Introduction
If your deductions for the year are more than your income for the year, you may have a net operating loss (NOL). An NOL year is the year in which an NOL occurs. You can use an NOL by deducting it from your income in another year or years.

What this publication covers. This publication discusses NOLs for individuals, estates, and trusts. It covers:

- When to use an NOL
- How to claim an NOL deduction, and

NOL Steps

Follow Steps 1 through 5 to figure and use your NOL.

Step 1. Complete your tax return for the year. You may have an NOL if a negative amount appears on the line below.
- Individuals — Form 1040, line 41, or Form 1040NR, line 39.
- Estates and trusts — See the instructions for Form 1041, line 22, for information about taxable income and NOLs.

Step 2. Determine whether you have an NOL and its amount. See How To Figure an NOL later. If you do not have an NOL, stop here.

Step 3. Decide whether to carry the NOL back to a past year or to waive the carryback period and instead carry the NOL forward to a future year. See When To Use an NOL, later.

Step 4. Deduct the NOL in the carryback or carryforward year. See How To Claim an NOL Deduction, later. If your NOL deduction is equal to or less than your taxable income without the deduction, stop here — you have used up your NOL.

Step 5. Determine the amount of your unused NOL. See How To Figure an NOL Carryover, later. Carry over the unused NOL to the next carryback or carryforward year and begin again at Step 4.

Note. If your NOL deduction includes more than one NOL amount, apply Step 5 separately to each NOL amount, starting with the amount from the earliest year.

How To Figure an NOL

If your deductions for the year are more than your income for the year, you may have an NOL.

There are rules that limit what you can deduct when figuring an NOL. In general, the following items are not allowed when figuring an NOL.
- Any deduction for personal exemptions.
- Capital losses in excess of capital gains.
- The section 1202 exclusion of the gain from the sale or exchange of qualified small business stock.
- Nonbusiness deductions in excess of non-business income.
- The net operating loss deduction.
- The domestic production activities deduction.

Form 1045, Schedule A. Use Form 1045, Schedule A, to figure an NOL. The following discussion explains Schedule A.

First, complete Form 1045, Schedule A, line 1, using amounts from your return. If line 1 is a negative amount, you may have an NOL.

Next, complete the rest of Form 1045, Schedule A, to figure your NOL.

Nonbusiness deductions (line 6). Enter on line 6 deductions that are not connected to your trade or business or your employment. Examples of deductions not related to your trade or business are:
- Alimony paid.
- Deductions for contributions to an IRA or a self-employed retirement plan.
- Health savings account deduction.
- Archer medical savings account deduction.
- Most itemized deductions (except for casualty and theft losses, state income tax on trade and business income, and any employee business expenses), and
- The standard deduction.

Do not include on line 6 the deduction for personal exemptions for you, your spouse, or your dependents.

Do not enter business deductions on line 6. These are deductions that are connected to your trade or business. They include the following:
- State income tax on income attributable to trade or business (including wages, salary, and unemployment compensation).
- Moving expenses.
- Educator expenses.
- The deduction for the deductible part of self-employed health insurance.
- Domestic production activities deduction.
- Rental losses.
- Loss on the sale or exchange of business real estate or depreciable property.
- Your share of a business loss from a partnership or an S corporation.
- Ordinary loss on the sale or exchange of stock in a small business corporation or a small business investment company.
- If you itemize your deductions, casualty and theft losses (even if they involve non-business property) and employee business expenses (such as union dues, uniforms, tools, education expenses, and travel and transportation expenses).
- Loss on the sale of accounts receivable (if you use an accrual method of accounting).
- Interest and litigation expenses on state and federal income taxes related to your business.
- Unrecovered investment in a pension or annuity claimed on a decedent’s final return.
- Payment by a federal employee to buy back sick leave used in an earlier year.

Nonbusiness income (line 7). Enter on line 7 only income that is not related to your trade or business or your employment. For example, enter your IRA distributions, pension benefits, social security benefits, annuity income, dividends, and interest on investments.
Also, include your share of nonbusiness income from partnerships and S corporations.

Do not include on line 7 the income you receive from your trade or business or your employment. This includes salaries and wages, self-employment income, unemployment compensation included in your gross income, and your share of business income from partnerships and S corporations. Also, do not include rental income or ordinary gain from the sale or other disposition of business real estate or depreciable business property.

Adjustment for section 1202 exclusion (line 17). Enter on line 17 any gain you excluded under section 1202 on the sale or exchange of qualified small business stock.

Adjustments for capital losses (lines 19–22). The amount deductible for capital losses is limited based on whether the losses are business capital losses or nonbusiness capital losses.

Nonbusiness capital losses. You can deduct your nonbusiness capital losses (line 2) only up to the amount of your nonbusiness capital gains without regard to any section 1202 exclusion (line 3). If your nonbusiness capital losses are more than your nonbusiness capital gains without regard to any section 1202 exclusion, you cannot deduct the excess.

Business capital losses. You can deduct your business capital losses (line 11) only up to the total of:

- Your nonbusiness capital gains that are more than the total of your nonbusiness capital losses and excess nonbusiness deductions (line 10), and
- Your total business capital gains without regard to any section 1202 exclusion (line 12).

Domestic production activities deduction (line 23). You cannot take the domestic production activities deduction when figuring your NOL. Enter on line 23 any domestic production activities deduction claimed on your return.

