Instructions for Form 4136

Section references are to the Internal Revenue Code.

A Change To Note

- The credit rates for gasohol have changed. This applies to nontaxable use of gasohol (line 1) and gasohol blending (line 9).
- Lines 4b and 4c have been shaded because those claims are not allowable.

Purpose of Form

Use Form 4136 to claim a credit for the Federal excise tax on fuels sold or used for nontaxable uses (or sales) of fuel during the income tax year. However, you may use **Form 8849**, Claim for Refund of Excise Taxes, to claim a periodic refund of excise taxes instead of waiting to claim an annual credit on Form 4136.

Partnerships. Partnerships (other than electing large partnerships) cannot file this form. Instead, they must include a statement on **Schedule K-1 (Form 1065)**, Partner's Share of Income, Credits, Deductions, etc., showing the allocation to each partner specifying the number of gallons of each fuel used during the tax year, the applicable credit per gallon, the nontaxable use or sale, and any additional information required to be submitted.

Additional Information

- **Pub. 378**, Fuel Tax Credits and Refunds, has more information on nontaxable uses and the definitions of terms such as gasohol blending, ultimate vendor, and blocked pump.
- **Pub. 225**, Farmer's Tax Guide, also includes information on credits for the Federal excise tax on fuels.

Amending Your Fuel Tax Credit

Generally, you may **not** amend a previously filed Form 4136 to add to amounts already claimed. See Pub. 378 for rules explaining when you may amend your income tax return to claim other fuel tax credits.

Recordkeeping

You must keep records to support any credits claimed on this return for at least 3 years from the date the return is due or filed, whichever is later.

Including the Fuel Tax Credit in Income

You must include in your gross income the amount of the credit from line 10 if you took a deduction on your tax return that included the amount of the taxes and that deduction reduced your income tax liability. See Pub. 378 for more information.

Specific Instructions

Complete all information requested for each claim you make. You must enter the number (when requested) from the **Type of Use Table**, the number of gallons, and the amount of credit. If you need more space for any line (for example, for more types of use), prepare a separate sheet using the same format as the line.

Attach separate sheets showing any additional information required for your claim such as the computation of the amount to be credited. Be sure to write your name and taxpayer identification number (TIN) on each sheet.

Caution: To make an ultimate vendor claim on lines 6 and 7, you are required to have a **UV** registration number (or **UP** registration number, in the case of kerosene sales from a blocked pump). If you do not have a registration number, you cannot make a claim at this time. Use **Form 637**, Application

for Registration (For Certain Excise Tax Activities), to apply for one. See your income tax return instructions for information on how to order forms.

Amount of credit. For lines 1 through 8, multiply the rate by the number of gallons. For line 9, multiply the rate by the number of gallons of gasoline. Enter the result (or the combined result as indicated by the brackets) in the amount of credit column. Include amounts from any separate sheets.

The following table lists the nontaxable uses of fuels. You must enter the number from the table in the **Type of use** column.
