- Gains from involuntary conversions (other than from casualty or theft) of capital assets not held for business or profit.
- Capital gain distributions not reported directly on Form 1040, line 13 (or effectively connected capital gain distributions not reported directly on Form 1040NR, line 14).
- Nonbusiness bad debts.

Additional information. See Pub. 544 and Pub. 550 for more details. For a comprehensive filled-in example of Schedule D, see Pub. 550.

What’s New

Property acquired from a decedent who died after 2009. Special rules apply when determining the basis and holding period of property acquired from someone who died after 2009. For details, see Pub. 4895.

General Instructions

Other Forms You May Have To File

Use Form 4797 to report the following.

1. The sale or exchange of:
   a. Property used in a trade or business;
   b. Depreciable and amortizable property;
   c. Oil, gas, geothermal, or other mineral property; and
   d. Section 126 property.

2. The involuntary conversion (other than from casualty or theft) of property used in a trade or business and capital assets held for business or profit.

3. The disposition of noncapital assets other than inventory or property held primarily for sale to customers in the ordinary course of your trade or business.

4. Ordinary loss on the sale, exchange, or worthlessness of small business investment company (section 1242) stock.

5. Ordinary loss on the sale, exchange, or worthlessness of small business (section 1244) stock.

6. Ordinary gain or loss on securities held in connection with your trading business, if you previously made a mark-to-market election. See Traders in Securities on page D-3.

Use Form 4684 to report involuntary conversions of property due to casualty or theft.

Use Form 6781 to report gains and losses from section 1256 contracts and straddles.

Use Form 8824 to report like-kind exchanges. A like-kind exchange occurs when you exchange business or investment property for property of a like kind.

Capital Asset

Most property you own and use for personal purposes, pleasure, or investment is a capital asset. For example, your house, furniture, car, stocks, and bonds are capital assets. A capital asset is any property held by you except the following.

- Stock in trade or other property included in inventory or held mainly for sale to customers. But see the Tip on this page.
- Accounts or notes receivable for services performed in the ordinary course of your trade or business or as an employee, or from the sale of stock in trade or other property held mainly for sale to customers.
- Depreciable property used in your trade or business, even if it is fully depreciated.
- Real estate used in your trade or business.
- Copyrights, literary, musical, or artistic compositions, letters or memoranda, or similar property (a) created by your personal efforts; (b) prepared or produced for you (in the case of letters, memoranda, or similar property); or (c) that you received from someone who created them or for whom they were created, as mentioned in (a) or (b), in a way (such as by gift) that entitled you to the basis of the previous owner. But see the Tip on this page.
- U.S. Government publications, including the Congressional Record, that you received from the Government, other than by purchase at the normal sales price, or that you got from someone who had received it in a similar way, if your basis is determined by reference to the previous owner’s basis.
- Certain commodities derivative financial instruments held by a dealer and not connected to the dealer’s activities as a dealer. See section 1221(a)(6).
- Certain hedging transactions entered into in the normal course of your trade or business. See section 1221(a)(7).
- Supplies regularly used in your trade or business.

You can elect to treat as capital assets certain musical compositions or copyrights you sold or exchanged. See Pub. 550 for details.

Basis and Recordkeeping

Basis is the amount of your investment in property for tax purposes. The basis of property you buy is usually its cost. You need to know your basis to figure any gain or loss on the sale or other disposition of the property. You must keep accurate records that show the basis and adjusted basis of your property. Your records should show the purchase price, including commissions; increases to basis, such as the cost of improvements; and decreases to basis, such as depreciation, nondividend distributions on stock, and stock splits.

For more information on basis, see page D-7 and these publications.
- Pub. 551, Basis of Assets.

If you lost or did not keep records to determine your basis in securities, contact your broker for help.

The IRS partners with companies that offer Schedule D software that can import trades from many brokerage firms and accounting software to help you keep track of your adjusted basis in securities. To find out more, go to www.irs.gov/efile.

Short Term or Long Term

Separate your capital gains and losses according to how long you held or owned the property. The holding period for short-term capital gains and losses is 1 year or less. The holding period for long-term capital gains and losses is more than 1 year. To figure the holding period, begin counting on the day after you received the property and include the day you disposed of it.

If you disposed of property that you acquired by inheritance from someone who died before 2010, report the disposition as a long-term gain or loss, regardless of how long you held the property. If you acquired the property from someone who died after 2009, see Pub. 4895.
A nonbusiness bad debt must be treated as a short-term capital loss. See Pub. 550 for what qualifies as a nonbusiness bad debt and how to enter it on Schedule D.

**Capital Gain Distributions**

These distributions are paid by a mutual fund (or other regulated investment company) or real estate investment trust from its net realized long-term capital gains. Distributions of net realized short-term capital gains are not treated as capital gains. Instead, they are included on Form 1099-DIV as ordinary dividends.

Enter on line 13 the total capital gain distributions paid to you during the year, regardless of how long you held your investment. This amount is shown in box 2a of Form 1099-DIV.

If there is an amount in box 2b, include that amount on line 11 of the Unrecaptured Section 1250 Gain Worksheet on page D-9 if you complete line 19 of Schedule D.

If there is an amount in box 2c, see Exclusion of Gain on Qualified Small Business (QSB) Stock on page D-4.

If there is an amount in box 2d, include that amount on line 4 of the 28% Rate Gain Worksheet on page D-8 if you complete line 18 of Schedule D.

If you received capital gain distributions as a nominee (that is, they were paid to you but actually belong to someone else), report on line 13 only the amount that belongs to you. Attach a statement showing the full amount you received and the amount you received as a nominee. See the Instructions for Schedule B for filing requirements for Forms 1099-DIV and 1096.