NOLs from other years (line 24). You cannot deduct any NOL carryovers or carrybacks from other years. Enter the total amount of your NOL deduction for losses from other years.

Form 1045, Schedule A Example

The following example describes how to figure an NOL.

Example. Glenn Johnson is in the retail record business. He is single and has the following income and deductions on his Form 1040 for 2017.

\[
\begin{align*}
\text{INCOME} & \\
\text{Wages from part-time job} & \$1,225 \\
\text{Interest on savings} & 425 \\
\text{Net long-term capital gain on sale of real estate used in business} & 2,000 \\
\text{Glenn’s total income} & \$3,650 \\
\end{align*}
\]

DEDUCTIONS

<tr>
<td>Glenn’s total deductions</td>
<td>$16,400</td>
</tr>
</tbody>
</table>

Glenn’s deductions exceed his income by $12,750 ($16,400 – $3,650). However, to figure whether he has an NOL, certain deductions are not allowed. He uses Form 1045, Schedule A, to figure his NOL.

The following items are not allowed on Form 1045, Schedule A.

- Nonbusiness net short-term capital loss | $1,000
- Nonbusiness deductions (standard deduction, $6,350) minus nonbusiness income (interest, $425) | 5,925
- Deduction for personal exemption | 4,050
- Total adjustments to net loss | $10,975

Therefore, Glenn’s NOL for 2017 is figured as follows.

When To Use an NOL

Generally, if you have an NOL for a tax year ending in 2017, you must carry back the entire amount of the NOL to the 2 tax years before the NOL year (the carryback period), and then carry forward any remaining NOL for up to 20 years after the NOL year (the carryforward period). You can, however, choose not to carry back an NOL and only carry it forward. See Waiving the Carryback Period, later. You cannot deduct any part of the NOL remaining after the 20-year carryforward period.

NOL year. This is the year in which the NOL occurred.

Exceptions to 2-Year Carryback Rule

Eligible losses, farming losses, qualified disaster losses, and specified liability losses, all defined next, qualify for longer carryback periods.

Eligible loss. The carryback period for eligible losses is 3 years. Only the eligible loss portion of the NOL can be carried back 3 years. An eligible loss is any part of an NOL that:

- Is from a casualty or theft, or
- Is attributable to a federally declared disaster for a qualified small business or certain qualified farming businesses.

Qualified small business. A qualified small business is a sole proprietorship or a partnership that has average annual gross receipts (reduced by returns and allowances) of $5 million or less during the 3-year period ending with the tax year of the NOL. If the business did not exist for this entire 3-year period, use the period the business was in existence.

An eligible loss does not include a farming loss or a qualified disaster loss.

Farming loss. The carryback period for a farming loss is 5 years. Only the farming loss portion of the NOL can be carried back 5 years. A farming loss is the smaller of:

1. The amount that would be the NOL for the tax year if only income and deductions attributable to farming businesses were taken into account, or
2. The NOL for the tax year.

Farming business. A farming business is a trade or business involving cultivation of land or the raising or harvesting of any agricultural or horticultural commodity. A farming business can include operating a nursery or sod farm or raising or harvesting most ornamental trees or trees bearing fruit, nuts, or other crops. The raising, shearing, feeding, caring for, training, and management of animals is also considered a farming business.

A farming business does not include contract harvesting of an agricultural or horticultural commodity grown or raised by someone else. It also does not include a business in which you merely buy or sell plants or animals grown or raised entirely by someone else.

Waiving the 5-year carryback. You can choose to figure the carryback period for a farming loss without regard to the special 5-year carryback rule. To make this choice for 2017, attach to your 2017 income tax return filed by the due date (including extensions) a statement that you are choosing to treat any 2017 farming losses without regard to the special 5-year carryback rule. If you filed your original return on time but did not file the statement with it, you can make this choice on an amended return filed within 6 months after the due date of the return (excluding extensions). Attach an election statement to your amended return, and write “Filed pursuant to section 301.9100-2” at the top of the statement. Once made, this choice is irrevocable.

Qualified disaster loss. The carryback period for a qualified disaster loss is 5 years. Only the qualified disaster loss portion of the NOL can be carried back 5 years. A qualified disaster loss is the smaller of:

1. The sum of:
   a. Any losses attributable to a federally declared disaster and occurring before January 1, 2010, in the disaster area, plus
   b. Any qualified disaster expenses that were allowable under section 199A (even if you did not choose to treat those expenses as deductions in the current year), or
2. The NOL for the tax year.
Excluded losses. A qualified disaster loss does not include any losses from property used in connection with any private or commercial golf course, country club, massage parlor, hot tub facility, suntan facility, or any store for which the principal business is the sale of alcoholic beverages for consumption off premises.

A qualified disaster loss also does not include any losses from any gambling or animal racing property. Gambling or animal racing property is any equipment, furniture, software, or other property used directly in connection with gambling, the racing of animals, or the on-site viewing of such racing, and the portion of any real property (determined by square footage) that is dedicated to gambling, the racing of animals, or the on-site viewing of such racing, unless this portion is less than 100 square feet.

