which gain or loss is recognized for purposes of section 355(b)(2)(C) and (D) even if it merely results in the transferor’s receipt of dividend income. These proposed regulations clarify that, regardless of the tax consequences to the transferor, such a transaction is an acquisition made in exchange for assets, and therefore does not satisfy the requirements of section 355(b)(2)(C) and (D).

ii. Partnership Distributions

These proposed regulations provide that an acquisition consisting of a distribution from a partnership is generally treated as a transaction in which gain or loss is recognized because it constitutes an acquisition in exchange for assets. That is, the distributee partner is generally exchanging an indirect interest in all the assets of the partnership for a direct interest in the property distributed. However, these proposed regulations provide that if the corporation is already attributed the trade or business assets and activities of a partnership, the corporation’s acquisition of such trade or business assets and activities from the partnership is not, in and of itself, the acquisition of a new trade or business. Further, these proposed regulations provide that an acquisition consisting of a pro rata distribution from a partnership of stock or an interest in a lower-tier partnership is not an acquisition in exchange for assets to the extent the distributee partner did not acquire the interest in the distributing partnership during the pre-distribution period in a transaction in which gain or loss was recognized and to the extent the distributing partnership did not acquire the distributed stock or partnership interest within such period. In such a case, the distributee partner has merely exchanged an indirect interest for a direct interest in the distributed stock or partnership interest, and continues to possess the same indirect interest in the remaining assets of the partnership.
iii. Lack of Transferred Basis

Section 1.355–3(b)(4)(i) provides that a trade or business acquired, directly or indirectly, within the pre-distribution period in a transaction in which the basis of the assets acquired was not determined in whole or in part by reference to the transferor’s basis does not qualify under section 355(b)(2), even though no gain or loss was recognized by the transferor. These proposed regulations do not include a similar provision. The IRS and Treasury Department believe that the prohibition against acquisitions in exchange for assets fully addresses such acquisitions.

c. Application of Section 355(b)(2)(C) and (D) to Predecessors

Unlike §1.355–3(b)(4)(i), which only took “a predecessor in interest” into account for purposes of applying section 355(b)(2)(D), these proposed regulations provide that any reference to a corporation includes a reference to a predecessor of such corporation in applying both section 355(b)(2)(C) and (D). The IRS and Treasury Department believe that predecessors should be taken into account in applying both section 355(b)(2)(C) and (D) because the same policy concerns exist regardless of whether the transaction involves the acquisition of assets or stock. For this purpose, the proposed regulations define a predecessor of a corporation as a corporation that transfers its assets to such corporation in a transaction to which section 381 applies. The IRS and Treasury Department believe that it is appropriate to take predecessors into account in applying these provisions in order to appropriately minimize the significance of which corporation is the acquiror and which corporation is the target.

Further, because the SAG rule effectively treats SAG members as a single-entity for purposes of section 355(b), these proposed regulations also apply section 355(b)(2)(C) and (D) to acquisitions during the pre-distribution period by corporations that later become DSAG or CSAG members. These types of acquisitions are similar to predecessor asset acquisitions.

4. Requests for comments regarding exceptions to section 355(b)(2)(C) and (D)

The IRS and Treasury Department request comments regarding whether any additional exceptions to section 355(b)(2)(C) and (D) are appropriate. In particular, the IRS and Treasury Department request comments regarding whether acquisitions in which gain is recognized solely as a result of the application of section 367 should be treated as violating section 355(b)(2)(C) or (D). The IRS and Treasury Department also request comments regarding whether an exception should exist for taxable acquisitions made by distributing solely in exchange for distributing stock because such acquisitions are not made in exchange for distributing’s assets and do not appear to violate the common purpose of section 355(b)(2)(C) and (D).

In addition, the IRS and Treasury Department request comments regarding whether a redemption of stock should be a transaction to which section 355(b)(2)(C) or (D) applies. Under current law, no relief is provided for such transactions. See McLaulin v. Commissioner, 276 F.3d 1269 (11th Cir. 2001) (concluding that section 355(b)(2)(D) applies when distributing acquires control of a subsidiary through a redemption of subsidiary stock). Compare Rev. Rul. 57–144, 1957–1 C.B. 123. Specifically, comments are requested on whether all types of redemptions should be subject to the same rule, whether the treatment of redemptions should be determined by the source of payment, whether the redemption constitutes an indirect exchange for assets of distributing or controlled, and the method of making these determinations. Alternatively, the IRS and Treasury Department request comments on whether an exception should be provided for redemptions of shareholders that exercise dissenters’ rights. Compare Rev. Rul. 68–285, 1968–1 C.B. 147, (concluding that cash paid to dissenting target corporation shareholders by the target corporation does not violate the sole for voting stock requirement of section 368(a)(1)(B)) with Rev. Rul. 73–102, 1973–1 C.B. 186, (concluding that cash paid to dissenting target corporation shareholders by the acquiring corporation is treated as money or other property paid by the acquiring corporation for the properties of the target corporation in a reorganization under section 368(a)(1)(C)). These proposed regulations do not include an exception for redemptions generally or for those in connection with the exercise of dissenters’ rights.

Finally, the IRS and Treasury Department request comments regarding whether a transaction in which a distributee corporation acquires in a transaction in which no gain or loss is recognized newly issued stock of distributing in exchange for money or property previously acquired for cash during the pre-distribution period should be treated as a transaction in which gain or loss is recognized. For example, assume D and C have each engaged in the active conduct of a trade or business for more than five years. During the pre-distribution period, P, an unrelated corporation, purchases trucks and transfers them to D in exchange for D stock meeting the requirements of section 368(c) in a transaction to which section 351 applies. No gain or loss is recognized. D subsequently distributes all the C stock to P in a separate transaction within five years of P’s acquisition of the D stock. Notwithstanding that this transaction satisfies the literal requirements of section 355(b)(2)(D), it appears to violate the General Utilities doctrine because it permits the distributee corporation, P, to receive a fair market value basis (or close to a fair market value basis) in the distributing stock, enabling the potential sale of controlled stock without the appropriate recognition of gain. Additionally, the IRS and Treasury Department are studying whether the principles of the foregoing rule should be extended to any distributee in regulations under section 355(d), and request comments on this point.

D. Treatment of Certain Multi-step Acquisitions

These proposed regulations provide specific rules regarding the application of section 355(b)(2)(C) and (D) to certain multi-step acquisitions. Based on the interpretation of section 355(b)(2)(D), and the enactment of section 355(b)(3), the IRS and Treasury Department believe that it is appropriate to apply section 355(b)(2)(C) and (D) to multi-step acquisitions in a consistent manner. Further, the IRS and Treasury Department be-
lieve that it is appropriate to treat certain multi-step acquisitions of target corporation stock as satisfying the requirements of section 355(b)(2)(C) or (D) (as applicable) notwithstanding that some portion of the stock may have been acquired in a separate transaction in which gain or loss was recognized.

1. Multi-step acquisition of control of distributing or controlled

a. Direct Acquisitions

Section 355(b)(2)(D) provides that control of distributing or controlled may be acquired within the pre-distribution period provided that “in each case in which such control was so acquired, it was so acquired, only by reason of transactions in which gain or loss was not recognized in whole or in part, or only by reason of such transactions combined with acquisitions before the beginning of such period.” The IRS and Treasury Department interpret this language to mean that at the time control is first acquired, the acquiring corporation (or its SAG) is required to own stock meeting the requirements of section 368(c) that was acquired in one or more transactions in which no gain or loss was recognized or by reason of such transactions combined with acquisitions before the beginning of the pre-distribution period. Thus, at the time an acquiring corporation (or its SAG) first satisfies the section 368(c) control requirement, the acquiring corporation (or its SAG) must possess section 368(c) control without relying on any stock acquired in a transaction in which gain or loss was recognized during the pre-distribution period.

For example, assume that C has two classes of stock outstanding. X owns all 95 shares of the class A stock of C representing 95 percent of the voting power and 70 percent of the value and Y owns all of the class B stock of C representing five percent of the voting power and 30 percent of the value. In year 1, unrelated D acquires 10 shares of the class A C stock from X in a transaction in which gain or loss is recognized. In year 2, D acquires an additional 80 shares of class A C stock from X in a separate transaction in which no gain or loss is recognized. In year 3, D acquires the remaining five shares of class A C stock from X in a separate transaction in which gain or loss is recognized. In year 4, D distributes the 95 shares of class A C stock to the D shareholders. Assuming all of the other requirements of section 355(b) are satisfied, the requirements of section 355(b)(2)(D)(ii) are satisfied because at the time D first acquired control of C (immediately after the year 2 acquisition), D owned an amount of C stock constituting control that was acquired in a transaction in which no gain or loss was recognized (the 80 shares of class A C stock acquired in year 2). (However, the 10 shares of class A C stock acquired in year 1 and the five shares of class A C stock acquired in year 3 may be treated as boot under section 355(a)(3)(B).)

On the other hand, assume the same facts as the previous example, except that, in year 2, D acquires only 75 shares of class A C stock from X. The requirements of section 355(b)(2)(D)(ii) are not satisfied because at the time D first acquired control of C (immediately after the year 2 acquisition), D did not own an amount of C stock constituting control that was acquired in one or more transactions in which no gain or loss was recognized or acquired prior to the pre-distribution period. D only owns C voting stock representing 75 percent of the total voting power that was acquired in a transaction in which no gain or loss was recognized. The result would be the same if the year 3 acquisition was also a transaction in which no gain or loss was recognized.

b. Indirect Acquisitions

These proposed regulations also provide that the principles of this rule will be applied with respect to an indirect acquisition of distributing or controlled stock. For example, assume T corporation owns stock of C (an unaffiliated subsidiary) constituting control (and no more). Unrelated D acquires 10 percent of the sole outstanding class of stock of T in a transaction in which gain or loss is recognized. In a separate transaction, T merges into D solely in exchange for D stock in a transaction in which no gain or loss is recognized. In applying this multi-step acquisition rule to D’s subsequent acquisition of control of C in the merger, the prior acquisition of T stock in the transaction in which gain or loss was recognized is treated as an acquisition of 10 percent of the C stock owned by T (representing 8 percent of the total combined voting power of the C stock) in a transaction in which gain or loss is recognized. Accordingly, the requirements of section 355(b)(2)(D)(ii) are not satisfied because at the time D first acquires control of C, D does not own an amount of C stock constituting control that was acquired in one or more transactions in which no gain or loss is recognized or acquired prior to the pre-distribution period. At that time, D had only acquired C stock representing 72 percent of the total combined voting power of the C stock in a transaction in which no gain or loss is recognized.

2. Other multiple-step acquisitions

As discussed in sections A.1., B.1., and B.3. of this preamble, if D acquires section 1504(a)(2) stock of a corporation, the acquired corporation will become a DSAG member and the corporation will be treated like a division of D for purposes of the active trade or business requirement. As such, D is treated as if it acquired the assets and activities of the new subsidiary SAG member, and the acquisition must satisfy the requirements of section 355(b)(2)(C) rather than section 355(b)(2)(D). If D subsequently acquires the remaining stock of the corporation in a separate transaction, such acquisition is disregarded for purposes of satisfying the active trade or business requirement (regardless of whether gain or loss was recognized in the separate transaction) because the subsidiary is already treated as a division of D for this purpose. The IRS and Treasury Department believe that the order of these acquisitions should not be determinative in applying section 355(b)(2)(C), provided that at the time the corporation first becomes a subsidiary SAG member, the SAG owns section 1504(a)(2) stock in the corporation without relying on any stock acquired in a transaction in which gain or loss was recognized during the pre-distribution period.

a. Direct SAG Acquisitions

Consistent with the treatment of multi-step acquisitions of control of a corporation discussed in section D.1. of this preamble, these proposed regulations provide that multi-step acquisitions of stock resulting in a corporation becoming a subsidiary SAG member will satisfy the requirements
of section 355(b)(2)(C). provided that at the time the corporation first becomes a subsidiary SAG member, the SAG owns section 1504(a)(2) stock in the corporation without relying on any stock acquired in a transaction in which gain or loss was recognized during the pre-distribution period.

For example, assume that in year 1, D does not conduct an active trade or business and has owned control of C for more than five years. C and T, an unrelated corporation, have each engaged in the active conduct of a trade or business for more than five years. In year 1, D acquires 10 percent of T’s sole outstanding class of stock in a transaction in which gain or loss was recognized. In year 2, D acquires an additional 80 percent of T’s stock in a separate transaction in which no gain or loss was recognized. T becomes a DSAG member as a result of the year 2 stock acquisition. In year 3, D distributes the C stock to the D shareholders. Assuming all of the other requirements of section 355(b) are satisfied, the requirements of section 355(b)(2)(C) are satisfied because at the time T first became a DSAG member (immediately after the year 2 acquisition), D owned an amount of T stock meeting the requirements of section 1504(a)(2) that was acquired in a transaction in which no gain or loss was recognized (the T stock acquired in year 2).

On the other hand, assume the same facts as the previous example except that, in year 2, D only acquires an additional 75 percent of T’s stock. The requirements of section 355(b)(2)(C) are not satisfied because at the time T first became a DSAG member (immediately after the year 2 acquisition), D did not own an amount of T stock meeting the requirements of section 1504(a)(2) that was acquired in one or more transactions in which no gain or loss was recognized or acquired prior to the pre-distribution period. D owns only 75 percent of T’s stock that was acquired in a transaction in which no gain or loss was recognized. The result would be the same even if, in year 3 prior to the distribution of the C stock, D acquired the remaining 15 percent of the T stock in a transaction in which no gain or loss is recognized.

b. Indirect SAG Acquisitions

Similar to the rule regarding multi-step acquisitions of control of distributing or controlled, these proposed regulations also provide that the principles of this rule will be applied with respect to an indirect acquisition by the SAG of stock of a corporation that becomes a SAG member. For example, assume a DSAG member acquires 25 percent of the sole outstanding class of stock of T, a corporation that wholly owns S, in a transaction in which gain or loss is recognized. In a separate transaction, another DSAG member acquires all of the stock of S from T solely in exchange for D voting stock in a reorganization described in section 368(a)(1)(B) in which no gain or loss is recognized. As a result, S becomes a DSAG member. In applying this multi-step acquisition rule to the DSAG’s subsequent acquisition of S stock, the acquisition of 25 percent of the T stock in the transaction in which gain or loss was recognized will be treated as an acquisition of 25 percent of the S stock in a transaction in which gain or loss is recognized. Accordingly, the requirements of section 355(b)(2)(C) are not satisfied because at the time S first becomes a DSAG member, the DSAG does not own section 1504(a)(2) stock of S that was acquired in one or more transactions in which no gain or loss is recognized or acquired prior to the pre-distribution period.

c. Multi-step Asset Acquisitions

Because stock acquisitions that result in a corporation becoming a subsidiary SAG member are treated as direct acquisitions of the target corporation’s assets for purposes of applying section 355(b), these proposed regulations apply a comparable multi-step acquisition rule to acquisitions of stock in non-SAG members where such non-members’ assets are subsequently directly acquired by a SAG member. Specifically, these proposed regulations provide that if immediately before a SAG’s direct acquisition of a trade or business (or an interest in a partnership engaged in a trade or business) held by a corporation (owner) in a transaction to which section 381 applies and in which no gain or loss is recognized, the SAG owns an amount of stock of the owner that it acquired in one or more transactions during the pre-distribution period in which gain or loss was recognized such that all of the other stock of the owner does not meet the requirements of section 1504(a)(2), such direct acquisition shall be treated as a transaction in which gain or loss was recognized. Thus, these proposed regulations apply section 355(b)(2)(C) to multi-step acquisitions in the same manner regardless of whether the separate steps result in the target corporation becoming a subsidiary SAG member or result in a direct acquisition of the target corporation’s assets.

