Low Income Taxpayer Clinics

2021 Grant Application Package and Guidelines
DEAR PROSPECTIVE LOW INCOME TAXPAYER CLINIC GRANT APPLICANT:

I am pleased to announce the opening of the 2021 Low Income Taxpayer Clinic (LITC) grant application period, beginning April 30, 2020 through June 16, 2020.

Under Internal Revenue Code (IRC) § 7526, the IRS provides matching grants up to $100,000 per year to qualifying organizations representing low-income taxpayers in IRS disputes and educating individuals who speak English as a second language (ESL) about their rights and responsibilities as U.S. taxpayers. LITC services must be provided for free or for no more than a nominal fee. If you would like to know more about the activities and accomplishments of organizations that have been awarded LITC funding in prior years, see Publication 5066, LITC Program Report.

This publication outlines eligibility requirements for an LITC matching grant and provides instructions to apply. Topics include:

- Award eligibility requirements;
- Other eligibility and compliance requirements;
- Application and selection process;
- Standards for operating an LITC;
- Reporting responsibilities;
- LITC Program Office responsibilities;
- Application forms and instructions; and
- Reporting forms and instructions.

This publication, including the appendices, should be retained for future reference by all LITC grant recipients as it includes program and grant administration guidance for the grant year.

The IRS remains committed to achieving maximum access to representation for low-income taxpayers. Thus, in awarding 2021 LITC grants, we will continue to work toward the following program goals:

- Expanding coverage in areas identified as underserved; and
- Ensuring that grant recipients demonstrate that they are serving geographic areas that have sizable populations eligible for and requiring LITC services.

The IRS may award grants to qualifying organizations for one-year, two-year, or three-year project periods.

To be considered for 2021 LITC Program grant funding, all Full Grant Applications and Non-Competing Continuation (NCC) Requests must be submitted electronically by 11:59 pm (ET) on June 16, 2020, via www.grants.gov or www.GrantSolutions.gov, respectively. The cost of preparing and submitting applications and NCC Requests is the responsibility of each applicant. In mid-May, the LITC Program Office is hosting a webinar (or teleconference presentation) for applicants submitting a full application or those interested in learning more about the application process. If interested in participating, visit www.irs.gov/litc for more information.
information, including confirmation of the date and a link to register for the session. Clinics submitting an NCC Request or interested in the “What’s New” portion of the training should check the LITC Toolkit for a date and time.

Qualified applicants will be notified in November 2020 of their matching grant award for the 2021 year. 2021 grant award recipients are required to attend the Annual LITC Grantee Conference held in December 2020 or January 2021. Clinics will be notified of the conference date and location as soon as it is determined.

If you have questions about the LITC Program or grant application process, please contact the LITC Program Office at 202-317-4700 (not a toll-free call) or by email at LITCProgramOffice@irs.gov.

Thank you for your interest in the LITC Program, and I look forward to another successful year in 2021.

Sincerely,

[Signature]

Erin Collins
National Taxpayer Advocate
WHAT IS NEW THIS YEAR

Below is a list of significant changes to this year's Publication 3319:

- IRC § 7526 was amended to allow IRS employees to advise taxpayers about the availability of LITCs, the eligibility requirements for assistance, and information regarding the location of and contact information for clinics funded under this statute. As such, Taxpayer Assistance Center (TAC) sites can now make referrals to specific LITCs and all sites have copies of IRS Publication 4134, Low Income Taxpayer Clinic List, available to the public.

- Beginning in December 2020, the Data Universal Numbering System (DUNS) number for all entities will be replaced by a Unique Entity Identifier (UEI), or the Entity ID. The UEI will be requested via, assigned by, and managed through System for Award Management (SAM) at www.SAM.gov. Grants.gov will begin changing the naming convention to UEI in March 2020, but the number that shows will still be the DUNS number. Organizations should use their current DUNS number until SAM generates the UEI for your organization.

- The conference attendance sections have been revised and clarified for LITC funds usage for more than two conference attendees and nonattendance of key clinic staff. If special circumstances exist you may request an exception.

- Clinics are now required to use the LITC Program logo in educational and publicity materials.

- Clarified technical consultations section.

- New section on retaining client records.

- Clarified the rule surrounding the use of the *de minimis* indirect cost rate.

- Changes made to the Civil Rights Protection section.

- New Standard Form 425 provided in Appendix B.

- As a result of the ongoing Coronavirus Disease (COVID-19) pandemic, the Office of Management and Budget (OMB) has provided agencies with the authority to grant certain administrative relief to federal grant recipients. As of the time of printing this Publication, LITCs will be afforded relief in the following areas:
  - Applicants required to complete and submit a single audit to the Federal Audit Clearinghouse as of March 19, 2020 and have a fiscal year-end through June 30, 2020 are allowed to delay the completion and submission of the single audit for six months beyond the normal due date.
  - Current registrants in SAM with active registrations expiring before May 16, 2020 will be afforded a one-time automatic extension of 60 days.
  - For NCC Requests, an abbreviated process will be used.
  - Any additional OMB COVID-19 pandemic guidance impacting the LITC Program will be communicated on the LITC Toolkit. New applicants can contact the LITC Program Office at
202-317-4700 (not a toll-free call) or email at LITCProgramOffice@irs.gov if they have questions about whether any additional guidance has been issued.

AVOIDING COMMON ERRORS
To assist with the application process, see the below list of commonly made errors. Please double check your Full Grant Application or NCC Request to avoid these errors.

Standard Form 424
Applicants requesting a multi-year grant utilized the wrong proposed project end date on line 17b.

Form 13424-M
Applicants indicate a single audit was “Qualified” when it was actually “Unqualified” and the correct selection on the form is “Unmodified.”

Form 13424-J
No full time equivalent (FTE) is provided for staff on Form 13424-J, Detailed Budget Worksheet and Narrative Explanations, or applicants fail to state how many hours per week is considered full-time. The Personnel section of the Detailed Budget Narrative Explanations should start with a statement defining how many hours constitute a work week; for example, “ABC clinic computes 1.0 FTE on a 40-hour work week (2,080 hours per year).”

There is no break-down of travel and training expenses into categories such as lodging, transportation, and meals and incidentals.

The Project Abstract is incomplete — the four primary numerical goals are not included and/or the civil rights information is not fully addressed.

Employer Identification Number and Data Universal Numbering System Number
First-time registration for an Employer Identification Number (EIN) and Data Universal Numbering System (DUNS) number is a multi-step process that can take more than eight weeks and must be completed before the application submission deadline. Applicants fail to apply early enough to receive the necessary EIN and DUNS for SAM.

Attachments
The Indirect Cost Rate Agreement (ICRA) submitted by applicants is incomplete or expired. To determine whether the ICRA is properly applied, the LITC Program Office must know what costs were included in the Modified Direct Costs. If the ICRA is expired, the applicant should provide an explanation including whether an extension was requested and, if so, the date it was requested.

An incomplete copy of the single audit is submitted, or the copy is missing (and it is unavailable on the Federal Audit Clearinghouse website).

**Paperwork Reduction Act Notice:**
This application package is provided for awards under the Low Income Taxpayer Clinic Grant Program. The information is requested from the applicants in order to determine their eligibility for an LITC grant and evaluate their grant proposals. Applicants are not required to respond to this collection of information unless it displays a currently valid OMB number. The estimated average burden associated with this collection of information is 60 hours per respondent for program sponsors and 2 hours for student and program participants. Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the IRS, Tax Forms and Publication Division, 1111 Constitution Ave., NW, Washington, DC 20224. Do not send grant application forms to this address. Grant applications must be submitted through [www.grants.gov](http://www.grants.gov) and continuation requests must be submitted through [www.GrantSolutions.gov](http://www.GrantSolutions.gov). Comments about this application package should be sent to: Internal Revenue Service, Taxpayer Advocate Service, LITC Program Office, TA:LITC, Room 1034, 1111 Constitution Ave., NW, Washington, DC 20224.

Catalog of Federal Domestic Assistance Number: 21.008 OMB Approval No.1545-1648
I. LITC PROGRAM DESCRIPTION

A. LITC GRANT PROGRAM PRIORITIES

LITCs Provide Representation, Education, and Advocacy

LITCs ensure the fairness and integrity of the tax system for taxpayers who are low-income or speak English as a second language (ESL) by:

- Providing *pro bono* representation on their behalf in tax disputes with the IRS;
- Educating them about their rights and responsibilities as taxpayers; and
- Identifying and advocating for issues that impact these taxpayers.

LITCs must:

- Incorporate all three mission prongs into their service delivery strategy;
- Provide dollar-for-dollar matching funds; and
- Offer LITC services for free or for no more than a nominal fee. See Section I.D, *Key Terms and Definitions*.

In December 2015, Congress enacted the Taxpayer Bill of Rights (TBOR)\(^1\) in Internal Revenue Code (IRC) § 7803(a)(3), which requires the IRS Commissioner to ensure that employees of the IRS are familiar, and act in accordance, with taxpayer rights. The TBOR also educates taxpayers that they have rights; that knowledge, in turn, empowers taxpayers to assert those rights during their interactions with the IRS. One of the ten fundamental rights taxpayers have when dealing with the IRS is the right to retain representation,\(^2\) meaning taxpayers have the right to retain an authorized representative of their choice to represent them in their interactions with the IRS. A taxpayer who cannot afford to hire a representative has the right to be informed about the taxpayer’s potential eligibility for assistance from an LITC. The LITC Program protects taxpayers’ rights by providing free or low-cost access to representation for low-income taxpayers, so that achieving a correct outcome in an IRS dispute does not depend on the taxpayer’s ability to pay for representation. Helping a taxpayer avoid a tax controversy through education and outreach is another essential function of LITCs. LITCs are required to educate taxpayers on their rights and responsibilities to help them understand the U.S. tax system, exercise their rights as taxpayers, and comply with their tax responsibilities. Learning is enhanced by LITCs providing an opportunity for taxpayers to ask questions and interact with clinic staff. Educational activities may be accomplished directly with taxpayers or indirectly through other organizations or groups that assist low-income and ESL taxpayers.

At least 90 percent of the taxpayers the LITC represents must be low-income, meaning the countable income for the taxpayer’s household does not exceed 250 percent of the Federal Poverty Guidelines. In addition, when an LITC represents a taxpayer, the dollar amount in controversy for any tax year generally must not exceed the amount specified in IRC § 7463 which is also the limit eligibility for special small case procedures in the U.S. Tax Court (currently $50,000). See Section VI.C.xii, *Representing Low Income Taxpayers, Low Income Taxpayers and the 90/250 Requirement*.

---

2. See IRC § 7803(a)(3)(I).
LITC Program Coverage

The IRS is committed to achieving maximum access to representation for low-income taxpayers under the terms of this grant program. For the 2020 grant year, however, there are several geographic areas of the country without an LITC or with very limited coverage. Thus, in awarding 2021 LITC grants, we will strive to provide services to low-income and ESL taxpayers in every state, the District of Columbia, and Puerto Rico. We will prioritize the funding of qualified applicants to open clinics in geographic areas with no clinic or very limited coverage (see list below) before adding a new clinic in a geographic area that already has a clinic.

Areas of Special Consideration

| Arizona (Coconino and Gila counties), California (Kern County), Florida (Brevard, Citrus, Flagler, Hernando, Lake, Marion, Orange, Osceola, Putnam, Seminole, Sumter, and Volusia counties), Hawaii, Montana, Nevada, New York (Delaware, Dutchess, Orange, Putnam, Sullivan, and Ulster counties), North Dakota, Pennsylvania (Bradford, Carbon, Clinton, Columbia, Lackawanna, Luzerne, Lycoming, Monroe, Montour, Northumberland, Pike, Snyder, Sullivan, Susquehanna, Tioga, Union, Wayne, and Wyoming counties), Puerto Rico, West Virginia, and Wyoming |

Figure 1, 2020 LITC Coverage by County
B. HISTORY OF THE LITC PROGRAM

As part of the IRS Restructuring and Reform Act of 1998,3 Congress enacted IRC § 7526 to authorize funding for the LITC Program. The IRS created the LITC Program Office in 1999 to award and administer the grants and provide guidance, assistance, and oversight to LITCs and prospective applicants. The LITC Program Office is part of the Office of the Taxpayer Advocate (commonly referred to as the Taxpayer Advocate Service (TAS)), and TAS is led by the National Taxpayer Advocate (NTA) who reports to the IRS Commissioner.

In 1999, the IRS awarded grants totaling less than $1.5 million to 34 entities located in 18 states and the District of Columbia. The LITC Program Office’s history of recruiting efforts coupled with sound judgment in selecting federal grant recipients has fostered the growth of a nationwide network of independent organizations working towards a common purpose in their local communities. The maximum statutory award amount of $100,000 per clinic has remained constant since the creation of the program. Despite the current limitation, LITCs have consistently delivered tremendous results, new clinics join each year, and the program continues to expand coverage into underserved areas of the country. The NTA included a legislative recommendation in the most recent Annual Report to Congress to amend IRC § 7526(c)(2) to increase the annual clinic funding limitation to $150,000 and index the limitation to rise with inflation in future years pursuant to the rules prescribed in IRC § 1(f).4 The LITC Program is hopeful the recommendation will be sponsored and adopted by Congress for future grant years.

---

4 National Taxpayer Advocate 2020 Purple Book, Compilation of Legislative Recommendations to Strengthen Taxpayer Rights and Improve Tax Administration103 (Increase the Individual Low Income Taxpayer Clinic Grant Cap and Index It for Inflation).
C. STATUTORY AUTHORITY TO FUND LITCs

The authority to create LITCs is derived from IRC § 7526. The text of IRC § 7526 is reprinted in full below:

Section 7526. Low-income taxpayer clinics.

(a) In general. The Secretary may, subject to the availability of appropriated funds, make grants to provide matching funds for the development, expansion, or continuation of qualified low-income taxpayer clinics.

(b) Definitions. For purposes of this section —

(1) Qualified low-income taxpayer clinic.

(A) In general. The term “qualified low-income taxpayer clinic” means a clinic that —

(i) does not charge more than a nominal fee for its services (except for reimbursement of actual costs incurred); and

(ii) (I) represents low-income taxpayers in controversies with the Internal Revenue Service; or

(II) operates programs to inform individuals for whom English is a second language about their rights and responsibilities under this title.

(B) Representation of low-income taxpayers. A clinic meets the requirements of subparagraph (A)(ii)(I) if —

(i) at least 90 percent of the taxpayers represented by the clinic have incomes which do not exceed 250 percent of the poverty level, as determined in accordance with criteria established by the Director of the Office of Management and Budget; and

(ii) the amount in controversy for any taxable year generally does not exceed the amount specified in section 7463.

(2) Clinic. The term "clinic" includes —

(A) a clinical program at an accredited law, business, or accounting school in which students represent low-income taxpayers in controversies arising under this title; and

(B) an organization described in section 501(c) and exempt from tax under section 501(a) which satisfies the requirements of paragraph (1) through representation of taxpayers or referral of taxpayers to qualified representatives.

(3) Qualified representative. The term “qualified representative” means any individual (whether or not an attorney) who is authorized to practice before the Internal Revenue Service or the applicable court.

(c) Special rules and limitations.

(1) Aggregate limitation. Unless otherwise provided by specific appropriation, the Secretary shall not allocate more than $6,000,000 per year (exclusive of costs of administering the program) to grants under this section.

(2) Limitation on annual grants to a clinic. The aggregate amount of grants which may be made under this section to a clinic for a year shall not exceed $100,000.

(3) Multi-year grants. Upon application of a qualified low-income taxpayer clinic, the Secretary is authorized to award a multi-year grant not to exceed 3 years.
(4) Criteria for awards. In determining whether to make a grant under this section, the Secretary shall consider —

(A) the numbers of taxpayers who will be served by the clinic, including the number of taxpayers in the geographical area for whom English is a second language;

(B) the existence of other low-income taxpayer clinics serving the same population;

(C) the quality of the program offered by the low-income taxpayer clinic, including the qualifications of its administrators and qualified representatives, and its record, if any, in providing service to low-income taxpayers; and

(D) alternative funding sources available to the clinic, including amounts received from other grants and contributions, and the endowment and resources of the institution sponsoring the clinic.

(5) Requirement of matching funds. A low-income taxpayer clinic must provide matching funds on a dollar-for-dollar basis for all grants provided under this section. Matching funds may include —

(A) the salary (including fringe benefits) of individuals performing services for the clinic; and

(B) the cost of equipment used in the clinic.

Indirect expenses, including general overhead of the institution sponsoring the clinic, shall not be counted as matching funds.

(6) Provision of information regarding qualified low-income taxpayer clinics. Notwithstanding any other provision of law, officers and employees of the Department of the Treasury may —

(A) advise taxpayers of the availability of, and eligibility requirements for receiving, advice and assistance from one or more specific qualified low-income taxpayer clinics receiving funding under this section, and

(B) provide information regarding the location of, and contact information for, such clinics.

D. KEY TERMS AND DEFINITIONS

90/250 requirement was established by IRC § 7526 and provides that at least 90 percent of the taxpayers represented by a clinic have incomes which do not exceed 250 percent of the federal poverty level. See Section VI.C.xii, Representing Low Income Taxpayers.

Advocacy as it relates to LITCs is zealously protecting the rights of low-income and ESL taxpayers. Advocacy can occur on an individual or systemic basis. A substantial portion of LITC work is spent assisting clients with an IRS controversy. Clinics advocate for the taxpayers they represent by ensuring they are paying the correct amount of taxes, exploring all possible options for relief, and assisting them in making a fully informed decision on how best to proceed given the facts of the case and the taxpayer’s situation. Notwithstanding the unique nature of each taxpayer’s circumstances, similarly situated taxpayers often experience similar problems with tax administration. Advocacy includes but is not limited to identifying systemic-level issues and sharing them with TAS. TAS investigates the submissions, proposes solutions, and works with the IRS to resolve the issues, or elevates them to the NTA who can communicate the issues and proposed solutions to lawmakers and the IRS administration in Annual Reports to Congress. Advocacy may also consist of responding to public requests for comments to IRS regulations or procedures.
**Amount in controversy** is the federal tax amount in dispute for each tax year for which the LITC is representing a taxpayer. Often the amount in controversy is the amount owed or the refund requested. In some disputes with the IRS, however, the amount in controversy is the amount associated with an action taken by the IRS. The amount in controversy includes the tax liability in dispute for a tax year, plus any related penalties imposed. Whether interest is included in the amount in controversy will depend on the nature of the controversy. The amount in controversy is limited to the amount in dispute, which may be less than the amount specified in an IRS statutory notice of deficiency, a notice of determination, or a notice and demand. If the taxpayer is disputing the amount due in more than one tax year or period, the amount in controversy is determined separately for each year. See Section VI.C.xii, *Representing Low Income Taxpayers, Amount in Controversy Limit*.

**Cases** are those which LITCs count and report in inventory when a taxpayer or married taxpayers retain the clinic to represent them in a controversy before the IRS or a federal court. To be counted as a case, the clinic must take steps to address the controversy, including developing a plan for advocacy. If the clinic is representing a married couple, it is counted as one case.

**Clinic** refers to an LITC. See the definition of LITC below. Throughout this Publication, the terms clinic and LITC are used interchangeably.

**Consultation** encompasses a discussion with or correspondence to a taxpayer designed to address the taxpayer’s unique circumstances and involves an analysis that is tailored to the taxpayer’s factual situation. A consultation does not result in advocating for the taxpayer before the IRS or relevant court in a representative capacity but might include fact gathering and contact with the IRS that does not rise to the level of advocacy.

**Controversy** with the IRS is a proceeding brought by the taxpayer under the IRC or any dispute between an individual and the IRS concerning the determination, collection, or refund of any tax, penalties, or interest. The definition is very broad and encompasses all types of disputes arising under the IRC, except criminal tax matters. For example, a controversy includes a dispute related to the tax provisions of the Affordable Care Act, a revocation or denial of a passport under IRC § 7345, and certain civil actions arising under IRC §§ 7431 to 7435. The dispute may be pending in a federal court or in any tax administration function of the IRS (e.g., Examination, Collection, Appeals, Accounts Management). While representing a taxpayer in a controversy with the IRS, an LITC may also need to represent the taxpayer in a controversy with a state or local tax agency concerning the same or related tax matter. Though a controversy does not include a federal criminal tax matter, it may include a state criminal tax matter. A controversy may be considered a civil matter in the federal context, but a criminal matter under state or local law. If the LITC is already representing the taxpayer in the federal civil matter, it may be appropriate for the LITC to expand the scope of the representation to include the state or local tax matter as well.

**Educational activities** (also referred to as a Program to Inform) are designed to inform ESL or low-income individuals about their rights and responsibilities as taxpayers, as well as tax issues of significance to the intended audience. Educational activities may also include a workshop or free training for other organizations that assist low-income or ESL taxpayers. To be considered an educational activity, information about a specific tax topic or topics must be conveyed to the audience. LITCs should address a wide range of substantive tax issues in their educational programs and materials (e.g., filing requirements, tax recordkeeping, family status issues, refundable credits, the Affordable Care Act, worker classification, identity theft, information about the audit and appeals process, and collection alternatives). Selecting education topics relevant to community needs and offering the presentations and/or presentation materials in languages commonly spoken in the community allows LITCs to
reach taxpayers who otherwise might experience great difficulty communicating with the IRS. In general, these programs are delivered in-person to a live audience, with participants registering, signing in, or being counted and will allow for audience interaction with the presenter.

**English as a Second Language (ESL) taxpayers** are persons for whom English is not their first language, which also includes those who communicate using sign language. These individuals may have additional burden understanding taxpayer rights and responsibilities and are a priority for LITC education and outreach efforts.

**Grants.gov** is the government website where federal agencies post discretionary funding opportunities and applicants find and apply for them.

**GrantSolutions** is a web-based, comprehensive grant management system. Clinics use GrantSolutions for submitting an NCC Request, accepting a Notice of Award (NOA), submitting reports, and reporting program plan, staffing, or budget changes.

**Key personnel** are individuals necessary for the successful functioning of the LITC. Key personnel are responsible for ensuring that the LITC’s day-to-day operations run smoothly, the LITC Program is delivered in accordance with the terms and conditions of the grant, finances are properly administered, and legal arguments are sound. Key personnel include the Clinic Director, Qualified Tax Expert (QTE), and Qualified Business Administrator (QBA). See Section VI.C.i, Standards for Operating an LITC.

**Low-income taxpayers** are individuals whose income does not exceed 250 percent of the Federal Poverty Guidelines. The Federal Poverty Guidelines are updated annually (usually in late January) by the Department of Health and Human Services (HHS). The LITC Income Guidelines current as of publication can be found in Section VI.C.xii, Representing Low Income Taxpayers. A sole proprietor is considered an individual and may be assisted by an LITC if otherwise eligible. A business or other entity is not a low-income taxpayer eligible for LITC representation. An individual trying to resolve a tax liability arising from personal involvement with a business can be a low-income taxpayer. For example, an individual who is personally liable for taxes owed from a business (e.g., a responsible person within the meaning of IRC § 6672) may be a low-income taxpayer, provided the individual otherwise meets the definition.

**Low Income Taxpayer Clinic (LITC)** is an organization receiving a grant pursuant to IRC § 7526 that represents low-income taxpayers in controversies with the IRS and that operates a program to inform ESL individuals about their rights and responsibilities under the IRC. LITCs are also referred to as clinics in this publication. Examples of a clinic include:

- A clinical program at an accredited law, business, or accounting school in which students represent low-income taxpayers in controversies arising under the IRC; and

- An organization described in IRC § 501(c) and exempt from tax under IRC § 501(a) in which employees and volunteers represent low-income taxpayers in controversies with the IRS.

**Nominal fee** is a fee that is insignificantly small or minimal. A nominal fee is a trivial payment, bearing no relation to the value of the representation provided, considering all the facts and circumstances. A nominal fee must be a flat fee; the fee cannot fluctuate based on an hourly rate or the type of services the LITC is providing. A nominal fee does not include reimbursement for actual costs incurred (e.g., photocopies, court costs, and expert witness fees).
Outreach is an activity conducted by LITCs that involves effectively publicizing and promoting the clinic’s services regarding representation, education, and advocacy on behalf of low-income and ESL taxpayers. LITCs are encouraged to identify linguistic populations, geographic service areas, or other segments of the low-income taxpayer community in which to focus outreach efforts. Outreach activities may involve direct communication (in-person contact or in writing) with taxpayers or may be accomplished through contacts with other organizations or groups that assist low-income and ESL taxpayers. Additional guidance on effective outreach can be found in Section VI.C.iii, Developing a Community Outreach Plan. Outreach plans should be developed in advance of the start of the grant period during which representation and other assistance will be offered.

Pro bono panel is a group of qualified representatives (attorneys, certified public accountants, or enrolled agents) who have agreed to accept taxpayer referrals from an LITC and provide representation or consultation services free of charge to low-income or ESL taxpayers. Clinics may also use volunteers to assist with other tasks such as education, outreach, or mentoring students.

Program plan is a description of the clinic’s planned operations, including a description of the services to be offered; how, when, and where the services will be delivered; who will provide the services; the intended recipients of the services; and numerical goals. The terms and conditions of an LITC grant include the applicant’s program plan and any subsequent changes to the plan that are agreed upon between the Program Office and the clinic.

Qualified representative is a person who is:

- An attorney;
- A Certified Public Accountant (CPA);
- An Enrolled Agent (EA) who is authorized to practice before the IRS;
- An individual authorized to appear before the applicable court where the controversy with the IRS will be adjudicated; or
- An individual authorized to practice before the IRS pursuant to 31 Code of Federal Regulations (CFR) § 10.7(d) (e.g., a student, law graduate, tribal court advocate, or other individual for whom the IRS has issued a special appearance authorization). See Section VI.C.xii, Representing Low Income Taxpayers, Representation by Students and Law Graduates.

For individuals other than students or law graduates, the IRS Commissioner (or delegate) has the authority to issue Special Appearance Authorizations to allow them to practice before the IRS.

If the Director of the LITC Program Office has authorized a student or law graduate to practice before the IRS, the student or law graduate must be supervised by a qualified representative. See Delegation Order 25-18 (Rev. 3), IRM 1.2.2.14.18 (Aug. 19, 2019).

Note: An unenrolled return preparer who can practice before the IRS based upon return preparation is not a qualified representative for purposes of the LITC Program because the authority of the unenrolled return preparer to act as a representative is limited to only certain taxpayers and select functions of the IRS. For details regarding limited practice before the IRS by individuals who are not attorneys, CPAs, or EAs, see Rev. Proc. 2014-42, 2014-29 I.R.B. 192.
Referral means the referral of low-income taxpayers to a pro bono panel for representation or consultation. An applicant cannot receive a grant solely for referring taxpayers to other qualified representatives.

Uniform Guidance refers to 2 CFR Part 200 (and also the Treasury Department’s implementation thereof, found at 2 CFR Part 1000), which contains uniform administrative requirements that relate to the pre-award, post-award, closeout, and audit phases of the federal grant life cycle. See Section VI.D, National Policy Requirements and Administrative Requirements, for a more detailed discussion.

Additional terms and definitions are available in the Glossary.
II. FEDERAL AWARD INFORMATION

A. AWARDS ARE SUBJECT TO CONGRESSIONAL APPROPRIATIONS

All awards are subject to the availability of appropriated funds. The IRS may award LITC grants of up to $100,000 per year to qualifying organizations for the development, expansion, or continuation of an LITC. Qualified organizations include, among others, academic institutions and nonprofit organizations throughout the U.S., which must meet the goals of the program to provide representation, education, and advocacy on behalf of low-income and ESL taxpayers.

Congress appropriated $12 million for LITC grant awards for 2020,\(^5\) and the IRS awarded over $11.6 million in grants to 131 entities located in 45 states and the District of Columbia. The average award in 2020 was more than $88,000. Figure 2 explains how the LITC Program receives its funding.

**Figure 2, How the LITC Program Receives Its Funding**

The major expenditures incurred by LITCs are personnel costs and fringe benefits paid to provide direct representation, education, and advocacy services to low-income and ESL taxpayers. LITCs are prohibited from using matching funds to pay indirect expenses, including general overhead of the clinic.\(^6\) This ensures more program funds are spent on taxpayer representation, education, and advocacy rather than administrative costs.

---

\(^{6}\) IRC § 7526(c)(5).
B. AWARD PERFORMANCE PERIOD

The LITC Program may award grants for up to a three-year period. However, funding is provided for one-year periods (January 1-December 31), subject to the availability of annually appropriated funds. First-time applicants will only be awarded a single-year grant. Multi-year grants will only be awarded to applicants that have successfully completed at least one year under the terms and conditions of the LITC grant. Determination of the grant period is at the discretion of the LITC Program Office. Thus, the Program Office may elect to award a single-year grant to applicants that requested a multi-year grant.

Multi-year grant recipients will be reviewed annually for satisfactory performance and progress in meeting goals and objectives as well as compliance with grant terms and conditions. The funding level for subsequent years will be reviewed annually and may be increased or decreased at the discretion of the LITC Program Office, based on performance, compliance with grant terms and conditions, and the availability of annually appropriated funds. Funds awarded must be used for the program specifically authorized in the NOA.

C. SUBGRANTS ARE PROHIBITED

A clinic may not make a subgrant of LITC grant funds to another organization or individual. A subgrant is a payment to another organization or contractor to deliver a key component of the program such as controversy representation or ESL education. This is different from payments made to a vendor or provider for providing goods and services to the clinic, which is permissible. For example, an LITC may not pay another organization to prepare and conduct its ESL educational activities; however, the clinic could pay a firm to translate its educational materials into another language or hire an interpreter to assist with delivery of education.

D. LITC GRANTS ARE NOT COOPERATIVE AGREEMENTS

Funds awarded under IRC § 7526 create grant agreements rather than cooperative agreements between the recipient and the IRS. A cooperative agreement provides for substantial involvement between the federal awarding agency and the grant recipient in carrying out the activity contemplated by the federal award. While the LITC Program Office has numerous responsibilities in administering the grant and providing oversight and assistance to clinics, that involvement does not result in the formation of a cooperative agreement. See the definitions of “cooperative agreement” and “grant agreement” in 2 CFR § 200.24 and 2 CFR § 200.51 respectively for additional details.
III. AWARD ELIGIBILITY REQUIREMENTS

Applicants that fail to satisfy the eligibility screening criteria described below will be notified and, in some circumstances, may be provided an opportunity to correct the problem. Those provided an opportunity must correct the problem in a timely manner or be eliminated from consideration. Applications that pass the eligibility screening will then undergo a technical evaluation. See Section V, Application Review.

A. ELIGIBLE APPLICANTS

To receive a grant pursuant to IRC § 7526, an applicant must represent low-income taxpayers in controversies with the IRS and operate a program to inform ESL taxpayers about their rights and responsibilities under the IRC. Examples of an eligible applicant include:

- A clinical program at an accredited law, business, or accounting school in which students represent low-income taxpayers in controversies with the IRS; and
- An organization described in IRC § 501(c) and exempt from tax under IRC § 501(a) in which employees and volunteers represent low-income taxpayers in controversies with the IRS and operate a program to inform ESL taxpayers about their rights and responsibilities under the IRC.

B. REQUIREMENT TO PROVIDE MATCHING FUNDS EQUAL TO AWARD

IRC § 7526(c)(5) requires clinics to provide matching funds on a dollar-for-dollar basis for all federal funds awarded by the IRS. The matching funds requirement ensures that each LITC grant represents a financial partnership between the clinic and the federal government for the benefit of low-income and ESL taxpayers. The commitment of matching funds by the clinic leverages the federal funding investment so that an LITC can assist more taxpayers in need. Many programs provide matching funds in the form of cash or third-party in-kind contributions (e.g., time worked by volunteers) that far exceed the minimum. Only funds that are used in direct support of the LITC Program qualify as matching funds. See Section IV.E.iii, Meeting the Matching Funds Requirement.

C. OTHER ELIGIBILITY REQUIREMENTS

1. Using Grant Funds to Support Other Activities is Prohibited

An organization awarded an LITC grant may provide qualifying LITC services within a broader spectrum of activity. For example, a clinic may provide representation in nontax matters (e.g., landlord/tenant disputes) as well as representation in tax matters, provided LITC grant funds are used only to support the representation of eligible taxpayers in a controversy with the IRS and/or a state or local tax agency concerning the same or related tax matter. LITC grant funds may also be used for properly allocated portions of indirect costs of the organization that support LITC grant activities.
ii. Charging More Than a Nominal Fee for Services is Prohibited

An LITC may not charge more than a nominal fee for its services. If a clinic charges a nominal fee, it must charge that same fee to all taxpayers, regardless of the services being sought. The goal of the LITC Program is to enhance access to representation, education, and advocacy services for low-income taxpayers. If a clinic charges an amount that is not nominal and results in fewer taxpayers assisted, the goal of the program is not being achieved. A clinic may not charge a separate or additional fee (even if it is nominal) to prepare a tax return or a claim for refund.

Note: Reimbursement of actual costs incurred (e.g., photocopying, court costs, and expert witness fees) is not considered a fee and is therefore permitted.

iii. Compliance with Federal Tax and Nontax Requirements

Federal Tax Debts

The IRS is prohibited from awarding an LITC grant to an applicant that is noncompliant with a federal tax return filing or payment obligation. Consequently, an applicant must be in full compliance with its federal tax responsibilities when applying for an LITC grant and throughout the grant year. Standard Form 424, Application for Federal Assistance, (see Appendix A) requires the applicant to state whether it is delinquent on any federal debt and if so, to provide an explanation. The LITC Program Office conducts reviews to confirm applicants’ compliance with federal tax responsibilities and other terms and conditions of the grant. See Section III.C.i, Using Grant Funds to Support Other Activities is Prohibited, supra.

An outstanding federal tax debt is any unpaid federal tax liability (including penalties and interest) that has been assessed, is not disputed, and for which all judicial and administrative remedies have been exhausted or have lapsed. An applicant or grant recipient will not be treated as noncompliant for purposes of IRC § 7526 (and therefore still eligible for funding) if the applicant or grant recipient is in a dispute with the IRS regarding a federal tax liability or has entered into and remains current with an installment agreement or other payment arrangement with the federal government to satisfy any federal tax liabilities.

IRC § 6103 prohibits the LITC Program Office from disclosing a federal tax compliance issue to anyone who is not authorized to receive the taxpayer’s tax information. Therefore, to facilitate the resolution of any potential federal tax compliance issues, Form 13424, Low Income Taxpayer Clinic Application Information, requires applicants to provide contact information for the Tax Compliance Officer (TCO), who is the individual responsible for handling the organization’s federal tax matters. Some applicants are part of a larger organization (e.g., academic institution which operates a clinic), in which case the LITC Program Office must be able to verify that the sponsoring organization does not have a federal tax compliance issue before awarding grant funds. In this situation, the TCO must be the person who is the individual responsible for handling the sponsoring organization’s federal tax matters. Applicants must also provide documentation (e.g., articles of organization or a Form 2848, Power of Attorney and Declaration of Representative) which shows how the applicant on Form 13424 is properly authorized to receive tax information to prevent the IRS from making an unauthorized disclosure.

Complying with federal tax obligations is a requirement to receive an LITC grant, so it is imperative that the designated individual be knowledgeable and prepared to promptly address any federal tax issues of the applicant or the sponsoring organization. Failure to provide an appropriate contact could delay application processing in the event the LITC Program Office identifies a federal tax compliance issue of the applicant or its sponsoring...
organization and needs to discuss the issue further. In addition, if the LITC Program Office is unable to speak with the appropriate contact to ascertain the status of the organization’s efforts to address the federal tax compliance issue, no grant funds will be awarded to the applicant. Similarly, even after grant funds have been awarded, the LITC Program Office performs tax compliance checks throughout the grant year. Without an appropriate contact with whom the LITC Program Office can discuss a tax compliance issue, in the event a tax compliance issue arises during the grant year, the LITC Program Office may need to restrict the clinic’s access to grant funds.

**Federal Nontax Requirements**

In general, the IRS will not award an LITC grant to an applicant that is noncompliant with a federal nontax filing or payment obligation. An outstanding federal nontax debt is an unpaid federal liability (other than a federal tax obligation) that has been assessed, is not disputed, and for which all administrative and judicial remedies have been exhausted or have lapsed. An applicant or grant recipient will not be treated as noncompliant for purposes of IRC § 7526 (and therefore still eligible for funding) if the applicant or grant recipient is in a dispute with the federal government regarding a federal nontax liability or has entered into and remains current with an installment agreement or other payment arrangement with the federal government to satisfy any outstanding federal nontax obligations. The LITC Program Office utilizes the SAM to help determine whether an applicant or clinic is eligible to receive payments. See Section III.C.i, *Using Grant Funds to Support Other Activities is Prohibited, supra.*

**iv. Debarment and Suspension**

When applying for a grant, applicants are required to make certain certifications and provide certain assurances. One of these certifications is the Certification Regarding Debarment, Suspension, and Other Responsibility Matters — Primary Covered Transactions. Applying the “common rule” on non-procurement, debarment, and suspension7 adopted by the Department of the Treasury at 31 CFR Part 19, Subpart C, an applicant must certify that its organization and the LITC Clinic Director are not presently debarred or suspended from covered transactions by any federal agency. In addition, an applicant must indicate that within the three-year period before applying for a grant, its organization and the LITC Clinic Director have not been convicted of or had a civil judgment rendered against them for fraud, theft, or certain other offenses, and have not had one or more public transactions terminated for cause or default. An applicant must also indicate that its organization and the LITC Clinic Director are not presently criminally or civilly charged with certain offenses.

Applicants may check the status of the organization or key personnel before applying by searching on www.SAM.gov. If an applicant identifies incorrect information about the organization or key personnel, the applicant should contact the agency that reported the information. The LITC Program Office utilizes SAM to determine ineligible grant recipients and prevent improper payments.

---

7 The “common rule” means the procedures used by federal agencies to suspend, debar, or exclude individuals or entities from participation in nonprocurement transactions under Executive Order 12549.
IV. APPLICATION AND SUBMISSION PROCESS

A. ACCESSING THE LITC GRANT APPLICATION PACKAGE AND GUIDELINES

A copy of this publication can be downloaded from www.irs.gov/pub/irs-pdf/p3319.pdf, or you can request a copy be mailed to you. For information about ordering IRS Publications, including this one, visit www.irs.gov/forms-pubs/forms-and-publications-by-us-mail.

Preparing and submitting a grant application is a major undertaking. Take time to understand and review the process well in advance of the application submission deadline. Prepare and start as early as possible. Completing the required registrations for the first time is a multi-step process that can take more than eight weeks and MUST be completed before the application submission deadline. See Section IV.C.i, System for Award Management, infra, for steps that should be taken as early in the application process as possible.

B. REQUIRED CONTENT FOR LITC FULL GRANT APPLICATIONS AND NON-COMPETING CONTINUATION REQUESTS

i. Determining Type of Application

There are two types of LITC grant applications: LITC Full Grant Applications and Non-Competing Continuation (NCC) Requests.

- A new applicant seeking an LITC grant award for the first time, or a returning clinic whose LITC award period has ended, or will end on December 31, 2020, must submit a Full Grant Application to apply for 2021 funding. See Section IV.B.ii, Completing and Submitting a Full Grant Application Package on Grants.gov, infra.

- A returning clinic funded with a multi-year LITC grant that ends after December 31, 2020, must submit an NCC Request to be considered for 2021 funding. See Section IV.B.iv, Completing and Submitting an NCC Request on GrantSolutions.gov, infra.

ii. Submitting a Full Grant Application on Grants.gov

LITC Full Grant Applications must be submitted electronically via www.grants.gov. The submission system on Grants.gov provides free access to the necessary forms required to complete an application and notifies applicants if any fields were left blank where a response is required. The Grants.gov website includes a narrated tutorial and Frequently Asked Questions to help you use the system. Applicants will receive an email confirmation from Grants.gov that serves as acknowledgement of application submission.

The Funding Opportunity Number for the 2021 LITC Grant Application is TREAS-GRANTS-052021-001.
iii. Instructions for Completing Full Grant Application

Appendix A of this publication is a useful guide for completing each of the required application forms. OMB requires certain standard forms for use in all federal grant programs. The IRS also requires forms be completed specifically for an LITC grant. To assist applicants in completing the required forms, the appendix includes screen shots and instructions for completing the forms, as well as examples.

