General Instructions

(Section references are to the Internal Revenue Code unless otherwise noted.)

Paperwork Reduction Act Notice.—We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the

information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is:

Recordkeeping 24 hr., 52 min.

Learning about the law or the form 3 hr., 16 min.

Preparing the form 8 hr., 26 min.

Copying, assembling, and sending the form to the IRS 1 hr., 20 min.

If you have comments concerning the accuracy of these time estimates or

suggestions for making this form more simple, we would be happy to hear from you. You can write to both the **Internal Revenue Service**, Washington, DC 20224, Attention: IRS Reports Clearance Officer, T:FP; and the **Office of Management and Budget**, Paperwork Reduction Project (1545-0582), Washington, DC 20503. **DO NOT** send the tax form to either of these offices. Instead, see **When and Where To File** below.

Purpose of Form.—Corporations (other than S corporations) use Form 1139 to apply for:

- A quick refund of taxes from a carryback of a net operating loss (NOL), net capital loss, or unused general business credit.

- A quick refund of taxes from an overpayment of tax due to a claim of right adjustment under section 1341(b)(1).

What To Attach.—Attach copies of the following, if applicable:

- The first two pages of the corporation's income tax return for the loss year.

- Any form or schedule from which the carryback results (e.g., Schedule D (Form 1120), Form 3800, etc.).

- Forms or schedules (e.g., Schedule D (Form 1120), Form 3800, etc.), for items refigured in the carryback years.

- If the loss or unused credit is from a tax shelter, **Form 8271**, Investor Reporting of Tax Shelter Registration Number, for the year of the loss or unused credit.

- **Form 8302**, Application for Electronic Funds Transfer (EFT) of Tax Refund of \$1 Million or More, if the refund for any carryback year is \$1 million or more and the corporation wants the refund wired to a financial institution.

When and Where To File.—File Form 1139 within 1 year from the end of the tax year in which the NOL, net capital loss, unused credit, or claim of right adjustment occurred but not before the corporation files its income tax return for that year. File Form 1139 with the Internal Revenue Service Center where the corporation files its income tax return. Do not mail it with the corporation's income tax return.

If **Form 1138**, Extension of Time for Payment of Taxes by a Corporation Expecting a Net Operating Loss Carryback, was filed and the corporation wants an additional extension of time to pay, file Form 1139. File it by the last day of the month that includes the due date (with extensions) for filing the return for the tax year of the NOL from which the carryback results.

IRS Actions.—The IRS will act on this application within 90 days from the later of:

1. The date the completed form is filed, or
2. The last day of the month that includes the due date (with extensions) for filing the income tax return for the tax year of the NOL, net capital loss, or unused credit (or the date of the overpayment (under section 1341(b)(1) in the case of a claim of right adjustment).

The IRS may need to contact the corporation or its authorized representative for more information. To designate an attorney or representative, attach **Form 2848**, Power of Attorney and Declaration of Representative, to Form 1139.

A tentative carryback adjustment is not a claim for credit or refund. **It may be disallowed if any required attachments are missing or there are material omissions or math errors that cannot be corrected within the 90-day period.** If any part of the

tax is disallowed, no suit may be brought in any court for the recovery of that tax.

Any amount applied, credited, or refunded based on this application that the IRS later determines to be excessive may be billed as if it were due to a math or clerical error on the return.

In addition, the accuracy related penalty or the fraud penalty may be assessed. See sections 6662 and 6663. Interest is also charged on amounts erroneously refunded, credited, or applied.

Adjustments to NOL.—In a tax year in which the NOL occurs the following adjustments must be made: **(a)** the NOL deduction is not allowed; **(b)** the dividends-received deductions for dividends received from domestic and foreign corporations and for dividends received on certain preferred stock of a public utility are computed without regard to the limitation on the aggregate amount of deductions under section 246(b); and **(c)** the dividends-paid deduction for dividends paid on certain preferred stock of a public utility is computed without regard to the limitation under section 247(a)(1)(B).