For example, assume that in year 1, D does not conduct an active trade or business, and has owned control of C for more than five years. C and T, an unrelated corporation, have each engaged in the active conduct of a trade or business for more than five years. In year 1, D acquires 10 percent of T’s sole outstanding class of stock in a transaction in which gain or loss was recognized. Thus, these proposed regulations also provide that the principles of this rule will be applied with respect to an indirect acquisition by the SAG of stock of a corporation that becomes a SAG member.

E. Expansion Acquisitions

The legislative history, the courts, and the current regulations acknowledge that
a trade or business can undergo many changes during the pre-distribution period and still satisfy the requirements of section 355(b). See H.R. No. 83–2543, at 37, 38 (1954) (Conf. Rep.); Estate of Lockwood v. Commissioner, 350 F.2d 712 (8th Cir. 1965); and §1.355–3(b)(3)(ii). Furthermore, §1.355–3(b)(3)(ii) provides “if a corporation engaged in the active conduct of one trade or business during that five-year period purchased, created, or otherwise acquired another trade or business in the same line of business, then the acquisition of that other business is ordinarily treated as an expansion of the original business, all of which is treated as having been actively conducted during that five-year period, unless that purchase, creation, or other acquisition effects a change of such a character as to constitute the acquisition of a new or different business.” Therefore, an acquired trade or business that is an expansion of the original trade or business inherits the business history of the expanded business.

None of these authorities, however, addresses whether an existing trade or business can be expanded by acquiring the stock of a corporation engaged in a trade or business in the same line of business as the acquiror. Because the SAG rule causes a stock acquisition in which the acquired corporation becomes a subsidiary SAG member to be treated as an asset acquisition, a corporation engaged in a trade or business should be able to expand its existing trade or business by acquiring stock of a corporation (including controlled) engaged in a trade or business in the same line of business provided the acquisition results in the acquired corporation becoming a subsidiary SAG member.

On the other hand, section 355(b)(3) does not allow a corporation to rely on the trade or business of a non-SAG subsidiary — even if the corporation controls the subsidiary — to satisfy the active trade or business requirement. As such, it effectively precludes stock expansions where the acquired corporation does not become a subsidiary SAG member. The IRS and Treasury Department believe that section 355(b)(3) is the exclusive means by which a corporation is attributed the assets (or activities) owned (or conducted) by another corporation. Accordingly, a stock acquisition that does not result in the acquired corporation becoming a subsidiary SAG member should not be an expansion of the SAG’s original business.

In addition, these proposed regulations provide certain facts and circumstances to be considered in determining whether one trade or business is in the same line of business as another trade or business. The inclusion of these facts and circumstances in these proposed regulations is not intended to be a substantive change, but merely to clarify and restate the current law regarding expansions. See Rev. Rul. 2003–18, 2003–1 C.B. 467, and Rev. Rul. 2003–38, 2003–1 C.B. 811. Some of the examples from the current regulations have been altered in these proposed regulations to reflect this inclusion (as well as certain stylistic changes).

F. Rules Related to Hot Stock

Section 355(a)(3)(B) provides that stock of controlled acquired by distributing during the pre-distribution period in a transaction in which gain or loss is recognized is treated as boot. Section 1.355–2(g) provides guidance regarding the application of section 355(a)(3)(B). The IRS and Treasury Department request comments regarding whether §1.355–2(g) should be amended to adopt rules under section 355(a)(3)(B) similar to those provided in these proposed regulations for determining whether an acquisition is one in which gain or loss is recognized for purposes of section 355(b)(2)(C) or (D).

In particular, the IRS and Treasury Department request comments concerning the application of section 355(a)(3)(B) to acquisitions of stock of controlled in gain or loss transactions that, under these proposed regulations, are not treated as violating the requirements of section 355(b).

For example, where distributing acquires stock of controlled in a gain or loss transaction that is treated as an expansion of distributing’s existing trade or business (because controlled is in distributing’s line of business and becomes a DSAG member), what portion, if any, of the acquired stock should be subject to section 355(a)(3)(B)?

The current authorities may suggest a linkage between the interpretation of sections 355(a)(3)(B) and 355(b). See §1.355–2(g)(1) (not applying section 355(a)(3)(B) to a taxable acquisition from an affiliate); Rev. Rul. 78–442 (stating “[l]ikewise, for the same reasons [that section 355(b)(2)(C) does not apply], section 355(a)(3)(B)[ of the Code is not applicable”).

Section 355(b)(3) by its literal terms does not appear to apply for purposes section 355(a)(3)(B).

The IRS and Treasury Department continue to study how to coordinate the application of these provisions and request comments in this regard. Accordingly, these proposed regulations contain no proposal to change §1.355–2(g) at this time.

G. Limited Affiliate Exception

Other than with respect to transfers of assets (or activities) that are owned (or performed) by the SAG immediately before and immediately after the transfer, these proposed regulations do not include the special treatment accorded affiliated group members in §1.355–3(b)(4)(iii).

Thus, these proposed regulations treat non-SAG member affiliates of distributing or controlled in the same manner as unrelated persons for purposes of applying section 355(b)(2)(C) and (D). While distributing is the common parent of its SAG, distributing may be a subsidiary member of a larger affiliated group. Therefore, not all members of distributing’s affiliated group are DSAG members.

Section 1.355–3(b)(4)(iii) provides that acquisitions by one member of an affiliated group from another member of the group are disregarded in applying section 355(b)(2)(C) and (D), even if gain or loss is recognized. Section 1.355–3(b)(4)(iii) provides for this treatment for affiliates because although “[t]he requirements of section 355(b)(2)(C) and (D) are intended to prevent the direct or indirect acquisition of a trade or business by a corporation in anticipation of a distribution by the corporation of that trade or business in a distribution to which section 355 would otherwise apply[,]” acquisitions from affiliates are not the type of transaction to which these provisions were intended to apply. Section 1.355–3(b)(4)(iv) defines the term “affiliated group” as an affiliated group as defined in section 1504(a) (without regard to section 1504(b)), except that the term “stock” includes nonvoting stock described in section 1504(a)(4).

The IRS and Treasury Department believe that limiting this special treatment to transfers in which the assets (or activi-
ties) remain in the SAG (as opposed to the larger affiliated group) is more consistent with the purposes of section 355(b)(3). As discussed in section A.1. of this preamble, section 355(b)(3) states, in effect, that in determining whether distributing or controlled is engaged in a trade or business all DSAG or CSAG members, as the case may be, are treated as one corporation. Therefore, a transfer of trade or business assets (or activities) from one SAG member to another SAG member is disregarded, and is not an acquisition for purposes of section 355(b)(2)(C) (or section 355(b)(2)(D) in the case of stock of controlled that is not a DSAG member). The SAG rule implies a corollary, which is that if the trade or business assets (or activities) are not owned (or performed) by the SAG, such assets (or activities) should generally not be able to be acquired from outside the SAG in a transaction in which gain or loss is recognized. Thus, these proposed regulations generally do not permit taxable acquisitions of an active trade or business from outside the SAG.

The IRS and Treasury Department recognize that not providing this special treatment for non-SAG member affiliates is a change from how the law has been administered in various situations. Further, the IRS and Treasury Department recognize that this change can represent a relaxing or tightening of the law in this area, depending upon the circumstances. For example, under these proposed regulations the requirements of section 355(b)(2)(C) are satisfied where P, a higher-tier affiliate of distributing, purchases a trade or business for cash and contributes it to distributing solely in exchange for distributing stock in a transaction in which no gain or loss is recognized. On the other hand, under these proposed regulations, the requirements of section 355(b)(2)(C) are not satisfied where P has actively conducted a trade or business for more than five years and sells it to D in exchange for cash.

H. Activities Performed by Certain Related Parties

Current §1.355–3(b)(2)(iii) provides, in part, that to satisfy the active trade or business requirement, the corporation itself generally is required to perform active and substantial management and operational functions. That regulation further provides that activities performed by the corporation itself generally do not include activities performed by independent contractors. In this regard, “a corporation must engage in entrepreneurial endeavors of such a nature and to such an extent as to qualitatively distinguish its operations from mere investments [. and] there should be objective indicia of such corporate operations.” Rafferty v. Commissioner, 452 F.2d 767, 772 (1st Cir. 1971) cert. denied 408 US 922 (1972) (concluding that a corporation that did not pay salaries or rent, did not employ independent contractors, and merely collected rent, paid taxes, and kept separate books, failed to satisfy these requirements). The IRS and Treasury Department believe that a corporation may rely on the activities performed by certain related parties in conducting its “entrepreneurial endeavors,” and such activities can constitute “objective indicia” of corporate operations.

While section 355(b)(3) treats all SAG members as one corporation, the IRS and Treasury Department are aware that affiliated groups of corporations that include non-SAG member affiliates might use employees of one member of the group to perform management or operational functions for another member of the group. The IRS and the Treasury Department believe that a corporation can satisfy the active trade or business requirement even if all the management and operational functions are performed by employees of affiliates. Accordingly, these proposed regulations provide that, in determining whether a corporation is engaged in the active conduct of a trade or business, activities (including management and operational functions) performed by employees of the corporation’s affiliates (including non-SAG members) are taken into account. Furthermore, the IRS and Treasury Department believe that a corporation can satisfy the active trade or business requirement even if all the management and operational functions are performed by shareholders of the corporation if it is closely held. The shareholders of closely held corporations possess a close relationship with the corporation, similar to employees of affiliates. Accordingly, these proposed regulations provide that, in determining whether a corporation is engaged in the active conduct of a trade or business, activities (including management and operational functions) performed by shareholders of a closely held corporation are taken into account in certain cases.

The IRS and Treasury Department do not believe that the absence of an exception for acquisitions from non-SAG member affiliates is inconsistent with concluding that a corporation can satisfy the active trade or business requirement by relying on the management and operational functions performed by employees of non-SAG member affiliates. Relying on the activities of such employees does not involve the acquisition of a trade or business. As such, it is not the type of transaction or arrangement section 355(b)(2) was intended to address. Accordingly, the IRS and Treasury Department believe it is appropriate to apply a broader standard with respect to relying on employees of non-SAG member affiliates.

While it is appropriate to consider the management and operational activities of employees of all affiliates in determining whether a corporation satisfies the active trade or business requirement even though all of the operational activities of its business are conducted by an affiliate’s employees before the distribution. The IRS and Treasury Department believe that extending the principles of Rev. Rul. 79–394 and Rev. Rul. 80–181 to the performance of management (in addition to operational) functions by employees of an affiliate is consistent with the purposes underlying the active trade or business requirement. Accordingly, these proposed regulations provide that, in determining whether a corporation is engaged in the active conduct of a trade or business, activities (including management and operational functions) performed by employees of the corporation’s affiliates (including non-SAG members) are taken into account.
trade or business requirement, the IRS and Treasury Department believe that a corporation should satisfy the active trade or business requirement only if it (or another SAG member, or a partnership from which the trade or business assets and activities are attributed) is the principal owner of the goodwill and significant assets of the trade or business for Federal income tax purposes. Accordingly, a corporation will be treated as engaged in the active conduct of a trade or business only if, for Federal income tax purposes, it (or its SAG member, or a partnership from which the trade or business assets and activities are attributed) is the principal owner of the goodwill and significant assets of the trade or business. Accordingly, some of the examples from the current regulations have been altered in these proposed regulations to reflect this goodwill and significant asset standard (as well as certain stylistic changes).

I. Activities Conducted by a Partnership

Revenue Ruling 92–17, 1992–1 C.B. 142, and Rev. Rul. 2002–49, 2002–2 C.B. 288, address in a number of fact situations whether a corporation that is a partner in a partnership can satisfy the active trade or business requirement by reason of its ownership of the partnership interest where the partnership conducts a trade or business. Those rulings illustrate that a corporation owning a 20-percent interest in a state law partnership or limited liability company (LLC) that is classified as a partnership for Federal income tax purposes can be treated as engaged in the active conduct of the trade or business of the partnership if the corporation performs active and substantial management functions for the partnership’s business. In addition, Rev. Rul. 2002–49 concludes that such a corporation can be treated as engaged in the active conduct of a partnership’s trade or business, even if another partner also performs active and substantial management functions for the partnership’s trade or business.

Consistent with the principles set forth in Rev. Rul. 92–17 and Rev. Rul. 2002–49 regarding satisfying the active trade or business requirement through an interest in a partnership, these proposed regulations provide that for purposes of section 355(b) a partner will be attributed the trade or business assets and activities of a partnership if the partner (1) performs active and substantial management functions for the partnership with respect to the trade or business assets or activities (for example, makes decisions regarding significant business issues of the partnership and regularly participates in the overall supervision, direction, and control of the employees performing the operational functions for the partnership), and (2) owns a meaningful interest in the partnership. Further, because a partnership might only conduct a portion of a trade or business, the IRS and Treasury Department believe that a partner that satisfies these requirements can be attributed the portions of a trade or business (or assets and activities) that are conducted by a partnership. Under these circumstances the IRS and Treasury Department believe that it is appropriate to aggregate the partnership’s trade or business assets and activities with those of the partner for purposes of determining whether the partner satisfies the active trade or business requirement. However, the stock of a corporation held by the partnership is not attributed to a partner.

The IRS and Treasury Department understand that the facts presented in Rev. Rul. 92–17 and Rev. Rul. 2002–49 do not necessarily reflect the exclusive methods by which corporations engage in a trade or business through a partnership. In particular, the IRS and Treasury Department understand that both the management and operational activities of an LLC are often conducted by the LLC itself, rather than by its members, to protect its members from liability for the LLC’s activities. In these cases, Rev. Rul. 92–17 and Rev. Rul. 2002–49 do not explicitly support the conclusion that a corporation may rely on the trade or business assets and activities of an LLC to satisfy the active trade or business requirement, since no activities are performed by the corporate partner.

