2012 Instructions for Schedule A (Form 1040)

Itemized Deductions

Use Schedule A (Form 1040) to figure your itemized deductions. In most cases, your federal income tax will be less if you take the larger of your itemized deductions or your standard deduction.

If you itemize, you can deduct a part of your medical and dental expenses and unreimbursed employee business expenses, and amounts you paid for certain taxes, interest, contributions, and miscellaneous expenses. You can also deduct certain casualty and theft losses.

If you and your spouse paid expenses jointly and are filing separate returns for 2012, see Pub. 504 to figure the portion of joint expenses that you can claim as itemized deductions.

Do not include on Schedule A items deducted elsewhere, such as on Form 1040 or Schedule C, C-EZ, E, or F.

Future Developments. For the latest information about developments related to Schedule A (Form 1040) and its instructions, such as legislation enacted after they were published, go to www.irs.gov/form1040.

What's New

Standard mileage rates. The standard mileage rate allowed for operating expenses for a car you use for medical reasons is 23 cents per mile. The 2012 rate for use of your vehicle to do volunteer work for certain charitable organizations remains at 14 cents per mile.

Medical and Dental Expenses

You can deduct only the part of your medical and dental expenses that exceed 7.5% of the amount on Form 1040, line 38.

Pub. 502 discusses the types of expenses you can and cannot deduct. It also explains when you can deduct capital expenses and special care expenses for disabled persons.

If you received a distribution from a health savings account or a medical savings account in 2012, see Pub. 969 to figure your deduction.

Examples of Medical and Dental Payments You Can Deduct

To the extent you were not reimbursed, you can deduct what you paid for:

- Insurance premiums for medical and dental care, including premiums for qualified long-term care insurance contracts as defined in Pub. 502. But see Limit on long-term care premiums you can deduct, later. Reduce the insurance premiums by any self-employed health insurance deduction you claimed on Form 1040, line 29. You cannot deduct any premiums you paid with pretax dollars because the premiums are not included in box 1 of your Form(s) W-2. If you are a retired public safety officer, you cannot deduct any premiums you paid to the extent they were paid for with a tax-free distribution from your retirement plan.

- Prescription medicines or insulin.
- Acupuncturists, chiropractors, dentists, eye doctors, medical doctors, occupational therapists, osteopathic doctors, physical therapists, podiatrists, psychiatrists, psychoanalysts (medical care only), and psychologists.
- Medical examinations, X-ray and laboratory services, insulin treatment, and whirlpool baths your doctor ordered.
- Diagnostic tests, such as a full-body scan, pregnancy test, or blood sugar test kit.
- Nursing help (including your share of the employment taxes paid). If you paid someone to do both nursing and housework, you can deduct only the cost of the nursing help.
- Hospital care (including meals and lodging), clinic costs, and lab fees.
- Qualified long-term care services (see Pub. 502).
- The supplemental part of Medicare insurance (Medicare B).
Examples of Medical and Dental Payments You Cannot Deduct

- The cost of diet food.
- Cosmetic surgery unless it was necessary to improve a deformity related to a congenital abnormality, an injury from an accident or trauma, or a disfiguring disease.
- Life insurance or income protection policies.
- The Medicare tax on your wages and tips or the Medicare tax paid as part of the self-employment tax or household employment taxes.

If you were age 65 or older but not entitled to social security benefits, you can deduct premiums you voluntarily paid for Medicare A coverage.

- Nursing care for a healthy baby. But you may be able to take a credit for the amount you paid. See the instructions for Form 1040, line 48.
- Illegal operations or drugs.
- Imported drugs not approved by the U.S. Food and Drug Administration (FDA). This includes foreign-made versions of U.S.-approved drugs manufactured without FDA approval.
- Nonprescription medicines (including nicotine gum and certain nicotine patches).
- Travel your doctor told you to take for rest or a change.
- Funeral, burial, or cremation costs.

TIP
Do not forget to include insurance premiums you paid for medical and dental care. But if you claimed the self-employed health insurance deduction on Form 1040, line 29, reduce the premiums by the amount on line 29.

If, during 2012, you were an eligible trade adjustment assistance (TAA) recipient, alternative TAA (ATAA) recipient, reemployment TAA (RTAA) recipient, or Pension Benefit Guaranty Corporation (PBGC) pension recipient, you must complete Form 8885 before completing Schedule A, line 1. When figuring the amount of insurance premiums you can deduct on Schedule A, do not include:

- Any amounts you included on Form 8885, line 4.
- Any qualified health insurance premiums you paid to “U.S. Treasury—HCTC,” or
- Any health coverage tax credit advance payments shown in box 1 of Form 1099-H.

Whose medical and dental expenses can you include? You can include medical and dental bills you paid for anyone who was one of the following either when the services were provided or when you paid for them.

- Yourself and your spouse.
- All dependents you claim on your return.
- Your child whom you do not claim as a dependent because of the rules for children of divorced or separated parents.
- Any person you could have claimed as a dependent on your return except that person received $3,800 or more of gross income or filed a joint return.
- Any person you could have claimed as a dependent except that you, or your spouse if filing jointly, can be claimed as a dependent on someone else’s 2012 return.

