IR-2014-85, Sept. 2, 2014

WASHINGTON — The Internal Revenue Service today announced that the summer 2014 issue of the *Statistics of Income Bulletin* is available at IRS.gov. The Statistics of Income (SOI) Division produces the online *Bulletin* on a quarterly basis. Articles provide the most recent data available from various tax and information returns filed by U.S. taxpayers. This issue includes articles on the following topics:

- *Foreign-Controlled Domestic Corporations, 2011.* Foreign-controlled domestic corporations (76,793) accounted for a small share (1.3 percent) of all U.S. corporation income tax returns filed for tax year 2011. Collectively, these corporations produced 16.2 percent (\$4.6 trillion) of the total receipts reported by all U.S. corporation income tax returns for the year; however, a small portion of these corporations accounted for most of this amount. FCDCs accounted for 14.4 percent (\$11.7 trillion) of the total assets reported by U.S. corporations for 2011.
- *Municipal Bonds, 2011.* The municipal bond market was still dominated by the more than 21,000 tax-exempt governmental bonds issued in 2011, raising \$297.3 billion in proceeds for public projects, such as schools, transportation infrastructure, and utilities. Tax-exempt bond proceeds totaled nearly \$384.3 billion, accounting for almost all (98.4 percent) municipal bond proceeds for the year.