The IRS and Treasury Department believe that, in certain cases, a partner that owns a significant interest in an entity that is treated as a partnership for Federal income tax purposes should be attributed the trade or business assets and activities of a partnership, even if the partner does not directly conduct any activities relating to the business of the partnership. By comparison, the IRS and Treasury Department have promulgated regulations regarding the treatment of acquired assets held by a partnership for purposes of satisfying the continuity of business enterprise requirement applicable to reorganizations. Those regulations provide that a partner will be treated as owning the acquired target business assets used in the business of a partnership in satisfaction of the continuity of business enterprise requirement if the members of the qualified group, in the aggregate, own an interest in the partnership representing a significant interest in that partnership business. See §1.368–1(d)(4)(iii)(B)(1). Those regulations include an example concluding that the continuity of business enterprise requirement is satisfied where a partner owns a one-third interest in a partnership that continues the business of the target corporation, even though the partner performs no management or operational functions for that business. See §1.368–1(d)(5) Example 9.

These proposed regulations yield results similar to the continuity of business enterprise rule in determining whether the active trade or business requirement is satisfied when a corporation conducts a trade or business or portions of a trade or business through a partnership but does not participate in the partnership’s activities. Specifically, these proposed regulations provide that for purposes of section 355(b) a partner will be attributed the trade or business assets and activities of a partnership provided the partner owns a significant interest in the partnership. The IRS and Treasury Department intend that the term “significant interest” requires an ownership interest that is greater than that suggested by the term “meaningful interest,” which is the level of ownership required for a partner to be attributed the trade or business assets and activities of a partnership in cases where the partner performs active and substantial management functions for the partnership.

However, a partner will be attributed the trade or business assets and activities of a partnership only during the period it owns a significant interest or alternatively owns a meaningful interest and performs active and substantial management functions.
The IRS and Treasury Department request comments regarding whether the regulations should include a rule that would treat an acquisition in which no gain or loss is recognized as an acquisition in which gain or loss is recognized if that would be the treatment had the transaction been executed in the opposite direction. For example, assume that, in year 1, P, a corporation not engaged in an active trade or business, acquires 50 percent of all of the outstanding stock of D (which is engaged in an active trade or business, and owns control of C, which is also engaged in an active trade or business) in a transaction in which gain or loss is recognized, and then, in a separate transaction in year 3, D merges into P solely in exchange for P stock in a transaction described in section 368(a)(1)(A) in which no gain or loss is recognized. P then distributes the C stock to its shareholders in year 4. Under these proposed regulations, P is treated as having acquired D’s trade or business and control of C during the pre-distribution period in a transaction in which gain or loss is recognized because P acquired more than 20 percent of D’s stock during the pre-distribution period in a transaction in which gain or loss was recognized (see sections D.1.b. and D.2.c. of this preamble). However, if P merges downstream into D solely in exchange for D stock in a reorganization described in section 368(a)(1)(A) and (D) in which no gain or loss is recognized, there literally is not an acquisition in which gain or loss is recognized under these proposed regulations, because D did not acquire any interest in an active trade or business from P. Comments are requested regarding whether the result should differ depending upon the direction of the merger. See and compare §1.355–3(b)(4)(ii) (predecessor of distributing acquiring control of distributing).

Further, the IRS and Treasury Department request comments regarding the appropriate methods of measuring indirect acquisitions of stock for purposes of the rules regarding multi-step acquisitions, as discussed in section D. of this preamble. Specifically, comments are requested regarding how the indirect acquisition should be measured where the acquired corporation has multiple classes of stock outstanding, or where the acquired entity is a partnership. For example, assume T is a corporation that owns all of the stock of a subsidiary, S, and T has class A common stock, class B common stock, and preferred stock outstanding. If D acquires 10 percent of the T class A common stock, how should one determine what percentage of S stock D has indirectly acquired? Should it be based on the value of the T stock D acquired relative to the value of all of the T stock or other factors? How should the voting power of the acquired T stock be taken into account in applying these rules to potential indirect acquisitions of control?

In addition, the IRS and Treasury Department request comments regarding whether the parameters of the good faith and inadvertence exceptions in Notice 2004–37, 2004–1 C.B. 947, regarding the value requirement in section 1504(a)(2)(B) should apply for purposes of determining whether corporations are SAG members even if they are not members of a consolidated group. That is, the IRS and Treasury Department request comments regarding whether the policies underlying the SAG rule and the reference to section 1504(a) in section 355(b)(3)(B) suggest that the good faith and inadvertence exceptions should apply and be interpreted in the same way for SAG membership as for affiliation for purposes of filing consolidated returns.

The IRS and Treasury Department also request comments regarding whether the regulations should clarify the circumstances under which the separation of a segment of an active trade or business should be treated as a separate active trade or business after it is spun off and, if so, what the governing principle should be. See, for example, §1.355–3(c) Example 9 (separation of a corporation’s research department from the rest of its manufacturing business).

Although these regulations are generally proposed to be applicable to distributions that occur after the date these regulations are published as final regulations in the Federal Register, the IRS and Treasury Department invite comments regarding whether it would be appropriate and desirable to allow taxpayers to elect to apply these provisions retroactively (subject to the applicability of section 355(b)(3)).

Proposed Effective Date

These proposed regulations are proposed to apply to distributions that occur after the date these regulations are published as final regulations in the Federal Register.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and, because these regulations do not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f) of the Code, these regulations have been submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small businesses.

Comments and Requests for Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any written (a signed original and eight (8) copies) or electronic comments that are submitted timely to the IRS. The IRS and Treasury Department request comments on the clarity of the proposed rules and how they can be made easier to understand. All comments will be available for public inspection and copying. A public hearing will be scheduled if requested in writing by any person that timely submits written comments. If a public hearing is scheduled, notice of the date, time, and place for the public hearing will be published in the Federal Register.

Drafting Information

The principal author of these proposed regulations is Russell P. Subin of the Office of Associate Chief Counsel (Corporate). However, other personnel from the IRS and Treasury Department participated in their development.
Availability of IRS Documents

IRS revenue rulings, procedures, and notices cited in this preamble are made available by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

Proposed Amendments to the Regulations

Accordingly, 26 CFR part 1 is proposed to be amended as follows:

PART 1—INCOME TAXES

Paragraph 1. The authority citation for part 1 continues to read in part as follows:

Authority: 26 U.S.C. 7805 * * *

Par. 2. Section 1.355–0 is amended by revising the entries under §1.355–3.

The revisions are as follows:

§1.355–0 Outline of sections.

* * * * *

§1.355–3 Active conduct of a trade or business.

(a) General requirements.

(b) Active conduct of a trade or business defined.

(1) In general.

(ii) Directly engaged in a trade or business.

(ii) Treatment of a separate affiliated group.

(iii) Separate affiliated group defined.

(2) Active conduct of a trade or business immediately after the distribution.

(i) In general.

(ii) Trade or business.

(iii) Active conduct.

(iv) Limitations.

(v) Partner attributed the trade or business assets and activities of a partnership.

(A) In general.

(B) Significant interest.

(C) Meaningful interest.

(D) Other factors.

(3) Active conduct for the pre-distribution period.

(i) In general.

(ii) Change and expansion.

(iii) Certain transactions with partnerships that do not constitute acquisitions.

(4) Special rules for an acquisition of a trade or business.

(i) In general.

(A) Application of section 355(b)(2)(C).

(B) Application of section 355(b)(2)(D).

(C) Gain or loss recognized.

(ii) Certain transactions treated as transactions in which gain or loss is recognized.

(A) Certain tax-free acquisitions made in exchange for assets.

(B) Distributions from partnerships.

(iii) Certain transactions in which recognized gain or loss is disregarded.

(A) Transfers to controlled.

(B) Cash for fractional shares.

(C) Certain acquisitions of control of distributing.

(iv) Operating rules for acquisitions.

(A) Predecessors.

(B) Certain multi-step acquisitions of control of distributing or controlled.

(C) Certain multi-step acquisitions of a subsidiary SAG member.

(D) Certain multi-step asset acquisitions.

(E) Acquisitions involving the issuance of subsidiary stock.

(F) Acquisitions of controlled stock where controlled is or becomes a DSAG member.

(G) Treatment of stock received in certain tax-free exchanges.

(H) Situations where the separate existence of a subsidiary SAG member is respected.

(c) Definitions.

(1) Affiliate.

(2) Controlled.

(3) Distribution.

(4) Pre-distribution period.

(d) Conventions and examples.

(1) Conventions.

(2) Examples.

* * * * *

Par. 3. Section 1.355–1 is amended by revising paragraph (a) to read as follows:

§1.355–1 Distribution of stock and securities of a controlled corporation.

(a) Effective date of certain sections.

Except as otherwise provided, §§1.355–1, 1.355–2, and 1.355–4 apply to transactions occurring after February 6, 1989. Section 1.355–3 applies to distributions after the date these regulations are published as final regulations in the Federal Register. For transactions occurring on or before that date but after February 6, 1989, see 26 CFR 1.355–3 (revised as of April 1, 2007). For all transactions occurring on or before February 6, 1989, see 26 CFR 1.355–1 through 1.355–4 (revised as of April 1, 1987). Sections 1.355–1, 1.355–2, and 1.355–4 do not reflect the amendments to section 355 made by the Revenue Act of 1987 and the Technical and Miscellaneous Revenue Act of 1988. For the effective date of §§1.355–6 and 1.355–7, see §§1.355–6(g) and 1.355–7(k), respectively.

* * * * *

Par. 4. Section 1.355–3 is revised to read as follows:

§1.355–3 Active conduct of a trade or business.

(a) General requirements. Under section 355(b)(1), a distribution of stock, or stock and securities, of controlled (as defined in paragraph (c)(2) of this section) qualifies under section 355 only if—

(1) Distributing (as defined in paragraph (c)(3) of this section) and controlled are each engaged in the active conduct of a trade or business immediately after the distribution (section 355(b)(1)(A)); or

(2) Immediately before the distribution, distributing had no other assets than stock or securities of the controlled corporations (without regard to paragraph (b)(1)(ii) of this section), and each of the controlled corporations is engaged in the active conduct of a trade or business immediately after the distribution (section 355(b)(1)(B)). A de minimis amount of assets held by distributing shall be disregarded for purposes of this paragraph (a)(2).

(b) Active conduct of a trade or business defined—(1) In general—(i) Directly engaged in a trade or business. Section 355(b)(2) provides rules for determining whether a corporation is treated as engaged in the active conduct of a trade or business under section 355(b)(1). Section 355(b)(2)(A) and (b)(3)(A) provides that a corporation is treated as engaged in the active conduct of a trade or business if and only if such corporation is engaged in the active conduct of a trade or business. Accordingly, except as provided in paragraph (b)(1)(ii) of this section, a corporation is not treated as engaged in the
active conduct of a trade or business under such Internal Revenue Code section solely as a result of substantially all of its assets consisting of stock, or stock and securities, of one or more corporations controlled by it (immediately after the distribution) each of which is engaged in the active conduct of a trade or business.

(ii) Treatment of a separate affiliated group. Under section 355(b)(3)(B), solely for purposes of determining whether a corporation is engaged in the active conduct of a trade or business, all members of a corporation’s separate affiliated group (SAG) (as defined in paragraph (b)(1)(iii) of this section) shall be treated as one corporation. This treatment applies for all purposes of determining whether a corporation is engaged in the active conduct of a trade or business. Accordingly, for this purpose, transfers of assets (or activities) that are owned (or performed) by the SAG immediately before and immediately after the transfer are disregarded and are not acquisitions under paragraph (b)(4) of this section. Further, a transaction that results in a corporation becoming a subsidiary SAG member (a SAG member that is not the common parent of such SAG) is treated as an acquisition of any assets (or activities) that are owned (or performed) by the acquired corporation at such time. Therefore, the acquisition of additional stock of a current subsidiary SAG member has no effect for purposes of applying paragraph (b)(4)(i)(A) of this section.

(iii) Separate affiliated group defined. A corporation’s SAG is the affiliated group which would be determined under section 1504(a) if such corporation were the common parent and section 1504(b) did not apply. Thus, the separate affiliated group of distributing (DSAG) is the affiliated group that consists of distributing as the common parent and all corporations affiliated with distributing through stock ownership described in section 1504(a)(1)(B) (regardless of whether the corporations are includible corporations under section 1504(b)). The separate affiliated group of controlled (CSAG) is determined in a similar manner (with controlled as the common parent). Accordingly, prior to a distribution, the DSAG may include CSAG members if the applicable ownership requirements are met. Further, the determination of whether a corporation is a DSAG or CSAG member shall be made separately for each distribution, and without regard to whether such corporation is a SAG member with respect to any other distribution. Any reference to DSAG or CSAG is a reference to distributing or controlled, respectively, if such corporation is not the common parent of a SAG (that is, such corporation does not own stock in any corporation that is a subsidiary member of its SAG). Further, any reference to a SAG is a reference to distributing or controlled, as the context may require, if such corporation is not the common parent of a SAG.

(2) Active conduct of a trade or business immediately after the distribution—(i) In general. For purposes of section 355(b), a corporation shall be treated as engaged in the active conduct of a trade or business immediately after the distribution if the assets and activities of the corporation satisfy the requirements and limitations described in paragraphs (b)(2)(ii), (b)(2)(iii), and (b)(2)(iv) of this section. See paragraph (b)(2)(v) of this section for additional special rules that apply to determine whether a corporation is attributed the trade or business assets and activities of a partnership.

(ii) Trade or business. A corporation shall be treated as engaged in a trade or business immediately after the distribution if a specific group of activities is being carried on by the corporation for the purpose of earning income or profit, and the activities included in such group include every operation that forms a part of, or a step in, the process of earning income or profit. Such group of activities ordinarily must include the collection of income and the payment of expenses.

(iii) Active conduct. For purposes of section 355(b), the determination of whether a trade or business is actively conducted will be made from all of the facts and circumstances. Generally, the corporation is required itself to perform active and substantial management and operational functions. Activities performed by a corporation include activities performed by employees of an affiliate (as defined in paragraph (c)(1) of this section), and in certain cases by shareholders of a closely held corporation, if such activities are performed for the corporation. For example, activities performed by a corporation include activities performed for the corporation by its sole shareholder. However, the activities of employees of affiliates (or, in certain cases, shareholders) are only taken into account during the period such corporations are affiliates (or persons are shareholders) of the corporation. A corporation will not be treated as engaged in the active conduct of a trade or business unless it (or its SAG, or a partnership from which the trade or business assets and activities are attributed) is the principal owner of the goodwill and significant assets of the trade or business for Federal income tax purposes. Activities performed by a corporation generally do not include activities performed by persons outside the corporation, including independent contractors, unless those activities are performed by employees of an affiliate (or, in certain cases, shareholders). However, a corporation may satisfy the requirements of this paragraph (b)(2)(iii) through the activities that it performs itself, even though some of its activities are performed by persons that are not its employees, or employees of an affiliate (or, in certain cases, shareholders). Separations of real property all or substantially all of which is occupied before the distribution by the DSAG or CSAG will be carefully scrutinized in applying the requirements of section 355(b) and this section.