A complete Full Grant Application consists of the following items, submitted through Grants.gov and prepared in accordance with the relevant instructions:

a. Standard Form 424, Application for Federal Assistance
b. Standard Form 424A, Budget Information – Non-Construction Programs
c. IRS Form 13424, Low Income Taxpayer Clinic (LITC) Application Information
d. IRS Form 13424-J, Detailed Budget Worksheet and Narrative Explanations
e. IRS Form 13424-M, Low Income Taxpayer Clinic (LITC) Application Narrative
f. Attachments Form, which is part of the downloadable PDF from Grants.gov and must be used to submit the following items:
   - Tax exemption determination letter, if applicable
   - Proof of academic accreditation, if applicable
   - Most recent audited financial statement (if the applicant expends $750,000 or more in federal funds during the applicant's fiscal year, this must be a single audit or program-specific audit as required by 2 CFR § 200.501.) If the applicant’s most recent audited financial statement is available from the Federal Audit Clearinghouse found at https://harvester.census.gov/facweb/ then in lieu of attaching the audit, check the “yes” box located on Form 13424-M in response to question II.4.ii. See Section IV.E.iv, OMB Audit Requirement, infra.

* Please note that as a result of the COVID-19 pandemic, OMB has provided agencies with the authority to grant certain administrative relief to federal grant recipients. One area of relief pertains to the requirement to complete and submit a single audit to the Federal Audit Clearinghouse. For applicants that are required to complete and submit a single audit to the Federal Audit Clearinghouse (per 2 CFR § 200.501) but have not done so as of March 19, 2020, and have a fiscal year-end through June 30, 2020, an automatic extension of six months beyond the normal due date is allowed. No further action is required to obtain the extension, but include a statement on Form 13424-M, question II.4.iv. with the new date by which the single audit will be provided. For returning applicants, the LITC Program Office will conduct the Full Grant Application financial review using the single audit provided with the prior year’s application. For new applicants, please provide a copy of the most recent single audit completed for the sponsoring organization or check the “yes” box on Form 13424-M, question II.4.ii. to indicate that the most recent audit is available from the Federal Audit Clearinghouse.*

- For an applicant that does not have audited financial statements, an unaudited statement for its most recent fiscal year and a statement as to why an audited financial statement is not available
iv. Submitting an NCC Request on GrantSolutions

A returning clinic funded with a multi-year LITC grant that ends after December 31, 2020, must submit an NCC Request. All NCC Requests must be submitted via GrantSolutions at www.grantsolutions.gov, the LITC Program’s web-based grants management system. The submission system on GrantSolutions provides free access to the necessary forms required to complete an NCC Request and notifies applicants if any fields were left blank where a response is required. NCC Requests will receive an email confirmation from GrantSolutions that serves as acknowledgement of the NCC Request submission. Do not submit NCC Requests via Grants.gov. An abbreviated NCC Request process will be used this year. See instructions below. The LITC Program Office will provide annual training on how to use GrantSolutions to submit NCC Requests as well as reports. Additional questions regarding the use of GrantSolutions may be directed to the Program Office at Beard.William@irs.gov.

v. Instructions for Completing NCC Request Forms

OMB generally requires certain standard forms for use in all federal grant programs. However, as a result of the COVID-19 pandemic, OMB is allowing federal agencies to institute an abbreviated NCC Request process. The abbreviated instructions will be provided on the LITC Toolkit by the opening of the application period. The applicant will be required to submit a statement verifying that the clinic intends to continue operations in 2021 and the proposed goals for the year. The NCC Request will be submitted through GrantSolutions and prepared in accordance with the relevant instructions to be provided.

vi. Withdrawing Applications After Submission

LITC grant applications may be withdrawn at any time during the application process or prior to when the time grant money is awarded by notifying the LITC Program Office by fax or email. See Section VII.F, Contacting the LITC Program Office, infra. Application withdrawals cannot be completed through Grants.gov or GrantSolutions.

C. SYSTEM FOR AWARD MANAGEMENT REGISTRATION REQUIREMENT AND UNIQUE ENTITY IDENTIFIERS

An organization must be registered with SAM to submit a grant application. SAM registration requires the organization to provide an EIN from the IRS and a DUNS number from Dun & Bradstreet, Inc. Because first-time registration with these groups is a multi-step process that can take more than eight weeks, applicants are advised to register for these numbers well in advance of the application submission deadline. See Avoiding Common Errors section, supra.
i. **System for Award Management**

SAM is a web-enabled government-wide application that collects, validates, stores, and disseminates business information about the federal government’s trading partners in support of the contract award, grant, and electronic payment processes. SAM registration is necessary to submit a grant application and must be maintained with current information while an application for funding is pending and during the performance period of any federal award. To maintain an active registration in the SAM database, an organization must review and update its information in the SAM database at least once every 365 days. More information about the registration and renewal process is available on the SAM website at [www.SAM.gov](http://www.SAM.gov).

Individuals registering a new entity as well as those renewing a registration must provide an original, signed notarized letter stating that the individual is the authorized Entity Administrator before the registration will be activated or renewed.

* Please note that as a result of the COVID-19 pandemic, OMB has provided agencies with the authority to provide certain administrative relief to federal grant recipients. One such area of relief pertains to SAM registrations. Current registrants in SAM with active registrations expiring before May 16, 2020, will be afforded a one-time automatic extension of 60 days.*

ii. **Employer Identification Number**

An EIN is a unique nine-digit number assigned by the IRS to business entities operating in the U.S. for the purpose of identification. Applicants that do not have an EIN should submit a Form SS-4, Application for Employer Identification Number, to the IRS. It can take several weeks for the IRS to assign a number. The fastest way to get an EIN is online at [www.irs.gov/ein](http://www.irs.gov/ein). There are also options to apply by fax or by mail. Due to current circumstances, however, applicants are strongly encouraged to use online submission. For more information, use [How to Apply for an EIN](http://www.irs.gov) as the search terms on [www.irs.gov](http://www.irs.gov).

iii. **DUNS Number**

Organizations must provide a DUNS number with the grant application. A DUNS number is a nine-digit unique entity identifier provided by Dun & Bradstreet, Inc. The federal government requires that all applicants for federal grants and cooperative agreements, except for individuals other than sole proprietors, have a DUNS number. The federal government will use the DUNS number to identify related organizations that are receiving funding under grants and cooperative agreements, and to provide consistent name and address data for electronic grant application systems. A DUNS number may be obtained by calling 866-705-5711 or applying online at [https://fedgov.dnb.com/webform](https://fedgov.dnb.com/webform). See 2 CFR Part 25 for more information on the requirement to include a DUNS number with the application.

Beginning in December 2020, the DUNS number for all entities will be replaced by a Unique Entity Identifier (UEI), or the Entity ID. The UEI will be requested via, assigned by, and managed through SAM. Grants.gov will begin changing the naming convention to UEI in March 2020, but the number that shows will still be the DUNS number. Organizations should use their current DUNS number until SAM generates the UEI for your organization. For more information, the U.S. General Services Administration (GSA) recently published an information webpage that outlines the upcoming changes. See the webpage at [www.gsa.gov/about-us/](http://www.gsa.gov/about-us/).
D. SUBMISSION DUE DATES AND TIMES

i. Due Date for LITC Full Grant Applications and NCC Requests

To be considered for 2021 LITC Program grant funding, all grant applications must be submitted by 11:59 pm (ET) on June 16, 2020. The time and date of the email confirmation from Grants.gov acknowledging application submission serves as evidence that the Full Grant Application was timely submitted and should be retained by the applicant. Similarly, the time and date of the email confirmation from GrantSolutions acknowledging the submission of the NCC Request serves as evidence that the NCC Request was timely submitted and should be retained by the applicant.

ii. Incomplete or Late LITC Full Grant Applications and NCC Requests

An application is considered incomplete if it fails to include any of the required forms listed in Section IV.B.iii, Instructions for Completing Full Grant Application Forms, or Section IV.B.v, Instructions for Completing NCC Request Forms, or if the applicant fails to complete the forms in accordance with the relevant instructions. Incomplete applications submitted before the due date will be reviewed and may be considered, depending on the circumstances. Applications submitted after the due date will not be reviewed or considered absent extraordinary circumstances. Due to the COVID-19 pandemic, if an applicant required to submit a full application anticipates impediments to submitting an application by the June 16, 2020 deadline, the applicant should contact that LITC Program Office at LITCProgramOffice@irs.gov to determine whether the applicant may be eligible for an extension.
E. BUDGET CONSIDERATIONS AND FUNDING RESTRICTIONS

i. Spending LITC Grant Funds and Matching Funds

2 CFR Part 200 – Subpart E – Cost Principles

Grant funds and matching funds must be used for expenses in accordance with the cost principles guidance in 2 CFR Parts 200 and 1000. Generally, for an expense to be allowable, the expense must:

- Be necessary and reasonable for the performance of the federal award and be allocable thereto under the applicable cost principles. See 2 CFR § 200.403(a);
- Conform with any limitations or exclusions set forth in the cost principles or in the NOA. See 2 CFR § 200.403(b);
- Be consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the grantee. See 2 CFR § 200.403(c);
- Be accorded consistent treatment by the grantee. A cost may not be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the federal award as an indirect cost. See 2 CFR § 200.403(d);
- Be determined in accordance with generally accepted accounting principles (GAAP), except for state and local governments and Indian tribes only, as otherwise provided for in the cost principles. See 2 CFR § 200.403(e);
- Not be included as a cost or used to meet cost-sharing or matching requirements of any other federally-financed program in either the current or a prior period. See 2 CFR § 200.403(f); and
- Be adequately documented. See 2 CFR § 200.403(g).

Clinics should refer to the Uniform Guidance for detailed rules regarding allowable and unallowable expenses. Generally, the same rules that apply to expenditures made using federal grant funds apply to expenditures made using matching funds. However, IRC § 7526(c)(5) specifically prohibits indirect expenses, including general overhead of the institution sponsoring the clinic, from being counted as matching funds.

Start-Up Expenses May Be Paid Using LITC Grant Funds

LITC grant funds may be used on start-up activities, and an applicant may be selected to receive an LITC grant award for the full grant year even if it anticipates that it will not be able to begin operations at the start of the performance period. All grant recipients must satisfy the statutory matching funds requirement during the period covered by the grant and must meet all reporting requirements, regardless of when operations begin. Reports should provide information on the status of the start-up activities. In addition, LITC grants to these applicants will be conditioned on the performance of required grant activities as detailed in Section I.A, LITC Grant Program Priorities, supra, during the immediately succeeding grant year; however, grant funds for the immediately succeeding grant year are not guaranteed to be awarded.
Examples of Allowable Expenses

The table below lists examples of common expenditures for an LITC. The left-hand column lists items that are an allowable use of federal grant funds or matching funds, and the right-hand column lists items that are not an allowable use of federal grant funds or matching funds. This is not an all-inclusive list. If clinics have any questions about whether an expense is allowable, they should contact their assigned LITC Advocacy Analyst for guidance before incurring the expense.

*Remember:* Under 2 CFR § 200.403(a), two basic criteria in determining whether a cost is allowable are that (1) it must be necessary and reasonable for the performance of the grant, and (2) it must be consistent with the policies in 2 CFR Part 200.

<table>
<thead>
<tr>
<th>Allowable Expenses</th>
<th>Unallowable Expenses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Salaries, wages, and fringe benefits for services rendered by LITC employees. See 2 CFR § 200.430(a) and § 200.431.</td>
<td>Purchase, construction, repair, or rehabilitation of any building or any portion thereof.</td>
</tr>
<tr>
<td>Reasonable office supplies and equipment costs necessary to provide LITC services. See 2 CFR § 200.94.</td>
<td>Expenses incurred that do not support or benefit the LITC Program or which are unnecessary in carrying out LITC activities. See 2 CFR § 200.403.</td>
</tr>
<tr>
<td>Refreshments for volunteers, provided the costs are reasonable. See 2 CFR § 200.432.</td>
<td>Refreshments for employees, unless their workload requires those employees to work outside the normal hours of clinic operation. See 2 CFR § 200.445.</td>

### ii. Direct vs. Indirect Expenses

Direct expenses are the necessary and reasonable expenses that support LITC activities, as well as the functions of the organization. The expenses should be allocated and charged as a direct cost of award funds if it is practical to separate the portion of the expense allocable to LITC activities. The determination of whether it is practical or reasonable to allocate expenses directly in proportion to use depends on several factors, including the size of the organization operating the LITC, size and number of other functions the organization operates, and amount of the expense.

Indirect expenses are often commonly referred to as Facilities and Administration (F&A) costs. The Uniform Guidance defines indirect costs as:

>[T]hose costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. (2 CFR § 200.56).

For example, an organization has a $5,000 expense that supports LITC activities and two other programs the organization operates. Suppose the organization can spend an additional $100 in administrative costs to accurately allocate the $5,000 among the three programs in proportion to the benefit each receives. In that case, the allocation is reasonable, and the organization should perform the allocation and charge the portion of the $5,000 that is allocable to LITC activities as a direct cost.

Now suppose the organization has a $5,000 expense that supports LITC activities and two other programs the organization operates, but to properly allocate the $5,000 among the three programs in proportion to the benefit each receives, it would cost the organization an additional $2,000 in administrative costs. In that case, direct allocation of the cost is not cost-effective, and the organization can choose to account for the $5,000 expense as an indirect cost. The organization then apportions the total indirect costs (i.e., the indirect cost pool) to each of the benefiting programs using a method that is consistent, reasonable, auditable, and in accordance with generally accepted business practices.

The Uniform Guidance in 2 CFR § 200.414(b) recognizes that because of the diverse characteristics and accounting practices of nonprofit organizations, it is not possible to specify the types of costs which may be
classified as indirect expenses in all situations. The purpose of the federal award is the determining factor in distinguishing direct from indirect costs, rather than the nature of the goods and services expensed.

**Typical Indirect Expenses May Include:**
- Salaries and wages of administrative and support staff;
- Related employee benefits;
- Facility occupancy costs (e.g., utilities, security, maintenance);
- Office supplies; and
- Legal and auditing charges.

Once the organization has classified expenses as either direct or indirect, the organization must determine how to allocate the indirect costs among the programs that they benefit, so that LITC funds do not subsidize the indirect costs of other programs or functions of the organization. To calculate the amount of federal funds allocable to indirect costs, the organization may use a negotiated indirect cost rate agreement (ICRA) approved by the organization’s cognizant agency. If the organization has never obtained a negotiated indirect cost rate, it may elect to apply the *de minimis* rate.

Indirect costs may not be used to satisfy matching funds obligations. See IRC § 7526(c)(5).

**Negotiated Indirect Cost Rate Agreements and Cognizant Agencies**

Obtaining an Indirect Cost Rate Agreement (ICRA) is a complex process that requires preparing and submitting an indirect cost rate proposal (including supporting schedules and documentation) and may take several months or even years to establish a final rate. A cognizant agency for indirect costs means the federal agency responsible for reviewing, negotiating, and approving cost allocation plans or indirect cost proposals developed under 2 CFR Part 200 on behalf of all federal agencies. See 2 CFR § 200.19. For Institutes of Higher Education (IHEs), cost negotiation cognizance is assigned to the Department of Health and Human Services (HHS) or the Department of Defense (DoD) Office of Naval Research, normally depending on which of the two agencies provides more funds to the educational institution for the most recent three years.

For nonprofit organizations, the federal agency that awards the largest dollar value to the organization will be designated as the cognizant agency for indirect costs. This federal agency will negotiate and approve of the indirect cost rates (unless different arrangements are agreed to by the federal agencies concerned), and, where necessary, negotiate and approve other rates such as fringe benefit and computer charge-out rates. See Appendix III of the Uniform Guidance, Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Institutions of Higher Education (IHEs), paragraph C.11.

The IRS does not negotiate ICRAs but will accept a negotiated ICRA approved by another federal agency. Organizations that apply an ICRA to determine the portion of indirect costs allocable to a federal award must carefully separate direct costs from costs classified as indirect in the ICRA, and the ICRA must set forth cost items
included in the rate. Indirect costs are then calculated by applying the negotiated rate against the direct cost base. Costs accounted for as indirect costs in the ICRA may not be expensed as direct costs (i.e., double-dipping). For example, if a clinic is part of a larger organization that has an ICRA, and the rental cost of the facility in which the clinic operates is included in the negotiated rate, the clinic may not include the facilities cost as a direct expense. The contractual expense category can be found on Form 13424-L, Statement of Grant Expenditures.

**Provisional Cost Rate Agreement**

If a clinic is operating under a provisional ICRA at the commencement of the budget period (also referred to as funding period), which ordinarily commences January 1 and concludes December 31 of the same calendar year, the provisional rate will be used for billing and reporting purposes for that period. The rate when finalized will be applied to future budget periods during which the grantee receives funding, if any.

**De Minimis Indirect Cost Rate**

Under 2 CFR § 200.414(f) of the Uniform Guidance, a *de minimis* rate of ten percent of Modified Total Direct Costs (MTDC) is available for organizations that have never had a negotiated ICRA. This is a simple, straightforward option for award recipients without substantial experience managing grant funds. An organization that elects to use the *de minimis* rate must use the rate for all federal awards it receives, and may use such rate indefinitely, or may choose to negotiate an ICRA at any time.

If the clinic elects to use the *de minimis* rate to charge indirect costs, it must charge costs consistently across federal grants and may not double charge or inconsistently charge as both.

**Modified Total Direct Cost**

MTDC includes all direct salaries and wages, applicable fringe benefits, materials and supplies, services and travel. MTDC excludes equipment, capital expenditures, rental costs, tuition remission, scholarships and fellowships, and participant support costs. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs. See 2 CFR § 200.68.

---

If a clinic charges indirect costs based on an approved ICRA, a copy of the agreement must be submitted along with Form 13424-J, Detailed Budget Worksheet and Narrative Explanations. See Section IV.B.ii, *Completing and Submitting a Full Grant Application on Grants.gov.*
### iii. Meeting the Matching Funds Requirement

Grantees must provide matching funds on a dollar-for-dollar basis for all federal LITC grant funds received. See IRC § 7526(c)(5). In general, the Uniform Guidance provides that all contributions, including cash and third-party in-kind, can be accepted as matching funds when such contributions are:

- Verifiable from the grantee’s records. See 2 CFR § 200.306(b)(1);
- Not used as a match or contribution for any other federal award. See 2 CFR § 200.306(b)(2);
- Necessary and reasonable for accomplishment of LITC Program objectives. See 2 CFR § 200.306(b)(3);
- Allowable under the applicable cost principles. See 2 CFR § 200.306(b)(4);
- Not paid by the federal government under another award, except when authorized by federal statute. See 2 CFR § 200.306(b)(5);
- Provided for in the grantee’s approved budget. See 2 CFR § 200.306(b)(6); and
- In conformity with other applicable provisions of the Uniform Guidance. See 2 CFR § 200.306(b)(7).

Qualified matching funds can be derived from multiple sources and in various forms, such as cash, services provided by volunteers, property, and income from program activities. Grants may be awarded based on good faith estimates of matching funds, including verifiable pledge commitments or other likely sources of funding. However, grantees are advised to monitor the sources and uses of matching funds throughout the grant year to ensure that sufficient matching funds are available to meet the dollar-for-dollar match requirement in IRC § 7526(c)(5). Failure to document the sources and amounts of all matching funds may result in the LITC Program Office requiring the grantee to repay federal funds (plus any applicable interest) received in excess of the documented match.

<table>
<thead>
<tr>
<th>Qualified matching funds include (but are not limited to):</th>
<th>Ineligible matching funds include (but are not limited to):</th>
</tr>
</thead>
<tbody>
<tr>
<td>Legal Services Corporation funds.</td>
<td>Expenses incurred for the purchase, construction, repair, or rehabilitation of any building or any portion thereof.</td>
</tr>
<tr>
<td>Salaries, including fringe benefits, of clinic staff.</td>
<td>Services provided by students that are not furnished on a volunteer basis, such as in exchange for academic credit.</td>
</tr>
<tr>
<td>Equipment and supplies used in the clinic.</td>
<td>Federal work-study funds.</td>
</tr>
<tr>
<td>Other costs necessary to the operation of the program.</td>
<td>Funds from other federal grants unless specifically authorized by statute. See 2 CFR § 200.306(b)(5).</td>
</tr>
<tr>
<td>The value of volunteer services furnished by professional and technical personnel, consultants, and other skilled and unskilled labor.</td>
<td>Indirect costs, including general overhead of the institution sponsoring the LITC.</td>
</tr>
<tr>
<td>The fair market value of donated equipment and supplies.</td>
<td></td>
</tr>
<tr>
<td>The fair rental value of donated space.</td>
<td></td>
</tr>
<tr>
<td>Program Income (e.g., nominal fees charged or awards of attorneys’ fees). See 2 CFR §§ 200.80 and 200.307 for a definition and discussion of program income, respectively.</td>
<td></td>
</tr>
</tbody>
</table>
If an individual on the LITC staff receives an award or fellowship from a non-federal source (e.g., the ABA Section of Taxation Public Service Fellowship), the amount of the award may be included as matching funds to the extent the award proceeds are used to support LITC activities.

Valuing Contributions of Goods and Services to Meet the Matching Funds Requirement

Contributions of goods and services provided to a grantee must be valued in accordance with applicable cost principles. These principles generally limit values to:

- The amount a prudent person would pay for the goods or services in an arm’s length transaction under the circumstances prevailing at the time the cost was incurred. See 2 CFR § 200.404(b); or
- Fair market value. See 2 CFR § 200.404(c).

Non-cash contributions (e.g., goods, space, or volunteer services donated to the LITC) from parties other than the grantee or the federal government (i.e., third-party in-kind contributions) must be valued in accordance with the principles stated in 2 CFR § 200.306 (except for contributions of certain volunteer services by a qualified representative which are governed by 2 CFR § 1000.306).

Determining the Value of Volunteer Services

In general, the rates used to value volunteer services must be consistent with those paid for similar work in the organization and may include a reasonable amount for fringe benefits.

If no one else on staff performs similar work that could provide a basis for comparative valuation, the organization must use a rate that is consistent with the labor market rate for similar work. One source of wage rates by geographic area can be found on the Bureau of Labor Statistics (BLS) website at https://www.bls.gov/bls/blswage.htm. However, note that the BLS data represents a wage rate only and can be adjusted upward by adding a reasonable fringe benefits amount in determining a volunteer services valuation rate.

If a third-party employer (e.g., a local law firm’s pro bono campaign) provides one of its employees to work for the applicant at no cost, those services are valued at the employee’s regular rate of pay, plus reasonable fringe benefits, provided the services are in the same skill set for which the employee is normally paid. In other words, if a local law firm offered ten hours of volunteer service from an associate attorney in its tax division to an LITC, the LITC would be able to value those ten hours at the attorney’s regular rate of pay at the law firm, plus reasonable fringe benefits, provided the attorney performs ten hours of substantive legal work.

Valuation is Dependent on the Type of Services

Grantees should also be mindful that a volunteer may meet the definition of a qualified representative yet may be providing services to the clinic in a non-representative capacity. In the previous example, if the attorney spent ten hours repainting the lobby of the LITC over a weekend instead of performing legal work, the LITC could still count the volunteer’s time as matching funds; however, it would need to value the attorney’s time at the rate for hiring a painter in the local labor market, plus reasonable fringe benefits.
Services Donated by Employees May Not Be Used as Matching Contributions

An employee of the grantee may not be treated as a volunteer for purposes of valuing in-kind services. For example, suppose an LITC pays an employee an hourly wage to work at the LITC three days a week, and the employee chooses to spend an additional two days each week volunteering at the LITC. In the example, the LITC may charge the employee’s wages as an expenditure of federal or matching funds, but it cannot apply the value of the two days spent volunteering as a contribution to help meet the matching funds requirement.

Special Rule for Valuing Volunteer Services of a Qualified Representative

When the Treasury Department implemented the cost principles of 2 CFR § 200.306, it provided that notwithstanding the general rule prescribed in § 200.306(e), LITCs may use the rate found in IRC § 7430 to value volunteer in-kind services, if the following conditions are met:

- Grantee is funded to provide controversy representation (all grantees now meet this requirement); Services are provided by a qualified representative, which includes any individual, whether or not an attorney, who is authorized to represent taxpayers before the IRS or an applicable court;
- Qualified representative is not a student; and
- Qualified representative is acting in a representative capacity and is advocating for a taxpayer.

Unless all the above criteria are met, grantees should apply the standard cost principles from 2 CFR § 200.306 as described above.

IRC § 7430 provides taxpayers a right to an award of costs and fees for services provided by qualified representatives in suits against the U.S. when the statutory requirements of IRC § 7430 are satisfied. The rate at which to value those services is adjusted periodically for inflation. For the 2020 calendar year, the maximum rate is $210 per hour, as prescribed in Revenue Procedure 2019-44, 2019-47 I.R.B. 1093, unless the representative can establish that a special factor, as described in IRC § 7430(c)(1)(B)(iii), applies.

The LITC Program Office encourages applicants with questions about how to value volunteer services to contact the Program Office for assistance; current grantees should contact their assigned Advocacy Analyst.
OMB Audit Requirement

A grantee that spends $750,000 or more in total federal awards during a fiscal year is subject to the audit requirements established by OMB. See 2 CFR § 200.501. Total federal awards received by the organization include all sources of federal funding, not just the funds received from the IRS in support of the LITC. The IRS has the right to audit expenditures of LITC funds regardless of the dollar amount of federal funding received by the grantee.

A grantee that expends $750,000 or more in federal awards during a fiscal year must provide the IRS with a copy of the results of an audit performed in compliance with the Uniform Guidance. Grantees subject to the audit requirement must arrange for an audit by an independent auditor in accordance with the Government Auditing Standards developed by the Comptroller General of the United States.

If an audit is required pursuant to 2 CFR Part 200, it must be organization-wide. The auditor must determine whether the organization:

- Offers financial statements that present fairly its financial position and the results of its operations in accordance with generally accepted accounting principles;
- Maintains internal controls sufficient to provide reasonable assurance that the LITC is complying with applicable laws and regulations, particularly the laws and regulations that could materially impact the financial statements; and
- Complies with laws and regulations that may have a direct and material effect on its financial statement amounts and on each major federal program.

A reasonably proportionate share of the costs of an audit performed in compliance with the Uniform Guidance is an allowable LITC grant expense.

As a result of the COVID-19 pandemic, OMB has granted a six month extension to complete and submit a single audit to the Federal Audit Clearinghouse. See Section IV.B.iii, Instructions for Completing Full Application Forms, supra, for more details about the extension.

Obtaining Grant Payment History for an OMB or Single Audit

OMB audits often require historical grant payment information. This information is not available from the LITC Program Office. Those seeking information pertaining to payment or transaction history from the Payment Management System (PMS) should visit the PMS website at www.dpm.psc.gov/grant_recipient/audit_confirmation_procedures.aspx.
V. APPLICATION REVIEW

A. TECHNICAL EVALUATION OF FULL GRANT APPLICATIONS AND SCORING CRITERIA

Technical Evaluation

Full Grant Applications that pass the eligibility screening process will then undergo a technical evaluation by a ranking panel. Applications receiving a score of 49 or lower will not be reviewed by the LITC Program Office and will not receive an award. Applicants not receiving awards may request their scores through a Freedom of Information (FOIA) request.

During the technical evaluation, ranking panels will review each Full Grant Application using the criteria listed below and award points based on the information provided in the application. Ranking panel members will evaluate each program plan based on how it will assist in accomplishment of LITC Program goals. Applicants can receive a maximum of 100 points. Points will be assigned as follows:

Experience (Maximum 13 points)
Experience in operating a low-income taxpayer clinic or delivering representation and education services to low-income and ESL taxpayers.

Financial Responsibility (Maximum 11 points)
Quality of grant administration and internal accounting procedures.

Program Performance Plan (Maximum 71 points)
Quality of the program plan offered to assist low-income and ESL taxpayers. Evaluation criteria include:

- Qualifications, training, and supervision of the clinic staff, students, and volunteers;
- Amount of time devoted to the program by clinic staff;
- Comprehensiveness of services to be provided;
- Procedures for ensuring the confidentiality of taxpayer information;
- Procedures for monitoring and evaluating program results;
- Publicity and outreach plans;
- Organizations identified within the community for collaboration to achieve outreach to the identified audience; and
- Dates and hours of clinic operation.

Program Coverage (Maximum 5 points)
Number of low-income and ESL taxpayers in the geographic area(s) to be covered, proposed efforts to reach these taxpayers, and the number of taxpayers to be assisted.
Only information contained in the application will be considered during the technical evaluation process. Therefore, it is extremely important that a submission contain all required information to achieve the maximum score.

B. LITC PROGRAM OFFICE EVALUATION OF FULL GRANT APPLICATIONS AND NCC REQUESTS, AND SELECTION

I. LITC Program Office Evaluation

Full Grant Applications that earned a score of 50 points or more during the technical evaluation will undergo a secondary evaluation by the LITC Program Office. The secondary evaluation will be based on the information contained in the application, as well as the applicant’s performance history in the LITC Program, as applicable. The LITC Program Office will also review and evaluate NCC Requests. LITC management officials are subject to recusal if participation in an evaluation would result in a conflict of interest or the appearance of a conflict of interest.

Evaluation of Full Grant Applications

Information contained within the application may be subject to verification. The LITC Program Office will consider:

- Quality of the proposed program;
- History of performance under LITC grants in prior years, if applicable;
- Soundness of the proposed budget; and
- Any significant concerns identified during the technical evaluation.
Evaluation of NCC Requests
The LITC Program Office will review all NCC Requests, including the statement of intent to continue LITC operations. A risk assessment will also be conducted for each applicant to determine whether the applicant can responsibly manage federal funds. Detailed instructions will be provided on the LITC Toolkit when the grant application period opens.

Additional Considerations
The decision of whether to award grant funds will be based on the technical evaluation (for Full Grant Applications), the LITC Program Office evaluation, and the following additional considerations:

- Existence of other clinics in the applicant’s geographic coverage area assisting the same population of taxpayers;
- Scope of services that the clinic will provide;
- The number of low-income and ESL taxpayers that will be assisted;
- Languages in which assistance will be provided to taxpayers;
- Reasonableness of funds sought for the quantity and quality of services to be offered;
- Other sources of funding available to the clinic;
- The sources of matching funds that the clinic plans to use;
- Anticipated funding available to the LITC Program; and
- Any non-compliance with all federal tax and nontax obligations, and national policy requirements. See Section III.C.iii, Compliance with Federal Tax and Nontax Requirements, supra.

Academic clinics that carry the additional responsibility of teaching and mentoring students may provide representation to fewer taxpayers than non-academic clinics; however, academic clinics can accomplish LITC Program goals in a variety of additional ways, such as:

- Providing technical assistance;
- Training and mentoring other LITCs;
- Publishing articles about the LITC Program or on tax topics that impact low-income and ESL taxpayers;
- Commenting on proposed Treasury regulations that affect low-income or ESL taxpayers; and
- Mentoring graduates and encouraging them to perform pro bono work on behalf of low-income taxpayers.

Final Funding Decision
Final funding decisions are made by the NTA, unless recused due to a potential or actual conflict of interest with an applicant. In recusal situations, the final funding decisions are made by the Deputy NTA.
ii. Civil Rights Reviews

All Full Grant Applications receiving a ranking panel score of 50 points or higher and NCC Requests undergo a civil rights review by the Civil Rights Unit (CRU) of the IRS to ensure compliance with civil rights laws. Department of Justice regulations state that all federal agency staff determinations of civil rights compliance shall be made by, or be subject to review by, the agency’s civil rights office. In addition, a Department of the Treasury grant recipient is required to maintain records, provide information, and afford Treasury access to records to the extent Treasury finds it necessary to determine whether the recipient is compliant with civil rights laws and regulations. For details about the various civil rights laws applicable to federal grantees, see Section VI.D.i, General Compliance, infra.

The CRU will review grant application meeting the above-referenced criteria. To the extent necessary to make a civil rights compliance determination, the CRU or LITC Program Office may request that an applicant provide additional information but only to the extent that it is readily available or can be compiled in a reasonable manner. Examples of such data and information include, but are not limited to:

- The manner in which services are or will be provided by the program, and related data necessary for determining whether any persons are or will be denied such services on the basis of prohibited discrimination;
- The population eligible to be assisted by race, color, national origin, age, sex, or disability;
- Data regarding covered employment, including use or planned use of bilingual public contact employees serving beneficiaries of the program, where necessary to permit effective participation by beneficiaries with limited English proficiency;
- The location of existing or proposed facilities connected with the program, and related information adequate for determining whether the location has or will have the effect of unnecessarily denying access to any persons on the basis of prohibited discrimination;
- The present or proposed membership, by race, color, national origin, sex, age, or disability, in any planning or advisory body that is an integral part of the program; and
- Data such as demographic maps of the racial composition of affected neighborhoods or census data.

Upon completion of the application reviews, the CRU will forward to the LITC Program Office a preliminary civil rights determination based on the information in the Full Grant Application, NCC Request, and any other information the CRU received from the grantee. If an applicant has provided incomplete information, the Program Office may request additional information from the applicant that the Program Office will provide to the CRU. No LITC grant funding may be awarded until the CRU has made its final determination.

The CRU annually conducts selected post-award reviews to ensure civil rights requirements are in place and to provide technical assistance. The CRU will contact grantees directly to schedule the reviews. The following are examples of civil rights compliance items addressed during post-award reviews:

- External building accessibility (e.g., accessible entrances, curb cuts, and sufficient parking spaces for persons with disabilities);
- Interior accessibility (e.g., signage for emergency routes, routes to and within the service area, sufficient seating in the service area, restrooms, water fountains, and elevators);
Non-discrimination policies (e.g., Publication 4053, Your Civil Rights are Protected, displayed in service areas, and the organization’s non-discrimination policy posted and disseminated in marketing materials);

- Accommodations for persons with disabilities (e.g., sign language interpreters and Braille/large print documents); and

- Accommodations for persons with limited English proficiency (e.g., bilingual volunteers, language interpreters/language line, and community resources).

The results from the selected post-award reviews are compiled into a report and provided to the LITC Program Office.

**Contacting the Civil Rights Unit**

For additional information on civil rights requirements, see Publication 4454, Your Civil Rights are Protected, or contact the CRU at edi.civil.rights.division@irs.gov.
VI. AWARD ADMINISTRATION

A. NOTIFICATION OF SELECTION

The LITC Program Office will notify all applicants no later than November 2020 whether they have been selected to receive a 2021 grant award. Selected applicants will be notified by phone and email. If Congress has passed final appropriations legislation for the 2021 fiscal year by November 2020, notification of selection will usually include the amount of the award. If Congress has not passed final appropriations legislation for the 2021 fiscal year by November 2020, notification of selection may not include the total amount of the award or may only include a partial amount. In that case, the Program Office will provide the total award amount in a subsequent communication.

After notification of selection, the Program Office will invite the Clinic Director and Qualified Business Administrator of first-time LITC grant recipients to a mandatory orientation call. All grantees will also be required to attend the Annual LITC Grantee Conference, unless excused. See Section VI.C.ii, Annual LITC Grantee Conference, infra.

Applicants not selected to receive an award will be notified through GrantSolutions.

B. NOTICE OF AWARD

The LITC Program Office will issue an NOA to each applicant selected to receive funding for the grant year. In the event Congress has not passed final appropriations legislation and the federal government is operating under a Continuing Resolution at the start of the grant year, the Program Office may issue subsequent NOAs, each providing a partial award amount, until a final appropriation is enacted.

The NOA states the amount of funding awarded to the grantee — whether the full or a partial grant year amount, the grant period, and the terms and conditions of the award. In addition, the NOA incorporates by reference the requirements specified in this publication and lists any additional specific conditions of the award, if applicable.

All funding will be based on the availability of annually appropriated funds. If more funds become available during the grant year, the Program Office may award additional funds to well-performing clinics who are not receiving maximum funding accompanied by a new NOA with the revised award amount. The total award amount may not exceed $100,000. Requests for additional funds must be made in writing and timely submitted in order to be considered. All grant funds will be obligated no later than September 30 of each grant year.

C. ADMINISTRATIVE REQUIREMENTS

i. Standards for Operating an LITC

This publication provides baseline standards of operation for organizations funded with an LITC grant. The standards ensure that all LITCs provide consistent and quality service to low-income and ESL taxpayers.
LITCs are required to fill the following key staff positions:

**Qualified Tax Expert (QTE)** is a staff member with sufficient tax law expertise to oversee technical, substantive, and procedural tax matters. The QTE must be an attorney, CPA, or EA who is currently authorized to practice before the IRS and provide representation on behalf of low-income taxpayers in disputes with the IRS. The QTE is also responsible for reviewing all educational materials for accuracy before distribution.

**Qualified Business Administrator (QBA)** is a staff member with sufficient business administration expertise to oversee the clinic’s business operations. If a department fulfills this requirement, as opposed to a single individual, please provide details in the application about the staff member who oversees the department. The QBA must demonstrate education or experience with business or program administration, such as internal controls, grant funds management, budgeting, procurement, or the equivalent.

**Clinic Director** is a staff member who has overall management responsibility for the clinic. The Clinic Director may also be the QTE or QBA, if qualified. The Clinic Director manages day-to-day clinic operations, prepares or reviews the required clinic reports, and may sign reports as the clinic’s authorized representative. The Clinic Director serves as the primary contact person for both the LITC Program Office and the Local Taxpayer Advocate (LTA) Office. The Clinic Director must be able to promptly respond to LITC Program Office inquiries and as such, should have a thorough knowledge and understanding of the LITC’s operations.

As a general rule, all key personnel must be employees of the sponsoring organization. The use of independent contractors or volunteers to fill key positions must receive advanced approval in writing from the LITC Program Office. Utilizing volunteers or independent contractors to fill key positions should be rare and only permitted as a temporary measure; the Program Office will work closely with the organization to develop a timeline for filling the position with a paid employee of the organization.

**Staff Member Must Be Able to Represent Taxpayers**

LITCs must have at least one staff member (usually the QTE) who represents taxpayers before the IRS and is authorized to do so. In addition, all LITCs must have a staff member or a pro bono panel member who is admitted to practice before the U.S. Tax Court and other federal courts to represent taxpayers in litigation matters.

**Maintaining a Physical Location**

LITCs must maintain a bona fide physical place of business and a permanent address. A bona fide physical place of business means a permanent office space where clients can be received, files are kept, the telephone is answered, and the LITC staff can be reached during normal business hours. Applicants with only a virtual office will not be awarded LITC grant funds.

**Providing a Toll-Free Number**

To increase access to low-cost representation, grantees should provide a toll-free telephone number. Grant funds may be used to pay for a toll-free number. See 2 CFR § 200.48.
**Training Staff and Volunteers**

LITCs must provide training to clinic staff, volunteers, and other program participants (such as fellows and interns) to increase the knowledge and skills necessary to effectively deliver tax representation, education, and advocacy services. Clinic Directors are required to ensure that the LITC staff, volunteers, and other program participants receive appropriate training based on their knowledge, skills, and experience, and the needs of the taxpayers that they will assist. Clinic Directors are encouraged to develop a training plan for all program participants who provide services to taxpayers. In addition to substantive technical and legal training, clinics should provide staff training regarding grant requirements such as determining the amount in controversy and the 90/250 requirement.

As part of a comprehensive training plan, the Program Office encourages clinic staff and volunteers to attend continuing professional education programs sponsored by the IRS and professional organizations. Grantees may use grant funds to attend such programs if the subject matter is necessary for the performance of the grant and the cost is reasonable. See 2 CFR §§ 200.403(a) and 200.472. The clinic should track all activities, including topics presented and the number of Continuing Legal Education (CLE) or Continuing Professional Education (CPE) credits available (where the clinic is the sponsor).

**Maintaining Access to Tax Research Materials**

LITCs must have convenient access to an adequate tax library and research materials, including the current version of the Internal Revenue Code and related Treasury Regulations in hard copy or electronic format. Access to research materials may be through on-line resources. Grantees may use grant funds to acquire tax research materials. See 2 CFR § 200.454(b).

**ii. LITC Program Office Webinars**

Unless otherwise noted below, the Program Office will announce webinars on the LITC Toolkit. The Toolkit is the main way that the LITC Program Office communicates with clinics. The password protected site is accessible to all those involved with the clinic, including staff, students and volunteers. The password is provided to all funded clinics and can be obtained any time during the grant year from a clinic’s assigned Advocacy Analyst. The password is changed annually, and all clinics will be notified about when the change will be made and the new password. Interested participants generally need to register for the webinars. Some webinars may be geared to specific individuals in your organization that are responsible for performing the certain activity highlighted in the webinar. The Program Office encourages participation in the webinars and for grantees to share information about the webinars with the appropriate individual(s) associated with the clinic.

