Publication 4163

Modernized e-File (MeF) Information for Authorized IRS e-File Providers for Business Returns
Tax Returns Processed in Year 2022
The Internal Revenue Service Mission

Provide America’s taxpayers top quality service by helping them understand and meet their tax responsibilities and by applying the tax law with integrity and fairness to all.
# Table of Contents

1. Introduction and General Information
   1.1 What is Modernized e-File (MeF)? .......................................................... 1
   1.2 Using Publication 4163 ............................................................................ 1
   1.3 General Information .............................................................................. 1
   1.4 Authorized IRS e-File Providers ............................................................. 1
      1.4.1 Electronic Filing Identification Numbers (EFINs), Electronic Transmitter Identification Numbers (ETINs), and Passwords .............................................. 2
      1.4.2 Electronic Return Originator .................................................................. 2
      1.4.3 Transmitter .......................................................................................... 3
      1.4.4 Software Developer ............................................................................ 4
      1.4.5 Online Provider .................................................................................. 5
      1.4.6 Intermediate Service Provider ............................................................ 5
      1.4.7 Reporting Agent ................................................................................ 6
      1.4.8 Large Taxpayer .................................................................................. 6
   1.5 Communicating with IRS ......................................................................... 6
      1.5.1 MeF Status Page ................................................................................ 7
      1.5.2 Helpful Publications and Information ................................................. 8
   1.6 Overview and Benefits of MeF ................................................................. 10
   1.7 New for Processing Year 2022 ............................................................... 11
      1.7.1 Forms ............................................................................................... 11
      1.7.2 Schema Updates .............................................................................. 12
   1.8 Forms for Processing Year 2022 ............................................................ 12
      1.8.1 Corporation Returns .......................................................................... 12
      1.8.2 Employment Tax Returns ................................................................. 12
1.8.3 Estate and Trust Returns ........................................................................................................12
1.8.4 Excise Tax and e-filing Compliance Returns (ETEC) ..........................................................12
1.8.5 Extension Applications ........................................................................................................13
1.8.6 Partnership Return .............................................................................................................13
1.8.7 Tax Exempt/Government Entity (TEGE) Returns ...............................................................13
1.9 Preparer Tax Identification Number (PTIN) Procedures ........................................................13
1.10 Tax Relief in Disaster Situations .........................................................................................13
1.11 The Requirement to e-File ..................................................................................................14
1.11.1 Large Business and International (LB&I) Corporations ..................................................14
1.11.2 Employment Tax Returns ...............................................................................................14
1.11.3 Estates and Trusts ............................................................................................................14
1.11.4 Excise Tax Returns ..........................................................................................................14
1.11.5 Partnerships ....................................................................................................................15
1.11.6 Tax Exempt/Government Entities (TEGE) ....................................................................15

2 MeF Rules and Requirements ................................................................................................16
2.1 Participating in the IRS e-File Program .................................................................................16
2.2 Maintaining Your IRS e-File Application .............................................................................17
2.3 Adherence to MeF Rules ......................................................................................................18
2.4 Protecting Taxpayer Information: Gramm-Leach-Bliley Act of 1999 and Federal Trade Commission Rules .....................................................................................................................18
2.5 Safeguarding MeF Data from Fraud and Abuse .................................................................19
2.5.1 Safeguarding Taxpayer Information .................................................................................19
2.5.2 Safeguarding Against Fraud and Abuse ..........................................................................19
2.6 Disclosure of Tax Return Information ..................................................................................20
2.7 Submitting a Timely-Filed Electronic Tax Return .............................................................20
2.8 Preparer Penalties ...............................................................................................................20
2.9 Paperwork Reduction Act Notice .......................................................................................21
2.10 Provider Responsibilities in Obtaining, Handling, and Processing Return Information ....21
2.10.1 Making Substantive Changes to the Return .........................................................22
2.10.2 Providing a Copy of the Return to the Taxpayer .............................................22

3 MeF Information Applicable to All Form Types ......................................................22
3.1 Preparing Your Return ..........................................................................................22
3.2 Validating Your Return ..........................................................................................23
3.3 Return/Extension Due Date Tables .......................................................................23
3.4 Short Period Returns for Corporate, Partnership and Estate and Trust Tax Returns ........24
  3.4.1 Current Year Software is Available ................................................................24
  3.4.2 Current Year Software is Not Available ..........................................................24
  3.4.3 Valid Reasons for Forms 1041 Short Period Returns ..................................25
  3.4.4 Valid Reasons for Forms 1120 or 1120-F Short Period Returns ...................25
  3.4.5 Valid Reasons for Form 1120-S Short Period Returns ..................................26
  3.4.6 Forms 1065 Technical Termination Returns ..................................................26
3.5 Superseding and Amended Returns ......................................................................26
  3.5.1 Superseding Returns .......................................................................................27
  3.5.2 Amended Returns ............................................................................................28
  3.5.3 Form 2290 VIN Correction .............................................................................29
3.6 Signing an Electronic Return ................................................................................30
  3.6.1 Practitioner Personal Identification Number (PIN) Signature Method—Form 8879 .....30
  3.6.2 Form 1041 Multiple Tax Return Listing (MTRL) ........................................32
  3.6.3 Scanned Form 8453 Signature Method ............................................................32
  3.6.4 Reporting Agents Personal Identification Number (PIN) Signature Method—Form 8655 .....34
  3.6.5 94x On-Line e-Filer Signature Method (IRS Authorized Signer) ......................35
3.7 Applications for Extension of Time to File—Forms 7004 and 8868 .........................36
3.8 Other Forms and Elections Requiring Signatures .................................................36
  3.8.1 Signature Requirements for Elections ...............................................................37
3.9 Attaching Portable Document Format Files .........................................................37
3.10 Special Instructions for Supporting Data Required by Form 8865 ..........................37
3.11 Name Controls .............................................................................................................................. 37
  3.11.1 Form 1041 Name Control Information .................................................................................... 41

Note: When reading this Publication “We” refers to the IRS, while “You” refers to the reader.
1 Introduction and General Information

1.1 What is Modernized e-File (MeF)?
MeF is an important component of IRS re-engineering efforts to improve service, enhance enforcement, modernize technology, and work processes. It is an Internet-based system that uses standardized Extensible Mark-Up Language (XML) constructs, which provide certain businesses the capability to electronically file. MeF processes the following business forms: 720, 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944, 945, 94x On-Line Signature PIN Registration, 990, 990-EZ, 990-N, 990-PF, 990-T, 1041, 1065, 1120, 1120-F, 1120-POL, 1120-S, 2290, 4720, 7004, 8849, and 8868. Additionally, forms supported by MeF can be found at Modernized e-File (MeF) Forms on IRS.gov.

1.2 Using Publication 4163
This document addresses Tax Years 2019, 2020, 2021 and some Tax Year (TY) 2022 business returns filed during Processing Year (PY) 2022. Publication 4163 provides Authorized IRS e-file Providers (Providers) and Large Taxpayers with specific requirements and procedures for electronic filing through the MeF system. E-file instructions for Large Taxpayers filing their own corporate income tax returns are included in Section 5 of this publication. The procedures in this publication apply to all MeF business e-file programs. All publications referenced in this document are available at Forms and Publications on IRS.gov. Be sure to check the web page frequently for updated information on e-filing through Modernized e-File (MeF) Program Information.

1.3 General Information
When a new tax form is added to the MeF platform, the form may only be filed electronically during the current and future processing years. For example, if Form ABC was added to the MeF platform during PY2021, it may only be e-filed for PY2021 and subsequent processing years. Furthermore, for any given processing year, MeF will accept returns for the most recent tax year and two prior tax years. For example, during PY2021 Form 1120 can only be e-filed for TY2021, TY2020 and TY2019.

1.4 Authorized IRS e-File Providers
Providers are firms and organizations that develop software, originate and/or transmit electronic returns to the IRS, and provide services to a multitude of taxpayer clients. The roles and responsibilities of Providers vary according to the e-file activities. A firm identifies its e-file activity by selecting the appropriate Provider Option in the IRS e-file application. Each Provider Option entails a different role and may have different responsibilities that relate specifically to the e-file activity. For example, an Electronic Return Originator (ERO) may also be a Transmitter. Providers must adhere to all IRS e-file rules and requirements applicable to their multiple e-file roles. The following details the roles and responsibilities of each Provider Option.
1.4.1 **Electronic Filing Identification Numbers (EFINs), Electronic Transmitter Identification Numbers (ETINs), and Passwords**

All Providers must protect their EFINs, ETINs, and passwords from unauthorized use. Providers must never share the numbers and passwords with others. A Transmitter must not transfer its EFIN or ETIN by sale, merger, loan, gift, or any other transaction to another entity. If the IRS learns that a Provider’s EFIN or ETIN is compromised, the IRS changes the number and notifies the Provider by mailing a new acceptance letter to the Provider. See Publication 3112, *IRS e-file Application and Participation* for additional information.

1.4.2 **Electronic Return Originator**

The ERO is the Provider who originates the electronic submission and usually the first point of contact for most taxpayers filing a return using IRS e-file. See *Publication 3112* and *Revenue Procedure (Rev. Proc.) 2007-40, Internal Revenue Bulletin (IRB) 2007-26* for additional information. Rev. Proc. 2007-40 informs Providers of their obligations to the IRS, taxpayers, and other participants in the IRS e-file Program, and combines the rules governing IRS e-file.

1.4.2.1 **ERO Responsibilities**

Origination of an Electronic Return: Although an ERO may also engage in return preparation, the activity is separate and distinct from the origination of the electronic submission of the return to the IRS. An ERO originates the electronic submission of a return after the taxpayer authorizes the filing of the return via IRS e-file. An ERO may only originate the electronic submission of returns that the ERO either prepared or collected from a taxpayer. An ERO originates the electronic submission by any one of the following:

- Electronically sending the return to a Transmitter that will transmit the return to the IRS (most taxpayers use this method); or
- Directly transmitting the return to the IRS (rarely used); or
- Providing a return to an Intermediate Service Provider (ISP) for processing, prior to transmission to the IRS (rarely used).

In originating the electronic submission of a return, the ERO has a variety of responsibilities including, but not limited to:

- Timely originating the electronic submission of returns;
- Submitting required supporting paper documents to the IRS;
- Providing copies to taxpayers;
- Retaining records and making records available to the IRS;
- Accepting returns only from taxpayers and Providers; and
- Working with the taxpayer and/or the Transmitter to correct rejected returns.
If the taxpayer chooses not to have the electronic portion of a return corrected and re-transmitted to the IRS or if the electronic portion of a return cannot be accepted for processing by the IRS, the taxpayer must file a paper return. See Section 3.20, Transmission Perfection Period for detailed instructions about filing a paper return.

Taxpayers required to e-file their return under Treasury Decision (T.D.) 9363 or Section 1224 of the Taxpayer Relief Act of 1997 must contact the e-help Desk for authorization to file their paper return.

1.4.3  Transmitter
A Transmitter sends the electronic return data directly to the IRS. EROs may apply to be Transmitters and transmit return data, or may contract with an accepted third-party Transmitter to transmit the data.

1.4.3.1  Transmitter Responsibilities
A Provider participating in MeF as a Transmitter has a variety of responsibilities that include, but are not limited to:

- Conducting a one-time communication test: no further testing is required as additional forms are added to MeF. This applies to MeF Transmitters using Software Developers’ software to prepare and transmit returns;
- Transmitting all electronic portions of returns to the IRS within three calendar days of receipt;
- Retrieving the acknowledgement file within two business days of transmission;
- Matching the acknowledgement file to the original transmission file and sending, or making available, the acknowledgement file to the ERO, ISP, or Large Taxpayer for all rejected and accepted returns, within two business days of retrieval;
- Retaining an acknowledgement file received from the IRS until the end of the calendar year in which the electronic return was filed, or, for fiscal year filers, for nine (9) months after the transmission date, whichever is later;
- Immediately contacting the IRS e-help Desk toll-free number 1-866-255-0654 for further instructions if an acknowledgement has not been received within 24 hours of transmission;
- Working with the ERO or Large Taxpayer to promptly correct any transmission error that caused an electronic transmission to be rejected;
- Contacting the IRS e-help Desk toll-free number 1-866-255-0654 for assistance if the electronic portion of the return has been rejected after three transmission attempts;
- Ensuring the security of all transmitted data; and
• Ensuring against the unauthorized use of its EFIN or ETIN. A Transmitter must not transfer its EFIN or ETIN by sale, merger, loan, gift, or any other transaction to another entity.

The Transmitter must notify the ERO, ISP, or taxpayer of the following:

**Accepted Returns**

• Date the return was accepted

**Rejected Returns**

• Date the return was rejected;
• Business Rule(s) explaining why the return rejected;
• Steps the ERO or taxpayer need to take to correct any errors that caused the reject.

1.4.4 **Software Developer**

A Software Developer creates software that formats electronic return information according to IRS e-file specifications and/or transmits electronic return information directly to the IRS. IRS e-file specifications are found in **Publication 4164, Modernized e-File (MeF) Guide for Software Developers and Transmitters**. Additional resources, such as the Automated Enrollment (AE) External User Guide, MeF Submission Composition Guide and MeF State and Trading Partners Reference Guide can be found on the **Modernized e-File (MeF) User Guides and Publications** page.

Software Developers must pass the Assurance Testing System (ATS). If a Provider is a Software Developer whose only role in IRS e-file is software development, the Principals and Responsible Officials need not pass a suitability check during the application process. However, if a Software Developer performs the function of any provider options in addition to software development, then suitability checks will apply.

Software Developers are not required to retest when new Schemas, either major or minor, are released. However, retesting using the ATS system is strongly recommended when updating software with Schema changes.

1.4.4.1 **Software Developer Responsibilities**

A Software Developer has a variety of responsibilities that include, but are not limited to:

• Adhering to specifications provided in official IRS publications;
• Ensuring its software creates accurate electronic returns;
• Promptly correcting all software errors that cause tax returns to reject; and
• Distributing the corrections to all affected parties.
1.4.5 **Online Provider**
An Online Provider transmits business income tax return information prepared by a taxpayer using commercially purchased software or software provided by an Internet site.

1.4.5.1 **Online Provider Responsibilities**
An Online Provider has a variety of responsibilities that include, but are not limited to:

- Ensuring the use of an EFIN or ETIN obtained for online filing;
- Ensuring the EFIN of the ISP is included in the electronic return data when applicable;
- Transmitting online returns electronically to the IRS;
- Notifying the taxpayer of the status of a return by:
  - Sending an electronic transmission to the taxpayer or the ISP, when applicable, within two business days of retrieving the acknowledgment file from the IRS, or
  - Mailing a written notification to the taxpayer within one business day of retrieving the acknowledgment file;
- Providing the Internet Protocol (IP) information, which consists of the IP Address, IP Date, IP Time and IP Time Zone;
- Entering into agreements with companies to allow access to online filing only if the company correctly captures the IP Address of the computer submitting the return and the date, time, and time zone of the computer receiving it; and
- Including the Originator Type “Online Filer” in the Return Header.

1.4.6 **Intermediate Service Provider**
An ISP assists with processing return information between an ERO, or the taxpayer in the case of Online Filer, and a Transmitter.

1.4.6.1 **ISP Responsibilities**
An ISP has a variety of responsibilities that include, but are not limited to:

- Including its EFIN and the ERO’s EFIN with all return information forwarded to a Transmitter;
- Serving as a contact point between its client ERO and the IRS, if requested;
- Providing the IRS with a list of each client ERO, if requested; and
- Adhering to all applicable rules that apply to Transmitters.
1.4.7 Reporting Agent

A Reporting Agent originates the electronic submission of certain returns for its clients, and/or transmits the returns to the IRS. A Reporting Agent must be an accounting service, franchiser, bank, or other entity that complies with Rev. Proc. 2012-32, IRB 2012-34, and is authorized to perform one or more of the acts listed in Rev. Proc. 2012-32 on behalf of a taxpayer. Reporting Agents must submit Form 8655, Reporting Agent Authorization to the IRS prior to updating or submitting an IRS e-file application.

1.4.8 Large Taxpayer

Large Corporations should carefully read Section 5 of this publication for specific information. A Large Taxpayer is also a Provider Option on the IRS e-file Application, but it is not a Provider. The creation of an IRS e-file Application for Large Taxpayers is different from the Authorized IRS e-file Providers Application.

Note: Large Taxpayers can now include their 94x employment tax returns when electronically filing, using Form 8453-EMP Signature method only.

For purposes of electronic filing, the IRS defines a Large Taxpayer as a business or other entity (excluding partnerships) with assets of $10 million or more, or a partnership with more than 100 partners (asset criteria does not apply to partnerships), which originates the electronic submission of its own return(s).

1.5 Communicating with IRS

The following IRS e-file information resources are available to Providers.

The IRS e-help Desk assists in support of MeF software and communication testing for corporate, partnership, estates and trusts, employment, excise, and tax-exempt returns throughout the filing season. The e-help Desk also assists with e-Services Secure Access registration and the IRS e-file application processes. Contact the e-help Desk at 1-866-255-0654 or if outside the U.S. and U.S. Territories 1-512-416-7750. You may also contact the e-help Desk with comments or suggestions regarding Publication 4163 or if you have technical questions regarding the e-filing of Forms 720, 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944, 94x On-Line Signature PIN Registration, 945, 990, 990-EZ, 990-N, 990-PF, 990-T, 1041, 1065, 1120, 1120-F, 1120-POL, 1120-S, 2290, 4720, 7004, 8849 and/or the 8868.
1.5.1 MeF Status Page
The MeF Status page provides information on:

- Current system status including Production and ATS
- System maintenance
- Unplanned system interruptions and processing delays

MeF uses QuickAlerts, an IRS email service, to disseminate information quickly regarding MeF issues to subscribers. This service keeps tax professionals up to date on MeF issues throughout the year.

Subscribers receive round-the-clock communications about issues such as processing delays, program updates, and early notification of seminars and conferences. New subscribers may sign up through the subscription page link located on the QuickAlerts “More” e-file Benefits for Tax Professionals page.

The subject line of QuickAlerts will usually identify targeted providers such as Software Developers and Transmitters, and/or EROs as well as the targeted taxpayer type, either individual or business e-file.

For additional information and assistance on MeF and forms and publications, refer to Table 1–1.

### 1.6 Overview and Benefits of MeF

The MeF system was developed to provide a standardized format using the widely accepted XML format and standardized transmission methods for e-filed returns. IRS works regularly with stakeholders, including accounting firms, practitioners, Software Developers, and the states, to identify and resolve issues relative to MeF return and downstream processing. MeF also provides:

- **More explicit error conditions**: Plain English explanations in the Acknowledgement File pinpoint the location of the error(s) in the return and provide complete information.
- **Faster acknowledgements**: Transmissions are processed upon receipt and acknowledgments are returned in near real-time.
- **Integrated refund and payment options**: Refunds can be electronically deposited in bank accounts or balance due payments can be electronically___

- **The capability to attach supporting forms and schedules:** Forms 720, 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944, 94x On-Line Signature PIN Registration, 945, 990, 990-EZ, 990-N, 990-PF, 990-T, 1041, 1065, 1120, 1120-F, 1120-S, 1120-POL, 2290, 4720, 7004, 8868, 8849, and their supporting forms and schedules can be e-filed in MeF. See each form family’s Schemas and Business Rules page at IRS.gov for tax year accepted forms and schedules.

- **24/7 transmissions:** MeF allows Transmitters to send transmissions to the IRS year-round, except for a short cutover period at the end of the calendar year.

- **A completely paperless process:** Taxpayers using a third-party practitioner can use the Practitioner Personal Identification Number (PIN) option; see Section 3.6.

- **Signing an Electronic Return:** Forms 8453-C, 8453-S, 8453-I, 8453-PE, 8453-B, 8453-EX, 8453-EO, 8453-EMP, and 8453-FE can be printed, signed by the Corporate Officer, Principal, or Fiduciary and (when applicable), the ERO and/or Paid Preparer, and then scanned and attached to the return as a Portable Document Format (PDF) file. **Form 8655** is used by Reporting Agents to sign and file certain returns electronically. All other attachments for which XML Schemas have not been developed can be attached as PDF files.

- **Support for filing prior-year returns:** MeF can process the current and two previous years of returns. For PY2022, taxpayers can e-file returns for TY2021, TY2020, TY2019, and for some TY2022 returns.

### 1.7 New for Processing Year 2022

#### 1.7.1 Forms

Beginning in PY2022, new XML forms include:

- Form 990T
- Form 1040 Sch LEP
- Form 1040NR Sch A
- Form 1040NR Sch OI
- Form 1040NR Sch NEC
- Form 4720

No longer available in XML forms include:

- Form 965 Schedules A, B, C, D, E, G
1.7.2 **Schema Updates**

1.7.2.1 **Form 1120-S Schedule K-1**
An amended K-1 indicator (AmendedK1Ind) has been added to the Form 1120-S Schedule K-1 schema for TY2020.