Example. You provided over half of your mother’s support but cannot claim her as a dependent because she received wages of $3,800 in 2012. You can include on line 1 any medical and dental expenses you paid in 2012 for your mother.

Insurance premiums for certain nondependents. You may have a medical or dental insurance policy that also covers an individual who is not your dependent (for example, a nondependent child under age 27). You cannot deduct any premiums attributable to this individual, unless they are such a person described under Whose medical and dental expenses can you include, earlier.
However, if you had family coverage when you added this individual to your policy and your premiums did not increase, you can enter on line 1 the full amount of your medical and dental insurance premiums. See Pub. 502 for more information.

Reimbursements. If your insurance company paid the provider directly for part of your expenses, and you paid only the amount that remained, include on line 1 only the amount you paid. If you received a reimbursement in 2012 for medical or dental expenses you paid in 2012, reduce your 2012 expenses by this amount. If you received a reimbursement in 2012 for prior year medical or dental expenses, do not reduce your 2012 expenses by this amount. If you deducted the expenses in the earlier year and the deduction reduced your tax, you must include the reimbursement in income on Form 1040, line 21. See Pub. 502 for details on how to figure the amount to include.

Cafeteria plans. Do not include on line 1 insurance premiums paid by an employer-sponsored health insurance plan (cafeteria plan) unless the premiums are included in box 1 of your Form(s) W-2. Also, do not include any other medical and dental expenses paid by the plan unless the amount paid is included in box 1 of your Form(s) W-2.

Taxes You Paid

Taxes You Cannot Deduct

- Federal income and most excise taxes.
- Social security, Medicare, federal unemployment (FUTA), and railroad retirement (RRTA) taxes.
- Customs duties.
- Federal estate and gift taxes. But see the instructions for Line 28.
- Certain state and local taxes, including: tax on gasoline, car inspection fees, assessments for sidewalks or other improvements to your property, tax you paid for someone else, and license fees (marriage, driver's, dog, etc.).

Line 5

You can elect to deduct state and local general sales taxes instead of state and local income taxes. You cannot deduct both.

State and Local Income Taxes

If you elect to deduct state and local income taxes, you must check box a on line 5. Include on this line the state and local income taxes listed below.

- State and local income taxes withheld from your salary during 2012. Your Form(s) W-2 will show these amounts. Forms W-2G, 1099-G, 1099-R, and 1099-MISC may also show state and local income taxes withheld.
- State and local income taxes paid in 2012 for a prior year, such as taxes paid with your 2011 state or local income tax return. Do not include penalties or interest.
- State and local estimated tax payments made during 2012, including any part of a prior year refund that you chose to have credited to your 2012 state or local income taxes.
- Mandatory contributions you made to the California, New Jersey, or New York Nonoccupational Disability Benefit Fund, Rhode Island Temporary Disability Benefit Fund, or Washington State Supplemental Workmen’s Compensation Fund.
- Mandatory contributions to the Alaska, California, New Jersey, or Pennsylvania state unemployment fund.
- Mandatory contributions to state family leave programs, such as the New Jersey Family Leave Insurance (FLI) program and the California Paid Family Leave program.

Do not reduce your deduction by any:
- State or local income tax refund or credit you expect to receive for 2012, or
- Refund of, or credit for, prior year state and local income taxes you actually received in 2012. Instead, see the instructions for Form 1040, line 10.

State and Local General Sales Taxes

If you elect to deduct state and local general sales taxes, you must check box b on line 5. To figure your deduction, you can use either your actual expenses or the optional sales tax tables.

Actual Expenses

Generally, you can deduct the actual state and local general sales taxes (including compensating use taxes) you paid in 2012 if the tax rate was the same as the general sales tax rate. However, sales taxes on food, clothing, medical supplies, and motor vehicles are deductible as a general sales tax even if the tax rate was less than the general sales tax rate. If you paid sales tax on a motor vehicle at a rate higher than the general sales tax rate, you can deduct only the amount of tax that you would have paid at the general sales tax rate on that vehicle. Motor vehicles include cars, motorcycles, motor homes, recreational vehicles, sport utility vehicles, trucks, vans, and off-road vehicles. Also include any state and local general sales taxes paid for a leased motor vehicle. Do not include sales taxes paid on items used in your trade or business.

You must keep your actual receipts showing general sales taxes paid to use this method.

Refund of general sales taxes. If you received a refund of state or local general sales taxes in 2012 for amounts paid in 2012, reduce your actual 2012 state and local general sales taxes by this amount. If you received a refund of state or local general sales taxes in 2012 for prior year purchases, do not reduce your 2012 state and local general sales taxes by this amount. But if you deducted your actual state and local general sales taxes in the earlier year and the deduction reduced your tax, you may have to include the refund in income on Form 1040, line 21. See Recoveries in Pub. 525 for details.

