Claiming the Credit

The research credit shown on line 28 is one of six credits that make up the General Business Credit. The General Business Credit consists of the following credits: (1) investment credit, (2) jobs credit, (3) alcohol fuels credit, (4) research credit, (5) low-income housing credit, and (6) disabled access credit.

If you have more than one of these credits for 1990, a carryback or carryforward of any of these credits, or a research credit from a passive activity, you must attach the appropriate credit forms and summarize them on **Form 3800, General Business Credit**. Do not complete Part IV above. If you have only a 1990 research credit and the credit is not from a passive activity, you do not have to file Form 3800 this year. Instead, complete Part IV above.