**Sale of Your Home**

If you sold or exchanged your main home, do not report it on your tax return unless you cannot exclude all of your gain from income. Any gain you cannot exclude is taxable. Generally, if you meet the two following tests, you can exclude up to $250,000 of gain. If both you and your spouse meet these tests and you file a joint return, you can exclude up to $500,000 of gain (but only one spouse needs to meet the ownership requirement in Test 1).

**Test 1.** You owned and used the home as your main home for 2 years or more during the 5-year period ending on the date you sold or exchanged your home.

**Test 2.** You have not excluded gain on the sale or exchange of another main home during the 2-year period ending on the date of the sale or exchange of your home.

Even if you do not meet one or both of the above two tests, you still can claim an exclusion if you sold or exchanged the home because of a change in place of employment, health, or certain unforeseen circumstances. In this case, the maximum amount of gain you can exclude is reduced.

If your spouse died before the sale or exchange, you can exclude up to $500,000 of gain if:

- The sale or exchange is no later than 2 years after your spouse’s death,
- Just before your spouse’s death, both spouses met the use requirement of Test 1, and both spouses met Test 2, and
- You did not remarry before the sale or exchange.

You can choose to have the 5-year test period for ownership and use in Test 1 suspended during any period you or your spouse served as an employee of the United States as a Peace Corps volunteer or served on qualified official extended duty as a member of the uniformed services or Foreign Service of the United States, as an employee of the intelligence community, or outside the United States as an employee of the Peace Corps. This means you may be able to meet Test 1 even if, because of your service, you did not actually use the home as your main home for at least the required 2 years during the 5-year period ending on the date of sale.

You cannot exclude any gain if:

- You acquired your home in a like-kind exchange in which all or part of the gain was not recognized, and
- You sold or exchanged the home during the 5-year period beginning on the date you acquired it.

See Pub. 523 for details, including how to report any taxable gain if:

- You (or your spouse if married) used any part of the home for business or rental purposes after May 6, 1997,
- There was a period of time after 2008 when the home was not your main home, or
- You cannot exclude all of your gain.

**Partnership Interests**

A sale or other disposition of an interest in a partnership may result in ordinary income, collectibles gain (28% rate gain), or unrecognized section 1250 gain. For details on 28% rate gain, see the instructions for line 18 on page D-8. For details on unrecognized section 1250 gain, see the instructions for line 19 that begin on page D-8.

**Capital Assets Held for Personal Use**

Generally, gain from the sale or exchange of a capital asset held for personal use is a capital gain. Report it on Schedule D, Part I or Part II. However, if you converted depreciable property to personal use, all or part of the gain on the sale or exchange of that property may have to be recaptured as ordinary income. Use Part III of Form 4797 to figure the amount of ordinary income recapture. The recapture amount is included on line 31 (and line 13) of Form 4797. Do not enter any gain from this property on line 32 of Form 4797.

If you are not completing Part III for any other property, enter “N/A” on line 32. If the total gain is more than the recapture amount, enter “From Form 4797” in column (a) of line 1 or line 8 of Schedule D, skip columns (b) through (e), and in column (f) enter the excess of the total gain over the recapture amount.

**Losses**

Loss from the sale or exchange of a capital asset held for personal use is not deductible. But if you had a loss from the sale or exchange of real estate held for personal use for which you received a Form 1099-S, you must report the transaction on Schedule D even though the loss is not deductible. For example, you have a loss on the sale of a vacation home that is not your main home and you received a Form 1099-S for the transaction. Report the transaction on line 1 or 8, depending on how long you owned the home. Complete columns (a) through (e). Because the loss is not deductible, enter -0- in column (f).

**Capital Losses**

You can deduct capital losses up to the amount of your capital gains plus $3,000 ($1,500 if married filing separately). You may be able to use capital losses that exceed this limit in future years. For details, see the instructions for line 21 on page D-9. Be sure to report all of your capital gains and losses (except nondeductible losses) even if you cannot use all of your losses in 2010.

**Nondeductible Losses**

Do not deduct a loss from the direct or indirect sale or exchange of property between any of the following:

- Members of a family.
- A corporation and an individual owning more than 50% of the corporation’s stock (unless the loss is from a distribution in complete liquidation of a corporation).
- A grantor and a fiduciary of a trust.
- A fiduciary and a beneficiary of the same trust.
- A fiduciary and a beneficiary of another trust created by the same grantor.
- An executor of an estate and a beneficiary of that estate, unless the sale or exchange was to satisfy a pecuniary bequest (that is, a bequest of a sum of money).
- An individual and a tax-exempt organization controlled by the individual or the individual’s family.

See Pub. 544 for more details on sales and exchanges between related parties.

If you disposed of (a) an asset used in an activity to which the at-risk rules apply or (b) any part of your interest in an activity to which the at-risk rules apply, and you have amounts in the activity for which you are not at risk, see the Instructions for Form 6198.

If the loss is allowable under the at-risk rules, it then may be subject to the passive activity rules. See Form 8582 and its instructions for details on reporting capital gains and losses from a passive activity.

**Items for Special Treatment**

- Transactions by a securities dealer. See section 1236.
- Certain real estate subdivided for sale that may be considered a capital asset. See section 1237.
- Gain on the sale of depreciable property to a more than 50% owned entity or to a trust of which you are a beneficiary. See Pub. 544.
- Gain on the disposition of stock in an interest charge domestic international sales corporation. See section 995(c).
• Gain on the sale or exchange of stock in certain foreign corporations. See section 1248.
• Transfer of property to a partnership that would be treated as an investment company if it were incorporated. See Pub. 541.
• Sales of stock received under a qualified public utility dividend reinvestment plan. See Pub. 550.
• Transfer of appreciated property to a political organization. See section 684.
• Transfer of property by a U.S. person to a foreign estate or trust. See section 684.
• If you give up your U.S. citizenship after June 16, 2008, you may be treated as having sold all your property for its fair market value on the day before you gave up your citizenship. This also applies to long-term U.S. residents who cease to be lawful permanent residents after June 16, 2008. For details, exceptions, and rules for reporting these deemed sales, see Pub. 519 and Form 8884.