Optional Sales Tax Tables

Instead of using your actual expenses, you can use the 2012 Optional State and Certain Local Sales Tax Table and the 2012 Optional Local Sales Tax Tables for Certain Local Jurisdictions at the end of these instructions to figure your state and local general sales tax deduction. You may also be able to add the state and local general sales taxes paid on certain specified items.
To figure your state and local general sales tax deduction using the tables, complete the State and Local General Sales Tax Deduction Worksheet or use the Sales Tax Deduction Calculator on the IRS website. To use the Sales Tax Deduction Calculator, go to IRS.gov and enter “sales tax deduction calculator” in the search box.

Instructions for the State and Local General Sales Tax Deduction Worksheet

Line 1. If you lived in the same state for all of 2012, enter the applicable amount, based on your 2012 income and exemptions, from the 2012 Optional State and Certain Local Sales Tax Table for your state. Read down the “At least–But less than” columns for your state and find the line that includes your 2012 income. If married filing separately, do not include your spouse’s income. Your 2012 income is the amount shown on your Form 1040, line 38, plus any nontaxable items, such as the following.

- Tax-exempt interest.
- Veterans' benefits.
- Nontaxable combat pay.
- Workers' compensation.

State and Local General Sales Tax Deduction Worksheet—Line 5b

Instead of using this worksheet, you can find your deduction by using the Sales Tax Deduction Calculator at IRS.gov.

Before you begin: See the instructions for line 1 of the worksheet if you:
☐ Lived in more than one state during 2012, or
☐ Had any nontaxable income in 2012.

1. Enter your state general sales taxes from the 2012 Optional State and Certain Local Sales Tax Table

   Next. If, for all of 2012, you lived only in Connecticut, the District of Columbia, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Jersey, Rhode Island, or West Virginia (except the cities of Huntington and Williamstown), skip lines 2 through 5, enter -0- on line 6, and go to line 7. Otherwise, go to line 2.

2. Did you live in Alaska, Arizona, Arkansas, Colorado, Georgia, Illinois, Louisiana, Missouri, New York, North Carolina, South Carolina, Tennessee, Utah, Virginia, or the cities of Huntington or Williamstown, West Virginia in 2012?

   ☐ No. Enter -0-

   ☐ Yes. Enter your base local general sales taxes from the 2012 Optional Local Sales Tax Tables for Certain Local Jurisdictions

3. Did your locality impose a local general sales tax in 2012? Residents of California and Nevada see the instructions for line 3 of the worksheet.

   ☐ No. Skip lines 3 through 5, enter -0- on line 6, and go to line 7.

   ☐ Yes. Enter your local general sales tax rate, but omit the percentage sign. For example, if your local general sales tax rate was 2.5%, enter 2.5. If your local general sales tax rate changed or you lived in more than one locality in the same state during 2012, see the instructions for line 3 of the worksheet.

4. Did you enter -0- on line 2 above?

   ☐ No. Skip lines 4 and 5 and go to line 6.

   ☐ Yes. Enter your state general sales tax rate (shown in the table heading for your state), but omit the percentage sign. For example, if your state general sales tax rate is 6%, enter 6.0

5. Divide line 3 by line 4. Enter the result as a decimal (rounded to at least three places)

6. Did you enter -0- on line 2 above?

   ☐ No. Multiply line 2 by line 3

   ☐ Yes. Multiply line 1 by line 5. If you lived in more than one locality in the same state during 2012, see the instructions for line 6 of the worksheet

7. Enter your state and local general sales taxes paid on specified items, if any. See the instructions for line 7 of the worksheet

8. Deduction for general sales taxes. Add lines 1, 6, and 7. Enter the result here and the total from all your state and local general sales tax deduction worksheets, if you completed more than one, on Schedule A, line 5. Be sure to check box b on that line.
What if you lived in more than one state? If you lived in more than one state during 2012, look up the table amount for each state using the above rules. If there is no table for your state, the table amount is considered to be zero. Multiply the table amount for each state you lived in by a fraction. The numerator of the fraction is the number of days you lived in the state during 2012 and the denominator is the total number of days in the year (366). Enter the total of the prorated table amounts for each state on line 1. However, if you also lived in a locality during 2012 that imposed a local general sales tax, you would figure the amount to enter on line 2, and go to line 3. If you checked the “No” box on line 1, enter -0- on line 2, and go to line 3. If you checked the “Yes” box and lived in the same locality for all of 2012, enter the applicable amount, based on your 2012 income and exemptions, from the 2012 Optional Local Sales Tax Tables for Certain Local Jurisdictions for your locality. Read down the “At least—But less than” columns for your locality and find the line that includes your 2012 income. See the instructions for line 1 of the worksheet to figure your 2012 income. The exemptions column refers to the number of exemptions claimed on Form 1040, line 6d.