**New Applicant Webinars**

The LITC Program Office generally conducts a yearly webinar to provide potential applicants with information about the application requirements and process. The intended audience for these webinars includes applicants proposing to start an LITC or expand the work of existing clinical programs. Another webinar is presented to returning grantees and focuses on any changes to the application process and how to submit an NCC Request. Due to the COVID-19 pandemic, to the extent possible these will be held as teleconferences and PowerPoint presentations will be distributed electronically in advance to participants to follow during the teleconference.
Administrative and Technical Topic Webinars

The LITC Program Office also conducts or coordinates webinars to provide information on general grant topics, such as requirements for completing grant applications and reports, legal issues impacting low-income taxpayers, and substantive topics that will help clinicians advocate for taxpayers. The Program Office will also announce webinars on tax-related topics that are sponsored by other organizations such as the IRS and the ABA Section of Taxation. All webinar announcements will be made through the LITC Toolkit. Although the LITC Program Office will provide information about webinars sponsored by other programs or organizations, the Program Office does not endorse the webinar sponsors or any materials distributed during such webinars. An LITC’s decision whether or not to participate in such webinars will not result in the Program Office giving any preferential or negative treatment to the LITC. The Program Office is merely informing LITCs of training opportunities that may be of interest to clinicians.

iii. Annual LITC Grantee Conference

Applicants notified they have been selected to receive a 2021 grant award must attend the Annual LITC Grantee Conference, which will be held in December 2020 or January 2021. Although the conference has been held in Washington, D.C. for many years, the location is subject to change due to costs and conference space availability. As a general rule, the Clinic Director and the QTE are required to attend the conference in its entirety unless the Director of the LITC Program has excused them in writing from attending all or part of the conference. The Program Office will provide the date and location of the conference when notifying applicants that they have been selected for an award. Information about the conference will also be provided on the LITC Toolkit.

Cost of Attendance

The cost of attending the conference (e.g., transportation, hotel, and meals) can be paid with grant funds (or can qualify as matching funds if travel expenses are paid using non-federal funds) and should be included in an applicant’s budget. For more information, see Section IV.E.i, Spending LITC Grant Funds and Matching Funds, supra. Please note that, in general, LITC grant funds or matching funds may not be used to pay the cost of more than two conference attendees. However, an LITC may request an exception to this policy in special circumstances. For example, a clinic is planning to send the QTE and Clinic Director to the conference, but a new staff attorney was recently hired, and she will devote a significant amount of time providing representation to low-income taxpayers. Since the third person will be doing controversy work and the conference provides an economical and beneficial means of providing substantive tax controversy education, the Director of the LITC Program may approve the use of LITC grant funds to cover all or a portion of the cost for attendance of the third person.

More than Two Conference Attendees

If a grantee wishes to send more than two staff members to the conference, the grantee must submit a written request to the Director of the LITC Program no later than two weeks in advance of the conference. The LITC Program Office will grant approval to timely submitted requests for additional registrants, if space is available. If the clinic wishes to seek a special exception to use LITC direct or matching funds to send a third individual to the conference, the clinic should explain the special circumstances that support an exception and the costs associated with sending a third person. The Director of the LITC Program has the discretion to allow the clinic to use grant funds for all or a portion of the costs to send a third individual. Without an exception or if an exception is denied,
any conference expenses (e.g., transportation, hotel, and meals) of additional attendees are the responsibility of the grantee and must be paid using neither federal nor matching funds.

**Requesting to Be Excused from Attendance**

If the Clinic Director or QTE is unable to attend all or a part of the conference, a request for an exception must be submitted in writing no later than two weeks prior to the start of conference. The request should identify the critical reason for the exception request, and the name, title, and duties of any other person who will attend the conference on behalf of the grantee.

All requests for exceptions related to the conference as detailed above should be addressed to the Director of the LITC Program and sent to the clinic’s assigned Advocacy Analyst or directly to the LITC Program Office. The best way to send exceptions is via email or e-fax. (See Section VII.F, *Contacting the LITC Program Office, infra.*) Regular mail may go through additional screening and therefore, if used, additional time should be allowed to ensure it is received and processed before the start of the conference. Instructions for submitting exception requests can also be found on the LITC Toolkit under LITC Grantee Conference Information.

**iv. Developing a Community Outreach Plan**

LITCs should develop an outreach plan to publicize the clinic and its services to low-income and ESL taxpayers. LITCs should also advertise and promote themselves as providing representation and education on behalf of low-income and ESL taxpayers. Outreach activities may involve direct communication with taxpayers or be accomplished through contacts with other organizations or groups that assist low-income and ESL taxpayers. LITCs are encouraged to identify linguistic populations, geographic service areas, or other segments of the low-income taxpayer community in which to focus outreach efforts.

**Publicizing LITC Services**

LITCs may use a variety of means to publicize their services, including brochures, flyers, placards and posters, newspaper listings, public service announcements on radio and television, internet websites, and social media. LITCs should also publicize their program through their organization’s website and community partners. In promoting a clinic on a larger organization’s website, consider the taxpayer’s experience and how the taxpayer can most easily locate information about the clinic and its services. To reach ESL taxpayers, LITCs should produce publicity materials not only in English, but also in other languages commonly spoken by taxpayers in their geographic area.

Publicity materials and announcements to advertise LITC services must focus on core services:

- Representation in controversy cases;
- Consultations about tax matters;
- Education about taxpayer rights and responsibilities; and
- Advocacy efforts to resolve systemic tax issues that affect low-income and ESL taxpayers.
Grantees are encouraged to publicize their program through their organization’s website, social networking sites, and community partners.

Publicity materials may not advertise tax return preparation services or Individual Taxpayer Identification Number (ITIN) application preparation assistance. LITCs are permitted to prepare tax returns and ITIN applications only in two limited contexts. See Section VI.C.xv, Preparing Tax Returns and ITIN Applications, infra.

LITCs must include a message on their website and in all publicity materials and announcements stating that the clinic does not generally provide tax return preparation.

Brochures, flyers, or other clinic information that may be distributed in IRS offices or at joint outreach events with IRS functions should contain language to indicate that a taxpayer’s decision to obtain representation from an LITC will not result in the IRS giving preferential treatment in handling the dispute or problem and will not affect the taxpayer’s rights before the IRS.

Such disclaimers need not be worded exactly as above but must convey this principle. In addition, clinics may not use the IRS or TAS logo in any advertising materials. Starting in 2021, however, clinics shall include the LITC logo in all newly printed or published materials and also on their websites. The LITC Program Office will provide clinics with high quality electronic files of the logo for their use.

With the recent passage of the Taxpayer First Act, Section 1402, IRS employees can now refer a taxpayer to a specific LITC in the taxpayer’s geographic area for assistance without violating the applicable standards of conduct. Before the change in law, IRS employees were prohibited from referring a taxpayer to a particular tax professional or a specific LITC for assistance with an IRS issue. Recently, all IRS Taxpayer Assistance Center locations were provided with copies of Publication 4134, Low Income Taxpayer Clinic List, to facilitate these referrals. In addition, Section 1401 of the Taxpayer First Act promotes collaboration between LITCs and Volunteer Income Tax Assistance (VITA) grant recipients by encouraging VITA grantees to advise taxpayers about the availability of LITCs, the eligibility requirements for assistance, and the locations and contact information for the clinics. As a result of the changes in law, LITCs may notice an increase in cases.

Identifying Effective Outreach Strategies
To enhance efficiency and identify effective strategies, LITCs should implement a process that tracks how taxpayers seeking services learned about the clinic and the services offered. For example, this information could be obtained on the intake or screening form completed by low-income taxpayers seeking representation or advice. For educational activities, the clinic could request that attendees indicate on a sign-in sheet how they learned about the event. The Program Office may ask for information as to how taxpayers hear about the clinics to share.

information with the IRS about which forms, publications, and notices are most effective at driving taxpayers to seek LITC assistance.

v. Building Community Partnerships

LITCs should develop and maintain relationships with other community-based organizations that assist low-income and ESL individuals. Community-based organizations might include local social service agencies such as human services, workforce development, or refugee resettlement; community action programs providing heating assistance or head start programming; schools, community colleges, religious organizations, domestic violence shelters, and senior meal sites.

Effective community partnerships help LITCs to enhance visibility in the community, access taxpayers in insular hard-to-reach communities, better understand nontax issues that affect low-income individuals and families, and establish a framework for mutual referrals of taxpayers in need of services.

Clinics should also network with individuals and groups within the clinic’s sponsoring organization to share information about the LITC Program to promote cross referrals of cases and to collaborate on educational activities and outreach opportunities.

vi. Networking with Other LITCs

LITCs are encouraged to maintain an active network with other clinics. Networks provide an opportunity for clinics to collaborate on tax issues that affect low-income and ESL taxpayers, discuss case strategies, share ideas on education and outreach, and share training on tax practice and procedure. Clinics are encouraged to submit best practices developed through networking to the LITC Program Office, so they can be shared with other clinics to improve the overall quality of the LITC Program.

vii. Mentoring

The LITC Program Office encourages experienced grantees to become mentors to provide guidance and technical assistance to other LITCs. The LITC Program Office may ask experienced LITC clinicians to informally assist less experienced clinicians by providing them with assistance. That assistance may include: recommendations for developing processes, procedures, or policies; providing samples of substantive education materials for clinic staff or taxpayers; helping develop outreach or education plans; and providing suggestions or other feedback on casework.

viii. Technical Assistance Consultation

A technical assistance consultation is a discussion with a tax practitioner or other service provider designed to provide brief advice about a federal tax issue. This assistance could be provided to an LITC clinician from another program, a member of the private bar, a colleague, or a local VITA site member. However, if advice is given to a member of the clinician’s sponsoring or co-located organization to provide to a client about a specific tax issue, it is more properly counted as a taxpayer consultation, not a technical consultation. Grantees must report the number of technical assistance consultations provided on Form 13424-A, LITC General Information Report.
ix. Maintaining Client Confidentiality

Avoiding Unauthorized Disclosure

Tax professionals have ethical requirements to maintain client confidentiality. See, for example, ABA Model Rule of Professional Responsibility 1.6 and IRC § 7525.

LITC employees and volunteers generally must not disclose information relating to the representation of a client to third parties unless the client gives informed consent. The confidential nature of each taxpayer’s information must always be respected, and each employee and volunteer must safeguard taxpayer information against inadvertent or unauthorized disclosure. Thus, it is critical for an LITC to maintain information security and limit access to taxpayer information to those who have a need to know.

Treasury Regulations under IRC § 7216 generally prohibit a grantee, its employees, and its volunteers from disclosing or using a taxpayer’s return information except when the tax return preparer has obtained prior written consent from the taxpayer in a manner that complies with the procedures set forth in the regulations and other guidance issued by the IRS. See 26 CFR § 301.7216-2.

The regulations authorize disclosure or use without consent only in very limited situations, such as pursuant to an order of a court or a federal or state agency, or for purposes of preparation or audit of state or local tax returns. For unauthorized disclosure or use, IRC § 7216 imposes a sanction of up to one year in prison or a $1,000 fine, or both, plus the costs of prosecution. In addition, IRC § 6713 imposes a civil penalty of $250 for each disclosure or use, up to $10,000 per calendar year (penalty of $1,000 per disclosure if related to identity theft up to $50,000 per calendar year). In addition, the penalty under IRC § 7216 increases to $100,000 in the case of disclosures or uses in connection with taxpayer identity theft.

Client Information Must Be Redacted from Training Materials

Client information must be redacted from materials before being used for training. This includes deletion of names, addresses, taxpayer identification numbers, and any other information that could reasonably lead to identification of the client. It is also suggested that if using a taxpayer’s situation as an example or case study in the training, the material facts be sufficiently changed to prevent identification of the taxpayer. Materials submitted for use during the LITC Grantee Conference must comply with IRS rules for training presentations that explore taxpayer factual scenarios. Specifically, training materials must be sanitized to ensure that no taxpayer information is released and no disclosure laws are violated. Additionally, all taxpayer and tax data used in course materials must be entirely fictional. Questions about disclosure issues may be researched in IRM 11.3, Disclosure of Official Information.

Sharing Information with the Media

Generally, confidentiality requirements and disclosure restrictions prohibit clinic personnel from providing details about any taxpayer represented by the clinic in response to requests from the media. News reporters and other members of the media do not have a need to know taxpayer information. The LITC must obtain a written waiver from the taxpayer before disclosing any of the taxpayer’s information and be sure the taxpayer fully understands the potential ramifications that could result from disclosing the information, even if the taxpayer is the person requesting that the LITC speak to a member of the media. If the client chooses to share information with the
media, suggest to the client that he or she make it a condition of the interview that the story be produced without photos and names.

Media coverage can create a conflict of interest between the LITC and a client. An article that describes the client’s situation and mentions the clinic’s service may benefit the clinic by providing outreach; however, the clinic must consider any potential negative repercussions that publicity may have on the taxpayer. For example, the taxpayer could be dealing with other nontax issues (e.g., custody or support battles, other creditors, immigration) that could be negatively impacted by the media coverage. LITCs should clearly communicate that clients are under no obligation to share any personal information with the media.

X. Recruiting and Supervising Volunteers

Creating Written Position Descriptions for Volunteers
LITCs are encouraged to create written position descriptions for volunteers and outline the qualifications for each position, such as whether the volunteer can act as an authorized representative, training and experience, educational background, language skills, and other qualifications relevant to providing representation, education, and advocacy on behalf of low-income and ESL taxpayers.

Establishing and Maintaining a Pro Bono Panel
LITCs are encouraged to offer additional taxpayer assistance by recruiting qualified representatives who agree to serve on a pro bono panel, accept cases from the LITC, and represent LITC clients at no cost. Pro bono volunteers may also be recruited for other clinic tasks, depending on their experience and background, such as presenting at educational activities, conducting outreach, or supervising students. Clinics may utilize volunteers made available through national, state, or local bar associations; societies of accountants; and enrolled agent networks.

Monitoring Referrals to LITC Volunteers
LITCs must have a system to monitor referrals and ensure that the pro bono representative is handling the case properly, including taking timely case actions, and the services are indeed being provided for free (unless the LITC referred the case to another LITC). Pro bono representatives may not charge any fees for services (other than asking for reimbursement of expenses such as photocopying and court filing fees).

Referrals May Only Be Made to Qualified Representatives
LITCs may only refer cases to pro bono volunteers for representation if the volunteer is authorized to practice before the IRS or the applicable court where the IRS controversy will be adjudicated.

Referrals After Declining a Case
Generally, no person associated with the LITC should provide representation in a case the clinic declined to accept. Additionally, employees and volunteers of the LITC may not provide representation for a fee to a client of the LITC in a subsequent, separate tax matter. Further, an LITC cannot refer a taxpayer to someone who charges a fee.

For example, suppose an LITC refers a taxpayer in a controversy with the IRS to a member of the LITC’s pro bono panel. On behalf of the LITC, the pro bono representative resolves the dispute. The same taxpayer owns
a partnership interest in a family business that is under audit by the IRS and offers to pay the representative to represent the partnership, as the taxpayer understands the LITC can’t handle tax matters for entities. The pro bono attorney must decline the case and cannot refer the taxpayer to someone else who charges a fee to represent the partnership. Instead, the LITC or representative may refer the taxpayer to a state bar-maintained lawyer referral and information service that will provide the taxpayer with an unbiased referral to an attorney who has experience in the area of law appropriate to the taxpayer’s needs or an organization that provides pro bono assistance. At that point, the LITC representative may close the case and stop monitoring activities.

xi. Recordkeeping and File Management

Maintaining Records of Grant Expenditures

LITCs must maintain adequate internal controls and retain financial accounting records to safeguard all funds, property, and other assets related to the grant. LITCs must have written procedures for approving expenditures from grant funds in accordance with the applicable procurement, payment, and cost principles in the Uniform Guidance. At a minimum, the procedures should address:

- Which individuals have approval authority;
- When written approval is required; and
- What documentation must be submitted for an expense to be approved by the authorized official.

The approval process may differ based on the size and type of expense. Also, LITCs must have written procedures to track their fixed assets and tangible personal property.

To avoid subsequent disallowance or dispute based on unreasonableness or non-allocability, the grantee may seek the prior written approval from the LITC Program Office in advance of incurring special or unusual costs. Prior written approval should include the timeframe or scope of the proposed cost. The absence of prior written approval of any element of cost will not in itself, affect the reasonableness or allocability of that element, unless prior approval is specifically referenced under 2 CFR § 200.407, such as purchases of $5,000 or more described in 2 CFR § 200.439(b)(2). Copies of any pre-approvals should be retained for three years from the date of purchase. Purchases in the amount of $5,000 or more should be noted in the clinic’s financial narrative in the year purchased.

Maintaining Sufficient Detail in Client Records

LITCs must maintain client case records to be able to demonstrate client eligibility for program services and to document the services provided to taxpayers.

In certain situations, attorneys’ fees (including fees for pro bono services) may be awarded in a judgment or settlement of an administrative or judicial proceeding concerning the determination, collection, or refund of tax, interest, or penalty. See IRC § 7430(a). Thus, a clinic should keep detailed contemporaneous case records of its controversy work so that if case work presents an opportunity to make a claim for attorneys’ fees, the clinic has
adequate records to support an award. Awards of attorneys’ fees are program income and are eligible as matching funds, if spent supporting LITC activities.

For each increment of time for which fees are claimed, the records must:

- Identify the date on which the services were performed;
- Describe the nature of those services in detail;
- Identify the individual’s name and position of any representative for whom fees are claimed (e.g., supervisory attorney, student, or paralegal); and
- Include the associated incremental periods of time spent by that individual.

The services provided by the LITC should be described in sufficient detail to enable the IRS to assess the reasonableness of the amount of time expended in relation to the service performed and to identify duplicated efforts, if any, by multiple clinic personnel. Case records should include classifications to describe the nature of the services provided. Suggested classifications include:

- Initial client interview;
- Research (identifying the issue);
- Preparation of pleadings or other court documents;
- Preparation of letters (identifying the recipient and subject matter);
- Investigation of underlying facts (briefly describing the subject matter and information);
- Analysis of taxpayer or third-party records (identifying the records);
- Consultation with tax return preparer (identifying the preparer);
- Consultation or interview of third-party (identifying the person); or
- Telephone conversations (identifying with whom the conversation was held and the subject matter).

When a claim for attorneys’ fees is submitted, the IRS makes an initial determination as to whether client records are sufficiently detailed, based on the facts and circumstances of each case. For additional guidance on the recovery of attorneys’ fees, see Rev. Proc. 2016-17, 2016-11 I.R.B. 436.

**Using a Professional Case Management System**

Grantees are expected to use a case management system to assist with client eligibility screening and case assignment; help monitor the status of ongoing cases input case notes; maintain accurate timekeeping records; track controversy outcomes; track case issues worked and where worked; and record educational, outreach, and advocacy activities for Interim and Year-End Reports. Information provided by LITCs is annually reported to Congress in Publication 5066, LITC Program Report, and may be included in the National Taxpayer Advocate’s Annual Report to Congress. The data can help identify trends or systemic issues. It is critical the information is complete and accurate. As case management software supports program activities, purchase of this type of software is an allowable cost under the LITC grant.
Backing Up Electronic Files Offsite

LITCs should have an offsite back-up file system in place for information stored electronically to enable resumption of business in the event of a disaster or other work stoppage. Using grant funds to develop a back-up file system supports program activities and is an allowable cost under the LITC grant. For additional suggestions on risk management, see www.irs.gov/businesses/small-businesses-self-employed/preparing-for-a-disaster-taxpayers-and-businesses and www.ready.gov/business.

Keeping Client Records in a Secure Location

Client records must be kept in a secure location (e.g., a locking file cabinet or password-protected electronic files). Before clinic employees, volunteers, or students leave the office each day, they must make sure that taxpayer information is stored in a locked area. If it is necessary to take taxpayer information out of the office, it must be safeguarded always. In addition, LITCs must have procedures in place to respond to a breach of client information and must notify the LITC Program Office by contacting their assigned Advocacy Analyst in the event of a breach. The notification should be both in writing and by telephone and take place as soon as is practicable, but not later than two business days from the time of discovery. See Section VI.D, Prevention and Response to Breach of Personally Identifiable Information.

Retain Records That Document Compliance

Federal award recipients must maintain financial records and supporting documents to substantiate compliance with grant requirements. Generally, such records must be maintained for a period of three years from the date of submission of the Year-End Report. See 2 CFR § 200.333 for exceptions.

Retaining Client Records

Client records must be retained for a minimum of three years but may need to be retained longer in order to comply with all applicable IRS, federal, and state record retention requirements. State bars and other professional licensing organizations may impose additional recordkeeping requirements for case files. All clinicians should be aware of the record retention standards applicable to them and the clinic and take all steps necessary to ensure those standards are met.

Asking for Client Suggestions

LITCs should seek comments from clients about the services received and ask for suggestions about how services might be improved. Many clinics routinely send surveys to clients at the conclusion of a case. It is important that when seeking suggestions, the information and data received is regularly compiled, reviewed, and considered as program policies, procedures, and services are assessed and changes are instituted. Comments that do not share any personally identifiable information may be helpful to include in grant applications and reports.

xii. Representing Low Income Taxpayers

Qualified representatives, as defined in Section I.D, Key Terms and Definitions, supra, must represent low-income taxpayers in controversies with the IRS. LITC grant funds must be used to support that representation. LITC
grant funds may also be used to support representation in controversies with state or local tax authorities, if the LITC is representing the taxpayer in a related IRS controversy.

**Intake**

The intake process enables an LITC to determine whether it can provide representation to a low-income taxpayer. During the intake process, LITC personnel collect information from the taxpayer to determine whether the taxpayer meets income and the amount in controversy eligibility and gather information about the nature of the tax problem. The intake process should involve a robust interview with the taxpayer, which can be conducted in person or by phone. If by phone, a toll-free line should be available for taxpayers, as well as translation services as necessary.

LITCs should use an intake form, which can be paper or electronic, to capture the taxpayer's information. Some clinics may ask taxpayers to complete the intake form independently prior to the interview, while others may meet with taxpayers to complete the form together. LITCs must record the taxpayer's income information and that of the members of the taxpayer's family unit, if applicable, on the intake form and solicit information in a manner that promotes the development of trust between a qualified representative and applicant. If there is substantial reason to doubt the accuracy of the financial eligibility information provided by a potential client, the LITC must make appropriate inquiries to verify the information, in a manner consistent with maintaining confidentiality of communications shared by the applicant. Any information disclosed during the intake process should be kept private and confidential.

If a taxpayer does not meet the LITC's eligibility requirements, the LITC may not refer the taxpayer to a representative who charges a fee; instead, the LITC should provide information to the taxpayer about a state or local bar association, society of accountants or enrolled agents, or other tax professional organization that provides pro bono assistance. If the professional organization thereafter refers the taxpayer to a representative who charges a fee, the LITC has still made an appropriate referral.

**Assisting Taxpayers Through Consultations**

Many of the interactions a clinic will have with a taxpayer seeking assistance will be in the form of a consultation. A consultation is a discussion with a taxpayer designed to provide advice or counsel about a specific tax matter that does not result in representation of the taxpayer. An intake interview which does not result in the LITC representing the taxpayer may count as a consultation only if the clinic personnel conducting the interview provide substantive advice or counsel to the taxpayer about a specific tax matter. Merely referring the taxpayer to the IRS toll-free line or to VITA to get a return prepared does not count as a consultation, for example. For purposes of the Interim and Year-End Reports, consultations are counted and reported separately from controversy cases. For additional information on reporting consultations, see Form 13424-A, Low Income Taxpayer Clinic (LITC) General Information Report, and for additional guidance on distinguishing consultations from cases for reporting purposes, see Form 13424-K, Low Income Taxpayer Clinic (LITC) Case Information Report.

**Use an Engagement Letter When Opening a New Case**

When an LITC representative makes the determination to open a case after speaking with a new client and reviewing the information on the intake form, the representative is strongly encouraged to document it using an
engagement letter or retainer agreement, signed by the representative and the taxpayer. An engagement letter or retainer agreement defines the specific matters for which the LITC will provide representation and protects both the representative and the taxpayer by informing both parties as to the agreement of assigned responsibilities over the course of the professional relationship. Clearly defining the scope of the representation protects both the representative and the taxpayer from potential misunderstandings about what assistance the representative will and will not provide, particularly if the taxpayer has additional legal issues unrelated to the tax controversy. Written copies of the engagement letter or retainer agreement signed by both the representative and the taxpayer should be retained by the LITC and a copy should be retained by the taxpayer.

LITCs must respect the attorney-client (or tax practitioner-client) relationship that is formed when an applicant comes in for a consultation. A representative must provide competent representation to a client, act with diligence and promptness regarding a client’s legal concerns, and keep a client informed of the proceedings in his or her case. A representative who fails to fulfill these duties may be subject to punitive actions from the organization responsible for issuing the representative’s license to practice.

**Low Income Taxpayers and the 90/250 Rule**

IRC § 7526(b)(1)(B)(i) requires that at least 90 percent of taxpayers represented by an LITC must have incomes that do not exceed 250 percent of the poverty level according to criteria established by the Director of OMB (as defined below). The Director of OMB has not established a poverty level or criteria. HHS publishes annual Federal Poverty Guidelines based on family unit size and geographic location, which are applicable to the LITC Program. See, e.g., 85 Fed. Reg. 3060-61 (Jan. 17, 2020). The determination of whether a taxpayer is low-income is made at the time the LITC is determining whether to represent the taxpayer.

The 90/250 requirement applies only to taxpayers represented in controversy cases and does not apply to consultations or other LITC activities.

A determination that a taxpayer is low-income does not entitle a taxpayer to representation by the LITC. Rather, financial eligibility is a threshold question each LITC must analyze when determining whether to accept a case for representation. Whether to represent an otherwise eligible taxpayer with a controversy is a matter for an LITC to determine with reference to the needs of the taxpayer, the facts at issue, and the resources available to the LITC.

**LITC Income Guidelines**

The LITC Program Office annually updates the income guidelines for the LITC Program in accordance with HHS’s annual publication of Federal Poverty Guidelines.

Grantees must adopt new income guidelines within 30 days of the date of publication of the Federal Poverty Guidelines in the Federal Register (generally in late January).

Based on the Federal Poverty Guidelines, the current LITC income guidelines for controversy representation are as follows:
LITC Income Guidelines
(250 percent of Federal Poverty Guidelines)

Income for Purposes of the 90/250 Requirement

“Income” is defined in accordance with the definition used by the U.S. Bureau of the Census. See https://www.census.gov/topics/income-poverty/about.html for a more detailed discussion of items classified as income.

Income includes total annual cash receipts before taxes, subject to the exceptions provided below. For example, income includes:

- Gross salaries before payroll deductions
- Net earnings from self-employment (gross receipts less business expenses)
- Alimony
- Child support
- Federally funded and other public assistance
- Social security
- Pensions and retirement income
- Unemployment benefits
- Workers’ compensation
- Rents
- Royalties
- Scholarships
- Dividends
- Interest
- Net gambling winnings
- Survivor benefits or annuity payments
Income does not include:

- Proceeds received from the sale of property (e.g., stocks, bonds, a house, a car)
- Withdrawals from a bank account
- Tax refunds
- Gifts
- Loans
- Lump sum inheritances
- Insurance payments
- Noncash benefits (e.g., employer-paid or union-paid portion(s) of employee fringe benefits)

**Determining Annual Income**

LITCs should generally determine program eligibility based on the taxpayer’s annual income at the time the taxpayer is seeking services. In the case of seasonal workers or taxpayers whose financial situation has recently changed, the clinic may use a reasonable method to estimate the taxpayer’s income, and then annualize that amount.

**Example 1: Determining a Taxpayer’s Annual Income**

A taxpayer seeking representation was unemployed for a year but began working again three months ago at a full-time job. The clinic should calculate the taxpayer’s income for the immediately preceding three-month period and multiply by four to determine if the taxpayer meets the LITC income guidelines.

**Example 2: Determining a Taxpayer’s Annual Income**

A taxpayer seeking assistance works seasonally for eight months each year, and cares for family members during the remainder of the year. The taxpayer earns no other income. The clinic should use the amount earned over the eight-month period as the taxpayer’s annual income to determine if the taxpayer meets the LITC income guidelines.

**Definition of Family Unit**

For purposes of the 90/250 requirement, a family unit is generally defined as an unrelated individual or a family. An unrelated individual is a person 15-years old or over not living with persons related by birth, marriage, or adoption. A family is a group of two or more persons related by birth, marriage, civil union, or adoption who live together. However, if related individuals live together, but the person seeking assistance from the LITC is financially independent, then that person may be treated as a family unit, distinct from relatives in the household. If two unrelated individuals live together, they constitute two family units.

Subject to the general rules outlined above, LITCs have discretion on a case-by-case basis to include an unrelated individual as part of a given family unit if that individual could be claimed as a dependent for federal tax purposes in the current year by the taxpayer or another member of the family unit. Clinics should exercise such discretion in a manner that is reasonable and consistent. Income of any person included in a family unit must be included in the computation of the taxpayer’s income for purposes of applying the 90/250 requirement.
**Example: Determining the Size of a Family Unit**
A husband and wife come to the LITC seeking representation in a controversy with the IRS. The couple cares for two foster children who can be claimed as their dependents. The clinic may determine whether to treat the foster children as part of the family unit or as a separate family unit. However, if the foster children are treated as part of a single-family unit with the husband and wife, any state support payments received on behalf of the foster children must be included in the taxpayers’ income for purposes of applying the 90/250 requirement. If the foster children are treated as a separate family unit, the support payments would be excluded from the taxpayers’ income computation.

**Applying the 90/250 Requirement to the Number of New Cases Opened**
The 90/250 requirement applies only to taxpayers who the LITC has agreed to represent in controversy cases and does not apply to consultations or other LITC activities. LITCs apply the 90/250 requirement to the cases opened during the reporting period. Cases carried over from a prior grant year are not included in the calculation to determine compliance with the 90/250 requirement.

If the LITC agrees to represent the taxpayer and takes steps to begin resolving the controversy, including developing a plan for advocacy, the case is included in the total number of cases for purposes of meeting the 90/250 requirement. The case is counted in the total number of cases even if the taxpayer discontinues the relationship before advocacy occurs.

Spouses represented with respect to a joint liability (i.e., arising from a Married Filing Jointly return) are treated as a single case for purposes of applying the 90/250 requirement.

LITCs apply the 90/250 requirement by comparing the number of cases opened during the reporting period for a taxpayer whose income does not exceed 250 percent of the Federal Poverty Guidelines to the total number of cases opened during the reporting period. An LITC satisfies the 90/250 requirement if at least ninety percent of the cases opened during a reporting period are for the purpose of providing representation to taxpayers whose incomes do not exceed 250 percent of the Federal Poverty Guidelines.

**Example: Satisfying the 90/250 Requirement**
During the reporting period, the LITC opened 120 new representation cases and provided 92 consultations to taxpayers which did not develop into a case (i.e., no representation agreement). The 90/250 requirement applies only to the 120 representation cases and does not apply to the 92 interactions with taxpayers that were consultations. Thus, at least 108 of the 120 cases (90 percent) where representation was provided must have been for taxpayers whose incomes did not exceed 250 percent of the applicable Federal Poverty Guidelines, based on the taxpayer’s geographic location and family size.

**Developing Acceptance Criteria for Cases Where a Taxpayer’s Income is Above 250 Percent of Poverty**
LITCs have discretion to choose when to represent a taxpayer whose income exceeds 250 percent of the applicable Federal Poverty Guidelines, based on the taxpayer’s family unit size and location, provided that the number of such cases is no more than ten percent of the new cases opened during the reporting period. The grantee must disclose the number of such cases on its Interim and Year-End Reports on Form 13424-K, Low Income Taxpayer Clinic (LITC) Case Information Report. The criteria used to select cases where the taxpayer’s income is in excess of 250
percent of the applicable Federal Poverty Guidelines should be reasonable and consistent and support the overall goals of the LITC Program to: provide representation, education, and advocacy to low-income and ESL taxpayers.

Changes in a Taxpayer's Financial Status

The determination of a taxpayer’s income for purpose of applying the 90/250 requirement is made at the time the clinic is determining whether to represent the taxpayer. A change in a taxpayer's financial status during representation does not disqualify the taxpayer from continuing to receive clinic representation.

Amount in Controversy Limit

The amount in controversy for any tax year generally should not exceed the amount specified in IRC § 7463 (currently $50,000). Thus, while most cases accepted by an LITC should involve amounts in controversy that do not exceed $50,000 in any given tax year, LITCs may occasionally accept a case where the amount in controversy for a tax year exceeds the amount specified in IRC § 7463.

The amount in controversy is the amount at issue in the dispute, whether the taxpayer is disputing that he or she owes the amount (e.g., challenging the validity of the underlying liability or seeking a refund), or whether the taxpayer acknowledges owing the amount and is merely trying to find a way to pay the amount in full or in part (e.g., seeking a collection alternative). In other words, the amount in controversy is the amount of the tax liability for which the taxpayer is seeking assistance.

If the taxpayer is challenging the IRS’s actions (e.g., alleging that the IRS’s collection action was unauthorized (see IRC § 7433)) but is not disputing the amount owed, the amount in controversy is the amount which gave rise to the IRS’s actions which the taxpayer is challenging.

Example 1: Calculation of the Amount in Controversy – Lien Withdrawal

The IRS filed a notice of federal tax lien under IRC § 6323 when Taxpayer A failed to pay a liability for Tax Year 1. Taxpayer A engages an LITC to represent him in obtaining a lien withdrawal under IRC § 6323(j). The withdrawal will remove the notice of federal tax lien filing from the public record.

At the time the LITC agrees to provide the representation, Taxpayer A owes $35,000 for Tax Year 1. Even though Taxpayer A is not challenging the amount due, the $35,000 balance is the amount in controversy because it is the amount associated with the IRS action for Tax Year 1 (lien filing) which Taxpayer A is challenging.

The amount reflected in a statutory notice of deficiency (see IRC § 6212) or a notice of determination (see IRC § 6320 and IRC § 6330) does not always reflect the amount in controversy for purposes of LITC eligibility. For example, the taxpayer may receive a notice of deficiency for $60,000, consisting of tax liability attributable to three different tax issues. If the taxpayer does not dispute one of the issues, the amount in dispute may be less than the $60,000 reflected in the notice of deficiency.

Example 2: Calculation of the Amount in Controversy – Notice of Deficiency

Taxpayer B receives a notice of deficiency for Tax Year 1 showing additional tax due of $49,000 and associated penalties of $3,000. Taxpayer B disputes the entire penalty amount and $42,000 of the $49,000 tax due reflected in the notice of deficiency. The amount in controversy is $45,000 ($42,000 + $3,000).
Interest on the Amount in Controversy

Interest may be included in the calculation of the amount in controversy, depending on the nature of the controversy. For example, if the taxpayer disputes the validity of a tax liability and related penalties, the interest calculation is a percentage of the amount of the liability and will be established once the controversy is resolved administratively or in litigation. In that case, the LITC should exclude potential interest from the calculation of the amount in controversy. Where the taxpayer is seeking collection alternatives and not challenging the amount due, the amount in controversy will properly include tax, penalties, and interest.

Example 3: Calculation of the Amount in Controversy – Interest
Taxpayer C files a request for interest abatement under IRC § 6404 for $12,000 in interest that had accrued with respect to tax due in Tax Year 1. The tax liability has already been resolved. Only the interest is in dispute and is therefore included in the amount in controversy. The amount in controversy is $12,000.

Example 4: Calculation of the Amount in Controversy – Notice of Determination Under IRC § 6330
Taxpayer D receives a notice of determination under IRC § 6330 concerning a proposed levy action. The notice of determination reflects a $40,000 liability for Tax Year 1, a $30,000 liability for Tax Year 2, and a $20,000 liability for Tax Year 3. Each of the liability amounts represents tax, penalties, and interest. Although Taxpayer D is disputing the entire $90,000 liability ($40,000 + $30,000 + $20,000), each tax year is reviewed separately to determine the relevant amount in controversy. For Tax Year 1, the amount in controversy is $40,000; for Tax Year 2, the amount in controversy is $30,000; and for Tax Year 3, the amount in controversy is $20,000.

Example 5: Calculation of the Amount in Controversy – Balance Due
Taxpayer E receives a bill (a notice and demand under IRC § 6303) from the IRS for $55,000 due for Tax Year 1. The amount due is comprised of $40,000 tax, $6,000 penalties, and $9,000 interest. Taxpayer D engages an LITC to represent him in submitting an offer in compromise (OIC) under IRC § 7122 in the amount of $4,000. The amount of the offer is not considered in determining the amount in controversy. Taxpayer D is trying to resolve the balance due, which includes interest. Therefore, the amount in controversy is $55,000.

In the refund context, the taxpayer is seeking to collect an overpayment; the amount of interest to which the taxpayer may be entitled under IRC § 6611 will be established once the controversy is resolved administratively or in litigation, so interest is not included in the amount in controversy. The amount of interest is not being independently disputed and the LITC should exclude potential interest from the calculation of the amount in controversy. In contrast, if the controversy involves a claim for refund of interest already paid, or the taxpayer disputes the amount of interest independently from the associated tax liability (e.g., a claim for interest abatement or interest suspension under IRC § 6404), then the LITC should include potential interest in the calculation of the amount in controversy.

Example 6: Calculation of the Amount in Controversy – Refund Suit
Taxpayer F filed a timely refund claim for Tax Year 1 for $12,000, plus any overpayment interest allowable under IRC § 6611. The IRS disallowed the refund claim. Taxpayer F engages an LITC to represent him in a refund suit in a United States district court. The interest is not independently disputed, as the amount of interest will be determined solely by the disposition of the taxpayer’s refund claim. Therefore, interest is not included in the amount in controversy of $12,000.
In a case involving collection or transferee liability where the payment of the balance due, including accrued interest, is in dispute, the LITC should include interest paid in the calculation of the amount in controversy. If the dispute includes multiple quarters for a single tax year, the quarters for that single year should be totaled to calculate the amount in controversy for that year.

**Example 7: Calculation of the Amount in Controversy – Multiple Tax Periods**
The IRS determined that Taxpayer G is a responsible person within the meaning of IRC § 6672 and imposed a penalty for an unpaid employment tax liability arising from Taxpayer G’s business for each of the four quarters in Tax Year 1. The liabilities for the penalty are as follows: $15,000 (quarter one), $18,000 (quarter two), $10,000 (quarter three), and $12,000 (quarter four). The amount in controversy is $55,000 ($15,000 + 18,000 + 10,000 + 12,000) because the four quarters relate to a single tax year.

**Representing a Taxpayer with More Than $50,000 in Controversy**
A clinic may represent a taxpayer in a case in which the amount in controversy for a given tax year exceeds $50,000. However, the grantee must disclose the number of such cases on its Interim and Year-End Reports on Form 13424-K, Low Income Taxpayer Clinic (LITC) Case Information Report, and an explanation of why each case was accepted for representation on Form 13424-N, Low Income Taxpayer Clinic (LITC) Program Narrative Report.

Factors an LITC should consider when determining whether to take a case where the amount in controversy exceeds $50,000 include: whether the taxpayer has access to other representation if the LITC declines to take the case; whether the LITC has particular language or cultural competencies that make it especially well-suited to represent the taxpayer; whether the issue in the case is of significance to the low-income or ESL taxpayer populations; whether the issue in the case is novel; and whether the case would provide educational value for student representatives. No one factor is determinative; rather, all the facts and circumstances of the case must be considered.

**Participation in the U.S. Tax Court Clinical Program**
LITCs are strongly encouraged to participate in the U.S. Tax Court Clinical Program. Applying to participate in the program may be a condition of receiving an LITC grant award. Procedures for participation in the Clinical Program can be found at www.ustaxcourt.gov/clinics.htm. Clinics will receive notification of acceptance into the program from the Clerk of the Court. There are two different components to the program:

- The mailing “stuffer program”; and
- The calendar call program.

A clinic may participate in one or both components. Each component has its own rules for participation.

**U.S. Tax Court Mailing Stuffer Program**
Clinics approved to participate in the Clinical Program may draft a brief “stuffer notice” containing the clinic’s contact information and advising petitioners of the availability of LITC services and submit the notice to the Tax Court. The Tax Court will include the stuffer notice in mailings to local petitioners who indicated they did not have representation. Sample notices with suggested language and format are available from the Tax Court.

If there is more than one LITC that participates in the stuffer program for the selected Tax Court calendar, the
Clinics must submit a joint stuffer to the Tax Court. Participating in the “stuffer program” is outreach and can help increase the number of Tax Court petitioners reached by the clinic. Reaching petitioners earlier in the litigation process may help facilitate a much earlier resolution.