In general, no gain or loss is recognized on the transfer of property from an individual to a spouse or a former spouse if the transfer is incident to a divorce. See Pub. 504.

Amounts received on the retirement of a debt instrument generally are treated as received in exchange for the debt instrument. See Pub. 550.

Any loss on the disposition of converted wetland or highly erodible cropland that is first used for farming after March 1, 1986, is reported as a long-term capital loss on Schedule D, but any gain is reported as ordinary income on Form 4797.

If qualified dividends that you reported on Form 1040, line 9b, or Form 1040NR, line 10b, include extraordinary dividends, any loss on the sale or exchange of the stock is a long-term capital loss to the extent of the extraordinary dividends. An extraordinary dividend is a dividend that equals or exceeds 10% (5% in the case of preferred stock) of your basis in the stock.

Amounts received by shareholders in corporate liquidations. See Pub. 550.

Cash received in lieu of fractional shares of stock as a result of a stock split or stock dividend. See Pub. 550.

Load charges to acquire stock in a regulated investment company (including a mutual fund), which may not be taken into account in determining gain or loss on certain dispositions of the stock if reinvestment rights were exercised. See Pub. 550.

The sale or exchange of S corporation stock or an interest in a trust held for more than 1 year, which may result in collectibles gain (28% rate gain). See the instructions for line 18 on page D-8.

• Gain or loss on the disposition of securities futures contracts. See Pub. 550.
• Gain on the constructive sale of certain appreciated financial positions. See Pub. 550.

Certain constructive ownership transactions. Gain in excess of the gain you would have recognized if you had held a financial asset directly during the term of a derivative contract must be treated as ordinary income. See section 1260. If any portion of the constructive ownership transaction was open in any prior year, you may have to pay interest. See section 1260(b) or Form 1040NR, line 59. Write “Section 1260(b) interest” and the amount of the interest to the left of line 60 (or Form 1040NR, line 59).

The sale of publicly traded securities, if you elect to postpone gain by purchasing common stock or a partnership interest in a specialized small business investment company during the 60-day period that began on the date of the sale. See Pub. 550.

The sale of qualified securities, held for at least 3 years, to an employee stock ownership plan or eligible worker-owned cooperative, if you elect to postpone gain by purchasing qualified replacement property. See Pub. 550.

Gain or loss from the disposition of stock or other securities in an investment club. See Pub. 550.

Wash Sales
A wash sale occurs when you sell or otherwise dispose of stock or securities (including a contract or option to acquire or sell stock or securities) at a loss and, within 30 days before or after the sale or disposition, you:

1. Buy substantially identical stock or securities,
2. Acquire substantially identical stock or securities in a fully taxable trade,
3. Enter into a contract or option to acquire substantially identical stock or securities, or
4. Acquire substantially identical stock or securities for your individual retirement arrangement (IRA) or Roth IRA.

You cannot deduct losses from wash sales unless the loss was incurred in the ordinary course of your business as a dealer in stock or securities. The basis of the substantially identical property (or contract or option to acquire such property) is its cost increased by the disallowed loss (except in the case of (4) above). For more details on wash sales, see Pub. 550.

Report a wash sale transaction on line 1 or 8. Enter the full amount of the (loss) in column (f). Directly below the line on which you reported the loss, enter “Wash Sale” in column (a), and enter as a positive amount in column (f) the amount of the loss not allowed.

Traders in Securities
You are a trader in securities if you are engaged in the business of buying and selling securities for your own account. To be engaged in business as a trader in securities, all of the following statements must be true:

• You must seek to profit from daily market movements in the prices of securities and not from dividends, interest, or capital appreciation.
• Your activity must be substantial.
• You must carry on the activity with continuity and regularity.

The following facts and circumstances should be considered in determining if your activity is a business.

• Typical holding periods for securities bought and sold.
• The frequency and dollar amount of your trades during the year.
• The extent to which you pursue the activity to produce income for a livelihood.
• The amount of time you devote to the activity.

You are considered an investor, and not a trader, if your activity does not meet the above definition of a business. It does not matter whether you call yourself a trader or a “day trader.”

Like an investor, a trader must report each sale of securities (taking into account commissions and any other costs of acquiring or disposing of the securities) on Schedule D or D-1 or on an attached statement containing all the same information for each sale in a similar format. However, if a trader previously made the mark-to-market election (see below), each transaction is reported on Form 4797 instead of on Schedules D and D-1. Regardless of whether a trader reports his or her gains and losses on Schedules D and D-1 or Form 4797, the gain or loss from the disposition of securities is not taken into account when figuring net earnings from self-employment on Schedule SE. See the Instructions for Schedule SE for an exception that applies to section 1256 contracts.

The limitation on investment interest expense that applies to investors does not apply to interest paid or incurred in a trading business. A trader reports interest expense and other expenses (excluding commissions and other costs of acquiring or disposing of securities) from a trading business on Schedule C (instead of Schedule A).

A trader also may hold securities for investment. The rules for investors generally will apply to those securities. Allocate interest and other expenses between your trading business and your investment securities.

Mark-To-Market Election for Traders
A trader may make an election under section 475(f) to report all gains and losses from securities held in connection with a trading business as ordinary income (or loss), including those from securities held at the end of the year. Securities held at the end of the year are “marked to market” by treating them as if they were sold (and reacquired) for fair market value on the last business day of the year. Generally, the election must be made by the due date (not including extensions) of the tax return for the year prior to the year for which the election becomes effective. To be effective for 2010, the election must have been made by April 15, 2010.