What if you lived in more than one locality? If you lived in more than one locality during 2012, look up the table amount for each locality using the above rules. If there is no table for your locality, the table amount is considered to be zero. Multiply the table amount for each locality you lived in by a fraction. The numerator of the fraction is the number of days you lived in the locality during 2012 and the denominator is the total number of days in the year (366). If you lived in more than one locality in the same state and the local general sales tax rate was the same for each locality, enter the total of the prorated table amounts for each locality on line 2. Otherwise, complete a separate worksheet for 2 through 6 for each locality and enter each prorated table amount on line 2 of the applicable worksheet.

Example. You lived in Localities 1 and 2 in State A. The table amount for Locality 1 is $100. You lived in Locality 1 from January 1 through August 31, 2012 (244 days), and in Locality 2 from September 1 through December 31, 2012 (122 days). The table amount for Locality 2 is $150. You would figure the amount to enter on line 2 as follows.

\[
\text{State A:} \quad \frac{244 \times 100}{366} = \frac{24400}{366} = 66.415
\]

\[
\text{State B:} \quad \frac{122 \times 150}{366} = \frac{18300}{366} = 50
\]

\[
\text{Total} = 66.415 + 50 = 116.415
\]

If none of the localities in which you lived during 2012 imposed a local general sales tax, enter $466 on line 1 of your worksheet. Otherwise, complete a separate worksheet for State A and State B. Enter $333 on line 1 of the State A worksheet and $133 on line 1 of the State B worksheet.

Line 2. If you checked the “No” box, enter -0- on line 2, and go to line 3. If you checked the “Yes” box and lived in the same locality for all of 2012, enter the applicable amount, based on your 2012 income and exemptions, from the 2012 Optional Local Sales Tax Tables for Certain Local Jurisdictions for your locality. Read down the “At least—But less than” columns for your locality and find the line that includes your 2012 income. See the instructions for line 1 of the worksheet to figure your 2012 income. The exemptions column refers to the number of exemptions claimed on Form 1040, line 6d.

What if your local general sales tax rate changed during 2012? If you checked the “Yes” box and your local general sales tax rate changed during 2012, figure the rate to enter on line 3 as follows. Multiply each tax rate for the period it was in effect by a fraction. The numerator of the fraction is the number of days the rate was in effect during 2012 and the denominator is the total number of days in the year (366). Enter the total of the prorated tax rates on line 3.

Example. Locality 1 imposed a 1% local general sales tax from January 1 through September 30, 2012 (274 days). The rate increased to 1.75% for the period from October 1 through December 31, 2012 (92 days). You would enter “1.189” on line 3, figured as follows.

\[
\text{January 1 – September 30:} \quad 1.00 \times \frac{274}{366} = 0.749
\]

\[
\text{October 1 – December 31:} \quad 1.75 \times \frac{92}{366} = 0.440
\]

\[
\text{Total} = 0.749 + 0.440 = 1.189
\]
Line 6. If you lived in more than one locality in the same state during 2012, you should have completed line 1 only on the first worksheet for that state and separate worksheets for lines 2 through 6 for any other locality within that state in which you lived during 2012. If you checked the “Yes” box on line 6 of any of those worksheets, multiply line 5 of that worksheet by the amount that you entered on line 1 for that state on the first worksheet.

Line 7. Enter on line 7 any state and local general sales taxes paid on the following specified items. If you are completing more than one worksheet, include the total for line 7 on only one of the worksheets.

1. A motor vehicle (including a car, motorcycle, motor home, recreational vehicle, sport utility vehicle, truck, van, and off-road vehicle). Also include any state and local general sales taxes paid for a leased motor vehicle. If the state sales tax rate on these items is higher than the general sales tax rate, only include the amount of tax you would have paid at the general sales tax rate.

2. An aircraft or boat, if the tax rate was the same as the general sales tax rate.

3. A home (including a mobile home or prefabricated home) or substantial addition to or major renovation of a home, but only if the tax rate was the same as the general sales tax rate and any of the following applies.
   a. Your state or locality imposes a general sales tax directly on the sale of a home or on the cost of a substantial addition or major renovation.
   b. You purchased the materials to build a home or substantial addition or to perform a major renovation and paid the sales tax directly.
   c. Under your state law, your contractor is considered your agent in the construction of the home or substantial addition or the performance of a major renovation. The contract must state that the contractor is authorized to act in your name and must follow your directions on construction decisions. In this case, you will be considered to have purchased any items subject to a sales tax and to have paid the sales tax directly.

Do not include sales tax paid on items used in your trade or business. If you received a refund of state or local general sales taxes in 2012, see Refund of general sales taxes, earlier.

Refunds and rebates. If you received a refund or rebate in 2012 of real estate taxes you paid in 2012, reduce your deduction by the amount of the refund or rebate. If you received a refund or rebate in 2012 of real estate taxes you paid in an earlier year, do not reduce your deduction by this amount. Instead, you must include the refund or rebate in income. See Recoveries in Pub. 525 for details on how to figure the amount to include in income.

Line 7

Personal Property Taxes

Enter the state and local personal property taxes you paid, but only if the taxes were based on value alone and were imposed on a yearly basis.

