1. Introduction

1.1. First Time Filers Quick Reference Guide

The Information Returns Intake System (IRIS) Taxpayer Portal is a system that provides a no cost online method for taxpayers to electronically file information returns. The IRIS Taxpayer Portal allows you to enter data to create forms by either keying in the information or uploading a .csv file. This portal allows taxpayers to:

- Electronically prepare (create, edit, and view) and file information returns without software or a third-party provider
- Download and print the recipient copy of information returns for distribution to recipients; refer to the [Download Recipient Copies section](#) for more information
- Maintain a record of completed, filed and distributed information forms
- Perform basic validation of data before submission
- File up to 100 forms per submission
- Participate in the Combined Federal/State Filing Program (CF/SF), refer to the [CF/SF Program](#) section for more information
- Request automatic extensions; and
- File certain corrected information returns

The IRS also offers the IRIS Application to Application (A2A) filing method which requires special software or a third-party provider to use. A2A uses Extensible Markup Language (XML) format. Allowing users to bulk file large volumes of information returns. For more information about IRIS A2A, refer to Publication 5718 Information Returns Intake System (IRIS) Electronic Filing Application to Application (A2A) Specification.

On February 21, 2023, the Department of the Treasury and the Internal Revenue Service published final regulations reducing the threshold for filing returns and other documents electronically. These regulations require filers of 10 or more information returns in a calendar year beginning in 2024, tax year 2023, to file those information returns electronically. Corrected information returns **MUST** be filed electronically if the original return was required to be submitted electronically. Corrected information returns are not counted when calculating the aggregate number of information returns to determine if you are required to file electronically. For more information about the regulations and the reduced threshold to electronically file, refer to the [IRS and Treasury issue final regulations on e-file for businesses](#) and the [E-file information returns with IRIS](#) webpages.

1.2. Who Can Participate?

Any entity with an employer identification number (EIN) can apply for an IRIS Taxpayer Portal Transmitter Control Code (TCC). Visit [IRIS application for TCC | Internal Revenue Service](#) for more information.

*This form is only filed by the Internal Revenue Service (IRS)

Note: You don't need to file a Form 1096 when using IRIS. To file other information returns, please visit [E-file information returns](#). This forms listing is subject to change in future tax years.

2. Getting Started

2.1. Registration

All transmitters who file information returns electronically are required to request authorization to file. To transmit files through the IRIS Taxpayer Portal, you will need an IRIS Taxpayer Portal TCC for your firm and/or business. Each user is required to create an account or sign-in using their existing credentials to validate their identities using the latest authentication process.

For more information, please visit [How to register for IRS online self-help tools Internal Revenue Service](#). **Important:** Please advise all authorized users to set up an account **BEFORE** you add them to the application.

2.2. Things you need to know before completing the IRIS Application for TCC

The IRS encourages transmitters who file for multiple issuers to submit one application, select the “transmitter” role, and use the assigned TCC for all issuers. The purpose of the TCC is to identify the business acting as the transmitter of the file. As a transmitter, you may transmit files for as many companies as you need to under one TCC.

A Responsible Official (RO) initiates and submits the IRIS Application for TCC electronically. Each RO must sign the terms of agreement using the five-digit PIN they created when they initially accessed the system. An application will receive a tracking number after saving it. Completing the application in a single session isn't required.

Note: Before applying, please review the [tutorial](#), which provides step-by-step instructions for applying for an IRIS TCC.

The following information is necessary to complete each application:

- Firm's business structure
- Firm's (EIN) (*the system doesn't allow firms to use a Social Security Number (SSN) or Individual Taxpayer Identification Number (ITIN)*)
- Firm's legal business name and business type
- Firm's doing business as name when it's different from the legal business name
- Business phone (phone country code and phone number)
- Business address (this must be a physical location, not a post office box)
- Mailing address when different than business address
- Organization role of RO, Contact and Authorized Delegate (AD) if applicable, information must include:
 - SSN or ITIN
 - Date of birth
 - Contact information, including email address, position/title and phone number
- Role: The RO must select one role (Issuer or Transmitter)
 - Issuer: is a person filing **only** for their business. The Issuer's EIN must match the EIN on the Issuer's TCC application.
 - Transmitter: is a person filing for their own business and other businesses or multiple businesses

Note: The Software Developer role is not used with the IRIS Taxpayer Portal

- Forms: 1097, 1098 Series, 1099 Series, 3921, 3922, 5498 Series and W-2G
- Transmission Method: For the IRIS Taxpayer Portal, select the check box next to *Portal*.

