

Alternative Media Center

The Alternative Media Center (AMC) creates alternative media formats such as Braille and large print to make it easier for taxpayers with print disabilities to meet their tax responsibilities and receive tax incentives for which they are eligible. Our organization works with vendors, and we operate an in-house production facility to meet the needs of taxpayers quickly and effectively. We also provide targeted outreach to promote IRS accessibility services to individuals and businesses. Please visit the [Information About the Alternative Media Center](#) page for additional information.

Accessible Forms and Publications

The IRS offers content in a variety of file formats to accommodate people who use assistive technology such as screen reading software, refreshable Braille displays and voice recognition software. We have prepared hundreds of tax forms, instructions and publications that can be downloaded or viewed online in text, Braille ready files, browser-friendly HTML, accessible PDF and large print. Visit the [Accessible Forms and Publications](#) page on IRS.gov to access this information. To request paper copies of tax forms, instructions or publications in Braille or large print, call the tax form telephone number at 800-829-FORM (3676).
