Tax Product Information for Forms 1065/1120/1120S Filers

With the continued growth in electronic filing and to help reduce costs, the IRS will no longer mail paper tax packages. This includes the U.S. Return of Partnership Income Package (Package 1065), the U.S. Corporation Income Tax Package (Package 1120), and the S Corporation Income Tax Package (Package 1120S). The forms, schedules, and related instructions previously included in the packages will continue to be available separately, both electronically and in print. If you need any of these products, see *How To Get Forms and Instructions* below. The IRS encourages *e-filing* of returns; it is the safest, most secure way to transmit a tax return to the IRS. See irs.gov/efile for more information on IRS *e-file*.