2.2.1. Access the IRIS Application for TCC

If you would like to use the IRIS Taxpayer Portal, you must complete the following steps:

1. Go to [IRIS Application for TCC](#)
2. Click on the Access IRIS application for TCC button
3. Sign in or create an account to begin the application process (you don't need to create an account if you already have one)
4. Select Individual on the Select Your Organization page

Note: *Until the application is in Completed status, you must select Individual on the Select Your Organization page to access your saved application.*

5. Click on New Application and select IRIS Application for TCC
6. Complete and submit an IRIS Application for Transmitter Control Code (TCC)
 - Each RO must sign the Application Submission page using their 5-digit PIN. The application will be processed after all RO(s) have entered their PIN and accepted the Terms of Agreement.
 - If you forgot your PIN, select the Modify PIN tab located at the top of the screen to create a new PIN.
7. Once the application is in Completed status and TCCs have been issued, access the IRIS Taxpayer Portal via the [E-file information returns with IRIS page](#) to submit information returns

Allow up to 45 calendar days for application processing. You may check the status of your application and TCC(s) on your Application Summary page. If you are unable to complete your application during your session, follow steps 1-4 above to access your saved application.

If you want to participate in the IRS CF/SF Program, you must select the option and give consent for the IRS to disclose data to the participating states during the IRIS TCC Application process. Refer to the [CF/SF Program](#) section for more information.

2.2.2. Application Approved/Completed

Information returns may not be transmitted through the IRIS Taxpayer Portal until a TCC has been assigned.

When your IRIS Application for TCC is approved and completed, a five-character alphanumeric TCC that begins with the letter 'D' will be assigned to your business. Monitor your application and start using your TCC(s) immediately after assignment. An approval letter will be sent via United States Postal Service (USPS) to the mailing address listed on the application.

If your application is in Submitted Pending Review status for more than 45 days, contact the Help Desk.

You must use an IRIS Taxpayer Portal TCC when transmitting information returns in the IRIS Taxpayer Portal. Any TCCs obtained for the systems below cannot be used in the IRIS Taxpayer Portal:

- *Affordable Care Act (ACA) Information Returns (AIR)*
- *Filing Information Returns Electronically (FIRE)*
- *Information Returns Intake System (IRIS) Application to Application (A2A)*
- *Partnership Bipartisan Budget Act (PBBA)*

Note: Do not file identical information returns in more than one system. This will result in duplicate filing and may result in penalty notices. To learn more about other electronic filing methods, please visit [E-file information returns](#).

2.2.3. Revise Current TCC Information

As changes occur, you must update and maintain your IRIS TCC Application. Some changes will require all RO(s) or Authorized Delegates AD(s) on the application to re-sign the Application Submission page. Below are examples of when the application would need to be re-signed (this list is not all inclusive):

- Firm's DBA Name
- Role changes, additions or deletions of RO(s), Contacts or AD(s)

Note: *Changes submitted on an IRIS TCC Application do not change the address of IRS tax records just as a change of address to IRS tax records does not automatically update information on an IRIS TCC Application.*

Changes that require a firm to acquire a new Employer Identification Number (EIN) require a new IRIS TCC Application. Firms that change their business structure, such as from a Sole Proprietorship to a Corporation, generally require the firm to acquire a new EIN.

2.2.4. Deleted TCC

Your TCC will remain valid if you transmit information returns or request an extension of time to file through the IRIS Taxpayer Portal. If you don't use your TCC for three consecutive years, your TCC will be deleted. Once your TCC is deleted, it cannot be reactivated. You'll need to submit a new IRIS Application for TCC.

3.1. Helpful Hints for Navigating the IRIS Taxpayer Portal

Here are some helpful hints for navigating within the portal.

- Use your mouse or pointing device to select icons, buttons, check boxes, drop-down, menu items and to select fields to enter information and navigate the screens.
- Use the scroll bar to view more of the form you have selected.
- Enter all required fields marked with an asterisk *
- Use the 'Next' or 'Back' button in the portal, never use your browser's back button.
- Use the Frequently Asked Questions (FAQ) boxes available throughout the IRIS Taxpayer Portal to assist you.

3.2. Access the IRIS Taxpayer Portal

Go to [E-file information returns with IRIS](#), scroll to the Sign in section and select the IRIS Taxpayer Portal link. You will then be directed to the IRIS Taxpayer Portal Dashboard which allows you to navigate the main functions.

Note: You must use an IRIS Taxpayer Portal TCC that begins with the letter "D" and consists of a total of five alpha-numeric characters.