(iv) Limitations. The active conduct of a trade or business does not include—

(A) The holding for investment purposes of stock, securities, land, or other property; or

(B) The ownership and operation (including leasing) of real or personal property used in a trade or business, unless the owner performs significant services with respect to the operation and management of the property.

(v) Partner attributed the trade or business assets and activities of a partnership—(A) In general. For purposes of section 355(b), a partner in a partnership will be attributed the trade or business assets and activities of that partnership during the period that such partner satisfies the requirements of paragraph (b)(2)(v)(B) or (b)(2)(v)(C) of this section. However, for purposes of this paragraph (b)(2)(v), the stock of a corporation owned by the partnership is not attributed to a partner. For purposes of determining the activities that are conducted by the partnership that may be attributed to the partner under this paragraph (b)(2)(v), the activities of indepen-
dent contractors, and partners that are not affiliates (or, in certain cases, shareholders) of the partner, are not taken into account. For this purpose, the activities of partners that are affiliates (or, in certain cases, shareholders) of the partner are only taken into account during the period that such partners are affiliates (or, in certain cases, shareholders) of the partner.

(B) Significant interest. The trade or business assets and activities of a partnership will be attributed to a partner if the partner (or its SAG) directly (or indirectly through one or more other partnerships) owns a significant interest in the partnership.

(C) Meaningful interest. The trade or business assets and activities of a partnership will be attributed to a partner if the partner or affiliates (or, in certain cases, shareholders) of the partner performs active and substantial management functions for the partnership with respect to the trade or business assets and activities (for example, makes decisions regarding significant business issues of the partnership and regularly participates in the overall supervision, direction, and control of the employees performing the operational functions for the partnership), and the partner (or its SAG) directly (or indirectly through one or more other partnerships) owns a meaningful interest in the partnership. Whether such active and substantial management functions are performed with respect to the trade or business assets and activities of the partnership will be determined from all of the facts and circumstances. The number of partners providing management functions will not be determinative.

(D) Other factors. In deciding whether the requirements of paragraph (b)(2)(v)(B) or (b)(2)(v)(C) of this section are satisfied, the formal description of the partnership interest (for example, general or limited) will not be determinative and the extent to which the partner is responsible for liabilities of the partnership will not be relevant.

(3) Active conduct for the pre-distribution period—(i) In general. Under section 355(b)(2), a trade or business that is relied upon to meet the requirements of section 355(b) must have been actively conducted throughout the pre-distribution period (as defined in paragraph (c)(4) of this section) by the DSAG or CSAG, or actively conducted throughout the pre-distribution period and acquired during such period by the DSAG or CSAG in a transaction in which no gain or loss is recognized as provided in paragraph (b)(4) of this section. For purposes of section 355(b)(2)(B), activities that constitute a trade or business under paragraph (b)(2) of this section shall be treated as described in the preceding sentence if such activities were actively conducted throughout the pre-distribution period.

(ii) Change and expansion. The fact that a trade or business underwent change during the pre-distribution period (for example, by the addition of new or the dropping of old products, changes in production capacity, and the like) shall be disregarded, provided that the changes are not of such a character as to constitute the acquisition of a new or different business. In particular, if a SAG engaged in the active conduct of one trade or business during the pre-distribution period (the original business) purchased, created, or otherwise acquired (either directly, through an interest in a partnership, or as a result of a corporation becoming a subsidiary SAG member) another trade or business (the acquired business) in the same line of business, the acquisition of the acquired business is ordinarily treated as an expansion of the original business, all of which is treated as having been actively conducted by the acquiring SAG during the pre-distribution period, unless the acquired business effects a change of such a character as to constitute the acquisition of a new or different business. For purposes of this paragraph (b)(3)(ii), in determining whether an acquired business is in the same line of business as the original business, all facts and circumstances shall be considered, including the following—

(A) Whether the product of the acquired business is similar to that of the original business;

(B) Whether the business activities associated with the operation of the acquired business are the same as the business activities associated with the operation of the original business; and

(C) Whether the operation of the acquired business involves the use of the experience and know-how that the owner of the original business developed in the operation of the original business or, alternatively, whether the operation of the acquired business draws to a significant extent on the existing experience and know-how of the owner of the original business and the success of the acquired business will depend in large measure on the goodwill associated with the original business and the name of the original business.

(iii) Certain transactions with partnerships that do not constitute acquisitions. If a partner is attributed the trade or business assets and activities of a partnership under paragraph (b)(2)(v) of this section, the partner’s acquisition of such trade or business assets and activities from the partnership is not, in and of itself, the acquisition of a new or different trade or business. In addition, if a partner transfers to a partnership trade or business assets and activities that the partner actively conducted immediately before the transfer and, immediately after the transfer, the partner is attributed the trade or business assets and activities of the partnership under paragraph (b)(2)(v) of this section, such transfer is not, in and of itself, the acquisition of a new or different trade or business by the transferor partner.

(4) Special rules for an acquisition of a trade or business—(A) Application of section 355(b)(2)(C). Under section 355(b)(2)(C) and (b)(3), a trade or business or an interest in a partnership engaged in a trade or business relied on to meet the requirements of section 355(b) must not have been acquired by either the DSAG or CSAG during the pre-distribution period unless it was acquired in a transaction in which no gain or loss was recognized. Further, a trade or business must not have been acquired by either the DSAG or CSAG during the pre-distribution period as a result of a corporation becoming a subsidiary SAG member unless such corporation became a subsidiary SAG member as a result of one or more transactions in which no gain or loss was recognized or by reason of such transactions combined with acquisitions before the pre-distribution period. This paragraph (b)(4)(i)(A) also applies with respect to any acquisition during the pre-distribution period of a trade or business, an interest in a partnership engaged in a trade or business, or stock of a corporation engaged in a trade or business by a corporation that later becomes a subsidiary SAG member. See paragraphs (b)(4)(iv)(C) and (b)(4)(iv)(D) of this section regarding the application of this paragraph (b)(4)(i)(A) to certain multi-step acquisitions.
Application of section 355(b)(2)(D). Under section 355(b)(2)(D), control of distributing must not have been acquired (at the time it was conducting the trade or business to be relied on) directly or indirectly by any distributee corporation, and control of controlled must not have been acquired (at the time it was conducting the trade or business to be relied on) directly or indirectly by the DSAG, during the pre-distribution period in one or more transactions in which gain or loss was recognized. This paragraph (b)(4)(i)(B) also applies with respect to any acquisition of stock of controlled during the pre-distribution period by a corporation that later becomes a DSAG member. For purposes of this paragraph (b)(4)(i)(B), and paragraphs (b)(4)(iii)(C) and (b)(4)(iv)(B) of this section, all distributee corporations that are affiliates shall be treated as one distributee corporation. This paragraph (b)(4)(i)(B) does not apply with respect to an acquisition of stock of any corporation other than distributing or controlled. See paragraph (b)(4)(iv)(B) of this section regarding the application of this paragraph (b)(4)(i)(B) to certain multi-step acquisitions of control. Further, see paragraph (b)(4)(iv)(F) of this section regarding certain acquisitions of stock in controlled to which paragraph (b)(4)(i)(A) of this section (and not this paragraph (b)(4)(i)(B)) applies.

Gain or loss recognized. Any reference to gain or loss recognized includes gain or loss treated as recognized under paragraphs (b)(4)(ii) or (b)(4)(iv) of this section.

Certain transactions treated as transactions in which gain or loss is recognized. The common purpose of section 355(b)(2)(C) and (D) is to prevent the direct or indirect acquisition of the trade or business to be relied on by a corporation in exchange for assets in anticipation of a distribution to which section 355 would otherwise apply. Generally, if a DSAG member or controlled acquires the trade or business solely in exchange for distributing stock, distributing acquires control of controlled solely in exchange for distributing stock, or controlled acquires the trade or business from distributing solely in exchange for stock of controlled, in a transaction in which no gain or loss was recognized, the requirements of section 355(b)(2)(C) and (D) are satisfied. On the other hand, if the trade or business is acquired in exchange for assets of distributing (other than stock of a corporation in control of distributing used in a reorganization) the requirements of section 355(b)(2)(C) and (D) are generally not satisfied. For example, acquisitions by controlled (while controlled by distributing) from an unrelated party made in exchange for controlled stock have the effect of an indirect acquisition by distributing in exchange for distributing’s assets. Such acquisitions violate the purpose of section 355(b)(2)(C) even if no gain or loss is recognized. Therefore, as provided in paragraphs (b)(4)(ii)(A) and (b)(4)(ii)(B) of this section, if the DSAG or CSAG acquires a trade or business, an interest in a partnership engaged in a trade or business, or stock of a corporation engaged in a trade or business in exchange for assets of the DSAG in a transaction in which no gain or loss is recognized, for purposes of paragraph (b)(4)(i) of this section such acquisition will be treated as one in which gain or loss is recognized. A Certain tax-free acquisitions made in exchange for assets. An acquisition paid for in whole or in part, directly or indirectly, with assets of the DSAG will be treated as an acquisition in which gain or loss is recognized even if no gain or loss is actually recognized. Acquisitions described in this paragraph (b)(4)(i)(A) include for example, a transaction in which the DSAG or CSAG acquires stock of a corporation engaged in the trade or business to be relied on by transferring assets not constituting the trade or business to be relied on to such corporation in exchange for stock of such corporation, the DSAG or CSAG acquires an interest in a partnership engaged in the trade or business to be relied on by contributing assets not constituting the trade or business to be relied on in such partnership in exchange for assets of the partnership, the DSAG or CSAG acquires stock of a corporation engaged in the trade or business in an exchange to which section 304(a)(1) applies, or distributing acquires a trade or business in exchange for its stock and assets in a transaction in which no loss is recognized by virtue of section 351(b). See also paragraph (b)(4)(iv)(E) of this section regarding the extent to which an acquisition involving the issuance of subsidiary stock constitutes an acquisition paid for with assets. However, the assumption by the DSAG or CSAG of liabilities of a transferee shall not, in and of itself, be treated as the payment of assets if such assumption is not treated as the payment of money or other property under any other applicable provision. In addition, an acquisition in which no gain or loss is recognized consisting of a pro rata distribution to which section 355 applies (to the extent the stock with respect to which the distribution is made was not acquired during the pre-distribution period in a transaction in which gain or loss was recognized), a distribution from a partnership that is explicitly excluded from paragraph (b)(4)(ii)(B) of this section, a reorganization described in section 368(a)(1)(E) or (F), and an exchange to which section 1036 applies, are not acquisitions described in this paragraph (b)(4)(ii)(A).

(B) Distributions from partnerships. An acquisition consisting of a distribution from a partnership is generally an acquisition paid for with assets of the DSAG, and will be treated as an acquisition in which gain or loss is recognized even if no gain or loss is actually recognized. However, an acquisition consisting of a pro rata distribution from a partnership of stock or an interest in lower-tier partnership is not an acquisition described in this paragraph (b)(4)(ii)(B) (and consequently not described in paragraph (b)(4)(ii)(A) of this section) to the extent the distributee partner did not acquire the interest in the distributing partnership during the pre-distribution period in a transaction in which gain or loss was recognized and to the extent the distributing partnership did not acquire the distributed stock or partnership interest within such period. This paragraph (b)(4)(ii)(B) (and consequently paragraph (b)(4)(ii)(A) of this section) does not apply to any partnership distribution to which paragraph (b)(3)(iii) of this section (regarding distributions from partnerships that are not, in and of themselves, the acquisition of a new or different trade or business) applies.

Certain transactions in which recognized gain or loss is disregarded. The common purpose of section 355(b)(2)(C) and (D) is to prevent the direct or indirect acquisition of the trade or business to be relied on by a corporation in exchange for assets in anticipation of a distribution to which section 355 would otherwise apply. An additional purpose of
section 355(b)(2)(D) is to prevent a distributee corporation from acquiring control of distributing in anticipation of a distribution to which section 355 would otherwise apply, enabling the disposition of controlled stock without recognizing the appropriate amount of gain. The acquisitions described in paragraphs (b)(4)(iii)(A) through (b)(4)(iii)(C) of this section are not the types of acquisitions to which section 355(b)(2)(C) or (D) is intended to apply. Therefore, for purposes of paragraph (b)(4)(i) of this section, the recognition of gain or loss is disregarded if a trade or business, an interest in a partnership engaged in a trade or business, or stock of a corporation engaged in a trade or business is acquired in a transaction described in any of paragraphs (b)(4)(iii)(A) through (b)(4)(iii)(C) of this section.

(A) Transfers to controlled. An acquisition by the CSAG from the DSAG provided the DSAG controls immediately after the acquisition.

(B) Cash for fractional shares. An acquisition that would satisfy the requirements of paragraph (b)(4)(i) of this section but for the payment of cash to shareholders for fractional shares in the transaction, provided that the cash paid represents a mere rounding off of the fractional shares in the exchange and is not separately bargained for consideration.

(C) Certain acquisitions of control of distributing. A direct or indirect acquisition by a distributee corporation of control of distributing, in one or more transactions, where the basis of the acquired distributing stock in the hands of the distributee corporation is determined in whole by reference to the transferor’s basis. This paragraph (b)(4)(iii)(C) is only applicable with respect to a distribution by the acquired distributing, and does not apply for purposes of any subsequent distribution by any distributee corporation.

(iv) Operating rules for acquisitions—(A) Predecessors. References to a corporation shall include references to a predecessor of such corporation. For this purpose, a predecessor of a corporation is a corporation that transfers its assets to such corporation in a transaction to which section 381 applies.

(B) Certain multi-step acquisitions of control of distributing or controlled. A distributee corporation’s acquisition of stock in distributing or a DSAG’s acquisition of stock in controlled in one or more transactions in which gain or loss was recognized during the pre-distribution period will not prevent a distributee corporation’s acquisition of distributing stock or a DSAG’s acquisition of controlled stock constituting control of distributing or controlled in one or more separate transactions in which no gain or loss is recognized from satisfying the requirements of paragraph (b)(4)(i)(B) of this section, provided that, at the time control of distributing or controlled is first acquired, the acquiring distributee corporation owns an amount of distributing stock or the acquiring DSAG owns an amount of controlled stock, as the case may be, constituting control that was acquired in one or more transactions in which no gain or loss was recognized or by reason of such transactions combined with acquisitions before the pre-distribution period. The principles of this paragraph (b)(4)(iv)(B) will be applied with respect to an indirect acquisition of distributing or controlled stock.

