A separate Form 8329 must be filed for each issue of MCCs with respect to which the lender made mortgage loans during the calendar year.

Each person who makes a loan that is a certified indebtedness amount on any mortgage credit certificate must file Form 8329.

#### When to File

File Form 8329 on or before the 31st day of January following the close of the calendar year the lender made certified indebtedness loans.

The commissioner may grant an extension of time to file Form 8329 if reasonable cause exists for failure to timely file.

#### Where to File

#### Penalty

Any person who is required to file Form 8329 and fails to timely file that return, may be subject to a \$200 penalty for each return that was not timely filed.

#### Definitions

A **mortgage credit certificate** is a certificate issued under a "qualified mortgage credit certificate program" by the state or political subdivision having the authority to issue a qualified mortgage bond which provides financing for the acquisition, qualified rehabilitation, or qualified home improvement of a taxpayer's principal residence. For more information, see section 25(c)(1).

A **qualified mortgage credit certificate program** is any program established by a state or political subdivision for any calendar year which is authorized to issue qualified mortgage bonds under section 103A but elects to issue mortgage credit certificates. (See section 25(c)(2)(A) for additional requirements and section 25(c)(2)(B) for modifications to those requirements.)

The **certified indebtedness amount** is the amount of indebtedness which is specified in the MCC and incurred by a taxpayer to acquire

- (a) his principal residence,
- (b) a qualified home improvement loan, or
- (c) a qualified rehabilitation loan.

The **certificate credit rate** is the rate specified by the issuer on the mortgage credit certificate. However, the rate cannot be less than 10% nor more than 50%. For other limitations, see temporary regulation section 1.25-2T(b).