Starting with the year the election becomes effective, a trader reports all gains and losses from securities held in connection with the trading business, including securities held at the end of the year, in Part II of Form 4797. If you previously made the election, see the Instructions for Form
The type and rule above prints on all proofs including departmental reproduction proofs. MUST be removed before printing.

4797. For details on making the Worksheet on page D-8 if you complete new stock begins on the day after you re-mark-to-market election for 2011, see Pub. line 18 of Schedule D. ceived the stock.

550 or Rev. Proc. 99-17, 1999-1 C.B. 503. Include on Form 1040, line 71, or Form Exclusion of Gain on Form 1040NR, line 66, the tax paid as shown inthe bottom of page 52 of Internal Revenue Qualified Small Business box 2 of Form 2439. Add to the basis of your stock the excess of the amount included in in- come over the amount of the credit for the tax paid. See Pub. 550 for details.

Installment Sales
If you sold property (other than publicly traded stocks or securities) at a gain and you will receive a payment in a tax year after the sale, you generally must report the sale on the installment method unless you elect not to. Use Form 6252 to report the sale on the installment method. Also use Form 6252 to report any payment received in 2010 from a sale made in an earlier year that you reported on the install- ment method.

To elect out of the installment method, report the full amount of the gain on Sched- ule D on a timely filed return (including extensions) for the year of the sale. If your original return was filed on time, you can make the election on an amended return filed no later than 6 months after the due date of your return (excluding extensions). Write “Filed pursuant to section 301.9100-2” at the top of the amended re- turn.

Demutualization of Life Insurance Companies
Demutualization of a life insurance com- pany occurs when a mutual life insurance company changes to a stock company. If you were a policyholder or annuitant of the mutual company, you may have received either stock in the stock company or cash in exchange for your equity interest in the mu- tual company. The basis of your equity in- terest in the mutual company is considered to be zero. If the demutualization transaction quali- fies as a tax-free reorganization, no gain is recognized on the exchange of your equity interest in the company for stock. The company can advise you if the transac- tion is a tax-free reorganization. Because the basis of your equity interest in the mu- tual company is considered to be zero, your basis in the stock received is zero. Your holding period for the new stock includes the period you held an equity interest in the mutual company. If you received cash in exchange for your equity interest, you must recognize a capital gain in an amount equal to the cash received. If you held the equity interest for more than 1 year, report the gain as a short-term capital gain on line 1. If you held the equity interest for 1 year or less, report the gain as a short-term capital gain on line 1. Your holding period for the new stock begins on the day after you re- ceived the stock.

Section 1202 allows for an exclusion of up to 50% of the eligible gain on the sale or exchange of QSB stock. The section 1202 exclusion applies only to QSB stock held for more than 5 years. The exclusion can be up to 60% for certain empowerment zone business stock. See Empowerment Zone Business Stock on page D-5.

To be QSB stock, the stock must meet all of the following tests.

1. It must be stock in a C corporation (that is, not S corporation stock).
2. It must have been originally issued after August 10, 1993.
3. As of the date the stock was issued, the corporation was a domestic C corpora- tion with total gross assets of $50 million or less (a) at all times after August 9, 1993, and before the stock was issued, and (b) immediately after the stock was issued. Gross assets include those of any predeces- sor of the corporation. All corporations that are members of the same parent-subsidiary controlled group are treated as one corpora- tion.
4. You must have acquired the stock at its original issue (either directly or through an underwriter), either in exchange for money or other property or as pay for serv- ices (other than as an underwriter) to the corporation. In certain cases, you may meet this test if you acquired the stock from an- other person who met the test (such as by gift or inheritance) or through a conversion or exchange of QSB stock you held.
5. During substantially all the time you held the stock:
   a. The corporation was a C corporation,
   b. At least 80% of the value of the corporation’s assets were used in the active conduct of one or more qualified busi- nesses (defined below), and
   c. The corporation was not a foreign corporation, DISC, former DISC, regulated investment company, real estate investment trust, REMIC, FASIT, cooperative, or a corporation that has made (or that has a subsidiary that has made) a section 936 election.

SSBIC. A specialized small business investment company (SSBIC) is treated as having met test 5b.

Qualified Business
A qualified business is any business that is not one of the following.

- A business involving services performed in the fields of health, law, engi- neering, architecture, accounting, actuarial science, performing arts, consulting, athlet- ics, financial services, or brokerage serv- ices.
- A business whose principal asset is the reputation or skill of one or more em- ployees.
- A banking, insurance, financing, leas- ing, investing, or similar business.

Gain or Loss From Options
Report on Schedule D gain or loss from the closing or expiration of an option that is not a section 1256 contract but is a capital asset in your hands. If an option you purchased expired, enter the expiration date in column (c) and enter “EXPIRED” in column (d). If an option that was granted (written) expi- ered, enter the expiration date in column (b) and enter “EXPIRED” in column (e). Fill in the other columns as appropriate. See Pub. 550 for details.

Undistributed Capital Gains
Include on line 11 the amount from box 1a of Form 2439. This represents your share of the undistributed long-term capital gains of the regulated investment company (includ- ing a mutual fund) or real estate investment trust.

If there is an amount in box 1a, include that amount on line 11 of the Unrecaptured Section 1250 Gain Worksheet on page D-9 if you complete line 19 of Schedule D.

If there is an amount in box 1c, see Exclusion of Gain on Qualified Small Business (QSB) Stock on this page.

If there is an amount in box 1d, include that amount on line 4 of the 28% Rate Gain Worksheet on page D-8 if you complete line 18 of Schedule D.

Include on Form 1040, line 71, or Form 1040NR, line 66, the tax paid as shown in box 2 of Form 2439. Also check the box for Form 2439. Add to the basis of your stock the excess of the amount included in in- come over the amount of the credit for the tax paid. See Pub. 550 for details.