Example. You paid a yearly fee for the registration of your car. Part of the fee was based on the car’s value and part was based on its weight. You can deduct only the part of the fee that was based on the car’s value.

Line 8

Other Taxes

If you had any deductible tax not listed on line 5, 6, or 7, list the type and amount of tax. Enter only one total on line 8. Include on this line income tax you paid to a foreign country or U.S. possession.

You may want to take a credit for the foreign tax instead of a deduction. See the instructions for Form 1040, line 47, for details.
Interest You Paid

Whether your interest expense is treated as investment interest, personal interest, or business interest depends on how and when you used the loan proceeds. See Pub. 533 for details.

In general, if you paid interest in 2012 that applies to any period after 2012, you can deduct only amounts that apply for 2012.

Lines 10 and 11

Home Mortgage Interest

If you are a homeowner who received assistance under a State Housing Finance Agency Hardest Hit Fund program or an Emergency Homeowners' Loan program, see Pub. 530 for the amount you can deduct on line 10 or 11.

A home mortgage is any loan that is secured by your main home or second home. It includes first and second mortgages, home equity loans, and refinanced mortgages.

A home can be a house, condominium, cooperative, mobile home, boat, or similar property. It must provide basic living accommodations including sleeping space, toilet, and cooking facilities.

Limit on home mortgage interest. If you took out any mortgages after October 13, 1987, your deduction may be limited. Any additional amounts borrowed after October 13, 1987, on a line-of-credit mortgage you had on that date are treated as a mortgage taken out after October 13, 1987. If you refinanced a mortgage you had on October 13, 1987, treat the new mortgage as taken out on or before October 13, 1987. But if you refinanced for more than the balance of the old mortgage, treat the excess as a mortgage taken out after October 13, 1987.

See Pub. 936 to figure your deduction if either (1) or (2) below applies. If you had more than one home at the same time, the dollar amounts in (1) and (2) apply to the total mortgages on both homes.

1. You took out any mortgages after October 13, 1987, and used the proceeds for purposes other than to buy, build, or improve your home, and all of these mortgages totaled over $100,000 at any time during 2012. The limit is $50,000 if married filing separately. An example of this type of mortgage is a home equity loan used to pay off credit card bills, buy a car, or pay tuition.

2. You took out any mortgages after October 13, 1987, and used the proceeds to buy, build, or improve your home, and these mortgages plus any mortgages you took out on or before October 13, 1987, totaled over $1 million at any time during 2012. The limit is $500,000 if married filing separately.

If the total amount of all mortgages is more than the fair market value of the home, additional limits apply. See Pub. 936.

Line 10

Enter on line 10 mortgage interest and points reported to you on Form 1098 under your social security number (SSN). If this form shows any refund of overpaid interest, do not reduce your deduction by the refund. Instead, see the instructions for Form 1040, line 21. If you paid off a mortgage ear- ly, deduct any remaining interest you paid on your home mortgage. Enter the result on line 10.

If you are claiming the mortgage interest credit (for holders of qualified mortgage credits issued by state or local governmental units or agencies), subtract the amount shown on Form 8396, line 3, from the total deductible interest you paid on your home mortgage. Enter the result on line 10.

Line 11

If you did not receive a Form 1098 from the recipient, report your deductible mortgage interest on line 11.

If you bought your home from the recipient, be sure to show that recipient's name, identifying number, and address on the dotted lines next to line 11. If the recipient is an individual, the identifying number is his or her social security number (SSN). Otherwise, it is the employer identification number. You must also let the recipient know your SSN. If you do not show the required information about the recipient or let the recipient know your SSN, you may have to pay a $50 penalty.

If you and at least one other person (other than your spouse if filing jointly) were liable for and paid interest on the mortgage, and the other person received the Form 1098, attach a statement to your return showing the name and address of that person. To the right of line 11, enter “See attached.”

Line 12

Points Not Reported on Form 1098

Points are shown on your settlement statement. Points you paid only to borrow money are generally deductible over the life of the loan. See Pub. 936 to figure the amount you can deduct.

Refinancing. Generally, you must deduct points you paid to refinance a mortgage over the life of the loan. This is true even if the new mortgage is secured by your main home.

If you used part of the proceeds to improve your main home, you may be able to deduct the part of the points related to the improvement in the year paid. See Pub. 936 for details.

If you paid off a mortgage early, deduct any remaining points in the year you paid off the mortgage. However, if you refinanced your mortgage with the same lender, see Mortgage ending early in Pub. 936 for an exception.
### Line 13

**Mortgage Insurance Premiums**

Enter the qualified mortgage insurance premiums you paid under a mortgage insurance contract issued after December 31, 2006, in connection with home acquisition debt that was secured by your first or second home. Box 4 of Form 1098 may show the amount of premiums you paid in 2012. If you and at least one other person (other than your spouse if filing jointly) were liable for and paid the premiums in connection with the loan, and the premiums were reported on Form 1098 under the other person's SSN, report your share of the premiums on line 13. See Prepaid mortgage insurance premiums later if you paid any premiums allocable to any period after 2012.