1.8 **Forms for Processing Year 2021**
MeF can process all the following parent forms in XML. Check [IRS.gov](https://irs.gov) for the exact date MeF will begin processing. A complete listing of forms, including new forms, that MeF accepts can be found at [IRS.gov/mef](https://irs.gov/mef) on each form family’s Schemas and Business Rules page.

1.8.1 **Corporation Returns**
- **Form 1120**, *U.S. Corporation Income Tax Return*
- **Form 1120-F**, *U.S. Income Tax Return of a Foreign Corporation*
- **Form 1120-S**, *U.S. Income Tax Return for an S Corporation*

1.8.2 **Employment Tax Returns**
- **Form 94x On-Line Signature PIN Registration**
- **Form 940**, *Employer’s Annual Federal Unemployment (FUTA) Tax Return*
- **Form 940-PR**, *Planilla para la Declaración Federal Anual del Patrono de la Contribución Federal para el Desempleo (FUTA)*
- **Form 941**, *Employer’s QUARTERLY Federal Tax Return*
- **Form 941-PR**, *Planilla para la Declaración Federal TRIMESTRAL del Patrono*
- **Form 941-SS**, *Employer’s QUARTERLY Federal Tax Return (American Samoa, Guam, the Commonwealth of Northern Mariana Islands, and the U.S. Virgin Islands)*
- **Form 943**, *Employer’s Annual Federal Tax Return for Agricultural Employees*
- **Form 943-PR**, *Planilla para la Declaración Anual de la Contribución Federal del Patrono de Empleados Agrícolas*
- **Form 944**, *Employer’s ANNUAL Federal Tax Return*
- **Form 945**, *Annual Return of Withheld Federal Income Tax*

1.8.3 **Estate and Trust Returns**
- **Form 1041**, *U.S. Income Tax Return for Estates and Trusts*

1.8.4 **Excise Tax and e-filing Compliance Returns (ETEC)**
- **Form 2290**, *Heavy Highway Vehicle Use Tax Return*
- **Form 720**, *Quarterly Federal Excise Tax Return*
• **Form 8849**, *Claim for Refund of Excise Taxes* (All Schedules available)

**1.8.5 Extension Applications**

• **Form 7004**, *Application for Automatic Extension of Time To File Certain Business Income Tax, Information, and Other Returns*

• **Form 8868**, *Application for Extension of Time To File an Exempt Organization Return*

**1.8.6 Partnership Return**

• **Form 1065**, *U.S. Return of Partnership Income*

**1.8.7 Tax Exempt/Government Entity (TEGE) Returns**

• **Form 990**, *Return of Organization Exempt From Income Tax*

• **Form 990-EZ**, *Short Form Return of Organization Exempt From Income Tax*

• **Form 990-N**, *Electronic Notice (e-Postcard) for Tax-Exempt Organizations Not Required To File Form 990 or 990-EZ*

• **Form 990-PF**, *Return of Private Foundation or Section 4947(a)(1) Trust Treated as Private Foundation*

• **Form 990-T**, *Exempt Organization Business Income Tax Return (and proxy tax under section 6033(e))*

• **Form 1120-POL**, *U.S. Income Tax Return for Certain Political Organizations*

• **Form 4720**, *Return for Certain Excise Taxes Under Chapters 41 and 42 of the Internal Revenue Code.*

**1.9 Preparer Tax Identification Number (PTIN) Procedures**

All paid preparers must have a PTIN before preparing returns. Also, all enrolled agents are required to have a PTIN.

All PTINs expire on December 31 of each year. PTIN renewal open season begins approximately October 16 each year for the following year.

The fees for processing a new or renewed PTIN application are no longer charged.

Additional information on the PTIN process can be found on IRS.gov.

**1.10 Tax Relief in Disaster Situations**

Special tax provisions may help businesses recover financially from the impact of disasters. For additional information, please access Disaster Assistance.
1.11 **The Requirement to e-File**

While millions of taxpayers e-file voluntarily, certain corporations, partnerships, employment tax, and tax-exempt organizations are required to e-file. In the past several years, the Department of the Treasury issued regulations requiring certain entities to e-file. Complete regulations and the history of the requirement to e-file can be found on the [IRS.gov](https://www.irs.gov) website at the following links.

1.11.1 **Large Business and International (LB&I) Corporations**

1.11.1.1 **Form 1120-F Foreign Corporations**

T.D. 9363 provides authorization to extend the requirement to e-file for certain corporations, including Form 1120-F. For tax years ending on or after December 31, 2008, foreign corporations who file Form 1120-F and meet the T.D. 9363 criteria are required to e-file their return(s). Be sure to check the [IRS.gov](https://www.irs.gov) website for the latest information on the requirement to e-file this form.

1.11.2 **Employment Tax Returns**

1.11.2.1 **Forms 94x filers**

The Tax Increase Prevention Act of 2014 (Pub. L. 113–295) requires approved Certified Professional Employer Organizations (CPEOs) to file Form 940, Form 941 and Form 943, along with all required schedules, including Schedule R (Allocation Schedule for Aggregate Filers) electronically, unless granted a waiver. The IRS began accepting applications for CPEO certification on July 1, 2016. The CPEO program is a voluntary program; a person that does not wish to file these forms electronically is not obligated to apply for or obtain certification as a CPEO. Although, this is a voluntary program, once certification is obtained as a CPEO the consequence of any failure to file these forms and associated schedules electronically is the potential suspension or revocation of certification as a CPEO. For additional information on CPEOs and how to request a waiver from electronic filing requirements, go to [IRS.gov/CPEO](https://www.irs.gov/CPEO) and Rev. Proc. 2017-14.

1.11.3 **Estates and Trusts**

Any tax preparer who anticipates preparing and filing 11 or more Forms 1040, 1040A, 1040EZ and 1041 during a calendar year must use IRS e-file. Section 6011(e)(3) of the Internal Revenue Code requires specified tax return preparers to electronically file certain federal income tax returns that they prepare and file for individuals, trusts or estates. Final Regulations provide further guidance on this requirement. See T.D. 9518. See also [Modernized e-File (MeF) Program Information](https://www.irs.gov) on [IRS.gov](https://www.irs.gov).

1.11.4 **Excise Tax Returns**

The American Jobs Creation Act statutorily requires that any taxpayer who files a Form 2290 with respect to 25 or more vehicles for any taxable period shall file such returns electronically.
Note: Corporations, partnerships, or tax-exempt organizations not meeting the criteria set out for their particular form in T.D. 9363 and the Taxpayer Relief Act of 1997, Section 1224 (December 31, 2000), and American Jobs Creation Act (October 2004) are excluded from the requirement to e-file. However, these entities are encouraged to e-file voluntarily.

1.11.5 Partnerships

Treasury Regulations Section 301.6011-3(a) provides that if a partnership with more than 100 partners is required to file a partnership return, the information required by the applicable forms and schedules must be filed electronically, unless a waiver from the electronic filing requirement has been granted. Returns filed electronically must be prepared in accordance with applicable revenue procedures or publications. Announcement 2002-3 excludes Fiscal Year filers for TY2001 only.

1.11.6 Tax Exempt/Government Entities (TEGE)

Required e-filing of Forms 990, 990-EZ, 990-PF, 990-T, and 4720 for tax years beginning after July 1, 2019—The Taxpayer First Act, enacted July 1, 2019, requires tax-exempt organizations to electronically file information returns and related forms. The new law affects tax-exempt organizations in tax years beginning after July 1, 2019.

- Transition of Form 990-EZ

For small exempt organizations, the legislation specifically allowed a postponement ("transitional relief"). For tax years ending before July 31, 2022, the IRS will accept either paper or electronic filing of Form 990-EZ, Short Form Return of Organization Exempt from Income Tax. For tax years ending July 31, 2022, and later, Forms 990-EZ must be filed electronically.

- Forms 990 & 990-PF

Forms 990, Return of Organization Exempt from Income Tax, and 990-PF, Return of Private Foundation or Section 4947(a)(1) Trust Treated as Private Foundation, for tax years ending July 31, 2021 and later MUST be filed electronically.

- Form 990-T

Form 990-T, Exempt Organization Business Income Tax Return, for tax years ending December 2021 and later with a due date on or after April 15, 2022, MUST be filed electronically and not on paper. A limited exception applies for 2021 Form 990-T returns submitted on paper that bear a postmark date on or before March 15, 2022.

- Form 4720

Notice 2021-01 provides that, while subject to a delay, private foundations must electronically file Form 4720, Return of Certain Excise Taxes Under Chapters 41 and 42 of the Internal Revenue Code, as required by Section 3101 of the Taxpayer First Act of 2019 (Pub. L. No. 116-25), which amended Section 6033 of the Internal Revenue Code.
Private foundations may no longer rely on Treas. Reg. § 53.6011-1(c) as a result of this electronic filing mandate.

**Required e-filing of Forms 990 and 990-PF for certain large tax-exempt organizations for tax years beginning before July 1, 2019**—For tax years ending on or after December 31, 2006, exempt organizations with $10 million or more in total assets may be required to e-file if the organization files at least 250 returns in a calendar year, including income, excise, employment tax and information returns. Private foundations and non-exempt charitable trusts are required to file Forms 990-PF electronically regardless of their asset size, if they file at least 250 returns annually. The electronic filing requirement does not apply to Form 8868. Form 8868, *Application for Extension of Time To File an Exempt Organization Return*, can be filed electronically or in paper format.

**Annual Electronic Filing Requirement for Small Exempt Organizations, Form 990-N (e-Postcard)**—Most small tax-exempt organizations whose annual gross receipts are normally $50,000 or less ($25,000 for tax years ending after December 31, 2007 and before December 31, 2010) are required to electronically submit Form 990-N, also known as the e-Postcard, unless they choose to file a complete Form 990 or Form 990- EZ instead.

There is no requirement to file Form 1120-POL electronically (e-file).

## 2 MeF Rules and Requirements

### 2.1 Participating in the IRS e-File Program

To begin e-filing tax returns or developing tax preparation software for the submission of returns to the IRS, you must apply and be accepted as a Provider.

To apply for IRS e-file, you must first register with e-Services. Registration for e-services allows individuals to conduct business electronically with the IRS. To register for e-Services, follow the guidance in Section 5.4.1, Register with E-Services.

Applications to become an IRS e-file Provider must be submitted online. The IRS no longer accept paper e-file applications.

Once you have successfully registered, you will need to complete an online IRS e-file application for your business location. **Section 1.4** of this publication and **Publication 3112**, explain the different types of provider options as well as the roles and responsibilities of being a Provider. They also include information on passing suitability and other requirements.

**Note**: Software Developers with no other provider options (ERO, Transmitter, and so on) are not required to undergo suitability.
We recommend you complete the e-Services Secure Access registration and IRS e-file Application process at least 45 days before you plan to e-file any returns. IRS also recommends that you have at least two Responsible Officials for back-up purposes.

To transmit returns directly to IRS, all providers must designate one or more representatives on the IRS e-file application as their MeF Internet Transmitter (IFA) and/or MeF System Enroller (A2A).

Section 5 of this publication provides details for Large Taxpayers who electronically file their own income tax return. For purposes of electronic filing, the IRS defines a Large Taxpayer as a business or other entity (excluding partnerships) with assets of $10 million or more, or a partnership with more than 100 partners (asset criteria does not apply to partnerships), which originates the electronic submission of its own return(s).

### 2.2 Maintaining Your IRS e-File Application

Important information on maintaining your IRS e-file Application:

1. **Form Types**: IRS e-file applications must be current. The system will prompt for all the forms available to transmit during the year based on the provider options selected. To avoid having returns reject because of an incorrect form type, IRS e-file Applications must be kept up to date. Please be aware of all the forms that each family includes (for example, the 1120 family includes 1120, 1120-S, and 1120-F).

2. **Maintain your IRS e-file Application**: Update your IRS e-file application to remove any Principal, Responsible Official or Delegated User who no longer works with your organization and who is no longer assigned the designated responsibility on the application. Also ensure your business and/or mailing address is updated on your IRS e-file application.

3. **Maintain Active Secure Access Authentication**: You must have an active Secure Access Authentication account to maintain your IRS e-file application. IRS recommends that you have at least **two** Responsible Officials to ensure access to your e-file application.

You should keep all other information (for example, addresses, phone numbers) on the application current to avoid having your ETIN/EFIN disabled.
2.3 **Adherence to MeF Rules**

All providers must adhere to IRS e-file rules and requirements to continue participation in IRS e-file. Certain requirements are included in Rev. Proc. 2007-40, IRB 2007-26, which was published on June 25, 2007, and supersedes Rev. Proc. 2005-60 (2005-35 IRB 449). Adherence to all rules and requirements, regardless of where published, is expected of all providers. Some rules and requirements are specific to the activities performed by the Provider and included in appropriate parts of this publication. The following list of requirements, while not all-inclusive, applies to all Providers of corporate income tax returns, tax-exempt organization returns, excise returns, partnership returns, estate and trust returns, and employment returns. These rules do not apply to Software Developers who do not engage in any IRS e-file activity other than software development, such as transmitting returns. **Authorized IRS e-file Providers requirements:**

- Maintain an acceptable cumulative error or reject rate;
- Adhere to the requirements for ensuring that tax returns are properly signed;
- Include the ERO’s EFIN as the return EFIN for returns the ERO submits to an ISP or Transmitter;
- Include the ISP’s EFIN in the designated ISP field in the electronic return record; and
- Submit an electronic return to the IRS with information that is identical to the information provided to the taxpayer.

2.4 **Protecting Taxpayer Information: Gramm-Leach-Bliley Act of 1999 and Federal Trade Commission Rules**

Title V of the Gramm-Leach-Bliley Act (GLB Act) of 1999 established the policy stating that “financial institutions” have an obligation to respect the privacy of and protect the security and confidentiality of their customers' nonpublic personal information. Financial institutions are defined in GLB Act—15 USC Subchapter II, as “any institution engaged in the business of providing financial services to customers who maintain a credit, deposit, trust, or other financial account or relationship with the institution,” and are significantly engaged in financial activities. Financial institutions include tax preparation firms as well as their affiliates. Refer to 16 CFR 313.2 and 313.3 for more information on the definition of financial institutions.

The GLB Act directed the Federal Trade Commission (FTC) to establish the Financial Privacy Rule and the Safeguards Rule. The Financial Privacy Rule requires companies to give consumers privacy notices that explain the institutions' information-sharing practices. In turn, consumers have the right to limit some—but not all—sharing of their information. The Safeguards Rule requires financial institutions under FTC jurisdiction to have measures in place, such as a written information security plan, to keep customer information secure. The Safeguards Rule also applies to recipients of and service providers to financial institutions. Thus, tax preparation firms that collect nonpublic...
personal information from customers have an obligation to make sure that their service providers safeguard the information.

FTC advises, “The Financial Privacy Rule does not supersede the restrictions in Section 7216. The GLB Act and the Agencies’ implementing regulations do not authorize a ‘financial institution’ to disclose nonpublic personal information in a way that is prohibited by some other law. Therefore, you [financial institutions] may not avoid the restrictions of Section 7216 by providing customers with an opt-out notice and a reasonable opportunity to opt out.”

The GLB Act, the Financial Privacy Rule and the Safeguards Rule cover volunteer tax assistance services. The Financial Privacy Rule does not apply to businesses such as Payroll Service Providers whose customers are other businesses and not individual consumers.

For additional information please visit the Federal Trade Commission website where you can find documents, guidance, and useful information about the GLB Act, the Financial Privacy Rule and the Safeguards Rule.

2.5 Safeguarding MeF Data from Fraud and Abuse

2.5.1 Safeguarding Taxpayer Information

IRS Publication 4557, Safeguarding Taxpayer Data: A Guide for Your Business provides guidance on federal and state information security laws and regulations, as well as industry standards and best practices. Providers should read this publication to ensure they are handling taxpayer data in the manner prescribed by law.

If you have any comments on Publication 4557, please send an email to Safeguard.data.tp@irs.gov.

2.5.2 Safeguarding Against Fraud and Abuse

A potentially abusive return is a return the taxpayer is required to file but contains inaccurate information that may lead to an understatement of a liability or the overstatement of a credit resulting in a refund to which the taxpayer may not be entitled.

Neither the IRS nor Providers benefit when fraud or allegations of abuse tarnish the integrity and reputation of IRS e-file. Safeguarding of IRS e-file from fraud and abuse is the shared responsibility of the IRS and Providers. Providers must be diligent in recognizing and preventing fraud and abuse in IRS e-file.

Each Principal, Responsible Official and Delegated User is responsible for ensuring they conform to IRS e-file rules and requirements. Providers with problems involving fraud and abuse may be suspended or expelled from the IRS e-file program, may be assessed civil and preparer penalties, or may be subject to legal action.
To learn about the integrity of MeF data and security during transmission of MeF returns over the Internet access the Security During Transmission of MeF Returns Using the Internet page.

2.6 Disclosure of Tax Return Information

Under 26 CFR § 301.7216, disclosure of tax return information among Providers for the purpose of preparing a tax return is permissible. For example, an ERO may pass on tax return information to an ISP and/or a Transmitter for the purpose of having an electronic return formatted and/or transmitted to the IRS. However, if the tax return information is disclosed or used in any other way, an ISP and/or a Transmitter may be subject to the penalties described in § 301.7216 and/or the civil penalties in Internal Revenue Code (IRC) § 6713 for unauthorized disclosure or use of tax return information.

2.7 Submitting a TimelyFiled Electronic Tax Return

All prescribed due dates for filing paper income tax returns apply to electronic returns. All Providers must ensure that returns or applications for extensions of time to file are timely processed. See Section 3.28 for information concerning Electronic Postmarks.

An electronically filed return is not considered filed until the electronic portion of the tax return has been acknowledged by the IRS as “accepted” for processing. To be accepted, all e-filed returns must have a signature—either an attached PDF signature document (Form 8453 series), through use of the Practitioner PIN method (Form 8879 series), via the Reporting Agent PIN method for 94x family of forms (Form 8655), or through the 94x On-Line Signature PIN Method. See Section 3.6 for more information.

Transmitters may provide electronic postmarks to taxpayers if the Transmitters adhere to the requirements in Section 3.28 of this publication. The receipt of an electronic postmark will provide taxpayers with confidence that they have filed their return timely. All requirements for signing the return, as well as resubmitting a rejected timely filed return, must be adhered to, for the electronic postmark to be considered the date of filing.

2.8 Preparer Penalties

Preparer penalties may be asserted against an individual or firm meeting the definition of an income tax preparer under IRC § 7701(a)(36) and IRC § 301.7701-15. Preparer penalties may be asserted under appropriate circumstances include, but are not limited to, those set forth in IRC § 6694, 6695, and 6713.

Under IRC § 301.7701-15(d), Providers are not income tax return preparers for the purpose of assessing most preparer penalties, as long as their services are limited to “typing, reproduction, or other mechanical assistance in the preparation of a return or claim for refund.” If an ERO, ISP, Transmitter, or the tax preparation product of a Software Developer alters the return information in a non-substantive way, this alteration will be considered to come under the “mechanical assistance” exception.
described in IRC § 301.7701-15(d). A non-substantive change is a correction or change limited to a transposition error, misplaced entry, spelling error, or arithmetic correction.

If an ERO, ISP, Transmitter, or the tax preparation product of a Software Developer alters the return in a way that does not come under the “mechanical assistance” exception, the Provider may be considered “income preparers” for purposes of asserting income tax return preparer penalties. See IRC § 301.7701-15; Rev. Rul. 85-189, 1985-2 C.B. 341 which describes a situation in which the Software Developer was determined to be an income tax return preparer and subject to certain preparer penalties.

In addition to the above-specified provisions, the IRS reserves the right to assert all appropriate preparer and non-preparer penalties against a Provider as warranted. For further information about rules for tax preparers who are authorized to e-file, see Publication 3112.

2.9 Paperwork Reduction Act Notice

The collection of information contained in this publication has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act (44 U.S.C. 3507) under control number 1545-1708.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the said collection of information displays a valid control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. § 6103.

This information is required to implement IRS e-file and to enable taxpayers to file their corporate, partnership, excise, estate and trust, employment, and tax-exempt organization income tax returns electronically. The information will be used to ensure taxpayers receive accurate and essential information regarding the filing of their electronic returns and to identify the persons involved in the filing of electronic returns. The collection of information is required to retain the benefit of participating in IRS e-file. The likely respondents are business or other for-profit institutions.