Instalment Sales
A short sale is a contract to sell property you borrowed for delivery to a buyer. At a later date, you either buy substantially identical property and deliver it to the lender or deliver property that you held but did not want to transfer at the time of the sale. Usually, your holding period is the amount of time you actually held the prop- erty eventually delivered to the lender to close the short sale. However, your gain when closing a short sale is short term if you (a) buy substantially identical property starting for 1 year or less on the date of the short sale, or (b) acquired property substantially identical to the property sold short after the short sale but on or before the date you close the short sale. If you held substan- tially identical property for more than 1 year on the date of a short sale, any loss realized on the short sale is a long-term capital loss, even if the property used to close the short sale was held 1 year or less.

If you received a Form 1099-B for a short sale you entered into in 2010 but that did not close in 2010, report it on line 1 or line 8. Enter the sales price in column (d). If the short sale did not close in 2010, enter “Open Short Sale” in column (e) and -0- in column (f). When the short sale is closed in a later year, report any gain or loss on your return for that year.

TIP
SSBIC. A specialized small business investment company (SSBIC) is treated as having met test 5b.

Qualified Business
A qualified business is any business that is not one of the following.

- A business involving services performed in the fields of health, law, engi- neering, architecture, accounting, actuarial science, performing arts, consulting, athlet- ics, financial services, or brokerage serv- ices.
- A business whose principal asset is the reputation or skill of one or more em- ployees.
- A banking, insurance, financing, leas- ing, investing, or similar business.
• A farming business (including the raising or harvesting of trees).
• A business involving the production of products for which percentage depletion can be claimed.
• A business of operating a hotel, motel, restaurant, or similar business.

For more details about limits and additional requirements that may apply, see Pub. 550 or section 1202.

Empowerment Zone Business Stock
You generally can exclude up to 60% of your gain if you meet the following additional requirements.

1. The stock you sold or exchanged was stock in a corporation that qualified as an empowerment zone business during substantially all of the time you held the stock.

Requirement 1 will still be met if the corporation ceased to qualify after the 5-year period that began on the date you acquired the stock. However, the gain that qualifies for the 60% exclusion cannot be more than the gain you would have had if you had sold the stock on the date the corporation ceased to qualify.

For more information about empowerment zone businesses, see section 1397C.

Pass-Through Entities
If you held an interest in a pass-through entity (a partnership, S corporation, or mutual fund or other regulated investment company) that sold QSB stock, to qualify for the exclusion you must have held the interest on the date the pass-through entity acquired the QSB stock and at all times thereafter until the stock was sold.

How To Report
Report on line 8 the entire gain realized on the sale of QSB stock. Complete all columns as indicated. Directly below the line on which you reported the gain, enter in column (a) “Section 1202 exclusion” and enter as a loss in column (f) the amount of your allowable exclusion as a loss. If you are completing line 18 of Schedule D, enter as a positive number the amount of your allowable exclusion on line 2 of the 28% Rate Gain Worksheet on page D-8; if you excluded 60% of the gain, enter ½ of the exclusion.

Gain from Form 1099-DIV. If you received a Form 1099-DIV with a gain in box 2c, part or all of that gain (which is also included in box 2a) may be eligible for the section 1202 exclusion. In column (a) of line 8, enter the name of the corporation whose stock was sold. In column (f), enter the amount of your allowable exclusion as a loss. If you are completing line 18 of Schedule D, enter as a positive number the amount of your allowable exclusion on line 2 of the 28% Rate Gain Worksheet on page D-8; if you excluded 60% of the gain, enter ½ of the exclusion.

Gain from Form 2439. If you received a Form 2439 with a gain in box 1c, part or all of that gain (which is also included in box 1a) may be eligible for the section 1202 exclusion. In column (a) of line 8, enter the name of the corporation whose stock was sold. In column (f), enter the amount of your allowable exclusion as a loss. If you are completing line 18 of Schedule D, enter as a positive number the amount of your allowable exclusion on line 2 of the 28% Rate Gain Worksheet on page D-8; if you excluded 60% of the gain, enter ½ of the exclusion.

Rollover of Gain From QSB Stock
If you sold QSB stock (defined on page D-4) that you held for more than 6 months, you can elect to postpone gain if you purchase other QSB stock during the 60-day period that began on the date of the sale. A pass-through entity also can make the election to postpone gain. The benefit of the postponed gain applies to your share of the entity’s postponement gain if you held an interest in the entity for the entire period the entity held the QSB stock. If a pass-through entity sold QSB stock held for more than 6 months and you held an interest in the entity for the entire period the entity held the stock, you also can elect to postpone gain if you, rather than the pass-through entity, purchase the replacement QSB stock within the 60-day period. If you were a partner in a partnership that sold or bought QSB stock, see box 11 of the Schedule K-1 (Form 1065) sent to you by the partnership and Regulations section 1.1045-1.

You must recognize gain to the extent the sale proceeds exceed the cost of the replacement stock. Reduce the basis of the replacement stock by any postponed gain.

You must make the election no later than the due date (including extensions) for filing your tax return for the tax year in which the QSB stock was sold. If your original return was filed on time, you can make the election only on an amended return filed no later than 6 months after the due date of your return (excluding extensions). Write “Filed pursuant to section 301.9100-2” at the top of the amended return.

To make the election, report the entire gain realized on the sale on line 1 or 8. Directly below the line on which you reported the gain, enter in column (a) “Section 1045 rollover,” and enter the amount of the postponed gain as a (loss) in column (f).

Rollover of Gain From Empowerment Zone Assets
If you sold a qualified empowerment zone asset that you held for more than 1 year, you may be able to elect to postpone part or all of the gain that you would otherwise include on Schedule D. If you make the election, the gain on the sale generally is recognized only to the extent, if any, that the amount realized on the sale exceeds the cost of qualified empowerment zone assets (replacement property) you purchased during the 60-day period beginning on the date of the sale. The following rules apply.