3.2.1. The Header

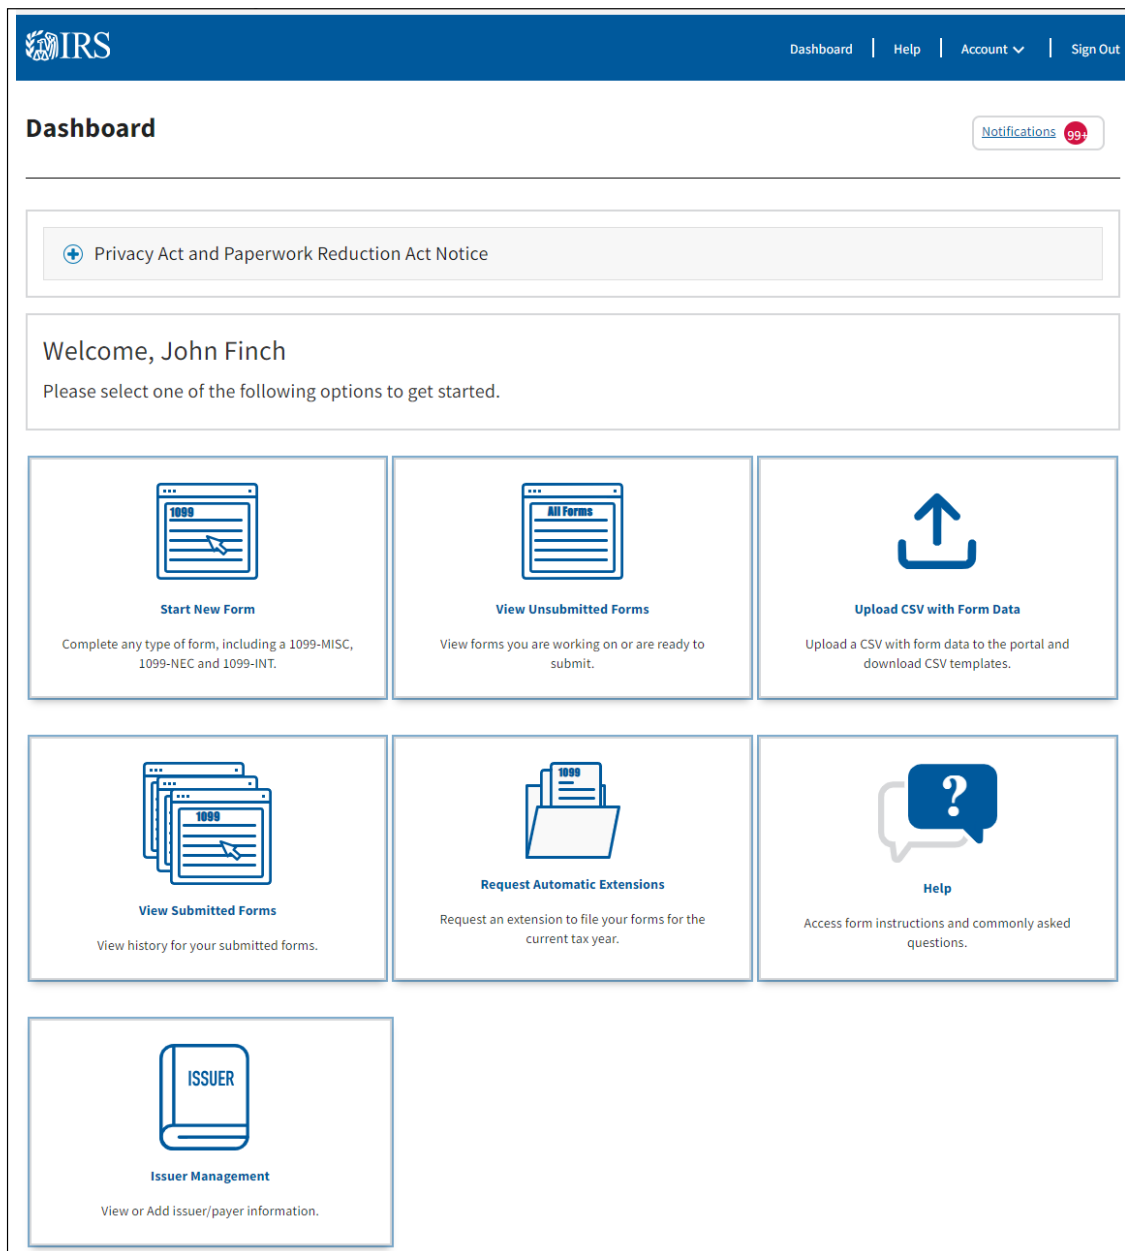

The header provides quick access to the following links from any location in the IRIS Taxpayer Portal:

