Section 7 - Automated Non Master File

1 Nature of Changes

Description	Page No.
Updated NMF Transaction Codes	7-2

2 Background

The processing of Non Master File accounts has existed for several years. At one time the processing of NMF accounts consisted of manually posting account activity onto a Unit Ledger Card. This process was changed in 1991 with the introduction of the Automated Non Master File (ANMF) system.

The ANMF data base contains all open, closed and archived Non Master File (NMF) accounts processed at the Cincinnati Submission Processing Campus. Unlike the Master File, where all assessments for the same tax period are posted to one account, a NMF account is established for each assessment. Therefore, the NMF taxpayer may have several accounts for the same tax period (IRC 6201).

Accessing data on the ANMF database for research purposes is accomplished by submitting an OL5081.

There are six basic conditions which require NMF processing:

- (1) Large Dollar Accounts Accounts which have balances too large for the Master File to process.

 Note: Effective January 1, 2010, IMF will allow accounts that are less than \$1 Billion to post.
- (2) Overflow Accounts Accounts which have an excessive amount of transactions for the Master File to systemically process.
- (3) New Legislation Accounts which require immediate tax law implementation, but time does not permit for extensive modifications to the Master File.
- (4) Immediate Legal Assessments Accounts which require immediate (24 hours) legal assessments when the Master File would be too slow to post the assessments.
- (5) Reversal of Erroneous Abatements Accounts which require reversal of erroneous abatements when the statue for assessment (ASED) has expired.
- **(6) Child Support Cases** Child Support cases where collections of payments have been ordered by state courts but have fallen into arrears.

As of January 2016, there are approximately 10,000 open NMF accounts nationwide.

3 All NMF Notices now have Toll-Free Numbers

In keeping with our commitment to IRS' Mission statement, all NMF Notices include 1-888-829-7434 as a Toll-Free Number for taxpayers to inquire about their notice. Upon dialing the Toll-Free Number, the caller has an opportunity to select one of three options that will direct their call to the appropriate NMF team for resolution of their issue depending on whether the question is IMF International, BMF International or pre-tax year 2006 FIRPTA issues.

4 Account Specialist

The NMF Account Specialist provides technical assistance on complex Non-Master File issues and individual accounts and performs similar work as that found in the majority of non-supervisory positions assigned to the unit. Complete details

are available in IRM 3.17.46.

5 NMF Customer Service Representative (CSR)

Customer Service Representatives (CSR) at two campuses has been designated to respond to NMF taxpayers calling the Toll-Free Number and NMF correspondence. Cincinnati Accounts Management has a team designated to respond to BMF and BMF International issues and Philadelphia Accounts Management has CSRs designated to respond to IMF and IMF International issues. CSRs access the ANMF system for review of the taxpayer's account and reply accordingly. Procedures in handling NMF accounts are found in the Customer Service IRM 21.7.12.

6 User Friendly Transcript

A "Taxpayer Friendly" transcript can be requested on NMF. This transcript should be sent to the taxpayer in lieu of a hand written tax account. (For more details see IRM 3.17.46.13.2).

7 Pocket Vest Guide

Pocket Vest Guide Document 10978 is available through your local SID Site. It contains a MF to NMF Conversion chart, Pending Transcription Identification Codes, frequently used Toll Free Numbers, Abstract Codes, Doc Codes, MFTs, True Tax Class and other information.

8 Business Operating Division (BOD) Codes and Client Codes

In October 2000, the ANMF database was updated with the respective BOD Codes (BODC) from the Master File accounts as indicated below. Originators are responsible for annotating the BODC on all documentation for processing to NMF.

MF	BOD	BODC	MF	BOD	BODC	
IMF	Wage & Investment	WI	BMF	Large & Mid-Sized Business (T/C 150 is > \$10,000,000.00)	LM	
BMF	Small Business & Self Employed (T/C 150 is < \$10,000,000.00)	SB	EPMF	Tax Exempt & Government Entities	TE	

Each Business Operating Division is responsible for assigning the BODC to the taxpayer's account. The purpose of these codes is to further categorize the taxpayer's account within the BOD.

9 Child Support

The ANMF system provides a means for assessing, collecting and reporting of Full Collection Child Support payments.

	914		Active Intell. Investigation (a module)	

Listed are the transaction codes used within the ANMF system. Almost all of the transaction codes used on the Master File are applicable on the Non Master File. However, there are some distinct differences. (D = Debit, C = Credit, * = Transaction codes must be converted for NMF processing)