Specified liability loss. The carryback period for a specified liability loss is 10 years. Only the specified liability loss portion of the NOL can be carried back 10 years. Generally, a specified liability loss is a loss arising from:

- Product liability and expenses incurred in the investigation or settlement of, or opposition to, product liability claims, or
- An act (or failure to act) that occurred at least 3 years before the beginning of the loss year and resulted in a liability under a federal or state law requiring:
  1. Reclamation of land,
  2. Dismantling of a drilling platform,
  3. Remediation of environmental contamination, or
  4. Payment under any workers’ compensation act.

Any loss from a liability arising from (1) through (4) above can be taken into account as a specified liability loss only if you used an accrual method of accounting throughout the period in which the act (or failure to act) occurred. For details, see section 172(f).

Waiving the 10-year carryback. You can choose to figure the carryback period for a specified liability loss without regard to the special 10-year carryback rule. To make this choice for 2017, attach to your 2017 income tax return filed by the due date (including extensions) a statement that you are choosing to treat any 2017 specified liability losses without regard to the special 10-year carryback rule. If you file your original return on time but did not file the statement with it, you can make this choice on an amended return filed within 6 months after the due date of the return (excluding extensions). Attach a statement to your amended return and write “Filed pursuant to section 301.9100-2” at the top of the statement. Once made, this choice is irrevocable.

Waiving the Carryback Period

You can choose not to carry back your NOL. If you make this choice, then you can use your NOL only in the 20-year carryforward period. (This choice means you also choose not to carry back any alternative tax NOL.)

To make this choice, attach a statement to your original return filed by the due date (including extensions) for the NOL year. This statement must show that you are choosing to waive the carryback period under section 172(b)(3).

If you file your original return on time but did not file the statement with it, you can make this choice on an amended return filed within 6 months of the due date of the return (excluding extensions). Attach a statement to your amended return, and write “Filed pursuant to section 301.9100-2” at the top of the statement.

Once you choose to waive the carryback period, it generally is irrevocable. If you choose to waive the carryback period for more than one NOL, you must make a separate choice and attach a separate statement for each NOL year.

If you do not file this statement on time, you cannot waive the carryback period.

How To Claim an NOL Deduction

If you have not already carried the NOL to an earlier year, your NOL deduction is the total NOL. If you carried the NOL to an earlier year, your NOL deduction is the carried over NOL minus the NOL amount you used in the earlier year or years.

If you carry more than one NOL to the same year, your NOL deduction is the total of these carrybacks and carryovers.

NOL resulting in no taxable income. If your NOL is more than the taxable income of the year you carry it to (figured before deducting the NOL), you generally will have an NOL carryover to the next year. See How To Figure an NOL Carryover, later, to determine how much NOL you have used and how much you carry to the next year.

Deducting a Carryback

If you carry back your NOL, you can use either Form 1045 or Form 1040X. You can get your refund faster by using Form 1045, but you have a shorter time to file it. You can use Form 1045 to apply an NOL to all carryback years. If you use Form 1040X, you must use a separate Form 1040X for each carryback year to which you apply the NOL.

Estates and trusts that do not file Form 1045 must file an amended Form 1041 (instead of Form 1040X) for each carryback year to which NOLs are applied. Use a copy of the appropriate year’s Form 1041, check the “Amended return” box, and follow the Form 1041 instructions for amended returns. Include the NOL deduction with other deductions not subject to the 2% limit (line 15a). Also, see the special procedures for filing an amended return due to an NOL carryback, explained under Form 1040X, later.

Form 1045. You can apply for a quick refund by filing Form 1045. This form results in a tentative adjustment of tax in the carryback year.

If the IRS refunds or credits an amount to you from Form 1045 and later determines that the refund or credit is too much, the IRS may assess and collect the excess immediately.

How To Carry an NOL Back or Forward

If you choose to carry back the NOL, you must first carry the entire NOL to the earliest carryback year. If your NOL is not used up, you can carry the rest to the next earliest carryback year, and so on.

If you waive the carryback period or do not use up the NOL in the carryback period, carry forward what remains of the NOL to the 20 tax years following the NOL year. Start by carrying it to the first tax year after the NOL year. If you do not use it up, carry the unused part to the next year. Continue to carry any unused part of the NOL forward until the NOL is used up or you complete the 20-year carryforward period.

Example 1. You started your business as a sole proprietor in 2017 and had a $42,000 NOL for the year. No part of the NOL qualifies for the 3-year, 5-year, or 10-year carryback. You begin using your NOL in 2015, the second year before the NOL year, as shown in the following chart.

If your loss were larger, you could carry it forward until the year 2037. If you still had an unused 2017 carryforward after the year 2037, you would not be allowed to deduct it.

Example 2. Assume the same facts as in Example 1, except that $4,000 of the NOL is attributable to a casualty loss and this loss qualifies for a 3-year carryback period. You begin using the $4,000 in 2014. As shown in the following chart, $3,000 of this NOL is used in 2014. The remaining $1,000 is carried to 2015 with the $38,000 NOL that you must begin using in 2015.

Generally, you must file Form 1045 on or after the date you file your tax return for the NOL year, but not later than one year after the end of the NOL year. If the last day of the NOL year falls on a Saturday, Sunday, or holiday, the form will be considered timely if postmarked on the next business day. For example, if you are a calendar year taxpayer with a carryback from 2017 to 2015, you must file Form 1045 on or after the date you file your tax return for 2017, but no later than December 31, 2018.

