INSTRUCTIONS

If you owned a business, or practiced a profession, you must fill in separate Schedule C on other side and enter the net profit (or loss) on line 8, page 1, Form 1040. If you had more than one business, or husband and wife had separate businesses, a separate page 1 of Schedule C must be completed for each business.

All farmers should use separate Schedule F (Form 1040) to report their farm income whether reporting on the cash or accrual method. Income from any trade or business is subject to the social security self-employment tax, unless specifically excluded. See page 4.

Item A-Business Name and Location.—Do not use home address as business address unless business is actually conducted Enter street address rather than box numbers. from home.

Item B—Business Activity.—State the general classification of business activity.—State the general classification of business activity, as well as the principal product or service. For example, "Wholesale fruit," "Retail men's apparel," "Manufacture of upholstered wooden household furniture," "Transportation by truck," "Broker, real estate," "Contractor—carpenter work," etc. Do not use such terms as "partnership," "owner," "student," etc. The "principal business activity" is the one which accounts for the largest percentage of your total receipts.

Line 1—Total Receipts.—Include all income derived from your trade or business. Enter in the space provided such items as returned sales, rebates, and allowances from the sale price or service

charae.

If you have dividend income from stocks held by you in the ordinary course of carrying on your trade or business, such dividends must be considered together with your dividends from stocks regularly held for investment purposes in computing your dividend exclusion and credit on pages 3 and 4, Form 1040.

Installment Sales.—If you use the installment method of reporting income from sales, you must attach to your return a schedule showing separately for the years 1957, 1958, 1959, and 1960 the following: (a) Gross sales; (b) cost of goods sold; (c) gross profits; (d) percentage of profits to gross sales; (e) amounts collected; and (f) gross profits on amounts collected.

COST OF GOODS SOLD

Lines 2-9.—If you are engaged in a trade or a business in which the production, purchase, or sale of merchandise is an income producing factor, you must take inventories of merchandise and materials on hand at the beginning and end of the taxable year in order to reflect the gross profits correctly. The usual methods of valuing inventory are (a) cost or (b) cost or market whichever is lower. The method properly adopted for the first year in which inventory is taken must be continued unless permission to change is secured from the Commissioner of Internal Revenue, Washington 25, D. C. Application for permission to change the method of valuing inventories must be made in writing and filed with the Commissioner within 90 days after the beginning of the taxable year in which it is desired to effect a change. You should enter the letters "C" or "C or M" immediately before the amount column if inventories are valued either at cost, or at cost or market whichever is lower.

OTHER BUSINESS DEDUCTIONS

Line 15—Losses of Business Property.—You may deduct losses of business property by fire, storm, or other casualty, or theft, to the extent not compensated by insurance or otherwise and not made good by repairs claimed as a deduction. Attach a statement showing a description of the property, date acquired, cost, subsequent improvements, depreciation allowed or allowable since acquisition, insurance, salvage value, and deductible loss.

Line 16—Bad Debts Arising From Sales or Services.—Include debts, or portions thereof, arising from sales or professional services that have been included in income, which have been definitely ascertained to be worthless; or such reasonable amount as has been added within the taxable year to a reserve for bad debts. A debt which is deducted as bad and which reduces your tax must,

if subsequently collected, be returned as income for the year in which collected.

Line 17—Depreciation and Obsolescence.—You may deduct a reasonable allowance for exhaustion, wear and tear, and obsolescence of property used in the trade or business. For additional information regarding depreciation, especially on new property acquired or constructed after December 31, 1953, and additional first year depreciation, see depreciation section in the instructions for Form 1040. If a deduction is claimed on account of depreciation, fill in Schedule C-1. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. The value or cost of land must not be included in this schedule, and where land and buildings were purchased for a lump sum, the cost of the building subject to depreciation must be established. The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on your books.

Line 18—Repairs.—You may deduct the cost of incidental

repairs, including labor, supplies, and other items, which do not add to the value or appreciably prolong the life of the property. Expenditures for new buildings, machinery, and equipment, or for permanent improvements or betterments which increase the value of the property are chargeable to capital accounts. Expenditures for restoring or replacing property are not deductible, since such expenditures are chargeable to capital accounts or to depreciation reserve depending on how depreciation is charged on your books.

Line 19—Depletion of Mines, Oil and Gas Wells, Timber,

Etc.—If a deduction is claimed on account of depletion, procure from your District Director Form M (mines and other natural deposits), Form O (oil and gas), or Form T (timber), fill in and file with return. If complete valuation data have been filed with questionnaire in previous years, then file with your return information necessary to bring depletion schedule up to date.

Line 20—Amortization.—If you elect the deduction with respect to the amortization of the adjusted basis of (a) any emergency facility with respect to which the Government has issued a certificate of necessity, or (b) a grain storage facility, a statement of the pertinent facts should be filed with your return. (See sections 168 and 169 of the Internal Revenue Code.)

For the election to amortize research or experimental expenditures not subject to depreciation or depletion, see section 174 of the Code. For the election to amortize trademark or trade name expenditures, see section 177 of the Code.

Line 21—Other Business Expenses.—Include all ordinary and necessary business expenses for which no space is provided in the schedule. Any deduction claimed should be explained in Schedule C-2. Do not include cost of business equipment or furniture, expenditures for replacements, or for permanent improvements to

Property, or personal living and family expenses.

Net Operating Loss Deduction.—Any net operating loss deduction should be entered on line 3, Schedule H, page 3, of Form 1040. See instructions for Form 1040 and submit computation.

Expense Account Information.—Expense account allowance means: (a) amounts, other than compensation, received as advances or reimbursements, and (b) amounts paid by or for you for expenses incurred by or on behalf of yourself or your employees, including all amounts charged through any type of credit card, for which a deduction is claimed in this schedule.

However, this term does not include amounts paid for: (a) the purchase of goods for resale or use in your business; (b) incidental expenses, such as the purchase of office supplies or for local transportation in connection with an errand; (c) such fringe benefits as hospitalization insurance, approved pension trust funds and unemployment insurance; and (d) in the case of persons supplying legal, accounting, engineering or other professional services, the expenses which will be billed directly to the client (however, these persons should maintain records reasonably sufficient to establish the business purpose for the expenditure).