2.10 Provider Responsibilities in Obtaining, Handling, and Processing Return Information

Details for those Large Taxpayers required to electronically file their own income tax return may be found in Section 5 of this publication. For purposes of electronic filing, the IRS defines a Large Taxpayer as a business or other entity (excluding partnerships) with assets of $10 million or more, or a partnership with more than 100 partners (asset criteria does not apply to partnerships), which originates the electronic submission of its own return(s).
2.10.1 **Making Substantive Changes to the Return**

An ERO who chooses to originate returns collected, but not prepared, becomes an “income tax return preparer” of the returns when, as a result of entering the data, discovers errors on the return that require substantive changes **and then makes the changes to correct those errors**. A non-substantive change is a correction limited to a transposition error, misplaced entry, spelling error, or arithmetic correction. The IRS considers all other changes substantive, and an ERO becomes a tax return preparer when these changes are made. As such, the ERO may be required to sign the tax return as the tax return preparer.

A substantive change is one in which the “Total Income” amount differs by more than $150 or the “Taxable Income” amount differs by more than $100. If the electronic return data on a corporate income tax return is changed after the taxpayer signed the jurat, the taxpayer must sign a new Form 8453 (as applicable to the form type) if there is a substantive change in the Total Income or Taxable Income.

2.10.2 **Providing a Copy of the Return to the Taxpayer**

An ERO is required to submit an electronic return to the IRS with information that is identical to the information provided by the taxpayer and provide a complete copy of the return filed with the IRS to the taxpayer. The copy given to the taxpayer may be in any media acceptable to both the taxpayer and the Provider. A complete copy of a taxpayer's return consists of the electronic portion of the return, including all schedules, forms, PDF attachments and jurats, which were filed with the IRS. The copy provided to the taxpayer must include all information submitted to the IRS to enable the taxpayer to determine what schedules, forms, electronic files, and other supporting material have been filed with the return. The copy, however, need not contain the taxpayer identification number of the Paid Preparer. The electronic portion of the return can be contained on a replica of an official form or on an unofficial form. On an unofficial form, however, data entries must be referenced to the line numbers or descriptions on an official form.

The taxpayer should be advised to retain a complete copy of the return and any supporting information. It is recommended to retain this information for a minimum of three years from the due date or extended due date of the tax return. This corresponds to the Statute of Limitations for that tax period, which is generally three years from the date the tax return is filed.

3 **MeF Information Applicable to All Form Types**

3.1 **Preparing Your Return**

Most corporations, partnerships and tax-exempt organizations have used software to prepare their returns for years. Whether you prepare your own return or have a third-party tax professional prepare it, you need to ensure that the software purchased has all
the forms and schedules necessary to file your return. Not all software providers support all forms and schedules. It is the taxpayer’s responsibility to verify the software provider chosen supports all the forms and schedules required, including the ability to file amended tax returns and/or short period returns, if necessary.

You can find Software Developers who have passed ATS on the Approved IRS e-File for Business Providers page.

3.2 Validating Your Return

Validating an e-file return involves running the diagnostics built into the software used to prepare a return. IRS provides Software Developers all the Business Rules and XML Schema requirements needed for each form and schedule to build into their software.

For TY2016 and subsequent, Schemas and Business Rules are distributed through your e-Services Secure Object Repository (SOR) Mailbox. In order to access these files, you must have an active e-Services account and be listed on an e-File application with the provider option of Software Developer or State Government Agency. Your role must be Principal, Responsible Official, or Delegated User with MeF authorities (MeF System Enroller or MeF Internet Transmitter). These mailbox messages are purged after 30 days so please make sure to download them as soon as possible. The link Instructions for accessing the SOR Mailbox were created for your use.

To ensure that the electronic return is complete and contains all required information, please follow the steps below:

1. Prepare the return using IRS-approved software that has all the forms and schedules necessary to file.

2. Check/validate the return to make sure it includes all forms, schedules, and attachments required to be filed with the return.

3. Check/validate the return to make sure it will be accepted by IRS.

4. Receive proper authorization to e-file the return.

5. Transmit the return.

When the return is transmitted to IRS, each of the XML Schema requirements and Business Rules are checked. If there are no errors, the return will be accepted. If the return fails any of the Business Rules or Schema requirements, the Transmitter receives an acknowledgement from the IRS with the error description(s). When third-party Transmitters are used, they must notify their clients of the rejection.

3.3 Return/Extension Due Date Tables

Links to the return due date and extended due date tables for each tax year can be found in each form family’s tax year Schemas and Business Rules page on IRS.gov.
### 3.4 Short Period Returns for Corporate, Partnership and Estate and Trust Tax Returns

MeF accepts short period corporate, partnership and estate and trust tax returns.

#### 3.4.1 Current Year Software is Available

When a taxpayer needs to file a short period return and the current year software is available, ensure the Tax Year in the Return Manifest and Return Header reflect the Tax Year of the Schemas being used (for example, in the current year, use TY2021). Then, enter the actual Beginning and Ending Date of the short period return (for example, 11/01/2021 – 01/31/2022).

#### 3.4.2 Current Year Software is Not Available

In certain situations, a taxpayer may need to file a short period return before their software is ready for the next tax year. For instance, at the beginning of calendar year 2022, a taxpayer may need to file a short period TY2022 return with Tax Period Beginning Date 01/01/2022 and Tax Period Ending Date 01/31/2022. Such a return would normally be filed on TY2022 software, but in this scenario, the TY2022 software may have not been developed. In this case, the taxpayer may use TY2021 software. Ensure that the Tax Year in the Return Manifest and Return Header reflect the Tax Year of the TY2021 Schema and then enter the actual Beginning and Ending Dates of the short period return (for example, 01/01/2022 - 01/31/2022). The return must reflect the laws applicable to the TY2022 return even though the Schema being used is a TY2021 Schema. When a short period corporate return is filed, regulations may require the taxpayer to attach Form 1128, Application to Adopt, Change, or Retain a Tax Year, provide an explanation of why the short period return is being filed, and/or cite the applicable revenue procedure.

**Note:** Once current year TY2022 software becomes available, it must be used to prepare the short period TY2022 return.

If you use the Form 1128, attach it to the top-level of the return as a PDF file and describe it as “Form 1128 for Short Period Return.”

If a revenue procedure is required to be cited on the tax return, then the Schema provides the ability to indicate “Pursuant to Rev. Proc. 2006-45” or “Pursuant to Rev. Proc. 2006-46.”

To prevent processing delays, a number of indicators have been added to the 1041, 1120, 1120-S and 1120-F Schemas, which include a list of valid reasons that should be used to explain why a short period return is being filed. The indicators are listed in Table 3–1.
Table 3–1: Short Period Return Indicators

<table>
<thead>
<tr>
<th>Schema</th>
<th>Indicator</th>
</tr>
</thead>
<tbody>
<tr>
<td>1041</td>
<td>ShortPeriodReason1041Ind</td>

<tr>
<td>1120-F</td>
<td>shortPeriodReason11201120FInd</td>
</tr>
<tr>
<td>1120-S</td>
<td>shortPeriodReasonCd</td>
</tr>
</tbody>
</table>

If the reason for your short period return is not on this list for Forms 1120, 1120-S or 1120-F, use the General Dependency to indicate the reason a short period return is being filed.

The General Dependency may be submitted in the General Dependency XML document or in a PDF file. Provide the regulatory citation and explanation in the GeneralDependency PDF file with the description "Short Period Return Explanation."

Note: The values transmitted in the return must be labeled precisely using one of the following values. Failure to name these items exactly as shown will cause the return to reject with a Schema error.

3.4.3 Valid Reasons for Forms 1041 Short Period Returns
- Form 1128 attached as a PDF
- IRS granted change in tax period
- Trust is changing tax period under IRC Reg. 1.442.1(c)
- Rev. Proc. 76-10
- Rev. Proc. 85-58
- Rev. Proc. 87-32
- Rev. Proc. 2006-46
- IRS Regulation 1.502-76
- Section 806 of Tax Reform Act of 1986
- Tax Period month changing to 12

3.4.4 Valid Reasons for Forms 1120 or 1120-F Short Period Returns
- National Office Grant Letter
- Filed under Rev. Proc. 2006-45 or 2006-46
- Notation referring to Section 898 (c)((1) A)
• Election Change in taxable year under Section 898 (c)(2)
• Section 1398 Election
• Second Short Year after Section 1398 Election
• Section 444 Election Terminated

3.4.5 Valid Reasons for Form 1120-S Short Period Returns
- National Office Grant Letter
- Filed Under Rev. Proc. 2006-46
- S Election termination or revocation is checked
- Statement on Qualifying Disposition under Reg. 1.1368-1(g)(2)(i)
- Statement on Termination of Shareholders Interest under Reg. 1377(a)(2) and 1.1377-(1)b
- Statement referring to S Election and taxpayer is changing to 12/31 calendar year end
- Statement the S corporation is coming out of consolidation
- Statement the corporation is a qualified sub chapter S subsidiary
- Section 444
- 1120-S, Box A contains a date which matches the Tax Period Begin Date
- Section 1398 Election
- Second Short Year after Section 1398 Election

3.4.6 Forms 1065 Technical Termination Returns
Technical Terminations do not apply for partnership taxable years beginning after 2017. For TY2017 and prior, Section 708(b)(1)(B) provides that a termination occurs where, “within a 12-month period, there is a sale or exchange of 50% or more of the total interest in partnership capital and profits.” This is known as a type B termination or technical termination. Returns should be prepared for the appropriate tax period reflecting the respective partnership interests during that time. The final return for the period prior to the change in partner interest should have the “Technical Termination” and the “Final Return” checkbox marked. A second return will also be filed to reflect the initial return of the new partner(s)’ interest(s) and should have the “Technical Termination” and the “Initial Return” checkbox marked. For further information, please see the Form 1065 instructions.

3.5 Superseding and Amended Returns
The MeF system processes both superseding and amended returns for Forms 1041, 1120, 1120-S, 1120-F, and 1065. For Forms 990, 990-EZ, 990-PF, 990-T, 1120-POL and 4720, MeF only processes amended returns. The table below indicates the form
types for which superseding and amended returns can be processed through MeF (A=amended return, S=superseding return).

If a taxpayer is or was required to e-file an original return in tax years ending on or after December 31, 2019, and the taxpayer needs to file an amended or superseding return, for that tax year, the amended or superseding return must also be e-filed.

Any taxpayer who has received an approved waiver from IRS to file on paper is exempted from this requirement. For TY2006 through TY2017, which are no longer available on MeF, if the taxpayer was previously required to e-file an original return and is now filing an amended return, they are exempt from the requirement to e-file and should file using the existing paper process. In this situation, the taxpayer is not required to request a waiver.

Partnerships who are required to file an amended return electronically for a tax year no longer supported by MeF must contact the e-help Desk at 1-866-255-0654. The taxpayer should indicate they are required to electronically file an amended return, but MeF no longer supports the tax year for which they are filing the amended return. Therefore, they are requesting a waiver from the requirement to file the amended return electronically.

**Note:** Corporate amended returns with carryback claims may be e-filed as long as the carryback claim box is checked.

3.5.1 **Superseding Returns**

A superseding return is a return filed subsequent to the originally filed return but filed within the filing period, including extensions. A superseding return must be a complete XML filing of the entire return, with all required forms, schedules and attachments (XML or PDF, if applicable).

**Note:** A “Superseding Return” checkbox is available on certain MeF business returns; however, this checkbox is not available on their paper counterparts.

Access [corporate superseding returns](#) for more information.
For partnership returns, see Guidance for Amended Partnership Returns.

To file a superseding Form 990, 990-EZ, 990-PF, 990-T, 1120-POL, 2290 and 4720, within the filing period (including extensions), the taxpayer should check the “Amended Return” box in the relevant Schema. This eliminates the possibility of receiving rejection for a duplicate filing.

For Forms 1041, 1065, 1120, 1120-S, and 1120-F, a taxpayer filing a superseding return must select the Superseded Return checkbox (designation) in the software or the return will reject as a duplicate filing. All of the Business Rules enforced for e-filing original returns are also enforced for superseding returns.

3.5.2 Amended Returns
An amended return is a return filed subsequent to the originally filed or superseding return and filed after the expiration of the filing period (including extensions).

Note: An “Amended Return” checkbox is available on certain MeF business returns; however, this checkbox may not be available on their paper counterparts.

When amending Form 1120, 1120-S, 1120-F and 1065 returns, the taxpayer should include the main form and any forms and schedules necessary to support the changes that were made. When amending Form 1041, complete the entire return and correct the appropriate lines with the new information.

- For Form 1120, 1120-S, and 1120-F amended returns, only a subset of Business Rules relevant to the corresponding original returns will be enforced. This subset is posted on IRS.gov.
- For 1065 and 1041 amended returns, all of the Business Rules for e-filing original returns will be enforced.

Beginning in TY2011, partnerships who are required to file a Form 8082 along with their amended return will need to:

1. Complete the Form 8082 available electronically; and

2. Attach the “GeneralDependencySmall” to indicate if:

   a. You are a Tax Matters Partner (TMP) filing an Administrative Adjustment Request (AAR) on behalf of the pass through entity and you are or are not requesting a substituted return treatment.

   b. You are an Electing Large Partnership

Most taxpayers who e-file an amended return have previously e-filed the underlying original tax return. In these situations, the easiest way to e-file an amended return is simply to update the original return for the changed items. Once this has been completed, attach the required XML document (see below) and any other supporting
explanations and e-file the amended return, ensuring that the Amended Return checkbox is selected.

Amended returns require **at a minimum**:

1. The corrected Form 1120, 1120-S, or 1120-F return, completed in its entirety (all pages of the return), with the Amended Return checkbox selected.

2. All forms, schedules and attachments that changed or that support changes on the amended Form 1120, 1120-S, or 1120-F including any subsidiary returns (if changed) and the information to support those changes.

3. **One** of the following:
   
   • For Form 1120: Attach to the amended Form 1120, the XML Form 1120X completed through Part I, line 10 or 11 (as applicable), and Part II with the line number of each amended item, the corrected amount or treatment of the item, and an explanation of the reasons for each change.
   
   • For Forms 1120-S and 1120-F: Attach to the amended Form 1120-S or Form 1120-F, the XML document, **AmendedReturnChanges** which identifies the line number of each amended item, description, the amount on the previous return, the amount on the amended return, and an explanation of the reasons for each change.

4. A signed signature document, Form 8453-C/S/I (as applicable) or use of a Practitioner’s PIN.

5. Appropriate forms to make a payment, request a refund, or request a credit carryover to another year.

For Forms 1041, 1065, 990, 990-EZ, 990-PF, 990-T, 1120-POL, 2290, and 4720, there is an “Amended Return” box in the XML Schema. For these amended returns, a subset of Business Rules is currently not in place. In order to pass the Business Rules for these forms, you need to complete the entire return and all applicable fields.

An amended return for Form 720 (Form 720X) must be filed using the existing paper procedures.

For information on Form 1065 amended returns, see Guidance for Amended Partnership Returns.

3.5.3 **Form 2290 Vehicle Identification Number (VIN) Correction**

For Form 2290 a Vehicle Identification Number (VIN) Correction is treated the same as an Amended Return. If you must correct a VIN(s) previously reported on an e-filed Form 2290 due to a typographical error (transposed or incorrectly entered characters), a corrected Form 2290 must be filed with the IRS. The “VIN Correction” checkbox located on page 1 of the Form 2290 must be checked and the Schedule 1 must be completed using the
corrected VIN(s). Use the VINCorrectionExplanationStatement dependency to identify which VIN(s) are being corrected from the original accepted e-filed return and why the VIN(s) are being corrected.

### 3.6 Signing an Electronic Return

A tax return filed through MeF is a composite of electronically transmitted data. As with any income tax return submitted to the IRS on paper, an electronic income tax return must be signed by an authorized tax return signer of the entity type (corporation, partnership, estates and trusts, employment taxes or exempt organization), the ERO (if applicable), and the paid preparer (if applicable). If the electronic return does not have an appropriate signature (see below), the return will be rejected. **T.D. 9300** provides guidance on signing requirements for each return type.

The MeF system requires taxpayers and providers to use specific signature methods for signing electronic returns. Available options are the Practitioner Personal Identification Number (PIN) method using Form 8879 or the Scanned Form 8453 method. Reporting agents should use the Reporting Agent PIN method with **Form 8655**. Form 94x On-Line e-Filers should use the 94x Online Signature PIN method.

#### 3.6.1 Practitioner Personal Identification Number (PIN) Signature Method—Form 8879

The Practitioner PIN option can only be used if the taxpayer uses an ERO. Follow the processes below to sign the return electronically:

1. The ERO contacts the taxpayer and requests they choose a five-digit, self-selected PIN as their electronic signature. The taxpayer can authorize the ERO to input this in the software (by phone, fax, and so on), or they can come to the ERO’s office and enter the PIN directly into the software.

2. Each Form 8879 is tailored to a unique parent form (see Table 3–3). The ERO completes and prints out the appropriate Form 8879 and includes their PIN and the taxpayer's self-selected PIN. The ERO’s electronic signature is comprised of an 11-digit PIN. The first six positions of the PIN are made up of the ERO’s EFIN and the next five positions are made up of numeric characters the ERO chooses.

   **Note:** The ERO must sign and complete the requested information in the “Declaration of Electronic Return Originator [ERO]” section after thoroughly reading the declaration. An ERO may authorize members of its firm or designate employees to sign for the ERO, but the ERO is still responsible for all electronically filed returns originated by its firm. EROs do not have to disclose their Employer Identification Number (EIN) or Social Security Number (SSN) on the copies they provide to taxpayers.

3. If the return was prepared for a fee, the ERO's responsibility is to identify the paid preparer in the appropriate fields of the electronic return record for transmission. The ERO should complete the Form 8879 with the information received from the...
taxpayer. The paid preparer should keep a copy of the return approved and signed by the taxpayer using the Form 8879.

4. The ERO and taxpayer must retain the Form 8879 for three years from the return due date, extended due date, or the IRS received date, whichever is later. The ERO should provide a copy of the Form 8879 to the taxpayer, along with other return data as required. **Do not** mail these forms to the IRS.

As the ERO completes the XML Schema return header, the following fields are required for the Form 1120 family practitioner PIN method, or the return will be rejected.

- Practitioner PIN
- PIN Entered By Code
- Name of Officer
- Title of Officer
- Taxpayer PIN/ Fiduciary PIN
- Date Signed

**Note:** Form 1041 return header Schema does not include Name of Officer or Title of Officer. For the Form 1041, the taxpayer PIN is replaced by Fiduciary PIN. Other Form families may have other specific fields that are required to be completed.

Signature authorization is made on the following Forms 8879 for corporate, partnership, employment, estate or trust, tax-exempt organizations and excise tax filers (see Table 3–3). The forms are available for downloading on the **Forms and Publications** page.

3.6.2 Form 1041 Multiple Tax Return Listing (MTRL)

As part of a regular review process, the IRS has determined that the Multiple Tax Return Listing (MTRL) process used to sign electronically filed Form 1041, U.S. Income Tax Return for Estates and Trusts must be modified. Beginning Jan. 1, 2015, the IRS e-file Signature Authorization document, Form 8879-F, can only be associated with a single 1041 return, not with multiple forms as used in previous years.

This change is required for two reasons following additional legal review by the IRS. First, the perjury statement on the form refers to amounts in Part 1 of the form and the relevant amounts are actually on the attached listing. Second, a signature on one form cannot ensure that the signer reviewed and approved each of the Forms 1041 in the listing.

3.6.3 Scanned Form 8453 Signature Method

The scanned Form 8453 method involves signing a paper document and attaching it electronically to the e-filed return as a PDF document. The authorized tax return signer of the entity type (corporation, estate or trust, employment, partnership, exempt organization, excise tax filer), signs the appropriate form (see Table 3–4). The form is then scanned and attached to the electronic return as a PDF file. The tax preparation
software selected will provide instructions on how and where to attach this document to
the electronic return. You must describe the scanned Form 8453 attachment in the return
software as “8453 Signature Document.”

The Form 8453 series may be used as a declaration that the taxpayer signed the
electronic return. This document is a jurat, an affidavit in which the taxpayer attests to the
truth of the information contained in the return and attached return information. It has the same legal effect as if the taxpayer had physically signed the return.

These forms were created specifically for each parent return type and need to be signed
and dated by the authorized tax return signer of the entity type. **The IRS will not accept
these documents submitted on paper.** Once signed and dated, they are to be scanned
and submitted with the e-filed return as a PDF file. Signing and dating the Forms 8453
authorizes the ERO, Transmitter, or ISP to send the return to the IRS. The Consent to Disclosure authorizes the IRS to disclose information to the taxpayer’s Provider. See each individual Form 8453 for specifics on the extent of disclosure authorized. EROs, Transmitters and ISPs are authorized to receive acknowledgement of receipt or reason for rejection of the electronic return from IRS.

