What's New

The election to claim a refundable credit for certain unused minimum tax credits in lieu of the special depreciation allowance for qualified property has been extended to certain property placed in service in 2009 and 2010. See the instructions for line 7b.

Purpose of Form

Corporations use Form 8827 to figure the minimum tax credit, if any, for AMT incurred in prior tax years and to figure any minimum tax credit carryforward.

Who Should File

Form 8827 should be filed by corporations that had:

- An AMT liability in 2008,
- A minimum tax credit carryforward from 2008 to 2009, or
- A qualified electric vehicle credit not allowed for 2008 (see the instructions for line 3).

Line 3

Enter any qualified electric vehicle credit not allowed for 2008 solely because of tentative minimum tax limitations.

Line 5

Enter the corporation's 2009 regular income tax liability (as defined in section 26(b)) minus any credits allowed under Chapter 1, Subchapter A, Part IV, subparts B, D, E, and F of the Internal Revenue Code (for example, if you are filing Form 1120, subtract any credits on Schedule J, lines 5a through 5c, from the amount on Schedule J, line 2).

Line 6

See the 2009 Instructions for Form 4626 to find out if the corporation is treated as a "small corporation" exempt from the AMT for 2009. If the corporation is a "small corporation" exempt from the AMT, see section 38(c)(5) before completing line 6 for special rules that apply to controlled corporate groups, regulated investment companies, and real estate investment trusts.

Line 7b

A corporation can elect (under section 168(k)(4)) to accelerate its use of unused minimum tax credit carryforwards from tax years beginning before 2006 and obtain a refundable credit in lieu of any special depreciation allowance for eligible qualified property and extension property (defined later). If the election is made, the corporation must do the following.

- Forgo the special depreciation allowance for the eligible property, and
- Use the straight-line method of depreciation of such property.

If the corporation made an election to increase the research credit or minimum tax credit limitations for its first tax year ending after March 31, 2008, the corporation can choose not to have the election apply to extension property. Otherwise, the original election continues to apply to both eligible qualified property and extension property. In this case, separate bonus depreciation amounts, maximum increase amounts, and maximum amounts must be computed for eligible qualified property and for extension property.

Note. If the corporation did not make the election for its first tax year ending after March 31, 2008, it can make the election **only** for extension property for its first tax year ending after December 31, 2008.

Eligible qualified property. Generally, eligible qualified property is qualified property under section 168(k)(2) that is acquired after March 31, 2008, and placed in service before January 1, 2009, and long production period property or certain aircraft (described in sections 168(k)(2)(B) and (C)) that is placed in service in 2009. If a binding contract to acquire the property existed before April 1, 2008, the property does not qualify. See section 168(k)(4)(G)(iii) for special rules for written binding contracts involving certain passenger aircraft.

For more information on the election to accelerate the research or minimum tax credit for eligible property, including information on how to make the elections, see Rev. Proc. 2008-65, 2008-44 I.R.B. 1082, available at http://www.irs.gov/irb/2008-44_IRB/ar15.html; Rev. For more information on the special depreciation allowance, see the Instructions for Form 4562 and Pub. 946, How To Depreciate Property.

S corporations that make the election to accelerate the credit can use the credit only against the built-in gains tax. See the instructions for Schedule D (Form 1120S), line 20. Corporations that file Form 1120-REIT or Form 1120-RIC must apply the credit first against the built-in gains tax, if any, and reduce the refundable credit by the amount so applied. See the instructions for line h of the Built-in Gains Tax Worksheet in the separate instructions for those forms.

Line 8

If the corporation had a post-1986 ownership change (as defined in section 382(g)), there may be a limit on the amount of pre-change minimum tax credits that can be applied against the corporation's tax for any tax year ending after the ownership change. See section 383 and the related regulations. To figure the amount of the pre-change credit, the corporation must allocate the credit for the change year between the pre-change period and the post-change period. The corporation must use the same method of allocation (ratable allocation or closing-of-the-books) for purposes of sections 382 and 383. See Regulations section 1.382-6 for details.

Also, there may be a limit on the use of pre-acquisition excess credits of one corporation to offset the tax attributable to recognized built-in gains of another corporation. See section 384 for details.

If either limit applies, attach a computation of the minimum tax credit allowed. Enter that amount on line 8a. Write "Sec. 383" or "Sec. 384" on the dotted line to the left of the line 8a entry space.