**U.S. Tax Court Calendar Calls**

Clinics participating in the Clinical Program may also attend U.S. Tax Court calendar call sessions. Generally, Tax Court calendar calls are held one to two times per year in each city where the Tax Court hears cases, although they can occur more frequently, depending on local need.

When the Tax Court grants a taxpayer’s petition for a hearing, the Tax Court sends a notice of trial to each petitioner scheduled for that day, as well as to the IRS Commissioner (respondent), approximately five months in advance of the calendar call. To efficiently handle cases, the Tax Court typically schedules many hearings on the first day of a calendar call session. On the first day of the scheduled week, each party is “called” before the judge to set hearings and trials and schedule the court’s “calendar” for the week. Thus, it is known as a “calendar call.” Some Tax Court hearings are resolved in a matter of minutes, while others take longer.

If a clinic identifies a taxpayer who is eligible for LITC representation, the clinic can choose whether to limit assistance to an informal consultation about the tax issues, offer brief service including negotiating informally with IRS counsel, or enter an appearance (limited or full scope) and represent the taxpayer in the case before the Tax Court. See Section D, *Key Terms and Definitions, Qualified Representative*, supra.

**U.S. Tax Court Pre-Trial Settlement Days**

The LITC Program Office, TAS, the IRS Office of Chief Counsel, the American Bar Association Section of Taxation, LITCs, and the U.S. Tax Court are working to create opportunities to bring together IRS Counsel, LITC attorneys and *pro bono* attorneys, and taxpayers in advance of calendar call to negotiate settlement of pending cases. Clinics can learn about such opportunities and can work to help set-up Pre-Trial Settlement Days by getting in touch with an LITC Liaison committee member. A list of current LITC representatives on this committee is available on the LITC Toolkit.

**Representation by Students and Law Graduates**

Practice by students and law graduates before courts and local tax agencies is governed by the procedural rules of the applicable court or agency with jurisdiction over the matter. Clinics should be familiar with and follow the rules of those jurisdictions.

**Eligibility for Special Appearance Authorization for Students and Law Graduates**

Practice before the IRS under a special appearance authorization issued by the Director of the LITC Program is limited to students and law graduates at an LITC or student tax clinic program working under the direct supervision of an individual authorized to practice before the IRS. See Delegation Order 25-18 (Rev. 3), IRM 1.2.2.14.18 (Aug. 19, 2019). A student is an individual enrolled in an accredited law, business, or accounting program. A law graduate is an individual who graduated from law school one year ago or less and has not yet been admitted to the bar of any state, territory, or possession of the United States, including a Commonwealth or the District of Columbia. An individual who within one year of graduation has taken a bar
examination and been unsuccessful, or who has applied for admission to a bar during that one-year period but was
denied admission for any reason, is not eligible for a special appearance authorization.

LITCs may apply for a special appearance authorization letter by faxing an Application for Special Appearance
Authorization and Information Chart to the LITC Program Office at 877-477-3520. For more detailed
instructions and copies of forms, please refer to the LITC Toolkit website.

**Submitting Form 2848 with Student/Law Graduate Representatives**

For a student or law graduate to represent a taxpayer before the IRS, the taxpayer must sign a Form 2848,
Power of Attorney and Declaration of Representative, listing the student or law graduate and the supervisory
representative. But see, Substituting a Representative, infra. Any Form 2848 submitted to the IRS that lists a
student or law graduate as a representative must include a special appearance authorization letter issued by the
Director of the LITC Program or the IRS will not process the Form 2848. Clinics submitting authorizations
which include a student or law graduate representative should check the LITC Toolkit for special submission
instructions.

**Special Appearance Authorizations Automatically Expire**

The authority of the supervisory representative listed on the Form 2848 submitted to the IRS will remain effective
until the form is withdrawn or revoked. However, the authority of any students or law graduates listed on Form
2848 to represent the taxpayer automatically expires 130 days from the day the taxpayer signs the form. But see,
Substituting a Representative, infra.

Clinics should avoid contacting the IRS to withdraw any student or law graduate as a taxpayer’s representative
unless doing so is necessary to protect the interests of the taxpayer. A notice submitted to the IRS withdrawing a
student or law graduate as a representative may result in the IRS inadvertently removing all representatives listed
on the relevant Form 2848, including the supervisory representative.

**Substituting a Representative**

The supervisory representative has the authority to assign and reassign student or law graduate representatives to
the taxpayer’s case without requiring the taxpayer to sign a new Form 2848 for each substitution, provided the
taxpayer checks the box on line 5 of Form 2848 delegating authority to the representative to substitute or add
representatives. Each time a student or law graduate representative is substituted for an existing representative, the
clinic should submit to the IRS a copy of the original Form 2848 signed by the taxpayer (with box 5 checked),
along with a new Form 2848 listing the substituted representative. The new Form 2848 listing the substituted
representative does not require the taxpayer’s signature but should be signed and dated by the supervisory
representative. If another student or law graduate is being added, remember that the student or law graduate on
the Form 2848 initially will be limited to representing the taxpayer for only 130 days from when the taxpayer
originally signed the Form 2848. If a student or law graduate is being substituted, the authority of the student or
law graduate initially listed on the Form 2848 terminates. The authority of a student or law graduate added or
substituted will expire 130 days from when he or she was added/substituted by the supervisory representative, not
130 days from the date the Form 2848 was originally signed by the taxpayer.
If an LITC encounters difficulty with the processing or recognition of Forms 2848 accompanied by a special appearance authorization, please contact Susan Kideckel in the LITC Program Office at 212-298-2052 (not a toll-free call), or the clinic’s assigned Advocacy Analyst.

**Conflicts of Interest and Student Representatives**

ABA Model Rule 1.7 provides that a lawyer should not represent a client if the representation involves a concurrent conflict of interest. Students and law graduates authorized to practice before the IRS are treated as lawyers for purposes of analyzing ethics issues. Thus, students and law graduates who plan to seek employment with the IRS while participating in an LITC should be wary of a potential conflict of interest. A student or law graduate has an obligation to inform clients that he or she is seeking employment with the IRS. Clients may give informed consent, confirmed in writing, to have the student or law graduate continue the representation. If a client does not consent to the student or law graduate continuing the representation, the student or law graduate must withdraw the employment application, or the Clinic Director must assign the case to an individual who does not have a conflict of interest.

**xiii. Education**

In addition to representing low-income taxpayers in disputes with the IRS, LITCs are required to educate low-income and ESL taxpayers about their taxpayer rights and responsibilities. Educational activities may be offered directly to low-income and ESL taxpayers, or indirectly by educating staff of other organizations that assist low-income or ESL taxpayers.

Providing taxpayer education to low-income and ESL taxpayers serves multiple purposes, including:

- Informing taxpayers about the TBOR, including the right to retain representation;
- Helping taxpayers to understand their taxpayer rights and obligations and empowering them to exercise their rights;
- Informing taxpayers about their eligibility for tax credits such as the Earned Income Tax Credit (EITC);
- Publicizing the clinic and its services; and
- Generating controversy representation cases.

Education topics should address tax issues of general significance to low-income and ESL taxpayers or of relevance in the local community, such as:

- Tax recordkeeping;
- Filing requirements and due dates;
- Eligibility for various deductions and credits;
- Worker classification;
- Identity theft;
- Innocent spouse relief;
- IRS audit and appeals process; and
- Collection alternatives.
Educational activities may be offered in a variety of formats; however, LITCs are encouraged to offer face-to-face educational activities whenever possible. Examples of educational activities include but are not limited to:

- Making a presentation about federal taxpayer rights and responsibilities to an ESL class at a local community college;
- Presenting a workshop on collection alternatives, identity theft, or worker classification at a public library in a community where a significant portion of the residents are low-income or ESL;
- Holding a class for low-income workers about how to properly complete a Form W-4 for income tax withholding;
- Leading a weekly discussion series at a community center where a significant portion of the residents are low-income or ESL to educate taxpayers on topics such as: choosing a competent tax return preparer, filing status, and claiming credits such as the Child Tax Credit and the EITC.
- Presenting a webinar or live webchat to reach taxpayers located in remote locations but who are able to interact with the presenter.

Clinics may also offer education to staff and volunteers of community groups or organizations to help them make referrals and spot issues that may be faced by their constituents. For example, a clinic may hold a training for the staff of an immigrant rights organization about how taxpayers apply for and properly use an ITIN. Trainings may also be offered to professional organizations as a tool to recruit local qualified representatives to join the clinic’s pro bono panel. Clinics may be able to award CPE or CLE credits for educational activities about sophisticated tax issues impacting low-income taxpayers. To report these types of activities, use Form 13424-A, Low Income Taxpayer Clinic General Information Report.

**Educational Materials**

LITCs are responsible for creating, printing, and distributing the materials used to educate taxpayers. Materials should be accessible to ESL taxpayers and prepared in languages spoken in the community for which the LITC provides services.

When asked, many clinics are willing to share their educational materials and will allow other clinics to adapt the materials for their use. Collaboration among LITCs may help all clinics to use their resources more effectively by enabling them to concentrate on creating new materials on select topics or new areas. Some educational resources have been shared on the LITC Toolkit. The TAS website (www.taxpayeradvocate.irs.gov) also has lots of helpful materials on a variety of tax-related topics.

The QTE is responsible for reviewing all educational materials for accuracy before distribution, whether they are prepared by the clinic or adapted from another organization’s or clinic’s materials.
xiv. Advocacy

The third prong of the LITC mission is to identify and advocate for issues that impact low-income and ESL taxpayers. LITCs may achieve this goal through a variety of methods, including but not limited to:

- Participating in advocacy projects with professional organizations;
- Responding to public requests for comments to IRS regulations, procedures, or guidance.
- Preparing and filing an amicus brief to alert a court about the concerns of low-income or ESL taxpayers;
- Authoring articles in scholarly journals or general interest publications on topics impacting low-income and ESL taxpayers;
- Appearing on television or radio to raise awareness about tax issues that affect low-income or ESL taxpayers;
- Producing public service announcements; and

To report these types of activities, use Form 13424-C, Low Income Taxpayer Clinic Advocacy Information Report, or Form 13424-N, Low Income Taxpayer Clinic Program Narrative Report. Grantees must ensure that advocacy efforts do not rise to the level of certain lobbying actions which are prohibited as a use of federal grant funds. See Section VI.D.iii, Lobbying Restrictions, infra.

xv. Preparing Tax Returns and ITIN Applications

Generally, if low-income taxpayers require assistance with tax return preparation or an application for an ITIN, they should be referred to the VITA program, a Tax Counseling for the Elderly (TCE) site, or another free tax return preparation service. Some IRS TACs will accept ITIN applications and verify taxpayer documents, but they will not prepare tax returns. For a list of TACs that provide in-person document review see www.irs.gov/help/tac-locations-where-in-person-document-verification-is-provided. Note that TAC offices are open on an appointment only basis but will on occasion assist persons without appointments in emergency situations. LITC grant funds cannot be used to fund return preparation and related activities, such as those performed by VITA or TCE programs.

An LITC can help with a federal tax return, a claim for refund, or an ITIN application if such assistance is necessary to resolve a dispute with the IRS or is ancillary to the LITC’s ESL education activity. The clinic may not charge a fee (even if it is a nominal fee) for the preparation of a tax return or a claim for refund. An LITC or an individual associated with an LITC that does not charge a fee is specifically excluded from the definition of a “Tax Return Preparer” as set forth in Treas. Reg. § 301.7701-15(f), for purposes of preparer penalties, and is not required to obtain a preparer tax identification number.

Clinics are prohibited from including tax return, claim for refund, or ITIN application preparation among a list of services provided in any advertising materials. See Section VI.C.iii, Developing a Community Outreach Plan, for more information.
Example 1: Permissible Tax Return Preparation – Controversy Resolution

LITC Q is representing Taxpayer E with respect to an OIC under IRC § 7122. Taxpayer E must file all tax returns she is legally required to file before the IRS will process an OIC request. Taxpayer E has not filed returns for the last three tax years. Because filing the delinquent tax returns is necessary to have the offer considered and resolve the controversy, LITC Q may assist Taxpayer E in completing her tax returns for the last three tax years.

Example 2: Impermissible Tax Return Preparation – No Tax Controversy

Assume the same facts as in Example 1, except the OIC is accepted by the IRS. As a condition of the IRS’s acceptance of the offer, Taxpayer E must timely file returns for the five-year period beginning with the date of acceptance of the offer. LITC Q cannot assist Taxpayer E in completing and filing her returns due after the offer is accepted because the timely filing of future tax returns is not a tax controversy.

Example 3: Permissible Tax Return Preparation – Controversy Resolution

Assume the same facts as Example 2, except Taxpayer E fails to file a return required to be filed during the five-year period beginning with the date of acceptance of the OIC and the IRS defaults the offer. Taxpayer E engages LITC Q to represent her in trying to get the offer reinstated. LITC Q is permitted to assist Taxpayer E in completing the delinquent return because reinstatement into the OIC program is a controversy matter and filing the return is necessary to resolution of the controversy.

Example 4: Permissible Tax Return Preparation – Ancillary to ESL Education

LITC R is conducting a program to inform taxpayers about required record keeping for tax return filing purposes. LITC R did not advertise return preparation as a service available to taxpayers who attend the educational event. Nonetheless, at the end of the event, one of the attendees, Taxpayer F, asks an employee of LITC R to “look” at her self-prepared tax return before she files it to determine if it is correct. The employee of LITC R looks at the return and identifies several errors. The employee of LITC R may assist Taxpayer F in correcting the return because the assistance offered to Taxpayer F is ancillary to ESL education and outreach.

Example 5: Impermissible Tax Return Preparation – Not Ancillary to ESL Education

LITC S holds a monthly workshop about the EITC. At the end of each workshop, LITC S’s personnel offer to prepare a tax return for attendees eligible to claim the EITC. LITC S may not prepare tax returns under these circumstances because attendees have not indicated that there is a controversy for which the returns are required to resolve, and the routine offering of such service does not qualify as ancillary. It is improper to make this offer at the end of each workshop.
D. NATIONAL POLICY REQUIREMENTS AND ADMINISTRATIVE REQUIREMENTS

i. General Compliance

By accepting funds under this grant, the grantee agrees to comply with all terms and conditions for the grant, which are governed by:

- 26 U.S.C. § 7526;
- The terms and conditions contained in this Publication;
- Standard representations (assurances) and certifications;
- Any requirements, prohibitions or restrictions imposed by the legislation appropriating federal funds for this award;
- Other guidance issued by OMB after the application or NCC Request has been received by the LITC Program Office; and
- Any additional specific conditions listed in the NOA.

Grantees are responsible for monitoring clinic operations to ensure that all activities conducted under the award comply with applicable federal requirements and that performance expectations are being achieved. Grantees are responsible for performing in accordance with the standards of operation, meeting all compliance requirements, making proper expenditures, accounting for and properly documenting the use of federal and matching funds as well as the source of contributions, and completing timely and accurate reporting of grant activities and finances.

Uniform Guidance

Administrative requirements governing federal awards are set forth in the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, commonly referred to as the Uniform Guidance. The Uniform Guidance helps ensure the highest integrity in the financial management and operation of federal grant programs and strengthens accountability for federal funds by improving policies that protect against waste, fraud, and abuse. In addition, the guidance aims to minimize the time applicants and grantees must spend complying with administrative requirements. See 78 Fed. Reg. 78590-78608 (Dec. 26, 2013).

The Code of Federal Regulations (CFR) contains all the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government. The Uniform Guidance is found at 2 CFR Part 200, and the Treasury Department’s implementation of the Uniform Guidance is found at 2 CFR Part 1000. The electronic CFR is updated daily and is located at www.ecfr.gov. All applicable provisions from 2 CFR Parts 200 and 1000 are incorporated into the program requirements outlined in this publication and into all LITC grant awards.

Standard Representations (Assurances) and Certifications

Applicants who create a new registration and existing clinics completing their annual registration renewals are required to review financial assistance representations and certifications before their registration on SAM can be activated. This section lists some of the standard representations and certifications as well as some of the specific provisions as implemented by the Department of the Treasury or the IRS.
Non-Procurement, Debarment and Suspension

See Section III.C.iv, Debarment and Suspension, supra, for further information.

Drug-Free Workplace

LITCs must satisfy requirements for a drug-free workplace pursuant to 41 U.S.C. §§ 8101-06, 2 CFR Part 182, and 31 CFR Part 20, Subpart B and C.

 Trafficking Victims Protection Act of 2000

The Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. § 7104), requires any agency that awards grants to include a condition authorizing the agency to terminate the grant if the grantee engages in certain activities related to trafficking in persons. As part of the implementation of the Act, the Office of Federal Financial Management has established terms that must be included in every grant agreement. See 2 CFR § 175.15.

The IRS may terminate the award, without penalty, if the grantee engages in, or uses labor recruiters, brokers, or other agents in violation of the TVPA of 2000. The terms applicable to a grantee are as follows:

You as the recipient, and your employees, may not:

a. Engage in severe forms of trafficking in persons during the period that the award is in effect;

b. Procure a commercial sex act during the period that the award is in effect;

c. Use forced labor in the performance of the award; or

d. Engage in acts that directly support or advance trafficking in persons, including the following acts:

   i. Destroying, concealing, removing, confiscating, or otherwise denying an employee access to that employee’s identity or immigration documents.

   ii. Failing to provide return transportation or pay for return transportation costs to an employee from a country outside the United States to the country from which the employee was recruited upon the end of employment if requested by the employee, unless:

      ■ exempted from the requirement to provide or pay for such return transportation by the federal department or agency providing or entering into the grant, contract, or cooperative agreement; or

      ■ the employee is a victim of human trafficking seeking victim services or legal redress in the country of employment or a witness in a human trafficking enforcement action.

   iii. Soliciting a person for employment, or offering employment, by means of materially false or fraudulent pretenses, representations, or promises regarding that employment.

   iv. Charging recruited employees’ placement or recruitment fees.

The IRS may unilaterally terminate the award, without penalty, if it determines that the grantee has violated one of the provisions in a, b, c, or d above, or if the IRS official authorized to terminate the award determines that an employee of the grantee violated a prohibition in items a, b, c, or d above through conduct that is either:

■ Associated with performance under the award; or

■ Imputed to the grantee using the standards and due process for imputing the conduct of an individual to an organization that are provided in 2 CFR Part 180, OMB Guidelines to Agencies on Governmentwide
Debarment and Suspension (Non-Procurement), as implemented by the Department of the Treasury at 31 CFR Part 19.

Federal Funding Accountability and Transparency Act
The Federal Funding Accountability and Transparency Act (FFATA) of 2006, as amended, is intended to empower Americans with the ability to hold the government accountable for each spending decision. Each applicant must ensure it has the necessary processes and systems in place to comply with the FFATA reporting requirements should it receive funding. OMB has issued guidance to establish requirements for grantees to report information about executive compensation in certain circumstances. See 2 CFR Part 170.

Prevention and Response to a Breach of Personally Identifiable Information
OMB requires that when a grant recipient creates, collects, uses, processes, stores, maintains, disseminates, discloses, or disposes of personally identifiable information within the scope of a federal award, the IRS shall ensure that the grant recipient has procedures in place to respond to a breach. In addition, a grant recipient must timely notify the IRS in the event of a breach, see Section VI.C.xi., Recordkeeping and File Management, Keeping Client Records in a Secure Location. Because LITCs have access to their clients’ and prospective clients’ personally identifiable information, LITCs must have procedures in place to respond to a breach and must notify the LITC Program Office in the event of a breach. See OMB Memorandum M-17-12, Preparing for and Responding to a Breach of Personally Identifiable Information (Jan. 3, 2017).

Certain Criminal Law Violations
Federal law currently prohibits the award of grant funds to any corporation that was convicted of a felony criminal violation under any federal law within the preceding 24 months, where the IRS is aware of the conviction, unless a federal agency has considered suspension or debarment of the corporation, and made a determination that denial of the grant is not necessary to protect the interests of the government. See Pub. L. No. 116-93, Division C, Title VII, § 745 (Dec. 20, 2019).

In addition, all applicants must disclose all violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the grant award. Failure to make required disclosures can result in any of the remedies described in 2 CFR § 200.338, including suspension or debarment. See 2 CFR § 200.113.

Buy American Act
Grantees must agree to comply with the Buy American Act, 41 U.S.C. §§ 8301-8305, which includes a requirement that all unmanufactured articles, materials, and supplies purchased using grant funds be mined or produced in the United States and that all manufactured articles, materials, and supplies purchased using grant funds be manufactured in the United States substantially all from articles, materials, or supplies mined, produced, or manufactured in the United States. A conviction for violating the Buy American Act causes debarment from federal grants and contracts. The requirement to Buy American does not apply to information technology that is a commercial item, products for which the expected value of the procurement is $10,000 or less, products for use outside the United States, foreign products when domestic products are unavailable or are of unacceptable quality, or foreign products excepted by certain trade agreements. The IRS may waive the requirement to Buy American if its application would be inconsistent with the public interest or the cost would be unreasonable.
Other Applicable Laws and Regulations

Programs involving use of federal funds are governed by a wide variety of federal laws and regulations. These include:

- Restrictions on political activities (18 U.S.C. §§ 595, 598, 600-603);
- The national preservation program requirements (54 U.S.C. § 300101);
- Whistleblower protections (41 U.S.C. § 4712);
- Rules governing allowable costs (41 U.S.C. §§ 4304 and 4310);
- Environmental requirements of the Clean Air Act (42 U.S.C. § 7401); and

Conflict of Interest Policy

Pursuant to 2 CFR § 200.112, applicants and grantees must have a written conflict of interest policy which contains the terms as listed in this section. LITCs must disclose in writing to the LITC Program Office any potential conflict of interest situation and how the conflict was resolved.

At a minimum, an LITC grantee’s conflicts of interest policy (“Policy”) must:

- Apply to at least the grantee’s employees, officers, members of its board of directors (including non-director members of committees), and pro bono panel members (“Covered Individuals”);
- Apply to at least all grantee matters involving the use of LITC grant funds and matching funds, in whole or in part, including, but not limited to, grants, contracts, procurements, leases, investments, other commitments of grantee resources, and personnel matters;
- Cover at least situations when an outside interest, activity, or relationship influences or appears to influence the ability of a Covered Individual to exercise objectivity, or impairs or appears to impair his or her ability to perform his or her responsibilities impartially and in the best interests of the grantee (“Conflict”); and
- Cover at least situations when an outside interest, activity, or relationship influences or appears to influence the Covered Individual’s impartiality or duty of loyalty to a client.

The Policy must require Covered Individuals to avoid legal, financial, personal, or other Conflicts and potential Conflicts involving the grantee, and to promptly disclose any such Conflicts and potential Conflicts that arise. Covered Individuals must recuse themselves from a position of decision-making authority or influence on decisions or actions with respect to any such Conflicts and potential Conflicts until resolved.

Covered Individuals must report on any situations that they know, or reasonably should know will present a Conflict or a potential Conflict. The Policy must specify to whom Conflicts must be reported and how Conflicts will be addressed and resolved. Covered Individuals may not participate in any situation involving a Conflict or potential Conflict, unless the grantee determines, through these procedures that the:

- Conflict or potential Conflict is not substantial; and
- Covered Individual’s participation is in the best interest of the LITC and the LITC’s clients.
Civil Rights Protection and Other Federally Mandated Compliance

This section describes the data collection and reporting obligations required of LITC grant applicants by the IRS to meet their responsibilities under these laws. This information is required pursuant to the civil rights statutes and the regulations of the Department of Justice and the Department of the Treasury. See Executive Order 12250, Leadership and Coordination of Nondiscrimination Laws, which has been implemented at 28 CFR Part 41. (Applicants will provide this information when completing the Form 13424-M, Low Income Taxpayer Clinic (LITC) Application Narrative, and the Project Abstract.)

All applicants for federal funding must provide information necessary to demonstrate compliance with the following:

- **Title VI of the Civil Rights Act of 1964** (Public Law 88-352), as amended, which prohibits discrimination on the basis of race, color, or national origin;
- **Section 504 of the Rehabilitation Act of 1973** (Public Law 93-112), as amended, which prohibits discrimination on the basis of disability;
- **Title IX of the Education Amendments of 1972** (Public Law 92-318), as amended, which prohibits discrimination on the basis of sex in education programs or activities;
- **Age Discrimination Act of 1975** (Public Law 94-135), as amended, which prohibits discrimination on the basis of age.

- 31 CFR Parts 22, 23, and 28, are the Department of the Treasury’s regulations implementing applicable provisions of Title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972, respectively.
- Note that each Part sets forth a requirement that recipients keep records in a form and containing information that Treasury determines may be necessary to ascertain whether the recipient is complying with the relevant provisions of each Act. The requirements are found at 31 CFR §§ 22.6(b), 23.34(a), and 28.605(b); and

- **Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency**, requires that federal agencies work with recipients of federal financial assistance to ensure that their programs and activities normally provided in English are accessible to those with limited English proficiency, including through oral and written translation when necessary.

- **Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient (LEP) Persons**, which provides in part that recipients are required to take reasonable steps to ensure meaningful access to their programs and activities by LEP persons. See 70 Fed. Reg. 6067-76 (February 4, 2005).

All LITCs are required to display Publication 4053, Your Civil Rights are Protected.
The Department of the Treasury is planning to issue guidance about LITC grant recipient’s requirements to collect data pursuant to the civil rights laws. Once the guidance is issued, the LITC Program Office will make the guidance available on the LITC Toolkit at www.litctoolkit.com.

**Protection Against Reprisal**

No recipient or associate of the recipient may intimidate, threaten, coerce, or discriminate against any individual to interfere with any right or privilege protected by the laws identified in this section. No recipient or associate of the recipient may intimidate, threaten, coerce, or discriminate against any individual because the individual has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing involving enforcement of the laws identified in this section.

**Consequences for Failing to Comply with National Policy and Program Requirements**

A detailed list of the actions the LITC Program Office may take for failure to comply with National Policy and program requirements specific to the LITC is addressed in Section VIII, *Award Modification, Suspension, Termination, or Withdrawal, infra.*

**ii. Managing Grant Funds**

**Accessing LITC Grant Funds in the Payment Management System**

Grant funds are paid through the Payment Management System (PMS), maintained by HHS’s Payment Support Center (PSC). PMS allows a grantee to make an online request for payment of federal funds. After a request is processed and approved, funds are directly deposited into the grantee’s bank account through a process called Electronic Funds Transfer (EFT). Funds are generally available within one business day of the request.

**Accessing the Payment Management System**

LITC Program Office staff can assist new grantees with establishing accounts in PMS. Grantees must obtain a username and password to use the system. Grantees must also complete a form to set up direct deposit of funds into the grantee’s bank account. Information regarding the EFT procedure is available on the PMS PSC website at https://pms.psc.gov. For details about seeking historical payment information for audits and other purposes, see Section IV.E.iii, *Meeting the Matching Funds Requirement, OMB Audit Requirement, supra.*

The PSC has online FAQs and training. Grantees are encouraged to visit the website to view these resources. Grantees that experience problems accessing funds should contact the help desk at 877-614-5533 or send an email to PMSSupport@psc.hhs.gov.

**Obtaining Reimbursement for Eligible Expenses**

Grantees may request reimbursement of funds for allowable expenses they already paid or that will be paid within three business days of receipt of the funds from PMS. Grantees must make requests in accordance with their actual, immediate cash needs in carrying out LITC operations.

The timing and amount of EFT payments must be as close as is administratively feasible to the actual disbursements by the grantee for direct program or project costs and the proportionate share of any allowable
indirect costs. If an expense has already been paid, grantees are encouraged to draw down those funds as soon as possible. All grantee PMS accounts are placed in restricted status 90 days after the end of the reporting period. If grantees attempt to draw down funds after the 90-day period has run, LITC Program Office management approval is required for release of the funds from PMS. This added approval step may delay release of grant funds. Questions regarding disbursement of funds should be directed to the grantee’s assigned Advocacy Analyst.

**Grant Funds Must Be Held in an Insured Account**

Grantees must maintain advances of federal grant funds in interest-bearing accounts at a bank with Federal Deposit Insurance Corporation (FDIC) insurance coverage. The balance exceeding the FDIC coverage must be collaterally secured unless:

- The grantee receives less than $120,000 in federal awards per year;
- The best reasonably available interest-bearing account would not be expected to earn interest in excess of $500 per year on federal cash balances; or
- The depository would require an average or minimum balance so high that an interest-bearing account would not be feasible, given the grantee’s expected federal and nonfederal cash resources.

**Interest Earned on Grant Funds**

Grantees must annually remit to the federal government any interest in excess of $500 per year earned on advances of federal grant funds. A grantee may keep up to $500 of interest earned per year for administrative expenses. Interest earned on federal advance payments deposited in interest-bearing accounts must be remitted annually to HHS via PMS. See 2 CFR § 200.305.

**iii. Lobbying Restrictions**

No federal grant funds or matching grant funds may be used, either directly or indirectly, to support the enactment, modification, or adoption of any law, regulation, or policy at any level of government. Some exceptions to this general rule may exist pursuant to an express authorization by Congress. There are two types of lobbying activities — direct lobbying and grassroots lobbying.

**Direct lobbying** includes contacting a member of Congress, a state or local legislator, or any of their staff members to influence the legislator to take a position or action on a specific piece of legislation or potential legislation.

**Grassroots lobbying** includes activities that encourage third parties, members of special interest groups, or the public to contact federal, state, or local government officials in support of, or in opposition to, a legislative policy or appropriations matter. This applies to activities both before and after introduction of the legislation.

Any entity receiving grant funds from another federal source, either directly or indirectly, may be subject to additional restrictions on lobbying.
Grantees are prohibited from using federal grant funds and matching funds to:

- Visit or send letters to members of Congress, state or local legislators, or any of their staff members urging them to favor or oppose specific legislation pending under their jurisdiction;
- Develop materials designed to advocate for the enactment or repeal of any legislation or provide such materials to anyone;
- Draft or assist in the drafting of legislation or provide comments on draft legislation;
- Pay, directly or indirectly, for any efforts intended to or designed to influence a member of Congress or a state legislature to favor or oppose any legislation or appropriation, whether before or after introduction; or
- Engage in any legislative liaison activities, including attendance at legislative sessions or committee hearings, gathering information regarding legislation, or analyzing the effect of legislation, when such activities are carried out in support of or in knowing preparation for an effort to engage in unallowable lobbying.

Grantees are permitted to use federal grant funds and matching funds to:

- Educate the public or constituents on legislative issues, so long as the education is not part of a broader effort to directly or indirectly (grassroots lobbying) influence legislators on a specific piece of legislation or legislative issue;
- Respond to documented requests from members of Congress, state legislatures, or other officials (see 2 CFR § 200.450(c)(2)(i));
- Interact with agency liaisons, such as the NTA or LTAs, regarding program-related issues;
- Respond to a personal or public invitation from the IRS for comments on proposed tax regulations or guidance that impacts low-income and ESL taxpayers;
- Partner with professional organizations in efforts to identify and propose solutions for issues impacting low-income and ESL taxpayers (however, such efforts may not attempt to influence the introduction, enactment, or modification of any federal or state legislation);
- Contact government officials regarding broad social, economic, or other issues, so long as the contact is not part of an effort to influence Congress or the state legislature on an actual or potential specific piece of legislation; or
- Discuss broad social, economic, or other issues on listservs or blogs, so long as the contact is not part of an effort to influence Congress.

The LITC Program Office recognizes that the above list of prohibited and permitted activities will not answer every situation that arises. Accordingly, if a grantee has any question as to whether an anticipated activity could fall within the scope of these rules, it should contact the assigned Advocacy Analyst prior to engaging in such activity.
Disclosure Requirements
Grantees may expend non-LITC funds (i.e., funds that are neither federal grant funds nor matching funds) on lobbying activities. However, under the Byrd Amendment (31 U.S.C. § 1352), grantees may be required to disclose lobbying activities conducted if the activities relate to lobbying regarding the making or awarding of a grant and the organization receives more than $100,000 in federal grant funds.

</table>

This chart describes restrictions on the use of federal grant funds and matching grant funds for lobby. In addition, IRC § 501(c)(3) organizations are subject to lobby limits (using different lobbying definitions) under the Internal Revenue Code. In general, an IRC § 501(c)(3) organization may conduct an insubstantial amount of lobbying and still maintain its tax-exempt status. See Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, available at www.irs.gov/pub/irs-pdf/p4221pc.pdf
This chart describes restrictions on the use of federal grant funds and matching grant funds for lobbying. In addition, IRC § 501(c)(3) organizations are subject to lobbying limits (using different lobbying definitions) under the IRC. In general, an IRC § 501(c)(3) organization may conduct an insubstantial amount of lobbying and still maintain its tax-exempt status. See Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, available at www.irs.gov/pub/irs-pdf/p4221pc.pdf.

Example 1: Lobbying Restrictions

A grantee may send an email to the ABA sponsored LITC listserv to gather support or opposition for legislation. Although such an email is an attempt to influence legislation, so long as neither federal grant funds nor matching funds are used, the grantee has not violated Title 31 or Title 18 of the United States Code. If the grantee has a requirement under Title 31 to report lobbying activities, the email activity would need to be disclosed, including any research or background work performed in connection with the email to the listserv. For purposes of IRC § 501(c)(3), sending a single email to the listserv would likely constitute an “insubstantial” amount of lobbying.

The grantee likely should not have substantial expenditures or have expended substantial time devoted to simple tasks such as sending a single email. Keep in mind that if a grantee anticipates devoting, or having volunteers devote, a large amount of time to the endeavor (e.g., researching the issue, drafting proposed legislation, responding to comments on the listserv about the proposal), the activity could rise to the level of being more than insubstantial, in which case the grantee may choose to make a lobbying election under IRC § 501(h).

IRC § 501(h) measures the permitted/prohibited level of lobbying solely by expenses. If the grantee employee is considered a full-time LITC employee, then this activity may not be undertaken during working hours.

For more information about making a lobbying election, refer to:

- IRC § 501(h) and IRC § 4911;
- Treas. Reg. §§ 1.501(h)-1 through 1.501(h)-3;
- Treas. Reg. §§ 56.4911-1 through 56.4911-10; and
- Publication 557, Tax-Exempt Status for Your Organization.

Clinics receiving Legal Services Corporation (LSC) funds should not confuse the above rules on lobbying with LSC restrictions. There may be some lobbying activities that are acceptable under LITC guidance that are prohibited under LSC requirements and vice versa.
E. REPORTING RESPONSIBILITIES

Submission of Reports and Other Documents

Grantee Interim and Year-End Reports are submitted online through GrantSolutions at https://home.grantsolutions.gov/. The LITC Program Office provides annual training to grantees on using GrantSolutions. These trainings are announced on the LITC Toolkit.

Completing the Application Amendment Package

Application amendments are completed and submitted in GrantSolutions after receiving a NOA indicating the full amount of the award. An application amendment is required even if the grantee is not making any changes to the budget or program performance plan. This is necessitated by the system software. The LITC Program Office will determine final award amounts after Congress appropriates funding for fiscal year 2021.

If the grant amount awarded is less than the amount of grant funds requested, the grantee must provide a revised budget in the application amendment. If the difference in the funding award affects the clinic’s proposed activities, a revised program performance plan must also be submitted. The budget or performance plan may also need to be amended because of conditions imposed by the LITC Program Office upon the grantee’s receipt of the award, or if there have been any significant changes to the grantee’s operations, such as to key clinic personnel, between the time the grantee submitted the application and submits the application amendment. The application amendment must include the four numerical goals: New Representation Cases, Consultations, Educational Activities, and Taxpayers to be Reached in Educational Activities. An award of less than the applicant’s requested funding amount often is the result of consideration of several factors including the proposed goals in the application. The clinic should consult with the assigned Advocacy Analyst before amending the clinic’s program plan in response to receipt of less than the requested grant amount, especially when contemplating reductions in proposed activities and goals, to determine whether these changes are likely to be approved.

An application amendment will also need to be completed if, during the grant year, there are certain enumerated changes discussed in Section E.i., Events Requiring Notification to the Program Office, infra.

Requirement to Submit Reports on Grant Activities

The LITC Program Office requires the timely submission of two reports for each grant year — an Interim Report and a Year-End Report. The LITC Program Office uses the reports to assess the grantee’s progress in meeting its stated goals and objectives and to measure the quality of clinic operations, including the services provided to low-income and ESL taxpayers. Quality of operations is measured by determining how well grantees support the three prongs of the LITC mission and the related performance measures. The LITC Program Office also compiles and analyzes data from the reports to assess the overall success of the LITC Program. Data is then incorporated into Publication 5066, LITC Program Report, which reports the activities of the LITCs to internal and external stakeholders, including Congress, and highlights the important work that LITCs perform to protect the rights of America’s taxpayers. Thus, it is important that grantees provide accurate and complete reports.
i. Events Requiring Notification to the LITC Program Office

Some anticipated changes should be discussed with the LITC Program Office as far in advance of the anticipated change as possible as some changes may not be allowable and/or may impact the clinic’s eligibility to draw down further grant funds. Changes may also have an impact on funding decisions for a pending LITC grant application. This section discusses some of the changes that a clinic may experience. To report changes or anticipated changes requiring advanced notice, grantees should contact their assigned Advocacy Analyst via email, including a copy to LITCProgramOffice@irs.gov. The Advocacy Analyst will respond to discuss the matter with the grantee. For items that require the grantee to amend its application package, the Advocacy Analyst will forward the amendment package to the grantee via GrantSolutions and schedule a due date for resubmission of the package.

Changes in Entity or Sponsoring Organization

Grantees must notify the LITC Program Office in the event that the clinic or the clinic’s sponsoring organization plans to change its type of entity, including a merger with another clinic or organization. This notification shall inform the LITC Program Office of the planned entity changes or merger event, including the name and identifying information of any new organization that is involved or being formed, a timeline for the change or merger, and the name and contact information for the person the Program Office should contact with questions.

In the event of a merger, the Program Office may substitute another organization for the original sponsoring organization’s assets, the substitute organization’s clinic will provide the same scope of services to the same population as previously serviced or proposed to be serviced in the grantee application, and the substitute organization is qualified under the relevant statutes and regulations to be an LITC grantee. The Program Office may not be deemed as approving any entity change or merger until such approval is received in writing from the Director of the LITC Program. It is encouraged that the grantee notify the Program Office as early in the entity change or merger process as possible so the two can timely work through the issues and hopefully limit any lapse in funding.

Failure to notify the Program Office of a potential entity change or merger may result in restriction of funds or suspension or termination of the grant, see Section VIII, Award Modification, Suspension, Termination, or Withdrawal, infra.

Significant Changes in Clinic Operations

Grantees must notify the LITC Program Office in the case of problems, delays, or adverse conditions that significantly affect operations of the clinic or materially impair its ability to meet the objectives of the award. This notification shall inform the Program Office of events, such as those described in this section, that may significantly affect operations and include a statement of the action taken or contemplated to address the situation, and whether any assistance from the Program Office is needed to resolve the situation. Failure to notify the Program Office may result in restriction of funds or suspension or termination of the grant, see Section VIII, Award Modification, Suspension, Termination, or Withdrawal, infra.
Changes in Clinic or Key Personnel Contact Information
Grantees are required to immediately notify the LITC Program Office about proposed changes in contact information for the following:

- Key personnel, including the Clinic Director, QTE, or QBA (including their telephone number, address, or email address); and
- Clinic address (both the physical address and the mailing address), telephone number, or fax number.

These notifications ensure that the LITC Program Office has the most up-to-date information for each clinic and can update information in IRS online resources or printed publications.

Changes in Program Plan or Budget Under 2 CFR § 200.308
Grantees are expected to spend grant funds and matching funds in accordance with the program plan and budget submitted with their application, or as later revised and approved. Grantees must request approval from the LITC Program Office for any substantial change in the program plan or budget. A substantial change in the program plan or budget includes a change to:

- The scope or objective of the program, including;
  - The days and hours of operation; and
  - The beginning and ending dates clinic services will be provided;
- Key personnel or time devoted to the LITC by key personnel; and
- The amount or composition of matching funds (cash or third-party in-kind match).

Grantees are responsible for monitoring the use of LITC grant funds throughout the year to ensure that all grant funds awarded will be expended. If a grantee determines that it will have unused grant funds (i.e., not spend its entire award), the grantee should immediately notify its assigned Advocacy Analyst in writing. The notification should contain the following information:

- The amount of grant funds being returned;
- The reason for the return of funds; and
- The impact the return of funds will have on future operations (e.g., this is a one-time occurrence, or the grantee anticipates a permanent reduction in its future funding needs).