The MTRL used for legacy Form 8453-F does not apply to Form 1041 in MeF. Form 8453-FE, which is available for the 1041 MeF program, will not include an option to mail the Form 8453 Signature Document to IRS. Each Form 1041 MeF Submission must have a signed Form 8453-FE if the Scanned Form 8453 Signature Method is used. **Form 8453-FE cannot be used as a transmittal to attach paper documents.**

If the electronic return data on a corporate income tax return is changed after the taxpayer signed the jurat, the taxpayer must sign a new Form 8453 if the “Total Income” amount differs by more than $150 or the “Taxable Income” amount differs by more than $100.

A copy of the signed form should be retained by the entity, but should not be mailed to the IRS.

Signature authorization is made on the following Forms 8453. The forms are available for downloading on the [Forms and Publications](https://www.irs.gov/forms-publications) page.

Note: Form 2290 on-line filers who do not use an ERO should refer to Publication 4164 for alternative signature requirements.

3.6.4 Reporting Agents Personal Identification Number (PIN) Signature Method—Form 8655

Reporting Agent—A Reporting Agent is an accounting service, franchiser, bank, or other entity that complies with Rev. Proc. 2012-32, IRB 2012-34, and is authorized to prepare and electronically file Forms 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944 and 945 for a taxpayer. Reporting agents sign all of the electronic returns they file with a 5-digit PIN signature. The Reporting Agent PIN is issued through the IRS e-file application process as a result of selecting Reporting Agent as a provider option on the application. Reporting agents may transmit their own returns, or may use the services of a third-party Transmitter. See Publication 1474.

Become a Reporting Agent and receive a 5-digit PIN to sign 94x returns transmitted via the Employment Tax e-file System. Potential e-file participants that use the 94x e-file Program select the Reporting Agent provider option on their IRS e-file Application. Form
8655 must be submitted prior to updating or submitting an IRS e-file application. The Reporting Agent PIN is system-generated upon submission or resubmission of the e-file application, not self-selected. It can be obtained by phone by calling the e-help desk at 866-255-0654 and is also sent via USPS to the Firm Mailing Address indicated on the e-file application upon successful submission or resubmission of the application. Applications can be completed on-line after first registering for e-Services.

Authorized Reporting Agents prepare, sign and e-file all 94x Family of returns for his/her clients. For complete guidelines refer to **Publication 3112** and Rev. Proc. 2007-40.

**Form 8655** gives the tax professional authority to sign the client’s return with their reporting agent’s 5-digit PIN.

**Note:** Reporting agents must adhere to the following:

- Submit an agent’s list containing the names, EINs, and addresses of the taxpayers for whom they will file returns. **Publication 1474**, page 16, Exhibit 2 shows how to create an agent list.
- Submit an authorization made on **Form 8655** with a revision date of May 2005 or later (or its equivalent), for each taxpayer included on the agent’s list. For instructions on preparing **Form 8655**, see Rev. Proc. 2012-32.

3.6.5 **94x On-Line e-Filer Signature Method (IRS Authorized Signer)**

*This method is not acceptable for tax professionals.* (See other signature options)

**On-Line e-Filer**— The 94x On-Line Signature PIN method is only available to the Owner or Principal of a business or organization to use when submitting Forms 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944 and 945.

1. The Owner or Principal (IRS Authorized Signer) must submit a 94x On-Line Signature PIN Registration Application using an IRS Approved Commercial Off-the-Shelf (COTS) software that offers this service to their clients. The software must be downloaded from the approved Internet site using a personal computer, modem, and will be prepared on-line. Prospective Form 94x On-Line e-Filers must submit the 94x On-Line Signature PIN Registration Application at least 45 days in advance of the due date of the 94x return to ensure timely filing of 94x e-file returns.
2. The Owner or Principal will receive an IRS issued 10-digit 94x On-Line Signature PIN that will be used, by the Authorized Signer, to sign their electronically filed 94x Family tax returns through the IRS Approved COTS software. (The 94x Form family consists of 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944 and 945).

The Authorized Signer acts for the entity in legal and/or tax matters and is held liable for filing all 94x returns and making all 94x tax deposits and payments, adhering to all rules and regulations as set forth in Publication 4163, Publication 15, (Circular E), Employer’s Tax Guide and Rev. Proc. 2007-40.

Approved Form 94x On-Line e-Filers are only allowed submission of 5 returns a year, using the IRS Approved COTS software. Approved Form 94x On-Line e-Filers cannot file bulk returns or e-file returns for other businesses.

### 3.7 Applications for Extension of Time to File—Forms 7004 and 8868

If a payment is not submitted with Form 7004 a signature is not required.

If a payment is submitted with Form 7004 you must use the Practitioner PIN or the ACH Debit Agreement Indicator to sign the extension application and payment.

- When filing through an ERO, you may use the Practitioner PIN to sign your extension.
- If you are not filing through an ERO then the ACH Debit Agreement Indicator is the option you must use to sign your return. Check with your Software Developer for further instructions.

Form 8868, Application for Extension of Time to File an Exempt Organization Return, does not require a signature if it is not submitted with a payment. If providing a payment, you may use the Practitioner PIN or the scanned Form 8453-EO method to submit the extension application and payment.

### 3.8 Other Forms and Elections Requiring Signatures

Many forms that may be attached to MeF forms have separate signature lines. IRS Chief Counsel reviewed regulations to identify forms and elections that require a separate signature to determine if the requirements can be changed. T.D. 9300 and T.D. 9329 contain amendments to the Income Tax Regulations (26 CFR Part 1) and Procedure and Administration Regulations (26 CFR Part 301). This decision also eliminates some of the regulatory requirements considered impediments to the electronic submission of tax returns and other forms filed by corporations, partnerships and other businesses with regard to third-party signature requirements. These regulations impeded electronic filing by requiring taxpayers to:

1. Include third-party signatures on their tax returns,
2. Attach documents or statements generated by third-parties, and/or

3. Sign an IRS form and file it as an attachment to their income tax return.

3.8.1 Signature Requirements for Elections
IRS Counsel reviewed Treasury Regulations to identify elections that require a signature to determine if the requirements can be changed. IRS published the results of this review as the e-File for Large Business and International page. Elections that require a separate signature may be submitted in PDF format.

IRS Chief Counsel has issued guidance in T.D. 9329 and T.D. 9300 that allow certain business entities, shareholders and individuals to retain certain supporting documentation, rather than submitting them to IRS with the return.

3.9 Attaching Portable Document Format Files
PDF files attached to a return must contain a meaningful file name and description. The description will be used when the IRS displays the name of the attachment, for example, “Foreign Tax Credit Carryover” (see Appendix for recommended names and descriptions for PDF files). We recommend that PDF files be attached at the top-level return, unless there is a reason it needs to be attached at a form level or to one of the General Dependency Schemas.

The reference is created from the element to the Binary Attachment XML document, not to the PDF file. If no reference is created to the Binary Attachment XML document, then the PDF file is considered to be “attached” to the submission. Creating reference(s) to PDF files is necessary when the IRS specifies the conditions under which the reference must be created and the reference locations within return data where the reference must exist.

In order to facilitate the processing of your return, do not password protect or encrypt PDF attachments submitted through MeF.

3.10 Special Instructions for Supporting Data Required by Form 8865
In many instances, information on schedules attached to Form 1065 will be the same schedules as required to be filed with Form 885, Return of U.S. Person with Respect to Certain Foreign Partnerships. You should copy the data from Form 1065 completed Schedules B, D, K, K1, L, M-1 and/or M-2 to the corresponding Form 8865 Schedules and submit them with Form 8865. Do not attach these schedules with the Form 1065.

3.11 Name Controls
Name Control matching is a process in MeF that verifies the Employer Identification Number (EIN) and Name Control of the filer against the IRS’s National Account Profile (NAP) database. Name Control mismatch is one of the most common causes for
the rejection of returns in MeF so it is critical to ensure that each return submitted has the correct Name Control.

The IRS uses the following rules to check Name Controls. Generally, the Business Name Control is derived from the first four characters of the business name and consists of up to four alpha and/or numeric characters. See Section 3.11.1 for special instructions for Form 1041.

If you are unable to determine your business name control with certainty after reading the rules below, please contact the IRS Business and Specialty Help Line (1-800-829-4933) and request assistance with verification of your organization’s Name Control. The following are links with detailed information on Name Control:

Corporations: Using the Correct Name Control in e-filing Corporate Tax Returns
Partnerships: Using the Correct Name Control in e-filing Partnership Tax Returns

Name Control-General Information:

- The Name Control should be determined from the information specified on the first name line. Generally, the Name Control is derived from the first four characters of the entity name. The ampersand (&) and hyphen (-) are the only special characters allowed in the Name Control.

- The Name Control can be fewer than four characters, but not more. Blanks may be present only at the end of the Name Control.

  Note: Do not include the letters “dba” (doing business as) or “fbo” (for benefit of) as part of the Name Control.

Name Control Valid Characters:

- Alpha (A-Z)
- Numeric (0-9)
- Hyphen (-)
- Ampersand (&)

Name Control Special Rule:

- If an invalid character is used in the name line, drop the special character from the taxpayer’s name (for example, “4U.com” should be “4UCO”).

The following examples should assist in establishing the correct Name Control. Please note, many Software Developers have built the IRS’s Name Control parameters into their software.

### 3.11.1 Form 1041 Name Control Information

The rules for assigning the name control are different for trusts that applied for their Employer Identification Number (EIN) via the Internet and trusts that applied for their EIN using a paper application.

#### 3.11.1.1 Internet Applications

- Trusts that received their EIN via the Internet must use the same rules as corporations when determining their correct Name Control. The IRS Internet computer program assigns the first four characters of the first name of the trust.
as the name control, ignoring leading terms such as “Trust for” and selects the first four characters of first name of the individual, organization, and so on. This is a departure from procedures used for EIN applications for trusts that were filed on paper.

- Employer Identification Numbers for Trusts that were assigned via completion of an Internet application begin with 20, 26, 27, 45, 46, 47, 81, 82, 83, 84, 85, 86 or 87 (for example, 20-nnnnnnn). Also, IRS notice CP 575B is used to notify an applicant of the EIN assigned to the entity named in the application and includes a tear-off tab that references the Name Control assigned to the EIN. The Name Control should also appear at the top of the second page. In the following example, NAME represents the Name Control.

(IRS USE ONLY) 575B 10-31-2008 NAME B 999999999 SS-4

3.11.1.2 Paper Applications

- Trusts that applied for their EIN via a paper application (for example, Form SS-4) were assigned name controls using the first four characters of the last name of the trust. Please refer to the following examples to determine your correct name control when completing the entity section of your electronic Form 1041.

- The procedures for assigning the name control for an Estate has not changed.

Note: Filers (Fiduciaries or their authorized representatives) who cannot determine the correct Name Control will need to contact the Business Specialty Tax Line at 1-800-829-4933 for assistance.

3.12 Addresses

3.12.1 Domestic Address Changes

MeF accepts all domestic address changes provided by the taxpayer in the entity portion of the parent return. However, in the case of a consolidated return, the name change is effective only for the top consolidated entity. When the “Name or Address Change” checkbox on the return is checked, the specific address entered on the return will become the taxpayer’s new “official” address of record within IRS Master File. The IRS uses a taxpayer’s address of record for various notices that are required to be sent to a taxpayer’s “last known address” under the Internal Revenue Code and for refunds of overpayments of tax, unless otherwise specifically directed by taxpayers, such as by using Direct Deposit.
It is important to enter all particulars of the mailing address (apartment numbers, suite numbers, box numbers, and so on) in the street address line 1 field. This may require abbreviation of lengthy address information in order to provide all pertinent information necessary for accurate delivery.

In addition, any new address you provide to the U.S. Postal Service (USPS) may also update your address of record on file with us based on what the USPS retains in its National Change of Address (NCOA) database. However, even if you notify the USPS, you should still notify us directly as not all post offices forward government checks. If the change of address relates to an employment tax return (94x Series), the IRS will issue notices of confirmation (Notices 148A and 148B) for the change of both the former and new address.

An ERO’s address should generally not be entered in fields reserved for taxpayers’ addresses in the electronic return record. The only exceptions are (1) if the ERO is the taxpayer or (2) if the address of a power of attorney, for the taxpayer of the tax return, is the same as the address of the ERO.

### 3.12.2 Foreign Addresses

An income tax return or extension with a foreign address in the entity portion of the return may be filed electronically as long as the foreign address is formatted correctly.

Foreign address changes are also accepted when filing through MeF. IRS will update the business’ entity information with the change of address. The specific address entered on the return will become the taxpayer’s new official address of record within IRS Master File. The IRS uses a taxpayer’s address of record for various notices that are required to be sent to a taxpayer’s “last known address” under the Internal Revenue Code and for refunds of overpayments of tax, unless otherwise specifically directed by taxpayers, such as by using Direct Deposit.

It is important to enter all particulars of the mailing address (apartment numbers, suite numbers, box numbers, and so on) in the street address line 1 field. This may require abbreviation of lengthy address information in order to provide all pertinent information necessary for accurate delivery. If the change of address relates to an employment tax return (94x Series), the IRS will issue notices of confirmation (Notices 148A and 148B) for the change of both the former and new address.

Some returns, forms or attachments require the preparer to enter the two-character Foreign Country Code. This code should always be the code of the Foreign Country or Foreign Sovereignty as recognized by the United States Department of State.

For example, England, Scotland, and Wales are part of the United Kingdom. The Foreign Country Code for United Kingdom is “UK.” The Balearic Islands are a part of Spain and should be coded as Spain (SP). When entering foreign addresses on the return or form, the state or republic, such as England or Scotland, can be entered with the city (for example, London, England) and the country as “United Kingdom” or “UK.”
See Appendix at the end of this publication for a link to the IRS.gov website for the accepted Foreign Country Codes.

3.12.3 Address Format

- Street Address Line 1 ‘AddressLine1Txt’ cannot contain more than 35 characters, abbreviation of lengthy address information may be required to provide all pertinent information.

  **Note:** MeF will reject returns that contain address information on the Street Address Line 2 field ‘AddressLine2Txt’. Individual Returns will reject with business rules IND-055-02. Business Returns will reject with business rules R0000-197-01.

- Enter college, building or post office branch as the address if no other mailing address is given.
- Enter one-half as 1/2 (no spaces).
- Plurals for apartment, avenue, road, street, are entered as APTS, AVES, RDS, STS, and so on
- Replace a (.) period in the address line with a space. Never enter two consecutive spaces.
- Do not enter an In Care of Name in the street address field.
- For military overseas addresses, enter the letters "APO" or "FPO" or “DPO” in the first three left-most positions of the City field.
- Do not use “NO”, “NO.”, “NUM”, “#” symbol and “Number” as a prefix to a house, apartment, Route, or PO Box number.

  **Note:** If No or No. is used as a direction, enter “N” only.

<table>
<thead>
<tr>
<th>Example</th>
<th>Enter As</th>
</tr>
</thead>
<tbody>
<tr>
<td>859 Adams Avenue No 7</td>
<td>859 ADAMS AVE 7</td>
</tr>
<tr>
<td>57 Adams Avenue No. 7</td>
<td>57 ADAMS AVE 7</td>
</tr>
<tr>
<td>57 No 123 Ave</td>
<td>57 N 123RD AVE</td>
</tr>
<tr>
<td>123 Third Street #5</td>
<td>123 THIRD ST 5</td>
</tr>
<tr>
<td>123 Third Street Number 5</td>
<td>123 THIRD ST 5</td>
</tr>
</tbody>
</table>

- Only add “ST”, “ND”, "RD", "TH" to a numbered street when there is a street designation (for example, street, avenue, circle, road).

  **Exception:** Do not add suffix to numbered streets with fractions.

<table>
<thead>
<tr>
<th>Example</th>
<th>Enter As</th>
</tr>
</thead>
<tbody>
<tr>
<td>102 S. 38 Road</td>
<td>102 S 38TH RD</td>
</tr>
<tr>
<td>102 S. 38</td>
<td>102 S 38</td>
</tr>
<tr>
<td>Example</td>
<td>Enter As</td>
</tr>
<tr>
<td>-------------------------</td>
<td>------------------------------</td>
</tr>
<tr>
<td>102 S. 38 Road W</td>
<td>102 S 38TH RD W</td>
</tr>
<tr>
<td>1801 N 13 1/2 Street</td>
<td>1801 N 13 1/2 ST</td>
</tr>
</tbody>
</table>

- Use standard address abbreviations unless the word is a proper name.

<table>
<thead>
<tr>
<th>Example</th>
<th>Enter As</th>
</tr>
</thead>
<tbody>
<tr>
<td>45 Circle Drive</td>
<td>45 CIRCLE DR</td>
</tr>
<tr>
<td>96 Avenue C</td>
<td>96 AVE C</td>
</tr>
<tr>
<td>128 Northeast Lane</td>
<td>128 NORTHEAST LN</td>
</tr>
<tr>
<td>54 West Valley Street South</td>
<td>54 W Valley ST S</td>
</tr>
</tbody>
</table>

- Abbreviate words not part of the proper name or numbered street.

**Note:** When a street address contains multiple, consecutive, street designations, abbreviate the last street designation.

<table>
<thead>
<tr>
<th>Example</th>
<th>Enter As</th>
</tr>
</thead>
<tbody>
<tr>
<td>17 South Court Street</td>
<td>17 S COURT ST</td>

<tr>
<td>12291 Country Place Drive</td>
<td>12291 COUNTRY PLACE DR</td>
</tr>
</tbody>
</table>

### 3.12.4 Foreign Country Codes for Forms 8858 and 926

Form instructions for the 8858 and 926 specify that a foreign address has to be entered with the country name using the full country name rather than an abbreviation. However, taxpayers e-filing these forms through MeF should continue to use a country code for the country name.

### 3.13 North American Industry Classification System (NAICS) Codes

To facilitate the administration of the Internal Revenue Code (IRC), a principal business activity and associated code are used to classify an enterprise by the type of activity in which it is involved. These principal business activity codes are based on the North American Industry Classification System (NAICS). A list of valid Principal Business Activity Codes (NAICS Codes) can be found in the instructions for Form 1120-FSC.

### 3.14 Refunds

There are several options available regarding refunds through MeF:

- Apply it to next year’s estimated tax
- Receive it as a Direct Deposit or paper check
- Split it between portions applied to next year’s estimated tax with the remainder received as Direct Deposit or paper check
Note: Direct deposits are not available for Excise tax returns, Estate and Trust tax returns or Employment Tax returns.

Taxpayers often elect the Direct Deposit option because it is the fastest way of receiving refunds. Providers must accept any Direct Deposit election to any eligible financial institution designated by the taxpayer. Refunds may be designated for Direct Deposit to qualified accounts in the taxpayer’s name. Qualified accounts include savings, checking, share draft, or consumer asset accounts, for example, IRA or money market accounts.

Direct Deposit refunds may not be designated to credit card accounts. Qualified accounts must be held by financial institutions within the United States. Qualifying institutions may be national banks, state banks, including within the District of Columbia and political subdivisions of the 50 states, savings and loan associations, mutual savings banks, and credit unions.

Checking or share draft accounts that are payable through another institution may not accept direct deposits. A taxpayer should verify Direct Deposit policy of its financial institution before electing this option.

A taxpayer choosing Direct Deposit must supply its provider with account numbers and routing numbers for qualified accounts. This information is best obtained from official financial institution records, account cards, checks or share drafts that contain the taxpayer’s name and address.

A provider is not allowed to charge a separate fee for a taxpayer using Direct Deposit and must accept any Direct Deposit election by a taxpayer to any eligible financial institution. The Provider must advise the taxpayer that a Direct Deposit election cannot be rescinded. The Provider must not alter the Direct Deposit information in the electronic record after a taxpayer has signed the tax return and cannot make changes to routing numbers of financial institutions or to a taxpayer’s account numbers after IRS has accepted its return.

Providers serving repeat customers or clients should verify account and routing numbers each year, since some software programs store the previous year’s information and will reuse the data unless it is changed. Taxpayers will not receive Direct Deposit of their refunds if account information is not updated to reflect current information.

Refunds that are not direct deposited because of institutional refusal, erroneous account or routing numbers, closed accounts, bank mergers, or any other reason will be issued as paper checks, resulting in refund delays of up to ten weeks. While the IRS will ordinarily process a request for Direct Deposit, it reserves the right to issue a paper check and does not guarantee a specific date by which the refund will be deposited into the taxpayer’s account. Neither the IRS nor the Bureau of Fiscal Service (formerly Financial Management Service (FMS)), is responsible for the misapplication of a direct
deposit that is caused by error, negligence, or malfeasance on the part of the taxpayer, Provider, financial institution, or any of their agents.

Providers should advise taxpayers that they could avoid refund delays by having all of their taxes and obligations paid, providing current and correct information to the ERO, ensuring all financial institution account information is up-to-date and carefully checking their tax return information before signing the return.

