Claiming the Credit

The research credit shown on line 28 is one of the credits that make up the general business credit.

If for this year you have more than one of the credits included in the general business credit (see list on this page), have a carryback or carryforward of any of the credits, or have a research credit from a passive activity, you must complete **Form 3800**, General Business Credit, instead of Part IV of Form 6765 to figure the tax liability limitation.

The general business credit consists of the following credits: investment (Form 3468), jobs (Form 5884), alcohol used as fuel (Form 6478), research (Form 6765), low-income housing (Form 8586), enhanced oil recovery (Form 8830), disabled access (Form 8826), renewable electricity production (Form 8835), Indian employment (Form 8845), employer social security and Medicare taxes paid on certain employee tips (Form 8846), and contributions to selected community development corporations (Form 8847).

Although the empowerment zone employment credit (Form 8844), is a component of the general business credit, it is figured separately on Form 8844. This credit is not reported on Form 3800.
