

Quality Site Requirements for Alternative Filing Models

for SPEC Partners and Employees

Introduction

The purpose of all Quality Site Requirements (QSR) is to ensure the quality and accuracy of tax return preparation and consistent operation of sites. Although originally written with the traditional Volunteer Income Tax Assistance (VITA) and Tax Counseling for the Elderly (TCE) site models in mind, the QSR still apply to alternative filing models.

The chart below is a guide describing how all QSR apply to the three alternative filing models: Virtual VITA/TCE, 100% Virtual and Facilitated Self-Assistance (FSA). For additional guidance refer to the publications outlined below.

QSR Applicable to Alternative Filing Models

- For a complete description of each QSR refer to **Publication 5166**, VITA/TCE Volunteer Quality Site Requirements.
- Virtual VITA/TCE sites are sites where any part of the tax return preparation process is completed without in-person interaction between the taxpayer and the VITA/TCE volunteer. The site must explain to the taxpayer the process used to prepare the taxpayer's return. If applicable, volunteers must advise the taxpayer of the associated risk of transferring their data from one site location to another site. For a more in-depth description of options for a virtual site, refer to **Publication 5450**, VITA/TCE Site Operations.
- Sites where the taxpayer does not leave the site's property, for example waiting in another room or in a vehicle, are not considered drop off sites or virtual VITA/TCE sites. Since the taxpayer remains at the site, they are not required to complete **Form 14446**, Virtual VITA/TCE Taxpayer Consent. If the taxpayer leaves their tax documents at the site and then leaves the site's property for any reason, the taxpayer must complete Form 14446.
- The 100% Virtual model involves a tax preparation process where no in-person interaction between the taxpayer and the volunteer takes place. The site must explain the 100% Virtual method for the site including the consent, file sharing and communication processes. Taxpayers must sign and complete Form 14446 for 100% Virtual VITA/TCE sites. For more information about 100% Virtual sites, refer to Publication 5450.

- Follow the guidance in **Publication 4299**, Privacy, Confidentiality and Civil Rights – A Public Trust, for security requirements for remote or virtual communications such as phone, email, chat or video conference.
- FSA sites can be stand-alone, fusion (co-located with a traditional site) or remote (taxpayer can self-prepare the return from any computer with internet access and receive assistance remotely). A remote FSA site does not have a physical location.