**Form 1040X.** If you do not file Form 1045, you can file Form 1040X to get a refund of tax because of an NOL carryback. Generally, file Form 1040X for the carryback year within 3 years after the due date, including extensions, for filing the return for the NOL year. For example, if you are a calendar year taxpayer, you must generally file a claim for refund because of an NOL carryback from 2015 by April 15, 2019 (3 years after the due date for the NOL return).

**Filing Form 1040X does not extend the carryback period. See When To Use an NOL earlier.**

Attach a computation of your NOL using Form 1045, Schedule A, and, if it applies, your NOL carryover using Form 1045, Schedule B, discussed later.

**Refuguring your tax.** To refugure your total tax liability for a carryback year, first refugure your adjusted gross income for that year. (On Form 1045, use lines 10 and 11 and the “After carryback” column for the applicable carryback year.) Use your adjusted gross income after applying the NOL deduction to refugure income or deduction items that are based on, or limited to, a percentage of your adjusted gross income. Refugure the following items:

1. The special allowance for passive activity losses from rental real estate activities.
2. Taxable social security and tier 1 railroad retirement benefits.
3. IRA deductions.
4. Excludable savings bond interest.
5. Excludable employer-provided adoption benefits.
6. The student loan interest deduction.
7. The tuition and fees deduction.

If more than one of these items apply, refugure them in the order listed above, using your adjusted gross income after applying the NOL deduction and any previous item. (Enter your NOL deduction on Form 1045, line 10. On line 11, use the “After carryback” column, enter your adjusted gross income refugured after applying the NOL deduction and after refuguring any above items.)

Next, refugure your taxable income. (On Form 1045, use lines 12 through 15 and the “After carryback” column.) Use your refugured adjusted gross income (Form 1045, line 11, using the “After carryback” column) to refugure certain deductions and other items that are based on or limited to a percentage of your adjusted gross income. Refugure the following items:

- The itemized deduction for medical expen-
- The itemized deduction for qualified mort-
- The itemized deduction for casualty los-
- Miscellaneous itemized deductions subject to the 2% limit.
- The overall limit on itemized deductions (does not apply to carryback years begin-
- The phaseout of the deduction for exemp-
- Do not refugure the itemized deduction for charitable contributions.

Finally, use your refugured taxable income (Form 1045, line 15, using the “After carryback” column) to refugure your total tax liability. Refugure your income tax, your alternative minimum tax, and any credits that are based on or limited by your adjusted gross income (AGI), modified adjusted gross income (MAGI), or tax liability. (On Form 1045, use lines 16 through 30, and the “After carryback” column.) The earned income credit, for example, may be affected by changes to adjusted gross income or the amount of tax (or both) and, therefore, must be recomputed. If you become eligible for a credit because of the carryback, complete the form for that specific credit (such as the EIC Worksheet) for that year.

While it is necessary to refugure your income tax, alternative minimum tax, and credits, do not refugure your self-employment tax and additional medicare tax. For information about refuguring your net investment income tax, shared responsibility payment, and credits, see the Instructions for Form 1045.

**Deducting a Carryforward**

If you carry forward your NOL to a tax year after the NOL year, list your NOL deduction as a negative figure on the “Other income” line of Form 1040 or Form 1040NR (line 21 for 2017). Estates and trusts include an NOL deduction on Form 1041 with other deductions not subject to the 2% limit (line 15a for 2017).

You must attach a statement that shows all the important facts about the NOL. Your statement should include a computation showing how you figured the NOL deduction. If you deduct more than one NOL in the same year, your statement must cover each of them.

**Change in Marital Status**

If you and your spouse were not married to each other in all years involved in figuring NOL carrybacks and carryovers, only the spouse who had the loss can take the NOL deduction. If you file a joint return, the NOL deduction is limited to the income of that spouse.

For example, if your marital status changes because of death or divorce, and in a later year you have an NOL, you can carry back that loss only to the part of the income reported on the joint return (filed with your former spouse) that was related to your taxable income. After you deduct the NOL in the carryback year, the joint rates apply to the resulting taxable income.

**Refund limit.** If you are not married in the NOL year (or are married to a different spouse), and in the carryback year you were married and filed a joint return, your refund for the overpaid joint tax may be limited. You can claim a refund for the difference between your share of the refugured tax and your contribution toward the tax paid on the joint return. The refund cannot be more than the joint overpayment. Attach a statement showing how you figured your re-

**Figuring your share of a joint tax liability.** There are five steps for figuring your share of the refugured joint tax liability:

1. Figure your total tax as though you had filed as married filing separately.
2. Figure your spouse’s total tax as though your spouse also had filed as married filing separately.
3. Add the amounts in (1) and (2).
4. Divide the amount in (1) by the amount in (3).
5. Multiply the refugured tax on your joint re-

**Figuring your contribution toward tax paid.** Unless you have an agreement or clear evidence of each spouse’s contributions toward the payment of the joint tax liability, figure your contribution by adding the tax withheld on your wages and your share of joint estimated tax payments or tax paid with the return. If the original return for the carryback year resulted in an overpayment, reduce your contribution by your share of the tax refund. Figure your share of a joint payment or refund by the same method used in figuring your share of the joint tax liability. Use your taxable income as originally report-

**Change in Filing Status**

If you and your spouse were married and filed a joint return for each year involved in figuring NOL carrybacks and carryovers, figure the NOL deduction on a joint return as you would for an individual. However, treat the NOL deduction as a joint NOL.

