Overview

The 2016 edition of IRS Publication 6186, *Calendar Year Return Projections for the United States and IRS Campuses*, provides the most recent revisions to the number of tax returns to be filed for the United States and IRS processing campuses by major return categories for Calendar Year (CY) 2016 through 2023. Also contained in this publication are projections of the number of returns to be filed for the United States by the IRS examination classes. These projections provide a foundation for IRS workload estimates and resource requirements contained in IRS budget submissions and other major planning documents. The Statistics of Income (SOI) staff within the IRS Research, Applied Analytics and Statistics organization develops and updates these forecasts annually to reflect changes in filing patterns, statutory requirements, and administrative procedures. The updates also incorporate the current economic and demographic outlook. The projections in this publication are based on information available as of November 2016.

Enacted tax law changes and confirmed administrative plans are reflected in these return projections. However, legislative or administrative initiatives simply under consideration are not used to update these return projections. In particular, the projections of electronically filed (e-file) returns contained in this publication are not goals, per se, and should not be interpreted as precluding an alternative e-file future.

Data Sources and Projection Methodology

The reported actual volumes of returns filed in CY 2015 are based on returns processed and recorded on the IRS master files. With few exceptions, these volumes are based on the same master file reporting systems as those used in the Internal Revenue Service Data Book (Publication 55B). However, master file counts were not available in some instances. In these cases, tallies of actual filings were provided by program staff in the IRS operating divisions, typically from data capture systems located in the IRS processing campuses.

The forecasts presented in Publication 6186 are based on various statistical models that capture and extrapolate historical filing trends, by each unique form type and medium of filing. Most models use time series extrapolation methods such as trended exponential smoothing. However, some return types, particularly individual income tax filings, are based on regression models that use economic and demographic variables such as total employment and gross domestic product as key input factors. In these instances, forecasts of the economic and demographic data series used by the SOI staff as the predictor variables are provided by IHS Global Inc. Also, where historical data are limited or non-existent, such as for new e-file products, the filing pattern for a comparable return type is applied. Customers interested in obtaining more detail on forecasting methodologies are welcome to contact the applicable staff member listed on the inside front cover.

Impact of Recent Legislative and Administrative Changes

As noted above, the effects of enacted legislation and administrative plans are embedded in these projections. The most significant of these changes are discussed below.

Reconfiguration of IRS Campus Processing Sites

IRS modernization efforts, built in part on the strong growth in electronic filing (e-file), have resulted in a major redistribution and consolidation of returns processing operations among the traditional IRS submission processing campuses. In CY 2002, the IRS began processing most paper individual returns at eight campuses, and transitioning a large portion of paper business and exempt organization returns to two other processing sites, Ogden and Cincinnati. IRS closed the Brookhaven, New York submission Processing center in December CY 2003 and moved to a configuration where seven campuses handled all returns associated with individuals. Ogden and Cincinnati handled virtually all of the business (and tax exempt) returns. IRS consolidation efforts continued with the closure of the Memphis campus at the end of September 2005. The Philadelphia and Andover campuses ended their paper individual returns processing operations in September 2007 and September 2009, respectively. The Atlanta campus ended paper processing in September 2011. The Austin, Fresno, and Kansas City campuses have processed all individual paper returns since 2012.

Plans were announced in September 2016 to further streamline the current three-site configuration for individual returns processing and the current two-site configuration for business returns processing. Kansas City will process most individual paper returns after 2024. The Fresno Campus will cease submission processing operations in September 2021 followed by the Austin Campus in September 2024. The Cincinnati campus will cease processing operations after September 2019 leaving the Ogden campus to process most of the business tax returns. Submission processing workload from individual and business e-file returns will be processed at the two end-state sites in Kansas City and Ogden after 2024.

The campus-level CY 2018 through CY 2023 volumes in this update of Publication 6186 reflect an initial estimate made in collaboration with HQ, Submission Processing of how workload might migrate from consolidating Submission Processing sites to the two end-state sites, Kansas City and Ogden. The alignments may change in future years based on updated return volume projections and other considerations. The current Submission Processing consolidation plan envisions the majority of individual returns will be processed in Kansas City at end-state in CY 2025 and the majority of business returns will be processed in Ogden.

In most instances, the campus where a taxpayer files a return depends upon the taxpayer's state, the form type, and the medium of filing, paper versus electronic.