(C) Certain multi-step acquisitions of a subsidiary SAG member. An acquisition of stock in a corporation (target) by a SAG in one or more transactions in which gain or loss was recognized during the pre-distribution period will not prevent a SAG’s acquisition of target stock resulting in target becoming a subsidiary SAG member in one or more separate transactions in which no gain or loss is recognized from satisfying the requirements of paragraph (b)(4)(i)(A) of this section, provided that, at the time that target first becomes a subsidiary SAG member, the SAG owns an amount of target stock meeting the requirements of section 1504(a)(2) that was acquired in one or more transactions in which no gain or loss was recognized or by reason of such transactions combined with acquisitions before the pre-distribution period. The principles of this paragraph (b)(4)(iv)(C) will be applied with respect to an indirect acquisition of target stock by the SAG.

(D) Certain multi-step asset acquisitions. Notwithstanding paragraph (b)(4)(i)(A) of this section, if immediately before a SAG’s direct acquisition of a trade or business (or an interest in a partnership engaged in a trade or business) held by a corporation (owner) in a transaction to which section 381 applies and in which no gain or loss is recognized, the SAG owns an amount of stock of the owner that it acquired in one or more transactions during the pre-distribution period in which gain or loss was recognized such that all of the other stock of the owner does not meet the requirements of section 1504(a)(2), such direct acquisition shall be treated as a transaction in which gain or loss was recognized. The principles of this paragraph (b)(4)(iv)(D) will be applied with respect to an indirect acquisition of the owner stock by the SAG.

(E) Acquisitions involving the issuance of subsidiary stock. If a SAG directly or indirectly owns stock of a subsidiary (including a subsidiary SAG member) and the subsidiary directly or indirectly acquires a trade or business, an interest in a partnership engaged in a trade or business, or stock of a corporation engaged in a trade or business from a person other than such SAG in exchange for stock of such subsidiary in a transaction in which no gain or loss is recognized (the acquisition), solely for purposes of applying this paragraph (b)(4) with respect to the trade or business, partnership interest, or stock acquired by the subsidiary in the acquisition, the subsidiary’s stock directly or indirectly owned by the SAG immediately after the acquisition is treated as acquired at the time of the acquisition in a transaction in which gain or loss is recognized.

(F) Acquisitions of controlled stock where controlled is or becomes a DSAG member. With respect to an acquisition of stock in controlled, if controlled is or becomes a DSAG member, paragraph (b)(4)(i)(A) of this section applies and paragraph (b)(4)(i)(B) of this section does not apply for purposes of determining whether the requirements of section 355(b) are satisfied with respect to controlled.

(G) Treatment of stock received in certain tax-free exchanges. Any stock received in a reorganization described in section 368(a)(1)(E) or (F), or in an exchange to which section 1036 applies, in which no gain or loss is recognized is treated as acquired in the same manner as the stock surrendered.

(H) Situations where the separate existence of a subsidiary SAG member is respected. The separate existence of a subsidiary SAG member will be respected for purposes of determining whether a transaction qualifies for nonrecognition treat-
(iv) Section 368(c) stock. Section 368(c) stock is stock constituting control within the meaning of section 368(c).

(v) Section 1504(a)(2) stock. Section 1504(a)(2) stock is stock meeting the requirements of section 1504(a)(2).

(2) Examples. Generally, Examples 1 and 2 illustrate the general requirements in paragraph (a) of this section. Examples 3 through 9 illustrate the SAG rules in paragraphs (b)(1)(ii) and (b)(1)(iii) of this section. Examples 10 through 25 illustrate the rules regarding the active trade or business and active conduct for the pre-distribution period in paragraphs (b)(2) and (b)(3) of this section. Examples 26 through 40 illustrate the acquisition rules in paragraphs (b)(4)(i) through (b)(4)(iii) of this section, and Examples 41 through 51 illustrate the operating rules for acquisitions in paragraph (b)(4)(iv) of this section. The examples are as follows:

Example 1. Spin-off. For more than five years, D and C have engaged in the active conduct of ATB1 and ATB2, respectively. D distributes the C stock to the D shareholders, and each corporation continues the active conduct of its respective trade or business. Because both D and C are engaged in the active conduct of a trade or business immediately after the distribution and such trades or businesses have been actively conducted by such corporations throughout the pre-distribution period, the requirements of section 355(b) have been satisfied. See paragraphs (a)(1) and (b)(3) of this section.

Example 2. Split-up. The facts are the same as Example 1 except that D transfers all of its assets (including ATB1) other than the C stock to new subsidiary S, and then distributes the C stock and S stock to the D shareholders. Because C and S are respectively engaged in the active conduct of ATB2 and ATB1 immediately after the distribution, ATB2 has been actively conducted by C throughout the pre-distribution period, and together D (prior to the transfer to S) and S (after the transfer to S) have actively conducted ATB1 throughout the pre-distribution period, the requirements of section 355(b) have been satisfied. See paragraphs (a)(2) and (b)(3) of this section.

Example 3. Subsidiary SAG member’s business. For more than five years, D has owned section 368(c) stock (as defined in paragraph (d)(1)(iv) of this section) but not section 1504(a)(2) stock (as defined in paragraph (d)(1)(v) of this section) of C. Furthermore, the following definitions apply:

(i) ATB. ATB is any active trade or business. ATB1 and ATB2 are not in the same line of business under paragraph (b)(3)(ii) of this section.

(ii) New subsidiary. A new subsidiary is a newly formed wholly owned corporation.

(iii) Purchase. A purchase is an acquisition for cash.

3 except that in year 6, D acquires the remaining S stock. D’s acquisition of the remaining S stock in year 6 has no effect for purposes of determining whether D satisfies the requirements of section 355(b)(2)(C) because the DSAG is already engaged in the active conduct of ATB2. See paragraph (b)(1)(ii) of this section. Section 355(b)(2)(D) does not apply to D’s acquisition of S stock. See paragraph (b)(4)(i)(B) of this section. Accordingly, D and C both satisfy the requirements of section 355(b).

Example 5. Segmented CSAG business. For more than five years, C has owned all of ATB2. Throughout this period, D has engaged in the active conduct of ATB1. Throughout this same period, S1, S2, and S3 have each engaged in a different essential segment of ATB2. While the three segments of ATB2 would together constitute the active conduct of a trade or business, none of S1, S2, or S3 would be considered engaged in the active conduct of an ATB individually. In year 6, D distributes the S stock to the D shareholders. C owns section 1504(a)(2) stock of S1, S2, and S3, therefore, C, S1, S2, and S3 are CSAG members. See paragraph (b)(1)(iii) of this section. C, S1, S2, and S3 are treated as one corporation for purposes of determining whether C is engaged in the active conduct of a trade or business. See paragraph (b)(1)(ii) of this section. Therefore, C is engaged in the active conduct of ATB2 both throughout the pre-distribution period and immediately after the distribution. Accordingly, D and C both satisfy the requirements of section 355(b).

Example 6. Segmented DSAG business. The facts are the same as Example 5 except that D owns all of the C stock and all of the S3 stock, and D transfers the S3 stock to C immediately prior to the distribution. Prior to D’s transfer of the S3 stock to C, D owns section 1504(a)(2) stock of S3 and C, and C owns section 1504(a)(2) stock of S1 and S2, therefore, D, C, S1, S2, and S3 are DSAG members. See paragraph (b)(1)(iii) of this section. D, C, S1, S2, and S3 are treated as one corporation for purposes of determining whether D and C are engaged in the active conduct of a trade or business, and accordingly the transfer of the S3 stock to C is disregarded. See paragraph (b)(1)(ii) of this section. After the transfer, C owns section 1504(a)(2) stock of S3, and the CSAG includes C, S1, S2, and S3. See paragraph (b)(1)(iii) of this section. C, S1, S2, and S3 are treated as one corporation for purposes of determining whether C is engaged in the active conduct of a trade or business. See paragraph (b)(1)(ii) of this section. Throughout the pre-distribution period, D, C, S1, S2, and S3 are treated as one corporation and both D and C are engaged in the active conduct of ATB1 and ATB2. See paragraphs (b)(1) and (b)(2) of this section. Immediately after the distribution, D is engaged in the active conduct of ATB1 and C is engaged in the active conduct of ATB2. Because D and C were engaged in the active conduct of ATB1 and ATB2 throughout the pre-distribution period and, immediately after the distribution, D is engaged in the active conduct of ATB1 and C is engaged in the active conduct of ATB2, D and C both satisfy the requirements of section 355(b).

Example 7. Failed segmented business. The facts are the same as Example 6 except that D owns section 368(c) stock but not section 1504(a)(2) stock of C. Prior to D’s transfer of the S3 stock, the DSAG includes only D and S3, and the CSAG includes only C, S1, and S2. See paragraph (b)(1)(iii) of this section.
Therefore, prior to the transfer of the S3 stock, ATB2 does not exist because no one SAG conducts all three of the essential segments of the trade or business. Accordingly, C does not satisfy the requirements of section 355(b) because ATB2 was not actively conducted throughout the pre-distribution period. See paragraph (b)(3)(i) of this section.

Example 8. Jointly owned partnership. For more than five years, D has owned all of the stock of C, and D and C each have owned a 17-percent interest in Partnership. Throughout this period, D and Partnership have engaged in the active conduct of ATB1 and ATB2, respectively. In year 6, D transfers its 17-percent interest in Partnership to C and distributes all of the C stock to the D shareholders. Because D owns section 1504(a)(2) stock of C, C is a DSAG member.

See paragraph (b)(1)(iii) of this section. D and C are treated as one corporation for purposes of determining whether D and C are engaged in the active conduct of a trade or business. See paragraph (b)(1)(ii) of this section. Accordingly, the pre-distribution period, D and C are each treated as owning a 34-percent interest in Partnership. As such, both D and C are treated as engaged in the active conduct of both ATB1 and ATB2 throughout the pre-distribution period. See paragraphs (b)(2)(v)(A) and (b)(2)(v)(B) of this section. The transfer of the Partnership interest is disregarded because it is between SAG members. See paragraph (b)(1)(ii) of this section. After the distribution, C owns 34 percent of Partnership and is therefore engaged in the active conduct of ATB2. See paragraphs (b)(2)(v)(A) and (b)(2)(v)(B) of this section. Therefore, D and C both satisfy the requirements of section 355(b).

Example 9. Sequential application of the SAG rule—(i) Facts. For more than five years, D2 has owned all of the stock of D, and D has owned all of the stock of C. Throughout this period, D2 has engaged in the active conduct of ATB1 and ATB2, and D has engaged in the active conduct of ATB1. C, individually, has not engaged in the active conduct of any ATB. In year 6, D transfers all of the C stock to D2 (first distribution). Immediately thereafter, D2 transfers ATB2 to C and distributes all of the C stock to the D2 shareholders (second distribution).

(ii) Analysis—first distribution. Because D2 owns section 1504(a)(2) stock of C, C is a DSAG member prior to the first distribution. See paragraph (b)(1)(iii) of this section. D and C are treated as one corporation for purposes of determining whether D and C are engaged in the active conduct of a trade or business with respect to the first distribution. See paragraphs (b)(1)(ii) and (b)(1)(iii) of this section. Accordingly, throughout the pre-distribution period, D and C are each treated as engaged in the active conduct of ATB1 and ATB2 with respect to the second distribution. The transfer of ATB2 to C is disregarded because it is between D2 SAG members. See paragraph (b)(1)(ii) of this section. Immediately after the second distribution, C is engaged in the active conduct of ATB2.

Therefore, D2 and C both satisfy the requirements of section 355(b) with respect to the second distribution.

Example 10. Limitations—securities and vacant land. For more than five years, D has owned investment securities and vacant land. D has conducted no activities with respect to the vacant land, but D will subsequently subdivide the vacant land, install streets and utilities, and sell the developed lots to various homebuilders. D cannot currently satisfy the requirements of section 355(b) because the holding of investment securities does not constitute the active conduct of a trade or business. See paragraph (b)(2)(iv)(A) of this section. Furthermore, no significant development activities have been conducted with respect to the vacant land. See paragraph (b)(3) of this section.

Example 11. Limitations—occupied real estate—active. For more than five years, D, a bank, has owned an eleven-story office building, the ground floor of which D has occupied while engaged in the active conduct of its banking business. The remaining ten floors are rented to various tenants. Throughout this period, the building has been managed, operated, repaired, and maintained by employees of D. D transfers the building along with the significant assets used to operate the building and the goodwill associated with the building to the new subsidiary C and distributes the C stock to the D shareholders. Henceforth, C’s employees will manage, operate, repair, and maintain the building. D and C both satisfy the requirements of section 355(b). See paragraph (b)(3) of this section.

Example 12. Limitations—occupied real estate—not active. For more than five years, D, a bank, has owned a two-story building, the ground floor and one half of the second floor of which D has occupied while engaged in the active conduct of its banking business. The other half of the second floor has been rented as storage space to a neighboring retail merchant. D transfers the building and the goodwill associated with the building to a new subsidiary C and distributes the C stock to the D shareholders. After the distribution, D leases from C the space in the building that it formerly occupied. Under the lease, D will repair and maintain its portion of the building and pay property taxes and insurance. C does not satisfy the requirements of section 355(b) because it is not engaged in the active conduct of a trade or business immediately after the distribution. See paragraph (b)(2)(iv)(A) of this section. This example does not address the question of whether the activities of D with respect to the building prior to the separation would constitute the active conduct of a trade or business.

Example 13. No significant activities. For more than five years, D owned land on which it has engaged in the active conduct of the ranching business. Oil has been discovered in the area, and it is apparent that oil may be found under the land on which the ranching business is conducted. D has engaged in no significant activities in connection with its mineral rights. D transfers its mineral rights to new subsidiary C and distributes the C stock to the D shareholders. C will actively pursue the development of the oil producing potential of the property. C does not satisfy the requirements of section 355(b) after the distribution because D was not engaged in significant exploitation activities with respect to the mineral rights throughout the pre-distribution period. See paragraph (b)(3) of this section.

Example 14. Vertical division—state contracts. For more than five years, D has engaged in the active conduct of a single business of constructing sewage disposal plants and other facilities. D transfers one half of its assets to new subsidiary C. These assets include a contract for the construction of a sewage disposal plant in State N, construction equipment, cash, goodwill, and other tangible and significant assets. D retains a contract for the construction of a sewage disposal plant in State M, construction equipment, cash, goodwill, and other tangible and significant assets. D distributes the C stock to one of D’s shareholders in exchange for all of his D stock. D and C both satisfy the requirements of section 355(b). See paragraphs (b)(2) and (b)(3)(i) of this section.