If you and your spouse were married and filed separate returns for each year involved in figuring NOL carrybacks and carryovers, the spouse who sustained the loss may take the NOL deduction on a separate return.

Special rules apply for figuring the NOL car-

**Separate to joint return.** If you and your spouse file a joint return for a carryback or carryforward year, and were married but filed sepa-

Publication 536 (2017)
the separate carryback or carryover as a joint carryback or carryover.

**Joint return in NOL year.** Figure each spouse's share of the joint NOL through the following steps.

1. Figure each spouse's NOL as if he or she filed a separate return. See **How To Figure an NOL**, earlier. If only one spouse has an NOL, stop here. All of the joint NOL is that spouse's NOL.
2. If both spouses have an NOL, multiply the joint NOL by a fraction, the numerator of which is spouse A's NOL figured in (1) and the denominator of which is the total of the spouses' NOLs figured in (1). The result is spouse A's share of the joint NOL. The rest of the joint NOL is spouse B's share.

**Example 1.** Mark and Nancy are married and file a joint return for 2017. They have an NOL of $5,000. They carry the NOL back to 2015, a year in which Mark and Nancy filed separate returns. Figured separately, Nancy's 2017 deductions were more than her income, and Mark's income was more than his deductions. Mark does not have any NOL to carry back. Nancy can carry back the entire $5,000 NOL to her 2015 separate return.

**Example 2.** Assume the same facts as in *Example 1*, except that both Mark and Nancy had deductions in 2017 that were more than their income. Figured separately, his NOL is $1,800 and her NOL is $3,000. The sum of their separate NOLs ($4,800) is less than their $5,000 joint NOL because his deductions included a $200 net capital loss that is not allowed in figuring his separate NOL. The loss is allowed in figuring their joint NOL because it was offset by Nancy's capital gains. Mark's share of their $5,000 joint NOL is $1,875 ($5,000 × $1,800/$4,800) and Nancy's is $3,125 ($5,000 − $1,875).

**Joint return in previous carryback or carryforward year.** If only one spouse had an NOL deduction on the previous year's joint return, all of the joint carryover is that spouse's carryover. If both spouses had an NOL deduction (including separate carryovers of a joint NOL, figured as explained in the *previous discussion*), figure each spouse's share of the joint carryover through the following steps.

1. Figure each spouse's modified taxable income as if he or she filed a separate return. See **Modified taxable income** under **How To Figure an NOL Carryover**, later.
2. Multiply the joint modified taxable income you used to figure the joint carryover by a fraction, the numerator of which is spouse A's modified taxable income figured in (1), and the denominator of which is the total of the spouses' modified taxable incomes figured in (1). This is spouse A's share of the joint modified taxable income.

3. Subtract the amount figured in (2) from the joint modified taxable income. This is spouse B's share of the joint modified taxable income.
4. Reduce the amount figured in (3), but not below zero, by spouse B's NOL deduction.
5. Add the amounts figured in (2) and (4).
6. Subtract the amount figured in (5) from spouse A's NOL deduction. This is spouse A's share of the joint carryover. The rest of the joint carryover is spouse B's share.

**Example.** Sam and Wanda filed a joint return for 2015 and separate returns for 2016 and 2017. In 2017, Sam had an NOL of $18,000 and Wanda had an NOL of $2,000. They choose to carry back both NOLs 2 years to their 2015 joint return and claim a $20,000 NOL deduction.

Their joint modified taxable income (MTI) for 2015 is $15,000, and their joint NOL carryover to 2016 is $5,000 ($20,000 − $15,000). Sam and Wanda each figure their separate MTI for 2015 as if they had filed separate returns. Then they figure their shares of the $5,000 carryover as follows.

**Step 1.**

<table>
<thead>
<tr>
<th>Sam's separate MTI</th>
<th>$9,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wanda's separate MTI</td>
<td>+3,000</td>
</tr>
</tbody>
</table>

**Step 2.**

<table>
<thead>
<tr>
<th>Joint MTI</th>
<th>$15,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sam's MTI</td>
<td>+ total MTI (</td>
</tr>
<tr>
<td>Sam's share of joint MTI</td>
<td>$11,250</td>
</tr>
</tbody>
</table>

**Step 3.**

<table>
<thead>
<tr>
<th>Joint MTI</th>
<th>$15,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wanda's share of joint MTI</td>
<td>$3,750</td>
</tr>
</tbody>
</table>

**Step 4.**

| Wanda's share of joint MTI | $3,750 |
| Wanda's NOL deduction | −2,000 |
| Wanda's remaining share | $1,750 |

**Step 5.**

| Sam's share of joint MTI | $11,250 |
| Wanda's remaining share | + $1,750 |
| Joint MTI to be offset | $13,000 |

**Step 6.**

| Sam's NOL deduction | $18,000 |
| joint MTI to be offset | − $13,000 |
| Sam's carryover to 2016 | $5,000 |
| Wanda's carryover to 2016 | − $0 |

Wanda's two $2,000 NOL deduction offsets $2,000 of her $3,750 share of the joint modified taxable income and is completely used up. She has no carryover to 2016. Sam's $18,000 NOL deduction offsets all of his $11,250 share of joint modified taxable income and the remaining $1,750 of Wanda's share. His carryover to 2016 is $5,000.

