

Businesses at risk for identity theft

Most cyberattacks are aimed at small businesses with fewer than 100 employees.

Here are some details:

- Learn about best security practices for small businesses.
- IRS protective masking of sensitive information on business transcripts starts December 13, 2020.
- A Business Identity Theft Affidavit – Form 14039-B – is now available for all businesses to report identity theft to the IRS.
- Beware of various scams, especially the W-2 scam that attempts to steal employee income information.
- Check out the “Business” section on IRS’ Identity Theft Central at [IRS.gov/IdentityTheft](https://www.irs.gov/identitytheft).