Example 15. Vertical division—location. For more than five years, D has engaged in the active conduct of owning and operating two men’s retail clothing stores, one in the downtown area of the City of G and one in a suburban area of G. D transfers the store building, fixtures, inventory, and other significant assets related to the operations of the suburban store and the goodwill attributable to that store to new subsidiary C. D also transfers to C the delivery trucks and delivery personnel that formerly served both stores. Henceforth, C will contract with a local public delivery service to make its deliveries. D retains the warehouses that formerly served both stores. Henceforth, C will lease warehouse space from an unrelated public warehouse company. D then distributes the C stock to the D shareholders. D and C both satisfy the requirements of section 355(b). See paragraphs (b)(2) and (b)(3)(i) of this section.

Example 16. Horizontal division—research. For more than five years, D has engaged in the active conduct of manufacturing and sale of household products. Throughout this period, D has maintained a research department for use in connection with its manufacturing activities. The research department has 30 employees actively engaged in the development of new products. D transfers the research department (which has significant assets and goodwill) to new subsidiary C and distributes the C stock to the D shareholders. After the distribution, C continues its research operations on a contractual basis with several corporations, including D. D and C both satisfy the requirements of section 355(b). See paragraphs (b)(2) and (b)(3)(i) of this section. The result is the same if, after the distribution, C continues its research operations but furnishes its services only to D. See paragraphs (b)(2) and (b)(3)(i) of this section.
ever, see §1.355-2(d)(2)(iv)(C) (related function de-
vice factor) for possible evidence of device.

Example 17. Horizontal division — sales. For
more than five years, D has engaged in the active con-
duct of processing and selling meat products. D de-

rives income from no other source. D separates the
sales function from the processing function by trans-

ferring the significant business assets related to the
sales function, the goodwill associated with the sales
function, and cash for working capital to new sub-
sidiary C. D then distributes the C stock to the D
shareholders. After the distribution, C purchases for
resale the meat products processed by D. D and C
both satisfy the requirements of section 355(b). See
paragraphs (b)(2) and (b)(3)(i) of this section. How-
ever, see §1.355-2(d)(2)(iv)(C) (related function de-
vice factor) for possible evidence of device.

Example 18. Expansion and vertical division —
location. For more than five years, D has engaged in
the active conduct of owning and operating hard-
ware stores in several states. In year 6, D purchased
all of the assets of a hardware store in State M, where
D had not previously conducted business. In year 8,
D transfers the State M hardware store and related
significant assets and goodwill to new subsidiary C
and distributes the C stock to the D shareholders. Af-

ter the distribution, the State M hardware store has
its own manager and is operated independently of the
other stores. Because:

(i) The product of the State M hardware store is
similar to the product of D’s hardware stores in the
other states;

(ii) The business activities associated with the op-
eration of the State M hardware store are the same
as the business activities associated with the operation
of D’s hardware stores in the other states; and

(iii) The operation of a hardware store in State M
involves the use of the experience and know-how that
D developed in the operation of the hardware stores
in the other states, the hardware store in State M is in
the same line of business as the hardware stores in the
other states. Therefore, the acquisition of the State M
hardware store constitutes an expansion of D’s exist-
ing business and its acquisition does not constitute
the acquisition of a new or different business under para-
graph (b)(3)(ii) of this section. Accordingly, D and C
both satisfy the requirements of section 355(b).

Example 19. Expansion and horizontal division
— Internet. For more than five years, D has engaged
in the active conduct of operating a retail shoe store
business, under the name D. Throughout this period,
D’s sales are made exclusively to customers who fre-
quent its retail stores in shopping malls and other lo-
cations. D’s business enjoys favorable name recogni-
tion, customer loyalty, and other elements of goodwill
in the retail shoe market. D creates an Internet web
site and begins selling shoes at retail on the web site.

To a significant extent, the operation of the web site
draws upon D’s existing experience and know-how.
The web site is named “D.com” to take advantage of
the name recognition, customer loyalty, and other ele-
ments of goodwill associated with D and the D name
and to enhance the web site’s chances for success in
its initial stages. Eight months after beginning to sell
shoes on the web site, D transfers all of the web site’s
assets and liabilities (all of which include the sig-
nificant assets and goodwill associated with the web
site’s business) to new subsidiary C and distributes the
C stock to the D shareholders. The product of the
retail shoe store business and the product of the web
site are the same (shoes), and the principal business
activities of the retail shoe store business are the same
as those of the web site (purchasing shoes at wholesale
and reselling them at retail). Although selling

shoes on a web site requires some know-how not asso-
ciated with operating a retail store, such as familiar-
ity with different marketing approaches, distribution
chains, and technical operations issues, the web site’s
operation does draw to a significant extent on D’s ex-
sisting experience and know-how, and the web site’s
success will depend in large measure on the goodwill
associated with D and the D name. Therefore, the cre-

ation by D of the Internet web site does not constitute
the acquisition of a new or different business under para-
graph (b)(3)(ii) of this section. Accordingly, it is an
expansion of D’s retail shoe store business, all of which
is treated as having been actively conducted
throughout the pre-distribution period. Therefore, D
and C both satisfy the requirements of section 355(b).

Example 20. Expansion — acquiring a SAG mem-
ber. For more than five years, D has owned all of
the stock of C. Throughout this period, C and unre-
lated T have engaged in the active conduct of ATB1.
In year 6, D purchases all of the T stock. In year 8,
D distributes all of the C stock to the D sharehold-
ers. Throughout the period that C is a DSAG mem-
ber, D is engaged in the active conduct of ATB1. See
paragraph (b)(1)(i) of this section. Moreover, be-
cause D acquired section 1504(a)(2) stock of T, D is
treated as having acquired T’s assets (and activi-
ties), and that acquisition constitutes an expansion of
ATB1. See paragraphs (b)(1)(ii) and (b)(3)(ii) of this
section. Therefore, D and C both satisfy the re-
quirements of section 355(b). The result would be the
same if D had owned all of the T stock for more than
five years, and purchased all of the C stock in year 6.
See paragraphs (b)(1)(ii), (b)(3)(ii), (b)(4)(i), and
(b)(4)(iv)(F) of this section.

Example 21. No expansion — acquiring only con-
tr ol of controlled. For more than five years, D and
unrelated C have engaged in the active conduct of
ATB1. In year 6, D purchases section 368(c) stock
but not section 1504(a)(2) stock of C. In year 8, D dis-
tributes the C stock to the D shareholders. While D
and C are in the same line of business, the acquisition
does not result in an expansion of D’s business under
paragraph (b)(3)(ii) of this section because D is not
treated as having acquired C’s assets (and activities).
Accordingly, D has acquired control of C in violation
of section 355(b)(2)(D). See paragraph (b)(4)(ii)(B)
of this section. However, if D acquires additional C
stock thereby causing C to become a DSAG mem-
ber, D would be treated as having acquired C’s as-
sets (and activities) and the acquisition would consti-
tute an expansion of ATB1. See paragraphs (b)(1)(ii),
(b)(3)(ii), (b)(4)(i), and (b)(4)(iv)(F) of this section.
In such a case, D and C both would satisfy the re-
quirements of section 355(b).

Example 22. Partnership — meaningful but not
significant. For more than five years, unrelated X
and Y have owned a 20-percent and 33 1/3-percent
interest, respectively, in Partnership. The remain-
ing interests in Partnership are owned by unrelated
parties. For more than five years, Partnership has
manufactured power equipment. But for the perform-
ance of all its management functions by employees of
X, Partnership would satisfy all the requirements of
paragraph (b)(2)(i) of this section. X and/or Y will
be attributed the trade or business assets and activities
of Partnership only if the corporation satisfies the re-
quirements of paragraph (b)(2)(v)(B) or (b)(2)(v)(C)
of this section. See paragraph (b)(2)(v)(A) of this
section. While X does not satisfy the requirements
of paragraph (b)(2)(v)(B) of this section because X’s interest in Partnership is not significant, under
paragraph (b)(2)(v)(C) of this section, X owns a
meaningful interest in Partnership and performs
active and substantial management functions for the
trade or business assets and activities of Partnership.
Therefore, X is attributed the trade or business as-
sets and activities of Partnership. Accordingly, X is
engaged in the active conduct of the business of
manufacturing power equipment. See paragraph (b)(2)
of this section. In determining whether Y is engaged
in the business of manufacturing power equipment,
the management functions performed by X for Par-
tnership are not taken into account. See paragraph
(b)(2)(v)(A) of this section. Therefore, although Y is
attributed Partnership’s trade or business assets and
activities under paragraph (b)(2)(v)(B) of this section
because Y owns a significant interest in Partnership,
Y is not engaged in the business of manufacturing
power equipment because neither Y nor Partnership
perform any management functions for the business.
See paragraph (b)(2)(iii) of this section.

Example 23. Partnership — significant but not
meaningful. The facts are the same as Example 22
except that all the management functions related to
the business of Partnership are performed by employ-
ees of Partnership. Because employees of Partnership
perform all of the management functions related to
the trade or business assets and activities of manufac-
turing power equipment, Partnership itself satisfies
all the requirements of paragraph (b)(2)(i) of this sec-
section. X neither owns a significant interest in Partner-
ship nor performs active and substantial management
functions with respect to the trade or business assets
and activities of Partnership. Accordingly, X does
not satisfy the requirements of paragraph (b)(2)(v)(B)
or (b)(2)(v)(C) of this section, X is not attributed
the trade or business assets and activities of Partnership’s
business of manufacturing power equipment, and X is
not engaged in the active conduct of the business of
manufacturing power equipment. On the other hand,

because Y owns a significant interest in Partnership,
Y satisfies the requirements of paragraph (b)(2)(v)(B)
of this section. Therefore, Y is attributed the trade or
business assets and activities of Partnership’s
business. Accordingly, Y satisfies the requirements
of paragraph (b)(2)(i) of this section and is engaged in
the active conduct of the business of manufacturing
power equipment.

Example 24. Partnership — significant by many.
The facts are the same as Example 23 except that X, Y,
and Z each own a 33 1/3-percent interest in Partner-
ship. Because X, Y, and Z each own a significant in-
terest in Partnership, each of X, Y, and Z satisfies the
requirements of paragraph (b)(2)(v)(B) of this section.
Therefore, X and/or Y and/or Z is attributed
the trade or business assets and activities of Partner-
ship, satisfies the requirements of paragraph (b)(2)(i)
of this section, and is engaged in the active conduct
of the business of manufacturing power equipment.

Example 25. Non-SAG affiliates—(i) Facts. For
more than five years, X has owned 10 percent of the
stock of D2, D2 has owned all the stock of D and
S, and D has owned all the stock of C. Throughout

this period, D has manufactured furniture that it sells to furniture stores and has been the principal owner of the goodwill and significant assets associated with that business and C has owned and operated a laundry business and has been the principal owner of the goodwill and significant assets associated with that business. Throughout this period, however, employees of S have performed all the active and substantial management and operational functions of the furniture business for D and the laundry business for C. D distributes the C stock to D2 (first distribution) and D2 distributes the C stock to X in exchange for all of X’s D2 stock (second distribution). After the distributions, employees of X perform all the active and substantial management and operational functions of the laundry business for C that the employees of S performed before the distributions and the employees of S continue to perform the same activities for D as they did before the distributions.

(ii) Analysis — first distribution. In determining whether the furniture manufacturing business and laundry business have been actively conducted throughout the pre-distribution period and immediately after the first distribution, the activities performed for those businesses include activities performed by employees of affiliates of D and C (even if they are not DSAG or CSAG members). Accordingly, such activities include the activities performed by the employees of S for D and C. See paragraph (b)(2)(iii) of this section. D and C own the goodwill and significant assets associated with their respective businesses both throughout the pre-distribution period and immediately after the first distribution, and are treated as performing active and substantial management and operational functions for their respective businesses both throughout the pre-distribution period and immediately after the first distribution. Therefore, D and C both satisfy the requirements of section 355(b) with respect to the first distribution.

(iii) Analysis — second distribution. Because D2 owns section 1504(a)(2) stock of D, C, and S (and D owned section 1504(a)(2) stock of C before the first distribution), D2, D, C, and S are D2 SAG members throughout the pre-distribution period with respect to the second distribution. See paragraph (b)(1)(iii) of this section. Accordingly, D2, D, C, and S are treated as one corporation for purposes of determining whether D2 is engaged in an active trade or business with respect to the second distribution. See paragraph (b)(1)(iii) of this section. Accordingly, for purposes of the second distribution, D2 has been engaged in the furniture manufacturing business and the laundry business throughout the pre-distribution period. Further, for purposes of the second distribution D’s distribution of the C stock to D2 is disregarded because it is between D2 SAG members. See paragraph (b)(1)(iii) of this section. D and S continue to be D2 SAG members immediately after the second distribution. See paragraph (b)(1)(iii) of this section. Accordingly, D2 is engaged in the furniture manufacturing business immediately after the second distribution. In determining whether C is engaged in the active conduct of a trade or business immediately after the second distribution, the activities performed for the laundry business include activities performed by employees of affiliates of C (even if they are not CSAG members). Accordingly, immediately after the second distribution, such activities include the activities performed for C by the employees of X. See paragraph (b)(2)(iii) of this section. C owns the goodwill and significant assets associated with the laundry business both throughout the pre-distribution period and immediately after the second distribution, and is treated as performing active and substantial management and operational functions both throughout the pre-distribution period and immediately after the second distribution. Therefore, D2 and C both satisfy the requirements of section 355(b) with respect to the second distribution.

Example 26. Purchased ATB and SAG member. For more than five years, P has owned all of the stock of D and S1, and D and S1 have owned all of the stock of S2 and S3, respectively. Throughout this period, S1 and S3 have engaged in the active conduct of ATB1 and ATB2, respectively. In year 6, S purchases ATB1 and all of the S3 stock from S1 on the same day. In year 6, the DSAG acquired ATB1 and ATB2 (as a result of S becoming a DSAG member) in a transaction in which gain or loss was recognized. Accordingly, if D were to make a distribution, it could not rely on ATB1 or ATB2 to satisfy the requirements of section 355(b) unless the DSAG’s year 6 acquisition of ATB1 and ATB2 is not in the pre-distribution period. See paragraph (b)(4)(ii)(A) of this section. The fact that S2 acquired ATB1 and the S3 stock from an affiliate is not relevant.