**How To Figure an NOL Carryover**

If your NOL is more than your taxable income for the year to which you carry it (figured before deducting the NOL), you may have an NOL carryover. You must make certain modifications to your taxable income to determine how much NOL you will use in that year and how much you can carry over to the next tax year. Your carryover is the excess of your NOL deduction over your modified taxable income for the carryback or carryforward year. If your NOL deduction includes more than one NOL, apply the NOLs against your modified taxable income in the same order in which you incurred them, starting with the earliest.

**Modified taxable income.** Your modified taxable income is your taxable income figured with the following changes.

1. You cannot claim an NOL deduction for the NOL carryover you are figuring or for any later NOL.
2. You cannot claim a deduction for capital losses in excess of your capital gains. Also, you must increase your taxable income by the amount of any section 1202 exclusion.
3. You cannot claim the domestic production activities deduction.
4. You cannot claim a deduction for your exemptions for yourself, your spouse, or dependents.
5. You must figure any item affected by the amount of your adjusted gross income after making the changes in (1), (2), and (3), above, and certain other changes to your adjusted gross income that result from (1), (2), and (3). This includes income and deduction items used to figure adjusted gross income (for example, IRA deductions), as well as certain itemized deductions. To figure a charitable contribution deduction, do not include deductions for NOL carrybacks in the change in (1) but do include deductions for NOL carryforwards from tax years before the NOL year.

Your taxable income as modified cannot be less than zero.

**Form 1045, Schedule B.** You can use Form 1045, Schedule B, to figure your modified taxable income for carryback years and your carryover from each of those years. Do not use Form 1045, Schedule B, for a carryforward year. If your 2017 return includes an NOL deduction from an NOL year before 2017 that reduced your taxable income to zero (to less than zero, if an estate or trust), see **NOL Carryover From 2017 to 2018**, later.

**NOL Carryover From 2017 to 2018**

If you had an NOL deduction carried forward from a year prior to 2017 that resulted in your
having taxable income on your 2017 return of zero (of less than zero, if an estate or trust), complete Table 1, Worksheet for NOL Carry-over From 2017 to 2018, on the following pages. It will help you figure your NOL to carry to 2018. Keep the worksheet for your records.

Worksheet Instructions

At the top of the worksheet, enter the NOL year for which you are figuring the carryover.

More than one NOL. If your 2017 NOL deduction includes amounts for more than one loss year, complete this worksheet only for one loss year. To determine which year, start with your earliest NOL and subtract each NOL separately from your taxable income figured without the NOL deduction. Complete this worksheet for the earliest NOL that results in your having taxable income below zero. Your NOL carryover to 2018 is the total of the amount on line 10 of the worksheet and all later NOL amounts.

Example. Your taxable income for 2017 is $5,000 without your $9,000 NOL deduction. Your NOL deduction includes a $2,000 carryover from 2015 and a $7,000 carryover from 2016. Subtract your 2015 NOL of $2,000 from $5,000. This gives you taxable income of $3,000. Your 2015 NOL is now completely used up. Subtract your $7,000 2016 NOL from $3,000. This gives you taxable income of ($4,000). You now complete the worksheet for your 2016 NOL. Your NOL carryover to 2018 is the unused part of your 2016 NOL from line 10 of the worksheet.

Line 2. Treat your NOL deduction for the NOL year entered at the top of the worksheet and later years as a positive amount. Add it to your negative taxable income (figured without the NOL deduction). Enter the result on line 2.

Line 6. You must refigure the following income and deductions based on adjusted gross income.

1. The special allowance for passive activity losses from rental real estate activities.
2. Taxable social security and tier 1 railroad retirement benefits.
3. IRA deductions.
4. Excludable savings bond interest.
5. Excludable employer-provided adoption benefits.
6. The student loan interest deduction.
7. The tuition and fees deduction.

If none of these items apply to you, enter zero on line 6. Otherwise, increase your adjusted gross income by the total of lines 3 through 5 and your NOL deduction for the NOL year entered at the top of the worksheet and later years. Using this increased adjusted gross income, refigure the items that apply, in the order listed above. Your adjustment for each item is the difference between the refigured amount and the amount included on your return. Combine the adjustments for previous items with your adjusted gross income before refiguring the next item. Keep a record of your computations.

Enter your total adjustments for the above items on line 6.

Line 7. Enter zero if you claimed the standard deduction and the amounts on lines 3 through 5 are zero. Otherwise, use lines 11 through 33 of the worksheet to figure the amount to enter on this line. Complete only those sections that apply to you.

Estates and trusts. Enter zero on line 7 if you did not claim any miscellaneous deductions on Form 1041, line 15c, or a casualty or theft loss. Otherwise, refigure these deductions by substituting modified adjusted gross income (see below) for adjusted gross income. Subtract the recomputed deductions from those claimed on the return. Enter the result on line 7.

Modified adjusted gross income. To figure miscellaneous itemized deductions of an estate or trust (Form 1041, line 15c), modified adjusted gross income is the total of the following amounts.

• The adjusted gross income on the return.
• The amounts from lines 3 through 5 of the worksheet.
• The exemption amount from Form 1041, line 20.
• The NOL deduction for the NOL year entered at the top of the worksheet and for later years.