The distribution of returns filed among the business return campuses is more complicated. In certain cases, the specific form type filed or the IRS-defined business operating division classification of a return, i.e., Small Business/Self-Employed, Tax Exempt/Government Entity, or Large Business and International, overrides the geographic criterion.

Additional Discussion of Trends

In CY 2015, the share of total electronic volumes over the grand total was about 66 percent. This percentage is expected to rise to 67 percent in CY 2016, and then steadily increase to over 74 percent by 2023. Individual income tax returns make up over half of the grand total of return filings in any given year. For CY 2016, the estimated share of individual Form 1040 series returns filed electronically is about 86 percent, and current forecasts project that this ratio will reach nearly 93 percent by 2023. Readers interested in more detailed discussion of trends and issues in individual income tax returns filings should refer to the 2016 update of IRS Publication 6187, *Calendar Year Projections of Individual Returns by Major Processing Categories*.

Track Record of Projection Accuracy

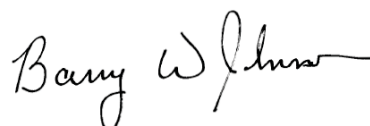

In an effort to measure the quality of our products and services, this section, along with Table 11, provides a brief analysis of the accuracy of prior projections. Using four years of actual data from 2012 through 2015, Table 11 presents the accuracy of our national level projections by major return categories. This analysis covers only the major return categories projected on a calendar year basis and serves as a general measure for approximating the overall reliability of our U.S. level return projections.

The table presents two measures of projection accuracy; the mean absolute percent error (MAPE) and the number of over-projections. The MAPE is computed as the average percent projection error regardless of whether the projections were over- or under- actual filings in each of the four projection cycles. The number of over-projections can show whether projections are consistently over- or under-projected. A value of two indicates balanced forecasts over the four cycles.

The table groups these two measures by time horizon. The time horizon is determined based on the year a forecast was made and the year projected. For example, a forecast for 2015 made in 2012 would be part of the “3- years-ahead” time horizon.

Comments and Questions

We thank our customers for their support as we continually seek to improve our products and services wherever possible. We welcome customer feedback at any time. Comments and suggestions regarding this publication can be directed to Ronald Walsh, Acting Chief, Servicewide Support Section at (202) 803-9309.

A handwritten signature in black ink that reads "Barry Johnson". The signature is written in a cursive style with a long horizontal flourish at the end.

* Some actuals shown in this table may differ from official counts reported elsewhere because they exclude certain return series only recently projected and whose accuracy can not yet be evaluated.

Table Notes

- Detail may not add to total due to rounding.
- Projected volumes are rounded to the nearest hundredth, therefore counts of 49 or fewer are rounded to zero. However, some forms can report zero filings because they are associated with only selected areas, or because their filing options were just established or recently eliminated.
- Actual and forecasted return counts for the major categories are based on IRS master file processing, as recorded in the electronic versions of the *Report of Returns Posted to the IRS Master Files*. Return counts presented in this document do not include the Non-Master File accounts.
- Complete master file counts for calendar year 2015 were not available for the following forms and had to be supplied at the national level by operating division staff and secondary sources: Forms 8849, and 5558 as well as the new estate examination class breakout as detailed later.

Notes below are grouped by applicable tables.

Tables 1 ~ 9

- “Grand Total” is the sum of “Total Primary Returns” and “Supplemental Documents, Total.” The “Total Primary Returns” category is the sum of all forms shown in the tables, excluding all “Supplemental Documents.”
- “Individual Income Tax, Total” is the sum of paper and electronic Forms 1040, 1040-A, 1040-EZ, 1040-NR, 1040NR-EZ, 1040-PR, 1040-SS and 1040-C.
- “Forms 1040, 1040-A, 1040-EZ, Total” is the sum of paper and electronic Forms 1040, 1040-A, and 1040-EZ.
- “Individual Estimated Tax, Form 1040-ES, Total” includes both paper and electronic Form 1040-ES. Various return categories, such as Form 1040-ES and other business and individual returns, include line items to account for alternative methods of tax filing. The “paper only” components can be derived by subtracting the electronic counts from their respective return totals.
- “Fiduciary, Form 1041, Total” includes both paper and electronic Form 1041.
- “Fiduciary Estimated Tax, Form 1041-ES” is the *Estimated Income Tax for Estate and Trust*.
- “Partnership, Forms 1065/1065-B, Total” includes both paper and electronic Forms 1065 and 1065-B.