Example 27. Purchased ATB prior to entering into a reorganization. For more than five years, T has engaged in the active conduct of ATB1. In year 6, S purchased ATB1 from T. In year 7, D acquired all of the S stock from the T shareholders solely in exchange for D stock in a transaction to which section 351 applied and in which no gain or loss was recognized. As a result, S became a DSAG member. Although S became a DSAG member in a transaction in which no gain or loss was recognized, S, a corporation that later became a DSAG member, acquired ATB1 in a transaction in which gain or loss was recognized. Accordingly, if D were to make a distribution, it could not rely on ATB1 to satisfy the requirements of section 355(b) unless S’s year 7 acquisition of ATB1 is not in the pre-distribution period. See paragraph (b)(4)(ii)(A) of this section.

Example 28. ATB (or new SAG member) for stock of distributing or a corporation in control of distributing in a reorganization — transfer of ATB to controlled. For more than five years, unrelated T and Z have owned all of the stock of X and Y, respectively, and X and Y have engaged in the active conduct of ATB1 and ATB2, respectively. Unrelated P owns all of the stock of D. In year 6, D acquires all of X’s assets (including ATB1) from X solely in exchange for D stock in a reorganization described in section 368(a)(1)(A), and all of Y’s assets (including ATB2) from Y solely in exchange for P stock in a reorganization described in section 368(a)(1)(A) by reason of section 368(a)(2)(D). No gain or loss is recognized on either acquisition. In a separate transaction, D transfers ATB2 to new subsidiary C in exchange for all of the C stock in a transaction that satisfies the requirements of section 351 and in which no gain or loss is recognized. If D were to distribute the C stock in a separate transaction, D and C can rely on ATB1 and ATB2, respectively, to satisfy the requirements of section 355(b). ATB1 and ATB2 were acquired in transactions in which no gain or loss was recognized, and were not acquired in exchange for assets of the DSAG. See paragraph (b)(4)(iii) of this section. The result would be the same if D acquired all of the assets of T (including the X stock) and Z (including the Y stock) in the reorganizations instead of acquiring the assets of X and Y, and then transferred the Y stock to C. See paragraphs (b)(1)(ii) and (b)(4)(ii)(A) of this section.

Example 29. Taxable transfer of ATB by distributing to controlled. The facts are the same as the original facts in Example 28 except that before and after the transfer to C, D owned section 368(c) stock but not section 1504(a)(2) stock of C, and recognized gain under section 357(c) on the transfer of ATB2 to C. D and C can rely on ATB1 and ATB2, respectively, to satisfy the requirements of section 355(b). See paragraph (b)(4)(iii)(A) of this section. The result would be the same if C purchased ATB2 from D. The result would also be the same if D acquired all of the assets of T (including the X stock) and Z (including the Y stock) in the reorganizations instead of acquiring the assets of X and Y, and then purchased the Y stock from D. See paragraphs (b)(1)(ii) and (b)(4)(ii)(A) of this section.

Example 30. Assets for controlled stock in a section 351 transaction. For more than five years, unrelated D and C have engaged in the active conduct of ATB1 and ATB2, respectively. In year 6, D transfers ATB1 to C to be used in a reorganization in exchange for section 368(c) stock of C in a transaction to which section 351 applies and in which no gain or loss is recognized. If D were to distribute the C stock, C could not rely on ATB1 to satisfy the requirements of section 355(b) unless D’s year 6 acquisition of the C stock is not in the pre-distribution period because D acquired section 368(c) stock of C, a corporation engaged in ATB2, in exchange for assets not constituting the trade or business. See paragraphs (b)(4)(i)(B) and (b)(4)(ii)(A) of this section. The result would be the same even if C became a DSAG member as a result of the year 6 transfer. See paragraphs (b)(4)(i)(A) and (b)(4)(ii)(A) of this section.

Example 31. ATB for controlled stock in a reorganization. For more than five years, unrelated D and T have engaged in the active conduct of ATB1 and ATB2, respectively. Throughout this period, D has owned all of the sole class of C stock. In year 6, T merges into C solely in exchange for C stock in a reorganization described in section 368(a)(1)(A) and in which no gain or loss is recognized. As a result, the T shareholders receive 20 percent of the sole class of C stock. Because C acquired ATB2 in exchange for C stock, solely for purposes of determining whether ATB2 can be relied on to satisfy the requirements of section 355(b), D is treated as having acquired its 80 percent of the C stock in year 6 in a transaction in which gain or loss was recognized. See paragraph (b)(4)(iv)(E) of this section. Accordingly, if D were to distribute the C stock, C could not rely on ATB2 to satisfy the requirements of section 355(b) unless C’s year 6 acquisition of ATB2 is not in the pre-distribution period because ATB2 was in effect indirectly acquired in exchange for D’s assets. See paragraphs (b)(4)(i)(A), (b)(4)(ii)(A), and (b)(4)(iv)(E) of this section.

Example 32. ATB and controlled stock for distributing stock in a section 351 transaction. For more than five years, T and unrelated C have engaged in the active conduct of ATB1 and ATB2, respectively. Unrelated P owns all of the stock of D. In year 6, P
purchases ATB1 from T, and section 368(c) stock of C from the C shareholders. In year 6, P contributes the C stock and ATB1 to D solely in exchange for additional D stock in a transaction to which section 351 applies and in which no gain or loss is recognized. If D were to subsequently distribute the C stock in a separate transaction, D can rely on ATB1 and C can rely on ATB2 to satisfy the requirements of section 355(b) because neither ATBI nor control of C was acquired in exchange for assets of the DSAG. See paragraphs (b)(4)(i)(A), (b)(4)(i)(B), and (b)(4)(ii) of this section. The fact that P, an affiliate of D, purchased ATBI and section 368(c) stock of C in year 6 is not relevant.

Example 33. ATB for distributing stock in a section 351 transaction with section 357(c) gain.

The facts are the same as Example 32 except that D has owned section 368(c) stock of C for more than five years, P only purchases ATB1 from T, and P recognizes under section 357(c) gain on the transfer of ATB1 to D as a result of D assuming liabilities of P. D cannot rely on ATB1 to satisfy the requirements of section 355(b) until D’s year 6 acquisition of ATB1 is no longer in the pre-distribution period because D acquired ATB1 in a transaction in which gain or loss was recognized. See paragraph (b)(4)(i)(A) of this section.

Example 34. Partnership distributions.

For more than five years, X and Y have engaged in the active conduct of ATB1 and ATB2, respectively. Throughout this period, unrelated D has owned a 90-percent interest in Partnership. D is attributed any trade or business assets and activities of Partnership under paragraph (b)(2)(v) of this section. In year 6, Partnership distributes ATB1 and all of the Y stock to D in a non-liquidating distribution. Assume that no gain or loss is recognized by Partnership or any partner on the distribution. As a result, S becomes a DSAG member, and D is treated as having acquired S’s assets (and activities). See paragraphs (b)(1)(ii) and (b)(1)(iii) of this section. If D were to make a distribution, ATB1 could not be relied on to satisfy the requirements of section 355(b) unless Partnership’s year 6 acquisition of ATB1 is not in the pre-distribution period. See paragraphs (b)(2)(v), (b)(3)(iii), and (b)(4)(ii)(B) of this section. If D were to make a distribution, ATB2 could not be relied on to satisfy the requirements of section 355(b) unless D’s year 9 acquisition of the Y stock is not in the pre-distribution period. See paragraphs (b)(2)(v)(A) and (b)(4)(ii)(B) of this section. Alternatively, if in year 9 Partnership only makes a pro rata distribution of all the Y stock to its partners such that D receives 90 percent of the Y stock, ATB2 cannot be relied on until Partner- nership’s year 9 acquisition of all of the Y stock is no longer in the pre-distribution period. See paragraph (b)(4)(ii)(B) of this section.

Example 35. Partnership distribution (new DSAG member).

For more than five years, D has owned a 50-percent interest in Partnership. The remaining interests in Partnership are owned by unrelated parties. Throughout this period, Partnership has engaged in the active conduct of ATB1, and D has been attributed the trade or business assets and activities of Partnership’s ATB1 under paragraph (b)(2)(v) of this section. In year 6, pursuant to an integrated plan, Partnership contributes ATB1 to new subsidiary S, and distributes all of the S stock to D in liquidation of D’s 50-percent interest in Partnership. Assume that no gain or loss is recognized by Partnership or any partner on the distribution. As a result, S becomes a DSAG member, and D is treated as having acquired S’s assets (and activities). See paragraphs (b)(1)(i) and (b)(1)(iii) of this section. Because D was attributed ATB1 immediately before the incorporation and distribution by Partnership, and S became a DSAG member as a result of the distribution, Partnership’s distribution of the S stock to D is not an acquisition of ATB1. See paragraphs (b)(3)(iii) and (b)(4)(ii)(B) of this section. Accordingly, if D were to make a distribution, it could rely on ATB1 to satisfy the requirements of section 355(b).

Example 36. Transfer of partnership in a reorganization and distribution.

For more than five years, T has owned a 40-percent interest in Partnership which has engaged in the active conduct of ATB1. Throughout this period, T has been attributed the trade or business assets and activities of Partnership’s ATB1 under paragraph (b)(2)(v) of this section. In year 6, T merges into S, a wholly owned subsidiary of unrelated D, solely in exchange for D stock in a reorganization described in section 368(a)(1)(A) by reason of section 368(a)(2)(D). No gain or loss is recognized. If D were to make a distribution, D can rely on ATB1 because ATB1 has been actively con- ducted throughout the pre-distribution period, and the interest in Partnership was acquired in a transaction in which no gain or loss was recognized and was not acquired in exchange for assets of the DSAG. See paragraphs (b)(2)(v), (b)(3)(i), and (b)(4)(ii) of this section. The results would be the same if T owned only a 20-percent interest in Partnership, employees of T performed active and substantial management functions for Partnership’s trade or business assets and activities prior to the merger, and employees of S (or an affiliate of S) performed active and substantial management functions for Partnership’s trade or business assets and activities after the merger. See paragraphs (b)(2)(iii), (b)(2)(v), (b)(3), and (b)(4)(ii) of this section.

Example 37. Transferred ATB sold (SAG member).

For more than five years, D and unrelated T have engaged in the active conduct of ATB1 and ATB2, respectively. In year 6, D purchases additional shares of C stock. As a result, D acquired section 368(c) stock of C. If D were to make a distribution of the C stock, D could not rely on ATB2 under paragraph (b)(2)(v)(B) of this section unless the year 6 transaction is not in the pre-distribution period because D acquired ATB2 in exchange for D’s assets not constituting the trade or business to be relied on. See paragraphs (b)(4)(ii)(A) and (b)(4)(ii)(A) of this section.

Example 38. Indirect acquisition of control of distributing’s ATB.

For more than five years, D and T have engaged in the active conduct of ATB1 and ATB2, respectively. All of the T stock is owned by individuals. In year 6, T purchases all of the D stock in a transaction in which gain or loss is recognized. In a separate transaction, T merges downstream into D solely in exchange for D stock in a reorganization described in section 368(a)(1)(A) and (D). No gain or loss is recognized. In year 7, D transfers ATB2 formerly conducted by T to new subsidiary C, and then distributes the C stock to the D shareholders. Although D acquired ATB2 solely in exchange for D stock in a transaction in which no gain or loss was recognized, the requirements of section 355(b) are not satisfied because ATB1, the business of D, was indirectly acquired by T, a predecessor of D, during the pre-distribution period in a transaction in which gain or loss was recognized. See paragraphs (b)(4)(ii)(A) and (b)(4)(ii)(A) of this section. The result would be the same if prior to the year 6 acquisition D and wholly owned subsidiary C were engaged in the active conduct of ATB1 and ATB2, respectively, and T had no ATB.

Example 40. Exception for corporate distribu- tor.

For more than five years, T has owned all of the stock of D which in turn owned all of the stock of C. Throughout this period, D and C have engaged in the active conduct of ATB1 and ATB2, respectively. In year 6, P purchases all the stock of T. In year 7, P liquidates T in a transaction in which no gain or loss is recognized under section 332. Under section 334(b), P’s basis in the D stock is determined in whole by reference to T’s basis in the D stock. In year 8, D distributes the C stock to P. While the D stock was indirectly acquired in a taxable transaction, the adjusted basis that P, the distributee corporation, has in the D stock was determined in whole by reference to T’s adjusted basis. Accordingly, D and C satisfy the requirements of section 355(b). See paragraph (b)(4)(ii)(C) of this section. If P were to distribute either the D stock or C stock, neither ATB1 nor ATB2 could be relied on unless the year 6 acquisition of the T stock is not in the pre-distribution period. See paragraph (b)(4)(ii)(C) of this section. The results would be the same if P acquired all of T’s assets in exchange for P stock and other property in a reorganization described in section 368(a)(1)(A).

Example 41. Acquisition of section 368(c) stock of controlled DSAG member.

For more than five years, D has owned section 1504(a)(2) stock but not section 368(c) stock of C. Throughout this period, C has engaged in the active conduct of ATB1. In year 6, D purchased additional shares of C stock. As a result, D acquired section 368(c) stock of C. If D were to make a distribution of the C stock, D could rely on ATB1 to satisfy the requirement of section 355(b). C was a DSAG member, so D was engaged in ATB1 prior to the year 6 purchase of additional C stock. Accordingly, D’s acquisition of additional stock of a DSAG member is disregarded in apply-
by reason of section 368(a)(2)(E) through the use of separately. In year 6, D acquires section 368(c) stock of C, representing 95 percent of the voting power and 70 percent of the value, and Y owns all of the class B stock of C, representing 5 percent of the voting power and 30 percent of the value. In year 6, D acquires 10 shares of class A C stock from X in a transaction in which gain or loss was recognized. D also acquires 30 percent of the total number of shares of all other classes of C stock, but T owns less than 80 percent of the total value of the C stock. In year 7, unrelated D acquires 10 percent of the sole outstanding class of stock of T in a transaction in which gain or loss is recognized. In year 8, in a separate transaction, T merges into D solely in exchange for D stock in a reorganization described in section 368(a)(1)(B). No gain or loss is recognized. D acquires 10 shares of S stock from X in a transaction in which gain or loss was recognized. Because D only acquires 70 percent of the value of C stock, C does not become a DSAG member. In year 9, D distributes the 95 shares of class A C stock to ATB1 and ATB2, respectively. C cannot rely on ATB1 to satisfy the requirements of section 355(b) as the control of C that it acquired in one or more transactions combined with acquisitions before the pre-distribution period. Accordingly, C cannot rely on ATB1 to satisfy the requirements of section 355(b) until D’s year 6 acquisition of control of C is no longer in the pre-distribution period. See paragraph (b)(4)(i)(B) of this section.