To refigure the casualty and theft loss deduction of an estate or trust, modified adjusted gross income is the total of the following amounts.

• The adjusted gross income amount you used to figure the deduction claimed on the return.
• The amounts from lines 3 through 5 of the worksheet.
• The NOL deduction for the NOL year entered at the top of the worksheet and for later years.

Line 11. Treat your NOL deduction for the NOL year entered at the top of the worksheet and for later years as a positive amount. Add it to your adjusted gross income. Enter the result on line 11.

Line 20. Is your modified adjusted gross income from line 13 of this worksheet more than $100,000 ($50,000 if married filing separately)?

☐ Yes. Your deduction is limited. Refigure your deduction using the Mortgage Insurance Premiums Deduction Worksheet in the 2017 Instructions for Form 1045. On line 2 of the Mortgage Insurance Premiums Deduction Worksheet, enter the amount from line 13 of this worksheet.

☐ No. Your deduction is not limited. Enter the amount from line 19 on line 20 and enter -0- on line 21.

Line 23. If you had a contributions carryover from 2016 to 2017 and your NOL deduction includes an amount from an NOL year before 2016, you may have to reduce your contributions carryover. Reduce the contributions carryover by the amount of any adjustment you made to your 2016 charitable contributions deduction when figuring your NOL carryover to 2017. Use the reduced contributions carryover to figure the amount to enter on line 23.

USE YOUR 2017 FORM 1040, FORM 1040NR (OR FORM 1041) TO COMPLETE THIS WORKSHEET:

1. Enter as a positive number your NOL deduction for the NOL year entered above from line 21 (Form 1040 or Form 1040NR) or line 15a (Form 1041)
2. Enter your taxable income without the NOL deduction for 2017 (see instructions)
3. Enter as a positive number any capital loss deduction
4. Enter as a positive number any gain excluded on the sale or exchange of a qualified small business
5. Enter the amount of any domestic production activities deduction
6. Enter any adjustments to your adjusted gross income (see instructions)
7. Enter any adjustments to your itemized deductions from line 33 below (see instructions)
8. Enter your deduction for exemptions from line 42 (Form 1040), line 40 (Form 1040NR), or line 20 (Form 1041)
9. Modified taxable income. Combine lines 2 through 8. Enter the result (but not less than zero)
10. NOL carryover to 2018. Subtract line 9 from line 1. Enter the result (but not less than zero) here and on the “other income” line of Form 1040 or Form 1040NR (or the line on Form 1041 for deductions NOT subject to the 2% floor) in 2018

ADJUSTMENTS TO ITEMIZED DEDUCTIONS (INDIVIDUALS ONLY):

11. Enter you adjusted gross income without the NOL deduction for the NOL year entered above or later years (see instructions)
12. Combine lines 3, 4, 5, and 6 above
13. Modified adjusted gross income. Combine lines 11 and 12 above

ADJUSTMENT TO MEDICAL EXPENSES:

14. Enter your medical expenses from Schedule A (Form 1040), line 4
15. Enter your medical expenses from Schedule A (Form 1040), line 1
16. Multiply line 13 above by 7.5% (0.075)
17. Subtract line 16 from line 15. Enter the result (but not less than zero)
18. Subtract line 17 from line 14

ADJUSTMENT TO MORTGAGE INSURANCE PREMIUMS:

19. Enter your mortgage insurance premiums deduction from Schedule A (Form 1040), line 13
20. Refigure your mortgage insurance premiums deduction using line 13 above as your adjusted gross income (see instructions)
21. Subtract line 20 from line 19

ADJUSTMENT TO CHARITABLE CONTRIBUTIONS:

22. Enter your charitable contributions deductions from Schedule A (Form 1040), line 19, or Schedule A (Form 1040NR), line 5
23. Refigure your charitable contributions deduction using line 13 above as your adjusted gross income (see instructions)
24. Subtract line 23 from line 22

ADJUSTMENT TO CASUALTY AND THEFT LOSSES:

25. Enter your casualty and theft losses from Form 4684, line 18
26. Multiply line 13 above by 10% (0.10)
27. Subtract line 26 from line 25. Enter the result (but not less than zero)

ADJUSTMENT TO MISCELLANEOUS DEDUCTIONS:

28. Enter your miscellaneous deductions from Schedule A (Form 1040), line 27 or Schedule A (Form 1040NR), line 13
29. Enter your miscellaneous deductions from Schedule A (Form 1040), line 24 or Schedule A (Form 1040NR), line 10
30. Multiply line 13 above by 2% (0.02)
31. Subtract line 30 from line 29. Enter the result (but not less than zero)
32. Subtract line 31 from line 28

*Note: If you choose to waive the carryback period, and instead you choose to only carry your 2017 NOL forward, use Schedule A, Form 1045, to compute your 2017 NOL that will be carried over to 2018. Report your 2017 NOL from line 25, Schedule A, Form 1045, on the “other income” line of your 2018 Form 1040 or Form 1040NR, or the line on Form 1041 for deductions NOT subject to the 2% floor in 2018.
How To Get Tax Help

If you have questions about a tax issue, need help preparing your tax return, or want to download free publications, forms, or instructions, go to IRS.gov and find resources that can help you right away.

Preparing and filing your tax return. Find free options to prepare and file your return on IRS.gov or in your local community if you qualify.