Release of Credits.—When an NOL carryback or a net capital loss carryback eliminates or reduces a credit in an earlier tax year, the released credit may be carried back 3 more years. Use a separate Form 1139 for the earlier year(s). To expedite the processing of Form 1139, file both Forms 1139 at the same time. See section 39 and the instructions for **Form 3800**, General Business Credit, for additional information on credit carrybacks.

Form 1120X.—Form 1120X may be filed instead of Form 1139 to get a refund. Generally, the corporation must file Form 1120X within 3 years after the later of the due date of the return for the tax year of the NOL, net capital loss, or unused credit or the date the corporation filed its income tax return for that year.

If Form 1120X is filed, attach a computation of the NOL and pages 1 and 2 of Form 1120, for the loss year. Complete a separate Form 1120X for each loss year.

Specific Instructions

Address.—Include the room, suite, or other unit number after the street address. If the Post Office does not deliver mail to the street address and the corporation has a P.O. box, enter the box number instead of the street address.

Line 1a.—A corporation may carry back an NOL to each of the 3 years before the loss year and carry any remaining loss forward to each of the 15 years following the loss year.

A corporation may elect to carry forward an NOL only to each of the 15 years following the year of the loss. To make this election, attach a statement making this election to a timely filed return (including extensions) for the year of the NOL. This election is irrevocable.

Special rules apply for any part of an NOL related to any specified liability loss, including product liability losses. See section 172(b)(1)(C) for details.

Show on a separate attachment all adjustments required to figure an NOL that may be carried back to any year.

Line 1b.—A net capital loss may be carried back 3 years and treated as a short-term capital loss in the carryback year. The net

capital loss may be carried back only to the extent it does not increase or produce an NOL in the tax year to which it is carried. For special rules for capital loss carrybacks, see section 1212(a)(3).

Line 1c.—If a tentative refund is claimed based on a carryback of a general business credit, attach a copy of the appropriate credit form for the tax year in which the credit arose. Refigure the credit for each carryback year on Form 3800 and attach it to Form 1139.

Line 4.—If Form 1139 is filed to carry back a loss or unused credit to a year in which the corporation joined in the filing of a consolidated return, the IRS is required to send the refund for that year directly to, and in the name of, the common parent. See Regulations section 1.1502-78(a) and (b).

Lines 10 through 23.—In columns (a), (c), and (e), enter the amount for the applicable carryback year as shown on your original or amended return or per an IRS audit. Use the amounts on the amended return even if the IRS has not acted on it. Also attach a copy of the amended return to Form 1139 and write "Attachment to Form 1139" across the top. If the return was examined, enter the amounts determined as a result of the examination.

When completing lines 15 through 23, take into account any write-in amounts that may have appeared on the original return. For example, if Form 1120, Schedule J, line 10 was increased by interest on tax attributable to a payment received on a timeshare or residential lot, include that amount on line 23.

Line 10.—In columns (b), (d), and (f), enter the amount from columns (a), (c), and (e), respectively.

Line 11.—Enter the capital loss carryback but not more than capital gain net income. Capital gain net income is figured without regard to the capital loss carryback of the loss year or any later year. Attach a copy of Schedule D (Form 1120) for the carryback year. Enter the amount of the capital loss carryback as a positive number on line 11.

Line 15.—In columns (b), (d), and (f), enter the refigured income tax after taking into account the carryback(s). See the instructions for the corporate income tax return for the applicable year for more details on how to figure the tax and attach a detailed computation of the refigured tax. Take into account section 1561 when refiguring the income tax.

Line 16.—In columns (b), (d), and (f), enter the total of the corrected general business credits. Attach all Forms 3800 used to redetermine the amount of general business credit.

Line 22.—For columns (b), (d), and (f), refigure the alternative minimum tax and the environmental tax. Complete and attach Form 4626 for the appropriate year.

Line 24.—In columns (a), (c), and (e), enter the amount from line 23, columns (b), (d), and (f), respectively.

Line 26.—For a tentative refund based on an overpayment of tax under section 1341(b)(1), enter the overpayment on this line and attach a computation showing the information required by Temporary Regulations section 5.6411-1(d).
