GENERAL BUSINESS PURPOSE

What is the general business purpose of this Survey? Provide the reason for the Survey and the benefits to the IRS mission.

Congress has directed the IRS to conduct outreach to determine how to increase Low Income Tax Clinic (LITC) grantees in states that don't have a grantee. The report should assess why there are no successful grantees in those states, as well as include recommendations on how to enable new grant applications in these States. Within 120 days of enactment of this Act, the IRS shall report to the Committees on why there are no successful grantees in certain States and include recommendations on how to enable new grant applications in these States. The purpose of conducting these focus groups is to obtain information from a few current and past clinics on what obstacles they faced in becoming a LITC and how difficult the current reporting requirements are for them, so that the Taxpayer Advocate Service (TAS), which administers the LITC program for the IRS, can better determine what actions would facilitate the recruiting of LITCs in areas where there is no current coverage by a LITC.

PII DETAILS

Does the Survey use, collect, receive, display, store, maintain, or disseminate PII, or is PII (names, addresses, email addresses, etc.) used to select participants?

No
Does the Survey use, collect, receive, display, store, maintain or disseminate linkable data (gender, ethnicity, parts of address, tax filing information, etc.) or use linkable data to select participants?

Yes

List the linkable data applicable to this Survey.

TAS will use the email address of the LITC to solicit volunteers for the focus group triads. TAS will be able to determine the type of LITC and its location. The geographic location of the clinic is necessary to detect clinics in close geographic proximity to areas of the United States where there is no LITC coverage and to determine if the clinic primarily serves a rural or urban area.