- **Dashboard:** Welcomes you to the Dashboard where you can select from multiple options
- **Help:** Downloads Publication 5717, IRIS Taxpayer Portal User Guide
- **Account:** Shares the TCC you're logged in as, your Profile, and allows you to change to a different TCC
- **Sign Out:** Exits the IRIS Taxpayer Portal

3.2.2. Dashboard Tiles

The dashboard allows you to navigate the main functions of the application.

- **Notifications (upper right corner):** Allows you to view the notifications sent to you by the IRS and retrieve the recipient copies of the forms you've downloaded.
- **Start New Form:** Allows you to begin preparing a new form.
- **View Unsubmitted Forms:** Directs you to the Unsubmitted Forms page where you can search for, view, edit, download, and submit forms.
- **Upload CSV with Form Data:** Allows you to upload files containing form information in a simple file format.
- **View Submitted Forms:** Allows you to search for and view transmissions that are associated with the logged-in user and download recipient copies.
- **Request Automatic Extensions:** Allows you to make an automatic extension request.
- **Help:** Downloads Publication 5717, IRIS Taxpayer Portal Guide for your reference.
- **Issuer Management:** Directs you to the Saved Issuer page. Frequently used issuer information can be entered and saved to use when preparing a form.

3.3. Issuer Management

If you plan on keying in your form data, visit the Issuer Management tile to securely save issuer information that can be easily accessed as you create each form. The issuer/payer information must be entered into the Issuer Management prior to starting a new form. The information stored here will be available from year to year. You can save information for up to 25 frequently used Issuers.

After selecting the Issuer Management button on the Dashboard page, you can create and manage your frequently used issuers.

3.3.1. Saved Issuers Page

This is the first page you will see after selecting the Issuer Management button. This page will allow you to view a table of saved Issuers. The table can be filtered to narrow results. On this page, you can add an issuer, edit an issuer, and view an issuer’s information.

3.4. Start New Form

After saving information about your frequently used Issuers, you can start preparing forms. As you complete each form, you will see tips, hints and other tools to help you navigate through the IRIS Taxpayer Portal.

1. Select Start New Form from the IRIS Taxpayer Portal Dashboard.
2. You will be directed to the Select Form Type page. Use the drop-down menu to select the form you need to complete, then select Next.

The screenshot shows the 'Select Form Type' page of the IRIS Taxpayer Portal. The header is blue with the IRS logo on the left and navigation links (Dashboard, Help, Account, Sign Out) on the right. The main heading is 'Select Form Type'. Below it, a note states: 'All fields marked with an asterisk * are required.' The instruction reads: 'Select which form you need to complete.*' Below this is a dropdown menu labeled 'Select a form' with a downward arrow. At the bottom left are 'Back' and 'Next' buttons. On the right, there is an 'FAQs' section titled 'Select Form Type' with the text: 'What form to select? For an overview of what to report, who needs to report, amounts to report, due dates and more information about information returns, please visit: [A Guide to Information Returns](#)'. An 'Exit' link is at the bottom left.

3. On the Select Tax Year page, select the tax year for which you're currently preparing returns. You'll be able to choose the current tax year or one of the four previous tax years listed. Once you've selected the year, click Next for the Issuer Information page.
 - The earliest year IRIS will intake forms is for tax year 2022.

The screenshot shows the 'Select Tax Year' page of the IRIS Taxpayer Portal. The header is blue with the IRS logo on the left and navigation links (Dashboard, Help, Account, Sign Out) on the right. The main heading is 'Select Tax Year'. Below it, a note states: 'All fields marked with an asterisk * are required.' The instruction reads: 'Select the tax year that you are currently preparing for.*' Below this are two radio button options: '2023' and '2022'. The '2022' option is selected. At the bottom left are 'Back' and 'Next' buttons. On the right, there is an 'FAQs' section titled 'Select Tax Year' with the text: 'You can choose to prepare this form for the current tax year or any one of the four previous tax years. The system only supports forms for tax year 2022 and onward. The system will not support submissions that were processed by FIRE nor paper. For more information on submitting forms for years prior to TY2022 please visit the following link: [General Instructions for Certain Information Returns](#)'. An 'Exit' link is at the bottom left.