• No portion of the cost of the replacement property may be taken into account to the extent the cost is taken into account to exclude gain on a different empowerment zone asset.
• The replacement property must qualify as an empowerment zone asset with respect to the same empowerment zone as the asset sold.
• You must reduce the basis of the replacement property by the amount of postponed gain.
• This election does not apply to any gain (a) treated as ordinary income or (b) attributable to real property, or an intangible asset, that is not an integral part of an enterprise zone business.
• The District of Columbia enterprise zone is not treated as an empowerment zone for this purpose.
• The election is irrevocable without IRS consent.

See section 1397C for the definition of empowerment zone and enterprise zone business. You can find out if your business is located within an empowerment zone by using the RC/EZ/EC Address Locator at www.hud.gov/r elo cator.

Qualified empowerment zone assets are:
1. Tangible property, if:
   a. You acquired the property after December 21, 2000,
   b. The original use of the property in the empowerment zone began with you, and
   c. Substantially all of the use of the property, during substantially all of the time that you held it, was in your enterprise zone business; and
   2. Stock in a domestic corporation or a capital or profits interest in a domestic partnership, if:
      a. You acquired the stock or partnership interest after December 21, 2000, solely in exchange for cash, from the corporation at its original issue (directly or through an underwriter) or from the partnership;
      b. The business was an enterprise zone business (or a new business being organized as an enterprise zone business) as of the time you acquired the stock or partnership interest; and
      c. The business qualified as an enterprise zone business during substantially all
of the time you held the stock or partnership interest.

How to report. Report the entire gain realized from the sale as you otherwise would without regard to the election. On Schedule D, line 8, enter “Section 1397B Rollover” in column (a) and enter as a loss in column (f) the amount of gain included on Schedule D that you are electing to postpone. If you are reporting the sale directly on Schedule D, line 8, use the line directly below the line on which you are reporting the sale.

See section 1397B for more details.

Exclusion of Gain From DC Zone Assets

If you sold or exchanged a District of Columbia Enterprise Zone (DC Zone) asset that you acquired after 1997 and held for more than 5 years, you may be able to exclude the amount of qualified capital gain that you would otherwise include on Schedule D. The exclusion applies to an interest in, or property of, certain renewal community businesses.

Qualified community asset. A qualified community asset is any of the following.

- Qualified community stock.
- Qualified community partnership interest.
- Qualified community business property.

Qualified capital gain. Qualified capital gain is any gain recognized on the sale or exchange of a qualified community asset but does not include any of the following.

- Gain treated as ordinary income under section 1245.
- Section 1250 gain figured as if section 1250 applied to all depreciation rather than the additional depreciation.
- Gain attributable to real property, or an intangible asset, that is not an integral part of a qualified community business.

See section 1400F for more details and special rules.

How to report. Report the entire gain realized from the sale or exchange as you otherwise would without regard to the exclusion. On Schedule D, line 8, enter “Qualified Community Asset” in column (a) and enter as a loss in column (f) the amount of the allowable exclusion. If you are reporting the sale directly on Schedule D, line 8, use the line directly below the line on which you are reporting the sale.

Qualified capital gain. Qualified capital gain is any gain recognized on the sale or exchange of a qualified community asset that is not an integral part of a DC Zone business. You must attach Schedule D-1 (or a substitute statement) that you are electing to postpone. If you are reporting the sale directly on Schedule D, line 8, use the line directly below the line on which you are reporting the sale.

Specific Instructions

Lines 1 and 8

Enter all sales and exchanges of capital assets, including stocks, bonds, etc., and real estate (if not reported on Form 4684, 4797, 6252, 6781, or 8824). But do not report the sale or exchange of your main home unless required (see page D-2). Include these transactions even if you did not receive a Form 1099-B or 1099-S (or substitute statement) for the transaction. You can use stock ticker symbols or abbreviations to describe the property as long as they are based on the descriptions of the property as shown on Form 1099-B or 1099-S (or substitute statement).

You must enter the details of each transaction on a separate line of Schedule D. If you have more than five transactions to report on line 1 or line 8, you can report the additional transactions on Schedule D-1. Instead of reporting your transactions on Schedules D and D-1, you can report them on an attached statement containing all the same information as Schedules D and D-1 and in a similar format. Use as many Schedules D-1 or attached statements as you need. Enter on Schedule D, lines 2 and 9, the combined totals from all your Schedules D-1 or the attached statements. Do not enter “available upon request” and summary totals in lieu of reporting the details of each transaction. Schedule D-1 or the attached statements.

If you e-file your return but elect not to include your transactions on the electronic short-term capital gain (or loss) or long-term capital gain (or loss) records, you must attach Schedule D-1 (or a statement with the same information) to Form 8453 and mail the forms to the IRS.

Add the following amounts reported to you for 2010 on Forms 1099-B and 1099-S (or substitute statements) that are not reporting on another form or schedule included with your return: (a) proceeds from transactions involving stocks, bonds, and other securities; and (b) gross proceeds from real estate transactions (other than the sale of your main home if you are not required to report it). If this total is more than the total of lines 3 and 10, attach an explanation of the difference (for example, you were the nominee for the actual owner of the property).

Column (b)—Date Acquired

Enter in this column the date you acquired the asset. Use the trade date for stocks and bonds traded on an exchange or over-the-counter market. For stock or other property sold short, enter the date the stock or property was delivered to the broker or lender to close the short sale.

The date acquired for an asset you held on January 1, 2001, for which you made an election to recognize any gain in a deemed sale is the date of the deemed sale and reacquisition.

If you disposed of property that you acquired by inheritance from someone who died before 2010, report the gain or (loss) on line 8 and enter “INHERITED” in column (b) instead of the date you acquired the property. If you inherited the property from someone who died after 2009, see Pub. 4895.

