What's New

- The reduced rates of excise tax for most alcohol-blended fuels have been eliminated and the lines for any credits have been removed.
- The following new credits have been added:
 - a. Sales by registered ultimate vendors of aviation-grade kerosene (line 8) before October 1, 2005;
 - b. Sales by registered ultimate vendors of gasoline (line 9) and aviation gasoline (line 10) sold to state and local governments and nonprofit educational organizations;
 - c. Sales by registered ultimate vendors of undyed diesel fuel (line 3d) or undyed kerosene (line 4b) sold for use by intercity and local buses, if the ultimate purchaser waives its right to the claim;
 - d. Alcohol fuel mixtures (line 12) and biodiesel mixtures (line 13); and
 - e. Kerosene for use in aviation after September 30, 2005 (line 14).
- Fuel used in mobile machinery in an off-highway business use is limited to an annual claim on Form 4136 for taxable years beginning after October 22, 2004.
- Effective after September 30, 2005, the ultimate vendor can no longer make claims for undyed diesel fuel (line 6a) and undyed kerosene (line 7a) used on a farm for farming purposes. Claims can be made only by the ultimate purchaser (the farmer), using lines 3e and 4c. However, claims for kerosene used in aviation on a farm for farming purposes must be claimed by the ultimate vendor on line 14b.
- Effective after September 30, 2005, claims cannot be made for the LUST tax, except for fuel destined for export. The affected credit rates have been reduced by \$.001 to reflect this change. Two rates are shown on various lines of Form 4136, the * rate is effective after September 30, 2005.
- Aviation-grade kerosene is eliminated as a type of fuel effective after September 30, 2005. Lines 5 and 8 are not applicable after this date. All ultimate purchaser claims for kerosene used in domestic commercial aviation and all registered ultimate vendor claims for kerosene used in noncommercial aviation and foreign trade after September 30, 2005, will be made on line 14. Type of use 11 is not valid after September 30, 2005.
- Type of use 13 has been added to the type of use table, exclusive use by a nonprofit educational organization.
- Type of use 14 has been added to the type of use table, exclusive use by a state, a political subdivision of a state, or the District of Columbia.

Purpose of Form

Use Form 4136 to claim a credit for certain nontaxable uses (or sales) of fuel during the income tax year. Also use Form 4136 if you are a producer claiming a credit for alcohol fuel mixtures or biodiesel mixtures. However, you may use Form 8849, Claim for Refund of Excise Taxes, to claim a periodic refund instead of waiting to claim an annual credit on Form 4136.

Caution: You cannot claim any amounts on Form 4136 that you claimed on Form 8849 or Schedule C (Form 720).

Partnerships. Partnerships (other than electing large partnerships) cannot file this form. Instead, they must include a statement on Schedule K-1 (Form 1065), Partner's Share of

Income, Deductions, Credits, etc., showing the allocation to each partner specifying the number of gallons of each fuel used during the tax year, the applicable credit per gallon, the nontaxable use or sale, and any additional information required to be submitted.

Additional Information

- Publication 378, Fuel Tax Credits and Refunds, has more information on nontaxable uses and the definitions of terms such as ultimate vendor and blocked pump.
- Publication 225, Farmer's Tax Guide, also includes information on credits for the federal excise tax on fuels.

Recordkeeping

You must keep records to support any credits claimed on this return for at least 3 years from the date the return is due or filed, whichever is later.

Including the Fuel Tax Credit in Income

You must include in your gross income the amount of the credit from line 15 if you took a deduction on your tax return that included the amount of the taxes and that deduction reduced your income tax liability. See Pub. 378 for more information.

Specific Instructions

Complete all information requested for each claim you make. You must enter the number (when requested) from the *Type of Use Table*, the number of gallons, and the amount of credit. If you need more space for any line (for example, for more types of use), prepare a separate sheet using the same format as the line.

Attach separate sheets showing any additional information required for your claim such as the computation of the amount to be credited. Be sure to write your name and taxpayer identification number (TIN) on each sheet.

Amount of credit. For lines 1 through 14, multiply the rate by the number of gallons. For lines 12 and 13, enter the number of gallons of alcohol or biodiesel. Enter the result (or the combined result as indicated by the brackets) in the amount of credit column. Include amounts from any separate sheets.

Annual Claims

If a claim was not made for any gallons during the income tax year on Form 8849 or Form 720, an annual claim may be made. Generally, an annual claim is made on Form 4136 for the income tax year during which the fuel was used by the ultimate purchaser, sold by the registered ultimate vendor, used to produce an alcohol fuel mixture or biodiesel mixture, or used in mobile machinery.

Claims for Fuel Destined for Export Including the LUST Tax

Effective after September 30, 2005, claims cannot be made for the LUST tax, except for fuel destined for export. The affected credit rates have been reduced by \$.001 to reflect this change. Two rates are shown on various lines of Form 4136 with the * rate effective after September 30, 2005. Taxpayers claiming the rate including the LUST tax for fuel destined for export must attach a statement to Form 4136. The statement should include the type of fuel, credit rate, number of gallons, total credit, and proof of export. Include any claims for fuel destined for export on the applicable line of Form 4136.
