Part II Record of Railroad Retirement Tax Liability

Each month is divided into eight deposit periods called eighth-monthly periods that end on the 3rd, 7th, 11th, 15th, 19th, 22nd, 25th, and last day of each month as shown below. If your taxes for every month during the year are less than \$3,000, you can show them on the "total" lines (I, II, and III) and skip the other lines. However, if your taxes for any month during the year are \$3,000 or more, find the eighth-monthly periods during the year in which you had paydays. Make entries only on the lines next to these periods. Enter your tax liability (both employee and employer Tier I and Tier II taxes but not including the supplemental work-hour tax) for each eighth-monthly period during which you had a payday. Show the supplemental

work-hour tax on the line provided above the monthly total lines.

You must complete a separate Schedule B (Form 941) for each quarter in which you have an eighth-monthly period with a liability of \$100,000 or more. For quarters where you must complete Schedule B (Form 941) do not complete the column for that quarter on Form CT-1. Enter your work-hour tax below the eighth-monthly period liability for periods H, P, and X. To the left in column 1, write "ST" (supplemental tax). Enter the total for the quarter from the bottom of Schedule B (Form 941) on line IV of Form CT-1.

The total liability for the year (line V) should equal the total taxes for the year (line 18). Otherwise, you may be charged a penalty, based on your average tax liability, for not making deposits of taxes.

Note: See the separate instructions for the deposit rules for railroad retirement taxes.

Requirement for Annual Deposit.—If your total tax liability for the year (reduced by any deposits for the year) is \$100 or more, deposit the unpaid balance of these taxes by March 2, 1992. This deposit plus previous deposits for the year should equal the total taxes reported on line 18 on the other side. Any balance due of less than \$100 can be paid with the return.

quarter of 1991 by multiplying the first \$765 of rail wages you paid of each employee's monthly wages during the quarter by 4%. See the separate instructions for the deposit rules. If you are