- “Corporation Income Tax, Total” includes Forms 1120/1120-A (paper and electronic), Form 1120-C, 1120-F (paper and electronic), 1120-FSC, 1120-H, 1120-L, 1120-ND, 1120-PC, 1120-REIT, 1120-RIC, 1120-S (paper and electronic), and 1120-SF. Form 1120-A, *U.S. Corporation Short-Form Income Tax Return*, is obsolete and cannot be filed for tax years beginning after December 31, 2006. As a result of the Foreign Sales Corporation (FSC) Repeal and Extraterritorial Income Act of 2000 which repeals provisions in the U.S. Internal Revenue Code relating to taxation of foreign sales corporations, the volume of Forms 1120-FSC is declining. Form 1120-POL volumes are reported separately under the forms for “Political Organizations.” Form 1120-IC-DISC is not included in these corporation projections.
- “Form 2553” is the *Election (to file Form 1120-S) by a Small Business Corporation*.
- “Form 1066” is the *U.S. Real Estate Mortgage Investment Conduit (REMIC) Income Tax Return*.
- “Estate, Total” includes Forms 706, 706-NA, 706-GS(D), and 706-GS(T).
- “Gift, Form 709” is the *U.S. Gift (and Generation-Skipping Transfer) Tax Return*.
- “Employment Tax, Total” includes paper and electronic Forms 940, 940-EZ, 940-PR, 941, 941-PR, 941-SS, 943, 943-PR, 943-SS, 944, 944-PR, 944-SS, 945, and CT-1. Form CT-2 returns are excluded.
- “Form 1042” is the *Annual Withholding Tax Return for U.S. Source Income of Foreign Persons*. It is sometimes considered an employment tax return, but listed separately here. This form is assigned to the International area.
- “Exempt Organizations, Total” includes Forms 990 (paper and electronic), 990-EZ (paper and electronic), 990-N (only available electronically starting from CY 2008), 990-PF (paper and electronic), 990-T, 4720, and 5227.
- “Government Entities/Bonds, Total” includes Forms 8038, 8038-B, 8038-CP, 8038-G, 8038-GC, 8038-T, 8038-TC, and 8328.
- “Political Organizations, Total” includes Forms 1120-POL (paper and electronic), 8871 (only available electronically) and 8872 (paper and electronic).
- “Excise, Total” includes Forms 11-C, 720 (paper and electronic), 730, 2290 (paper and electronic) and Form 8849 (paper and electronic).
- “Form 5330” is the *Return of Excise Taxes Related to Employee Benefit Plans*.
- “Form 5500-EZ” is the Annual Return for One-Participant (Owner and Their Spouses) Retirement Plans.

- “Form 8752” is the *Required Payment or Refund Under Section 7519*.
- “Supplemental Documents” consist mainly of applications for extensions of time to file an amended tax returns, which include Forms 1040-X, 4868 (paper and electronic), 1120-X, 5558, 7004 (paper and electronic), and 8868 (paper and electronic).

Table 10

Return volumes presented in Table 10 reflect additional detail for certain form types by “examination class.” The examination classes are defined by IRS staff and are used for internal compliance planning purposes. While most of the examination class categories are self-explanatory, a few require a bit more clarification as follows.

Examination class definitions for Individual Forms “Forms 1040, 1040-A, and 1040-EZ”:

- Earned Income Tax Credit (EITC) returns with TPI (Total Positive Income—reflects total income excluding losses) less than \$200,000 and Schedule C/F with TGR (Total Gross Receipts) less than \$25,000 and \$25,000 or over.
- Non-business returns (with no EITC) with 1) TPI less than \$200,000 and no Schedule C, E, F, or Form 2106 and 2) TPI less than \$200,000 with only Schedule E or Form 2106.
- All non-farm business returns (no EITC) and TPI less than \$200,000 and Schedule C/F present with 1) TGR less than \$25,000, 2) TGR at \$25,000 or below \$100,000, 3) TGR at \$100,000 or below \$200,000, and 4) TGR \$200,000 or more.
- Farm business returns with no EITC, Schedule F present with TGR greater than Schedule C TGR (if any), and TPI less than \$200,000
- High income taxpayers is a new category broken out by 1) no Schedule C or F, but TPI \$200,000 or more and under \$1,000,000, 2) Schedule C or F returns present with TPI \$200,000 or more and under \$1,000,000, 3) TPI \$1,000,000 or more.