### 3.15 Payments

#### 3.15.1 General Payment Information

Taxpayers who owe additional tax must pay their balances due by the original due date of the return or be subject to interest and penalties. An extension of time to file may be filed electronically by the original return due date, but it is an extension of time to file the return, not an extension of time to pay a balance due. Providers should inform taxpayers of their obligations and options for paying balances due. Taxpayers have several choices when paying any taxes owed on their returns as well as estimated tax payments.

If you are requesting an extension of time to file Form 1042, see the deposit rules in the form instructions to determine how payment must be made.

#### 3.15.2 Electronic Funds Withdrawal (EFW)

**3.15.2.1 Types of Payments Allowed**

- Balance due payments can be submitted via the EFW (direct debit) payment option, using the IRSPayment record, for Form(s) 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944, 945, 990-T, 1120, 1120-F, 1120-S, 1120-POL, 990- PF, 1065, 720, 1041, 2290, and 4720 tax returns.

- Extension payments can be submitted, using the IRSPayment record, with extension Form(s) 7004 and 8868. Filing an extension does not extend the time to pay. If the entity is a corporation or affiliated group of corporations filing a consolidated return, the corporation must remit the amount of the unpaid tax liability on or before the due date. For information on Form(s) 7004 and 8868, please refer to the various sections within this publication regarding those two forms, and also refer to the tax form instructions for each form.

  **Note:** For Forms 7004 and 8868, the payment must equal the amount shown as the balance due.

- Up to four quarterly estimated tax payments can be submitted with Form(s) 990-PF, 990-T, 1041 and 1120/1120-F/1120-S/1120-POL, using a separate IRSESPayment record for each request submitted.

**3.15.2.2 Requirements for EFW Payment Records**

The following information is required in the payment record:
If the electronic funds withdrawal is authorized, an IRSPayment record and/or IRSES Payment record(s) must be attached to the electronic return or extension, and an EFW consent statement must be signed.

**Note:** IRSPayment and IRSES Payment record(s) can only be attached at the top-level return. If attached elsewhere, they will not be processed. An EFW cannot be submitted stand-alone.

If a taxpayer does not provide all of the required information needed to complete the EFW payment record, the provider should contact the taxpayer to obtain the information needed. If the provider is unsuccessful in obtaining the electronic funds withdrawal information, but the return is otherwise complete, the provider should proceed with the origination of the electronic return data to the IRS to ensure timely filing of the return. The provider must timely notify the taxpayer that other arrangements must be made to submit the payment or payments.

It is important to note that the **10-day transmission perfection period** (5 calendar days for a rejected extension) does not apply to payments. If a submission was rejected, a return can be corrected within 10 calendar days and be given the received date of the original rejected return. When a return is rejected on the due date, it is recommended that the EFW payment **not** be transmitted with the return and that another payment option be used. Visit [IRS.gov/e-pay](https://www.irs.gov/e-pay) for other electronic payment options available, or submit the payment by check or money order. See the following sections for information on other payment options.

### 3.15.2.3 General EFW Information

If the taxpayer chooses to pay using the EFW method, they may authorize the entire payment, not to exceed 200% of the balance shown on the return, or a partial payment to be made at the time their tax return/extension form is electronically filed.

The EFW payment option is not available for making federal tax deposits. Domestic corporations must deposit all income tax payments by the due date of the return using the Electronic Federal Tax Payment System (EFTPS). Additional EFTPS information is available on the [Electronic Federal Tax Payment System](https://www.irs.gov/e-file) page. For other payment options available for making federal tax deposits, please refer to the tax form instructions for each respective form.
3.15.2.4 **Scheduling EFW Payments**
Certain payments, such as estimated payments, can be scheduled for withdrawal at a later date, up to the due date of the return. For other payments, such as Form(s) 720 and 2290 excise taxes, payments cannot be scheduled and must be paid when the return is electronically filed. For returns transmitted after the due date, the payment date must be the same as the date the return is transmitted or within the previous five days. Review the Business Rules for each respective payment type to determine if/when scheduling is allowed.

3.15.2.5 **Revoking or Canceling EFW Payments**
To revoke or cancel an EFW payment the taxpayer should contact the IRS E-file Payment Inquiry and Cancellation Service at 1-888-353-4537. They should wait at least ten (10) calendar days from when the IRS e-file return was accepted before calling. The caller should be prepared to provide the Employer Identification Number (EIN), state that the payment is a business payment, provide the exact payment amount (dollars and cents), and bank account number entered in the payment record. Cancellations must be made by 11:59 p.m. Eastern time two business days prior to the scheduled payment date.

For additional information about the EFW payment option, visit [IRS.gov/e-pay](https://www.irs.gov/e-pay).

3.15.3 **Electronic Federal Tax Payment System (EFTPS)**
All business and individual taxes, as well as federal tax deposits, can be paid using EFTPS. EFTPS is available year-round, 24/7. Payments can be made online using the [EFTPS.gov](https://www.eftps.gov) website, or by phone using the EFTPS Voice Response System. To use EFTPS, taxpayers must first enroll, online at [EFTPS.gov](https://www.eftps.gov), or by phone, at 1-800-555-4477. Visit the [Electronic Federal Tax Payment System](https://www.eftps.gov) page for more information.

Domestic corporations must deposit all income tax payments using the Electronic Federal Tax Payment System (EFTPS). If the corporation expects to have a net operating loss carryback, the corporation can reduce the amount to be deposited to the extent of the overpayment resulting from the carryback. This can be done, provided all other prior year tax liabilities have been fully paid and [Form 1138, Extension of Time for Payment of Taxes by a Corporation Expecting a Net Operating Loss Carryback](https://www.irs.gov/business-center/forms-and-publications/form-1138), is filed with Form 7004.

Foreign corporations who maintain an office or place of business in the United States should pay their tax as previously described for domestic corporations.

3.15.4 **Check or Money Order**
Payments by check or money order do not have to be mailed at the same time the electronic return is transmitted. For example, the return may be transmitted in March and the taxpayer may mail the payment (with a voucher, if applicable) at any time on or before the return due date.
A foreign corporation without an office or place of business in the United States, and which does not bank in the United States cannot pay using EFW or EFTPS. These corporations will need to pay using checks or money orders. The check or money order should be made payable to “United States Treasury.”

The following must be written on all checks or money orders submitted:

- Employer Identification Number (EIN)
- Type of tax return
- Tax year to which the payment applies

**Note:** Taxpayers should adhere to the requirements for electronic deposits, but we will accept payment by check or money order to eliminate or limit late payment penalties and interest.

### 3.16 Special Instructions When Copies of Original Forms are Required

Pay special attention when instructions call for processing a form prior to filing the electronic return. For example, instructions may indicate that Form 4466, *Corporation Application for Quick Refund of Overpayment of Estimated Tax*, should be filed prior to filing the return in order to receive a quick refund. In such circumstances, the taxpayer should **paper file Form 4466** with the appropriate IRS Submission Processing Center. A **copy of Form 4466 should be attached to the electronic return**, for informational purposes, but this electronic version of Form 4466 **will not** be processed.

There are other forms that may fall in this category. When paper forms are required to be filed prior to the filing of a return, and electronic copies of such forms are attached to electronic returns, MeF will keep copies of these forms for informational purposes only.

### 3.17 Submitting the Electronic Return to the IRS

An ERO must originate the electronic submission of a return as soon as possible after it is signed by an authorized tax return signer of the entity type (corporation, partnership, estate or trust, employment taxes or exempt organization), the ERO and the paid preparer, as applicable.

An ERO must ensure that stockpiling of returns does not occur. Stockpiling refers to collecting returns either from taxpayers or from another Provider prior to official acceptance by IRS e-file. After official acceptance to participate in IRS e-file, “stockpiling” refers to waiting more than three calendar days to submit the return to the IRS once the ERO has all necessary information for origination. Returns held until the date on which electronic returns may first be transmitted to the IRS are not considered stockpiled.

In order to facilitate the processing of your return, do not password protect or encrypt PDF attachments submitted through MeF.
3.18 Record Keeping and Documentation Requirements

Providers must retain all the information in the following list until the end of the calendar year in which the return was filed, or until nine months after a fiscal year return was filed, whichever is later:

- A copy of signed IRS e-file Consent to Disclosure forms for taxpayers who signed using a scanned signature form (applicable Form 8453)
- A complete copy of the electronic portion of the return that can be readily and accurately converted into an electronic transmission the IRS can process
- The acknowledgement file for IRS accepted returns
- The acknowledgement for all extensions

For any period of time during which the Provider’s main office is closed, required records may be retained at the business address of a Responsible Official listed on their e-file application. Providers must make the records available to the IRS upon request.

Forms 8879-A, 8879-B, 8879-C, 8879-EO, 8879-F, 8879-I, 8879-PE, 8879-S and 8879-EMP*, Practitioner PIN Method of Electronically Signing the Return by the ERO and Taxpayer, must be retained by the provider and made available to the IRS in the same manner described above. These forms must be retained for three to four years (see instructions) from the due date of the return, extended due date, or the IRS received date, whichever is later.

Providers may electronically image and store all paper records they are required to retain for IRS e-file. This includes signed signature documents as well as any supporting documents not included in the electronic record. The storage system must satisfy the requirements of Rev. Proc. 97-22, Retention of Books and Records. Briefly, the electronic storage system must ensure an accurate and complete transfer of the hard copy to the electronic storage media. All records must be capable of being reproduced with a high degree of legibility and readability, including the signatures of taxpayers and any other necessary signatories, when displayed on a video terminal and when reproduced in hard copy.

Electronic filers who originate their own returns must retain all information that a taxpayer would retain, including acknowledgements, for the appropriate time period. Generally, it is recommended that taxpayers retain all returns, records and acknowledgements, rejected and accepted, for a period of three years from the due date or extended due date of the return.

3.19 Acknowledgements of Transmitted Return Data

The IRS electronically acknowledges the receipt of all transmissions and returns. Each return in a transmission is either accepted or rejected for specific reason(s). Returns which meet the processing criteria are considered “filed” as soon as the return is
accepted. Rejected returns that fail to meet processing criteria are considered “not filed.” The acknowledgement identifies the source of rejections and provides Business Rule text that explains why a transmission or return rejected.

When the MeF system has processed a tax return, it generates an acknowledgement, which provides the return acceptance status, informing the submitter whether the return was accepted or rejected. At the request of the corporation, partnership, trust or estate, employer, tax-exempt organization or business taxpayer, the Provider must provide the date the IRS accepted the electronic return. If the Transmitter provided an electronic postmark for the return, the Provider must also provide that, if requested by the taxpayer. This information is found in the acknowledgement sent to the Transmitter by the IRS.

3.19.1 Acknowledgement Alerts for Form 1120-F
MeF generates Alerts for Form 1120-F. Alerts identify return conditions for the Transmitter, Software Developer or taxpayer that do not result in the rejection of the return. Alerts are listed in a table in the Acknowledgement file on an accepted or rejected return.

If your return is accepted and includes an Alert, do not resubmit that return. The Alert is for your information only. If you attempt to resubmit an Accepted return with the Alert issue(s) corrected, the subsequent return will be rejected as a duplicate.

3.20 Transmission Perfection Period
When an electronically transmitted business return is rejected, there is a 10-day Transmission Perfection Period to perfect that return for electronic re-transmission. The perfection period will be 10 calendar days for any business return. For Forms 7004 and 8868, which are applications for filing extensions, the perfection period is 5 calendar days. Perfection of the business return for electronic re-transmission is generally required when the originally signed return had errors in the XML format or errors that caused the return to fail IRS e-file Schema validation or Business Rules.

The Transmission Perfection Period is not an extension of time to file; it is a period to correct errors in the electronic file. The Transmission Perfection Period applies to business returns filed on MeF, regardless of the date filed, due date, or extended due date. The yearly cutover period does not extend the 10-calendar day Transmission Perfection Period. The Transmission Perfection Period is never extended regardless of weekends, holidays or the end of the year cutoff.

When a previously rejected electronic return is “accepted” by the IRS within the 10-day Transmission Perfection Period, it will be deemed to have been received on the date of the first reject that occurred within that 10-calendar day. The 10-calendar-day period is
actually a “look back” period and is determined as of the date the return is accepted. IRS looks back 10 calendar days from the date the return is accepted (or from the Electronic Postmark, if applicable) to determine if there have been any rejects for the same EIN and Tax Period. If there have been one or more rejects within that 10-day look back period, IRS uses the received date on the earliest reject (or the Electronic Postmark, if applicable, of the earliest reject) as the IRS Received Date for the accepted return.

**Note:** The received date is one of the following:

1. Electronic Postmark (if present),
2. Timestamp in A2A receipt or

The following chart provides examples of how IRS determines received dates. The chart assumes the first rejection occurred on date of transmission, the second rejection occurred on date of re-transmission, and acceptance occurred on date of final transmission. It does not matter if the return was transmitted before the due date or after the due date of the return. The 10-day Perfection Period is independent of the timeliness of the return. Downstream processing determines whether a valid extension is on file for the return and whether or not the return is timely filed.

**Note:** This chart reflects the change to 10-day perfection period starting with returns accepted after December 31, 2009.

#### 3.20.1 How to Determine IRS Received Date

1. **Return accepted on 3/30/X1**: Look back 10 days from Electronic Postmark of the accepted return. There is no rejected return within 10 days of 03/29/X1. IRS Received Date is the Electronic Postmark Date of the accepted return - 03/29/X1.

2. **Return accepted on 3/20/X1**: Look back to earliest reject within 10 days of Electronic Postmark of accepted return. There is a reject within 10 days of 03/19/X1. IRS Received Date is the Electronic Postmark of the earliest reject within 10 days of the Electronic Postmark of the accepted return - 3/09/X1.

3. **Return accepted on 3/25/X1**: Look back to earliest reject within 10 days of return being accepted. Electronic postmark of the earliest reject within the 10-day period is 03/14/X1. IRS Received Date is the Electronic Postmark of the earliest reject within 10 days of the Electronic Postmark of the accepted return - 03/14/X1.

4. **Return accepted on 4/04/X1**: Look back to earliest reject within 10 days of being accepted. There is no reject within 10 days of accepted return. IRS Received Date is the Electronic Postmark Date of the accepted return - 04/03/X1.
5. **Return accepted on 3/25/X1**: Look back to earliest reject within 10 days of being accepted. IRS Received Date is the Electronic Postmark Date of earliest rejected return with the 10-day perfection period - 03/14/X1.

6. **Return accepted on 9/18/X1**: Look back to earliest reject within 10 days of Electronic Postmark of accepted return. There is no rejected return within 10 days of 09/17/X1. IRS Received Date is the Electronic Postmark Date of the accepted return - 09/17/X1.

7. **Return accepted on 1/10/X1**: Look back to earliest reject within 10 days of Electronic Postmark of accepted return. There is no rejected return within 10 days of 01/09/X1. IRS Received Date is the Electronic Postmark Date of the accepted return 01/09/X1.

8. **Return accepted on 12/28/XX**: Look back to earliest reject within 10 days of accepted return, there was no Electronic Postmark. There was a rejected return within 10 days of 12/28/XX. IRS Received Date is the date of the earliest reject within 10 days of the accepted return 12/23/XX. **Note**: there was no Electronic Postmark.

9. **Return accepted on 10/01/X1**: There was no previous reject within 10 days of the Electronic Postmark of the accepted return. IRS Received Date is the Electronic Postmark of the accepted return – 09/30/X1.

### 3.21 Rejected e-Filed Returns

**Notice 2010-13** provides that a taxpayer required to e-file can request a waiver from the electronic filing requirement when it cannot meet the electronic filing requirements.

A waiver no longer exists for exempt organizations who file Forms 990 or 990-PF for a tax year beginning on or after July 2, 2019. Section 3101 of P.L. 116-25 requires that returns by exempt organizations be filed electronically.

**Notice 2011-26** provides “Administrative Exemptions to the Specified Tax Return Preparer Electronic Filing Requirement Under Internal Revenue Code § 6011(e)(3) and Regulations Under § 6011(e)(3).” This notice applies to tax return preparers who are required by law to file electronically certain income tax returns for individuals, estates and trusts. Form 8948 is used for Form 1041 should they be unable to meet the electronic filing due dates because of a rejected return. Rev. Proc. 2011-25 discusses the e-file waiver process for Form 1041.

Before filing a paper return, corporations, partnerships and tax-exempt organizations required to e-file (mandated) **must** contact the e-help Desk (1-866-255-0654) to attempt to resolve the rejection conditions. If the rejection conditions cannot be resolved, these taxpayers must receive authorization from the e-help Desk before filing a paper return.
To be considered *timely filed* the paper return must be postmarked by the later of the due date of the return, including extensions, or 10 calendar days after the date the IRS last gives notification the return was rejected as long as:

1. The first transmission was made on or before the due date of the return (including extensions) and

2. The last transmission was made within 10 calendar days of the first transmission.

Follow the steps below to ensure that the paper return is identified as a rejected electronic return and the taxpayer is given credit for the date of the first rejection within the 10-day transmission perfection period:

1. The taxpayer must call the IRS e-help Desk (1-866-255-0654) to advise that they have not been able to have their return accepted.

2. The taxpayer should prepare the paper return and **include all of the following:**
   - An explanation of why the paper return is being filed after the due date
   - A copy of the reject notification
   - A brief history of actions taken to correct the electronic return

3. Write in **red** at the top of the first page of the paper return “REJECTED ELECTRONIC RETURN – [DATE].” The date will be the date of first rejection within the 10-day transmission perfection timeframe.

4. The paper return must be signed by the taxpayer. The PIN that was used on the electronically filed return that was rejected may not be used as the signature on the paper return.

If the return is rejected, it is recommended that the following documents be retained:

- A copy of the **Submission Receipt** received from IRS (Transmitter)
- A copy of the rejected **Transmission File** (Transmitter)
- A copy of the rejected **Acknowledgement** (Everyone)

### 3.21.1 Resubmission of Rejected Applications for Filing Extensions

If the IRS rejects the application for a filing extension request, and the reason for the rejection cannot be corrected and re-transmitted, the Provider must take reasonable steps to inform the taxpayer of the rejection within 24 hours of receiving the acknowledgement. When the Provider advises the taxpayer that the extension has not been accepted, they must provide the taxpayer with the Business Rule explanation.

- If the electronic application for a filing extension can be re-transmitted, it must be filed by the due date of the return or 5 calendar days after the date the IRS gives notification the application for extension is rejected (whichever is later).
• If the electronic application for a filing extension cannot be accepted for processing electronically, the taxpayer must file a **paper** application for a filing extension. In order for the **paper** application for a filing extension to be considered timely, it must be filed by the later of the due date of the filing extension, or 5 calendar days after the date the IRS gives notification the filing extension is rejected. The **paper** application for a filing extension should include an explanation of why it is being filed after the due date and include a copy of the electronic rejection notification.

### 3.22 Integrating Data/Elections into Your Return

When filing a return on paper, all supporting data, transactional data, elections, disclosure statements and other items can be prepared in a variety of software packages and attached as documents to the paper return. When e-filing a return, these documents must be integrated and included in the electronic return. This section discusses how to handle these attachments in your electronic return. Complete instructions for all forms and potential attachments are contained in this publication and are available on each form family’s Schemas and Business Rules page.

**Note:** When e-filing a tax return, it is critical to select tax preparation software that will meet all of your tax return needs and properly support all forms and schedules required to file. IRS does not require Software Developers to support all forms, and Software Developers will create software based on the anticipated needs of their clients. The test scenarios created by IRS do not include all forms or schedules that can be part of an actual return. You should check with your Software Developer on the availability of the forms/schedules you need to e-file.

#### 3.22.1 Special Instructions for Consolidated Returns

MeF requires tax preparation software approved for electronic filing to use IRS forms for reporting data for each subsidiary return. In addition to the consolidated return, tax preparation software approved for electronic filing must allow taxpayers to create a separate “stacked return” for the parent and each subsidiary return. Tax preparation software must allow taxpayers to report Eliminations and Adjustments as a separate “stacked return”. Tax preparation software may also allow taxpayers to use spreadsheets for the internal review of the return, but IRS requires all subsidiary data to be formatted, transmitted and viewed by IRS as “stacked returns”.

MeF requires supporting data to be included in tax preparation software, see example provided below, or attached as scanned PDF files. IRS has reviewed all of the forms that may be attached as well as the instructions relevant to those forms and identified every instance in which taxpayers are required to attach supporting data. IRS has provided structured formats to Software Developers or has provided instructions to enter supporting data, such as PDF files in instances where IRS has not defined a format.

When IRS has defined structured formats, Software Developers are required to use these formats for developing tax preparation software approved by IRS for electronic
filing. It is the responsibility of Software Developers to provide appropriate instructions for taxpayers to enter supporting data to meet the IRS guidelines. Most Software Developers will allow taxpayers to import/export data from other sources. Taxpayers are encouraged to discuss available options with their Software Developer early to determine how to prepare supporting data for their electronic return.