If you sold a block of stock (or similar property) that you acquired through several different purchases, you may report the sale on one line and enter “VARIOUS” in column (b). However, you still must report the short-term gain or (loss) on the sale in Part I and the long-term gain or (loss) in Part II.

Column (c)—Date Sold

Enter in this column the date you sold the asset. Use the trade date for stocks and bonds traded on an exchange or over-the-counter market. For stock or other property sold short, enter the date you sold the stock or property you borrowed to open the short sale transaction.

D-6
**Column (d)—Sales Price**

Enter in this column either the gross sales price or the net sales price from the sale. If you sold stocks or bonds and you received a Form 1099-B (or substitute statement) from your broker that shows gross sales price, enter that amount in column (d). But if Form 1099-B (or substitute statement) indicates that gross proceeds minus commissions and option premiums were reported to the IRS, enter that net amount in column (d). If you enter the net amount in column (d), do not include the commissions and option premiums from the sale in column (e).

You should not have received a Form 1099-B (or substitute statement) for a transaction merely representing the return of your original investment in a nontransferable obligation, such as a savings bond or a certificate of deposit. But if you did, report the amount shown on Form 1099-B (or substitute statement) in both columns (d) and (e).

Be sure to add all sales price entries on lines 1 and 8, column (d), to amounts on lines 2 and 9, column (d). Enter the totals on lines 3 and 10.

---

**Column (e)—Cost or Other Basis**

In general, the cost or other basis is the cost of the property plus purchase commissions and improvements, minus depreciation, amortization, and depletion. If you inherited the property, got it as a gift, or received it in a tax-free exchange, involuntary conversion, or “wash sale” of stock, you may not be able to use the actual cost as the basis. If you do not use the actual cost, attach an explanation of your basis.

If you sold stock, adjust your basis by subtracting all the nondividend distributions you received before the sale. Also adjust your basis for any stock splits. See Pub. 550 for details.

If you elected to recognize gain on an asset held on January 1, 2001, your basis in the asset is its closing market price or fair market value, whichever applies, on the date of the deemed sale and reacquisition, whether the deemed sale resulted in a gain or an unallowed loss.

You may elect to use an average basis for all shares of a mutual fund (or other regulated investment company) if you acquired the shares at various times and prices and you left the shares on deposit in an account handled by a custodian or agent who acquired or redeemed those shares. If you are reporting an average basis, include “AVGB” in column (a) of Schedule D. For details on making the election and how to figure average basis, see Pub. 550.

The basis of property acquired by gift is generally the basis of the property in the hands of the donor. The basis of property acquired from a decedent who died before 2010 is generally the fair market value at the date of death. See Pub. 551 for details. If you sold property that you inherited from someone who died after 2009, see Pub. 4895.

Increase the cost or other basis of an original issue discount (OID) debt instrument by the amount of OID that has been included in gross income for that instrument. See Pub. 550 for details.

If a charitable contribution deduction is allowed because of a bargain sale of property to a charitable organization, the adjusted basis for purposes of determining gain from the sale is the amount that has the same ratio to the adjusted basis as the amount realized has to the fair market value. See Pub. 544 for details.

Increase your cost or other basis by any expense of sale, such as broker’s fees, commissions, state and local transfer taxes, and option premiums, before making an entry in column (e), unless you reported the net sales price in column (d).

For more details, see Pub. 551.

**Capital Loss Carryover Worksheet—Lines 6 and 14**

Use this worksheet to figure your capital loss carryovers from 2009 to 2010 if your 2009 Schedule D, line 21, is a loss and (a) that loss is a smaller loss than the loss on your 2009 Schedule D, line 16, or (b) the amount on your 2009 Form 1040, line 41 (or your 2009 Form 1040NR, line 38, if applicable), reduced by any amount on your 2009 Form 8914, line 6, is less than zero. Otherwise, you do not have any carryovers.

**D-7**
Column (f) — Gain or (Loss)
You must make a separate entry in this column for each transaction reported on lines 1 and 8 and any other line(s) that applies to you. For lines 1 and 8, subtract the amount in column (e) from the amount in column (d). Enter negative amounts in parentheses.

Line 18
If you checked “Yes” on line 17, complete the worksheet below if either of the following apply for 2010.
- You reported in Part II a section 1202 exclusion from the eligible gain on qualified small business stock (see page D-4).
- You reported in Part II a collectibles gain or (loss). A collectibles gain or (loss) is any long-term gain or deductible long-term loss from the sale or exchange of a collectible that is a capital asset.

Collectibles include works of art, rugs, antiques, metals (such as gold, silver, and platinum bullion), gems, stamps, coins, alcoholic beverages, and certain other tangible property.

Include on the worksheet any gain (but not loss) from the sale or exchange of an interest in a partnership, S corporation, or trust held for more than 1 year and attributable to unrealized appreciation of collectibles. For details, see Regulations section 1.1(h)-1. Also, attach the statement required under Regulations section 1.1(h)-1(e).

Line 19
If you checked “Yes” on line 17, complete the worksheet on page D-9 if any of the following apply for 2010.
- You sold or otherwise disposed of section 1250 property (generally, real property that you depreciated) held more than 1 year.
- You received installment payments for section 1250 property held more than 1 year for which you are reporting gain on the installment method.
- You received a Schedule K-1 from an estate or trust, partnership, or S corporation that shows “unrecaptured section 1250 gain.”
- You received a Form 1099-DIV or Form 2439 from a real estate investment trust or regulated investment company (including a mutual fund) that reports “unrecaptured section 1250 gain.”
- You reported a long-term capital gain from the sale or exchange of an interest in a partnership that owned section 1250 property.

Instructions for the Unrecaptured Section 1250 Gain Worksheet
Lines 1 through 3. If you had more than one property described on line 1, complete lines 1 through 3 for each property on a separate worksheet. Enter the total of the line 3 amounts for all properties on line 4 and go to line 4.