Note: The term issuer is synonymous with payer, provider, filer, lender, creditor, corporation, trustee and acquirer, depending on the form you're preparing.

4. Enter the issuer information for the information return or select an issuer from your Saved Issuer List using the drop-down menu.

The screenshot shows the IRS 1099-MISC Payer Information page. At the top, the IRS logo is on the left, and navigation links for Dashboard, Help, Account, and Sign Out are on the right. Below the header, the title "1099-MISC" is displayed. A progress bar with five steps is shown: 1. Payer Information (active), 2. Recipient Information, 3. Payments, 4. State Payments, and 5. Review and Confirm. The main section is titled "Payer Information" and includes a note that all fields marked with an asterisk are required. It prompts the user to select an issuer from a dropdown menu. Below this, there are two sections: "Payer TIN Type" with radio buttons for Individual (SSN) and Business (EIN), and "Payer Name" with radio buttons for Provide a Business or Entity Name and Provide a First and Last Name. On the right side, there is a "FAQs" section with two sub-sections: "Payer Information" and "U.S. Possessions and Military States", each with explanatory text.

5. Once completed, select Next to go to the Recipient Information page or select the Save and Exit link to continue the form at a later time.
6. Complete the required fields on the Recipient Information page.

Note: The term *recipient* is synonymous with *transferor, debtor, payee, borrower, shareholder, policy holder, payment Recipient, seller and beneficiary*, depending on the type of form you're preparing.

The screenshot shows the IRS 1099-MISC Recipient Information page. The header and navigation links are the same as the previous page. The title "1099-MISC" is displayed. The progress bar now shows step 1 (Payer Information) as completed with a checkmark, and step 2 (Recipient Information) as the active step. The main section is titled "Recipient Information" and includes a note that all fields marked with an asterisk are required. It prompts the user to select a Recipient TIN Type (Individual (SSN, ATIN, ITIN), Business (EIN, QI-EIN), or Undeterminable) and a Recipient Name (Provide a Business or Entity Name or Provide a First and Last Name). Below these, there is a field for Recipient Country* with a dropdown menu showing "United States of America". On the right side, there is a "FAQs" section with two sub-sections: "Recipient Information" and "U.S. Possessions and Military States", each with explanatory text. The "U.S. Possessions and Military States" section also includes a link to the IRS TIN Matching Service.

7. Complete the Payments page by selecting and entering the payment information in the applicable field(s). This page contains a FAQs box with a link to the form instructions to help you correctly complete the Payments page for specific forms.

3.5. Upload CSV with Form Data

The Upload CSV with Form Data option allows you to download templates for a specific tax year and form type and upload your information return data. You will only be able to upload one tax year and one form type at a time. The file may contain multiple issuers if your IRIS Taxpayer Portal TCC role is a transmitter. The file can only contain a maximum of 250 records. Only CSV templates provided by the IRS can be used.

2. Complete CSV

Visit the [Template Formatting Guidelines](#) page to download formatting guidelines for your form type.

3. Upload File

Browse and upload your file. Each row in your file will be uploaded as a separate form. Your CSV file will not be retained in the system.

Important Information About File Upload

- 1) Only 1 file can be uploaded at a time.
- 2) Only 250 forms are permitted per file.
- 3) Only CSV templates provided by the IRS can be used. The file will need to be saved as a CSV UTF-8 (Comma Delimited) (*.csv). This type of CSV file will allow all special characters to be saved correctly.

 [Browse](#) or drop the csv file here.

FAQs

Upload File

Please note that all rows in your file must adhere to the following guidelines for completing the CSV template:

1. TIN Type should be entered as "SSN", "EIN", "ATIN", "ITIN", "QI-EIN", or "UND".
2. Checkboxes should be entered as "Y" for checked or "N" for unchecked.
3. Countries should be entered according to their [designated country abbreviation](#).
4. States, Territories, Provinces, and their military equivalents should be entered as their [2 letter abbreviation](#).
5. Currency values may include no more than two digits after the decimal. Do not use dollar signs or commas.
6. The column count of the file uploaded must match the column count of the IRS provided template.
7. You may only include up to 250 records in each file upload.
8. For a full overview of formatting requirements, please visit the [Template Formatting Guidelines](#) page.
9. If you are using spreadsheet software to view and edit the CSV template, double check that money amount fields are formatted properly in your CSV. Spreadsheet software will often format long numbers as scientific notation. For example: 1.045E+5.
10. If you are using spreadsheet software to view and edit the CSV template, double check that date fields are formatted in MM/DD/YYYY format. Spreadsheet software will often format dates in unallowable formats.