The Volunteer Income Tax Assistance (VITA) program offers free tax help to people who generally make $54,000 or less, persons with disabilities, and limited-English-speaking taxpayers who need help preparing their own tax returns. The Tax Counseling for the Elderly (TCE) program offers free tax help for all taxpayers, particularly those who are 60 years of age and older. TCE volunteers specialize in answering questions about pensions and retirement-related issues unique to seniors.

You can go to IRS.gov to see your options for preparing and filing your return which include the following:

- **Free File.** Go to IRS.gov/FreeFile. See if you qualify to use brand-name software to prepare and e-file your federal tax return for free.
- **VITA.** Go to IRS.gov/VITA, download the free IRS2Go app, or call 1-800-906-9887 to find the nearest VITA location for free tax preparation.
- **TCE.** Go to IRS.gov/TCE, download the free IRS2Go app, or call 1-888-227-7669 to find the nearest TCE location for free tax preparation.

Getting answers to your tax questions. On IRS.gov get answers to your tax questions anytime, anywhere.

- **Go to IRS.gov/Help or IRS.gov/LetUsHelp** pages for a variety of tools that will help you get answers to some of the most common tax questions.
- **Go to IRS.gov/Taxpayer** for the Interactive Tax Assistant, a tool that will ask you questions on a number of tax law topics and provide answers. You can print the entire interview and the final response for your records.
- **Go to IRS.gov/Pub17** to get Pub. 17, Your Federal Income Tax for Individuals, which features details on tax-saving opportunities, 2017 tax changes, and thousands of interactive links to help you find answers to your questions. View it online in HTML, as a PDF, or download it to your mobile device as an eBook.
- **You may also be able to access tax law information in your electronic filing software.**

Using direct deposit. The fastest way to receive a tax refund is to combine direct deposit and IRS e-file. Direct deposit securely and electronically transfers your refund directly into your financial account. Eight in 10 taxpayers use direct deposit to receive their refund. IRS issues more than 90% of refunds in less than 21 days.

Delayed refund for returns claiming certain credits. Due to changes in the law, the IRS can’t issue refunds before mid-February 2018, for returns that properly claimed the earned income credit (EIC) or the additional child tax credit (ACTC). This applies to the entire refund, not just the portion associated with these credits.

Getting a transcript or copy of a return. The quickest way to get a copy of your tax transcript is to go to IRS.gov/Transcripts. Click on either “Get Transcript Online” or “Get Transcript by Mail” to order a copy of your transcript. If you prefer, you can:

- Order your transcript by calling 1-800-908-9946.
- Mail Form 4506-T or Form 4506T-EZ (both available on IRS.gov).

Using online tools to help prepare your return. Go to IRS.gov/Tools for the following:

- The **Earned Income Tax Credit Assistant (IRS.gov/EIC)** determines if you’re eligible for the EIC.
- The **Online EIN Application (IRS.gov/EIN)** helps you get an employer identification number.
- The **Social Security Administration (SSA)** estimates the amount you should have withheld from your paycheck for federal income tax purposes.

The Taxpayer Advocate Service Is Here To Help You

What is the Taxpayer Advocate Service?

The Taxpayer Advocate Service (TAS) is an independent organization within the IRS that helps taxpayers and protects taxpayer rights. Our job is to ensure that every taxpayer is treated fairly and that you know and understand your rights under the Taxpayer Bill of Rights.

What Can the Taxpayer Advocate Service Do For You?

We can help you resolve problems that you can't resolve with the IRS. And our service is free. If you qualify for our assistance, you will be assigned to one advocate who will work with you throughout the process and will do everything possible to resolve your issue. TAS can help you if:
- Your problem is causing financial difficulty for you, your family, or your business.
- You face (or your business is facing) an immediate threat of adverse action, or
- You’ve tried repeatedly to contact the IRS but no one has responded, or the IRS hasn’t responded by the date promised.

How Can You Reach Us?

We have offices in every state, the District of Columbia, and Puerto Rico. Your local advocate's number is in your local directory and at TaxpayerAdvocate.IRS.gov/Contact-Us. You can also call us at 1-877-777-4778.

How Can You Learn About Your Taxpayer Rights?

The Taxpayer Bill of Rights describes 10 basic rights that all taxpayers have when dealing with the IRS. Our Tax Toolkit at TaxpayerAdvocate.IRS.gov can help you understand what these rights mean to you and how they apply. These are your rights. Know them. Use them.

How Else Does the Taxpayer Advocate Service Help Taxpayers?

TAS works to resolve large-scale problems that affect many taxpayers. If you know of one of these broad issues, please report it to us at IRS.gov/SAMS.

Low Income Taxpayer Clinics

Low Income Taxpayer Clinics (LITCs) are independent from the IRS. LITCs represent individuals whose income is below a certain level and need to resolve tax problems with the IRS, such as audits, appeals, and tax collection disputes. In addition, clinics can provide information about taxpayer rights and responsibilities in different languages for individuals who speak English as a second language. Services are offered for free or for a small fee. To find a clinic near you, visit TaxpayerAdvocate.IRS.gov/LITCmap or see IRS Publication 4134, Low Income Taxpayer Clinic List.
To help us develop a more useful index, please let us know if you have ideas for index entries. See “Comments and Suggestions” in the “Introduction” for the ways you can reach us.