Line 4. To figure the amount to enter on line 4, follow the steps below for each installment sale of trade or business property held more than 1 year.

1. Figure the smaller of (a) the depreciation allowed or allowable, or (b) the total gain for the sale. This is the smaller of line 22 or line 24 of your 2010 Form 4797 (or the comparable lines of Form 4797 for the year of sale) for the property.

2. Reduce the amount figured above in step 1 by any section 1250 ordinary income recapture for the sale. This is the amount from line 26g of your 2010 Form 4797 (or the comparable line of Form 4797 for the year of sale) for the property. The result is your total unrecaptured section 1250 gain that must be allocated to the installment payments received from the sale.

3. Generally, the amount of section 1231 gain on each installment payment is treated as unrecaptured section 1250 gain until the total unrecaptured section 1250 gain figured in step 2 has been used in full. Figure the amount of gain treated as unrecaptured section 1250 gain for installment payments received in 2010 as the smaller of (a) the amount from line 26 or line 37 of your 2010 Form 6252, whichever applies, or (b) the amount of unrecaptured section 1250 gain remaining to be reported. This amount is generally the total unrecaptured section 1250 gain for the sale reduced by all gain reported in prior years (excluding section 1250 ordinary income recapture). However, if you chose not to treat all of the gain from payments received after May 6, 1997, and before August 24, 1999, as unrecaptured section 1250 gain, use only the amount you chose to treat as unrecaptured section 1250 gain for those payments to reduce the total unrecaptured section 1250 gain remaining to be reported for the sale. Include this amount on line 4.

Line 10. Include on line 10 your share of the partnership’s unrecaptured section 1250 gain that would result if the partnership had transferred all of its section 1250 property in a fully taxable transaction immediately before you sold or exchanged your interest in that partnership. If you recognized less than all of the realized gain, the partnership will be treated as having transferred only a proportionate amount of each section 1250 property. For details, see Regulations section 1.1(h)-1. Also attach the statement required under Regulations section 1.1(h)-1(e).

Line 12. An example of an amount to include on line 12 is unrecaptured section 1250 gain from the sale of a vacation home you previously used as a rental property but converted to personal use prior to the sale. To figure the amount to enter on line 12, follow the applicable instructions below.

Installment sales. To figure the amount to include on line 12, follow the steps below for each installment sale of property held more than 1 year for which you did not make an entry in Part I of your Form 4797 for the year of sale.

1. Figure the smaller of (a) the depreciation allowed or allowable, or (b) the total gain for the sale. This is the smaller of line 22 or line 24 of your 2010 Form 4797 (or the comparable lines of Form 4797 for the year of sale) for the property.

2. Reduce the amount figured in step 1 by any section 1250 ordinary income recapture for the sale. This is the amount from line 26g of your 2010 Form 4797 (or the comparable line of Form 4797 for the year of sale) for the property.

3. Generally, the amount of section 1231 gain on each installment payment is treated as unrecaptured section 1250 gain until the total unrecaptured section 1250 gain figured in step 2 has been used in full. Figure the amount of gain treated as unrecaptured section 1250 gain for installment payments received in 2010 as the smaller of (a) the amount from line 26 or line 37 of your 2010 Form 6252, whichever applies, or (b) the amount of unrecaptured section 1250 gain remaining to be reported. This amount is generally the total unrecaptured section 1250 gain for the sale reduced by all gain reported in prior years (excluding section 1250 ordinary income recapture). However, if you chose not to treat all of the gain from payments received after May 6, 1997, and before August 24, 1999, as unrecaptured section 1250 gain, use only the amount you chose to treat as unrecaptured section 1250 gain for those payments to reduce the total unrecaptured section 1250 gain remaining to be reported for the sale. Include this amount on line 4.
your total unrecaptured section 1250 gain that must be allocated to the installment payments received from the sale.

- Step 3. Generally, the amount of capital gain on each installment payment is treated as unrecaptured section 1250 gain until the total unrecaptured section 1250 gain figured in step 2 has been used in full. Figure the amount of gain treated as unrecaptured section 1250 gain for installment payments received in 2010 as the smaller of (a) the amount from line 26 or line 37 of your 2010 Form 6252, whichever applies, or (b) the amount of unrecaptured section 1250 gain remaining to be reported. This amount is generally the total unrecaptured section 1250 gain for the sale reduced by all gain reported in prior years (excluding section 1250 ordinary income recapture). However, if you chose not to treat all of the gain from payments received after May 6, 1997, and before August 24, 1999, as unrecaptured section 1250 gain, use only the amount you chose to treat as unrecaptured section 1250 gain for those payments to reduce the total unrecaptured section 1250 gain remaining to be reported for the sale. Include this amount on line 12.

Other sales or dispositions of section 1250 property. For each sale of property held more than 1 year (for which you did not make an entry in Part I of Form 4797), figure the smaller of (a) the depreciation allowed or allowable, or (b) the total gain for the sale. This is the smaller of line 22 or line 24 of Form 4797 for the property. Next, reduce that amount by any section 1250 ordinary income recapture for the sale. This is the amount from line 26g of Form 4797 for the property. The result is the total unrecaptured section 1250 gain for the sale. Include this amount on line 12.

Line 21
You have a capital loss carryover from 2010 to 2011 if you have a loss on line 16 and either:

- That loss is more than the loss on line 21, or
- The amount on Form 1040, line 41 (or Form 1040NR, line 39, if applicable), is less than zero.

To figure any capital loss carryover to 2011, you will use the Capital Loss Carryover Worksheet in the 2011 Instructions for Schedule D. If you want to figure your carryover to 2011 now, see Pub. 550.

You will need a copy of your 2010 Form 1040 and Schedule D to figure your capital loss carryover to 2011.