A grantee that does not expect to use its entire grant award must contact the LITC Program Office immediately so that the Program Office will have sufficient time to re-obligate the funds to another clinic on or before September 30, the end of the federal government’s fiscal year. Grantees should also include this information in the Interim Report if they become aware that they will not use all funds prior to submitting the report.

Withdrawal From the LITC Program
A grantee that wishes to withdraw from the LITC Program or terminate operations of its LITC must notify the LITC Program Office prior to the date of withdrawal or termination. This notice should be given in as far advance as possible.
Note: Upon withdrawal from the LITC Program, an organization may no longer refer to itself as an LITC. Failure to abide by this prohibition could lead to civil/criminal penalties or imprisonment. See 31 U.S.C. § 333.

ii. Submitting the Interim Report

An Interim Report must be submitted online through GrantSolutions by July 30, 2021. The Interim Report covers the first half of the grant year (January 1, 2021 through June 30, 2021) and consists of the following items, prepared in accordance with the relevant instructions:

- Standard Form 425, Federal Financial Report;
- Form 13424-A, Low Income Taxpayer Clinic (LITC) General Information Report;
- Form 13424-B, Low Income Taxpayer Clinic (LITC) Case Issues Report;
- Form 13424-C, Low Income Taxpayer Clinic (LITC) Advocacy Information Report;
- Form 13424-K, Low Income Taxpayer Clinic (LITC) Case Information Report;
- Form 13424-L, Statement of Grant Expenditures and Narrative Explanations; and
- Form 13424-N, Low Income Taxpayer Clinic (LITC) Program Narrative Report.

For reference purposes, copies of all required reporting forms and instructions are included in Appendix B. However, grantees must complete and submit reporting forms in GrantSolutions.

iii. Submitting the Year-End Report

A Year-End Report must be submitted online through GrantSolutions by March 31, 2022. The Year-End Report covers the entire grant year (January 1, 2021 through December 31, 2021). When preparing the program narrative, the clinic may reference the Interim Report in lieu of repeating information found therein. A complete Year-End Report consists of the following items, prepared in accordance with the relevant instructions:

- Standard Form 425, Federal Financial Report;
- Form 13424-A, Low Income Taxpayer Clinic (LITC) General Information Report;
- Form 13424-B, Low Income Taxpayer Clinic (LITC) Case Issues Report;
- Form 13424-C, Low Income Taxpayer Clinic (LITC) Advocacy Information Report;
- Form 13424-K, Low Income Taxpayer Clinic (LITC) Case Information Report;
- Form 13424-L, Statement of Grant Expenditures and Narrative Explanations; and
- Form 13424-N, Low Income Taxpayer Clinic (LITC) Program Narrative Report.

Subject to OMB approval, the LITC Program Office may require additional reporting information from LITCs. Grantees should refer to the LITC Toolkit for updates on reporting requirements prior to submitting their reports.
Late Submissions
In certain instances, grantees may request an extension of time to submit the Interim or Year-End Report. However, a report will still be considered late if submitted after the due date, notwithstanding any extension that may be granted. The request must be submitted in writing to the LITC Program Office prior to the due date of the report and must include an explanation justifying the extension. Grantees should contact their assigned Advocacy Analyst via email, including a copy to LITCProgramOffice@irs.gov to submit an extension request. Failure to timely submit required reports to the LITC Program Office may result in any or all the following:

- Restricted access to grant funds;
- Suspension or termination of the grant; or
- Reduction of any future award amount.

iv. Grant Closeout
The LITC Program Office will close out the LITC grant award when it determines that all applicable administrative actions and activities related to the grant have been completed by the grantee. Before a grant may be closed out, the following actions must be completed:

- Submission by the grantee of all required Interim and Year-End Report forms;
- Liquidation by the grantee of all obligations incurred under the award;
- Draw down by the grantee of payment for all allowable reimbursable costs;
- Repayment by the grantee of any balances of unobligated cash drawn down by the grantee; and
- Settlement of any adjustments to the grant award to account for any shortfall in the dollar-for-dollar matching funds requirement.

Closeout actions should occur within one year after receipt and acceptance of all required final reports.

By accepting the NOA, the Grantee authorizes the LITC Program Office to take steps to de-obligate funds without the need for the clinic to execute a new NOA, budget, or reporting forms if the amount involved is less than $25. The Program Office will notify the clinic via email of the planned action 30 days prior to taking the action and a de-obligation will not be initiated any earlier than September 1 of the year following the close of the budget period.
The LITC Program Office is responsible for managing and administering the LITC grant program in a manner that ensures federal funding is expended and funded programs are implemented in full accordance with U.S. statutory and public policy requirements. The LITC Program Office fulfills its responsibilities by:

- Administering the award and payment of grant funds;
- Providing assistance and guidance to grantees; and
- Monitoring the performance of grantees.

**A. STRUCTURE**

The LITC Program Office is part of TAS. The Director of the LITC Program reports directly to the NTA. The LITC Program Office staff consists of the following:

- Headquarters staff, including managers, program analysts, a technical advisor, budget analysts, and support staff who report to the Director and the Deputy Director of the LITC Program and have program-wide responsibilities, including Program Office and clinic financial matters;
- Operations Office staff, including analysts responsible for processing grant applications, awards, reports, and payments; and
- Advocacy Office staff, including analysts responsible for reviewing and analyzing clinic reports, conducting site assistance visits, and serving as the primary liaison between grantees and the LITC Program Office.

**Figure 4, LITC Program Office Staffing Chart**
B. ADMINISTRATION

The LITC Program Office administers the grant by:

- Processing LITC grant applications and making awards to successful applicants;
- Revising and issuing annually Publication 3319, LITC Grant Application Package and Guidelines;
- Maintaining the LITC Toolkit, a website which is used to disseminate program guidance to grantees and provide resources to assist clinics in assisting low-income and ESL taxpayers;
- Maintaining Publication 4134, Low Income Taxpayer Clinic List, a list of all federally-funded LITCs, and ensuring that the publication is included in appropriate IRS mailings, and referenced in appropriate IRS publications and notices, and available at Taxpayer Assistance Centers;
- Updating information about the LITC Program on IRS and TAS websites, including an interactive map listing LITCs by state on https://taxpayeradvocate.irs.gov/about/litc.
- Publishing annually Publication 5066, LITC Program Report, which reports the activities of the LITCs to internal and external stakeholders; and
- Reviewing and analyzing data from reports submitted by grantees to identify trends and recognize best practices.

C. ASSISTANCE

The LITC Program Office assists grantees and applicants by:

- Providing technical assistance and guidance to grantees and potential applicants;
- Informing the public about the availability of LITCs, as appropriate and to the extent permitted by law;
- Sponsoring and organizing the Annual LITC Grantee Conference that delivers instruction and continuing education to all grantees and provides an opportunity for attendees to meet face-to-face with colleagues from clinics throughout the country to share ideas and strategies to better assist low-income and ESL taxpayers;
- Conducting orientation visits to familiarize new grantees with LITC Program requirements and to identify potential areas where the clinic may need to create systems or improve processes;
- Fostering the working relationship between grantees and LTA offices;
- Issuing special appearance authorizations to LITCs that permit students and law graduates working under the supervision of a practitioner to represent taxpayers before the IRS;
- Coordinating access for grantees to e-Services products offered by the IRS; and
- Assisting with resolution of problems that grantees may experience with GrantSolutions.
D. OVERSIGHT

The LITC Program Office conducts oversight of grantees by:

- Reviewing Interim and Year-End Reports to assess grantees’ progress in meeting program goals, collecting emerging issues identified, and aggregating performance data submitted by grantees;
- Reviewing budgets and financial reports submitted by grantees to ensure that federal funds are properly expended and that matching funds are properly sourced, spent, and valued; and
- Conducting operational review visits to interview clinic personnel, observe facilities, review procedures and internal controls, corroborate report information, and evaluate operations.

E. SITE ASSISTANCE VISITS

The LITC Program Office or the LTA conducts a site assistance visit to each grantee every year. There are three types of site assistance visits:

- Orientation visit;
- Operational review visit; and
- LTA visit.

Orientation Visits

The LITC Program Office conducts an orientation visit to each grantee that did not receive a grant in the preceding year. The orientation visit will generally occur during the first 120 days of the grant year. An orientation visit provides an opportunity to familiarize a new grantee with LITC Program requirements and to measure the progress of its start-up activities. During the visit, the staff of the LITC Program Office also has the opportunity to discuss accounting procedures and internal controls with the new grantee and perform a limited sampling of records and expense documentation to ensure that the controls are in place and being used appropriately. The orientation visit also allows the staff to assess the status of newly funded clinics and to identify potential areas where the grantee may need to create systems or improve processes to meet the requirements of the LITC Program.

During the orientation visit, discussions about the clinic’s finances incorporate accounting and financial controls as documented on the pre-visit assessment/site visit plan prepared by the Advocacy Analyst prior to the visit. Specifically, the Program Office reviews at least one receipt and invoice at random and other supporting documentation, including approvals and reimbursements for the LITC conference travel. In addition, LITC Program Office staff samples at random personnel expenses, if any, from the first quarter of the current grant year. As there will be no report to compare to, the primary purpose of this sampling is to provide a basis for discussing the financial recordkeeping and to determine how well the clinic is following the policies and procedures the LITC has in place.
Operational Review Visits

The purpose of an operational review visit is to evaluate a clinic’s overall operations and to provide technical assistance to help the grantee maintain compliance with the terms and conditions of the LITC grant. The visit may include the review of documents, papers, or other records of the grant recipient. OMB regulations require that the IRS must have the right to access any documents, papers, or other records of a grant recipient which are pertinent to the award to make audits and examinations. See 2 CFR § 200.336(a). The Treasury Department implemented a regulation making it clear that “[t]he right of access under 2 CFR 200.336 shall not extend to client information held by attorneys or federally authorized tax practitioners under the Low Income Taxpayer Clinic program.” See 2 CFR § 1000.336. Consequently, when monitoring and evaluating clinic activities, the LITC Program Office will respect the clinic’s duty to protect confidential information and will not interfere with the confidential nature of the relationship between qualified representatives and their clients. Therefore, the LITC Program Office will not require LITCs to provide access to taxpayer-specific information for auditing or verifying that the 90/250 requirement has been satisfied, or that the amounts in controversy generally do not exceed the amount specified in IRC § 7463. In addition, the LITC Program Office will not require an LITC to provide access to information a taxpayer provided to the LITC during a consultation which did not result in the taxpayer executing a representation agreement. Prior to an operational review visit, the Advocacy Analyst assigned to the clinic will have the clinic complete an LITC Site Assistance Visit — Case Eligibility Requirements Tracking Form. This form collects data on the eligibility decisions made by the clinic during the grant year in question but does not request identifying information such as the taxpayer name or taxpayer identification number.

If the LITC Program Office identifies a concern with a clinic’s procedure for collecting financial eligibility or amount in controversy information and making eligibility determinations, the LITC Program Office staff member conducting an operational review visit may decide to randomly sample the financial eligibility or amount in controversy determinations made by the clinic staff. This will be done by asking the clinic to generate a list of cases accepted for representation by a unique identifier for the time frame that is under review. The unique identifier should not be the taxpayer's name or taxpayer identification number. Using a clinic staff member as an intermediary, the LITC Program Office staff conducting the visit will randomly select a small number of cases to review and will ask the intermediary to pull the case file information. The LITC Program Office staff will then ask the intermediary to answer questions about what is recorded for the applicant including the household composition, household income, and the amount in controversy.

During an operational review visit, the grantee’s assigned Advocacy Analyst will interview clinic personnel, examine intake procedures, review case management and reporting systems, and sample financial records. An operational review visit may also include observation of clinic facilities and review of procedures and internal controls, personnel policies, training plans, privacy and confidentiality policies, outreach plans and materials, educational curricula, fee policies, and client satisfaction instruments.

By supporting and monitoring the work of LITCs, the Program Office staff is able to build a relationship with clinicians that engenders trust and encourages the LITCs to seek guidance and assistance from the Program Office. Generally, the Program Office will visit each LITC at least once every three years. The Program Office may conduct visits at any time and more often if an assessment of the clinic indicates that more close monitoring is necessary and that this is best accomplished by additional visits.
LTA Visits

The LTA is required to visit each clinic in his or her state or territory at least once a year. If the LTA participates in a visit with the Program Office, the LTA will be provided with time during the visit to discuss current issues, collaborations, or other topics of mutual interest to the LTA and LITC. In a year when the LTA does not accompany the LITC Program Office on an orientation visit or an operational review visit, the LTA must conduct an LTA visit. The purpose of the LTA visit is to foster the relationship between the LTA’s office and the clinic.
F. CONTACTING THE LITC PROGRAM OFFICE

Potential applicants may direct questions concerning the LITC Program or the application process to the LITC Program Office. Organizations that have been awarded an LITC grant should contact their assigned Advocacy Analyst directly with any questions regarding reporting or program requirements.

**LITC Program Publications**

Publication 4134, Low Income Taxpayer Clinic List

Publication 5066, Low Income Taxpayer Clinic Program Report
VIII. AWARD MODIFICATION, SUSPENSION, TERMINATION, OR WITHDRAWAL

The LITC Program Office’s duty to enforce grantee compliance as a condition of funding is vitally important. The LITC Program Office may become aware of clinics’ non-compliance through reviews of clinic reports, site assistance visits, or other interactions with grantees. If the clinic fails to meet its obligations under the terms and conditions of the grant, the LITC Program Office may reduce an award amount, delay release of funds, or suspend or terminate a grant in whole or in part. Prior to taking such steps, the IRS will determine whether imposing additional conditions upon the grantee is likely to remedy the non-compliance. A grant award may also be terminated with the consent of the grantee, in which case the two parties must agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated. Notwithstanding that a multi-year grant has been awarded under IRC § 7526(c)(3), the IRS may terminate a grant during the multi-year period.

Actions that may lead to a reduced award, delay in receiving grant funds, suspension, or termination include:

- Failure to comply with federal tax and nontax obligations, or the applicant does not have an active SAM registration or is suspended or debarred
- Failure to satisfy the 90/250 requirement of IRC § 7526(b)(1)(B)(i);
- Failure to provide matching funds on a dollar-for-dollar basis for all LITC grant funds awarded;
- A violation by the recipient of a material provision of IRC § 7526 or other applicable law or regulation (including the Uniform Guidance);
- A violation by the recipient of a material provision of the 2021 Publication 3319, LITC Grant Application Package and Guidelines, (for example, failure to timely file complete and accurate reports);
- Failure to maintain taxpayer information in a secure manner; and
- Failure to provide accurate and competent representation to taxpayers, where competent representation requires the legal knowledge, skill, thoroughness, and preparation reasonably necessary to provide effective assistance. See ABA Model Rule 1.1, Competence, and Model Rule 1.3, Diligence.

Remedies for Noncompliance

If a grantee fails to comply with the federal statutes, regulations, or the terms and conditions in the Notice of Award, the LITC Program Office may impose additional conditions, as described in 2 CFR § 200.207. If the LITC Program Office determines that noncompliance cannot be remedied by imposing additional conditions, the LITC Program Office may take one or more of the following actions, as appropriate in the circumstances:

- Temporarily restrict access to grant funds pending correction of the noncompliance or more severe enforcement action;
- Disallow all or part of certain cost items, including grant expenditures and matching funds, that support the activity or action not in compliance and seek recovery of improperly spent funds (plus any applicable interest);
- Wholly or partly suspend or terminate the grant;
- Initiate suspension or debarment proceedings as authorized under 2 CFR Part 180;
- Withhold a future award amount; or
- Take other remedies that may be legally available.

**Notification of Grant Suspension or Termination**

Suspension or termination of a grant award will be handled in accordance with the Uniform Guidance. The LITC Program Office will notify the grantee in writing of any suspension or termination action, setting forth the reasons for such action and the effective date. The notification will advise the grantee of its right to object to the suspension or termination action by providing information and documentation in writing to challenge the basis for the action.

**Challenging A Suspension or Termination**

If a grantee wishes to challenge the LITC Program Office's decision to suspend or terminate a grant, the grantee must send a written request to the Director of the LITC Program Office for reconsideration of the suspension or termination decision. The grantee may provide information and documentation for review during the reconsideration. The Director of the LITC Program Office will review the submission and make a recommendation to the NTA who has final decision making authority, unless recused. In recusal situations, a final decision will be made by the Deputy NTA.

IRC § 7526 does not require the IRS to provide grant recipients an opportunity for a hearing or an appeal. Therefore, the necessity for renegotiation, suspension, or termination of a grant agreement will be determined solely by the IRS. The decision of the NTA (or the Deputy NTA in recusal situations) when an LITC challenges the Program Office's decision is final.

**Responsibilities Following Termination or Withdrawal**

If the LITC Program Office terminates a grant, the grantee must submit a final Year-End Report to the LITC Program Office within 90 days of the termination. Similarly, if clinic activity is terminated prior to the expiration of the period of the grant agreement or if a grantee withdraws from the LITC Program, a final Year-End report must be submitted within 90 days of final clinic activity or withdrawal from the LITC Program.

All unused funds must be repaid to the IRS within 30 days of the date of withdrawal or the date of termination. The federal government is generally obligated to charge interest on any amount that is not repaid in a timely fashion. See 31 CFR § 901.9. Thus, for any funds the LITC Program Office requests to be returned to the IRS, failure to repay those funds on time may result in the grantee having to pay interest on those funds.

Employees and volunteers of the clinic who are lawyers must adhere to their responsibilities as attorneys, not just the responsibilities within the parameters of the LITC Program. The ABA has model rules of professional conduct that are applicable when a lawyer is terminating representation. In this regard, ABA Model Rule 1.16 provides that upon terminating representation of a client, a lawyer must take reasonable steps to protect a client’s interests, which includes giving notice to the client, allowing the client time to find other representation, and returning papers and property to the client. The state bar may have a similar rule of professional responsibility that provides guidance for terminating representation. Courts, such as the U.S. Tax Court, require the filing of a motion for leave to withdraw as counsel. See U.S. Tax Court Rule 24.
In addition, if the clinic will no longer participate in the U.S. Tax Court Calendar Call, the clinic must notify the Tax Court so that the Tax Court will cease referring taxpayers to that clinic.

Use of “LITC” After Discontinuation of Services

Once an organization is no longer a grantee, the clinic must not use “LITC” as part of its name. Circular 230 prohibits practitioners from providing misleading or deceptive statements or claims. See 31 CFR § 10.30(a)(1). If the organization will continue to exist but will not be receiving grant funds, it may be misleading for the organization to call itself an LITC. In appropriate circumstances, the LITC Program Office may need to refer the matter to the IRS’s Office of Professional Responsibility. Further, use of the LITC logo or LITC designation may lead to civil/criminal penalties or imprisonment. See 31 U.S.C. § 333.
This page intentionally left blank.
APPENDIX A

FULL GRANT APPLICATION FORMS
APPLICATION FORMS

To be considered for 2021 LITC Program grant funding, all LITC Full Grant Applications must be submitted by **June 16, 2020**. The Funding Opportunity Number for the 2021 LITC grant is TREASGRANTS-052021-001.

The forms contained in this publication are provided for reference purposes only. All Full Grant Applications must be submitted electronically via [www.grants.gov](http://www.grants.gov).

Any forms submitted with a Full Grant Application may be released under the Freedom of Information Act (FOIA). In response to a FOIA request, the LITC Program Office will release these forms after appropriate redactions to ensure confidentiality of taxpayer information.

If you have questions about the LITC Program or grant application process, please contact the LITC Program Office at 202-317-4700 (not a toll-free call) or by email at [LITCProgramOffice@irs.gov](mailto:LITCProgramOffice@irs.gov).

**Instructions for Completing Application Forms**

Appendix A of this publication is a useful guide for completing each of the required application forms, which includes IRS forms and Office of Management and Budget (OMB) forms. OMB requires certain standard forms (SF) for use in all federal grant programs. To assist applicants in completing the OMB forms, this appendix includes copies of the forms and instructions, as well as detailed instructions specifically for LITC Full Grant Applications. The appendix also includes copies of all required IRS forms needed to complete an application, instructions for completing each, and a sample program budget.

A complete LITC Full Grant Application consists of the following items, submitted through [www.grants.gov](http://www.grants.gov) and prepared in accordance with the relevant instructions.

- Standard Form 424, Application for Federal Assistance;
- Standard Form 424A, Budget Information – Non-Construction Programs;
- IRS Form 13424, Low Income Taxpayer Clinic (LITC) Application Information;
- IRS Form 13424-J, Detailed Budget Worksheet and Narrative Explanations;
- IRS Form 13424-M, Low Income Taxpayer Clinic (LITC) Application Narrative; and
- Attachments Form, which is part of the downloadable PDF from [Grants.gov](https://www.grants.gov) and must be used to submit the following items:
  - Tax exemption determination letter, if applicable;
  - Proof of academic accreditation, if applicable; and
  - Most recent audited financial statement (if the applicant expends $750,000 or more in federal funds during the applicant’s fiscal year, this must be a single audit or program-specific audit as defined in 2 CFR § 200.501). If the applicant’s most recent audited financial statement is available on the Federal Audit Clearinghouse found at [https://harvester.census.gov/facweb/](https://harvester.census.gov/facweb/), then in lieu of attaching the audit, check the “yes” box located on Form 13424-M in response to question II.4.ii. See Section IV.E.iv, OMB Audit Requirement.
* Please note that as a result of the COVID-19 pandemic, OMB has provided agencies with the authority to grant certain administrative relief to federal grant recipients. One area of relief pertains to the requirement to complete and submit a single audit to the Federal Audit Clearinghouse. For applicants that are required to complete and submit a single audit to the Federal Audit Clearinghouse (per 2 CFR § 200.501) but have not done so as of March 19, 2020, and have a fiscal year-end through June 30, 2020, an automatic extension of six months beyond the normal due date is allowed. No further action is required to obtain the extension, but include a statement on Form 13424-M, question II.4.iv, with the new date by which the single audit will be provided. For returning applicants, the LITC Program Office will conduct the Full Grant Application financial review using the single audit provided with the prior year’s application. For new applicants, please provide a copy of the most recent single audit completed for the sponsoring organization or check the “yes” box on Form 13424-M, question II.4.ii, to indicate that the most recent audit is available from the Federal Audit Clearinghouse.*

- An applicant that does not have audited financial statements must submit unaudited statements for its most recent fiscal year and a statement as to why audited financial statements are not available;

- Applicants must also provide documentation (e.g., articles of organization or a Form 2848) which shows that the designated Tax Compliance Officer on Form 13424 is properly authorized to receive tax information; and

- Indirect cost rate agreement, if applicable.
INSTRUCTIONS FOR STANDARD FORM 424, APPLICATION FOR FEDERAL ASSISTANCE

Purpose
This is a standard form required to be submitted with all Full Grant Applications for an LITC matching grant. This form is used to report information about the applicant, including the amount and period of the grant requested, and the counties and congressional districts where the applicant will provide assistance.

Signing the Application for Federal Assistance certifies that the applicant:

- Has provided true, complete, and accurate information;
- Has provided the required assurances, found in Publication 3319, Section VI.D, National Policy Requirements and Administrative Requirements; and
- Upon acceptance of an award, agrees to comply with the terms of this Publication and any additional terms contained in the Notice of Award issued by the LITC Program Office.

OMB requires Standard Form 424, Application for Federal Assistance, to be used by all federal grant programs. The instructions in this appendix are intended as a guide for submitting LITC Full Grant Applications and NCC Requests. Some information collected on this form is not required to apply for the LITC application; however, to ensure successful processing of this form, a response must be entered for each field. The instructions in this appendix indicate the fields in which to enter a response of N/A.

Standard instructions are available at www.grants.gov/web/grants/form-instructions/sf-424-instructions.html; however, as previously indicated the standard instructions are generic and the instructions provided in this appendix will better assist the applicant in completing the form.

Who Must Complete This Form
All organizations submitting a Full Grant Application must complete this form.
### Specific Instructions

Instructions for completing each question for a Full Grant Application are incorporated into the sample Standard Form 424 below.

INSTRUCTIONS FOR STANDARD FORM 424A, BUDGET INFORMATION – NON-CONSTRUCTION PROGRAMS

Purpose
This is a standard form required to be submitted with all Full Grant Applications for an LITC matching grant. This form is used to summarize the proposed budget for the LITC grant, including how federal grant funds and matching funds will be spent during the grant period. All budgeted amounts must be reasonable, necessary, and allocable to this grant. In preparing the budget, adhere to existing guidelines in 2 CFR Part 200, 2 CFR Part 1000, and Publication 3319 which explain how budgeted amounts should be reported. See Publication 3319, 2 CFR § 200.306, and 2 CFR § 1000.306 for guidance on matching funds.

Note:
- Each budget item does not require a dollar-for-dollar match, but the total matching funds must equal or exceed the total federal funds requested. See Publication 3319, Section IV.E.iii, Meeting the Matching Funds Requirement.
- Federal funds are those funds the applicant is seeking from the IRS in support of the LITC Program.
- Non-federal funds are funds from other sources that the applicant has or will have available to spend on the LITC Program. These are considered matching funds.
- 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards provides guidance about allowable and unallowable expenses. Also, see Publication 3319, Section IV.E.iii, Meeting the Matching Funds Requirement, for a list of common expenses that are allowable or unallowable.
- Please round figures to whole dollars only.
- Budgets should only include funding requested for grant year 2021, even if an applicant is applying for a multi-year grant.

OMB requires Standard Form 424A, Budget Information – Non-Construction Programs, to be used by this federal grant program. The instructions in this appendix are intended as a guide for submitting LITC Full Grant Applications.

Standard instructions are available at www.grants.gov/web/grants/form-instructions/sf-424a-instructions.html; however as previously discussed, the standard instructions are generic.

Who Must Complete This Form
All organizations submitting a Full Grant Application must complete this form. Budget information must also be reported on Form 13424-J, Detailed Budget Worksheet and Narrative Explanations. Failure to provide this information will result in non-consideration of the Full Grant Application.
Specific Instructions

This form is designed so that application can be made for LITC grant funds. Sections A and B should include budget estimates for grant year 2021 only. If applying for a multi-year grant, Section E should present the need for federal assistance in the subsequent grant years. All applications should contain a breakdown by the object class categories shown in lines a-k of Section B.

<tbody>
<tr>
<td>6.</td>
<td>Object Class Categories:</td>
<td>Provide a breakdown of budgeted funds by object class for column (1) in lines 6(a)–(k).</td>
</tr>
<tr>
<td>6(a).</td>
<td>Personnel:</td>
<td>This expense category is used to report salaries and wages that will be paid to LITC staff. Do not include fringe benefits in this category (fringe benefits should be accounted for in 6(b)). Volunteer in-kind services should not be combined with personnel expenses; they should be reported separately in 6(h).</td>
</tr>
<tr>
<td>6(b).</td>
<td>Fringe Benefits:</td>
<td>This expense category is used to report fringe benefits that will be paid on behalf of LITC staff whose wages and salaries are reported in 6(a), Personnel.</td>
</tr>
<tr>
<td>6(c).</td>
<td>Travel:</td>
<td>This expense category is used to report budgeted travel costs, including costs associated with attendance at the Annual LITC Grantee Conference and other travel expenses directly related to conducting LITC business or activities.</td>
</tr>
<tr>
<td>6(d).</td>
<td>Equipment:</td>
<td>This expense category is used to report the budgeted cost of equipment that will be purchased by the applicant and used in operating an LITC program. Donated equipment may be included as matching funds on line 8 and must be valued at the fair market value of the property at the time of the donation. Report equipment purchases of less than $5,000 in 6(e) (2 CFR § 200.94). Report leased equipment in 6(f) and equipment maintenance expense in 6(h).</td>
</tr>
<tr>
<td>6(e).</td>
<td>Supplies:</td>
<td>This expense category is used to report the cost of supplies and equipment costing less than $5,000 that will be used in operating the LITC. Donated supplies may be included as matching funds on line 8 and are valued at the fair market value of the property at the time of the donation.</td>
</tr>
<tr>
<td>6(f).</td>
<td>Contractual:</td>
<td>This expense category is used to report the budgeted cost of rent, utilities, and other contracted items or services that will be used in operating an LITC program. Donated space may be included as matching funds and the value assigned may not exceed the fair rental value of comparable space. If a contracted item or service pertains to other programs in addition to LITC activities, only the portion directly attributable to LITC activities may be allocated to the LITC program.</td>
</tr>
<tr>
<td>6(g).</td>
<td>Construction:</td>
<td>This category is not applicable to this grant. No expenses are allowed.</td>
</tr>
<tr>
<td>6(h).</td>
<td>Other Expenses:</td>
<td>This expense category is used to report all other direct costs that will be incurred in operating the LITC program that are not properly included in the object class categories in 6(a)–(g). The value of volunteer services is included in this category as matching funds. See Publication 3319, Section IV.E.iii, Meeting Matching Funds Requirement.</td>
</tr>
<tr>
<td>6(i).</td>
<td>Total Direct Charges:</td>
<td>The total of the direct charges is the sum of 6(i)–(h) for each column.</td>
</tr>
<tr>
<td>6(j).</td>
<td>Indirect Charges:</td>
<td>This section is used to report indirect costs not directly related to the LITC program but incurred as part of the general overhead and administration of the sponsoring organization. A reasonable portion of LITC grant funds may be used to pay for indirect expenses, however indirect costs paid using any other funds may not be included when calculating matching funds required under the LITC grant. There are two acceptable methodologies for calculating federal funds allocable to indirect costs:</td>
</tr>
<tr>
<td></td>
<td>i. Indirect cost rate agreement (ICRA)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Must be approved in advance;</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Agreement must set forth cost items included in the rate; and</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• The clinic may not charge items included in the rate as separate expense items.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>ii. De minimis 10 percent rate</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Rules are set forth in 2 CFR Part 200; and</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Clinics that use the de minimis rate to charge indirect costs must charge costs consistently across federal grants and may not double charge or inconsistently charge as both indirect and direct costs.</td>
<td></td>
</tr>
<tr>
<td>6(k).</td>
<td>Totals:</td>
<td>Enter the total of the amounts from 6(i) and 6(j). The total amount in 6(k) should be equal to the amount shown in 5(g). The amounts entered in 6(a)–(k) must equal the totals in each category on Form 13424-J, Detailed Budget Worksheet.</td>
</tr>
<tr>

INSTRUCTIONS FOR FORM 13424, LOW INCOME TAXPAYER CLINIC (LITC) APPLICATION INFORMATION

Purpose
This form is used to report basic information about the applicant, including the amount and period of the grant requested, contact information for the applicant’s sponsoring organization, the name and location of the clinic where services are provided, and key clinic staff members. The Program Office uses the information reported on this form to correspond with clinics and to publicize the location of service providers to taxpayers in IRS publications and online. Please follow the instructions carefully and report all information completely and accurately. A complete response means an entry must be provided for each field.

Who Must Complete This Form
All organizations submitting a Full Grant Application must complete this form. See Publication 3319, Section IV, Application and Submission Process.

Specific Instructions
Grant Period Request
Check the appropriate box to indicate whether a single or multi-year grant is requested. Under IRC § 7526, the LITC Program Office is authorized to issue grants for a period of up to three years. Applicants that have never been awarded an LITC grant are not eligible for a multi-year grant and may only request a single year grant.

Enter the total amount, rounded to whole dollars, of funding requested for the grant year. The maximum funding that may be awarded for any grant year is $100,000.

Applicant Information
Enter the contact information for the organization applying for the grant. The name of the applicant must match exactly the name used to register with the System for Award Management (SAM). If a grant is awarded, the award will be payable to the organization listed in this section.

For Applicant’s Mailing Address, please provide a complete response, including zip plus-four code. Phone numbers should be formatted as 123-456-7890 x.111.

Clinic Information
This section is used to report information about the clinic where services are provided to taxpayers. If a grant is awarded, the information entered in this section will be used exactly as entered to prepare IRS Publication 4134, Low Income Taxpayer Clinic List. Publication 4134 is the primary tool for many low-income and ESL taxpayers to locate LITC services. Thus, the clinic name entered should be the name used in materials publicizing the LITC’s services to taxpayers and the public.

Please provide a complete response, including zip plus-four code, for the Clinic Street Address, and Clinic Mailing Address. Do not write “same.” Phone numbers should be formatted as 123-456-7890 x.111.

When providing the clinic’s website address, please provide the direct link to the LITC page if one is available. If no website exists, write “none.”
Please individually list all languages in addition to English in which services can be provided on site. If the clinic uses a telephone or internet based translation service, state “other languages through interpreter services.”

All applicants must identify a Clinic Director, Qualified Tax Expert (QTE), and Qualified Business Administrator (QBA) responsible for clinic operations and management of funds. For more information on these positions, see Publication 3319, Section VI.C.i, Standards for Operating an LITC. For the Clinic Director and QTE, list any applicable licenses and certifications.

**Tax Compliance Officer**

All applicants must identify a Tax Compliance Officer. See Publication 3319, Section III.C.iii, Compliance with Federal Tax and Nontax Requirements and Glossary for a discussion of who may be designated.

An applicant must be in full compliance with its federal tax responsibilities when applying for an LITC grant and throughout the grant year.

## Instructions for Form 13424, Low Income Taxpayer Clinic (LITC) Application Information

### Purpose
This form is used to report basic information about the applicant, including the amount and period of the grant requested, contact information for the applicant’s sponsoring organization, the name and location of the clinic where services are provided, and key clinic staff members. The Program Office uses the information reported on this form to correspond with clinics and to publicize the location of service providers to taxpayers in IRS publications and online. Please follow the instructions carefully and report all information completely and accurately. A complete response means an entry must be provided for each field.

### Who Must Complete This Form
All organizations submitting a Full Grant Application or a Non-Competitive Continuation (NCC) Request must complete this form. See Publication 3319, Section IV, Application and Submission Process.

Any forms submitted with a Full Grant Application or NCC Request may be released under the Freedom of Information Act (FOIA). In response to a FOIA request, the LITC Program Office will release these forms after appropriate redactions to ensure confidentiality of taxpayer information.

### Specific Instructions

#### Grant Period Request
Check the appropriate box to indicate whether a single or multi-year grant is requested. Under IRC § 7526, the LITC Program Office is authorized to issue grants for a period of up to three years. Applicants that have never been awarded an LITC grant are not eligible for a multi-year grant and may only request a single year grant.

Current grantees requesting a NCC Request must check the box indicating whether the request is for the second or third year of a multi-year grant.

Enter the total amount, rounded to whole dollars, of funding requested for the grant year. The maximum funding that may be awarded for any grant year is $100,000.

#### Applicant Information
Enter the contact information for the organization applying for the grant. The name of the applicant must match exactly the name used to register with the System for Award Management (SAM). If a grant is awarded, the award will be payable to the organization listed in this section.

For Applicant’s Mailing Address, please provide a complete response, including zip plus-four code. Phone numbers should be formatted as 123-456-7890 x.111.

#### Clinic Information
This section is used to report information about the clinic where services are provided to taxpayers. If a grant is awarded, the information entered in this section will be used exactly as entered to prepare IRS Publication 4134, Low Income Taxpayer Clinic List. Publication 4134 is the primary tool for many low income and ESL taxpayers to locate LITC services. Thus, the clinic name entered should be the name used in materials publicizing the LITC’s services to taxpayers and the public.
Instructions for Form 13424, Low Income Taxpayer Clinic (LITC) Application Information (cont'd)

Please provide a complete response, including zip plus-four code, for the Clinic Street Address, and Clinic Mailing Address. Do not write “same.” Phone numbers should be formatted as 123-456-7890 x.111.

When providing the clinic’s website address, please provide the direct link to the LITC page if one is available. If no website exists, write “none.”

Please individually list all languages in addition to English in which services can be provided on site. If the clinic uses a telephone or internet based translation service, state “other languages through interpreter services.”

All applicants must identify a Clinic Director, Qualified Expert (QTE), and Qualified Business Administrator (QBA) responsible for clinic operations and management of funds. For more information on these positions, see Publication 3319, Section VI.C.i, Standards for Operating an LITC. For the clinic director and QTE, list any applicable licenses and certifications.

**Tax Compliance Officer**

All applicants must identify a Tax Compliance Officer. See Section III.C.iii, Compliance with Federal Tax and Nontax Requirements and Glossary for a discussion of who may be designated.

An applicant must be in full compliance with its federal tax responsibilities when applying for an LITC grant and throughout the grant year.
INSTRUCTIONS FOR FORM 13424-J, DETAILED BUDGET WORKSHEET AND NARRATIVE EXPLANATIONS

Purpose
This form must be submitted with all Full Grant Applications for an LITC matching grant. This form is used to provide a detailed explanation for each spending category in the proposed budget for the LITC grant, including how federal grant funds and matching funds will be spent during the grant period. All budgeted amounts must be reasonable, necessary, and allocable to this grant. In preparing the budget, adhere to existing guidelines in 2 CFR Part 200, 2 CFR Part 1000, and Publication 3319 which explain how budgeted amounts should be reported. See Publication 3319, 2 CFR § 200.306, and 2 CFR § 1000.306 for guidance on matching funds.

Note:
- Each budget item does not require a dollar-for-dollar match, but the total matching funds must equal or exceed the total federal funds requested. For more information on meeting the matching funds requirement, see Publication 3319, Section IV.E.iii, Meeting the Matching Funds Requirement.
- Federal funds are those funds the applicant is seeking from the IRS in support of the LITC Program.
- Non-federal funds are funds from other sources that the applicant has or will have available to spend on the LITC Program. These are considered matching funds.
- 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) provides guidance about allowable and unallowable expenses. Also, see Publication 3319, Section IV.E.iii, Meeting the Matching Funds Requirement, for a list of common expenses that are allowable or unallowable.
- Please round figures to whole dollars only.
- Budgets should only include funding requested for grant year 2021, even if an applicant is applying for a multi-year grant.

Who Must Complete This Form
All organizations submitting a Full Grant Application must complete this form. Budget amounts must also be reported on Standard Form 424A. Failure to provide this information will result in non-consideration of the Full Grant Application.

Specific Instructions
Each lettered section of the Budget Narrative corresponds to an expense category in the Detailed Budget Worksheet. The information provided in the narrative should be sufficiently detailed so that a reviewer can arrive at the same amounts listed on the Budget by expense and by category (federal or match).

A. Personnel
Report salaries and wages that will be paid to LITC staff. Do not include fringe benefits in this category (fringe benefits should be accounted for in category B). In the explanation, list each staff member’s name or if they are “to be hired,” position, rate of pay and time to be devoted to clinic activities (hourly wage and number of hours of service, or annual salary and percentage of annual salary). State the portion of each staff member’s budgeted salary or wages to be paid from federal and matching funds, as well as the source of the matching funds. Volunteer
in-kind services should not be included under the Personnel category. They should be included under category H, Other Expenses. The total amount for personnel must equal the amount entered on Standard Form 424A, line 6(a).

1. **Calculate the Full Time Equivalent for each clinic employee.**
   Determine each clinic staff member’s full-time equivalent (FTE). The FTE number is arrived at by dividing the number of hours the employee will devote to LITC activities during the year by the total hours that will be worked by a full-time employee in a year. For many organizations, an employee is considered full-time if he or she works 40 hours a week (for other programs it might be a different number). For this example, we will assume full-time is 40 hours per week. In one year, a full-time employee would work 40 hours multiplied by 52 weeks for a total of 2,080 hours. If the employee will devote 2,080 hours to the LITC, his or her FTE will be 1.0 (2,080 LITC hours/2,080 total hours). If the employee will work 1,560 hours on LITC activities, then the FTE will be .75 (1,560 LITC hours/2,080 total hours).

   Annual leave, sick leave, compensatory time off, and other approved leave categories are considered “hours worked” for purposes of defining full-time equivalent employment that is reported.

2. **Calculate the personnel expense for each staff member.**
   For full-time salaried employees, multiply the total salary by the FTE, as calculated above, to arrive at the LITC share of the personnel expense.

   For salaried part-time staff, calculate the percentage of the staff’s time to be devoted to the LITC (LITC hours/total hours) and then multiply that percentage by the employee’s total salary.

   For hourly employees, multiply the LITC hours to be worked by the hourly rate.

3. **Determine and list out the dollar amount attributable to federal and match.**
   The FTE percentage represents the maximum portion of the employee’s wages that can be allocated to the LITC grant, using grant funds (federal funds), matching funds, or a combination of both.

4. **List sources of match.**

**B. Fringe Benefits**
Report fringe benefits that will be paid on behalf of LITC staff whose wages and salaries are reported in category A, Personnel. Include in the explanation:

- The fringe benefits rate(s), including the formula (methodology) for calculating fringe benefits for each position listed in category A;
- The items that are included in fringe benefits;
- The dollar amount attributable to federal and match; and
- Source of matching funds.