Qualified mortgage insurance is mortgage insurance provided by the Department of Veterans Affairs, the Federal Housing Administration, or the Rural Housing Service (or their successor organizations), and private mortgage insurance (as defined in section 2 of the Homeowners Protection Act of 1998 as in effect on December 20, 2006).

Mortgage insurance provided by the Department of Veterans Affairs and the Rural Housing Service is commonly known as a funding fee and guarantee fee respectively. These fees can be deducted fully in 2012 if the mortgage insurance contract was issued in 2012. Contact the mortgage insurance issuer to determine the deductible amount if it is not included in box 4 of Form 1098.

Prepaid mortgage insurance premiums. If you paid qualified mortgage insurance premiums that are allocable to periods after 2012, you must allocate them over the shorter of:

- The stated term of the mortgage, or
- 84 months, beginning with the month the insurance was obtained.

The premiums are treated as paid in the year to which they are allocated. If the mortgage is satisfied before its term, no deduction is allowed for the unamortized balance. See Pub. 936 for details.

The allocation rules, explained earlier, do not apply to qualified mortgage insurance provided by the Department of Veterans Affairs or the Rural Housing Service (or their successor organizations).

**Limit on amount you can deduct.** You cannot deduct your mortgage insurance premiums if the amount on Form 1040, line 38, is more than $109,000 ($54,500 if married filing separately). If the amount on Form 1040, line 38, is more than $100,000 ($50,000 if married filing separately), your deduction is limited and you must use the Mortgage Insurance Premiums Deduction Worksheet to figure your deduction.

### Mortgage Insurance Premiums Deduction Worksheet—Line 13

**Before you begin:** ✓ See the instructions for line 13 to see if you must use this worksheet to figure your deduction.

</tbody>
</table>

### Line 14

**Investment Interest**

Investment interest is interest paid on money you borrowed that is allocable to property held for investment. It does not include any interest allocable to passive activities or to securities that generate tax-exempt income.

Complete and attach Form 4952 to figure your deduction.

**Exception.** You do not have to file Form 4952 if all three of the following apply.

1. Your investment interest expense is not more than your investment income from interest and ordinary dividends minus any qualified dividends.
2. You have no other deductible investment expenses.
3. You have no disallowed investment interest expense from 2011.

**Alaska Permanent Fund dividends, including those reported on Form 8814, are not investment income.**

For more details, see Pub. 550.

**Gifts to Charity**

You can deduct contributions or gifts you gave to organizations that are religious, charitable, educational, scientific, or literary in purpose. You can also de-
TIP

but do not deduct any amounts that were repaid to you.

Gifts from which you benefit. If you made a gift and received a benefit in return, such as food, entertainment, or merchandise, you can generally only deduct the amount that is more than the value of the benefit. But this rule does not apply to certain membership benefits provided in return for an annual payment of $75 or less or to certain items or benefits of token value. For details, see Pub. 526.

Example. You paid $70 to a charitable organization to attend a fund-raising dinner and the value of the dinner was $40. You can deduct only $30.

Gifts of $250 or more. You can deduct a gift of $250 or more only if you have a statement from the charitable organization showing the information in (1) and (2) next.

1. The amount of any money contributed and a description (but not value) of any property donated.

2. Whether the organization did or did not give you any goods or services in return for your contribution. If you did receive any goods or services, a description and estimate of the value must be included. If you received only intangible religious benefits (such as admission to a religious ceremony), the organization must state this, but it does not have to describe or value the benefit.

In figuring whether a gift is $250 or more, do not combine separate donations. For example, if you gave your church $25 each week for a total of $1,300, treat each $25 payment as a separate gift. If you made donations through payroll deductions, treat each deduction from each paycheck as a separate gift. See Pub. 526 if you made a separate gift of $250 or more through payroll deduction.

You must get the statement by the date you file your return or the due date (including extensions) for filing your return, whichever is earlier. Do not attach the statement to your return. Instead, keep it for your records.

Limit on the amount you can deduct. See Pub. 526 to figure the amount of your deduction if any of the following applies.

1. Your cash contributions or contributions of ordinary income property are more than 30% of the amount on Form 1040, line 38.