When submitting a consolidated return, the software must provide the detail for each entity at the entity level and then roll that data up to the consolidated return. At a minimum, this roll-up information must be provided on any line where the form requires a statement or schedule to be attached (for example, Form 1120, Line 10, Other Income (attach schedule); Line 26, Other Deductions (attach schedule); and so on). However, there are forms and schedules that are transactional or informational in nature and cannot be mathematically consolidated or reported on the consolidated return. The transactional data flows to the consolidated return via a different form or schedule and the informational data is simply attached to the consolidated return. For example, Form 6252, Installment Sale Income, results for each transaction flow to the Form 4797, Sales of Business Property, and subsequently the data on the Form 4797 flows to the consolidated return. Form 8883, Asset Allocation Statement, provides informational data only and does not flow to any other schedule, form or a consolidated return.

Below is an example based on the data provided in the 1120 ATS Scenario 2 for a consolidated return. This example can be found on the Modernized e-File (MeF) Assurance Testing System (ATS) Update page.

**Table 3–11: Consolidated Return Example - Attachment 1, F1120, line 10, Other Income (ItemizedOtherIncomeSchedule)**

<table>

</tbody>
</table>

**Note:** Dependencies should be attached at the entity level and also rolled up to the consolidated return.

### 3.23 Preparing Supporting Data Required by IRS Forms or Form Instructions

MeF uses a rigid structure that must be used to create most supporting data. This structure is necessary to ensure tax preparation software creates supporting data that can be transmitted to and viewed by IRS systems. We have reviewed all MeF forms and instructions to identify every instance in which supporting data might be required. The XML Schemas available in MeF define formats that must be used to report the supporting data. In cases where we have specifically provided guidance, supporting data may be attached to the electronic return as a PDF file. Most Software Developers allow providers the ability to import/export data from other sources. Providers should discuss options for importing supporting data created in other formats into the tax preparation software. It is the Software Developer’s responsibility to provide taxpayers with appropriate instructions to enter supporting data that meets IRS guidelines. The following examples will assist providers in understanding how to prepare supporting data for electronic returns when required by form or form instructions. The examples below reflect specific forms, but the same guidelines for attaching supporting data apply to all form types filed electronically.
3.23.1 Example 1—Supporting data required by IRS forms

IRS publishes specific formats that Software Developers must use for this type of supporting data. In the example below, taxpayers must include (either by entering or importing) required data for the “type” and “amount of income” as indicated in tax preparation software instructions.

Figure 3–1: Supporting Data Required by IRS Forms
3.23.2 Example 2—Supporting data required by IRS form instructions.

IRS publishes specific formats that tax preparation software must use for supporting data required by form instructions. In the example below, taxpayers must include (either by entering or importing) required data for “description of property” and “depreciation method” as indicated by tax preparation software instructions.

Figure 3–2: Supporting Data Required by IRS Form Instructions
3.23.3 Example 3—Supporting data required as another IRS form

In the following example, form instructions require the taxpayer to attach another IRS form or statement as supporting data. Form 1120, Line 9 requires supporting data be provided using IRS Form 4797 or Form 4684; failure to use the required IRS form will cause the electronic return to reject.

For Form 1120, line 9, Form 4684, line 38a instructions indicate:

Taxpayers, other than partnerships and S-Corporations, if Form 4797 is not otherwise required, enter the amount from this line on page 1 of your tax return, on the line identified as from Form 4797. Next to that line, enter “Form 4684.”

Figure 3–3: Supporting Data Required as Another IRS Form
3.23.4 Example 4—Supporting data required for tables on IRS forms

When **required data exceeds the number of lines provided** on IRS forms, tax preparation software will allow the taxpayer to continue to enter all necessary data instead of creating an attachment. When the electronic data is transmitted and processed, the data will be displayed as “repeating data” by MeF systems.

**Note:** Large Taxpayers required to e-file should refer to the E-file for Large Business and International (LB&I) page for additional information regarding transactional data. Go to “Directions for Corporations to e-file” and click on the appropriate tax year.

![Depreciation and Amortization form]

**Figure 3–4:** Supporting Data Required for Tables on IRS Forms

Taxpayer data exceeds the number of lines provided on IRS forms.
3.24 General Dependency

The General Dependency was created to allow for the submission of information that is not specified in a predefined Schema. There are three General Dependencies available:

- “GeneralDependency,” available for Forms 1041, 1065 and 1120, is attached at the return level and allows for an explanation of up to 1,000,000 characters (e-file type is “LongExplanationType”).
- “GeneralDependencyMedium,” available for Forms 1041, 1120-F, 1120-S, 720, 2290 and 8849, is attached at the return level and allows for an explanation of up to 100,000 characters (e-file type is “MediumExplanationType”).
- “GeneralDependencySmall” is attached at the form or schedule level and allows for an explanation of up to 5,000 characters (e-file type is “TextType” with maximum length 5,000 characters). The “General DependencySmall” is available for:

  Form 851 Schedule M-3 (Form 1120-L)
  Form 926 Schedule M-3 (Form 1120-PC)
  Form 940 Schedule M-3 (Form 1120-S)
  Form 940-PR Schedule M-3 (Form 1065)
  Form 941 Schedule K-1 (Form 1065)
  Form 941-PR Form 3800
  Form 941-SS Form 4136
  Form 943 Form 4562
  Form 943-PR Form 4684
  Form 944 Form 5471
  Form 945 Form 5713
  Form 1041 Form 6765
  Form 1065 Form 8586
  Form 1118 Form 8834
  Form 1118AMT Form 8865
  Schedule M-3 (Form 1120) Form 8886
  Form 8938

Attach statements submitted as PDF files at the top-level return unless there is a reason they need to be attached to the form level of the General Dependency Schemas. The Element “SpecialConditionDesc”

The element “SpecialConditionDesc” applies to many MeF parent forms for use in situations that may affect e-filing during the processing year without having to update
Schemas with specific literals. The element "DisasterReliefTxt" is used in the Form 1041 and 94x series. Such situations might include, but are not limited to, natural disasters, changes due to late legislation, recent revenue procedures, and so on. Follow the IRS guidance for disaster relief to annotate the return with these elements.

### 3.25 Creating Elections Required by Forms or Form Instructions

IRS has reviewed all forms and form instructions to identify situations which require taxpayers to attach supporting data. Many of these requirements relate to elections. When an election is required by IRS forms or form instructions, IRS provides specific XML formats for each election that must be used by Software Developers for developing tax preparation software approved for electronic filing. Providers must use the defined format to enter data for these elections. The following examples are samples of elections required by form instructions.

#### Table 3–18: Examples of Elections Required by Form Instructions

<table>
<thead>
<tr>
<th>Form Instructions</th>
<th>Elections/Disclosure Statements Required by Regulations or Publications</th>
</tr>
</thead>
<tbody>
<tr>
<td>Form 1120</td>
<td>Dual Consolidated Losses Statement</td>
</tr>
<tr>
<td>Form 8697</td>
<td>De Minimis Exception Election</td>
</tr>
<tr>
<td>Form 4562</td>
<td>Election Not to Claim Special Depreciation Allowance</td>
</tr>
</tbody>
</table>

### 3.26 Creating Elections/Disclosure Statements Required by Regulations or Publications

MeF requires all disclosure statements and elections to be included in tax preparation software and transmitted to the IRS in one transmission file.

IRS reviews most regulations and publications to identify instances where corporations, partnerships and tax-exempt organizations can make elections. To allow companies to add additional information on their return, IRS created a “General Dependency” Schema. The General Dependency has a defined format and should be used by the taxpayers to report most disclosure statements and elections required by regulations or IRS publications. The General Dependency Schema format is provided to Software Developers for use with their tax preparation software, and developers should provide instructions for completing this Schema to its software users. The General Dependency Schema has the following data elements:

1. **Form Line or Instructions Reference** (optional) - This field should be completed when the election is being made based on information on IRS forms or form instructions and IRS has not defined a format. As discussed above, in most instances IRS has defined a format for these elections.

2. **Regulation Reference** (optional) - This field should be used to identify information for elections made based on information contained in Regulations or Publications.
3. **Description** (optional) - This field should be used to enter a brief explanation of the election.

4. **Attachment Information** (optional) - This field allows providers to include stream data (up to 1,000,000 characters).

IRS will allow all elections and/or disclosure statements with “columnar data” to be attached in PDF format.

### 3.26.1 Example 1—Creating Elections and/or Disclosure Statements With No Columnar Data

Election and/or disclosure statement data that does not contain columnar data must be reported using the General Dependency Schema included in tax preparation software.

<table>
<thead>
<tr>
<th>Regulation Reference</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>IRC Section 172(b)(3)</td>
<td>Election to Forego Net Operating Loss Carryback</td>
</tr>
</tbody>
</table>

Pursuant to IRC Sec. 172(b)(3), taxpayer hereby elects to relinquish the entire carryback period with respect to the net operating loss incurred in this tax year ended.

### 3.26.2 Example 2—Creating Elections and/or Disclosure Statements That Apply to Multiple Subsidiaries

Election and/or disclosure statement data that applies to multiple subsidiaries and does not contain columnar data must be reported using the General Dependency Schema included in tax preparation software.

<table>
<thead>
<tr>
<th>Regulation Reference</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>IRC Section 172(b)(3)</td>
<td>Election to Forego Net Operating Loss Carryback</td>
</tr>
</tbody>
</table>

Pursuant to IRC Sec. 172(b)(3), taxpayer hereby elects to relinquish the entire carryback period with respect to the net operating loss incurred in this tax year ended for the following subsidiaries:

- ABC Corporation
- DEF Corporation
- GHI Corporation
3.26.3 Example 3—Creating Elections and/or Disclosure Statements With Columnar Data

Elections and/or disclosure statements that require columnar data may be attached to the electronic return in PDF format. Create separate PDF files for each election and disclosure statement. Use the number of the Code Section or Regulation to create the name of the PDF file and description.

Table 3–21: Example 3—Creating Elections and/or Disclosure Statements With Columnar Data

<table>
<thead>
<tr>
<th>Regulation Reference</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>IRS Section 195(b)</td>
<td>Election to Amortize Start-Up Expenditures</td>
</tr>
</tbody>
</table>

- Taxpayer Name: ABC Corporation
- Taxpayer ID Number: 00-0000002
- Year-end: December 31, 2021

In accordance with IRC Sec. 195, taxpayer hereby elects to amortize all start-up expenditures over a period of XX months beginning with July XX, 20XX, the month that the corporation’s active trade or business began (or was acquired). The trade or business of the taxpayer to which this election relates is XXXXXX.

The start-up expense incurred is:

<table>
<thead>
<tr>
<th>Description of Start-Up Expense</th>
<th>Date</th>
<th>Incurred Amount</th>
</tr>
</thead>
</table>

3.27 Preparing Elections and/or Disclosure Statements That Require Supporting Data

Some elections and/or disclosure statements require supporting data that cannot be entered into a General Dependency Schema. IRS allows this type of supporting data to be submitted as a PDF file. The actual disclosure statement and/or election must be entered into the required format and only the supporting data may be submitted as a PDF file. Examples include “Election to Amortize a Bond Premium” or “Election for 100% Dividends Received Deduction.”

Note: If the data requested requires “columnar format,” submit these documents in PDF format until the IRS provides a structure to support columnar format.

We recommend that PDF files be attached at the top-level return unless there are reasons it should be attached at a form level or to the GeneralDependency Schema.

IRS Chief Counsel has provided guidance in T.D. 9329 and T.D. 9300 that allows corporations to retain supporting documentation in their offices rather than providing such documentation to IRS in a return. Please review these Treasury Decisions for full information.

Return to Table of Contents
3.28 **Electronic Postmark**

A Transmitter may provide an electronic postmark to taxpayers who file tax returns and extensions of time to file tax returns through an ERO or through an Online Provider (Online Filing). The Transmitter creates the electronic postmark bearing the date and time, in the Transmitter’s time zone, that the return is received at the Transmitter’s host computer. Adjust the electronic postmark to the time zone where the taxpayer resides to determine the postmark’s actual time.

**For example**, if the Transmitter provides an electronic postmark with a time in the Pacific time zone but the taxpayer resides in the Eastern time zone, the taxpayer must **add** three hours to the postmark time to determine the actual postmark time (Eastern time zone).

**Conversely**, if the Transmitter provides an electronic postmark with a time in the Eastern time zone but the taxpayer resides in the Pacific time zone, the taxpayer must **subtract** three hours from the postmark time to determine the actual postmark time (Pacific time zone).

If an electronic postmark is created on or before a prescribed deadline for filing but the return is received by the IRS after the prescribed filing deadline, the return will be treated as filed on the electronic postmark date if received within two (2) days of the electronic postmark. For a return to be treated as filed on the electronic postmark date, all requirements for signing the return must be met. If a return is rejected, a corrected return must be filed in accordance with the rules for timely filing corrected returns after rejection of an electronic return.
A Transmitter is authorized to provide an electronic postmark if the Transmitter:

- Creates an electronic postmark bearing the date and time, in the Transmitter’s time zone, the return was received by the Transmitter’s host system;
- Provides the electronic postmark to the taxpayer or the ERO no later than when the acknowledgement is made available to the taxpayer in a format that precludes alteration and manipulation of the electronic postmark information;
- Provides the same electronic postmark data to the IRS in the electronic record of the return;
- Upon request, provides taxpayers with an explanation of the electronic postmark and when the IRS treats the electronic postmark as the filing date;
- Refrains from using terms that currently have specific meaning in the postal industry such as “certified” or “registered” and similar terms, and from using “Internal Revenue Service,” “IRS” or “Federal” as a definer of the electronic postmark when discussing the electronic postmark, including in all advertising, product packaging, articles, press releases, and other presentations;
- Retains a record of each electronic postmark until the end of the calendar year and provides the record to the IRS upon request or for nine (9) months after the transmission date for fiscal year filers; and
- Transmits all tax returns and extensions of time to file that received an electronic postmark to the IRS within two days of receipt from the ERO, or from the taxpayer in the case of Online Filing.

3.29 MeF Routine Maintenance

IRS has established a routine system maintenance window for MeF, generally each Sunday from 1:00 a.m. to 7:00 a.m. Eastern time. This maintenance may result in intermittent downtime for Transmitters. The IRS has established MeF Internet Filing and MeF Status pages. See the MeF Status page, which provides near-real time notice to providers of the status of the systems. Providers are encouraged to check the status prior to e-filing their return(s) to ensure there are no system issues.

3.30 Ensuring Taxpayer Data Integrity

When IRS receives the transmission file, one of the first steps of processing the electronic return is to count the bytes received. Tax preparation software approved for electronic filing will compute a checksum value and embed the total in the submission file sent to IRS. The MeF system will also compute a checksum value of the submission file.
The MeF system will return the following two XML elements in the submission acknowledgement, whether the submission is accepted or rejected:

- `<EmbeddedCRC32>`
- `<ComputedCRC32>`

The taxpayer/ERO should check the data in the `<EmbeddedCRC32>` element and the `<ComputedCRC32>` element to ensure that the size of the file transmitted to the IRS is the same size as the file computed by the IRS. If there is a discrepancy between these two values, it is the responsibility of the ERO to contact the Transmitter to see if the file was changed before transmission.

For corporate returns, an Acknowledgment will reflect the **Taxable Income and Total Tax** amounts as shown in the submitted return. If these figures do not reflect what was included on the return you intended to file, you should immediately contact the e-help Desk (1-866-255-0654) for assistance.

### 3.31 MeF Fed/State Program

In partnership with states, the MeF Fed/State Program was developed to allow Transmitters to submit state and federal returns electronically.

MeF implemented the Forms 990 and 1120 Fed/State Programs in January 2006, the 1065 in January 2007, and the 1041 Fed/State program in January 2014. Currently, the states participating in the 1120/1065/1041 MeF Fed/State programs can be found on the [Federation of Tax Administrators (FTA)] site. Once you are on the FTA site, click on “Technology” then “Status of State Programs” from the left menu. Click on the link titled “Snapshots of the State Electronic Commerce Program.”

Transmitters sending in both federal and state returns can use either MeF Internet Filing Application (IFA) or Application-to-Application (A2A) transmission channels.

State returns may be linked to a federal return by including the Submission ID of the federal return in the State Manifest or the state return may be sent unlinked (stand-alone). If the state submission is linked to a federal submission (also referred to as a Fed/State return), the IRS will check to see if there is an accepted federal submission under that Submission ID.

A state retrieves its state returns via A2A, and Transmitters can retrieve receipts showing that the state has the returns. MeF will accept both federal submissions and state submissions. Each return/extension must be enclosed in a separate submission, but multiple submissions may be contained in a single message.

On linked returns, if there is not an accepted federal return, the IRS will deny the state submission and send an acknowledgement. If there is an accepted federal return under the Submission ID, MeF will perform minimal validation on the state submission,
including validation that the state shown in the state manifest is a state that participates in the applicable 990, 1065, 1120 or 1041 Fed/State Program. MeF will then pass along to the state what the ERO/Transmitter sends in the State submission. If the ERO/Transmitter does not link the state return to a previously accepted federal return (also referred to as a State Standalone return), then MeF will perform minimal validation as described above, including validation that the state allows State Standalone returns. MeF will then pass along to the state the entire state submission sent in by the ERO/taxpayer.

**Note:** A state return is comprised of both state and a federal portion. The taxpayer provides both components based on state requirements. The only information IRS passes on to the state is what the taxpayer provided. The state generates the acknowledgement for the state return and sends it to the MeF system for the Transmitter to retrieve.

In addition, for Forms 990/990-EZ/990-PF, as part of the federal return, a filer can request that a copy of the federal return be provided to one or more participating states. Upon receipt of the request, IRS will validate that the state(s) is participating in the Fed/State program. If it is, then IRS will send a redacted copy of the accepted return to the state agency(s). Items that are always redacted from the state copy include, but are not limited to,

- the PIN or Form 8453-EO,
- the request for the copy and
- payment information included with Form 990-PF.
- In addition, the IRS may redact Schedule B if a state does not require it.

MeF will process the IRS submission and generate an acknowledgement for each submission and copy of IRS Forms 990/990-EZ/990-PF forwarded to a state. If the Federal 990 series return is rejected, however, no copies will be forwarded to the state. A state is responsible for validating each of its state submissions, and for generating a state acknowledgement for each state submission to be returned to the IRS for Transmitter retrieval.

Both federal and state returns must be submitted in IRS-approved XML format. Federal returns must conform to valid IRS Schema versions. State returns must conform to the return structure specified by IRS, and include elements defined for the specific state data.

Access the corporate, partnership and estate and trust link to the State Master Schema on the [FTA E-Standards](https://www.irs.gov) website. For more information about a specific state’s e-file program, visit that state’s website.
4 MeF Information for Specific Forms

4.1 Employment Tax Returns

PY 2022 Forms 940, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 944 and 945 cannot be e-filed for:

- Amended Returns
- Annual Returns with Tax Periods ending prior to December 31, 2019
- Quarterly Returns with Tax Periods prior to the first quarter 2019
- Short Period Returns

4.2 Tax-Exempt Organization Returns

The Taxpayer First Act of 2019 requires e-filing of Forms 990, 990-EZ, 990-PF, 990-T, and 4720 as reported in Section 1-11 of this publication.

- The e-file limitations for Tax Year 2021 for Forms 990, 990-EZ, 990-PF and 1120-POL are listed below. TY 2021 Forms 990, 990-EZ, 990-PF cannot be e-filed for early filed returns; in other words, filed before end of tax year, except for final returns.

TY 2021 Form 1120-POL cannot be e-filed for:

- Returns with non-numbered attachments/schedules, unless allowed for an attached form shared with Forms 1120/1120-S, for which an IRS format has not been developed.

The e-file limitations for Tax Year 2019 for Forms 990, 990-EZ, 990-PF and 1120-POL are listed below.

TY 2019 Forms 990 and 990-EZ cannot be e-filed for:

- Name change returns,
- Returns from organizations not recognized as exempt (for example, application pending),
- Returns showing a change in accounting period,
- Short period returns, except for short period initial or final returns,
- Early filed returns, (in other words, filed before end of tax year, except for final returns).
TY 2019 Form 990-PF cannot be e-filed for:

- Returns from organizations not recognized as exempt (for example, application for exemption pending),
- Foreign private foundations,
- Name change returns,
- "Limited" 990-PFs, (in other words, "Limited" 990-PFs are filed by organizations that originally received advance rulings as public charities but were later determined to be private foundations),
- Foundations in 60-month terminations,
- Short period returns, except for short period initial or final returns.

TY 2021, 2020, 2019 Form 1120-POL cannot be e-filed for:

- Short period returns, except for short period final returns,
- Name change returns,
- Returns with non-numbered attachments/schedules, unless allowed for an attached form shared with Forms 1120/1120-S, for which an IRS format has not been developed.