3.5.1. Steps to Download File Template:

1. From the Dashboard, select the Upload CSV with Form Data button
2. Download the file template by selecting the form from the Form Type drop-down and click the Download button. This will allow you to save the template to your computer.
3. Create your CSV file using the template provided by the IRS. The CSV file can include up to 250 forms per file, header row not included.

3.5.3.1. Tips for a Successful Upload

If your .csv file receives the error message below when uploading, it is possible that the form specific formatting guidelines have not been met.

**The uploaded file contains one or more errors. Please correct the following and re-upload.**

Form Type, Tax Year, and at least 1 other column must be filled in.

It is recommended that you set the .csv formatting to Text and not General prior to uploading. Save the file as a “CSV UTF-8(Comma Delimited) * (.csv)”.

Note: Reopening the saved .csv file in Excel will remove any previous formatting. The user will have to reformat the information prior to re-uploading.

If this error is received, the user may have to edit the .csv file to correct the formatting. This can be done by right clicking the .csv file, selecting ‘Open with’, then choose an available text editor software. Editing in a text editor will allow the user to make changes to the .csv file and save it without losing the formatting. Once the appropriate changes are made within the text editor, save the file, and re-upload the file into the IRIS Taxpayer Portal.

Any text editor program will allow you to make adjustments to your .csv file. The IRS does not officially endorse any particular text editor program.

Note: If the user decides to make changes to the information in Excel and not with a text editor, the user will have to reformat any information previously formatted prior to saving the .csv document.

Benefits of correcting your .csv file with a text editor instead of Excel:

- Edit your .csv file without losing any previous formatting.
- Remove extra comma's (or other characters that act as separators) that exceed the number of allowable fields.
- Easily identify leading, double, trailing spaces and spaces entered in unused cells.
- Easily identify a break in a line or data moved to a second line in a cell.

Warning: Users should not copy and paste information from a .csv file to a template. Formatting from the original file carries over to the template, creating entry errors which can be difficult to locate.

The following conditions are common reasons for csv files being rejected:

Common Reasons for CSV Files Being Rejected	
If	Then
Your spreadsheet software formats long numbers as scientific notation (i.e., 1.35E+03),	Under the Home tab, select the Number Format drop down and select Text.
Your spreadsheet software formats dates in unallowable formats,	Highlight the dates that need the formatting corrected. Right click and select Format Cells On the Number tab, select Date and then select the MM/DD/YYYY option. The 2-digit year format is not an accepted format. Use a 4-digit (YYYY) format. The date format is something that can be corrected in Excel on the user's end.
Your zip code isn't formatted correctly,	Under the Home tab, select the Number Format drop down and select Text. Do not enter a dash (-) if the zip code is 7 or 9 digits.
Your cells have a line break,	Expand each cell's height to ensure the cell is a single line and that no data was moved to the second line. Do not use Alt+Enter within the cell, this inserts a line break.
Your cells have leading, trailing or double spaces,	Double check entries and delete any leading spaces, double spaces, and/or trailing spaces in any fields. A leading space is when you press the spacebar, and the cursor does not start at the beginning of the cell. A double space his when you press the spacebar twice between two pieces of data. A trailing space is when you press the spacebar and create space between the final piece of data and the cursor.
You have Name line or Address issues,	Ensure there are no periods (.) or hashtags (#) in the address or name lines. Ensure the second line of the address is listed in the Recipient Address Line 2 and not entered on a second line within the cell of the column titled Recipient Address Line 1. This error occurs when you use Alt+Enter to insert a line break.
You have Tax Year issues,	Ensure each template contains the same tax year. If another tax year needs to be reported, then a separate template will need to be created for each tax year.

Common Reasons for CSV Files Being Rejected

You have cells reporting no data or reporting \$0.00,	Ensure your cells are completely empty. You should remove any blank spaces entered erroneously. Also, ensure there are no money amount cells reporting \$0.00. These should be left blank.
The Check Box field is empty,	Per the formatting guidelines, a “Y” for Yes or a “N” for No is required.

3.5.3.2. Error Message Types

There are two types of errors that you may receive from having one or more of the conditions in the table above or other formatting issues.

Error Message Type	Description
File Level	<ul style="list-style-type: none"> Occur when file contains 1 or more errors related to formatting the template and the data and data in the template cannot be validated. Only 1 File Level Error Message will appear at a time.
Field Level	<ul style="list-style-type: none"> Occur when the information in the field(s) is incorrect. All Field Level error messages will appear at the same time on the table.