2. Your gifts of capital gain property are more than 20% of the amount on Form 1040, line 38.

3. You gave gifts of property that increased in value or gave gifts of the use of property.

Amounts You Cannot Deduct

- Travel expenses (including meals and lodging) while away from home, unless there was no significant element of personal pleasure, recreation, or vacation in the travel.
- Political contributions.
- Dues, fees, or bills paid to country clubs, lodges, fraternal orders, or similar groups.
- Cost of raffle, bingo, or lottery tickets. But you may be able to deduct these expenses on line 28. See the instructions for Line 28 for details.
- Value of your time or services.
- Value of blood given to a blood bank.
- The transfer of a future interest in tangible personal property (generally, until the entire interest has been transferred).
- Gifts to individuals and groups that are run for personal profit.
- Gifts to foreign organizations. But you may be able to deduct gifts to certain U.S. organizations that transfer funds to foreign charities and certain Canadian, Israeli, and Mexican charities. See Pub. 526 for details.
- Gifts to organizations engaged in certain political activities that are of direct financial interest to your trade or business. See section 170(f)(9).
- Gifts to groups whose purpose is to lobby for changes in the laws.
- Gifts to civic leagues, social and sports clubs, labor unions, and chambers of commerce.
- Value of benefits received in connection with a contribution to a charitable organization. See Pub. 526 for exceptions.
- Cost of tuition. But you may be able to deduct this as a job education ex-
pense on line 21; as a tuition and fees deduction on Form 1040, line 34; or take an education credit (see Form 8863).

Line 16
Gifts by Cash or Check
Enter on line 16 the total gifts you made in cash or by check (including out-of-pocket expenses).

Recordkeeping. For any contribution made in cash, regardless of the amount, you must maintain as a record of the contribution a bank record (such as a canceled check or credit card statement) or a written record from the charity. The written record should include the name of the charity, date, and amount of the contribution. If you made contributions through payroll deduction, see Pub. 526 for information on the records you must keep. Do not attach the record to your tax return. Instead, keep it with your other tax records.

Line 17
Other Than by Cash or Check
Enter your contributions of property. If you gave used items, such as clothing or furniture, deduct their fair market value at the time you gave them. Fair market value is what a willing buyer would pay a willing seller when neither has to buy or sell and both are aware of the conditions of the sale. For more details on determining the value of donated property, see Pub. 561.

If the amount of your deduction is more than $500, you must complete and attach Form 8283. For this purpose, the “amount of your deduction” means your deduction before applying any income limits that could result in a carryover of contributions. If you deduct more than $500 for a contribution of a motor vehicle, boat, or airplane, you must also attach a statement from the charitable organization to your return. The organization may use Form 1098-C to provide the required information. If your total deduction is over $5,000, you may also have to get appraisals of the values of the donated property. This amount is $500 for certain contributions of clothing and household items (see below).

See Form 8283 and its instructions for details.

Contributions of clothing and household items. A deduction for these contributions will be allowed only if the items are in good used condition or better. However, this rule does not apply to a contribution of any single item for which a deduction of more than $500 is claimed and for which you include a qualified appraisal and Form 8283 with your tax return.

Recordkeeping. If you gave property, you should keep a receipt or written statement from the organization you gave the property to, or a reliable written record, that shows the organization's name and address, the date and location of the gift, and a description of the property. For each gift of property, you should also keep reliable written records that include:

- How you figured the property's value at the time you gave it. If the value was determined by an appraisal, keep a signed copy of the appraisal.
- The cost or other basis of the property if you must reduce it by any ordinary income or capital gain that would have resulted if the property had been sold at its fair market value.
- How you figured your deduction if you chose to reduce your deduction for gifts of capital gain property.
- Any conditions attached to the gift.

If your total deduction for gifts of property is over $500, you gave less than your entire interest in the property, or you made a “qualified conservation contribution,” your records should contain additional information. See Pub. 526 for details.

Line 18
Carryover From Prior Year
Enter any carryover of contributions that you could not deduct in an earlier year because they exceeded your adjusted gross income limit. See Pub. 526 for details.

Casualty and Theft Losses
Line 20
Complete and attach Form 4684 to figure the amount of your loss to enter on line 20.

You may be able to deduct part or all of each loss caused by theft, vandalism, fire, storm, or similar causes; car, boat, and other accidents; and corrosive drywall. You may also be able to deduct money you had in a financial institution but lost because of the insolvency or bankruptcy of the institution.

You can deduct personal casualty or theft losses only to the extent that:

1. The amount of each separate casualty or theft loss is more than $100, and
2. The total amount of all losses during the year (reduced by the $100 limit discussed in (1) above) is more than 10% of the amount on Form 1040, line 38.

Corrosive drywall losses. If you paid for repairs to your personal residence or household appliances because of corrosive drywall that was installed between 2001 and 2008, you may be able to deduct on line 20 those amounts paid. See Pub. 547 for details.

Use Schedule A, line 23, to deduct the costs of proving that you had a property loss. Examples of these costs are appraisal fees and photographs used to establish the amount of your loss.

Job Expenses and Certain Miscellaneous Deductions
You can deduct only the part of these expenses that exceeds 2% of the amount on Form 1040, line 38.

Pub. 529 discusses the types of expenses that can and cannot be deducted.

Examples of Expenses You Cannot Deduct

- Political contributions.
• Legal expenses for personal matters that do not produce taxable income.
• Lost or misplaced cash or property.
• Expenses for meals during regular or extra work hours.
• The cost of entertaining friends.
• Commuting expenses. See Pub. 529 for the definition of commuting.
• Travel expenses for employment away from home if that period of employment exceeds 1 year. See Pub. 529 for an exception for certain federal employees.
• Travel as a form of education.
• Expenses of attending a seminar, convention, or similar meeting unless it is related to your employment.
• Club dues.
• Expenses of adopting a child. But you may be able to take a credit for adoption expenses. See Form 8839 for details.
• Fines and penalties.
• Expenses of producing tax-exempt income.