The e-file limitations for Tax Years 2021, 2020 and 2019 for Forms 990-N and 8868 are listed below.

TY 2021, 2020, 2019 Form 990-N (e-Postcard) cannot be e-filed for:

- Returns from organizations not recognized as exempt (for example, application for exemption pending),
- Returns with attachments,
- Organizations required to file Form 990, Form 990-EZ, Form 990-PF or Form 1120-POL,
- Organizations that are included in a group return,
- Section 509(a) (3) supporting organizations required to file Form 990 or Form 990-EZ.

Note: This filing requirement does not apply to churches, their integrated auxiliaries, and conventions or associations of churches.
TY 2021, 2020, 2019 Form 8868 cannot be e-filed for:

- Form 8870
- Form 8868 will not be accepted for TY2019 extensions in 2022.
- Form 4720 (individual)

4.2.1 TY 2021, 2020, 2019 Form 990-N (e-Postcard)

Small tax-exempt organizations, whose gross receipts are normally $50,000 or less, are not required to file Form 990, Return of Organization Exempt From Income Tax, or Form 990-EZ, Short Form Return of Organization Exempt From Income Tax. With the enactment of the Pension Protection Act of 2006 (PPA), these small tax-exempt organizations are required to file Form 990-N, also known as e-Postcard, with the IRS annually. Form 990-N must be filed electronically; it cannot be filed on paper.

File Form 990, 990-EZ or 990-PF in lieu of Form 990-N for the following organizations, even if their gross receipts are normally $50,000 or less:

- Private foundations required to file Form 990-PF
- Section 509(a) (3) supporting organizations required to file Form 990 or Form 990-EZ.

In addition, the Form 990-N filing requirement does not apply to churches, their integrated auxiliaries, and conventions or associations of churches. Organizations that have not been recognized as tax-exempt, including those with applications pending, must first call Customer Account Services at 1-877-829-5500, a toll-free number, to update their account before filing Form 990-N.

Beginning in 2008, small tax-exempt organizations that previously were not required to file returns may be required to file an annual electronic notice, Form 990-N. This filing requirement applies to tax periods beginning after December 31, 2006. Organizations that do not file the notice will lose their tax-exempt status. The same return due dates apply to Form 990-N as for Form 990 series returns.

Note: Requests for an extension of time to file are not allowed for Form 990-N.

4.3 Estate and Trusts

TY 2021, 2020, 2019 Form 1041

Form 1041 can only be e-filed through the MeF platform in PY2022. The Legacy system was retired at the end of PY2015 and is no longer accessible.
4.4 Partnership Returns

TY 2021, 2020, 2019 Form 1065

Common Trust Fund Returns can now be e-filed for 2019, 2020 and 2021.

TY 2021 Forms 1120/1120-S/1120-F cannot be e-filed for:

- Returns with tax periods ending December 31, 2018 or prior,
- Returns covering multiple tax periods,
- Prompt Assessments.

4.4.1 1120 Family Forms that cannot be e-filed as a Stand-Alone Return at the Parent Level

Corporations required to e-file subsidiary returns for the following forms must file them in XML format. For additional information, refer to the Directions for Corporations to e-file, TY2021 link on the e-file for Large Business and International (LB&I) page.

<table>
<thead>
<tr>
<th>Form</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1120-L</td>
<td>Life Insurance Company</td>
</tr>
<tr>
<td>1120-PC</td>
<td>Property and Casualty</td>
</tr>
</tbody>
</table>

If any of the forms listed below are filed as stand-alone returns (in other words, not part of a consolidated return), they must be filed on paper since they are not currently processed on the MeF system. However, if any of the following forms are part of a consolidated return, they may be attached in PDF format. They should be named appropriately and attached to the top-level consolidated return.

<table>
<thead>
<tr>

Return to Table of Contents
The 1120X cannot be e-filed as a stand-alone return. It must be submitted as an attachment to an 1120 return.

| 1120X | Amended Return |

### 4.4.2 Special Instructions for Form 1120 Section 847, Special Estimated Tax Payments for Tax Year 2019

If a taxpayer is required to make or apply Special Estimated Tax Payments (SETPs) under Section 847 in addition to its regular estimated tax payments, the amount should be included in total estimated tax payments on line 14, Schedule J, Part III. Your software should allow you to enter “Form 8816” or “Section 847 Deduction” and the amount. Making the appropriate entries should assist the IRS in properly accounting for a taxpayer’s SETPs and may eliminate the need to correspond with the taxpayer to obtain clarification of the type and amount of payments claimed.

### 4.4.3 Special Instructions for Form 8838 When Filed with Form 1120

The signature on Form 1120 extends to all accompanying statements and schedules with the exception of Form 8838, Consent to Extend the Time to Assess Tax Under Section 367 – Gain Recognition Agreement. Attach a signed copy of Form 8838 to the Form 1120/1120-S/1120-F as a PDF file with the description “Form 8838.”

### 4.5 Application for Automatic Extension of Time to File Certain Business Income Tax, Information and Other Returns—Form 7004

All the returns listed on Form 7004 are eligible for an automatic extension of time to file from the due date of the return. The instructions for Form 7004 describe exceptions that apply to foreign corporations without offices or places of business in the United States, foreign and certain domestic corporations and certain partnerships.

The Form 7004 does not extend the time for payment of tax. Refer to the Form 7004 instructions for additional information on payment of tax and balance due.

**TY 2021 Form 7004 cannot be e-filed for:**

- Name change applications,
- Requests for refunds,
- Applications requesting extension due to change in accounting period unless prior approval has been applied for from IRS or certain conditions have been met. See Publication 538, Accounting Periods and Methods, for further details.
- Applications with Net Operating Loss Carryback. Form 1138 should be sent separately and not with the 7004.
• Applications attaching a Power of Attorney (POA). The POA should be sent separately and not with the 7004.
• Early filed returns (in other words, returns filed before the end of tax period).
• Any condition or requirement not supported by software that requires the submission of a paper document or form.
• Filing short period extension due to termination of 1120-S status.
• Extensions for the following forms:
  - Form 706-GS(D), Generation-Skipping Transfer Tax Return for Distributions
  - Form 8612, Return of Excise Tax on Undistributed Income of Real Estate Investment Trusts
  - Form 8613, Return of Excise Tax on Undistributed Income of Regulated Investment Companies
  - Form 8725, Excise Tax on Greenmail
  - Form 8831, Excise Taxes on Excess Inclusions of REMIC Residual Interests
  - Form 8876, Excise Tax on Structured Settlement Factoring Transactions

4.6 Application for Extension of Time to File an Exempt Organization Return—Form 8868

Use Form 8868, Application for Extension of Time to File an Exempt Organization Return, to request an extension of time to file.

Beginning January 2013, individuals can mail in an extension of time to file Form 4720 to report and pay their individual excise taxes using their SSN. For paper submissions only, individuals extending Form 4720 should submit a paper Form 8868 and enter Return Code “03” and their SSN. For e-filed submissions: Corporations extending Form 4720 should continue to enter Return Code “09” and their EIN.

MeF accepts requests for extension of time to file for all forms listed on Form 8868 with the exception of Form 8870, which must be filed in paper format. MeF accepts Forms 8868 from all organizations not recognized as exempt (application pending, and so on); extensions for short period returns; extensions for Forms 990-BL and 6069; extensions for group returns; and extensions for composite or consolidated Forms 990-T.

An accepted acknowledgement of the electronic Form 8868 serves as IRS approval of the extension.

**Form 8868**, Application of Extension of Time to File an Exempt Organization Return, does not require a signature unless a payment is submitted with the form. If providing a payment, you may use the Practitioner PIN or the scanned Form 8453-EO method to submit the extension application and payment.
An extension will be rejected if it is not received by the IRS due date of the applicable return.

**Note:** For purposes of determining timeliness of the extension, the received date is the electronic postmark, if present, or the IRS received date in the GTX Key. To avoid rejecting extensions from filers or Transmitters in a different time zone from the IRS system, the time zone differences are taken into consideration.

### 4.7 Excise Tax e-File and Compliance (ETEC)

**TY 2022 Forms 720, 2290 and 8849 that cannot be e-filed for:**

- **Form 2290** -- no returns will be accepted for tax periods prior to July 1, 2020, effective July 1, 2022.
- **Form 720** -- no returns will be accepted prior to first quarter 2020.
- **Form 8849** – no returns will be accepted prior to 2020.

#### 4.7.1 ETEC Extension Requests:

- Extensions can be requested on Form 2290,
- No extension to file Form 720,
- No extension to file Form 8849.

### 4.8 Return Due Dates and Accepted Forms and Schedules

The return due date and extended due date tables and the list of accepted forms and schedules are available on each form family’s Schemas and Business Rules page at [IRS.gov](https://www.irs.gov).

**Note:** Form 8849 has various due dates depending on which schedule is being filed. If the Form 8849 is not filed timely, certain claims can be filed on the income tax return using Form 4136, provided the statute of limitations has not expired on the income tax return and the Form 4136 instructions allow the credit.

## 5 IRS e-File for Large Taxpayers Filing Their Own Corporate Income Tax Return

### 5.1 Purpose of Section 5

This chapter provides an additional source of information for Large Taxpayers and certain businesses which choose to electronically file their income tax returns directly with the IRS rather than using an ERO.
For purposes of electronic filing, the IRS defines a **Large Taxpayer** as a business or other entity (excluding partnerships) with assets of $10 million or more, or a partnership with more than 100 partners (asset criteria does not apply to partnerships), which originates the electronic submission of its own return(s).

- These taxpayers may choose to electronically file their own corporate return or use a Provider.
- A Provider is a company or individual that has applied, passed suitability and been accepted by IRS to e-file individual or business income tax returns.
- A list of the **Approved IRS e-file for Business Providers** can be found on the Modernized e-File (MeF) Program Information page on [IRS.gov](https://www.irs.gov).

If you do not meet the Large Taxpayer criteria:

- Assets of $10 million or more (does not apply to partnerships), or
- A partnership with more than 100 partners (asset criteria does not apply to partnerships)

STOP—you MUST use an Authorized IRS e-file Provider.
Certain Large Taxpayers and Tax-Exempt Organizations Required to e-File:

1. Large Taxpayers who file 250 or more returns ending on or after December 31, 2008, and had total assets of $10 million or more;

2. Partnerships with more than 100 partners are required to electronically file their tax return.

“Returns Filed” includes an aggregate of:

- Income tax returns
- Returns under Section 6033
- Information returns
- Excise tax returns
- Employment tax returns

Required e-Filing of Forms 990 and 990-PF for Certain Large Tax-Exempt Organizations:

- **Form 990**: For tax years ending on or after December 31, 2006, exempt organizations with $10 million or more in total assets may be required to e-file if the organization files at least 250 returns in a calendar year, including income, excise, employment tax and information returns. See e-File for Charities and Non-Profits on the IRS.gov web page.

- **Form 990-PF**: Private foundations and non-exempt charitable trusts are required to file Forms 990-PF electronically regardless of their asset size, if they file at least 250 returns annually.

5.2 Why Certain Large Taxpayers are Required to e-File

On November 13, 2007, the Internal Revenue Service issued final Treasury Regulations, which were announced in T.D. 9363, IRB 2007-49. These final regulations update and clarify the rules and procedures for corporations and organizations required to file their returns electronically.
The regulations require electronic filing of:

- Forms 1120 and 1120-S by corporations required to file at least 250 returns during the calendar year, required to file corporate income tax returns and that had total assets of $10 million or more as shown on Schedule L of their Form 1120 and 1120-S, for taxable years ending on or after December 31, 2006.
- The same criterion for the requirement to e-file applies to Form 1120-F returns for tax years ending on or after December 31, 2006.
- The regulations also required electronic filing of Form 990-PF, regardless of total assets, by organizations required to file at least 250 returns during the calendar year.

Except as described in the preamble, the final regulations clarify that the electronic filing requirement applies to Forms 1120, 1120-S and 1120-F, including amended and superseding returns.

The determination of whether a corporation is required to file at least 250 returns is made by aggregating all returns (regardless of type) that the entity is required to file over the calendar year. Examples include income tax returns, returns required under Section 6033, information returns, excise tax returns and employment tax returns.

5.3 How to Meet the Requirement to e-File

As a large taxpayer, you must decide if you are going to use an ERO or prepare and e-file your return yourself.

If you elect to use an ERO, STOP—the following instructions in this section do not pertain to you.

If you elect to e-file your return yourself, you have the following three options from which to choose:

**Online Provider**—You may transmit through an Online Provider. You prepare and send your corporate return to a Provider. The provider will act as an Online Provider who then transmits your return to IRS. You do NOT need to register and apply as a Large Taxpayer. The Online Provider uses their ETIN and EFIN on your behalf.

**Direct Transmission**—You transmit your corporate return directly to IRS with no assistance from another entity. You must register and apply as a Large Taxpayer to obtain an ETIN to transmit your return and an EFIN to originate the return.

**Third-Party Transmitter**—You prepare and send your corporate return to a Provider who then transmits your return to IRS. You must register and apply as a Large Taxpayer in order to obtain an EFIN to originate the return.
Important! Be sure to verify the transmission methods the software vendor provides through its tax preparation software. For example, if the software vendor is not a Transmitter, then you will have to either transmit your return yourself or find an Online Provider or Third-Party Transmitter who can transmit your return for you.

Table 5–1: How to Meet the Requirements to E-File

<table>
<thead>

## 5.4 How to Register and Apply to e-file as a Large Taxpayer

- It is recommended that you complete the e-Services Secure Access registration and IRS e-file Application process at least 45 days before you plan to file your electronic return.
- If you plan to transmit your own return, you should complete the e-Services Secure Access Registration and IRS e-file application at least 60 days prior to filing your return.
- Transmitting your own return requires communications testing to ensure connectivity with IRS.

Registration for e-Services allows individuals to conduct business electronically with the IRS. To register for e-Services, follow the guidance in Section 5.4.1, *Register with E-Services*.

All Responsible Official(s) and Delegated User(s) within your corporation who will be responsible for e-filing your corporate return and/or creating or maintaining your corporate IRS e-file Application will need to individually register with e-Services. If you have already created a personal online account with the IRS, you will use the same Secure Access account profile for e-Services.

The Responsible Official is not required to be a Corporate Officer or a Principal of the Firm.

### 5.4.1 Register with E-Services

To register for e-Services, go to the e-Services page and select the link for the family of products you want to access (for example, e-File Provider Services, Transcript Delivery System (TDS)), then the link for the appropriate Application/Product and follow the online guidance.

### 5.4.2 Apply to e-File

First, determine who will perform certain functions for your corporation and gather the necessary information required to complete the application. Determine:

- Who will be your Responsible Official(s)? Up to five are allowed; the IRS recommends that you have **at least two** for back-up purposes and the authorities they will have.
- Who will be your Delegated Users and what authorities they will have?
- How you will transmit your return (see Section 5.6).

Below are definitions that will help you to determine who will act as Responsible Officials and Delegated Users.

#### 5.4.2.1 Responsible Official

- An individual with responsibility for and authority over your e-file operation.
• An individual who is the first point of contact with the IRS and has the authority to create, revise and sign your IRS e-file application.

• An individual who is responsible for ensuring that your corporation adheres to the provisions of all publications and notices governing IRS e-file. If one individual cannot fulfill these responsibilities, up to four additional Responsible Officials may be identified for a total of five.

• An individual who is a U.S. citizen or legal resident alien (lawful permanent resident) and has attained the age of 18 as of the date of the application.

You will need the following information for each Responsible Official you want to add to your corporation’s IRS e-file application:

• Name
• Social Security Number or Individual Taxpayer Identification Number
• Position Title
• Date of Birth
• Email Address
• Phone Number

5.4.2.2 Delegated User
A Delegated User is an individual within your firm/organization, other than a Responsible Official, who is an employee, partner, or other member of the firm/organization or who has a business relationship with the firm/organization.

The information you will need for each Delegated User you want to add to your corporation’s IRS e-file application includes:

• Name
• Social Security Number
• Title
• Email address

5.4.2.3 Authorities
You are able to modify what “authorities” the Responsible Official(s) and Delegated User(s) have. The Responsible Official that creates the corporation’s IRS e-file application can authorize any or all of the following permissions for either Responsible Officials or Delegated Users.

Authority to:

• View the corporation’s IRS e-file Application Information
• Update the corporation’s IRS e-file Application Information
• Sign and submit the corporation’s revised IRS e-file Application
• Add, delete or change Responsible Officials
• Be designated as the corporation’s MeF Internet Transmitter (Internet Filing Application (IFA) is the primary method for Large Taxpayers)
• Be designated as the corporation’s MeF System Enroller (Application-to-Application (A2A) limited usage)

It is important that Responsible Officials and/or Delegated Users and their authorities be deleted from the IRS e-file Application when they are no longer associated with the Large Taxpayer or when their position within the firm no longer warrants one or more authorities.

There are two distinct differences in creating an IRS e-file Application as a Large Taxpayer versus an individual/firm who is in the business of preparing and/or transmitting tax returns for profit.

1. Suitability checks are not performed on the Responsible Officials of Large Taxpayers.

2. You will be assigned both an EFIN and an ETIN on the completion of your IRS e-file application.

It is important to become familiar with the rules and requirements for participation in IRS e-file program by reading the applicable IRS e-file documents. Publications and other information about IRS e-file and related topics, including state filing information, can be found at IRS.gov. Links to many of the publications are included in a later section of this publication.

Specific instructions for the e-file application process can be found in the tutorial. To access these tutorials, go to the e-Services page, select e-File Provider Services, then select Access e-File Application. Once signed in, select the Online Tutorials and the e-File Application Tutorial.

If you are experiencing problems as you complete your IRS e-file Application, contact the IRS e-help Desk at 1-866-255-0654 for assistance.

As a reminder, when you are in e-Services, you are in a secure environment. Do not use your browser “back” or “forward” arrows! Use the navigation buttons on the screens for “next” or “previous.”

5.5 What is Different in Preparing Returns to e-File

Most corporations have been using software to prepare their returns for years. With the requirement to e-file, the challenge is to integrate all of the supporting data, transactional data, elections, disclosure statements and other items with your return. These documents can be prepared in a variety of software packages; with paper filing, you would just attach the document to your return. This section discusses how to handle these attachments. Additional information may be found in Sections 3 and 4.

IRS requires all tax preparation software used for preparing electronic returns to pass the requirements for ATS. IRS approved software must be used to prepare returns.

IRS does not require software vendors to support all forms. They are allowed to develop their tax preparation software based on the needs of their clients. You should ensure that your software vendor supports all of the forms/schedules (for example, amended and short year return capabilities); you may need to e-file your return. Generally, waivers are not granted for software limitations.

5.5.1 Traditional Paper Filing Process

When taxpayers prepare paper consolidated corporate income tax returns, spreadsheets are commonly used to report the required data for each subsidiary. These spreadsheets are commonly attached to report subsidiary data on Form 1120, other attached IRS forms such as Form 4562, and for supporting data (in other words, other income statement). These spreadsheets are attached to the consolidated return and mailed to IRS.

Taxpayers use tax preparation software to prepare most of their paper corporate income tax returns but may also use other formats (Word, Excel, and so on) to prepare supporting data. The documents containing supporting data are then attached to the portion of the return prepared by tax preparation software and mailed to IRS.

5.5.2 MeF Filing Process

MeF requires tax software approved for electronic filing to use IRS forms for reporting data for each subsidiary return. IRS provides all the Business Rules and XML Schema requirements for each form, schedule and attachment. Generally, if a Schema is provided for a specific form, the data must be submitted in the XML format provided. MeF requires supporting data to be included in tax preparation software or attached as PDF files. Statements with “columnar data” may be attached in PDF format.

5.5.3 Consolidated Returns

In addition to the parent return, tax software approved for electronic filing should allow taxpayers to create a separate “stacked return” for each subsidiary. Tax preparation software should allow taxpayers to report Eliminations and Adjustments as a separate “stacked return.” Tax preparation software may also allow taxpayers to use
spreadsheets for the internal review of the return, but IRS requires all subsidiary data to be formatted and transmitted to IRS as “stacked returns.”

Business Rules are generally enforced only at the top level consolidated return. The following Business Rules are exceptions to the general rule and are applied to all levels of a consolidated return. They include Business Rules R0000-061-001, SUTP-F1120-001, SI-F1118-001, SJ-F5471-001, SM-F5471-001, SO-F5471-001, SA-F5713-001, SB-F5713-001, SC-F5713-001, SM-F8858-001, SK1-F8865-001, SO-F8865-001, and SP-F8865-001.