The total amount for fringe benefits must equal the amount entered on Standard Form 424A, line 6(b).
C. Travel
This expense category is used to report budgeted travel costs, including costs associated with attendance at the Annual LITC Grantee Conference and other travel expenses directly related to conducting LITC business or activities. In the explanation, identify:

- The travel costs to be incurred;
- Whether the costs will be paid with federal or matching funds; and
- The source of the matching funds.

If using a mileage rate, show the computation. The total amount for Travel must equal the amount entered on line 6(c) of Standard Form 424A.

D. Equipment
This expense category is used to report the budgeted cost of equipment purchases that equal or exceed $5,000 that will be used in operating an LITC program. See 2 CFR § 200.94. Equipment costing less is included in category E, Supplies. Report leased equipment under category F, Contractual, and equipment maintenance expense under category H, Other Expenses.

Donated equipment may be included in the matching funds column and must be valued at the fair market value of the property at the time of the donation. In the explanation, identify:

- The equipment that will be purchased or donated;
- Whether the associated costs will be paid using federal or matching funds; and
- The source of the matching funds.

If there will be third-party in-kind contributions of equipment, identify:

- The equipment;
- The donor; and
- How the valuation was determined.

The total amount for equipment must equal the amount entered on Standard Form 424A, line 6(d).

E. Supplies
This expense category is used to report the cost of supplies and equipment costing less than $5,000 that will be used in operating the LITC. Donated supplies may be included in the matching funds column and are valued at the fair market value of the property at the time of the donation. In the explanation, identify:

- The supplies to be used;
- Whether the associated costs will be paid using federal or matching funds; and
- The source of the matching funds.

If there are third-party in-kind contributions of supplies, identify:

- The supplies;
- The donor; and
- How the valuation was determined.

The total amount for supplies must equal the amount entered on line 6(e) of Standard Form 424A.
F. Contractual
This expense category is used to report the budgeted cost of rent, utilities, and other contracted items or services that will be used in operating an LITC program. Donated space may be included as matching funds and the value assigned may not exceed the fair rental value of comparable space. The explanation should identify:

- The nature of the expense;
- Whether the associated costs will be paid using federal or matching funds; and
- The source of the matching funds.

If a contracted item or service pertains to other programs in addition to LITC activities, only the portion directly attributable to LITC activities may be allocated to the LITC program. The narrative must explain the methodology used to apportion costs between the LITC activities and other programs. The total amount for Contractual must equal the amount entered on Standard Form 424A, line 6(f).

Necessary and reasonable expenses that support LITC activities as well as functions of the organization should be allocated and charged as a direct cost of award funds if it is practical to separate the portion of the expense allocable to LITC activities. The determination of whether it is practical or reasonable to allocate expenses directly in proportion to use depends on several factors, including the size of the organization running the LITC, size and number of other functions the organization operates, and the amount of the expense.

G. Construction
This category is not applicable to this grant. No expenses are allowed.

H. Other Expenses
This expense category is used to report all other direct costs that will be incurred in operating the LITC program that are not properly included in categories A through G. The value of volunteer in-kind services is included in this category as matching funds. The explanation should identify:

- The type of expense;
- Whether the cost will be paid using federal or matching funds; and
- The source of the matching funds.

The explanation must also disclose the rate or rates that will be used to value volunteer in-kind services and the number of volunteer hours that will be provided, categorized by the type of service or volunteer, as appropriate. See Publication 3319, Section IV.E.iii, Meeting the Matching Funds Requirement, Determining the Value of Volunteer Services. The total amount for other expenses must equal the amount entered on line 6(h) of Standard Form 424A.

I. Total Direct Charges
The total of the direct charges is the sum of lines A–H for each column. The total amount for Total Direct Charges must equal the amount entered on line 6(i) of Standard Form 424A.

J. Indirect Charges
Report indirect costs not directly related to the LITC program but incurred as part of the general overhead and administration of the sponsoring organization. Necessary and reasonable expenses that support LITC activities as well as functions of the organization should be allocated and charged as a direct cost of award funds if it is...
practical to separate the portion of the expense allocable to LITC activities. The determination of whether it is practical or reasonable to allocate expenses directly in proportion to use depends on several factors, including the size of the organization operating the LITC, size and number of other functions the organization operates, and the amount of the expense. The Uniform Guidance defines indirect costs as:

[T]hose costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. (2 CFR § 200.56.)

For example, if an organization has a $5,000 expense that supports LITC activities and two other programs the organization operates. Suppose the organization can spend an additional $100 in administrative costs to accurately allocate the $5,000 among the three programs in proportion to the benefit each received. In that case, the allocation is reasonable and the organization should perform the allocation and charge the portion of the $5,000 that is allocable to LITC activities as a direct cost.

Now suppose the organization has a $5,000 expense that supports LITC activities and two other programs the organization operates, but to properly allocate the $5,000 among the three programs in proportion to the benefit each received, it would cost the organization an additional $2,000 in administrative costs. In that case, direct allocation of the cost is not cost-effective, and the organization can choose to account for the $5,000 expense as an indirect cost. The organization then apportions the total indirect costs (i.e., the indirect cost pool) to each of the benefiting programs using a method that is consistent, reasonable, auditable, and in accordance with generally accepted business practices.

The Uniform Guidance in section 200.414(b) recognizes that because of the diverse characteristics and accounting practices of nonprofit organizations, it is not possible to specify the types of cost which may be classified as indirect costs in all situations. The purpose of the federal award is the determining factor in distinguishing direct from indirect costs, rather than the nature of the goods and services expensed.

Typical indirect expenses may include:

- Salaries and wages of administrative and support staff;
- Related employee benefits;
- Facility occupancy costs (e.g., utilities, security, maintenance);
- Office supplies; and
- Legal and auditing charges.

Once the organization has classified expenses as either direct or indirect, the organization must determine how to allocate the indirect costs amongst the programs that they benefit, so that LITC funds do not subsidize the indirect costs of other programs or functions of the organization. To calculate the amount of federal funds allocable to indirect costs, the organization may use a negotiated indirect cost rate agreement (ICRA) approved by the organization’s cognizant agency. If the organization has never obtained a negotiated indirect cost rate, it may elect to apply the de minimis rate of ten percent.
**Matching Funds**

Complete this section by providing a narrative that includes:

- A list of all sources of matching funds;
- The amount of matching funds broken down by source; and
- The methodology used for any calculations.

The clinic must state explicitly that matching funds to be provided to the LITC program:

- Will not be used as matching funds for any other federal program; and
- Will not be funds received from any other federal grant unless specifically authorized by statute to be eligible as matching funds.

An employee of the grantee may not be treated as a volunteer for purposes of valuing in-kind services. For example, suppose an LITC pays an employee an hourly wage to work at the LITC three days a week, and the employee chooses to spend an additional two days each week volunteering at the LITC. In the example, the LITC may charge the employee’s wages as an expenditure of federal or matching funds, but it cannot apply the value of the two days spent volunteering as a contribution to help meet the matching fund requirement.
FULL-TIME EQUIVALENT CALCULATION

This is a further demonstration of determining FTE and also determining what is properly counted as matching funds for purposes of the grant.

Example FTE Calculations

ABC Legal Services LITC computes a 1.0 FTE based on a 40-hour work week (2,080 hours per year).

**Example: Clinic Director/(QTE) – John Fordham, Esq.**

John works full-time at ABC Legal Services. He will spend 32 hours per week on LITC grant activities, for an annual total of 1,664 hours, making John a 0.80 FTE (1,664/2,080) for purposes of the LITC grant. John’s annual salary is $89,000. Since John’s time spent on LITC grant activities is equivalent to 0.80 FTE, he will receive $71,200 of his total salary ($89,000) for his work in the LITC. This is calculated by multiplying his FTE annual salary of $89,000 by 0.80 for a total of $71,200 ($89,000 x 0.80 = $71,200). John’s compensation is comprised of $70,000 of grant funds and $29,000 operating funds. From the $71,200 in compensation for work on LITC activities, $50,000 will be paid from LITC grant funds (federal funds), and $21,200 from operating funds. Thus, a maximum of $21,200 may be classified as matching funds.

**Example: Paralegal – Alice Gonzaga**

Alice works part-time for ABC Legal Services, for a total of 1,040 hours. Annually she will spend a total of 900 hours on LITC grant activities, making Alice a 0.43 FTE (900/2,080) for purposes of the LITC grant. Alice is paid $22 per hour. She receives total annual compensation of $22,880 (1,040 x $22); $19,800 (900 x $22) of which will be compensation for her work in the LITC. Alice’s compensation will be comprised of $10,000 paid from LITC grant funds (federal funds), and $9,800 (matching funds) paid from XYZ Private Foundation funds. The remaining compensation of $3,000 is for non-LITC work and therefore is not eligible match.

**Example: Intake – Ruth Washington**

Ruth works full-time at ABC Legal Services. She will spend 18.4 hours per week on LITC grant activities, for an annual total of 957 hours, making Ruth a 0.46 FTE (957/2,080) for purposes of the LITC grant. Ruth is paid $15 per hour. She receives total annual compensation of $31,200 (2,080 x $15). Ruth’s compensation will be comprised of $14,355 paid from LITC grant funds (federal funds), and $16,845 for non-LITC work is paid from operating funds. None of Ruth’s compensation may be classified as matching funds, because all of her time spent on LITC grant activities is compensated using LITC grant funds.

**Example: Receptionist – Debra Chapman**

Debra works full-time at ABC Legal Services. She provides administrative and clerical support to three programs including the LITC program. Debra will spend one-third of her time on LITC activities, making her a one-third FTE for purposes of the LITC grant. Debra’s annual salary is $30,000, so $10,000 (1/3 x $30,000) of her annual salary is allocable to LITC activities. The $10,000 allocable portion will be paid using $6,000 from LITC grant funds (federal funds), and $4,000 paid from private cash contributions. Thus, a maximum of $4,000 may be classified as matching funds.

Matching Funds
**Instructions for Form 13424-J, Detailed Budget Worksheet**

Note: Application forms, including this form (Form 13424-J), may be released under the Freedom of Information Act (FOIA). In response to a FOIA request, the LITC Program Office will release these forms after appropriate redactions to ensure confidentiality of taxpayer information.

**Purpose**
This form must be submitted with all Full Grant Applications and NCC Requests for an LITC matching grant. This form is used to provide a detailed explanation for each spending category in the proposed budget for the LITC grant, including how federal grant funds and matching funds will be spent during the grant period. All budgeted amounts must be reasonable, necessary, and allocable to this grant. In preparing the budget, adhere to existing guidelines in 2 CFR Part 200, 2 CFR Part 1000, and Publication 3319 which explain how budgeted amounts should be reported. See Publication 3319, 2 CFR § 200.306, and 2 CFR § 1000.306 for guidance on matching funds.

**Who Must Complete This Form**
All organizations submitting a Full Grant Application or a NCC Request must complete this form. Budget amounts must also be reported on SF-424A. Failure to provide this information will result in non-consideration of the Full Grant Application or NCC Request.

**Specific Instructions**
Each letter of the Budget Narrative corresponds to an expense category in the Detailed Budget Worksheet. The information provided in the narrative should be sufficiently detailed so that a reviewer can arrive at the same amounts listed on the Budget by expense and by category (federal or match).

**A. Personnel**
Report salaries and wages that will be paid to LITC staff. Do not include fringe benefits in this category (fringe benefits should be accounted for in category B). In the explanation, list each staff member’s name or if they are “to be hired,” position, rate of pay and time to be devoted to clinic activities (hourly wage and number of hours of service, or annual salary and percentage of annual salary). State the portion of each staff member’s budgeted salary or wages to be paid from federal and matching funds, as well as the source of the matching funds. Volunteer in-kind services should not be included under the Personnel category. They should be included under category H, Other Expenses. The total amount for personnel must equal the amount entered on SF-424A, line 6(a).

1. **Calculate the Full-Time Equivalent (FTE) for each clinic employee.**
   Determine each clinic staff member’s full-time equivalent (FTE). The FTE number is arrived at by dividing the number of hours the employee will devote to LITC activities during the year by the total hours that will be worked by a full-time employee in a year. For many organizations, an employee is considered full-time if he or she works 40 hours a week (for other programs it might be a different number). For this example, we will assume full-time is 40 hours per week. In one year, a full-time employee would work 40 hours multiplied by 52 weeks for a total of 2,080 hours. If the employee will devote 2,080 hours to the LITC, his or her FTE will be 1.0 (2,080 LITC hours/2,080 total hours). If the employee will work 1,560 hours on LITC activities, then the FTE will be .75 (1,560 LITC hours/2,080 total hours).

   Annual leave, sick leave, compensatory time off, and other approved leave categories are considered "hours worked" for purposes of defining full-time equivalent employment that is reported.

2. **Calculate the personnel expense for each staff member.**
   For full-time salaried employees, multiply the total salary by the FTE, as calculated above, to arrive at the LITC share of the personnel expense.

   For salaried part-time staff, calculate the percentage of the staff’s time to be devoted to the LITC (LITC hours/total hours) and then multiply that percentage by the employee’s total salary.

   For hourly employees, multiply the LITC hours to be worked by the hourly rate.

3. **Determine and list out the dollar amount attributable to federal and match.**
   The FTE percentage represents the maximum portion of the employee’s wages that can be allocated to the LITC grant, using grant funds (federal funds), matching funds, or a combination of both.

4. **List sources of match.**

**B. Fringe Benefits**
Report fringe benefits that will be paid on behalf of LITC staff whose wages and salaries are reported in category A, Personnel. Include in the explanation:
- The fringe benefits rate(s), including the formula (methodology) for calculating fringe benefits for each position listed in category A;
- The items that are included in fringe benefits;
- The dollar amount attributable to federal and match; and
- Source of matching funds.

   The total amount for fringe benefits must equal the amount entered on SF-424A, line 6(b).

**C. Travel**
Report budgeted travel costs, including costs associated with attending the Annual LITC Conference and other travel expenses directly related to conducting LITC business or activities. In the explanation, identify:
- The travel costs to be incurred;
- Whether the costs will be paid with federal or matching funds; and
- The source of the matching funds.

   If using a mileage rate, show the computation. The total amount for Travel must equal the amount entered on line 6(c) of SF-424A.

**D. Equipment**
Report the budgeted cost of equipment purchases that equal or exceed $5,000 that will be used in operating an LITC program. See 2 CFR § 200.94. Equipment costing less is included in category E, Supplies.
Report leased equipment under category F, Contractual and equipment maintenance expense under category H, Other Expenses.
Donated equipment may be included in the matching funds column and must be valued at the fair market value of the property at the time of the donation. In the explanation, identify:

- The equipment that will be purchased or donated;
- Whether the associated costs will be paid using federal or matching funds; and
- The source of the matching funds.

If there will be third-party in-kind contributions of equipment, identify:

- The equipment;
- The donor; and
- How the valuation was determined.

The total amount for equipment must equal the amount entered on SF-424A, line 6(d).

E. Supplies

This expense category is used to report the cost of supplies and equipment costing less than $5,000 that will be used in operating the LITC. Donated supplies may be included in the matching funds column and are valued at the fair market value of the property at the time of the donation. In the explanation, identify:

- The supplies to be used;
- Whether the associated costs will be paid using federal or matching funds; and
- The source of the matching funds.

If there are third-party in-kind contributions of supplies, identify:

- The supplies;
- The donor; and
- How the valuation was determined.

The total amount for supplies must equal the amount entered on line 6(e) of SF-424A.

F. Contractual

Report the budgeted cost of rent, utilities, and other contracted items or services that will be used in operating the LITC. Donated space may be included as matching funds and the value assigned may not exceed the fair rental value of comparable space. The explanation should identify:

- The nature of the expense;
- Whether the associated costs will be paid using federal or matching funds; and
- The source of the matching funds.

If a contracted item or service pertains to other programs in addition to LITC activities, only the portion directly attributable to LITC activities may be allocated to the LITC program. The narrative must explain the methodology used to apportion costs between the LITC activities and other programs. The total amount for Contractual must equal the amount entered on SF-424A, line 6(f).

Necessary and reasonable expenses that support LITC activities as well as functions of the organization should be allocated and charged as a direct cost of award funds if it is practical to separate the portion of the expense allocable to LITC activities. The determination of whether it is practical or reasonable to allocate expenses directly in proportion to use depends on several factors, including the size of the organization running the LITC, size and number of other functions the organization operates, and the amount of the expense.

G. Construction

This category is not applicable to this grant. No expenses are allowed.

H. Other Expenses

Report all other direct costs that will be incurred in operating the LITC program that are not properly included in categories A through G. The value of volunteer in-kind services is included in this category as matching funds. The explanation should identify:

- The type of expense;
- Whether the cost was paid using federal or matching funds; and
- The source of the matching funds.

The explanation must also disclose the rate or rates that will be used to value volunteer in-kind services and the number of volunteer hours that will be provided, categorized by the type of service or volunteer, as appropriate. See Publication 3519 Section IV.E.iii, Meeting Matching Funds Requirements, Determining the Value of Volunteer Services. The total amount for other expenses must equal the amount entered on line 6(h) of SF-424A.

I. Total Direct Charges

The total of the direct charges is the sum of lines A – H for each column. The total amount for Total Direct Charges must equal the amount entered on line 6(i) of SF-424A.

J. Indirect Charges

Report indirect costs not directly related to the LITC program, but incurred as part of the general overhead and administration of the sponsoring organization. Necessary and reasonable expenses that support LITC activities as well as functions of the organization should be allocated and charged as a direct cost of award funds if it is practical to separate the portion of the expense allocable to LITC activities. The determination of whether it is practical or reasonable to allocate expenses directly in proportion to use depends on several factors, including the size of the organization operating the LITC, size and number of other functions the organization operates, and the amount of the expense. The Uniform Guidance defines indirect costs as:

[Those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitting, without effort disproportionate to the results achieved. (2 CFR § 200.56.)]

For example, an organization has a $5,000 expense that supports LITC activities and two other programs the organization operates. Suppose the organization can spend an additional $100 in administrative costs to accurately allocate the $5,000 among the three programs in proportion to the benefit each received. In that case, the allocation is reasonable and the organization should perform the allocation and charge the portion of the $5,000 that is allocable to LITC activities as a direct cost.

Now suppose the organization has a $5,000 expense that supports LITC activities and two other programs the organization operates, but to properly allocate the $5,000 among the three programs in proportion to the benefit each received, it would cost the organization an additional $2,000 in administrative costs. In that case, direct allocation of the cost is not cost-effective, and the organization can choose to account for the $5,000 expense as an indirect cost. The organization then apportions the total indirect costs (i.e., the indirect cost pool) to each of the benefiting programs using a method that is consistent, reasonable, auditable, and in accordance with generally accepted business practices.

The Uniform Guidance in section 200.414(b) recognizes that because of the diverse characteristics and accounting practices of nonprofit organizations, it is not possible to specify the types of cost which may be classified as indirect costs in all situations. The purpose of the federal award is the determining factor in distinguishing direct from indirect costs, rather than the nature of the goods and services expended. Typical indirect expenses may include:

- Salaries and wages of administrative and support staff;
- Related employee benefits;
- Facility occupancy costs (e.g., utilities, security, maintenance);
- Office supplies; and
- Legal and auditing charges.
Once the organization has classified expenses as either direct or indirect, the program must determine how to allocate the indirect costs amongst the programs that they benefit, so that LITC funds do not subsidize the indirect costs of other programs or functions of the organization. To calculate the amount of federal funds allocable to indirect costs, the organization may use a negotiated indirect cost rate agreement (ICRA) approved by the organization’s cognizant agency. If the organization has never obtained a negotiated indirect cost rate, it may elect to apply the de minimis rate of ten percent. See Publication 3319 for additional guidance.

Negotiated Indirect Cost Rate Agreements and Cognizant Agencies

Obtaining an ICRA is a complex process that requires preparing and submitting an indirect cost rate proposal (including supporting schedules and documentation), and may take several months or even years to establish a final rate. A cognizant agency for indirect costs means the federal agency responsible for reviewing, negotiating, and approving cost allocation plans or indirect cost proposals developed under 2 CFR Part 200 on behalf of all federal agencies. See 2 CFR § 200.19.

For Institutes of Higher Education (IHEs), cost negotiation cognizance is assigned to the Department of Health and Human Services (HHS) or the Department of Defense’s Office of Naval Research (DOD), normally depending on which of the two agencies (HHS or DOD) provides more funds to the educational institution for the most recent three years. In cases where neither HHS nor DOD provides federal funding to an educational institution, the cognizant agency for indirect costs assignment must default to HHS. For more information, see Appendix III of the Uniform Guidance, Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Institutions of Higher Education (IHEs), paragraph C.11. In cases where neither HHS nor DOD provides federal funding to an educational institution, the cognizant agency for indirect costs assignment must default to HHS. Once an agency is assigned cognizance for a particular nonprofit organization, the assignment will not be changed unless there is a shift in the dollar volume of the federal awards to the organization for at least three years.

For nonprofits, the federal agency with the largest dollar value of federal awards with an organization will be designated as the cognizant agency for indirect costs for the negotiation and approval of the indirect cost rates (unless different arrangements are agreed to by the federal agencies concerned), and, where necessary, other rates such as fringe benefit and computer charge-out rates. Once an agency is assigned cognizance for a particular nonprofit organization, the assignment will not be changed unless there is a shift in the dollar volume of the federal awards to the organization for at least three years. For more information, see 2 CFR 200, Appendix III, Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Nonprofit Organizations, paragraph C.2.a.

IRS does not negotiate indirect cost rate agreements but will accept a negotiated (ICRA) approved by another federal agency. Organizations that apply an ICRA to determine the portion of indirect costs allocable to a federal award must carefully separate direct costs from costs classified as indirect in the ICRA, and the ICRA must set forth cost items included in the rate. Indirect costs are then calculated by applying the negotiated rate against the direct cost base. Costs accounted for as indirect costs in the ICRA may not be expensed as direct costs (i.e., double dipping). For example, if a clinic is part of a larger organization that has an ICRA and the rental cost of the facility in which the clinic operates is included in the negotiated rate, then the clinic may not include the facilities cost under the Contractual expense category.

De Minimis Ten Percent Indirect Cost Rate

Under § 200.414(f) of the Uniform Guidance, a de minimis rate of ten percent of MTDC is available for organizations that have never had a negotiated ICRA. This is a simple, straightforward option for award recipients without substantial experience managing grant funds. An organization that elects to use the de minimis rate must use the rate for all federal awards it receives, and may use such rate indefinitely, or may choose to negotiate an ICRA at any time.

If the clinic elects to use the ten percent de minimis rate to charge indirect costs on all federal awards, no facilities and administration costs may be charged as direct costs.

Modified Total Direct Costs (MTDC)

MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and to the first $25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of $25,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs. See 2 CFR § 200.68.

If a clinic charges indirect costs based on an approved ICRA, a copy of the agreement must be submitted along with Form 13424-J, Detailed Budget Worksheet and Narrative. See Publication 3319, Sections III.B - C.

Please note matching funds must be directly allocable to LITC activities and may not include indirect costs.

Matching Funds

Complete this section by providing a narrative that includes:

- A list of all sources of matching funds;
- The amount of matching funds broken down by source; and
- The methodology used for any calculations.

The clinic must state explicitly that matching funds to be provided to the LITC program:

- Will not be used as matching funds for any other federal program; and
- Will not be funds received from any other federal grant unless specifically authorized by statute to be eligible as matching funds.

An employee of the grantee may not be treated as a volunteer for purposes of valuing in-kind services. For example, suppose an LITC pays an employee an hourly wage to work at the LITC three days a week, and the employee chooses to spend an additional two days each week volunteering at the LITC. In the example, the LITC may charge the employee’s wages as an expenditure of federal or matching funds, but it cannot apply the value of the two days spent volunteering as a contribution to help meet the matching fund requirement.

Full-Time Equivalent Calculation

The following examples demonstrate how to calculate FTE and determine the portion attributable to matching funds.

Example FTE Calculations

ABC Legal Services LITC computes a 1.0 FTE based on a 40-hour work week (2,080 hours per year).

Example: Clinic Director(QTE) – John Fordham, Esq.

John works full-time at ABC Legal Services. He will spend 32 hours per week on LITC grant activities, for an annual total of 1,664 hours, making John a 0.80 FTE (1,664/2,080) for purposes of the LITC grant. John’s annual salary is $89,000. Since John’s time spent on LITC grant activities is equivalent to 0.80 FTE, he will receive $71,200 of his total salary ($89,000) for his work in the LITC. This is calculated by multiplying his FTE annual salary of $89,000 by 0.80 for a total of $71,200 ($89,000 x 0.80 = $71,200). From the $71,200 in compensation for work on LITC activities, $50,000 will be paid from LITC grant funds (federal funds), and $21,200 from operating funds. Thus, a maximum of $21,200 may be classified as matching funds.
Example: Paralegal – Alice Gonzaga

Alice works part-time for ABC Legal Services, for a total of 1,040 hours. Annually she will spend a total of 832 hours on LITC grant activities, making Alice a 0.4 FTE (832/2,080) for purposes of the LITC grant. Alice is paid $22 per hour. She receives total annual compensation of $22,880 (1,040 x $22); $18,304 of which will be compensation for her work in the LITC. Alice’s compensation will be comprised of $10,000 paid from LITC grant funds (federal funds), and $8,304 (matching funds) paid from XYZ Private Foundation funds. The remaining compensation of $4,576 is for non-LITC work and therefore is not eligible match.

Example: Intake – Ruth Washington

Ruth works full-time at ABC Legal Services. She will spend 18.4 hours per week on LITC grant activities, for an annual total of 957 hours, making Ruth a 0.46 FTE (957/2,080) for purposes of the LITC grant. Ruth is paid $15 per hour. She receives total annual compensation of $31,200 (2,080 x $15). Ruth’s compensation will be comprised of $14,355 paid from LITC grant funds (federal funds), and $16,845 for non-LITC work is paid from operating funds. None of Ruth’s compensation may be classified as matching funds, because all of her time spent on LITC grant activities is compensated using LITC grant funds.

Example: Receptionist – Debra Chapman

Debra works full-time at ABC Legal Services. She provides administrative and clerical support to three programs including the LITC program. Debra will spend one-third of her time on LITC activities, making her a one-third FTE for purposes of the LITC grant. Debra’s annual salary is $30,000, so $10,000 (1/3 x $30,000) of her annual salary is allocable to LITC activities. The $10,000 allocable portion will be paid using $6,000 from LITC grant funds (federal funds), and $4,000 paid from private cash contributions. Thus, a maximum of $4,000 may be classified as matching funds.
FORM 13424-M, LOW INCOME TAXPAYER CLINIC (LITC) APPLICATION NARRATIVE

Purpose
This form is used to report background information about the applicant, details about the Program Performance Plan, and information for a Civil Rights Review. The Program Office uses the information reported on this form to determine applicant eligibility. The information collected with this form will be closely evaluated when reviewing and scoring the grant application. Please follow the instructions carefully and report all information completely and accurately. A complete response means an entry must be provided for each field.

Who Must Complete This Form
All organizations submitting a Full Grant Application must complete this form.
## Application Narrative

**Department of the Treasury - Internal Revenue Service**

**Low Income Taxpayer Clinic (LITC)**

<table>
<thead>
<tr>
<th>Form 13424-M (March 2019)</th>
<th>OMB Number 1545-1648</th>
</tr>
</thead>
</table>

**Applicant Organization name**

---

**Background Information**

This section is designed to solicit information concerning an applicant’s qualifications. The information will be used to determine whether the organization has sufficient experience in delivering services to low income and ESL individuals and the infrastructure to properly manage federal funds. Provide specific responses for each of the following requirements and keep comments concise and relevant.

### I. Experience

**A.** Describe the applicant’s experience in operating an LITC program. Do not include information about the experience of specific individuals here. If the applicant has no experience operating an LITC program, describe the applicant's experience in delivering services (e.g., representation, education, and advocacy) to low income and ESL individuals and families. Include types of services provided, languages served, and number of individuals reached.

**B.** List the applicant’s existing affiliations with organizations, such as schools, governmental bodies, or other charitable organizations.

**C.** Describe the applicant’s experience supervising staff, students, and volunteers and provide examples of how supervision is provided.

**D.** Describe the applicant’s experience networking with their affiliates and other community-based organizations with which it can work to reach taxpayers and experience providing technical assistance to other organizations.

### II. Financial Responsibility

**A.** Describe the applicant’s ability to properly spend and account for program funds. Include examples of experience in managing federal grants, if any, and a description of the organization’s existing accounting system and accounting support staff. The program office may request copies of the internal accounting procedures as needed.

1. Describe accounting procedures and accounting support staff.

---

Catalog Number 59958R  
For Paperwork Reduction Act Notice, see Pub 3319.

www.irs.gov  
Form 13424-M (Rev. 3-2019)
2. Describe the method for tracking and verifying expenditures to ensure that LITC grant funds and matching funds will be used solely for qualifying LITC activities

i. Does the applicant operate a VITA Site

   [ ] Yes  [ ] No

ii. If yes, specifically identify how the applicant will ensure LITC funds are not utilized for VITA activities

3. Describe the plans for audits and controls

4. With regard to the financial statements submitted with this application or those uploaded to Single Audit Warehouse, provide the following information:

   (if a profit and loss statement or other substitute was submitted because financial statements were not available, skip to question 5)

   [ ] Unaudited  [ ] Audited

   i. If audited, was the audit a single audit conducted in accordance with 2 CFR 200.501

      [ ] Yes  [ ] No

   ii. If audit was conducted in accordance with 2 CFR 200.501, was the audit report uploaded to the clearinghouse

      [ ] Yes  [ ] No

   iii. Indicate whether the auditor provided an:

       [ ] Unmodified opinion  [ ] Qualified opinion  [ ] Adverse opinion  [ ] Disclaimer opinion

   iv. If you answered anything other than unmodified, provide an explanation as to the reason for the type of opinion provided

   v. Indicate the year-end date of the financial statements submitted (MM/DD/YYYY)

5. Provide the name and describe the qualifications and relevant expertise of the Qualified Business Administrator (QBA) (the person with business administration and federal grants management experience)

Program Performance Plan

This section of the application is designed to solicit information concerning the ability of an applicant to operate a quality LITC. Provide specific responses for each of the following requirements and keep comments concise and relevant.

I. Program Staff

   A. For 1.-2., provide the staff member's name and list the qualifications and expertise of the individual as it relates to the position

   1. The Qualified Tax Expert (QTE)
II. Taxpayer Services

A. Describe the proposed program plan for the period for which the grant is requested (Form 424, section 17)

1. Identify the geographic area(s) the clinic will serve. Describe the identified population for low income and ESL representation, education, and advocacy. Provide demographic information including the total population, number of low income residents, and number of ESL residents, information about languages present, and the source of the data supplied

2. Describe the type of representation services to be provided
i. Describe the method used to track the 90/250 income requirement. Include an explanation of any alternative methods used to measure income for purposes of determining eligibility for controversy services (e.g., seasonal workers)

ii. Describe the method used to track the amount in controversy for any taxable year and state the policy that will be used to accept cases when the amount in controversy exceeds the amount specified in IRC § 7463 (currently $50,000)

iii. Briefly describe the procedures for intake, assignment, and monitoring of representation cases

B. Describe the consultation services to be provided and how they will be made available to taxpayers

C. Describe the educational activities to be provided, including educational topics to be covered, how these topics were identified, and how they will be made available to taxpayers. Include details about the review process for educational materials to ensure such materials are accurate.

III. Clinic Operations

A. Describe plans for tracking the delivery of services to low income and ESL taxpayers and how that data will be used to assess and shape future service delivery

B. Describe plans to protect taxpayer privacy and to maintain confidentiality of taxpayer information and any tax return information. Describe the procedures used to safeguard client records. Is there a private office or conference room to meet with clients?

C. Describe the clinic’s publicity plan, including different methods, types of media, and potential venues for outreach to low income taxpayers and ESL taxpayers
D. Indicate the dates, days, and hours of clinic operation. State whether the clinic will be open full-time and year-round. Describe plans for staffing the clinic during periods of student absences if the LITC is part of an academic institution. Specifically state whether the clinic will accept and work new cases during periods of student absences or merely refer taxpayers to other organizations.

E. Describe the clinic’s plans for charging nominal fees, if any, and the amount.

IV. Volunteers

A. Describe the applicant’s pro bono panel and how panel members will be identified and recruited. If the applicant is using a local, state, or national pro bono panel, explain the referral process.

B. Describe the procedures used to assign cases to volunteers, monitor case progress, and evaluate services to ensure that taxpayers receive quality assistance.

C. Detail the method used to track volunteer time.

V. Training and Resources

A. Describe the in house training to be provided to clinic staff, students, and volunteers including a description of the training topics, and the qualifications of trainer(s) and person(s) creating the materials.

B. Identify the continuing professional education (CPE) activities the clinic staff and volunteers anticipate attending.

C. Describe the clinic’s tax library and any plans to provide access to other research resources.
VI. Program Monitoring, Evaluation, and Reporting

A. Describe the strategy for monitoring and evaluating program results (in short and long-term), including how success will be defined and measured.

B. Indicate how the clinic intends to measure and address client satisfaction.

VII. Program Numerical Goals

If requesting a multi-year grant, state goals for each year. Project numerical goals for First Year, Second Year (if applicable), and Third Year (if applicable).

| A. New representation cases opened in the calendar year (do not include beginning inventory); |
| B. Consultations with low income and ESL taxpayers; |
| C. Educational activities to low income and ESL taxpayers; and |
| D. Low Income and ESL taxpayers to be reached in educational activities |

Civil Rights Review

This information is mandatory and required of every applicant annually. Responses to the civil rights questions should be directly related to the part of the sponsoring organization that receives funding or where the LITC will be housed. For example, if the law school or business school within a university applies for funding for the LITC Program, the responses to the civil rights questions should only be in reference to the part of the university where the LITC will be housed, not the entire university. If the applicant does not have any information to report on these questions, a negative response is required such as none. If additional space is needed attach additional pages. Not applicable or NA is not an acceptable response. The applicant must provide the following information as a condition of eligibility under the LITC Program.

A. A list of active lawsuits or complaints naming the applicant which allege discrimination on the basis of race, color, national origin, age, sex, or disability with respect to service or benefits being provided. The list should include the date the lawsuit or complaint was filed; a summary of the allegation; and the status of the lawsuit or complaint, including whether the parties to a lawsuit have entered into a consent decree.

B. A description of all pending applications for financial assistance and all financial assistance currently provided by other federal agencies.

C. A summary of all civil rights compliance review activities conducted in the last three years. The summary shall include the purpose or reason for the review; a summary of the findings and recommendations of the review; and a report on the status or disposition of such findings and recommendations.

D. A description of how the needs of individuals with limited English proficiency (LEP) or individuals who may need a reasonable accommodation will be addressed in order to access services.

E. Does the applicant agree to compile and maintain all required records, as appropriate, according to the agency’s guidelines |

F. Does the applicant agree to display Publication 4053, IRS Civil Rights Poster |

Catalog Number 59958R www.irs.gov Form 13424-M (Rev. 3-2019)
APPENDIX B

FORMS FOR REPORTING LITC GRANTEE ACTIVITIES
REPORTING FORMS

All reports are to be submitted through GrantSolutions.gov. The forms contained in this Appendix are provided for reference purposes only.

Due dates for reporting forms are:

Interim report: **July 30, 2021**

Year-End report: **March 31, 2022**

Timely submission of reporting forms is one criterion for evaluating clinic performance. If a clinic anticipates needing additional time to submit a report, the clinic should address the situation with the advocacy analyst assigned to the clinic as far in advance of the due date as is possible.

Content of the reports are subject to and may be released under the Freedom of Information Act (FOIA). For this reason, it is important that the clinic when reporting client success stories or emerging issues be careful to ensure that the taxpayer cannot be identified by the details supplied in the report. In response to a FOIA request, the LITC Program Office will release these forms after having ensured that the clinic has properly redacted information in order to protect the confidentiality of taxpayer information.

In addition to the instructions provided in this appendix, the Program Office routinely provides report training to help ensure that the report is completed fully and accurately. Training is announced through the LITC Toolkit and usually takes place several weeks in advance of the report due date.

Specific questions about how to report an item or activity of the clinic can be raised to the advocacy analyst assigned to the clinic. For questions or problems working within GrantSolutions.org contact Bill Beard at Beard.William@irs.gov.

LITC GRANTEE REPORTING REQUIREMENTS

LITC grant award recipients are required to submit the following forms twice per grant year, as an Interim and a Year-End report:

- Standard Form 425, Federal Financial Report;*
- Form 13424-A, Low Income Taxpayer Clinic (LITC) General Information Report;
- Form 13424-B, Low Income Taxpayer Clinic (LITC) Case Issues Report;
- Form 13424-C, Low Income Taxpayer Clinic (LITC) Advocacy Information Report;
- Form 13424-K, Low Income Taxpayer Clinic (LITC) Case Information Report;
- Form 13424-L, Statement of Grant Expenditures and Narrative Explanations; and
- Form 13424-N, Low Income Taxpayer Clinic (LITC) Program Narrative Report.

* The Office of Management and Budget (OMB) requires completion of Standard Form 425. To assist applicants in completing this form, detailed instructions specifically tailored to the LITC program are provided. The Appendix also includes the standard form and instructions.
**Reporting Period**

Clinics are required to report on LITC activities twice for each grant year. The grant year is January 1 through December 31 for the year for which the grant was awarded. An Interim report is required to report activities conducted for the period from January 1 through June 30; a Year-End report is required to report activities conducted for the entire grant year. Check the appropriate box at the beginning of the form indicating for which period the report is being completed.

**Accessing Reporting Forms on GrantSolutions.gov**

Log into GrantSolutions and the system will navigate to the screen below. Verify the budget period is correct and click on the link, "Progress Reporting." Click on “Show Expired Grants” if the desired grant period does not appear on the screen.

The system will navigate to the screen below.
To access a reporting form:

i. For Program Name, the information is pre-populated to indicate *Low Income Taxpayer Clinics grant* (no action required);

ii. For Grantee Name, the information is pre-populated to indicate the grantee organization (no action required);

iii. For Report Name, click on the drop-down arrow for a list of forms and select the form needed.

iv. For Project/Funding Period, the screen will refresh and the box below will appear. Click on the drop-down arrow and select the appropriate funding period. If for a multi-year award, you will need to select the budget period that includes the specific year you wish access.
v. You will next navigate to the screen below. Here, you can sort the particular form by reporting period, type, report status, due date, and actions.

(a) To initialize and open a form for the first time, click on the plus sign icon.
(b) To edit a form or enter a form to view it, click on the paper and pen icon.
(c) To view the status of a form and who has worked on the form, click on the graph icon.
(d) To print the form, click on the printer icon.
(e) To view the latest version of the form, click on the eye icon.
INSTRUCTIONS FOR STANDARD FORM 425, FEDERAL FINANCIAL REPORT

Purpose
Standard Form 425, Federal Financial Report, is used to report the amount of federal grant funds received and spent during the grant period and the amount of matching funds spent during the grant period. In preparing this form, adhere to existing guidelines in 2 CFR Part 200 and Publication 3319, which explain allowable costs. See Publication 3319, 2 CFR § 200.306, and 2 CFR § 1000.306 for guidance on matching funds.

About the Instructions
The instructions for completing Standard Form 425, Federal Financial Report, contained in this Publication are intended as a guide for submitting LITC grant reports. Standard instructions are available; however, the standard instructions are written to accommodate all recipients of federal funds and do not contain any instructions specific to the LITC grant. Standard instructions are available at: https://www.grants.gov/forms/post-award-reporting-forms.html.

These instructions relate only to preparation of Standard Form 425 as part of the LITC Interim and Year-End reports. For instructions on preparing required quarterly submissions of Standard Form 425 in the Payment Management System (PMS), visit the PMS Program Support Center at https://pms.psc.gov/ and click on the “Training” tab.

Accessing the Form
To access Standard Form 425 on the Grant Solutions website, click on the Reports link on the Grants List screen.

The system will navigate to the screen below. Click on the drop-down arrow on the right-hand side for past reporting periods. Click on the “start” button or “edit” button.
Completing the Form

The system will then navigate to the screen below. All fields on the form must be completed.

Scroll down on this screen and the next section includes lines 1-9 which will be prepopulated and locked down from editing, except for line 7, Basis of Accounting. Please select either Cash or Accrual to indicate which basis was used for recording transactions related to the grant award and for preparing this Standard Form 425. See the Glossary for an explanation of each basis of accounting.
Continue to scroll down and the next section is lines 10(a) – 10(c).