Example 46. Taxable multi-step indirect acquisition of control. For more than five years, C has engaged in the active conduct of ATB1 and ATB2, respectively. C has two classes of stock outstanding. X owns all 95 shares of the class A stock of C, representing 95 percent of the voting power and 70 percent of the value, and Y owns all of the class B stock of C, representing 5 percent of the voting power and 30 percent of the value. In year 6, D acquires 10 shares of class A C stock from X in a transaction in which gain or loss was recognized. In year 7, D distributes the 95 shares of class A C stock from X solely in exchange for D voting stock in a reorganization described in section 368(a)(1)(B). No gain or loss is recognized. In year 8, in a separate transaction, T merges into D solely in exchange for D stock in a reorganization described in section 368(a)(1)(A). No gain or loss is recognized. As a result, D owns section 368(c) stock of C. Because D indirectly acquired 10 percent of the C stock owned by T in year 6, at the time D first acquired control of C, D did not own any stock constituting control that was acquired in a transaction in which no gain or loss was recognized. Accordingly, D and C both satisfy the requirements of section 355(b). See paragraphs (b)(4)(i)(B) and (b)(4)(iv)(B) of this section.

Example 47. Nontaxable multi-step acquisition of SAG member (or ATB). For more than five years, X has engaged in the active conduct of ATB1. X owns all 100 shares of the sole outstanding class of S stock. In year 6, unrelated D acquires 10 shares of S stock from X in a transaction in which gain or loss was recognized. Because at the time S first became a DSAG member, D owned an amount of S stock meeting the requirements of section 1504(a)(2) that was acquired in one or more transactions in which no gain or loss was recognized, and D acquired S solely in exchange for D stock in a reorganization described in section 368(a)(1)(B). No gain or loss is recognized. As a result, S becomes a DSAG member. Because D acquired ATB1 and ATB2 in a transaction in which no gain or loss was recognized, and D acquired S solely in exchange for D stock in a reorganization described in section 368(a)(1)(A), D is treated as having indirectly acquired S in a transaction in which gain or loss was recognized. Thus, D is treated as having indirectly ac-
required 40 percent of the S stock in a transaction in which gain or loss is recognized at the time of the merger of T into S. Further, if the merger of T into S is in the pre-distribution period, under paragraph (b)(4)(iv)(A) of this section, D will be treated as having acquired ATB2 in a transaction in which gain or loss is recognized because, immediately before the merger of S into D, D indirectly owned 40 percent of the S stock that had been acquired in a transaction in which gain or loss was recognized. Accordingly, D cannot rely on ATB2 to satisfy the requirements of section 355(b) until the year 6 merger of T into S is no longer in the pre-distribution period. However, D can rely on ATB1 to satisfy the requirements of section 355(b). Alternatively, if X, instead of S, merged into D, S would become a DSAG member and X would be a predecessor of D. If so, for purposes of applying paragraph (b)(4) of this section with respect to ATB2, D is treated as having acquired 80 percent of the S stock in year 6 in a transaction in which gain or loss was recognized. Accordingly, D cannot rely on ATB2 to satisfy the requirements of section 355(b) until the year 6 merger of T into S is no longer in the pre-distribution period. See paragraphs (b)(4)(i)(A), (b)(4)(iv)(A), and (b)(4)(iv)(E) of this section. However, D can rely on ATB1 to satisfy the requirements of section 355(b).

Example 51. Taxable multi-step indirect acquisition of SAG member (or ATB).

For more than five years, T has engaged in the active conduct of ATB1. Throughout this period, X owned all of the sole outstanding class of T stock, and D owned 50 percent of the sole outstanding stock of S. In year 6, S acquires 50 percent of the sole outstanding class of the X stock in a transaction in which gain or loss is recognized. In year 8, X merges into D solely in exchange for D stock. No gain or loss is recognized. As a result, T becomes a DSAG member. Because D indirectly acquired more than 20 percent of the T stock (D indirectly acquired 25 percent of T) in year 6, at the time T first became a DSAG member D did not own an amount of T stock meeting the requirements of section 1504(a)(2) that it acquired in one or more transactions in which no gain or loss was recognized or by reason of such transactions combined with acquisitions before the pre-distribution period. Accordingly, D cannot rely on ATB1 to satisfy the requirements of section 355(b) until D’s year 6 indirect acquisition of the T stock is no longer in the pre-distribution period. See paragraphs (b)(4)(i)(A) and (b)(4)(iv)(C) of this section. The result would be the same if, instead of X, in year 8, T merged into D solely in exchange for D stock. See paragraphs (b)(4)(i)(A) and (b)(4)(iv)(D) of this section.

Determining the Amount of Taxes Paid for Purposes of Section 901; Correction

Announcement 2007–53

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Correction to notice of proposed rulemaking.

SUMMARY: This document contains a correction to notice of proposed rulemaking (REG–156779–06, 2007–17 I.R.B. 1015) that was published in the Federal Register on Friday, March 30, 2007 (71 FR 15081) providing guidance relating to the determination of the amount of taxes paid for purposes of section 901.

FOR FURTHER INFORMATION CONTACT: Bethany A. Ingwalson, (202) 622–3850 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

The notice of proposed rulemaking (REG–156779–06) that is the subject of this correction is under section 901 of the Internal Revenue Code.

Need for Correction

As published, this notice of proposed rulemaking (REG–156779–06) contains an error that may prove to be misleading and is in need of clarification.

Correction of Publication

Accordingly, the notice of proposed rulemaking (REG–156779–06), that was the subject of FR Doc. E7–5862, is corrected as follows:

On page 15085, column 3, in the preamble, first full paragraph of the column, under the paragraph heading “3. Comments and Proposed Regulations”, lines 1 and 2, the language “The fifth condition is that the counterparty is a person (other than the)” is corrected to read “The fifth condition is that the arrangement involves a counterparty. A counterparty is a person (other than the”).

Section 1367 Regarding Open Account Debt; Correction

Announcement 2007–54

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Correction to notice of proposed rulemaking.

SUMMARY: This document contains corrections to a notice of proposed rulemaking (REG–144859–04, 2007–20 I.R.B. 1245) that was published in the Federal Register on Thursday, April 12, 2007 (72 FR 18417) relating to the treatment of open account debt between S corporations and their shareholders.

FOR FURTHER INFORMATION CONTACT: Stacy L. Short or Deanne M. Burke, (202) 622–3070 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

The correction notice that is the subject of this document is under section 1367 of the Internal Revenue Code.

Need for Correction

As published, the notice of proposed rulemaking (REG–144859–04) contains errors that may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the publication of proposed rulemaking (REG–144859–04), which was the subject of FR Doc. E7–6764, is corrected as follows:...
1. On page 18417, column 3, in the preamble, under the caption “DATES:”, first sentence of the paragraph, the language “Written or electronic comments and requests for a public hearing must be received by July 11, 2007.” is corrected to read “Written or electronic comments must be received by July 10, 2007.”.

2. On page 18418, column 1, in the preamble, under the caption “FOR FURTHER INFORMATION CONTACT:”, lines six through eleven, the language “attend the hearing, Richard Hurst at (202) 622–2949 (TDD Telephone) (not toll-free numbers) and his e-mail address is Richard.A.Hurst@irs.counsel.treas.gov, (202) 622–7180 (not toll-free numbers).” is corrected to read “attend the hearing, Richard Hurst at Richard.A.Hurst@irs.counsel.treas.gov, (202) 622–7180 (not toll-free numbers).”

3. On page 18420, column 2, in the preamble, under the paragraph heading “Comments and Public Hearing”, the second paragraph of the column, first line, the language “The rules of 26 CFR 606.601(a)(3)” is corrected to read “The rules of 26 CFR 601.601(a)(3)”.

§1.1367–2 [Corrected]

4. On page 18422, column 1, §1.1367–2, first paragraph of the column, third line of the paragraph, the language “1. The section heading is revised.” is corrected to read “1. The section heading and paragraph are revised.”.

5. On page 18422, column 1, §1.1367–2, first paragraph of the column, lines four through seven are removed.

§1.1367–3 [Corrected]

6. On page 18422, column 1, §1.1367–3, second paragraph of the column, the language of the paragraph heading “§1.1367–3 Effective dates and transitional rules.” is corrected to read “§1.1367–3 Effective date.”.

LaNita Van Dyke, Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel (Procedure and Administration).

(Rollos to Prototype Roth IRAs

Announcement 2007–55

This announcement provides that sponsors of prototype Roth IRAs who wish to accept rollover contributions from designated Roth accounts described in § 402A of the Internal Revenue Code must amend their prototype Roth IRA documents to reflect that the Roth IRA permits these rollover contributions.

Internal Revenue Code § 402A, added by section 617 of the Economic Growth and Tax Relief Reconciliation Act of 2001 (“EGTRRA”), Pub. L. 107–16, authorizes employers to offer, beginning in 2006, a qualified Roth contribution program as part of a § 401(k) plan or a § 403(b) plan. An eligible rollover distribution from a designated Roth account established under the program can be rolled over only to another designated Roth account or to a Roth IRA. Rev. Proc. 2002–10, 2002–1 C.B. 401, provided guidance on amending IRAs and IRA-based plans to reflect changes to the Code made by EGTRRA, but the guidance did not address qualified Roth contribution programs. Consequently, currently approved prototype Roth IRAs generally do not contain language permitting the acceptance of rollovers from designated Roth accounts.

Sponsors of prototype Roth IRAs may now wish to amend their documents to provide for the acceptance of rollovers from designated Roth accounts. In order for a Roth IRA that is intended to be a prototype Roth IRA to accept an eligible rollover contribution from a designated Roth account prior to an amendment permitting such rollovers, the prototype Roth IRA document must be amended and adopted no later than December 31, 2007, in accordance with procedures acceptable under Rev. Proc. 2002–10. Thus, if a prototype Roth IRA accepts a rollover from a designated Roth account prior to the date of amendment, the mere acceptance of such rollover contribution will not affect the Roth IRA’s prototype status provided the adoption of the amendment is timely. No application to the Service is required for continued reliance on an Opinion Letter. The model Roth IRAs (Forms 5305–R, 5305–RA and 5305–RB) already contain language permitting the acceptance of rollovers from designated Roth accounts, thus, users of such forms do not need to amend their IRA document to permit such rollovers.

The Roth IRA Listing of Required Modifications (“LRMs”), including acceptable designated Roth account rollover language, is available on the Service’s Web Site at www.irs.gov. (Search for “LRMs”.) These LRMs have also been updated to reflect other recent law changes, such as section 833(c) of the Pension Protection Act of 2006, P.L. 109–280, relating to inflation adjustments to the modified adjusted gross income limits that are used to determine the amount of Roth IRA contributions.

Deletions From Cumulative List of Organizations Contributions to Which Are Deductible Under Section 170 of the Code

Announcement 2007–56

The names of organizations that no longer qualify as organizations described in section 170(c)(2) of the Internal Revenue Code of 1986 are listed below.

Generally, the Service will not disallow deductions for contributions made to a listed organization on or before the date of announcement in the Internal Revenue Bulletin that an organization no longer qualifies. However, the Service is not precluded from disallowing a deduction for any contributions made after an organization ceases to qualify under section 170(c)(2) if the organization has not timely filed a suit for declaratory judgment under section 7428 and if the contributor (1) had knowledge of the revocation of the ruling or determination letter, (2) was aware that such revocation was imminent, or (3) was in part responsible for or was aware of the activities or omissions of the organization that brought about this revocation.

If on the other hand a suit for declaratory judgment has been timely filed, contributions from individuals and organiza-
tions described in section 170(c)(2) that are otherwise allowable will continue to be deductible. Protection under section 7428(c) would begin on June 4, 2007, and would end on the date the court first determines that the organization is not described in section 170(c)(2) as more particularly set forth in section 7428(c)(1). For individual contributors, the maximum deduction protected is $1,000, with a husband and wife treated as one contributor. This benefit is not extended to any individual, in whole or in part, for the acts or omissions of the organization that were the basis for revocation.

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as “rulings”) that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with modified, above.)

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with amplified and clarified, above.)

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in laws or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in a new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1986 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, modified and superseded describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case, the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.

**Authorization**

I hereby authorize the Superintendent of Documents to charge my account for Standing Order Service:

- [ ] Visa
- [ ] MasterCard
- [ ] Discover/Novus
- [ ] American Express

Superintendent of Documents (SOD) Deposit Account

Authorizing signature (Standing orders not valid unless signed)

Please print or type your name.

Daytime phone number (________)  

**SuDocs Deposit Account**

A Deposit Account will enable you to use Standing Order Service to receive subsequent volumes quickly and automatically. For an initial deposit of $50 you can establish your Superintendent of Documents Deposit Account.

- [ ] YES! Open a SOD Deposit Account for me so I can order future publications quickly and easily.
I am enclosing the $50 initial deposit.

---

*Standing Order Service*

Just sign the authorization above to charge selected items to your existing Deposit Account. Visa or MasterCard, Discover/Novus, or American Express account. Or open a Deposit Account with an initial deposit of $50 or more. Your account will be charged only as each volume is issued and mailed. Sufficient money must be kept in your account to insure that items are shipped. Service begins with the next issue released of each item you select.

---

**Check method of payment:**

- [ ] Check payable to Superintendent of Documents
- [ ] SOD Deposit Account
- [ ] Visa
- [ ] MasterCard
- [ ] Discover/Novus
- [ ] American Express

Expiration date (________)  

Thank you for your Order!

---

You will receive written acknowledgement for each item you choose to receive by Standing Order Service.

If you wish to cancel your Standing Order Service, please notify the Superintendent of Documents in writing (telephone cancellations are accepted, but must be followed up with a written cancellation within 10 days).

Important: Please include this completed order form with your payment.
INTERNAL REVENUE BULLETIN

The Introduction at the beginning of this issue describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of this weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and are not included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

ACCESS THE INTERNAL REVENUE BULLETIN ON THE INTERNET

INTERNAL REVENUE BULLETINS ON CD-ROM

Internal Revenue Bulletins are available annually as part of Publication 1796 (Tax Products CD-ROM). The CD-ROM can be purchased from National Technical Information Service (NTIS) on the Internet at www.irs.gov/cdorders (discount for online orders) or by calling 1-877-233-6767. The first release is available in mid-December and the final release is available in late January.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, P.O. Box 371954, Pittsburgh PA, 15250–7954. Please allow two to six weeks, plus mailing time, for delivery.

WE WELCOME COMMENTS ABOUT THE INTERNAL REVENUE BULLETIN

If you have comments concerning the format or production of the Internal Revenue Bulletin or suggestions for improving it, we would be pleased to hear from you. You can e-mail us your suggestions or comments through the IRS Internet Home Page (www.irs.gov) or write to the IRS Bulletin Unit, SE:W:CAR:MP:T:T:SP, Washington, DC 20224
