

You may qualify for an online payment option for business taxes – it's fast, easy and secure.

Paying your taxes in full and on time is always best because it avoids unnecessary penalties and interest. If you can't pay the full amount, you may want to consider a payment agreement to pay your liability in installments.

If you own a business, owe \$25,000 or less in combined payroll and most other business taxes, penalties and interest, and can pay the full amount within 24 months, you can request a payment agreement online using the Online Payment Agreement application. There's no need to call or write the IRS because you can make the request directly from your computer and you will know immediately if your request is approved. It's easy, and your personal information is safe and secure.

You can even set up a Direct Debit Installment Agreement, which allows for automatic debits from your checking account for the agreed amount. This means there are no checks to write and mail, and no late or missed payments that could lead to additional penalties. In addition, the \$130 fee to establish an installment agreement is reduced to \$31 for Direct Debit Installment Agreements.

To apply for a payment plan, or get more information, go to [IRS.gov/PaymentPlans](https://www.irs.gov/PaymentPlans) and follow the three easy steps to submit your application.

1 Determine your eligibility...	2 Gather your information...	3 Submit your application