**Line 10(a)**- Enter the amount of federal cash that the grantee has drawn down from the 2021 grant award in the PMS account during the reporting period.

**Line 10(b)**- Enter the amount of federal cash reported on line 10(a) that has been disbursed to pay or reimburse LITC expenses during the reporting period.

**Line 10(c)**- Enter the amount of line 10(a) minus line(b). Note that line 10(c) cannot be a negative number because a grantee cannot have disbursed more federal cash than it has been drawn down.

Next, scroll down further and the next section contains the federal expenditures and unobligated balances, lines 10(d) – 10(h).

**Line 10(d)**- The amount of federal funds authorized is prepopulated and cannot be changed.

**Line 10(e)**- Enter the amount of federal funds expended during the grant period. See Glossary for an explanation of the cash and accrual bases of accounting.

**Line 10(f)**- Enter the amount of federal funds that represent expenses incurred but not yet paid as of the end of the reporting period, if not reported on line 10(e). Cash basis reporters may need to enter an amount on this line; for accrual basis reporters, the amount on this line will likely be zero.

**Line 10(g)**- Enter the sum of lines 10(e) and 10(f).
Line 10(h)- Enter the amount of line 10(d) minus line 10(g). On the Year-End Report, the amount shown on this line represents unspent grant funds and must be explained in the narrative on Form 13424-L, Statement of Grant Expenditures.

Scroll down and the next section contains the recipient share, Lines 10(i) – 10(k).

Line 10(i)- For the purposes of the LITC Program, the term “recipient share” has the same meaning as the term “matching funds.” Enter the amount of matching funds required for grant year 2020. The amount should be the same as line 10(g) because the LITC grant requires a dollar-for-dollar match.

Line 10(j)- Enter the amount of matching funds expended during the reporting period specified on line 9, including the value of all third period in-kind contributions.

Line 10(k)- Enter the amount of line 10(i) minus line 10(j). If the recipient share in line 10(j) is greater than the required match amount in line 10(i), enter zero.

Scroll down and the next section contains program income, lines 10(l) – 10(o).

Line 10(l)- Enter the amount of nominal fees or other program income earned during the reporting period. Do not report any program income here that is being allocated as part of the recipient’s match amount included in Lie 10(j).

Line (m)- Enter zero.

Line (n)- Enter the amount of program income that was added to funds committed to the total project costs and expended to further eligible project or program activities.

Line (o)- Enter the amount of line (l) minus line (m) and line (n). This amount equals the program income that has been earned but not expended, as of the reporting period end date.
Scroll down to the section contains indirect expenses. lines 11(a) – 11(g).

Enter cumulative amounts from date of the inception of the award through the end date of the reporting period specified on line 9. Only grantees using an indirect cost rate should complete this section. Otherwise, skip to line 12.

Line 11(a)- State whether the type of indirect cost rate is Provisional, Predetermined, Final, Fixed, or de minimis.

Line 11(b)- Enter the indirect cost rate in effect during the reporting period.

Line 11(c)- Enter the beginning and ending effective date dates for the rate.

Line 11(d)- Enter the amount of the base against which the rate(s) was applied.

Line 11(e)- Enter the amount of indirect costs charged during the time period specified. (Multiply 11(b) by 11(d)).

Line 11(f)- Enter the amount of grant funds awarded for the reporting period that were allocated to indirect costs.

Scroll down and the next section contains a place for comments. There should not be any attachments to the Form 425/FFR.
Submit Standard Form 425

Scroll down and the next section is line 13, the certification and submission. First, click on “check for errors.” The system does a validation of the information within the form. (It does not validate against information in other report forms.) If there are no errors, a pop-up box will appear and say, “no errors found.” If there are errors, the pop-up box will appear with a list of the errors to be addressed.

When the form is ready to be submitted, put a check mark in the box under line 13, next to the certification statement. Once the box is checked, the “submit report” button will turn blue, indicating it is enabled.

Note: The “submit report” button will not become enabled if there are any errors on the form.
Purpose
Form 13424-A, LITC General Information Report, is used to report information about certain work the clinic performed during the reporting period. This form is used to report all outreach activities, educational activities, consultations, referrals, tax return and other document preparation, volunteer activities, work performed by students, and professional education activities conducted during the reporting period.

The Program Office uses the information reported on this form and the other reporting forms to determine the scope of services provided by clinics. Data is also aggregated to provide program-wide statistical information about services provided to low-income and ESL taxpayers. Please be careful to follow the instructions for this form and to report all information completely and accurately. If additional room is necessary to provide details about the activities reported on this form, include such details on Form 13424-N, Low Income Taxpayer Clinic (LITC) Program Narrative, where appropriate.

Specific Instructions for Completing the Form

Outreach Activities
The system will navigate to the screen below when the Form 13424-A is selected on the Form Selection screen. Report all outreach activities conducted during the reporting period in this section.

Outreach activities are efforts designed to publicize the clinic and its services. Outreach activities may involve direct communication with taxpayers or may be accomplished indirectly through other organizations or groups that assist low-income or ESL taxpayers. Examples of outreach activities include a presentation about clinic services made to taxpayers, a campaign to distribute clinic flyers or other marketing materials to local social services organizations, or a table staffed at a community event such as a fair, forum, or meeting to inform the public about clinic services.

   - 0

4. **D. Total outreach activities (add lines 1A through 1C)**
   - 0

Outreach activities are efforts designed to publicize the clinic and its services. Outreach activities may involve direct communication with taxpayers or may be accomplished indirectly through other organizations or groups that assist low-income or ESL taxpayers. Examples of outreach activities include a presentation about clinic services made to taxpayers, a campaign to distribute clinic flyers or other marketing materials to local social services organizations, or a table staffed at a community event such as a fair, forum, or meeting to inform the public about clinic services.
LITCs are encouraged to identify particular linguistic populations, geographic service areas, or other segments of the low-income taxpayer community in which to focus outreach efforts.

Determine whether to record an outreach activity on line 1A, 1B, or 1C by looking to the primary intended audience of the activity, rather than the actual attendees. Outreach activities primarily intended to reach ESL taxpayers should be reported on line 1A, activities primarily intended to reach non-ESL taxpayers in general should be reported on line 1B, and those intended for other organizations that assist ESL or low-income taxpayers should be reported on line 1C. Report each outreach activity only once on line 1A, 1B, or 1C.

A single outreach activity may span multiple days. For example, if a clinic staffs a booth for multiple days at a weeklong event, that should be counted as one outreach activity. Additional details about the extent of such efforts can be included in the Program Narrative.

A campaign that involves sending the same or similar letters to multiple recipients should be counted as a single outreach activity.

i. Line 1A. Report on this line the number of outreach activities conducted for ESL taxpayers;

ii. Line 1B. Report on this line the number of outreach activities conducted for non-ESL taxpayers;

iii. Line 1C. Report on this line the number of outreach activities conducted for other organizations that assist ESL or low-income taxpayers. For example, the clinic meets with board members of a local church in preparation for the church’s upcoming clothing drive to benefit the homeless. The clinic requests that the church inform low-income and ESL taxpayers about the clinic’s services. The clinic would record those efforts as a single outreach activity on line 1C; and

iv. Line 1D. Report on this line the total number of outreach activities conducted during the reporting period. The number reported on this line should equal the total of lines 1A, 1B, and 1C. A description of the activities must be included on Form 13424-N, LITC Program Narrative Report, line 2.iv. See Publication 3319 for additional information.

Educational Activities
Report all educational activities conducted during the reporting period in this section.

Educational activities are programs designed to inform ESL or low-income taxpayers about their rights and responsibilities as taxpayers, as well as tax issues of particular significance to the intended audience. Educational activities may also be conducted for other organizations that assist low-income or ESL taxpayers.

To be considered an educational activity, information about a specific tax topic or topics must be conveyed to the audience. Examples of educational activities include a presentation about tax collection issues made to ESL taxpayers, a workshop for low-income workers about how to properly complete a Form W-4 for withholding, or the distribution to community case workers of a social services organization of written materials about EITC eligibility rules that they can share with their clients.

Determine whether to record an educational activity on line 2A, 2B, or 2C by looking to the primary intended audience of the activity, rather than the actual attendees. Educational activities primarily intended to reach ESL taxpayers should be reported on line 2A, activities primarily intended to reach non-ESL taxpayers in general should be reported on line 2B, and those intended for other organizations that assist ESL or low-income taxpayers should be reported on line 2C. Report each educational activity only once on line 2A, 2B, or 2C. Do not include any activities recorded as Outreach on lines 1A through 1D.
### Educational Activities

**Note:** Educational activities are events designed to provide information about tax rights and responsibilities, including technical tax topics, to taxpayers.

i. **Line 3A.** Report on this line the total number of attendees at all educational activities conducted for ESL taxpayers during the reporting period;

ii. **Line 3B.** Report on this line the total number of attendees at all educational activities conducted for non-ESL taxpayers during the reporting period;

iii. **Line 3C.** Report on this line the total number of attendees at all educational activities conducted for service providers during the reporting period; and

iv. **Line 3D.** Report on this line the total number of attendees at all educational activities conducted during the reporting period. The system will total the sums of lines 3A, 3B, and 3C automatically in 3D.
i. **Line 4.** List the topics that were covered during the educational activities reported on lines 2A through 2C. Input one title per line in section 4 and click on the “Add” button to enable the additional line option. Do not repeat the same topic on multiple lines. If a topic was presented at multiple events, you may list the number of times the topic was presented. For example, you may enter *EITC x 4* to indicate you held four EITC presentations during the reporting period.

ii. **Line 5.** List the languages, other than English, in which educational activities were conducted. Input one language per line in section 5 and click on the “Add” button to enable the additional line option.

Educational activities are intended to have attendees. Do not report the posting of educational materials to a website or the distribution of educational materials via social media as educational activities. These activities are properly reported on Form 13424-C, LITC Advocacy Information Report, in Part II, *Published Materials*.

### Consultations

Report all consultations conducted during the reporting period in this section.

<table>
<thead>
<tr>
<th>Consultations</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Note:</strong> For a definition of Consultation, see form instructions.</td>
</tr>
<tr>
<td><strong>6</strong></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>

A consultation is a discussion with a taxpayer designed to provide advice or counsel about a specific tax matter that does not result in representation of the taxpayer. If a clinic undertakes representation of a taxpayer before a court or the IRS, then that matter should not be reported on this form as a consultation, but rather reported as a case on Form 13424-K, LITC Case Information Report. A technical assistance consultation is a discussion with a practitioner or other service provider designed to give brief advice about a tax issue. For example, if a clinic staff member addresses a tax-related question for a staff member of another legal services organization, that communication should be counted as a technical assistance consultation.

i. **Line 6A.** Report on this line the number of consultations conducted with ESL taxpayers;

ii. **Line 6B.** Report on this line the number of consultations conducted with non-ESL taxpayers; and
iii. **Line 6C.** Report on this line the total number of consultations conducted with taxpayers during the reporting period. The number reported on this line should equal the total of lines 6A and 6B.

<table>
<thead>
<tr>
<th>7</th>
<th>Number of technical assistance consultations conducted</th>
<th></th>
</tr>
</thead>
</table>

i. **Line 7.** Report on this line the number of technical assistance consultations conducted with a practitioner or other service provider during the reporting period. A description of the types of issues and questions addressed in the consultations must be included in the Program Narrative on Form 13424-N, line 2.v. See Publication 3319 for additional information.

**Referrals**

Report on Line 8 the number of cases reported on Form 13424-K, line 1C, for which the Taxpayer Advocate Service (TAS) provided assistance during the reporting period at the request of the LITC.

<table>
<thead>
<tr>
<th>8</th>
<th>Number of cases from Form 13424-K, line 1C where TAS provided assistance</th>
<th></th>
</tr>
</thead>
</table>

**Note:** A description of the reasons for seeking TAS assistance must be included in the Program Narrative on Form 13424-N, line 2.vi. See Publication 3319 for additional information. If you receive case referrals from TAS and wish to report them, see Form 13424-N, line 2.ix.

**Tax Returns and Other Documents**

<table>
<thead>
<tr>
<th>Tax Returns and Other Documents</th>
</tr>
</thead>
<tbody>
<tr>
<td>9</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>

An LITC can provide assistance with a federal tax return, a claim for refund, or an Individual Taxpayer Identification Number (ITIN) application if such assistance is necessary to resolve a dispute with the IRS or is an ancillary part of the LITC’s ESL education. The clinic may not charge a fee (even if it is a nominal fee) for the preparation of a tax return. An LITC or an individual associated with an LITC that adheres to this policy is specifically excluded from the definition of a “Tax Return Preparer” as set forth in Treas. Reg. § 301.7701-15(f).

i. **Line 9A.** Report on this line the number of tax returns prepared ancillary to ESL activities. Ancillary tax return preparation must be incidental to the clinic’s primary mission and the program may only provide such assistance if the request to do so arises from the clinic’s primary outreach and educational activities;

ii. **Line 9B.** Report on this line the number of tax returns prepared to resolve a controversy; and

iii. **Line 9C.** Report on this line the total number of tax returns prepared during the reporting period. The number reported on this line should equal the total of lines 9A and 9B.
i. **Line 10.** Report on this line the number of ITIN applications (Form W-7) prepared during the reporting period. 

_Do not count returns that are prepared but not submitted to the IRS. Do not report any state tax returns that were prepared, only federal returns._

**Volunteer Activities**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Volunteer Activities.</strong></td>

</tbody>
</table>

i. **Line 11.** Select the appropriate bubble to indicate whether the clinic maintains a _pro bono_ panel to which taxpayers can be referred for controversy representation;

ii. **Lines 12A-F.** In this section, report on the number of volunteers who provided service to the clinic during the reporting period. Count each volunteer only once, based on the category of services the volunteer typically provides to the clinic. For example, if an enrolled agent is multilingual and also provides translation services, you may note that in the Program Narrative on Form 13424-N, line 2.ix; however, the clinic should only count that volunteer as either an enrolled agent or an interpreter/translator, not both. Do not include any individuals receiving compensation from the clinic, or any students receiving academic credit as volunteers;

iii. **Line 12G.** Report on this line the total number of volunteers. The number reported on this line should equal the total of lines 12A-12F and should be an accurate count of all individuals who volunteered at the clinic during the reporting period. Only include volunteers who provided service during the reporting period and whose hours are included on the line 13 total; and

iv. **Line 13.** Report on this line the total number of service hours provided by volunteers during the reporting period. Form 13424-F, Volunteer/_Pro Bono_ Time Reporting, is available on the LITC Toolkit to assist you in tracking volunteer hours. Form 13424-F is for internal record keeping by the clinic only and should not be submitted to the LITC Program Office.
Do not include time spent by any individuals receiving compensation from the clinic or any students receiving academic credit as volunteer service hours.

**Student Representation**

<table>
<thead>
<tr>
<th>Line</th>

<td>0</td>
</tr>
</tbody>
</table>

i. **Line 14.** Report on this line the number of students that worked at the clinic during the reporting period who were authorized to practice before the IRS under a special appearance authorization; and

ii. **Line 15.** Report on this line the number of students that worked at the clinic during the reporting period who received academic credit for their clinic work.

**Professional Education Activities**

Report on accredited Continuing Professional Education (CPE) or Continuing Legal Education (CLE) presentations conducted during the reporting period in this section.

<table>
<thead>
<tr>
<th>Line</th>
<th>Description</th>
<th>Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>16</td>
<td>Number of professional education (CPE or CLE) credits available through presentations conducted during the reporting period</td>
<td>0</td>
</tr>
</tbody>
</table>

iii. **Line 16.** Report on this line the total number of CPE or CLE credits available through presentations held during the reporting period. For example, if during the reporting period the clinic held three lunchtime presentations offering one hour of CLE credit each, and one day-long presentation, offering eight hours of CLE credit, the clinic would enter “11” on this line; and

iv. **Line 17.** Report the topics covered during CPE or CLE presentations. Input one title per line in section 17 and click on the “Add” button to enable additional lines. Do not repeat topics on multiple lines. If a topic was repeated throughout multiple presentations, you may list the number of times the topic was presented. For example, you may enter EITC x 4 to indicate you held four CPE or CLE presentations on the EITC during the reporting period.

Report only professional education activities dealing with issues affecting low-income or ESL taxpayers.

To finalize the form, see the instructions for how to save, validate, and submit forms at the end of this Appendix.
INSTRUCTIONS FOR FORM 13424-B, LOW INCOME TAXPAYER CLINIC (LITC) CASE ISSUES REPORT

Purpose
Form 13424-B, LITC Case Issues Report, is used to report issues worked by a clinic while representing taxpayers in controversy cases that were open at any time during the reporting period, including cases carried over from the previous grant year. The issues reported should relate to all cases reported on Form 13424-K, LITC Case Information Report, line 1C. The Program Office uses the information reported on this form and the other reporting forms to determine the scope of services provided by clinics. Data is also aggregated to provide program-wide statistical information about services provided to low-income and ESL taxpayers. Be careful to follow the instructions for this form and to report all information completely and accurately.

Specific Instructions for Completing the Form
A case arises from a controversy between an individual and the IRS concerning the determination, collection, or refund of any tax, penalties, additions to tax, or interest and includes any proceeding brought by the taxpayer under Title 26. A controversy includes a dispute related to the tax provisions of the Affordable Care Act. A controversy does not include a federal criminal tax matter but may include certain civil actions arising under the Internal Revenue Code (IRC), for example those arising under IRC §§ 7431–7435.

A case may involve more than one issue. An issue is counted only if the clinic undertakes representation on behalf of the taxpayer, the issue is disputed between the taxpayer and the IRS, and the clinic takes steps to resolve the dispute. An issue is counted and reported on this form only once for each case, regardless of the number of tax years involved in the dispute. See Example 2 below. An issue is not counted on this form when the clinic only discusses the issue with the taxpayer and provides advice but does not take steps to advocate on behalf of the taxpayer to the IRS or a court. See Example 3 below.

Example 1: Reporting Case Issues
Clinic A represented ten taxpayers in EITC examination cases during the reporting period. Each case has four issues in dispute: head of household filing status, dependency exemptions, child tax credit, and EITC eligibility. Clinic A would enter “10” on lines 30, 31, 37, and 38.

Example 2: Reporting Case Issues
Clinic B represented a taxpayer in a collection case involving six tax years. Clinic B advocated for the taxpayer’s accounts to be placed in currently not collectible status. Clinic B would count this case as one currently not collectible issue on line 60, regardless of the number of tax years in dispute. (This case would be included in the total on line 6 of Form 13424-K for cases having more than one tax year in dispute.)

Example 3: Reporting Case Issues
Clinic C represented a taxpayer in a collection case that involved negotiating with the IRS to establish an installment agreement. In the course of the representation, Clinic C discussed with the taxpayer various collection alternatives, including an Offer in Compromise (OIC). The installment agreement issue would be counted as an issue and reported on line 58 because Clinic C negotiated the installment agreement on behalf of the taxpayer. The OIC discussion would not be counted as an issue and reported on line 59 because Clinic C did not prepare or submit to the IRS an OIC on behalf of the taxpayer.
### Income Issues

Lines 57-62. Report on the appropriate line the number of cases worked during the reporting period where the taxpayer’s controversy involved the particular collection issue. For example, a dispute involving the release of a levy on a taxpayer’s Social Security benefits would be reported on line 62, Levies.

**Total Case Issues Worked (The total number case issues worked should be greater than or equal to the number reported on Form 13424-K, line 1C.)**

**Total.** Report the total number of issues reported on lines 1–62.

To finalize the form, see the instructions for how to save, validate, and submit forms at the end of this Appendix.
INSTRUCTIONS FOR FORM 13424-C, LOW INCOME TAXPAYER CLINIC (LITC) ADVOCACY INFORMATION REPORT

Purpose

Form 13424-C, LITC Advocacy Information, is used to report information about certain advocacy work the clinic performed during the reporting period. This form is used to report all systemic advocacy issues submitted, written materials published, television and radio appearances made, and public service announcements aired during the reporting period.

The LITC Program Office uses the information reported on this form and the other reporting forms to determine the scope of services provided by clinics. Data is also aggregated to provide program-wide statistical information about services provided to low-income and ESL taxpayers. Please be careful to follow the instructions for this form and report all information completely and accurately. If additional room is necessary to provide details about the activities reported on this form, include such details in the Program Narrative.

Note: For purposes of this form, clinics are not required to repeat information included in the Interim Report on the Year-End Report. Report advocacy work performed between January 1 and June 30 on the Interim Report, and report advocacy work performed between July 1 and December 31 on the Year-End Report.

Specific Instructions for Completing the Form

Part I. Systemic Advocacy Submissions

Did your organization have Systematic Advocacy Submissions? ☐ Yes ☐ No

Part II. Published Materials

Did your organization publish any materials? ☐ Yes ☐ No

Part III. Television and Radio Appearances

Did your organization do any Television or Radio Appearance? ☐ Yes ☐ No

Part IV. Public Service Announcements

Did your organization do any Public Service Announcements? ☐ Yes ☐ No

Systemic Advocacy Submissions

Report in this section all systemic issues that relate to low-income or ESL taxpayers that were submitted to the Systemic Advocacy Management System (SAMS) during the reporting period.

<table>
<thead>
<tr>
<th>No.</th>
<th>Issue number</th>
<th>Submitter First Name*</th>
<th>Submitter Last Name*</th>
<th>Date submitted*</th>
<th>Brief description of the issue*</th>
<th>Delete</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Include the SAMS issue number, the name of the individual who made the submission, the date of each submission, and a brief description of the issue described in the submission. The SAMS website is available at www.irs.gov/advocate/systemic-advocacy-management-system-sams.
Published Materials

Report in this section all written materials published during the reporting period to educate low-income or ESL taxpayers or to bring awareness to the public about the LITC program or tax issues that affect low-income or ESL taxpayers.

Include the posting of educational materials to a website or the distribution of educational materials via social media. Select from the list the source where the material was published. If the publication was released in multiple formats (i.e., in a magazine and on a website) check one box and list the other formats in the Program Narrative on Form 13424-N, LITC Program Narrative Report, line 2.ix.

Include the author’s name, the publication date, the title of the publication or website, the title of the work, and a brief description of the work (4,000 characters).

Click “Add” to report additional publications.

Television and Radio Appearances

Report in this section all television and radio appearances produced by or featuring clinic staff and broadcast during the reporting period to educate low-income or ESL taxpayers or to bring awareness to the public about the LITC program or tax issues that affect low-income or ESL taxpayers.

If the broadcast was released in multiple formats or on multiple channels, list the other formats in the Program Narrative on Form 13424-N, line 2.ix.

Include the airing dates of each segment, a reasonable estimate of the number of listeners or viewers, the topic of the discussion or on-air piece, the names of any clinic representatives involved in the appearances, and a brief description of the topic discussed on-air.

Click “Add” to report additional appearances.
Public Service Announcements

Report all public service announcements (PSAs) produced by or featuring clinic staff and broadcasts during the reporting period written to educate low-income or ESL taxpayers or to bring awareness to the public about the LITC program or tax issues that affect low-income or ESL taxpayers.

Include the number of times each segment aired, a reasonable estimate of the number of listeners or viewers, the topic of the discussion or on-air piece, the names of any clinic representatives involved in the appearances, and a brief description of the topic discussed on-air.

Click “Add” to report additional PSAs.

Television and Radio Appearances and Public Service Announcements are informational and may be educational in nature, but they are not the same as, and should not be reported as, educational activities.

To finalize the form, see the instructions for how to save, validate, and submit forms at the end of this Appendix.
INSTRUCTIONS FOR FORM 13424-K, LOW INCOME TAXPAYER CLINIC (LITC) CASE INFORMATION REPORT

Purpose
Form 13424-K, LITC Case Information Report, is used to report information about the work performed by a clinic while representing taxpayers in controversy cases that were open at any time during the reporting period, including cases carried over from the previous grant year. The information reported should relate to all cases reported on line 1C of this form, unless otherwise instructed. The Program Office uses the information reported on this form and the other reporting forms to determine the scope of services provided and the breadth of work done by clinics. Data is also aggregated to provide program-wide statistical information about services provided to low-income and ESL taxpayers. Please be careful to follow the instructions for this form and to report all information completely and accurately.

Specific Instructions for Completing the Form
A case arises from a controversy between an individual and the IRS concerning the determination, collection, or refund of any tax, penalties, additions to tax, or interest, including any proceeding brought by the taxpayer under Title 26. A controversy includes a dispute related to the tax provisions of the Affordable Care Act. A controversy does not include a federal criminal tax matter but may include certain civil actions arising under the Internal Revenue Code, for example those arising under RC §§ 7431–7435.

A case is counted and reported in inventory when a taxpayer retains the clinic to represent him or her in an advocacy capacity before the IRS or a federal court and the clinic takes steps to begin the case, including developing a plan for advocacy. Case information continues to be counted and reported on this form each period until the case is closed.

Note: Matters involving fact-finding or advice only are not cases; these matters are counted and reported as consultations on Form 13424-A, LITC General Information Report.

If a taxpayer’s case requires the clinic to advocate to more than one IRS function or court or involves more than one tax year, it is still counted and reported as a single case on Form 13424-K. The clinic can capture the breadth of the work done in the case by including the case in the numbers reported on line 5 (cases involving matters worked in more than one IRS function or court) or line 6 (cases involving more than one tax year) of this form and by reporting all of the relevant tax issues on Form 13424-B, LITC Case Issues Report. Additional information may also be included in the Program Narrative on Form 13424-N, LITC Program Narrative Report, line 2.ix.
Case Inventory

Report in this section the volume of case inventory.

<table>
<thead>
<tr>
<th>Case Inventory</th>
</tr>
</thead>
<tbody>

</table>
If a case was open at the end of the reporting period, indicate the IRS function or federal court where the case is being addressed as of the end of the reporting period.

If a case was closed during the reporting period, indicate the IRS function or federal court where the case was handled immediately before closing. Each case should be counted only once during a reporting period; however, a case that remains open beyond a single reporting period may be properly reported as being handled by a different function from one reporting period to the next. Thus, a case may be reported as being handled by a different function in the Year-End report than was reported in the Interim report. If a single case is being addressed by more than one IRS function at the end of a reporting period, report that case where the primary issue is being addressed.

The total reported in this section must equal the total number of cases worked during the reporting period as reported on line 1C.

**Example 1: Reporting Case Work**
Clinic A is representing a taxpayer in a dispute involving a proposed deficiency. On May 15, Clinic A submitted correspondence to the IRS's Correspondence Exam unit on behalf of the taxpayer. On August 1, the IRS issued a Notice of Deficiency. On November 20, Clinic A filed a petition in the U.S. Tax Court. On its Interim report, Clinic A would report the case on line 2E because the case was being addressed in the Correspondence Exam Unit as of June 30. On its Year-End report, Clinic A would report the case on line 2U because the case was being addressed in the U.S. Tax Court as of December 31.

**Example 2: Reporting Case Work**
Clinic B is representing a taxpayer in a dispute involving eligibility for EITC for two tax years. At the close of the reporting period, one tax year is being addressed in the U.S. Tax Court and the other tax year is being addressed by the IRS in an audit reconsideration. The Clinic B may report the case on either line 2I or 2U but may not report the case on both lines. Clinic B has discretion to decide whether to report the case on line 2I or 2U, taking into account whatever factors it deems important to help the Program Office better understand the status of the casework performed as of the end of the reporting period.

**Additional Case Information**
Report additional information about cases worked during the reporting period. Lines 3 and 4 relate to new cases opened during the reporting period, as reported on line 1B. Lines 5 through 10 apply to all cases worked during the reporting period, as reported on line 1C.
i. **Line 3.** Report on this line the number of new cases opened during the reporting period in which the amount in controversy exceeds $50,000 for any tax year. A clinic may represent a taxpayer in a case in which the amount in controversy exceeds $50,000. However, the clinic must include an explanation of why each case was accepted for representation on Form 13424-N, LITC Program Narrative Report, line 2.vii. See Publication 3319 for additional information;

ii. **Line 4.** Report on this line the number of new cases opened during the reporting period for taxpayers whose income exceeds 250 percent of federal poverty guidelines; and

iii. **Line 5.** Report on this line the number of cases worked during the reporting period where the representative advocated to more than one IRS function or federal court.

### Example 1: Reporting Additional Case Details

Clinic A is representing a taxpayer in a collection matter in which the IRS is levying the taxpayer’s Social Security benefits. The clinic agrees to represent the taxpayer and contacts Automated Collection System (ACS) to prove financial hardship, get the levy released, and have the taxpayer’s account placed in currently not collectible status. The clinic later assists the taxpayer in submitting an OIC. Clinic A should include this case among the number reported on line 5 because the clinic worked the case in both the ACS and OIC units.

### Example 2: Reporting Additional Case Details

Clinic B is representing a taxpayer in a dispute involving eligibility for the EITC for two tax years. At the close of the reporting period, one tax year is being addressed in the U.S. Tax Court and the other tax year is being addressed by the IRS in an audit reconsideration. Clinic B should include this case among the number reported on line 5 because the clinic is working the case both in a federal court and Examination.

i. **Line 6.** Report on this line the number of cases worked during the reporting period in which the clinic represented a taxpayer in a dispute involving more than one tax year;

ii. **Line 7.** Report on this line the number of cases worked during the reporting period in which the clinic represented an ESL taxpayer;

iii. **Line 8.** Report on this line the number of cases worked during the reporting period in which the clinic represented both the taxpayer and the taxpayer’s spouse with regard to a joint tax liability;
iv. **Line 9.** Report on this line the number of cases worked during the reporting period in which the clinic used a volunteer to represent the taxpayer. Do not count as volunteers any individuals receiving compensation from the clinic or any students receiving academic credit for their work at the clinic; and

v. **Line 10.** Report on this line the number of cases worked during the reporting period in which the clinic represented a taxpayer on state or local tax matters related to a federal tax controversy.

### U.S. Tax Court Activities

<table>
<thead>
<tr>
<th>U.S. Tax Court Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>11</strong> Does the clinic participate in the U.S. Tax Court Clinical Program</td>
</tr>
<tr>
<td>Place List the place(s) of trial location served:</td>
</tr>
<tr>
<td>No. 1</td>
</tr>
</tbody>
</table>

Add List the place(s) of trial location served: 1  Add  Delete Marked Rows

i. **Line 11.** Select “Yes” or “No” to indicate whether the clinic participates in the U.S. Tax Court Clinical Program. If “Yes” is selected, list the “place of trial” city or cities served. Input one location per line and click on “Add” to add additional locations;

| **12** Number of U.S. Tax Court cases worked during the reporting period in which an appearance was entered pursuant to Tax Court Rule 24 |
| **13** Number of U.S. Tax Court cases worked during the reporting period in which the clinic represented the taxpayer, but no appearance was entered |
| **14** Number of informal consultations in the U.S. Tax Court during the reporting period in which the clinic provided advice to a taxpayer, but not representation |

ii. **Line 12.** Report on this line the number of cases reported on line 1C for which the clinic entered an appearance to represent the taxpayer in the U.S. Tax Court, whether through filing an entry of appearance or via a petition submitted by the clinic;

iii. **Line 13.** Report on this line the number of cases reported on line 1C for which the clinic represented a taxpayer in a case filed in the U.S. Tax Court, but where no entry of appearance was submitted by the clinic. For example, if a clinic staff attorney represented a client who filed a petition in the U.S. Tax Court and the attorney negotiated a settlement with the IRS but did not enter an appearance with the Tax Court, include this case among the number reported on line 13; and

iv. **Line 14.** Report on this line the number of informal consultations conducted with taxpayers in the U.S. Tax Court during the reporting period. Representation of taxpayers reported on lines 12 and 13 should not be reported on this line. For example, if a clinic staff attorney assisted a taxpayer at a U.S. Tax Court calendar call by providing advice to the taxpayer or acting as a communicator or mediator between the parties, but does not represent the taxpayer, such assistance would be counted as an informal consultation and reported on line 14.
Closed Case Outcomes

Report in this section the outcomes of cases that were closed during the reporting period. Information reported in this section should only relate to cases reported on line 1D. The information reported in this section will help the Program Office better understand the impact of the clinic’s casework on taxpayers.

<table>
<thead>
<tr>
<th>Closed Case Outcomes</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>15 For the cases reported on line 1D, indicate the:</td>
<td></td>
</tr>
<tr>
<td>A. Number of cases in which the taxpayer was brought into filing compliance</td>
<td></td>
</tr>
<tr>
<td>B. Number of cases in which the taxpayer was brought into collection compliance</td>
<td></td>
</tr>
<tr>
<td>C. Total amount of dollars refunded in cash to taxpayers</td>
<td>$0.00</td>
</tr>
<tr>
<td>D. Total decrease in corrected tax liabilities, penalties, and interest (but not below zero for any taxpayer)</td>
<td>$0.00</td>
</tr>
</tbody>
</table>

i. **Line 15A.** Report on this line the number of cases closed during the period in which the taxpayer was brought into filing compliance during the representation. Cases where a taxpayer was successfully assisted or referred for assistance with return preparation to resolve a collection matter can be included here;

ii. **Line 15B.** Report on this line the number of cases closed during the period in which the taxpayer was brought into collection compliance during the representation. Cases where the taxpayer paid his tax liabilities in full, entered an approved installment payment plan, was placed in currently not collectible status, or obtained an OIC can be included here;

iii. **Line 15C.** Report on this line the total dollars in tax refunds that were paid to taxpayers whose cases were closed during the reporting period, rounded to the nearest whole dollar. Do not include refunded dollars that were offset against any other outstanding tax liability. This amount may include all refunds issued to the taxpayer during the representation that relate to the tax years in dispute. Include state and local tax refunds if the clinic represented taxpayers before those agencies on a matter related to the federal tax controversy; and

iv. **Line 15D.** Report on this line the total dollar impact in tax liabilities, penalties, and interest to taxpayers whose cases were closed during the reporting period, rounded to the nearest whole dollar. Include an abatement of tax, penalties, or interest, a reduction in a proposed deficiency, the amount of innocent spouse relief obtained, the difference between the full amount owed and the total amount to be paid on an accepted OIC, and similar items. Do not include amounts placed in currently not collectible status. Include the total dollar impact in state and local tax liabilities, penalties, and interest to taxpayers if the clinic represented taxpayers before those agencies on a matter related to the federal tax controversy.

**Example 1: Reporting Case Outcomes**

A clinic represented a taxpayer facing a proposed deficiency of $3,000. After review of the facts, the clinic determined that the IRS failed to credit $4,000 in withholding. The $3,000 liability was abated in full, and the taxpayer received a cash refund of $1,000. The clinic should report $1,000 on line 15C, and $3,000 on line 15D.

To finalize the form, see the instructions for how to save, validate, and submit forms at the end of this Appendix.
INSTRUCTIONS FOR FORM 13424-L, STATEMENT OF GRANT EXPENDITURES AND NARRATIVE EXPLANATIONS

Purpose
Form 13424-L, Statement of Grant Expenditures and Narrative Explanations, is used to report how federal grant funds and matching funds were spent by the clinic during the reporting period. This form is also used to report a narrative explanation of how each expense amount was calculated and the sources and valuation of matching funds. All expenses must be reasonable, necessary, and allocable to the LITC grant. See Publication 3319 or 2 CFR Part 200 for guidance on costs and matching funds.

Note: Grant expenditure amounts must also be reported on Standard Form 425 (described above).

Specific Instructions for Completing the Form

Detailed Budget Worksheet
The system will navigate to the screen below when the Form 13424-L is selected on the Form Selection screen.

</tbody>
</table>

Each line item does not require a dollar-for-dollar match, but the total matching funds must equal or exceed the total federal funds expended.

The total amount reported on this form for expenditure of federal funds (line K, Federal column) must be the amount of federal funds spent during the reporting period; do not include any amounts drawn from the award using the Payment Management System (PMS), but not spent. The PMS is operated by the Department of Health and Human Services.

Grant Expenditures Narrative Explanation
This section requires more detailed information about your LITC’s expenditures.

Each letter of the Grant Expenditures Narrative Explanation corresponds to an expense category in the Detailed Budget Worksheet. The information provided in the narrative should be sufficiently detailed so that a reviewer can arrive at the same amounts listed on the Detailed Budget Worksheet by expense and by category (federal or match).
Personnel

Report salaries and wages that were paid to LITC staff. Do not include fringe benefits in this category (fringe benefits should be accounted for in Category B). In the explanation, list each staff member’s name, position, rate of pay, and time devoted to clinic activities (hourly wage and number of hours of service, or annual salary and percentage of annual salary). State the portion of each staff member’s salary or wages paid from federal and matching funds, as well as the source of the matching funds. Volunteer in-kind services should not be included in the Personnel category. They must be included in Category H, Other Expenses.

Calculate each clinic staff member’s full-time equivalent (FTE). Take the staff member’s total hours worked for the clinic and divide it by total hours in the reporting period. For staff assigned to LITC activities on a percent of total working hours, convert the applicable percentage into a decimal.

**Note:** If a staff member is full-time with the organization but only a partial FTE for the clinic, multiply the FTE times the full-time salary to arrive at the proper amount to include as a personnel expense.

Calculate the personnel expense for each staff member. Personnel expense can be calculated as a percent of total time/FTE multiplied by salary, or by multiplying the number of hours worked by the applicable hourly rate.

Determine and list out the dollar amount attributable to federal and match. List sources of match in the comment section.

Input one person per line in the personnel narrative section. Click on the “Add” button to enable the additional line option.

Fringe Benefits

Report fringe benefits that were paid on behalf of LITC staff whose wages and salaries are reported in personnel costs (Category A above). In the explanation, state the fringe benefits rate(s), the items that constitute the fringe benefits, what portion was paid by federal funds and matching funds, and the source of matching funds. Identify the rate applicable to each staff position if varying rates apply by position.

- Show the formula (methodology) for calculating fringe benefits for each position listed in Category A;
- State what items are included in fringe benefits;
- Provide the dollar amount attributable to federal and match; and
- Indicate the source of matching funds.
Travel

Report travel costs, including costs associated with attendance at the annual LITC conference and other travel expenses directly related to conducting LITC business or activities. In the explanation, identify the travel costs listed, whether the costs were paid with federal or matching funds, and the source of the matching funds.

Please break down travel costs by category, such as transportation, hotel, meals, and incidental expenses, and mileage. If using a mileage rate, show the computation.

Equipment

Report the cost of equipment that was purchased by the clinic and used in operating an LITC program. Donated equipment may be included as matching funds and must be valued at the fair market value of the property at the time of the donation. In the explanation, identify the equipment purchased or donated, whether the associated costs were paid using federal or matching funds, and the source of the matching funds. If there were third-party in-kind contributions of equipment, identify the equipment, the donor, and how the valuation was determined. Only equipment costing $5,000 or more is included in the category; equipment costing less is included in Category E, Supplies.

Supplies

Report the cost of supplies and equipment costing less than $5,000 that were used in operating the LITC. Donated supplies may be included as matching funds and must be valued at the fair market value of the property at the time of the donation. In the explanation, identify:

- The value of supplies used;
- Whether the associated costs were paid using federal or matching funds; and
- Source of the matching funds.

If there are third-party in-kind contributions of supplies, explain the amount of the supplies contributed and how the valuation.
Contractual

Report the cost of rent, utilities, and other contracted items or services that were used in operating an LITC program. Donated space may be included as matching funds and the value assigned may not exceed the fair rental value of comparable space. The explanation should identify:

- Nature of the expense;
- Whether the associated costs were paid using federal or matching funds; and
- Source of the matching funds.

If a contracted item or service pertains to other programs in addition to LITC activities, only the portion directly attributable to LITC activities may be allocated to the LITC program. The narrative must explain the methodology used to apportion costs between the LITC activities and other programs.

There are two acceptable methodologies for calculating federal funds allocable to indirect costs:

- **Indirect Cost Rate Agreement**
  - i. Must be approved in advance;
  - ii. Agreement must set forth cost items included in the rate; and
  - iii. The clinic may not charge items included in the rate as separate expense items.

- **De minimis 10 Percent Rate**
  - i. Rules are set forth in 2 CFR Part 200; and
  - ii. Clinics that use the *de minimis* rate to charge indirect costs must charge costs consistently across federal grants and may not double charge or inconsistently charge as both.

For example, if a clinic is part of a larger organization that has an indirect cost rate agreement and the rental cost of the facility in which the clinic operates is included in the negotiated rate, then the clinic may not include the facilities cost under the Contractual Expense category. Similarly, if the clinic elects to use the *de minimis* rate to charge indirect costs on all its federal awards, no facilities and administration costs may be charged as direct costs.

