Minimum Tax Defeered From Earlier Year(s).—If a net operating loss carryover from an earlier year(s) reduces taxable income for 1986 and the net operating loss giving rise to the carryover resulted in the deferral of minimum tax in that earlier year(s), all or part of the deferred minimum tax may be includable as tax liability for 1986. Figure the deferred minimum tax in the worksheet in Publication 909 and enter it on Form 1040, line 51, or Form 1041, line 31.

Write "Deferred Minimum Tax."

Partners, Beneficiaries, etc.—If you are a (1) Partner or shareholder of an S corporation, take into account separately your distributive share of items of income and deductions that enter into the computation of tax preference items. (2) Beneficiary of an estate or trust, see section 55(e) and the line 4(d) instructions. (3) Participant in a common trust fund, see section 58(e). (4) Shareholder or holder of beneficial interest in a regulated investment company or a real estate investment trust, see section 58(f).

Note: If you have an earned income credit, you must reduce that credit by any alternative minimum tax.

Line-by-Line Instructions
Line 1. Estates and Trusts.—Adjusted gross income is figured in the same way as for an
individual except that the costs of the administration of the estate or trust are allowed in figuring adjusted gross income.

All taxpayers.—Do not deduct any interest expense incurred to purchase or carry a limited business interest in a partnership or S corporation, in figuring adjusted gross income. Instead, include in line 2(e)(1).

Do not include in line 1 any alcohol fuel credit included in income.

Add to adjusted gross income any net operating loss deduction to the extent not deducted by any alternative tax net operating loss deduction. See Publication 909, Alternative Minimum Tax, for details and attach a computation.

Lines 2(a) through 2(h).—Do not include on these lines any deduction that can be carried back or forward as a capital loss or gain or as a charitable contribution.

Individuals.—Complete and attach Schedule A (Form 1040) for any deduction listed on these lines, whether or not you completed it in figuring Form 1040, line 34. If you did not use Schedule A to figure Form 1040, line 34, write "ALT Min Tax" in the top margin of Schedule A.

Estates and Trusts.—Enter on the applicable line any deduction listed on these lines allowable to the estate or trust. Include on line 2(h), any itemized deduction not allowed to you and allocated to the beneficiaries of the estate or trust.

Line 2(d).—Enter on line 2(d) your qualified interest from Schedule A, line 11. Include allowable points from line 13. Enter the part of the interest that is from debts you incurred in acquiring, constructing, or substantially rehabilitating property, other than a houseboat, which you, or certain family members listed in section 267(c)(4), use as a residence.

If the interest expense is on debts incurred before July 1, 1987, you can generally deduct the interest. At the time you incurred the debt, it must have been secured by property which you, or certain family members listed in section 267(c)(4), used as a residence.

Line 2(e)(2).—Enter your investment income minus investment expenses.

Investment income is your gross income from interest, dividends, rents, and royalties, and any amount treated as ordinary income under sections 1245, 1250, and 1254. Do not include income from a trade or business. Include as investment income, your capital gains and losses from the sale or exchange of property held for investment, and the amount to be entered on line 4(a). Add or subtract from investment income, any income or loss from a limited business interest.

Investment expenses allowable against the production of investment income provided they are allowed in figuring adjusted gross income and not includible in line 4.

Line 4(b). 60% Capital gain deduction.—Individuals.—Enter your 60% capital gain deduction from your Schedule D (Form 1040), line 20, or Form 4798, line 9. If you had an entry on Form 1040, line 14, enter 60% of your capital gain distributions. Do not include the capital gain deduction attributable to a sale or exchange of a principal residence.

Estates and Trusts.—Enter the capital gain deduction taken into account on Forms 1041 or 990-T. However, an amount paid or permanently set aside for a charitable purpose is not a tax preference item.

Lines 4(c) and 4(d). Accelerated depreciation on real property; Accelerated depreciation on leased personal property or leased recovery property other than 15, 18, or 19-year real property.—If you use the Class Life Asset Depreciation Range (CLADR) System, use the asset guideline period as the straight-line useful life to figure lines 4(c) and (d).