---

**Line 21**

**Unreimbursed Employee Expenses**

Enter the total ordinary and necessary job expenses you paid for which you were not reimbursed. (Amounts your employer included in box 1 of your Form W-2 are not considered reimbursements.)

An ordinary expense is one that is common and accepted in your field of trade, business, or profession. A necessary expense is one that is helpful and appropriate for your business. An expense does not have to be considered necessary.

But you must fill in and attach Form 2106 if either (1) or (2), next, applies.

1. You claim any travel, transportation, meal, or entertainment expenses for your job.
2. Your employer paid you for any of your job expenses that you would otherwise report on line 21.

If you used your own vehicle, are using the standard mileage rate, and (2) earlier, does not apply, you may be able to file Form 2106-EZ instead.

If you do not have to file Form 2106 or 2106-EZ, list the type and amount of each expense on the dotted line next to line 21. If you need more space, attach a statement showing the type and amount of each expense. Enter the total of all these expenses on line 21.

**CAUTION**

Do not include on line 21 any educator expenses you deducted on Form 1040, line 23.

Examples of other expenses to include on line 21 are:
• Safety equipment, small tools, and supplies needed for your job.
• Uniforms required by your employer that are not suitable for ordinary wear.
• Protective clothing required in your work, such as hard hats, safety shoes, and glasses.
• Physical examinations required by your employer.
• Dues to professional organizations and chambers of commerce.
• Subscriptions to professional journals.
• Fees to employment agencies and other costs to look for a new job in your present occupation, even if you do not get a new job.
• Certain business use of part of your home. For details, including limits that apply, use TeleTax topic 509 (see the Form 1040 instructions) or see Pub. 587.
• Certain educational expenses. For details, use TeleTax topic 513 (see the Form 1040 instructions) or see Pub. 970. Reduce your educational expenses by any tuition and fees deduction you claimed on Form 1040, line 34.

**TIP**

You may be able to take a credit for your educational expenses instead of a deduction. See Form 8863 for details.

---

**Line 23**

**Other Expenses**

Enter the total amount you paid to produce or collect taxable income and manage or protect property held for earning income. But do not include any personal expenses. List the type and amount of each expense on the dotted lines next to line 23. If you need more space, attach a statement showing the type and amount of each expense. Enter one total on line 23.

Examples of expenses to include on line 23 are:
• Certain legal and accounting fees.
• Clerical help and office rent.
• Custodial (for example, trust account) fees.
• Your share of the investment expenses of a regulated investment company.
• Certain losses on nonfederally insured deposits in an insolvent or bankrupt financial institution. For details, including limits that apply, see Pub. 529.
• Casualty and theft losses of property used in performing services as an employee from Form 4684, lines 32 and 38b, or Form 4797, line 18a.
• Deduction for repayment of amounts under a claim of right if $3,000 or less.
• Convenience fee charged by the card processor for paying your income tax (including estimated tax payments) by credit or debit card. The deduction is claimed for the year in which the fee was charged to your card.

---

**Other Miscellaneous Deductions**

---

**Line 28**

Only the expenses listed next can be deducted on this line. List the type and amount of each expense on the dotted lines next to line 28. If you need more space, attach a statement showing the type and amount of each expense. Enter one total on line 28.

• Gambling losses (gambling losses include, but are not limited to, the cost of non-winning bingo, lottery, and raffle tickets), but only to the extent of gam-
bling winnings reported on Form 1040, line 21.
- Casualty and theft losses of income-producing property from Form 4684, lines 32 and 38b, or Form 4797, line 18a.
- Loss from other activities from Schedule K-1 (Form 1065-B), box 2.
- Federal estate tax on income in respect of a decedent.
- Amortizable bond premium on bonds acquired before October 23, 1986.
- Deduction for repayment of amounts under a claim of right if over $3,000. See Pub. 525 for details.
- Certain unrecovered investment in a pension.
- Impairment-related work expenses of a disabled person.
  For more details, see Pub. 529.

### Total Itemized Deductions

#### Line 30

If you elect to itemize for state tax or other purposes even though your itemized deductions are less than your standard deduction, check the box on line 30.

Note: Alaska does not have a state sales tax. Alaska residents should follow the instructions on the next page to determine their local sales amount.

1. The California table includes the 1.25% uniform local sales tax rate in addition to the 6% state sales tax rate for a total.
2. The Nevada table includes the 2.5% uniform local sales tax rate in addition to the 6.4000% state sales tax rate.
3. Residents of Salem County, New Jersey should deduct only half of the amount in the state table.
4. The 4.0000% rate for Hawaii is actually an excise tax but is treated as a sales tax for purposes of this deduction.