File Level Example:

 **Current Uploaded File**
1099MISC.csv [\(Remove\)](#)

 **The uploaded file contains one or more errors. Please correct the following and re-upload.**
The file uploaded must be 100KB or less

Field Level Example:

 **Current Uploaded File**
1099 NEC Demo.csv [\(Remove\)](#)

 **The uploaded file contains one or more errors. Please correct the following and re-upload.**

Row	Column Title	Error Message
9	Payer Fields	Payer ZIP/Postal Code must be exactly 5 or 9 digits.

3.6.7. Make A Correction

Most errors in IRIS can be corrected by submitting 1-step corrections, unless the wrong form was submitted. Review the following table to determine if 1-step or 2-step correction is needed:

Errors Needing 1-Step Correction	Errors Needing 2-Step Correction
Information mismatch: name and/or TIN is incorrect	Incorrect form type, e.g., 1099-MISC filed rather than 1099-NEC To correct, zero out all money amounts in your correction and then submit an original submission using the appropriate form type.
Form should not have been filed for a recipient (To correct, enter "0" for all amounts.)	
Incorrect payment amounts in a record	
Incorrect code or indicator value	

Reminder:

- You must submit corrections through the portal for information returns submitted through the IRIS Taxpayer Portal
- Make corrections as soon as possible
- Send statements to recipients showing the corrections

Error in Reporting the Issuer

You cannot submit a correction to resolve errors in Issuer information. If an error is discovered in reporting the issuer's (not recipient) name and/or TIN, the issuer should write a letter to the IRS containing the following information:

- Name and address of issuer
- Type of error (include the incorrect issuer name/TIN that was reported)
- Tax year
- Correct issuer TIN
- TCC
- Type of return
- Number of payees
- Filing method, paper or electronic
- If federal income tax was withheld

3.6.8. Steps to Make a Correction

If you need to make a correction to a form sent to the IRS and the transmission has a status of Accepted or Accepted with Errors, use the Make a Correction page to address the errors you identified.

To start the correction process, select the View Submitted Forms button on the Dashboard page to view all submitted forms.

Next, mark the check box next to the transmission you'd like to correct. After making your selection, click the Correct/Replace button.

Note: *There are two reasons a box next to a record you want to correct may be grayed out:*

1. *The record has already been successfully corrected. On the Submitted Forms page, the status of the corrected return would be Accepted or Accepted with Errors.*
2. *The correction process was already started. The corrected return status would be In Progress on the Unsubmitted Forms page.*

After selecting the Correct/Replace button, you'll advance to the Make a Correction page to begin the correction process on one or more forms. Follow the steps provided on the page to make your corrections.

Once you make the corrections, you can choose to submit the form on the Review and Confirm page or complete multiple corrections and submit multiple corrected forms from the View Unsubmitted Forms page. Do this by selecting multiple forms in Ready to Submit status and selecting the Submit button.

You can only complete the correction process for each form once. If a form is corrected, you'll no longer be able to correct that original form. If another correction is needed, it must be completed on the most current correction transmission. The form you've selected for correction will maintain a historical receipt ID with the original parent transmission. If you've incorrectly selected a form for correction, you'll be able to delete the form from the View Unsubmitted Forms page.

- **Record ID Link:** Once the IRS accepts a form with correction, the historic receipt ID will populate and link the form to its original transmission.
- **Historic Receipt ID Link:** A historic receipt ID will populate with the receipt ID of the parent transmission for corrected records. Clicking it will send you to the View Submitted Forms Details page for the parent transmission.

If you've started a correction and need to complete it, navigate to the Unsubmitted Forms page and select In Progress for the selected form. You'll advance to the Payer Information page, displaying the information you previously sent to the IRS.

Once you begin an initial Correction, the Make a Correction table will be disabled unless your Correction gets rejected, then the records are enabled again.

Note: If your correction gets rejected you will not be able to file a replacement for that rejected correction. You must return to the original submission and file a correction.

3.6.9. Submit A Replacement

If your submission was rejected you will need to replace the submission no later than 60 days after the transmission was rejected. If an acceptable replacement transmission is received after the 60 days and the return due date has passed, the transmitted returns may be subject to any applicable late-filing penalty. You can follow the same steps for making a correction. Replacements will resend the entire submission with all records included to replace the rejected one. Corrections will only submit the accepted or accepted with error individual records that were chosen for correction.

Note: Please wait until a transmission is processed and the Acknowledgment status is either Rejected or Partially Accepted before submitting a replacement.