For (c) but not (d), use any variance in useful life section 167(m)(1) as the straight-line percentage.

Line 4(c).—For property other than recovery property, enter the amount you get (never less than zero) by subtracting the depreciation that would have been allowable for the year if you had used the straight-line method from the result of subtracting the depreciation or amortization actually allowable. Figure this amount separately for each property.

For 15, 18, or 19-year real property, or low income housing, enter the amount by which the deduction allowed under section 168(a) is reduced by the straight-line method. If the amount is more than the deduction which would have been allowable had the property been depreciated using a 15, 18, or 19-year period and the straight-line method without salvage value.

Line 4(d).—For leased property other than recovery property, enter the amount you get (never less than zero) by subtracting the depreciation that would have been allowable for the year if you had used the straight-line method, from the depreciation or amortization actually allowable. Figure this amount separately for each property.

For leased recovery property other than 15, 18, or 19-year real property, or low income housing, enter the amount by which your deduction under section 168(a) is reduced by the amount you would have been allowed using the straight-line method with a half-year convention, no salvage value, and the following recovery period:

3 year property……………….5 years
5 year property………………..8 years
10 year property……………..15 years
15 year public utility property…….22 years

Note: If the recovery period actually used is longer than the recovery period in 4(c) or 4(d), do not complete line 4(g).

Line 4(e). Amortization of certified pollution control facilities.—Enter the amount by which the amortization allowable under section 169 is more than the depreciation deduction otherwise allowable.

Line 4(f). Mining exploration and development costs.—For each mine or other natural deposit (other than an oil or gas well), enter the amount by which the deductions allowable under section 616(a) or 617 are more than the amount that would have been allowed if you had amortized the expenses over a 10-year period.

Line 4(g). Circulation and research and experimental expenditures.—Enter the amount by which the deductions allowable for circulation and research and experimental expenditures under sections 173 and 174 are more than the amount that would have been allowable if you had amortized the circulation expenses over a 3-year period and the research and experimental expenses over a 10-year period.

Line 4(h). Reserves for losses on bad debts of financial institutions.—Enter your share of the excess of the addition to the reserve for bad debts over the reasonable addition to the reserve for bad debts that would have been allowable if you had maintained the bad debt reserve for all tax years based on actual experience.

Depletion.—In the case of minerals, wells, and other natural deposits, enter the amount by which the deduction for depletion under section 611 (including percentage depletion for oil, gas, and other mineral deposits in the adjusted basis of such property at the end of the tax year). Line 4(j). Incentive stock options.—If you received stock by the exercise of an incentive stock option, enter the amount by which the fair market value of the shares at the time of exercise was more than the option price. See sections 75(a)(10) and 422A

Line 4(k). Intangible drilling costs.—Intangible drilling costs are a tax preference item to the extent that the excess intangible drilling costs are more than your net income from oil, gas, and geothermal properties.

Figure excess intangible drilling costs as follows: from the allowable intangible drilling and development costs (except for costs in drilling a non-productive well), subtract the amount that would have been allowable if you had capitalized those costs. Subtract the result from the amount of theinci months that started when production began, or treated them according to any election you made under section 57(d)(2).

Your net income from oil, gas, and geothermal properties is your gross income from them, minus the deductions allocable to them, except for excess intangible drilling costs and nonproductive well costs.

Figure the line 4(k) amount separately for oil and gas properties which are not geothermal deposits and for all properties which are geothermal deposits.

Line 4(l). Special Tax Preference Item for Estate and Trust Beneficiaries. Some itemized deductions of the estate or trust (such as state and local taxes) are deducted by the estate or trust in figuring Form 1041. Although deducted by you, but are not allowed as itemized deductions on this form. These amounts must be treated as a tax preference item allocated to you. The estate or trust should separately show these amounts on the Schedule D, line 16. Schedule D sends you. Add any such amounts to the total of your other tax preference items on line 4(l). Also, on the dotted line to the left of the entry space for line 4(l), write “Section 58(c)” and indicate the amount.

Lines 5 and 8.—If this is a short period return, use the formula in section 443(d)(1) to determine the amount to enter on these lines.