5.5.4 Aggregation of Data from Different Sources
Most software packages allow taxpayers to import and/or export data from other sources. Taxpayers are encouraged to discuss available options with their software vendor early in the return preparation process to determine how to prepare supporting data. Detailed examples and instructions on how to include supporting data can be found in Section 3.9, Attaching Portable Document Format Files and on the e-file for Large Business and International (LB&I) Corporations page. Select the link for Guidance for Naming Portable Documents Format (PDF) files. That link will take you to Recommended Names and Descriptions for PDF Files attached to Modernized e-File (MeF) Business Submissions for guidance on naming the attached PDF files.

In many instances, information on schedules attached to Form 1065 will be the same schedules required to be filed with Form 8865, Return of U.S. Person with Respect to Certain Foreign Partnerships.

- You should copy the data from the Form 1065 completed Schedules B, D, K, K-1, L, M-1 and/or M-2 to the corresponding Form 8865 schedules and submit them with Form 8865.
- Do not attach these schedules with the Form 1065.

5.5.5 Attaching Data Not Defined in XML Schemas
When taxpayers prepare corporate income tax returns on paper, they may or may not use tax preparation software to prepare the disclosure statements and/or elections required by Treasury Regulations or various IRS Publications. They may use a variety of programs (Word, Excel, and so on) to prepare the numerous disclosure statements and/or elections based on the unique needs of the particular return.

Unless specifically listed in the Recommended Names and Descriptions for PDF Files attached to Modernized e-File (MeF) Business Submissions, or required to be presented in columnar or tabular format, all disclosure statements and elections to be included with the return must be submitted in the specified XML format. MeF provides Schema for many of the common elections and disclosures. In the event that a specific Schema is not available, taxpayers should use the General Dependency Schema. The General Dependency Schema allows taxpayers to identify the disclosure statement/election using the following data elements:
• Form Line or Instructions Reference (optional),
• Regulation Reference (optional),
• Description (optional),
• Attachment Information (optional).

There are three General Dependencies available. Specific information about using these dependencies can be found in 3.24, General Dependency.

Detailed examples and instructions on how to prepare the disclosure statements and/or elections can be found in 3.26, Creating Elections/Disclosure Statements Required by Regulations or Publications.

5.5.6 Attaching Data in PDF Format

Some disclosure statements and/or elections may require supporting data that cannot be entered into the specified formats, (for example, Plans of Merger, Plans of Reorganization, meeting notes). In June 2007, IRS issued T.D. 9329, “Guidance Necessary to Facilitate Business Electronic Filing and Burden Reduction” which eliminated reporting burdens and also eliminated regulatory impediments to the electronic filing of certain statements taxpayers are required to include on or with their Federal income tax returns. Please refer to T.D. 9329 for specific information.

In the event this type of supporting data is still required, it may be exported to the appropriate XML Schema, if your software supports it, or attached to the electronic return as a PDF file. The actual disclosure statement and/or election must be entered into the required XML format and only the supporting data submitted as PDF.

Each file attached to a return must contain a unique, meaningful title and description for the attachment. If the description of the file is not representative of its contents, it may result in a delay in the return processing.

The following examples of descriptions may also delay processing:

• “Other”
• “PDF Attachment”
• “Miscellaneous Information”

The description will be used to identify the attachment when the IRS displays the PDF. For example: “Foreign Tax Credit Carryover.”

5.5.7 T.D. 9300 - Eliminating Signature Requirements for Certain Forms

Many forms that may be attached to a return have separate signature lines.

These signature requirements impeded electronic filing by:

• Requiring taxpayers to include third-party signatures on their tax returns,
• Requiring taxpayers to attach documents or statements generated by third-parties,
• Requiring a taxpayer to sign an IRS form and file it as an attachment to the taxpayer’s income tax return.

The regulations in T.D. 9300 provide that in a number of situations, the signature on a taxpayer’s return covers attachments to that return. See T.D. 9300 for specifics.

5.5.8 Return Address and Name Control
The address on the first page of the electronic return, once processed by the IRS, will be used to update the taxpayer’s address-of-record. The IRS uses a taxpayer’s address-of-record for various notices that are required to be sent to a taxpayer’s “last known address” under the Internal Revenue Code and for refunds of overpayments of tax, unless otherwise specifically directed by taxpayers, such as by Direct Deposit.

Returns with a foreign address in the entity portion of the Form 1120/1120-S/1120-F may be filed electronically.

There will be instances in the preparation of the tax returns, forms or attachments when a two character Foreign Country Code is required. The code should always be the code of the Foreign Country or Foreign Sovereignty as recognized by the US State Department. For example, Scotland, Wales, and England are part of the foreign country United Kingdom. The Foreign Country Code for United Kingdom is UK. The Balearic Islands are a part of Spain and should be coded as Spain, “SP”. These are just a few examples.

When entering foreign addresses on the return or form, the state or republic, such as Scotland or England, can be entered with the city, “London, England” and the country as “United Kingdom” or “UK”. For a complete listing, refer to the Foreign Country Codes page.

The Name Control for corporations should be determined from the information specified on the first name line. Generally, the Name Control is derived from the first four characters of the corporation name and consists of up to four alpha and/or numeric characters. See Using the Correct Name Control in e-filing Corporate Tax Returns for a detailed explanation of business Name Controls.

5.5.9 Signing the Electronic Return
Since corporate returns filed through MeF are composed of electronically-transmitted data, a method is necessary for the corporate officer to legally sign the return. The corporation must designate an officer of the firm responsible for signing the corporate income tax return following the procedures outlined in Treasury Regulation Section 1.6062-1.
IRS developed Forms 8453-(C/S/I) for corporations to attach to their return.

- 8453-C - U.S. Corporation Income Tax Declaration for an IRS e-file Return
- 8453-S - U.S. Corporation Income Tax Declaration for an IRS e-file Return
- 8453-I - Foreign Corporation Income Tax Declaration for an IRS e-file Return

As the return is prepared, there will be numerous supporting document attachments, including the applicable Form 8453, which should be scanned and attached to the return as a Portable Document Format (.pdf) document. The corporate officer must sign and date the applicable Form 8453, to authorize the origination of the electronic submission of the return, prior to the transmission of the return. The “Declaration of Officer” includes the officer’s declaration under penalties of perjury that the return is true, correct and complete. If a third-party Transmitter is used to transmit the return, the Form 8453-(C/S/I) also gives the officer’s consent to have the IRS send that third-party Transmitter an acknowledgement indicating whether or not the return was accepted and, if rejected, the reason(s) for the rejection. The third-party Transmitter will then provide that acknowledgement to the officer. If a Paid Preparer is hired to review and sign the return, then the paid preparer must also sign the Form 8453-(C/S/I). The Paid Preparer must check the box in the “Paid Preparer’s Use Only” section. Paid Preparers do not have to disclose their SSN or EIN on the copies they supply to taxpayers.

You **MUST retain the original** applicable Form 8453 (such as 8453C/S/I) that is physically signed by your corporation’s officer. It is recommended this information be retained for minimum of three years from the due date or extended due date of the tax return.

**Note:** If the electronic return data on a corporate income tax return is changed after the Declaration of Taxpayer is signed, you **MUST** sign a new declaration if the “Total Income” amount differs by more than $150 or the “Taxable Income” amount differs by more than $100.

Tax preparation software approved for electronic filing should include the applicable Forms 8453 which must be completed and signed by all required parties. These documents will then be scanned into a PDF document and attached to the electronic return. IRS approved MeF software will provide instructions for including the scanned document with the electronic tax return.

In the event you are unable to file your return electronically and the e-help Desk has directed you to file your return on paper, the corporate officer **MUST** sign the paper copy of the tax return before it is filed. Form 8453- (C/S/I) is **NOT** a valid signature option when filing a paper copy of a tax return. Detailed guidance can be found on the e-file for Large Business and International (LB&I) page.
5.6 How to Transmit Electronic Returns to the IRS

There are different methods in which a return can be transmitted to IRS. The IRS’s definition of a Transmitter is someone who sends the electronic tax return directly to the IRS. A Transmitter must complete an IRS e-file Application and be approved by IRS to transmit returns. Transmitters use an ETIN as they transmit returns to the IRS. A large taxpayer, who completes an IRS e-file Application, is issued an ETIN that is used to transmit the return directly to IRS. Large taxpayers who choose to use a Third-Party Transmitter do not require the ETIN.

The software that a developer creates has to be approved by IRS. The submissions must be formatted in XML. MeF performs validations of the transmission and return data through Business Rules, Schema validations, Simple Object Access Protocol (SOAP) envelope validation, Transmission Header and Manifest validation which applies to both Internet Filing Application (IFA) and Application-to-Application (A2A) transmissions.

5.6.1 Transmission Channels

Internet Filing Application (IFA) is a direct, secure Internet connection that requires a person to initiate the transmission session. IFA provides a browser-based interface that allows an individual the ability to easily upload a return and transmit it securely over the Internet. The speed at which the return transmits over the Internet depends on the speed the Internet Service Provider (ISP) provides.

As identified in the IRS e-file Application procedures, one or more of your Delegated Users must be designated as a “MeF Internet Transmitter.” It is highly recommended to designate more than one Delegated User to ensure you have a backup. If the corporation chooses to transmit their own return, the Authorized MeF Internet Transmitter will access IFA through the Modernized e-File (MeF) Internet Filing link. For additional specific instructions, including screen shots for transmitting through IFA refer to Publication 4164.

Prior to being moved to production status, the MeF Internet Transmitter must perform a communications test with the IRS to verify that you are able to transmit electronic return data to the IRS. Your ETIN is in a “test” status until you perform this communications test with IRS. After successful connectivity, you must contact the e-help Desk at 1-866- 255-0654 to have your ETIN moved from “test” status to “production” status. Large Taxpayers do NOT need to perform a communications test each year. They perform the communications test the first year only. Software packages may have communication tests built in so completing this requirement is relatively easy. Follow directions in the software or documentation package, if problems occur contact the Software Developer who sold the software or contact the technical support operation that comes with the software package.

The status of each form type transmitted to the IRS can be viewed by accessing the firm’s IRS e-file Application and clicking on the “Forms” link. The form/format previously selected on your IRS e-file Application will be displayed in a table along with the status. The status is updated from “test” to “production” when required communication testing is
completed. For more information regarding communication testing, refer to Publication 5078.

**Application-to-Application (A2A)** uses secure Internet connections to communicate with MeF using Simple Object Access Protocol (SOAP) messages. You can find more information in Publication 4164.

When an A2A transmission is complete, a receipt is created that is the response to the Send Submissions message. The next step is for MeF to validate the transmission file and the electronic returns and generate an Acknowledgement File, which is the official notification that the electronic return was Accepted (no errors) or Rejected (errors identified). If the electronic return is rejected, the Acknowledgement File will contain an Error Code Explanation(s) that can be used to identify and correct errors. The IRS makes the Acknowledgement File available for the Transmitter to retrieve as soon as MeF processing is completed.

5.6.2 **Methods of Transmission**

There are three options in which to e-file your tax returns.

The first method is **Direct Transmission**, which allows you, as the corporation, to file your return directly with IRS. As a Transmitter, you will be responsible for the following:

- Transmitting returns to IRS through IFA or A2A,
- Retrieving the Acknowledgement File from IRS within two days of transmission,
- Promptly correcting any transmission error that causes the electronic transmission to be rejected,
- Ensuring the security of all transmitted data,
- Contacting the IRS e-help Desk toll-free number 1-866-255-0654 for further instructions if an Acknowledgement of acceptance for processing has not been received within 24 hours of transmission.

Refer to **Publication 4164** for specific information on transmitting returns and correcting errors.

The second method is through a **Third-Party Transmitter**. This method involves having a Provider transmit your corporation’s return to IRS. Contact the Third-Party Transmitter for instructions.

The third method is **Online Provider**. This option allows you to prepare your return and send it to the Online Provider, who will transmit the return for you. There is no ERO involved in this process.
5.6.3 **Retrieving an Acknowledgement**

After transmitting a return, you will need to retrieve the acknowledgement. The Acknowledgement File is the official notification that the electronic return was Accepted (no errors) or Rejected (errors identified).

The Large Taxpayer transmitting the corporation's own return must retain the Acknowledgement file that contains the Acceptance Status "Accepted" as proof that their return was accepted by the IRS. A Status Record that shows that a return was "Acknowledged" is not proof that the return was Accepted. The Status Record shows that an Acknowledgement was generated but does not provide the status of the Acknowledgement - "Rejected" or "Accepted."

If the electronic return is rejected, the Acknowledgement File will contain an Error Code Explanation(s), which should be used to identify and correct errors. IRS makes the Acknowledgement File available for the MeF Internet Transmitter to “pick up” as soon as MeF processing is completed.

Download the acknowledgement following the steps as outlined in *Publication 4164*. The acknowledgement is an XML file.

The following is an example of an **accepted acknowledgement** for an 1120 Federal Return:

```xml
<?xml version="1.0" encoding="UTF-8"?>
<AcknowledgementList xmlns="http://www.irs.gov/efile"
                       xmlns:efile="http://www.irs.gov/efile"
                       xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance">
    <Count>1</Count>
                     xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance">
        <SubmissionId>00000000000000000000</SubmissionId>
        <EFIN>000000</EFIN>
        <GovernmentCode>IRS</GovernmentCode>
        <TaxYear>2021</TaxYear>
        <SubmissionType>1120</SubmissionType>
        <SubmissionCategory>CORP</SubmissionCategory>
        <ElectronicPostmark>2022-02-17T09:30:47Z</ElectronicPostmark>
        <AcceptanceStatus>Accepted</AcceptanceStatus>
        <ContainedAlerts>false</ContainedAlerts>
        <StatusDate>2022-02-17</StatusDate>
        <IRSSubmissionId>00000000000000000000</IRSSubmissionId>
        <TIN>000000000</TIN>
        <IRSReceivedDate>2022-02-17</IRSReceivedDate>
        <TaxPeriodEndDate>2021-12-31</TaxPeriodEndDate>
        <PaymentIndicator>Payment Request Received</PaymentIndicator>
        <CompletedValidation>true</CompletedValidation>
        <EmbeddedCRC32>0x0</EmbeddedCRC32>
    </Acknowledgement>
</AcknowledgementList>
```
5.6.3.1 **Elements of the Acknowledgement**

- SubmissionID is the identifying number given to your return.
- EFIN is your Electronic Filing Identification Number.
- Government Code identifies whether the return was a federal or state return.
- Submission Type identifies the form (1120, 1120-S, 1065, and so on).
- Tax Year identifies the tax year of the return.
- Submission Category identifies the return type: corporate, partnership, employment or exempt organization return. This allows acknowledgements to be downloaded by submission category.
- Electronic Postmark is the date and time the ERO or taxpayer submitted the return to the Transmitter. In the case of a Large Taxpayer who is transmitting their own return, the Electronic postmark should **NOT** be used.
- Acceptance Status is the status indicating whether the return was accepted or rejected.
- Contained Alerts indicates if the acknowledgement contains one or more Alert.
- Status Date is the date the acknowledgement was created.
- TIN will be either an SSN or EIN. If submission category is “Ind”, then it is an SSN, otherwise an EIN.
- EIN is the Employer Identification Number of the entity filing the return.
- IRS Received Date is the date the IRS considers the return to have been received.
- Tax Period End Date is the date indicated on the return as the Tax Period Ending Date.
- Completed Validation indicates if the return completed both the Schema and Business Rule validation. This is particularly important if the return was rejected. If the completed Validation is “No” (false), there may be additional errors identified when the return is resubmitted.
- Embedded CRC32 is the hash total your software package calculated per the zip file submitted.
- Computed CRC32 is the hash total the IRS computed per the zip file submitted. If the Embedded CRC32 and Computed CRC32 totals do not agree, contact the IRS e-help Desk.
• Taxable Income is the amount you entered on the Taxable Income line of your Form 1120, 1120-F or 1041 return. For the Form 1120-S return, this is the amount you entered from Total Income/Loss. Compare this amount with what is actually on your return. If the amounts do not match, contact your software vendor or IRS e-Help Desk.

• Total Tax is the amount you entered on the Total Tax line of your Form 1120, 1120-S, 1120-F or 1041 return. Compare this amount with what is actually on your return. If the amounts do not match, contact your software vendor or IRS e-Help Desk.

• Net Income/Loss is the amount you entered on the Net Income (Loss) line in the Analysis of Net Income Loss section of your Form 1065 return. Compare this amount with what is actually on your return. If the amounts do not match, contact your software vendor or IRS e-Help Desk.

5.7 Timely Filed Electronic Returns
All prescribed due dates for filing paper income tax returns apply to electronic returns. Transmitters must ensure that the electronic return is transmitted on or before the due date, including extensions. An electronically filed return is not considered filed until the tax return, including the signature document or Practitioner PIN process, has been acknowledged and accepted by the IRS.

If you use a Third-Party Transmitter or an Online Provider, they may provide an Electronic Postmark. The Transmitter or Online Provider creates the Electronic Postmark bearing the date and time, in the Transmitter's/Online Provider's time zone, the return is received at their host computer. Your IRS Received Date is initially determined using the electronic postmark, based on the Transmitter’s time zone. If there is a question of the timeliness of your return, and the Transmitter/Online Provider is located in a different time zone, your actual received date will be determined by adjusting the electronic postmark to the time zone where you are located.

For example, if the Transmitter provides an electronic postmark with a time in the Pacific Time Zone but the taxpayer resides in the Eastern Time Zone, the taxpayer must add three hours to the postmark time to determine the actual postmark time (Eastern Time Zone).

Conversely, if the Transmitter provides an electronic postmark with a time in the Eastern Time Zone but the taxpayer resides in the Pacific Time Zone, the taxpayer must subtract three hours from the postmark time to determine the actual postmark time (Pacific Time Zone).

If you are filing directly with IRS, your return is deemed filed when the tax return has been acknowledged and accepted by the IRS. Taxpayers filing directly may NOT use the electronic postmark.
All accepted Acknowledgements will include the “IRS Received Date” which is the date in which IRS deems the return received.

When a transmitted electronic business return is rejected, there is a 10-day Transmission Perfection Period to perfect that return for electronic re-transmission. The yearly cutover period does not extend the 10-day Transmission Perfection Period. The perfection period is never extended regardless of weekends, holidays or the end of the year cutoff.

For Form 7004, Application for Automatic Extension of Time To File Certain Business Income Tax, Information, and Other Returns, the perfection period is 5 days.

Perfection of the return for electronic re-transmission generally means that the originally signed return may have errors in the format of the XML or errors that cause the return to fail the IRS e-file Schema validation or Business Rules.

When a previously rejected electronic return is “Accepted” by the IRS within the 10-day Transmission Perfection Period, it will be deemed to have been received on the date of the first reject that occurred within that 10-day period. More detailed information and examples can be found in Section 3.20, Transmission Perfection Period.

Notice 2010-13 provides that a taxpayer required to e-file can request a waiver from the electronic filing requirement when it cannot meet the electronic filing requirements. Before filing a paper return, corporations, partnerships and tax-exempt organizations required to e-file must contact the e-help Desk (1-866-255-0654) to attempt to resolve the reject conditions. If the error conditions cannot be resolved, these taxpayers must receive authorization from the e-help Desk before filing a paper return.

To be considered timely filed, this paper return must be postmarked by the later of the due date of the return (including extensions) or 10 calendar days after the date the IRS last gives notification that the return was rejected.

Follow the steps below to ensure that the paper return is identified as a rejected electronic return and the taxpayer is given credit for the date of the first reject within the 10-day transmission perfection period:

1. The taxpayer must call the IRS e-help Desk (1-866-255-0654) to advise that they have not been able to have their return accepted.

2. The taxpayer should prepare the paper return and include the following:

   - An explanation of why the paper return is being filed after the due date,
   - A copy of the reject notification (acknowledgement), and
   - A brief history of actions taken to correct the electronic return.
3. Write in red at the top of the first page of the paper return - **REJECTED ELECTRONIC RETURN – [DATE]**. The date will be the date of first reject within the 10-day transmission perfection timeframe.

4. The paper return must be signed by the taxpayer. The PIN that was used on the electronically filed return that was rejected may not be used as the signature on the paper return.

If the return is rejected, it is recommended that the following documents be retained:

- A copy of the Submission Receipt received from IRS (Transmitter)
- A copy of the rejected Transmission File (Transmitter)
- A copy of the rejected Acknowledgement (Everyone)

It is not required, but it is recommended Large Taxpayers also retain a copy of the electronic return data after it is formatted into XML and before it is transmitted to IRS or a third-party Transmitter. In the unlikely event there is a dispute concerning electronic data displayed by MeF systems, this file could be used as proof of the data as originally transmitted. Both IRS and the Transmitter are required to retain a separate copy of the electronic return in the original format.

6  **Appendix**

### 6.1  **References**

Accepted Forms and Schedules, lists accepted forms and schedules for each form type and tax year, available via MeF Schemas and Business Rules page.