To see what was received in the transmission, click on the Receipt ID Link the system will take you to the View the Submitted Forms Details page. You may then click on the Record ID Link which allows a record level view of your transmissions. On the View Form Details page, you can view the information you entered.

To return to the View the Submitted Forms Details use the Back button.

4. Request Automatic Extension

The Request Automatic Extension section allows you to request an automatic 30-day extension of time to file. The automatic 30-day extension of time to file information returns must be submitted by the due date of the returns. File an extension request as soon as you know an extension of time to file is necessary, but not before January 1 of the year in which the return is due. Submit a separate extension request for each issuer tax identification number (TIN).

After selecting the Request Automatic Extension button on the Dashboard page, you will be able to request a 30-day extension to file your forms.

FAQs

Issuer Information
The issuer (may also be known as the Payer, Filer, Lender, Creditor, Corporation, Trustee, or Acquirer) is the business or individual who is reporting payments or withholdings made to or on behalf of another individual in order to conduct business during the reported tax year.

U.S. Possessions and Military States
If you live in a U.S. possession or Military APO/FPO/AFPO, please choose United States as country of residence. Forms with addresses in the American Possessions are considered to have domestic addresses for processing purposes.

- **Saved issuer dropdown:** You can select a saved issuer from the Saved Issuer dropdown, if saved to the Saved Issuer List, to quickly populate information on this page.
- **Select Method of Filing Information Return:** This selection allows you to select if you are filing your information return electronically or by paper.
- **Select Form(s):** This selection allows you to select the forms you would like to request an Automatic Extension for. If a checkbox is disabled, the due date to request an extension for that form has passed.
- **Submit Button:** This selection allows you to visit the Automatic Extension Details page to view automatic extension approval information.

After the submission, you'll receive an instant approval acknowledgment that will appear on screen if the request is complete, accurate and timely.

Note: If your Zip files are not opening, you can try using one of the available programs online that are specifically designed for zipping and unzipping files.

6. Other Helpful Information

6.1. Retention Requirements

Issuers should keep a copy of information returns or be able to reconstruct the data for at least three years from the reporting due date with the following exceptions:

- Returns reporting federal withholding need to be retained for four years.
- Keep a copy of Form 1099-C, Cancellation of Debt, for at least four years from the due date of the return.

6.2. Due Dates

Form 1099 series are filed on a calendar year basis. For filing due dates for other information returns, please refer to the General Instructions for Certain Information Returns (Forms 1096, 1097, 1098, 1099, 3921, 3922, 5498, and W-2G).

Due Dates		
Form	IRS Electronic Filing	Furnish Copy to Recipient
1099	March 31	January 31, February 15 for Forms 1099-B and 1099-S. This also applies to statements furnished as part of a consolidated reporting statement.
1099-MISC	March 31	January 31, February 15 for amounts reported in boxes 8 or 10.
1099-NEC	January 31	January 31
NOTE: If any due date falls on a Saturday, Sunday, or legal holiday, the return or statement is considered timely if filed or furnished on the next business day.		

For other due dates and general reporting guidelines, refer to [A guide to information returns](#).

6.3. Filing a Waiver From Electronic Filing of Information Returns

If you think you won't be able to meet your electronic filing requirement, you may request a waiver. A waiver isn't automatic and, if accepted, is only good for the current filing year. The submission must be a paper [Form 8508, Application for a Waiver from Electronic Filing of Information Returns](#). Refer to the form for the instructions and additional information.

6.4. Combined Federal/State Filing (CF/SF) Program

If you participate in the IRS Combined Federal/State Filing (CF/SF) Program, you may report withholdings and payments for up to two states on this page. If you made a payment to a recipient that is reportable to more than one state, you must prorate the amounts for each state.

The following information returns may be filed under the CF/SF Program:

- Form 1099-B, Proceeds from Broker and Barter Exchange Transactions
- Form 1099-DIV, Dividends and Distributions
- Form 1099-G, Certain Government Payments
- Form 1099-INT, Interest Income
- Form 1099-K, Payment Card and Third-Party Network Transactions
- Form 1099-MISC, Miscellaneous Information
- Form 1099-NEC, Nonemployee Compensation

- Form 1099-OID, Original Issue Discount
- Form 1099-PATR, Taxable Distributions Received From Cooperatives
- Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc.
- Form 5498, IRA Contribution Information

The following table provides the participating states in the CF/SF Program. Each state's filing requirements are subject to change by the state. It is the filer's responsibility to contact the participating state(s) to verify their criteria and special data entry requirements.
