Purpose of Form.—Use this form to report railroad retirement and railroad unemployment repayment taxes imposed on employee representatives.

Railroad retirement taxes.—The Railroad Retirement Tax Act imposes two taxes on an employee representative. One is based on compensation and the other is based on work-hours.

Taxes based on compensation.—These taxes are divided into Tier I and Tier II taxes. The amount of the compensation subject to each tax is different.

The Tier I tax rate for 1990 is 15.3%. It applies to only the first \$51,300 paid during 1990 for services performed as an employee representative.

The Tier II tax rate for 1990 is 14.75%. It applies to only the first \$38,100 paid during 1990 for services performed as an employee representative.

Tax based on work-hours.—This supplemental tax is 26 cents for each work-hour for which compensation is paid during the quarter. Employee representatives will be told the tax rate for each quarter before the quarter begins.

Railroad unemployment repayment tax.—For 1990, the rate is 4% on the first \$745 of rail wages paid each month.

Definitions

1. Employee representative.—The term "employee representative" is defined in the Railroad Retirement Tax Act (section 3231(c) of the Internal Revenue Code). It means:

DUPLICATE

General Information—Continued

(a) Any officer or official representative of a railway labor organization that is not included as an “employer” as defined in section 3231(a) of the Code who: (1) was in the service of an “employer,” and (2) is authorized and designated to represent employees in accordance with the Railway Labor Act, as amended; and

(b) Any individual who is regularly assigned to or regularly employed by an employee representative as defined in (a) above in connection with the duties of the employee representative’s office.

2. Compensation and rail wages.—The term “compensation” means payment in money, or in something that may be used instead of money, for services rendered as an employee representative. It does not include sickness or accident disability payments received: (a) under a workmen’s compensation law; (b) under section 2(a) of the Railroad Unemployment Insurance Act for days of sickness due to on-the-job injury; (c) under the Railroad Retirement Act; or (d) more than 6 months after the calendar month the employee representative last worked for the railway labor organization.

Nor does it include payments for medical or hospital expenses connected with such disabilities. It also does not include payments for traveling or other necessary expenses made

separately or designated specifically as travel or business expenses when combined in a payment for services rendered.

If an individual performs services as both an employee representative and as an employee, and if the total pay for these services is more than the applicable maximum, subtract the pay as an employee from the maximum to get the amount subject to the employee representative tax.

“Rail wages” means the remuneration paid each month that is subject to contributions under section 8(a) of the Railroad Unemployment Insurance Act.

Compensation and rail wages are considered paid when they are actually paid or when they are constructively paid.

“Constructively paid” means: (a) that the pay has been credited to the employee representative’s account or set apart with no limit or condition on how or when the payment will be made, and (b) that it is available to draw on at any time and to control.

3. Work-hours.—For an explanation of work-hours, see the discussion under “Supplemental Tax” in the **Instructions for Form CT-1**.