**Construction**

This section has been disabled. No construction expenses are allowed.
Other Expenses

Report all other direct costs that were incurred in operating an LITC program that are not properly included in categories A through G. The value of volunteer in-kind services is included in this category as matching funds. The explanation should identify:

- The type of expense;
- Whether the cost was paid using federal or matching funds; and
- Source of the matching funds.

The explanation must also disclose the rate or rates that were used to value volunteer in-kind services and the number of volunteer hours that were provided, categorized by type of service or volunteer.

Indirect Costs

Report indirect costs not directly related to the LITC program but incurred as part of the general overhead and administration of the grantee. Indirect charges may be charged as a use of federal funds based upon an approved Indirect Cost Rate Agreement or the de minimis rate allowed under 2 CFR Part 200. However, indirect charges may not be counted as matching funds and the rate may only be applied to the base paid with federal funds. The narrative explanation should identify the indirect cost rate, the base to which the rate was applied, and the computation for the indirect charges amount. Briefly summarize the expenses included in the indirect cost rate agreement.

If indirect costs were charged to the LITC grant, no items that are included in the indirect cost rate or the de minimis rate may be charged as direct expenses. For example, if a clinic is part of a larger organization that has an Indirect Cost Rate Agreement and the rental cost of the facility in which the clinic operates is included in the negotiated rate, then the clinic may not include the facilities cost under the Contractual Expense category. Clinics that use the de minimis rate to charge indirect costs must charge costs consistently across federal grants and may not double charge or inconsistently charge as both. See Publication 3319 or 2 CFR Part 200 for guidance on indirect charges.
Matching Funds

This section addresses matching funds from sources other than the federal government.

<table>
<thead>
<tr>
<th>No.</th>
<th>Source</th>
<th>Type</th>
<th>Amount</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
<td></td>
<td>$0.00</td>
<td></td>
</tr>
</tbody>
</table>

Complete this section by providing a narrative that includes an explanation of the sources and amounts of matching funds. The clinic must state explicitly that matching funds provided to the LITC program (1) were not used as matching funds for any other federal program and (2) were not funds received from any other federal grant unless specifically authorized by statute to be used as matching funds.

- List amount of match by source; and
- List total of all match funding.

Input one source of matching funds per line. Click on the “Add” button to enable the additional line option.

Returning Unused Grant Funds and Requesting Additional Grant Funds

This section addresses returning grant funds and requesting additional funds at interim.

If you are returning funds at interim, select the “Yes” button and provide a statement about why the funds are being returned. If you are returning funds at year-end, select the “Yes” button but only provide a statement if the amount you are returning exceeds $500. The year-end statement about returned funds should include the reason(s) why grant funds were not expended or made available for redistribution to other grantees at interim and whether this was due to a one-time occurrence or an ongoing issue.

Note: A clinic must notify its assigned Advocacy Analyst when it identifies it will not spend all the grant funds, and it is outside of the interim and year-end reporting submission times. Timely notification is important because the Program Office may be able to redistribute the unused funds to another clinic.

For the Interim Report only and if your LITC grant award is less than $100,000, you may request additional LITC grant funds for the current grant year (to be used before December 31). Select the “Yes” button and provide a statement indicating the amount of additional funds requested, the expense category or categories where the funds will be spent, and the amount and source of matching funds that will be provided if the additional funding is awarded. The total funds requested for the grant year may not exceed $100,000. See IRC § 7526(c)(2).

To finalize the form, see the instructions for how to save, validate, and submit forms at the end of this Appendix.

Instructions for Form 13424-L, Statement of Grant Expenditures

**Purpose**

Form 13424-L, Statement of Grant Expenditures, is used to report how federal grant funds and matching funds were spent by the clinic during the reporting period. This form is also used to report a narrative explanation of how each expense was calculated and the sources and valuation of matching funds. All expenses must be reasonable, necessary, and allocable to this grant. See Publication 3319 or 2 CFR Part 200 for guidance on costs and matching funds.

**Note:** Grant expenditure amounts must also be reported on SF 425.

**Reporting Requirements**

All clinics must complete this form. See Publication 3319 for additional information.

**Reporting Period**

Clinics are required to report on LITC activities twice for each grant year. The grant year is January 1 through December 31 for the year in which a grant award is received. An Interim Report is required to report expenditures incurred for the period from January 1 through June 30; a Year-End Report is required to report expenditures incurred for the entire grant year, the period from January 1 through December 31.

**Specific Instructions for Completing the Form**

Each line item does not require a dollar-for-dollar match, but the total matching funds must equal or exceed the total federal funds expended.

The total amount reported on this form for expenditure of Federal funds (line K, Federal column) must be the amount of Federal funds spent during the reporting period; do not include any amounts drawn from the award using the Payment Management System (PMS), but not spent. The PMS is operated by the Department of Health and Human Services, Division of Payment Management.

**Grant Expenditures Narrative Explanation**

This section requires more detailed information about your LITC’s expenditures. Each letter of the Grant Expenditures Narrative Explanation corresponds to an expense category in the Detailed Budget Worksheet. The information provided in the narrative should be sufficiently detailed so that a reviewer can arrive at the same amounts listed on the Detailed Budget Worksheet by expense and by category (federal or match).

**A. Personnel**

Report salaries and wages that were paid to LITC staff. Do not include fringe benefits in this category (fringe benefits should be accounted for in category B). In the explanation, list each staff member’s name, position, rate of pay and time devoted to clinic activities (hourly wage and number of hours of service, or annual salary and percentage of annual salary). State the portion of each staff member’s salary or wages paid from federal and matching funds, as well as the source of the matching funds. Volunteer in-kind services should not be included under the Personnel category. They must be included under category H, Other Expenses.

Calculate each clinic staff member’s full-time equivalent (FTE). Take the staff member’s total hours worked for the clinic and divide it by total hours in the reporting period. For staff assigned to LITC activities on a percent of total working hours, convert the applicable percentage into a decimal.

Calculate the personnel expense for each staff member. Personnel expense can be calculated as a percent of total time/ FTE multiplied by salary, or by multiplying the number of hours worked by the applicable hourly rate.

Determine and list out the dollar amount attributable to federal and match. List sources of match in the comment section.

**B. Fringe Benefits**

Report fringe benefits that were paid on behalf of LITC staff whose wages and salaries are reported in personnel costs (category A above). In the explanation state the fringe benefits rate(s), the items that constitute the fringe benefits, what portion was paid by federal funds and matching funds, and the source of matching funds. Identify the rate applicable to each staff position if varying rates apply by position.

• Show the formula (methodology) for calculating fringe benefits for each position listed in Category A;
• State what items are included in fringe benefits;
• Provide the dollar amount attributable to federal and match; and
• Indicate the source of matching funds.

**C. Travel**

Report travel costs, including costs associated with attendance at the annual LITC conference and other travel expenses directly related to conducting LITC business or activities. In the explanation, identify:

• The travel costs listed;
• Whether the costs were paid with federal or matching funds; and
• The source of the matching funds.
Please break down travel costs by category, such as transportation, hotel, meals, and incidental expenses (MIE), and mileage. If using a mileage rate, show the computation.

D. Equipment

Report the cost of equipment that was purchased by the clinic and used in operating an LITC program. Donated equipment may be included as matching funds and must be valued at the fair market value of the property at the time of the donation. In the explanation, identify:

- The equipment purchased or donated;
- Whether the associated costs were paid using federal or matching funds; and
- The source of the matching funds.

If there were third-party in-kind contributions of equipment, identify the equipment, the donor, and the how the valuation was determined. Only equipment costing $5,000 or more is included in the category; equipment costing less is included in Category E.

E. Supplies

Report the cost of supplies and equipment costing less than $5,000 that were used in operating the LITC. Donated supplies may be included as matching funds and must be valued at the fair market value of the property at the time of the donation. In the explanation, identify:

- The value of supplies used;
- Whether the associated costs were paid using federal or matching funds; and
- The source of the matching funds.

If there are third-party in-kind contributions of supplies, explain the amount of the supplies contributed and how the valuation was determined, as well as the source of the donation.

F. Contractual

Report the cost of rent, utilities, and other contracted items or services that were used in operating an LITC program. Donated space may be included as matching funds and the value assigned may not exceed the fair rental value of comparable space. The explanation should identify:

- Nature of the expense;
- Whether the associated costs were paid using federal or matching funds; and
- The source of the matching funds.

If a contracted item or service pertains to other programs in addition to LITC activities, only the portion directly attributable to LITC activities may be allocated to the LITC program. The narrative must explain the methodology used to apportion costs between the LITC activities and other programs.

There are two acceptable methodologies for calculating federal funds allocable to indirect costs:

- Indirect Cost Rate Agreement
  i. Must be approved in advance;
  ii. Agreement must set forth cost items included in the rate; and
- De Minimis 10 percent rate
  i. Rules are set forth in 2 CFR Part 200; and
  ii. Clinics that elect to use the de minimis rate are prohibited from charging administrative or facility costs as separate expense items.

For example, if a clinic is part of a larger organization that has an indirect cost rate agreement and the rental cost of the facility in which the clinic operates is included in the negotiated rate, then the clinic may not include the facilities cost under the Contractual Expense category. Similarly, if the clinic elects to use the de minimis rate to charge indirect costs on all its federal awards, no facilities and administration costs may be charged as direct costs.

G. Construction

This category is not applicable to this grant. No construction expenses are allowed.

H. Other Expenses

Report all other direct costs that were incurred in operating an LITC program that are not property included in categories A through G. The value of volunteer in-kind services is included in this category as matching funds. The explanation should identify:

- Nature of the expense;
- Whether the associated costs were paid using federal or matching funds; and
- The source of the matching funds.

The explanation must also disclose the rate or rates that were used to value volunteer in-kind services and the number of volunteer hours that were provided, categorized by type of service or volunteer, as appropriate.

I. Total Direct Charges

The total of the direct charges is the sum of lines A through H for each column.

J. Indirect Charges

Report indirect costs not directly related to the LITC program, but incurred as part of the general overhead and administration of the grantee. Indirect charges may be charged as a use of federal funds based upon an approved Indirect Cost Rate Agreement or the 10% de minimis rate allowed under 2 CFR Part 200. However, indirect charges may not be counted as matching funds and the rate may only be applied to the base paid with federal funds. The narrative explanation should identify the indirect cost rate, the base to which the rate was applied, and the computation for the indirect charges amount. Briefly summarize the expenses included in the indirect cost rate agreement.

If indirect costs were charged to the LITC grant, no items that are included in the indirect cost rate or the de minimis rate may be charged as direct expenses. For example, if a clinic is part of a larger organization that has an Indirect Cost Rate Agreement and the rental cost of the facility in which the clinic operates is included in the negotiated rate, then the clinic may not include the facilities cost under the Contractual Expense category. Similarly, if the clinic elects to use the de minimis rate to charge indirect
costs on all its federal awards, no facilities and administration costs may be charged as direct costs. See Publication 3319 or 2 CFR Part 200 for guidance on indirect charges.

Matching Funds

This section addresses matching funds from sources other than the federal government. Complete this section by providing a narrative that includes an explanation of the sources and amounts of matching funds. The clinic must state explicitly that matching funds provided to the LITC program (1) were not used as matching funds for any other federal program and (2) were not funds received from any other federal grant unless specifically authorized by statute to be used as matching funds.

- List amount of match by source; and
- List total of all match funding.

Returning Unused Grant Funds

Complete this section by providing a statement as to whether the clinic will spend its entire LITC grant award by the end of the grant year. In the event the clinic anticipates that it will not spend its entire award, the clinic must contact the LITC Program Office immediately so the funds can be redistributed to other grantees.

Complete this section for the Year-End Report if the amount of unused grant funds at the end of the grant year exceeds $500. Include the reason(s) why excess grant funds were not expended or made available for redistribution to other grantees and whether this was due to a one-time occurrence or an ongoing issue.

Request Additional Grant Funds (This section applies to the Interim report only.)

If you wish to request additional LITC grant funds for the current grant year (to be used before December 31), and your LITC grant award is less than $100,000, indicate the amount of additional funds requested, the expense category or categories where the funds will be spent, and the amount and source of matching funds that will be provided if the additional funding is awarded.

The total funds requested for the grant year may not exceed $100,000. See IRC § 7526(c)(2). After entering amounts into the Grant Expenditures Narrative, verify that the sum of the amounts listed under each expense type and each category (federal/match) are consistent with the amounts listed on the Detailed Budget Worksheet.

## Grant Expenditures Narrative Explanations

### A. Personnel

ABC Legal Services computes 1.0 FTE on a 40-hour work week (2,080 hours per year) All dollars are rounded to the nearest dollar. FTE rounded to nearest hundreth.

- **CD/QTE (Atty)-John Fordham-.8 FTE Annual Salary $89,000 x 0.8=$71,200 Federal:$50,000 Match: $21,200 (ABC Operating Funds, Legal Services Corporation, LSC)
- **Paralegal- Alice Gonzaga .43 FTE $22 x 900 hours= $19,800 Federal: $10,000 $9,800 XYZ Private Foundation funds
- **Intake- Ruth Washington .50 FTE $15 x 1036.09 hours= $15,541 Federal: $15,541 Match: $0
- **Receptionist- Deborah Chapman 1/3 FTE x $30,000= $10,000 Federal: $4,280 Match: $5,720 XYZ Private Foundation funds

Federal: $79,821 Match: $36,720 ($21,200 ABC Operating Funds/LSC + $15,520 XYZ Private Foundation)

### B. Fringe Benefits

Fringe Benefits are 20% of wages of $116,541.

Federal:$1,525 Match: $21,783 XYZ Private Foundation funds.

### C. Travel

Local travel to conduct educational and outreach activities. $45 parking. $281 mileage (525 miles at $.535 per mile).

$1,753 of travel to LITC Conference. $950 Hotel. $553 Air fare. $200 MI&E. Travel to and from airport $50 Taxi.

Federal: $0 Match: $2,079 ($45 + $281 + $1,753) XYZ Private Foundation funds.

### D. Equipment

$0

### E. Supplies

ABC Legal Services uses a full-time equivalent (FTE) method to allocate certain direct shared expenses, including Supplies, Telephone and Internet, and 2 CFR § 200.501 Audit Cost. Under this method, the allocation percentage is determined by dividing the FTEs of employee time devoted to the LITC program by the total FTEs available in the ABC Legal Services organization. The LITC program staffing will be 2.06 FTEs (.80 FTE for John Fordham + .43 FTE for Alice Gonzaga + .50 FTE for Ruth Washington + .33 FTE for Debra Chapman = 2.06 FTEs). Total FTEs in the ABC LegalServices organization is 40 FTEs. The ratio of shared expenses is estimated at 5.15% (2.06/ 40).

Total cost of supplies for the organization is estimated to be $36,900 and will include the cost of laptop computers, printers, copy paper, toner, pens, pencils, envelopes, postage, etc. $36,900 x 5.15% = $1,900.

Federal: $0 Match: $1,900 XYZ Private Foundation funds.

### F. Contractual

Total telephone and internet shared cost is estimated to be $35,880.$35,880 x 5.15%(FTE allocation) = $1,848. The organization's total audit cost (a shared expense) is estimated to be $20,400. $20,400 x 5.15% (FTE allocation) = $1,051. Advertising costs – These costs will be incurred solely to publicize the LITC program. Planned advertising for LITC representation and education services are estimated to be $3,000.

Rent – Facilities costs are generally included in the Indirect Cost Rate Agreement. However, the organization will be renting off-site space at Neighborhood Drop-in, a community based organization, solely to conduct weekly intake. The cost of the space is $500 per month. $500 x 12 mo = $6,000.

Federal: $0 Match: $11, 899($1,848 + $1,051 + $3,000 + $6,000) XYZ Private Foundation funds.

### G. Construction
H. Other Expenses
Representation services: $210/hr x 82.86 hrs = $17,400. Non-representation services:
Volunteer attorneys will contribute services including research, consultations, and review of educational materials. Valuation rate is the same as pay rate for staff attorney John Fordham. ($42.79/hr + $8.56/hr fringe) = $51.35/hr x 95 hrs = $4,878.
A bilingual Enrolled Agent will provide services including ESL consultations and review of educational materials. Valuation rate is consistent with those paid for similar work in the labor market and were determined using BLS information for the locality plus reasonable fringe. ($22.50/hr + $4.50/hr fringe) = $27/hr x 75 hrs = $2,025.
Law students will represent taxpayers before the IRS pursuant to a special appearance authorization. Valuation rate is $18/hr which represents 35% of the staff attorney's pay rate, including fringe. (Note: students are not permitted to use the $210/hr rate available to other qualified representatives.) $18/hr x 75 hrs = $1,350.
Federal: $0 Match: $25,653 ($17,400+$4,878+$2,025+$1,350) Third Party In-Kind

I. Total Direct Charges

J. Indirect Costs
$116,541 x 10% = $11,654
Federal: $11,654
(Please note for this example the MTDC only takes into consideration the direct salary costs for LITC staff $116,541. Additional items such as fringe benefits supplies and materials and travel directly attributable to the work of the grant could also be utilized in calculating the MTDC if it can be shown they are direct costs of performing work under the LITC grant. See Section IV.E. ii. "Direct v. Indirect Expenses," Publication 3319 "2019 LITC Grant Application and Guidelines."

Matching Funds
Total matching funds will be $100,034 from the following sources:
$53,181 cash from XYZ Private Foundation
$21,200 cash from ABC Corp Operating Funds (LSC)
$25,653 third party in-kind

These funds were not used as matching funds for any other federal program.

INSTRUCTIONS FOR FORM 13424-N, LITC PROGRAM NARRATIVE REPORT

Purpose
Form 13424-N, LITC Program Narrative Report, is used to report information about certain representation, education, and advocacy work the clinic performed during the reporting period. This form is used to report narrative explanations of the program plan, how the clinic is able to meet the requirements of the grant, trends in the types of cases encountered, and success stories of note that occurred during the reporting period. This form also provides an opportunity to supplement responses from other reporting forms included in the Interim and Year-End Report that relate to representation, education, and advocacy efforts.

This form is also used to report the steps taken to resolve open cases and provide ongoing representation, where appropriate, for clinics that will no longer be participating in the LITC grant program in the next grant period.

The Program Office uses the information reported on this form and the other reporting forms to determine the scope of services provided by clinics. Data is also aggregated to provide program-wide statistical information about services provided to low-income and ESL taxpayers.

Specific Instructions for Completing the Form
All fields require an entry even if the response is N/A or Not Applicable. Each section has an 8,000 character limit, except where designated. For purposes of reporting on Program Plan Progress (Section 1) and addressing Grant Requirements (Section 2), clinics should report activities performed between January 1 and June 30 on the Interim Report. The Year-End Report will cover work performed between January 1 and December 31 with the exception of Success Stories (Section 3) and Emerging Issues (Section 4) which should be answered from work performed during the second half of the year only. However, if an emerging issue was included in the Interim Report, and it continued through the second half of the year, it is appropriate to include it again in the Year-End Report especially if the issue or trend increased in prevalence or new examples of it were identified. To the extent that these instructions may conflict with the information included with the Form 13424-N fillable form, please follow the instructions provided here.

Program Plan Progress
The system will navigate to the screen below when the Form 13424-N is selected on the Form Selection screen. Report the progress made in implementing the program plan during the reporting period in this section.

1. Program Plan Progress
    Provide a detailed explanation of the progress made in implementing the program plan during the reporting period. The explanation must address the following:
    i. Describe the progress in meeting the proposed goals (including numeric goals) and objectives and the efforts taken to achieve those results.
       (Characters Limit 8000)

2. Describe any impediments to meeting established goals and objectives, and efforts made to overcome them. Order the impediments from most to least significant.
   (Characters Limit 8000)
Include the description of the progress made in meeting the numerical and substantive goals and objectives, respectively, that were detailed in the grant application on Form 13424-M, Low Income Taxpayer Clinic Application Narrative, or as revised in any amendments or continuing funding requests.

**Grant Requirements**

Report how certain requirements of the LITC grant are fulfilled in this section.

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>i.</td>
<td>Describe any changes in LITC staff or how staff is deployed, if applicable</td>
</tr>
<tr>
<td>ii.</td>
<td>Describe the training provided to clinic staff, students, and volunteers. Include the topics covered during the training, the number of training hours, and the training provider</td>
</tr>
<tr>
<td>iii.</td>
<td>Describe any mentoring or networking activities conducted. Identify who is being mentored and the frequency of mentoring meetings</td>
</tr>
<tr>
<td>iv.</td>
<td>Describe the outreach activities reported on Form 13424 - A, line 1d. Identify the intended audience, and include a description of types of outreach activities, including whether each activity was one-time or ongoing effort</td>
</tr>
<tr>
<td>v.</td>
<td>Describe the types of issues and questions addressed in the technical assistance consultations reported on Form 13424 - A, line 7</td>
</tr>
<tr>
<td>vi.</td>
<td>Describe the reasons for seeking assistance from the Taxpayer Advocate Services (TAS) and the assistance TAS provided in cases reported on Form 13424 - A, line 8</td>
</tr>
<tr>
<td>vii.</td>
<td>Explain the circumstances surrounding the representation of taxpayers whose amount in controversy exceeds $50,000 as reported on Form 13424 - K, line 3. Include the issues creating the tax controversy and an explanation of why an exception was made to the general amount in controversy limitation</td>
</tr>
<tr>
<td>viii.</td>
<td>List any changes in days or hours of operation, if applicable</td>
</tr>
</tbody>
</table>
Use line 2.ix to supplement responses from other reporting forms included in the Interim and Year-End report that relate to representation, education, and advocacy efforts.

**Emerging Issues**

Report frequently encountered trends identified in the types of cases encountered through work on behalf of low-income or ESL taxpayers during the reporting period in this section.

Input one issue per item box. Click on the “Add” button to enable additional line option.

**Note:** Do not include any confidential or personally identifiable taxpayer information. See Publication 3319 for additional information about confidentiality.

**Success Stories**

Report notable stories of achievement of the LITC mission that occurred during the reporting period in this section.

Input one issue per item box. Click on the “Add” to enable the additional line option.

The response should describe particular cases or activities but do not include any confidential or personally identifiable taxpayer information. See Publication 3319 for additional information about confidentiality.
Last Year in LITC Program

Only complete this section if included with a final Year-End report of a clinic that will not be receiving LITC grant funding in the next grant period.

5. Last year in LITC Program / Year-End reports only.
If the grantee will not be continuing in the LITC Program for the upcoming grant year, please detail the steps taken to solve any open cases or obtain new representation for current clients.

[Characters Limit 5000]

If the clinic will no longer be participating in the LITC grant program, report the steps taken to resolve open cases and provide ongoing representation, where appropriate.

To finalize the form, see the instructions for how to save, validate, and submit forms at the end of this Appendix.
HOW TO SAVE, VALIDATE, AND SUBMIT YOUR FORMS

Click “Save” to save data entered before validating. When ready to submit, click “Validate” to indicate the information is complete.

When there are errors, the system will refresh to the screen below and list at the top of the screen the fields that were not completed. The system will not allow the report status to change to “Validated” until all issues resolved and re-validated.

The system will refresh screen below and the report status show as “Validated” if no errors and once all errors are corrected.

Once a reporting form is saved and validated without any errors it is ready to be submitted to the LITC Program Office. The statuses can be found on the Form Selection screen and/or within each form itself. The person who has the role of Principal Investigator/Program Director (PI/PD) must submit the reporting forms. Ordinarily this is the Clinic Director in some organizations this role may be held by an Executive Director. To submit reporting forms, do the following:

- Go to the Form Selection screen;
- Locate the form to submit;
- Follow the steps above to access the form; and
- Click on the “Submit” link (the submit link will not appear until the form moves to the “Validated” status).
**Note:** Once a form is submitted to the Program Office it is no longer editable. To edit a form that was prematurely submitted, email the LITC Program Office at LITCProgramoffice@irs.gov and copy (i.e., cc) your assigned Advocacy Analyst. The Advocacy Analyst will contact the organization to confirm the request and the form will be released for edit. Follow the instructions above to resubmit the form to the LITC Program Office.

To exit the form, click the “**Form Selection**” link and the system will navigate back to the form details screen.

</table>
90/250 Income Requirement – at least 90 percent of taxpayers represented by an LITC must have incomes which do not exceed 250 percent of the poverty level or criteria established by the Director of the Office of Management and Budget (OMB). See IRC § 7526(b)(1)(B)(i). The Director of OMB has not established a poverty level or criteria. The Department of Health and Human Services (HHS) publishes annual Federal Poverty Guidelines based on family unit size and geographic location, which are applicable to the LITC Program. For 2019, the Federal Poverty Guidelines were published at 85 Fed. Reg. 3060-61 (Jan. 17, 2020).

Allowable Expenses – expenses chargeable to a grant as a use of federal funds or matching funds in accordance with the cost principles guidance in 2 CFR Part 200 and 2 CFR Part 1000. Generally, for an expense to be allowable, the expense must:

- Be necessary and reasonable for the performance of the federal award and be allocable thereto under the applicable cost principles;
- Conform with any limitations or exclusions set forth in the cost principles or in the Notice of Award;
- Be consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the grantee;
- Be accorded consistent treatment by the grantee;
- Be determined in accordance with generally accepted accounting principles (GAAP), except for state and local governments and Indian tribes only, as otherwise provided for in the cost principles;
- Not be included as a cost or used to meet cost sharing or matching requirements of any other federally-financed program in either the current or a prior period; and
- Be adequately documented.

Application – a request for LITC grant funding submitted to the LITC Program Office. When used it is referring to either an LITC Full Grant Application or a Non-Competing Continuation (NCC) Request, depending upon the type of application that the organization needs to complete.

Appropriation – a law authorizing federal agencies to obligate funds and make payments from the U.S. Department of the Treasury for specified purposes. Appropriations are annual acts and permanent law. Until Congress makes an appropriation for the LITC Program, the LITC Program Office may not be able to inform grantees of the amount of their funding.

Award – the provision of funds by the LITC Program Office, based on an approved application and budget, and subject to a federal appropriation, to an organization to carry out activities in support of the LITC mission.
**Basis of Accounting** – the time at which financial transactions are recorded. There are two primary methods for tracking income and expenses. With accrual basis accounting, income is recorded when earned and expenses are recorded when incurred. With cash basis accounting, income is recorded when received and expenses are recorded when paid.

**Budget** – a request for funds to support an activity, presented by expense category. An initial budget is submitted with the application proposing how the applicant intends to use the funds. If an award is made, the clinic will submit a revised budget with the clinic’s application amendment that is due shortly after the award amount is finalized.

**Case Management System** – a system that may be used by grantees to capture intake information, calculate client financial eligibility, track case status and outcomes, input case notes, maintain timekeeping records, record educational and outreach activities, and compile data for Interim and Year-End Reports. LITCs are strongly encouraged to use professional case management software to maintain and monitor client files. An LITC may purchase case management software with grant funds to efficiently track and report its program activities.

**Catalog of Federal Domestic Assistance (formerly CFDA)** – a governmentwide compendium of federal programs and activities that provide assistance or benefits. The General Services Administration maintains the database from which program information is obtained. See [www.cfda.gov](http://www.cfda.gov). The CFDA number for the LITC Program is 21.008.

**Clinic** – see *Low Income Taxpayer Clinic*.

**Clinic Director** – a staff member who has overall management responsibility for the clinic. The Clinic Director may also be the QTE or QBA, if qualified. The Clinic Director manages day-to-day clinic operations, prepares or reviews the required clinic reports, and signs reports as the clinic’s authorized representative. The Clinic Director serves as the primary contact person for both the LITC Program Office and the Local Taxpayer Advocate (LTA) office. In most circumstances, the Clinic Director will have the role of Principal Investigator/Program Director (PI/PD) in GrantSolutions for purposes of signing and submitting forms. In some organizations, the PI/PD might be the Executive Director.

**Closeout** – the process by which the federal awarding agency determines that all applicable administrative actions and all required work of the federal award have been completed and takes actions as described in 2 CFR § 200.343, *Closeout*.

**Congressional District** – an electoral constituency, apportioned by population, which elects a Member of Congress.
Continuing Legal Education (CLE) – an accredited professional educational program for attorneys. CLE is also known as MCLE (Mandatory or Minimum Continuing Legal Education). The number of CLE credit hours will vary by program and is dependent upon state CLE board approval. CLE rules vary by jurisdiction. Some jurisdictions may not allow CLE credit for all types of programs, such as teleconferences or webinars.

Continuing Professional Education (CPE) – an accredited educational program required to maintain a professional license, such as a Certified Public Accountant or Enrolled Agent designation or attorney.

D

Digital Accountability and Transparency Act (DATA) of 2014 – a law that requires the U.S. Department of the Treasury to establish common standards for financial data provided by all government agencies on the USASpending website to increase transparency in federal expenditures and to make the information more accessible to the public. Among other objectives, the Act also aims to simplify reporting for entities receiving federal funds and improve the quality of submitted data.

Demographics – vital or social statistics (e.g., income, education level, native spoken language) of a group or population of taxpayers within a defined state, county, or geographic regional area.

Direct Costs – costs that can be identified or allocated specifically with a particular program, such as an LITC program, with a high degree of accuracy. Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect. For additional information, see 2 CFR § 200.413.

Direct Lobbying – activities supporting the enactment, modification, or adoption of any law, regulation, or policy at any level of government. Direct lobbying includes influencing or attempting to influence a Member of Congress, a state or local legislator, or any of their staff members to take a position or action on a specific piece of legislation or potential legislation. For additional information, see 2 CFR § 200.450.

E

Engagement Letter – an engagement letter or retainer agreement defines the specific matters for which the LITC will provide representation and protects both the representative and the taxpayer by informing both parties as to the agreement of assigned responsibilities over the course of the professional relationship. Written copies of the engagement letter or retainer agreement signed by both the representative and the taxpayer should be retained by the LITC and a copy should be retained by the taxpayer.

F

Family Unit – for purposes of the 90/250 rule, a family unit is generally defined as an unrelated individual or a family. An unrelated individual is a person 15 years old or over not living with persons related by birth, marriage, or adoption. A family is a group of two or more persons related by birth, marriage, civil union, or adoption who live together. However, if related individuals live together, but the person seeking assistance from the LITC is
financially independent, then that person may be treated as a family unit, distinct from relatives in the household. If two unrelated individuals live together, they constitute two family units.

**Federal Register** – an official daily publication that provides a uniform system for communicating proposed and final regulations and legal notices issued by federal agencies, including announcements of the availability of funds for financial assistance programs.

**Fringe Benefits** – allowances and services provided by employers to their employees as compensation in addition to regular salaries and wages. Fringe benefits include, but are not limited to, the costs of leave (vacation, family-related, sick, or military), employee insurance, pensions, and unemployment benefit plans. For additional information, see 2 CFR § 200.431.

**Grant** – a financial assistance mechanism providing money, property, or both to an eligible entity to carry out an approved project or activity.

**Indirect Costs** – costs that have been incurred for common or joint objectives with other grant programs and cannot be readily identified with the LITC Program. After direct costs have been determined and assigned directly where appropriate, indirect costs are those remaining to be allocated to a particular program. Direct cost of minor amounts may be treated as indirect costs under the conditions described in 2 CFR § 200.413(d). A cost may not be allocated to the LITC Program as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been assigned to another federal award as a direct cost. Indirect costs may be charged as a use of federal funds based upon an approved Indirect Cost Rate Agreement or the de minimis rate of ten percent allowed under 2 CFR Part 200. Indirect costs are not allowable as matching funds.

**Intake** – a process used by clinic staff to gather information from a taxpayer seeking assistance to determine eligibility for services. LITCs must record the taxpayer’s income information on an intake form (paper or electronic). If the taxpayer is part of a family unit, the income of the family unit should be reported and utilized in the eligibility determination. LITCs must also determine and document the amount in controversy during intake.

**Individual Taxpayer Identification Number (ITIN)** – a unique nine-digit number used for tax administration purposes that the IRS issues to individuals who are not eligible to obtain a Social Security number (SSN).

**Local Taxpayer Advocate (LTA)** – a delegate of the National Taxpayer Advocate (NTA) who is a manager in a local jurisdiction and reports directly to the NTA. IRC § 7803(c)(2)(D)(i)(I) requires that each state have at least one LTA who is independent of the local IRS office. Each LTA provides essential guidance and assistance to the LITCs within his or her geographic area.
Matching Funds – the portion of program costs not funded by federal funds. Grantees must provide matching funds on a dollar-for-dollar basis for all LITC grant funds received. See IRC § 7526(c)(5), 2 CFR § 200.29, and § 200.306 for more information. Only funds that are used in direct support of the LITC Program qualify as matching funds. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 CFR § 200.306 (and the U.S. Department of the Treasury’s implementation thereof at 2 CFR § 1000.306) provides that all contributions, including cash and third-party in-kind, shall be accepted as part of the grantee’s cost sharing or matching when such contributions:

- Are verifiable from the grantee’s records;
- Are not included as contributions for any other federally assisted project or program;
- Are necessary and reasonable for proper and efficient accomplishment of project or program objectives;
- Are allowable under the applicable cost principles;
- Are not paid by the federal government under another award, except where authorized by the federal statute to be used for cost sharing or matching;
- Are provided for in the approved budget when required by the federal awarding agency; and
- Conform to other provisions of 2 CFR Part 200, when applicable.

National Taxpayer Advocate (NTA) – the official who supervises and directs the Office of the Taxpayer Advocate. The NTA reports directly to the IRS Commissioner and serves as the voice of the taxpayer with the IRS and before Congress. Final LITC grant funding decisions are made by the NTA, unless recused. In recusal situations, final funding decisions are made by the Deputy National Taxpayer Advocate.

Non-Competing Continuation (NCC) Request – a request for LITC grant funding submitted to the LITC Program Office through www.grantsolutions.gov and using the specified forms in accordance with LITC Program Office Instructions. NCC Requests must be submitted in lieu of a Full Grant Application by organizations already funded with a multi-year LITC grant that ends after December 31, 2020.

Office of Management and Budget (OMB) – the White House office that oversees the preparation of the federal budget and supervises its administration in Executive Branch agencies. OMB evaluates the effectiveness of agency programs, policies, and procedures, assesses competing funding demands among agencies, and sets funding priorities. OMB ensures that agency reports, rules, testimony, and proposed legislation are consistent with the President’s Budget and with Administration policies.

OMB Guidance – comprehensive principles issued by OMB that provide guidance relating to the administration of federal grant awards. Grant award administrative requirements are set forth in the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 CFR Part 200 (and
the U.S. Department of the Treasury has implemented those requirements at 2 CFR Part 1000). The Uniform Guidance helps ensure the highest integrity in the financial management and operation of federal grant programs and strengthens accountability for federal funds by improving policies that protect against waste, fraud, and abuse. In addition, the guidance aims to minimize the time applicants and grantees must spend complying with administrative requirements

Operational Review Visit – a site assistance visit conducted by LITC Program Office staff to evaluate a clinic’s overall operations and to provide technical assistance to help the grantee maintain compliance with the terms and conditions of the LITC grant. During an operational review visit, an LITC Advocacy Analyst will interview clinic personnel, examine intake procedures, review case management and reporting systems, and sample financial records. An operational review visit may also include observation of clinic facilities and review of procedures and internal controls, personnel policies, training plans, privacy and confidentiality policies, outreach plans and materials, educational curricula, fee policies, and client satisfaction instruments. When monitoring and evaluating clinic activities, the LITC Program Office will respect the clinic’s duty to protect confidential information and will not interfere with the confidential nature of the relationship between qualified representatives and their clients. The LITC Program Office strives to conduct an operational review visit to each clinic at least once every three years. However, the LITC Program Office may conduct an operational review visit at any time.

Orientation Visit – a site assistance visit conducted by LITC Program Office staff to a grantee that did not receive a grant in the previous year. An orientation visit generally occurs during the first 120 days of the grant year. An orientation visit provides an opportunity to familiarize a new grantee with LITC Program requirements and to measure the progress of its start-up activities. Specifically, an orientation visit allows the LITC Program Office to assess the status of newly funded clinics and to identify potential areas where the grantee may need to create systems or improve processes to meet the requirements of the LITC Program.

P

Payment Management System (PMS) – an electronic system maintained by the Department of Health and Human Services that is used to pay federal funds. New grantees must create an account with PMS and obtain a username and password to use the system. PMS allows a grantee to make an online request for payment of federal funds. After a request is processed and approved, funds are directly deposited into the grantee’s bank account through a process called Electronic Funds Transfer (EFT). Funds are generally available within one business day of the request.

Q

Qualified Business Administrator (QBA) – a staff member with sufficient business administration expertise to oversee the clinic’s business operations. The QBA must demonstrate education or experience with business or program administration, such as internal controls, grant funds management, budgeting, procurement, or the equivalent. If a department, as opposed to a single individual, fulfills this requirement, please provide details in the grant application about the staff member who oversees the department.
Qualified Tax Expert (QTE) – a staff member with sufficient tax law expertise to oversee technical substantive and procedural tax matters. The QTE must be a qualified representative. The QTE is also responsible for reviewing all educational materials for accuracy before distribution.

R

Representation – acting as an agent of the taxpayer in an advocacy capacity in a matter before the IRS, the U.S. Tax Court, or another federal court, or before a state or local tax authority when the clinic is representing the taxpayer in a related federal tax controversy. Fact finding or advice alone does not constitute representation.

S

Special Appearance Authorization – a letter issued by the Director of the LITC Program Office that authorizes students and law graduates working at an LITC or Student Tax Clinic Program to represent taxpayers before the IRS. Practice under a special appearance authorization is limited to students and law graduates at an LITC or Student Tax Clinic Program working under the direct supervision of an individual authorized to practice before the IRS. For additional information, see Section VI.C.xi, Representing Low Income Taxpayers.

Standards of Operation – baseline operational requirements developed by the LITC Program Office and applicable to all clinics to ensure that all programs provide consistent and quality service to low-income and ESL taxpayers.

Support Staff – a group of people within an organization who perform such activities as answering the phone, scheduling appointments, copying materials, maintaining information on employees or volunteers, and maintaining timekeeping records.

Systemic Advocacy – identifying and advocating for issues that impact low-income and ESL taxpayers utilizing a variety of methods, including but not limited to:

- Participating in advocacy projects with professional organizations;
- Commenting on proposed IRS regulations and guidance;
- Preparing and filing an amicus brief to alert a court about the concerns of low-income or ESL taxpayers;
- Authoring articles in scholarly journals or general interest publications;
- Appearing on television or radio to raise awareness about tax issues that affect low-income or ESL taxpayers;
- Producing public service announcements; or
Tax Counseling for the Elderly (TCE) – an IRS initiative designed to promote and support free tax counseling and basic income tax return preparation for individuals aged 60 years or over who cannot afford professional assistance. Cooperative grant agreements are entered into between the IRS and eligible organizations to provide the free tax assistance.

Tax Compliance Officer – an authorized individual responsible for handling the organization’s federal tax matters and with whom the LITC Program Office can address any issues identified during federal tax compliance reviews of applicants and grantees. If the applicant is part of a larger organization (e.g., academic institution which operates a clinic), the LITC Program Office must be able to verify that the sponsoring organization does not have a federal tax compliance issue before awarding grant funds. Applicants must also provide documentation (e.g., articles of organization or a Form 2848) which shows how such individual referred to as a Tax Compliance Officer on Form 13424 is properly authorized to receive tax information to prevent the IRS from making an unauthorized disclosure.

Tax Return Preparation – an LITC can provide assistance with a federal tax return, a claim for refund, or an ITIN application if such assistance is necessary to resolve a controversy with the IRS or limited preparation may be done that is ancillary to an LITC’s ESL education program.

Technical Assistance Consultation – a discussion with a practitioner or other service provider designed to give brief advice about a tax issue.

Third Party In-Kind Contributions – the value of non-cash contributions provided as matching funds by parties other than the grantee or federal government. Third party in-kind contributions may be in the form of goods, space, or services donated to the LITC by third parties.

Unallowable Expenses – expenses for which LITC grant funds may not be used according to restrictions published by OMB, the LITC Program Office, appropriations language, or conditions outlined in the grantee’s Notice of Award.

Underserved Area – an identifiable geographic area where the need for LITC services exceeds the capacity available from current grantees.

Unused Funds – the portion of grant funds awarded to clinics that have not been spent, whether or not those funds have been drawn down from PMS. If a grantee determines that it will not spend its entire award, the grantee should immediately notify the LITC Program Office.
Volunteer Income Tax Assistance (VITA) – an IRS initiative designed to promote and support free tax return preparation service for the underserved through various community partner organizations. This service helps low- to moderate-income individuals, persons with disabilities, the elderly, and limited English speakers file their tax return each year. The IRS awards matching funds to these support organizations that offer free tax return preparation services during the tax filing season at locations in all 50 states and the District of Columbia.
