

Tax professionals should review their security protocols

As identity thieves continue targeting tax professionals, the IRS and the Summit partners urge practitioners to review the “Taxes-Security-Together” Checklist, including:

- ***Deploy basic security measures.***
- ***Use multi-factor authentication to protect tax software accounts.***
- ***Create a Virtual Private Network if working remotely.***
- ***Create a written data security plan as required by federal law.***
- ***Know about phishing and phone scams.***
- ***Create data security and data theft recovery plans.***
